

### RESPONSE TO FREEDOM OF INFORMATION ACT (FOIA) REQUEST

2017-0265

1

RESPONSE TYPE  INTERIM  FINAL

**REQUESTER:**

Madison Hopkins

**DATE:**

02/15/2017

**DESCRIPTION OF REQUESTED RECORDS:**

Personnel records reflecting the work histories of resident inspectors and senior resident inspectors assigned to the active nuclear plants in Illinois (based upon your modification to the original request).

#### PART I. - INFORMATION RELEASED

- Agency records subject to the request are already available in public ADAMS or on microfiche in the NRC Public Document Room.
- Agency records subject to the request are enclosed.
- Records subject to the request that contain information originated by or of interest to another Federal agency have been referred to that agency (see comments section) for a disclosure determination and direct response to you.
- We are continuing to process your request.
- See Comments.

#### PART I.A - FEES

AMOUNT\*

\$

\*See Comments for details

- You will be billed by NRC for the amount listed.
- None. Minimum fee threshold not met.
- You will receive a refund for the amount listed.
- Fees waived.

#### PART I.B - INFORMATION NOT LOCATED OR WITHHELD FROM DISCLOSURE

- We did not locate any agency records responsive to your request. *Note:* Agencies may treat three discrete categories of law enforcement and national security records as not subject to the FOIA ("exclusions"). 5 U.S.C. 552(c). This is a standard notification given to all requesters; it should not be taken to mean that any excluded records do, or do not, exist.
- We have withheld certain information pursuant to the FOIA exemptions described, and for the reasons stated, in Part II.
- Because this is an interim response to your request, you may not appeal at this time. We will notify you of your right to appeal any of the responses we have issued in response to your request when we issue our final determination.
- You may appeal this final determination within 30 calendar days of the date of this response by sending a letter or email to the FOIA Officer, at U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or [FOIA.Resource@nrc.gov](mailto:FOIA.Resource@nrc.gov). Please be sure to include on your letter or email that it is a "FOIA Appeal."

#### PART I.C COMMENTS ( Use attached Comments continuation page if required)

In conformance with the FOIA Improvement Act of 2016, the NRC is informing you that: (1) you have the right to seek assistance from the NRC's FOIA Public Liaison; (2) you have the right to seek dispute resolution services from the NRC's FOIA Public Liaison or the Office of Government Information Services; and (3) notwithstanding the language in Parts I.B and II.B of this form, you may appeal this final determination within 90 calendar days of the date of this response by sending a letter or email to the FOIA Officer, at U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or [FOIA.Resource@nrc.gov](mailto:FOIA.Resource@nrc.gov). Please be sure to include on your letter or email that it is a "FOIA Appeal."

**SIGNATURE - FREEDOM OF INFORMATION ACT OFFICER**

Stephanie A. Blaney

**RESPONSE TO FREEDOM OF INFORMATION ACT (FOIA) REQUEST**

2017-0265

DATE:

02/15/2017

**PART II.A -- APPLICABLE EXEMPTIONS**

Records subject to the request are being withheld in their entirety or in part under the FOIA exemption(s) as indicated below (5 U.S.C. 552(b)).

- Exemption 1: The withheld information is properly classified pursuant to an Executive Order protecting national security information.
- Exemption 2: The withheld information relates solely to the internal personnel rules and practices of NRC.
- Exemption 3: The withheld information is specifically exempted from public disclosure by the statute indicated.
  - Sections 141-145 of the Atomic Energy Act, which prohibits the disclosure of Restricted Data or Formerly Restricted Data (42 U.S.C. 2161-2165).
  - Section 147 of the Atomic Energy Act, which prohibits the disclosure of Unclassified Safeguards Information (42 U.S.C. 2167).
  - 41 U.S.C. 4702(b), which prohibits the disclosure of contractor proposals, except when incorporated into the contract between the agency and the submitter of the proposal.
- Exemption 4: The withheld information is a trade secret or confidential commercial or financial information that is being withheld for the reason(s) indicated.
  - The information is considered to be proprietary because it concerns a licensee's or applicant's physical protection or material control and accounting program for special nuclear material pursuant to 10 CFR 2.390(d)(1).
  - The information is considered to be another type of confidential business (proprietary) information.
  - The information was submitted by a foreign source and received in confidence pursuant to 10 CFR 2.390(d)(2).
- Exemption 5: The withheld information consists of interagency or intraagency records that are normally privileged in civil litigation.
  - Deliberative process privilege.
  - Attorney work product privilege.
  - Attorney-client privilege.
- Exemption 6: The withheld information from a personnel, medical, or similar file, is exempted from public disclosure because its disclosure would result in a clearly unwarranted invasion of personal privacy.
- Exemption 7: The withheld information consists of records compiled for law enforcement purposes and is being withheld for the reason(s) indicated.
  - (A) Disclosure could reasonably be expected to interfere with an open enforcement proceeding.
  - (C) Disclosure could reasonably be expected to constitute an unwarranted invasion of personal privacy.
  - (D) The information consists of names and other information the disclosure of which could reasonably be expected to reveal identities of confidential sources.
  - (E) Disclosure would reveal techniques and procedures for law enforcement investigations or prosecutions, or guidelines that could reasonably be expected to risk circumvention of the law.
  - (F) Disclosure could reasonably be expected to endanger the life or physical safety of an individual.
- Other

**PART II.B -- DENYING OFFICIALS**

In accordance with 10 CFR 9.25(g) and 9.25(h) of the U.S. Nuclear Regulatory Commission regulations, the official(s) listed below have made the determination to withhold certain information responsive to your request.

DENYING OFFICIAL	TITLE/OFFICE	RECORDS DENIED	APPELLATE OFFICIAL	
			EDD	SECY
Stephanie A. Blaney	FOIA Officer	third party PII	<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>
			<input type="checkbox"/>	<input type="checkbox"/>

Appeals must be made in writing within 30 calendar days of the date of this response by sending a letter or email to the FOIA Officer, at U.S. Nuclear Regulatory Commission, Washington, D.C. 20555-0001, or [FOIA.Resource@nrc.gov](mailto:FOIA.Resource@nrc.gov). Please be sure to include on your letter or email that it is a "FOIA Appeal."

THE FEDERAL GOVERNMENT IS AN EQUAL OPPORTUNITY EMPLOYER

170-108

U.S. Civil Service Commission Standard Form 171 (Rev. 1-77)

Reactor Inspector/Specialist

2. Options for which you wish to be considered (if listed in the announcement)

3. Home phone

4. Work phone

5. Preferred title (mark one)

6. Other (list names ever used (e.g., aliases))

7. Name (Last, First, Middle)

8. Birth date (City & State, or foreign country)

9. Birth date (Month, day, year)

10. Social Security Number

11. If you have ever been employed by the Federal Government as a civilian, give your highest grade, classification series, and job title.

12. If you currently have an application on file with the Civil Service Commission for appointment to a Federal position, (a) list the name of the area office maintaining your application, (b) the position for which you filed, and (c) the date of your notice of filing, (d) your identification number, and (e) your rating.

13. Lowest pay or grade you will accept:

14. When will you be available for temporary employment (listing):

15. Are you available for temporary employment (listing):

16. Indicate your availability for overnight travel:

17. Where will you accept a job?

18. Are you impressed in being considered for employment by:

19. Are you available for part-time positions (lower than 40 hours per week) during:

20. Veteran Preference. Answer all parts. If a part does not apply to you, answer "NO."

A. Have you ever served on active duty in the United States military service? (Exclude tours of active duty for training in Reserves or National Guard)

B. Have you ever been discharged from the armed services under other than honorable conditions? (You may omit any such discharges changed to honorable or general by a Discharge Review Board or similar authority.)

C. Do you claim 5 point preference based on active duty in the armed forces?

D. Do you claim 10 point preference?

E. List dates, branch, and serial number of all active service (omit "N/A" if not applicable).

F. From

G. To

H. Branch of Service

I. Serial or Service Number

J. Type of Preference:

K. Compensable

L. Non-compensable

M. Purple Heart

N. Spouse

O. Widower

P. Mother

Core Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answer:

1. (b)(6)

2. Are you a current Federal employee?

Answer:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answer:

3. I am not a current Federal employee

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answer:

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answer:

**US Nuclear Regulatory Commission  
All Applicant Data Report**

Announcement Number: R-II/DRS-2008-0014

Position Title: Emergency Preparedness Inspector

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answer:

5. Not applicable

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answer: NA

12. . If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answer: NA

13. May we contact your current supervisor for a reference?

Answer:

3. Please contact me first

14. Does the NRC employ any member of your family?

Answer:

2 (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answer:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answer:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answer:

1 (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answer:

3. Not Applicable

Position Title: Emergency Preparedness Inspector

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

1. Yes

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

6. None of the above

Assessment Questions

What locations do you wish to apply to?

Atlanta, GA

What Grades do you wish to apply to?

13

All Grades

1. (X0175) Detailed and comprehensive knowledge of the principles, theories, and practices of radiological emergency preparedness and emergency plan development, licensing, and inspection at nuclear power plants.

Answer: As the Emergency Plan Custodian, my review and updating the Perry Nuclear Power Plant Emergency Plan in accordance with 10CFR50.54(q), 10CFR50.47(b) and Appendix E is the bedrock of process controls to all things related to emergency preparedness. The basis for all emergency plans, NUREG 654, is incorporated into the actual licensing document for our station, the Safety Evaluation Report approved Emergency Plan. It is this document to which federal inspections and regulatory compliance are measured. These inspections occur annually with respect to plan and implementing instruction changes, corrective action program tracking and the three performance indicators of organizational participation, siren/notification program and the drill and exercise program. On a biennial frequency, the above items, a complete review of the 16 planning standards and Appendix E of 10CFR50.47, and an evaluated exercise challenging the objectives based in NUREG 654 are verified. This is a dual inspection with FEMA inspection the off site aspects of the plan and their responders. As the Radiological Drill and Exercise Coordinator, I author, test and coordinate all drills and exercises

**US Nuclear Regulatory Commission**  
**All Applicant Data Report**

Announcement Number: R-II/DRS-2008-0014

Position Title: Emergency Preparedness Inspector

to meet the objectives outlined in NUREG 0654 as delineated in the PNPP Emergency Plan and supporting instructions. This previous fall, PNPP performed its Threat Based Drill. I; developed, coordinated and directed drill material, table top drill and actual exercise. The drill was recognized by the NRC, FEMA and the nuclear industry as standard setting event. The PNPP event included over 25 federal, state, local and private agencies.

2. (X0176) Knowledge of Federal and State legislation, Executive Orders, and government regulations related to incident or emergency preparedness and planning programs.  
Answer: In addition to a working knowledge of the Code driving Emergency Planning, 10CFR50.72 immediate notification requirements for operating nuclear power reactors, as well as the accuracy and completeness of the information as regulated by 10CFR50.5, 50.8 and 50.9 all drive the work completed the emergency response or planning sections of the station. These regulations are complemented by additional federal instruction in the form of NUREGs for plan development and Emergency Action Level schemes, FEMA directives on radiological release and dose assessment, Presidential directives on emergency response and management structure. Additional state and local code must also be addressed in both the everyday operation of the plant and notification process as well as drill and exercise objective criteria. Exposure to these items was accelerated upon my entering the Emergency Response Section as PNPP was entering the 95-03- inspection process. With several of the risk significant corner stones challenged, almost a complete loss of the on-site planners, the remaining members of the section was placed on a steep learning curve to restore the program to acceptable standards. After many months of corrections and an approving inspection, the station then proved itself with the biennial inspection and successful evaluated exercise.

3. (X0179) Demonstrated ability to formulate and document sound technical judgements on the adequacy of emergency preparedness and emergency planning programs.

Answer: As a result of the renewed Emergency Planning program, including rigorous 50.54(q) reviews of plan changes, implementing instruction changes, a complete review of the Emergency Action Level scheme changes, a revised training program, the inclusion of threat based objectives and actions, every day operations within the current section is viewed with code and regulations in mind. A review of the equipment for classification, dose assessment, emergency facility support, communication impact comes to mind with each piece of Plan related equipment outage or failure that I address in the corrective action program. Contingencies and notifications are reviewed and plant management is provided a list of the equipment, impact on regulation, contingencies and the current work plan to restore the equipment to service. Likewise, drills and exercises are evaluated against the planning standards during the critique process and binned accordingly. My continued growth in the regulatory space has allowed me to push these items to site senior management with the backing of the code to ensure the Plan requirements are met. This documentation is also helpful during regulatory and

**US Nuclear Regulatory Commission  
All Applicant Data Report**

Announcement Number: R-II/DRS-2008-0014

Position Title: Emergency Preparedness Inspector

courtesy inspections to verify the soundness of the station's plan and implementing program.

4. (X0177) Demonstrated ability to evaluate activities and operational/emergency events at nuclear facilities, develop inspection or audit findings, and evaluate the adequacy of corrective actions.

Answer: As a member of the ENPP Emergency Response Section and coming out of a recent 95-01-inspection, I have had an opportunity to review an abnormally large number of Alert emergency action level events. The lessons learned from late classifications, to inappropriate entry, to dose assessment issues prior to my arrival to the Emergency Response Section have exposed me to an unusual amount of operational experience. The recovery effort, of which I was involved, was not necessarily a punitive exercise, but a steady diet of education, hard work and assessment, both internal and external. Regional NRC Emergency Preparedness exposure provided corrective instruction and I took advantage of their assistance. The NEI courses offered in Emergency Planning were helpful, but the actual rebuilding of the Emergency Planning program with its successes and failures, provided a long lasting understanding and appreciation for the regulation. With time and money at a premium, it also allowed for a focused review of what the section's business really was. Processes that had been distracting the organization was removed, improvements in equipment that were required, like Dialogics, were made. Personnel were reviewed and their positional roles were clarified. During this time of great assessment, documentation of issues through the corrective action process improved to make the identification of issues more clear and the resolution of actions more precise. This history of documentation is carried on to our current operations outside of the increased inspection process. Tracking of equipment issues or drill/exercise performance can easily be binned and compared to historical data to determine if program or individual weaknesses exist.

5. (X0180) Demonstrated skill to clearly communicate technical information, inspection or examination finding, performance assessments, and program information, both orally and in writing, to licensees, applicants, and members of the public and to establish effective working relationships with supervisors, government and industry officials, utility employees/managers, coworkers, media personnel, NRC officials and management.

Answer: Prior to coming to the Emergency Response Section, my task was to educate and evaluate the ability of the station's licensed and non-licensed operators. Having past operational experience, I was able to concentrate on the delivery of the information without having to spend excessive amounts of time learning it. It was in front of the classroom that my ability to communicate technical ability in a manner that was understandable to the shift engineer down to the auxiliary operators was honed. As the author and presenter of this accredited program's information, it was here that I discovered the necessity to learn the rules or code that drove the actions, addressing

**Position Title:** Emergency Preparedness Inspector

those issues first, and then adding any additional items only after the requirements had be satisfactorily presented. Coming out of the training program, I took these skills and then began to apply them to a wider audience. Directors, managers, engineers, trades and laborers were now my audience. Presenting the required information, sticking to the facts and avoiding opinion have allowed me to build up a trust and buy in to my instruction. I have been able to apply these same strategies when dealing with federal, state and local agencies. This was demonstrated in the Threat Based drill in which I brokered an agreement in NIMS understanding between the various off-site agencies which I believe allowed the station and community to have a very success drill. As a result, PNPP efforts have been highlighted in industry (NEI) and national (FEMA) forums.

Emergency Response Section Staff Nuclear Specialist

Emergency Plan Custodian; review and update the Perry Nuclear Power Plant Emergency Plan in accordance with 10CFR50.54(q), 10CFR50.47(b) and Appendix E.

Emergency Response Organization training instructor; complete update of the training program using a procedure based job task analysis and a graded approach to training in keeping with the Systematic Approach to Training (SAT). Resulted in knowledge based (classroom) and skill based (performance) instruction and evaluation improvement to the program.

Radiological Drill and Exercise Coordinator; author, test and coordinate all drills and exercises to meet the objectives outlined in NUREG 0654 and as delineated in the PNPP Emergency Plan and supporting instructions.

Threat Based Drill; developed, coordinated and directed drill material, table top drill and actual exercise. Recognized by the NRC, FEMA and the nuclear industry as standard setting event. The PNPP event included over 25 federal, state, local and private agencies.

SRO Certified Operations Instructor; analyzed, designed, developed, implemented and evaluated all aspects of the licensed and non-licensed operator training program as a classroom and simulator instructor.

Simulator Training Developer; developed Phase 1 digital feed water control and S3R reactor core model upgrade. Resulted in zero (0) related plant shutdowns during the operating cycle. Researched and developed training for reactor power instabilities and operator response as a result of new core model capabilities, fuel constitution and recent industry events.

### Objective

A technical/managerial position where I may draw on my diverse experience, extensive education and proven work ethic to optimize organizational efficiency and labor/equipment productivity.

### Summary of Qualifications

#### Licensed Unit Operator (UO) NRC # OP-21085

Responsible for the remote monitoring and operating of a large commercial boiling water reactor (BWR) nuclear power plant and the direct supervision of support personnel required for the safe operation of equipment associated with it. Requirements include: federal licensing; verbatim procedural compliance, prompt and correct actions to mitigate any adverse conditions, and ultimate responsibility to act in a manner to protect general public safety.

#### Engineering Watch Supervisor (EWS)

Directly supervised all aspects and personnel of a naval nuclear propulsion and power plant including: maintenance, emergency operations, chemistry requirements, waste control/discharge and radiological concerns.

#### Reactor Operator (RO)

Operated naval nuclear reactor within prescribed limits to maintain propulsion and electrical generation. Scheduled all divisional maintenance, including the generating and observation of QA work packages. Maintained all reactor safety equipment in operational status. Maintained and aligned ships electrical distribution as required.

#### Instructor

Trained officer and enlisted personnel in the fields of nuclear physics and reactor safety equipment.

#### Electronics Technician (ET)

Trained in the corrective and preventative maintenance of numerous AC and DC equipment using Six Step Troubleshooting, various testing apparatuses and approved calibration/repair techniques.

#### Fire Protection Technician

Maintained all fire protection and prevention equipment by performing preventative maintenance and testing.

## Education

BS in Applied Science from Thomas Edison State College (Trenton, NJ) with 3.77 GPA.  
AA in Liberal Arts from Harold Washington College (Chicago, IL) with 3.81 GPA.  
Qualified as Nuclear Reactor Operator from National Academy for Nuclear Training (Decatur, AL).  
Qualified as Naval Reactor Operator from USN Nuclear Power School (Orlando, FL).  
Qualified as Electronics Technician from USN BE/E and ET/A Schools (Chicago, IL).

## Experience

Browns Ferry Nuclear Plant Athens, AL  
Assigned position of UO. Part of team effort to restore plant to Nuclear Regulatory Commission's SALP 1 (top rating) after an eight year forced shutdown. Received top yearly ratings as UO. Hired in directly to UO position due to outstanding naval career. Received zero sick leave usage for three consecutive years. Under consideration for advancement to management.

United States Navy Charleston, SC  
Carried out duties of EWS, RO, ET and instructor. Command advanced by Captain for superior job performance after just six months at command. Achieved most rapid advancement to EWS and RO positions during entire career of the Commanding Officer. Recommended for officer training program by top four senior line officers. Received numerous letters of commendation for outstanding performance, flawless maintenance scheduling and superb technical expertise. Chosen as and trained for command facilitator of diversity awareness training. Only enlisted engineering person to obtain undergraduate degree at Sub Group VI. Held secret clearance. (b)(6)

(b)(6)

Kent State University Kent, OH  
Performed duties of a Fire Protection Technician. Developed tracking system to catalogue routine preventative maintenance, ensuring operability of required equipment. Raised department output through strong work ethic and reorganization.

**Jamie Christopher Benjamin**

(b)(6)

*Objective: To apply operational and supervisory experience gained from the supervision of a naval pressurized water reactor plant to a commercial power plant.*

**Professional Experience**

December 1997 to Present

**Botchel Bottis**

Goose Creek, SC

✓ Nuclear Training Engineer.

- 1. Qualified Engineering Officer of the Watch for a naval SSW nuclear submarine plant (EOOW). Supervised the critical operation of enlisted watchstanders and personal training of officer students during various planned training sessions. Training sessions included : reactor/engine room start ups/shutdowns, electric plant shifts, reactor/steam plant transient evolutions, primary/secondary/reactor/radiological and chemical control. Have conducted over 100 reactor/engine room startups, and 100 reactor/engine room shutdowns. Approved preventative and corrective maintenance for all aspects of the plant to support daily operations*
- 2. Qualified Engineering Duty Officer (EDO). Supervised and approved all aspects of infrequent preventative and complex corrective maintenance during scheduled quarterly shutdowns ranging from primary valve replacement / hydrostatic testing to reactor control troubleshooting . Have conducted several reactor plant cooldowns and depressurizations from normal operating temperatures and pressures to near ambient conditions.*
- 3. Qualified Auxiliary Control Room Supervisor (ACRS). Ensure the readiness of class 1E and 2E loads of a supplementary emergency water injection system to meet the NRC requirements for a moored naval reactor plant.*
- 4. IDE Supervisor. Supervised a SSW plant simulator during student training sessions. Training sessions, included casualty operation, reactor/engine room startups, reactor/engine room shutdowns, solid plant training, reactor controls maintenance during critical operations and plant response streaming watches.*
- 5. Qualified Crew Training Engineer (CTE). Responsible for all aspects of training and counseling officer students and the supervision of enlisted staff training during their 6 month operational qualification program. Daily training duties included :Standing watch, conducting seminars, chairing oral and watch boards, providing oral checkouts, counseling/motivation sessions, managing a training quality control program, scheduling student watches, training events and boards consistent with the requirements set forth by Bottis and NAVSEA08*

## Education

✓ University of Tennessee (b)(6)  
Knoxville, TN  
Bachelor of Science in Chemical Engineering  
Cum Laude (3.8/4.0 Major, 3.5/4.0 Overall)  
Transcript available upon request.

Nuclear Power School (b)(6)  
Orlando, FL  
Naval Nuclear Advanced Engineering Degree  
(3.4/4.0 Overall)

**Cert #:** NSPDP-2005-0012-R3ChemEnPR

**Vacancy:** NSPDP-2005-0012 NSPDP- Univ of Puerto Rico & Polytechnic Univ of Puerto Rico

**Location:** Chicago Metro Area, IL

**Grade(s):** 07,09,11

**Applicant:** BETANCOURT-ROLDAN, DIANA

## Personal Data

<b>First Name:</b>	DIANA
<b>MI:</b>	
<b>Last Name:</b>	BETANCOURT-ROLDAN
<b>Address1:</b>	(b)(6)
<b>Address2:</b>	
<b>City:</b>	
<b>State:</b>	
<b>Zip Code:</b>	
<b>Plus 4:</b>	
<b>Phone:</b>	
<b>Email:</b>	
<b>US Citizen:</b>	
<b>Veteran Preference:</b>	
(b)(6)	

## Core Questions

1	Are you a vet who was separated from the armed forces under honorable conditions after completing an initial continuous tour of duty of 3 years (may have been released just short of 3 years)? (b)(6)
2	Are you a current Federal employee? No
3	If you are a current Federal employee, by what agency and organization are you employed? Not applicable
6	If you are a Federal employee, under what type of appointment are you currently serving? Not applicable
7	Are you a student appointee under the Student Career Experience Program who has completed all requirements for graduation and conversion under the SCEP appointing authority and is in the 120 day period for conversion to term, career or career-conditional appointment?

	Not Applicable
8	If you are NOT currently serving in the competitive or excepted service as a permanent career or career-conditional Federal employee, are you eligible for reinstatement based on a career or career-conditional Federal status in the competitive or excepted service? Not Applicable
9	If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held: Not applicable
14	May we contact your current supervisor for a reference? Yes
15	Does the US Nuclear Regulatory Commission employ any member of your family? (b)(6)
17	If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System? Not Applicable
18	If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption? Not Applicable
19	Are you a retiree receiving a Federal annuity, either military or civilian? (b)(6)
20	Have you accepted a buyout from a Federal agency within the past 5 years? Not Applicable

### Vacancy Data

NSPDP-2005-0012 NSPDP- Univ of Puerto Rico & Polytechnic Univ of Puerto Rico

All Grades	1	Do you have a BACHELOR'S degree; OR do you expect to complete a BACHELOR'S degree by September 2006? Yes
All Grades	1.1	What is the OFFICIAL academic title of the major (and/or minor) of your BACHELOR'S degree? Chemical Engineering
All Grades	1.3	Please indicate the school from which you received, OR will receive, your BACHELOR'S degree. University of Puerto Rico
All Grades	1.5	When was your Bachelor's degree granted, or when will it be granted? (b)(6)
All Grades	2	Do you have a MASTER'S degree; OR do you expect to complete a MASTER'S degree by September 2006? No
All Grades	3	Do you have a DOCTORAL degree; OR do you expect to complete a DOCTORAL degree by September 2006? No
All	4	Regarding your HIGHEST level engineering or science degree, what is your cumulative Grade Point Average (GPA)? APPLICANTS ARE RESPONSIBLE FOR

Grades		<p>CONVERTING TO 4.0 SCALE, IF ANOTHER SCALE IS USED.</p> <p>On a 4.0 scale, my cumulative GPA is between 3.25 and 4.0</p>
All Grades	5	<p>Please indicate the response that most accurately describes your work experience since entering college.</p> <p>I have technical work experience related to my area of study (engineering or physical science)</p>
All Grades	5.1	<p>Please DESCRIBE how your technical work experience relates to your academic major.</p> <p>Throughout my academic life I have been involved in a series of experiences that have enriched my technical knowledge in Chemical Engineering. I have worked as a coop in a chemical company, an intern with NSF/SRC Engineering Research Center for Environmentally Benign Semiconductor Manufacturing at the University of Arizona and as a researcher in the University of Puerto Rico-Mayaguez. This broad spectrum of experiences has helped me develop as a professional by having to apply my knowledge in different situations. As a result of being involved in Undergraduate Research I learned the importance of understanding a process and the need to look for improvement. For example my first two experiences involved biotechnical knowledge where I learned how to properly research, handle biological material and how to document all aspects of my endeavors. The names of these two projects were: "Quantitative Analysis of traces of Al, Zn, Cu and other metals in the hair of Alzheimer patients" and "Bacterial Adaptation to UV254 Light in Ultrapure Water Systems". From both of these experiences I learned to use equipments such as ICP, Atomic Spectroscopy, Autoclave and centrifuge to mention a few as well as apply my knowledge in biology, chemistry and electronics to interpret the results. My experience in the private industry as part of The Dow Chemical Company gave me an opportunity to apply what I had previously learned in my chemical engineering courses. During my first term I worked for the Gas Phase Technology Expertise Center (R&amp;D) at Charleston, WV where my duty was to refine a mathematical model of operation of a countercurrent Purge Bln. For this I applied principles that involved the use of velocities profiles, pressure drops and how changes in porosity affect purge bln effectiveness. From my work we were able to learn at strong dependency of the results on our calculation of Henry's constant and how different parameters affected the effectiveness of the equipment. By the end of my term the model was completely developed and only further testing with independent data was needed. My second term with the company was in the area of manufacturing in Polyethylene C at Plaquemine, LA. Tasks included equipment optimization (Absorption Refrigeration Unit), development of Air Permit Operating Discipline, and bed media replacement procedure as well as developing spreadsheets for equipment monitoring. To optimize the Air Refrigeration Unit we had to learn all the equipment specifications and talked with contractors. From analyzing all the data we deduced we needed a bigger steam header pressure and larger water fluxes to obtain the yield needed from that particular unit. The next step involved improving maintenance practices. I also reviewed the plant air permit and ensure we had an operating discipline ( guidelines to follow) in place for each point source in case of exceeding the permit. I recalculated the volatile organic compound emissions for each point source per cycle and see if the emissions agreed with our permit. In some cases I needed to use mass balance equations to see how much of the emissions were from ethylene, Carbon dioxide, etc. Two documents were generated one explaining how to calculate emissions and the other explained what to do if there was a risk of exceeding the permit.</p>
All Grades	6	<p>How many years of Full-Time Professional Engineering or Physical Science related work experience do you have since obtaining your degree?</p> <p>I have LESS THAN ONE (1) year of professional experience.</p>
All Grades	7	<p>Please select the response that most accurately describes your Academic Honors, Awards and/or Extracurricular Activities.</p> <p>Combination between options 1, 2, or 3</p>
		<p>Please DESCRIBE your academic awards and/or scholarships, and/or any leadership roles you have held, and/or the professional or technical societies that you are member of.</p> <p>(b)(6)</p>

**RESUME for DIANA BETANCOURT-ROLDAN**

RESUME	
Current Address: (b)(6)	Permanent Address:
Diana Betancourt-Roldán	
<b>OBJECTIVE:</b> Become a permanent employee to apply the best of my knowledge and learn more to become an excellent professional.	
<b>EDUCATION:</b> Senior at Universidad de Puerto Rico Recinto de Mayaguez, Bachelor of Science in Chemical Engineering. Expected Graduation Date: (b)(6) Cumulative GPA: 3.82	
<b>RELATIVE WORK EXPERIENCE:</b>	
(b)(6)	Second coop term. The Dow Chemical Company. Manufacturing in Polyethylene C Location: Plaquemine, LA
	Tasks included equipment optimization, development of Air Permit Operating Discipline, Media Replacement Protocol and Equipment Monitoring Spreadsheets
(b)(6)	Supervised Solvent Hydrogenation area First coop term with The Dow Chemical Company in polyolefin R&D.
	Location: Charleston, WV Refinement of a Mathematical Model of Operation of a Countercurrent Purge Bin
(b)(6)	Undergraduate Research on the supercritical applications of polymers
(b)(6)	Worked with NSF/SRC Engineering Research Center Environmentally Benign Semiconductor Manufacturing at the University of Arizona Bacterial Adaptation to UV254 Light in Ultrapure Water Systems

(b)(6) Undergraduate Research: Quantitative  
 Analysis of traces of Al, Zn, Cu and other metals in the hair of patients  
 (b)(6) College counselor

**SPECIAL SKILLS:**  
 Skillful in the use of ICP, Atomic Spectroscopy, Autoclave, Centrifuge and others  
 (b)(6)  
 Knowledge of the C++ program, Excel, MathCAD, Aspen, Works

**HONOR AWARDS:**  
 (b)(6) Member of The Deans List 2005 edition  
 Kimberly-Clark Scholarship  
 Member of the Honor Board of The University of Puerto Rico at Mayaguez  
 (b)(6)

(b)(6) Member of Who's Who Among American High School Students  
 2000-01 Edition  
 Senior Class Valedictorian  
 Presidential Excellence Fitness Award

(b)(6) / **EXTRA-CURRICULAR ACTIVITIES:**  
 (b)(6) Member of Phi-Kappa-Phi Honor Society  
 (includes highest 7% of class)  
 2004-present Golden Key Honor Society  
 2002-present American Institute of Chemical Engineers  
 (b)(6)

Applicant Level Assessments:

Eligibility Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answers:

1. (b)(6)

2. Are you a current Federal employee?

Answers:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answers:

3. I am not a current Federal employee

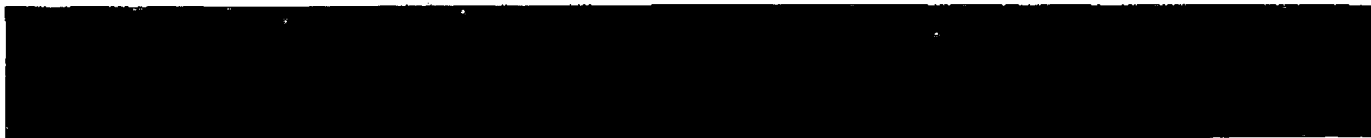

4. If you selected "Other", please enter the agency and organization.

Answers: NA

5. If you are a current Federal employee, what is your duty station? (City, State) (Enter N/A if not Applicable)

Answers: NA

6. If you are a current Federal employee, under what type of appointment are you

**US Nuclear Regulatory Commission  
All Applicant Data Report**

currently serving?

**Answers:**

10. Not applicable

7.If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

**Answers:**

3. Not Applicable

8.If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

**Answers:**

5. Not applicable

9.If you selected "Other", please enter the Pay Plan.

**Answers:** NA

10.If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

**Answers:** NA

11.If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

**Answers:** NA

12.. If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

**Answers:** NA

13.May we contact your current supervisor for a reference?

**Answers:**

1. Yes

14.Does the NRC employ any member of your family?

**Answers:**

2.

15.If yes to Question 14, please provide the name, relationship, organization in which employed, and location if known.

**Answers:**

**US Nuclear Regulatory Commission  
All Applicant Data Report**

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answers:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answers:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answers:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answers:

2. No

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

1. (b)(6)

22. If you selected other please list the OPM Special Appointment Authority for which you qualify.

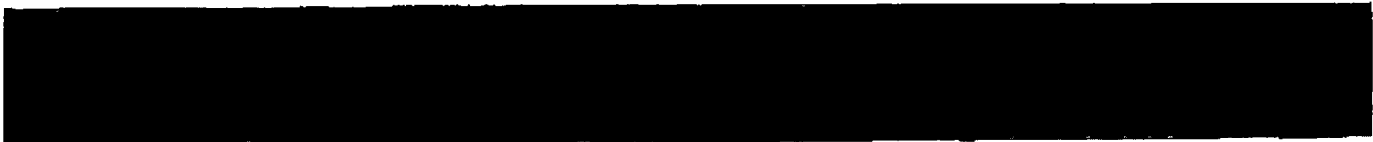

Answers: (b)(6)

**Assessment Questions**

What locations do you wish to apply to?

Atlanta, GA, US

What Grades do you wish to apply to?

1. How did you first hear about this job opportunity at the NRC?

Answers:

3. Online job posting or advertisement

2. This space is available if you would like to supply any additional information to assist in evaluating you for this position.

Answers: Over 12 years focused on nuclear power training and operations. Six years of organizational improvement through strategic oversight, policy-making, and performance assessment. Eight years of strengthening individual and team performance through career-focused post-graduate level teaching and curriculum management.

Additional examples of employing skills include the following:

Leading Reactor Operations: Supervised nuclear power plant operations ranging from new construction to decommissioning. Routinely hand-picked to serve as senior nuclear operator for demanding nuclear operations including the submarine's first-ever power range testing, the first hands on training executing new emergency procedures on the submarine, and the submarine crew's first reactor start up in many months. Consistently qualified for supervisory positions on nuclear submarines faster than peers and with superior knowledge.

Participated in and closely supervised the comprehensive internal inspection program encompassing the Radiological Controls "Audit, Surveillance, and Evaluation" program and the reactors controls division audit program which improved nuclear reactor instrumentation and control equipment maintenance practices. Conducted especially comprehensive inspections and taught other nuclear leaders how to improve their assessment and reporting of findings.

Casualty Control: Having been recognized as the best senior nuclear operator during my first Operational Reactor Safeguards Exam, served as mentor to all officers serving in the same position for the next exam. Keen eye for detail during drills and other operations generated extensive, tailored feedback which enabled each supervisor and the nuclear watch standers collectively to earn highest praise from the nuclear inspection team.

When the submarine was attempting to submerge, requiring fully opening all main ballast tank vents, one main ballast tank vent valve opened only slightly. Although the valve indicated open, a huge air pocket remained trapped inside the ballast tank. Watch standers misdiagnosed the problem and began bringing tons of additional seawater into the variable ballast system attempting to overcome the positive buoyancy of the air pocket. Although not assigned as an operator that day, was the first to understand the problem; told operators to stop bringing in sea water and investigate the valve. This intervention directly prevented a dangerous loss of depth control. Follow up action included operator interviews, attempts to replicate the problem, and inspection and

**US Nuclear Regulatory Commission  
All Applicant Data Report**

tests of the hydraulic system including hydraulic filters. Trained the operators to improve problem recognition. Also cycled the valve open and shut by hand to assess binding.

**Problem Analysis:** Understanding of nuclear reactor system operations enabled first recognition of several significant incidents while reviewing engineering records. In three cases the symptom had been corrected by the operating crew but the underlying root cause was not reported or apparently, recognized.

To address the most subtle problem, personally created a comprehensive program to identify and correct the root cause. Checked for abnormalities in related systems. Reviewed operating data and verified the problem - if it existed - was too small to measure using normal instrumentation and data collection given the size of normal upward and downward changes. Presented initial findings to the Commanding Officer and then to experienced nuclear operators. Developed investigation plan including:

1. Reviewing records of recent operations,
2. Interviewing operators about potentially related actions and observations,
3. Expanding routine data collection and developing special procedure to precisely measure and record all deliberate changes,
4. Training operators on the situation and how they would contribute to the investigation, and,

5. Observing how selected procedures were performed by various nuclear operators. Reviewed procedures and system characteristics to consider every feasible means of operators, evolutions, or equipment causing deliberate or unintended change. Reviewed maintenance records. Refined measurement of deliberate changes in parallel with evaluating each plausible cause of the apparent change. Compared actual performance of key equipment and systems to design specifications, discovering differences which were crucial to this precise investigation. Wrote additional special procedures and conducted training to ensure all operators understood the details and purpose of all additional requirements. Developed graphical display methods to facilitate long-term analysis. Reported investigation and preliminary and final results to appropriate authorities. Took appropriate mitigating actions until repairs were feasible. Repaired the problem. Trained operators on problem resolution and lessons to learn.

Served as nuclear powered fast attack submarine Engineer Officer for over three years, addressing numerous technical challenges, including reactor instrumentation and control failures and more subtle consistent degraded performance of instrumentation over a small range of measurement. Authored procedures to correct deficiencies and where appropriate, with concurrence of higher authority, to accommodate reduced performance. **Building Consensus:** Routinely assisted negotiation among competing stakeholders by articulating the essence of the issue and of various arguments and by helping others recognize the key implications of positions and proposals. Usually achieved consensus; always minimized and clarified areas of disagreement focusing senior leaders on only those aspects of problems which couldn't be resolved. For example, was singled out for exceptional leadership and initiative during Recruit Training Command's Navy Training Requirements Review. Cited for: "remarkable ability to focus and lead, despite being the most junior officer in a working group of 17 senior officers; markedly improved the group's productivity."

**US Nuclear Regulatory Commission  
All Applicant Data Report**

Communicating Clearly: Recognized for developing and sharing information supervisors need. Personally corrected an important communication breakdown between direct supervisor and the chair of the National Security Affairs department, working with each one-on-one to help them understand each other's position and true intent. This significantly changed the annual plan for changes in the curricula. Taught foundational knowledge of nuclear power plant operations to hundreds of officers while teaching "Aspects of Reactor Plant Operations" and "Reactor Plant Systems" at Naval Nuclear Power School Officer, earning distinction as the officer Department Instructor of the Year. Designated Master Training Specialist for helping students understand complex theoretical material with clear practical examples. Gave all types of shipboard nuclear training for large and small groups of nuclear and non-nuclear specialists. Managing Change: As Engineer Officer on the USS NORFOLK (SSN 714), provided significant contractor oversight for those aspects of performance which directly involved the submarine and submarine crew, such as schedule and quality of work, to the extent appropriate when various contracted repair organizations were working on the submarine. Repair work included nuclear instrumentation, nuclear ship alterations, and repairs involving key reactor plant valves. Oversight of the coordination of work among contractors, ship's force work, and Navy organizations including Intermediate Maintenance Activities and nuclear shipyards ensured the submarine safely met all schedule requirements.

**Military Professor**

**Summary:** Over 20 years leading as a Navy nuclear submarine officer. Leadership and technical abilities exceeded Navy standards operating nuclear reactors and in strategic management. Extensive experience applying technical guidance and engineering principles to reactor operations. Thoughtful observation and communication improved individual and group performance.

**Key skills include:**

- Leading Reactor Operations

- Casualty Control
- Problem Analysis
- Building Consensus
- Communicating Clearly
- Managing Change

**Accomplishments: Leading Reactor Operations:** Led operations on four nuclear submarines, improving results in nuclear power plant operations by observation and assessment. Led the engineering department on a nuclear fast attack submarine to award-winning success as Engineer Officer by teaching and enforcing high standards in operations, training, and administration.

**Casualty Control:** Cited in records as "Masterful talent in propulsion plant and ship control: remarkable analytical ability consistently allows correcting the most complex casualties quickly." Improved casualty response on all assigned submarines during drills, inspections and actual casualties. Led casualty response and investigation including interviewing operators, reviewing records, consulting and informing individuals and organizations, training operators and repairing equipment.

**Problem Analysis:** Exceptional ability to assess unusual events in complex systems, especially nuclear reactor plants. Understanding of rules and principles of nuclear operations allowed finding several significant incidents based on review of records. Detection enabled reporting problems and taking corrective training and repair action to prevent recurrence. As Engineer Officer safely and rapidly addressed a rare problem with a reactor plant valve during a nuclear inspection. The problem had no standard operating procedure. After ensuring plant safety and stability, recommended investigation and plant restoration process, outlining the paths for successful and unsuccessful retest. This response earned praise from the senior inspector and the submarine's Commanding Officer.

**Building Consensus:** Built understanding and respect within and among groups to harmonize goals, integrate tasks and improve teamwork. Orchestrated the efforts of several major maintenance organizations, the submarine's crew and other groups during complex nuclear repair periods ranging from 2 weeks to ten months.

**Communicating Clearly:** Prepared daily written orders supplementing standard operating

**US Nuclear Regulatory Commission  
All Applicant Data Report**

procedures for nuclear reactor plants. Developed and delivered clear briefings informing top-level decision-making. Routinely authored and gave reports and post-graduate level training on a wide range of topics.

Managing Change: Achieved superior safety, operational, and administrative results by preparing two submarine crews, including nuclear-trained personnel, for transition from submarine operations at sea to major maintenance period.

Work History: Military Professor of National Security Affairs teaching principles of strategic decision-making and policy making to Master's Degree candidates at the US Naval War College. Made civilian and military mid-career professionals more effective participants in strategic decision-making. Led peers in process improvement through collaborative planning and execution of major annual changes to curriculum. 2006-2012. Deputy Director of the North Atlantic Treaty Organization (NATO) Education Center managing the center and teaching at the National Defense University, Washington, DC. Prepared over 220 mid-career officers to excel in their upcoming NATO-related assignments. Developed and executed course schedule, budget, and travel plans. 2004-2006.

Undersea Warfare Test and Evaluation Section Head on the Navy Staff independently overseeing testing plans and evaluating results. Judicious oversight of USS DOLPHIN (AGSS-555) overhaul minimized friction among stakeholders and sped the submarine's return to testing. Strong leadership of test working groups rectified technical and process issues on Tomahawk missile and Advanced Seal Delivery System programs. 2002-2004.

Enlisted Training and Education Analyst on the Navy Staff developing policy and strategic plans. Scheduled, planned and executed inspection visits to Navy schools to assess and improve performance. Improved cost-effectiveness of major training programs, including the Navy's initial training program for all enlisted personnel and career-long training for nine enlisted specialties. Validated strategic plans for over \$440 million each year. 1998-2002.

Executive Officer on nuclear submarine. Managed day-to-day operations of the submarine and crew, safely and reliably conducting operations. Led efforts to prepare for two major reactor safeguards examinations. Cited for personally improving the nuclear expertise of the nuclear power plant operators. 1996-1998.

Major: Mechanical Engineering  
GPA: 2.53  
Honors: Magna Cum Laude

Job Related Training: Advanced Officer Leadership (Executive Officer): April 1997.  
Submarine Prospective Executive Officer: August 1996.  
Submarine Advanced Fire Fighting: July 1996.  
Submarine Officer Advanced Course: December 1991.  
Prospective Nuclear Engineer Officer: October 1988.  
Operational Water Chemistry and Radiological Controls: April 1988.  
Submarine Force Quality Assurance Supervisor/Officer: April 1987.  
Nuclear Weapons Refresher Training for SSN (Attack Submarine): November 1986.  
Submarine Officer Basic Course: November 1985.  
Nuclear Propulsion Plant Operator: June 1985.  
Advanced Nuclear Power: December 1984.

Affiliations: American Nuclear Society  
Member

# Kenya Patrice Carrington

**Objective** *To become a well-trained electrical engineer seeking to add value to a company by use and application of prevalent skills while working in an associated intern position*

**Summary of Qualifications**    **2007 - 2008**                      **Schlumberger**                      **Bossier-City, Louisiana**  
**Field Engineer- Intern**

- Certified to operate equipment under appropriate supervision of equipment operator or job supervisor
- Certified to work under hazardous conditions or in dangerous work environments
- Certified to operate as a field engineer, perform laboratory tests, and work in laboratory

**Education**                      (b)(6)                      **Wilberforce University**                      **Wilberforce, Ohio**  
**Major: Electrical Engineering, Seeking Bachelors of Arts and Science Degree**  
**Minor: Nuclear Engineering in association with the Ohio State University**  
**Expected Graduation Date:** (b)(6)  
**GPA: 3.62/4.00**

- Proficient in Solid Works or 3D-CAD, Autodesk Inventor CAD, Microsoft Office, Typing, C++, Calculus and Discrete Mathematics, Surveying, Drafting, Welding, Sheet Metal, Circuit Theory, Writing, Thermodynamics, Physics

**Leadership**                      **President** (b)(6) **Present NSBE Wilberforce University Chapter**

- Decreased retention rate of students majoring in engineering or computer-science related professions
- Implemented programs to help black engineers excel academically, succeed professionally, and positively impact the community
- Increased membership in society from 7 to 20
- Increased chapter funding to attend nationals and implement programs
- Developed networking relationships between engineers and corporate sponsors

**Senator** (b)(6) **NSBE Wilberforce University Chapter**

- Primary mediator between members and executive board
- Active representative on issues concerning minorities in STEM concentrations

**Secretary** (b)(6) **Present**

- Coordinate group activities and programs
- Keep track of society's minutes and records
- Organize groups' portfolio
- Keep active and potential members informed about society events

Professional Experience

(b)(6)

Schlumberger Limited Bossier-City, Louisiana

Field Engineer Intern

(b)(6)

U.S. Department of Energy Washington-DC, MD

(b)(6)

- (b)(6) intern at nation's top oil-field exploration and production company, Schlumberger; enhanced leadership capabilities and communication skills; learned to market self, adhere to client satisfaction, and maintain company's code of ethics, conduct and safety guidelines
- Worked to enhance customer needs through use of applied skills and Schlumberger limited technology
- Performed pre-laboratory experiments in field while trouble- shooting problems at well-site location
- Completed district project on "Increasing Employee Morale" under supervision of FDM and or mentor, LaSandra Delaney Rutledge in order to optimize employee satisfaction and customer performance

(b)(6)

Wilberforce University Wilberforce, Ohio

STEP-UP Program Mentor

- Mentored a group of 30+ students majoring in fields of engineering and biology and prepared them to excel professionally and academically in their fields
- Helped foster self images within young students guiding them through projects and tracking their progress

(b)(6)

Wilberforce University Wilberforce, Ohio

NASA SEMAA Program

- Mentored a group of high school and middle school students seeking to pursue NASA related careers in science, mathematics, and engineering
- Helped students complete simulation training for piloting and radio communications

Extracurricular Activities

National Society of Black Engineers, American Nuclear Society, Wilberforce Liturgical Dance Troupe, Iota Sweetheart Auxiliary, Wilberforce University Scholars Program

Volunteer Experience

(b)(6)

Awards and Honors

(b)(6)

(b)(6), Wilberforce University Presidential Award, Gertrude Meriwether Award, Yvonne Walker-Taylor Award (b)(6)

(b)(6)

(b)(6) Alpha Kappa Mu Honor Society

## US Nuclear Regulatory Commission All Applicant Data Report

Announcement Number: NSPDP-2009-0001

Position Title: General Engineer / Physical Scientist GG - 0801/1301 7/9/11

Name: KENYA P CARRINGTON

SSN: (b)(6)

Address1: (b)(6)

Address2:

City: (b)(6)

State: (b)(6)

Post Code: (b)(6)

Phone:

Phone: (b)(6)

Email: (b)(6)

United States Citizen: (b)(6)

Date of Birth: (b)(6)

Veteran Preference: (b)(6)

(b)(6)

Core Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answer:

2. (b)(6)

2. Are you a current Federal employee?

Answer:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answer:

3. I am not a current Federal employee

4. If you selected "Other", please enter the agency and organization.

Answer: n/a

5. If you are a current Federal employee, what is your duty station? (City,State) (Enter N/A if not Applicable)

Answer: n/a

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answer:

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answer:

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answer:

1. GG

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answer: 05

11. If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

Answer: 06-2009 to 08-2009

12. If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answer: n/

13. May we contact your current supervisor for a reference?

Answer:

1. Yes

14. Does the NRC employ any member of your family?

Answer:

2. (b)(6)

15. If yes to Question 14, please provide the name, relationship, organization in which employed, and location if known.

Answer: (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answer:

3. Not Applicable

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answer:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answer:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answer:

3. Not Applicable

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

6. None of the above

22. If you selected other please list the OPM Special Appointment Authority for which you qualify.

Answer: n/a

#### Assessment Questions

What locations do you wish to apply to?

Lisle  
King of Prussia  
Rockville

What Grades do you wish to apply to?

07  
09  
11

#### All Grades

1. Please select the highest grade level for which you qualify. If you select a grade level that you do not qualify for, your application may be marked for disqualification and you will NOT be considered for this position.

Answer:

1. GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major.

If you answered GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major, then answer the following questions.

1.1. From the following list of choices, please select the qualification you are using to apply for this position.

Answer:

1. I have or will have received a Bachelors degree by September of 2010 in or related to Engineering or Physical Science.

2. From the following list, please select the choice that matches your educational background.

Answer:

3. I expect to receive a degree in the field of Engineering or Science from an accredited university or college BY September of 2010.

3. Since obtaining your degree, how many years of full-time professional work experience related to Engineering or Physical Science do you have?

Answer:

4. I have two years of professional work experience related to Engineering or Physical Science.

4. From the following list of choices, please select the college or university you have or will have received your latest degree from?

Answer:

44. Wilberforce University

5. What is the official academic title of the major for your Bachelors degree?

Answer:

4. Electrical Engineering

6. What is the official academic title of the major for your Masters degree?

Answer:

1. Not Applicable

7. What is the official academic title of the major for your Doctorate degree?

Answer:

1. Not Applicable

8. What is your cumulative Grade Point Average (GPA)? Applicants are responsible for converting to a 4.0 scale if another is used.

Answer:

1. on a 4.0 scale, my cumulative GPA is 3.3 to 4.0

9. Please indicate the response that most accurately describes your work experience since entering college.

Answer:

1. I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education Student, etc.)

If you answered I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education Student, etc.) then answer the following questions.

9.1. Please describe your technical work experience at the NRC.

Answer: My technical experience at the NRC included working in the division of reactor projects under the TSS Branch thoroughly analyzing inspection reports and action matrixes for particular nuclear power facilities with the help of one or two of the branch chiefs in the division to determine if the region should prompt regulatory response, take other NRC corrective actions, or recommend detailed inspections be performed in regards to certain areas.

10. Please select the response that most accurately describes your academic honors, awards and/or extracurricular activities.

Answer:

1. I have received multiple academic awards and/or scholarships from professional or technical organizations, associations, companies, etc. (e.g., Dean's List, academic scholarships, induction into the Honor Society, etc.)

If you answered I have received multiple academic awards and/or scholarships from professional or technical organizations, associations, companies, etc. (e.g., Dean's List, academic scholarships, induction into the Honor Society, etc.) then answer the following questions.

10.1. Please list and describe the academic awards and/or scholarships you received from professional or technical organizations, associations, companies, etc.

Answer: 1. I have received a non-monetary award from the NRC for my work and contributions over the summer in helping to ensure the NRC mission and add more value to the region's knowledge management program by coordinating pilot interviews and setting up a process to be added to the knowledge transfer toolbox.

2. I have maintained the Dean's List all five years while at Wilberforce University.

3. I am a University presidential scholar and have received the most awards given by the University thus far.

4. I have been recognized for my contributions to NSBE (the National Society of Black Engineers) for increasing membership and for my role as chapter President and Senator.

(b)(6)

7. I have been inducted into two societies: honor society-Alpha Kappa Mu Honor Society; leadership society-National Society of Leadership and Success.

8. I have received awards for mentoring and volunteer work both in and out of school.

11. Where did you learn about the Nuclear Safety Professional Development Program (NSPDP)?

Answer:

1. College/University Career fair

6. Friend/Colleague

7. Other

### Core Question Responses

Number	Question/Answer
1	<p><b>Question:</b> Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)</p> <p><b>Answer:</b> (b)(6)</p>
2	<p><b>Question:</b> Are you a current Federal employee?</p> <p><b>Answer:</b> No</p>
3	<p><b>Question:</b> If you are a current Federal employee, by what agency and organization are you employed?</p> <p><b>Answer:</b> I am not a current Federal employee</p>
4	<p><b>Question:</b> If you selected "Other", please enter the agency and organization.</p> <p><b>Answer:</b> No Answer</p>
5	<p><b>Question:</b> If you are a current Federal employee, what is your duty station? [City,State] (Enter N/A if not Applicable)</p> <p><b>Answer:</b> No Answer</p>
6	<p><b>Question:</b> If you are a current Federal employee, under what type of appointment are you currently serving?</p> <p><b>Answer:</b> Not applicable</p>
7	<p><b>Question:</b> If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?</p> <p><b>Answer:</b> Not Applicable</p>

- 8 Question: If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:  
Answer: Not applicable
- 9 Question: If you selected "Other", please enter the Pay Plan.  
Answer: No Answer
- 10 Question: If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):  
Answer: na
- 11 Question: If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):  
Answer: n/a
- 12 Question: If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)  
Answer: na
- 13 Question: May we contact your current supervisor for a reference?  
Answer: Yes
- 14 Question: Does the NRC employ any member of your family?  
Answer: (b)(6)
- 15 Question: If yes to Question 16, please provide the name, relationship, organization in which employed, and location if known.  
Answer: (b)(6)
- 16 Question: If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?  
Answer: Yes
- 17 Question: If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?  
Answer: Not Applicable
- 18 Question: Are you a retiree receiving a civilian Federal annuity?  
Answer: (b)(6)
- 19 Question: Have you accepted a buyout from a Federal agency within the past 5 years?  
Answer: No
- 20 Question: Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)  
Answer: No
- 21 Question: From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)  
Answer: None of the above
- 22 Question: If you selected other please list the OPM Special Appointment Authority for which you qualify.  
Answer: No Answer

**All Grades Vacancy Question Responses**

Number	Question/Answer
1	Question: From the following list, please select the choice that matches your educational background. Answer: I expect to receive a degree in the field of Engineering or Science from an accredited university or college BY September of 2008.
2	Question: Since obtaining your degree, how many years of fulltime professional work experience related to Engineering or Physical Science do you have? Answer: I have at least one year, BUT less than two years of professional work experience related to Engineering or Physical Science.
3	Question: From the following list of choices, please select the college or university you have or will have received your latest degree from? Answer: University of Puerto Rico
	Question: If the candidate answered Other the following question(s) will be presented:

- 3.1 **Answer:**
- Question:** In the space provided below, please provide the name of the university or college you have or will have received your latest degree from.
- Answer:** No Answer
- 4 **Question:** Please select the highest grade level for which you qualify. If you select a grade level that you do not qualify for, your application may be marked for disqualification and you will NOT be considered for this position.
- Answer:** GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major.
- Question:** If the candidate answered GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major, the following question(s) will be presented:
- Answer:**
- 4.1 **Question:** From the following list of choices, please select the qualification you are using to apply for this position.
- Answer:** I have or will have received a Bachelors degree by September of 2008 in or related to Engineering or Physical Science.
- Question:** If the candidate answered GG-09: I have or will have a Masters degree or Bachelors degree and one year of post degree work experience in or related to Engineering or Physical Science, the following question(s) will be presented:
- Answer:**
- 4.1 **Question:** From the following list of choices, please select the qualification you are using to apply for this position.
- Answer:** No Answer
- Question:** If the candidate answered GG-11: I have or will have a Doctorate degree (Ph.D) or Masters degree and one year of post degree work experience or Bachelors degree and two years of post degree work experience in or related to Engineering or Physical Science, the following question(s) will be presented:
- Answer:**
- 4.1 **Question:** From the following list of choices, please select the qualification you are using to apply for this position.
- Answer:** No Answer
- 5 **Question:** What is the official academic title of the major for your Bachelors degree?
- Answer:** Mechanical Engineering
- Question:** If the candidate answered Other the following question(s) will be presented:
- Answer:**
- 5.1 **Question:** In the space provided below, please provide the official academic title of your major for your Bachelors degree.
- Answer:** No Answer
- 6 **Question:** What is the official academic title of the major for your Masters degree?
- Answer:** Not Applicable
- Question:** If the candidate answered Other the following question(s) will be presented:
- Answer:**
- 6.1 **Question:** In the space provided below, please provide the official academic title of your major for your Masters degree.
- Answer:** No Answer
- 7 **Question:** What is the official academic title of the major for your Doctorate degree?
- Answer:** Not Applicable
- Question:** If the candidate answered Other the following question(s) will be presented:
- Answer:**
- 7.1 **Question:** In the space provided below, please provide the official academic title of your major for your Doctorate degree.
- Answer:** No Answer
- 8 **Question:** What is your cumulative Grade Point Average (GPA)? Applicants are responsible for converting to a 4.0 scale if another is used.
- Answer:** on a 4.0 scale, my cumulative GPA is 2.95 to 3.29
- 9 **Question:** Please indicate the response that most accurately describes your work experience since entering college.
- Answer:** I have technical work experience related to my area of study (e.g., Engineering or Physical Science).
- Question:** If the candidate answered I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education Student, etc.) the following question(s) will be presented:
- Answer:**
- 9.1 **Question:** Please describe your technical work experience at the NRC.
- Answer:** No Answer

9.1

**Question:** If the candidate answered I have technical work experience related to my area of study (e.g., Engineering or Physical Science), the following question(s) will be presented:

**Answer:**

**Question:** Please describe how your technical work experience relates to your academic major.

Experience working in union environments, to developed people managing skills. Most of my experiences in General Motors have been towards the manufacturing aspects of engineering. Starting with how to find a balance between what was design and what can be effectively manufactured (summer 05). Later worked on slow builds intended to detect possible errors in stamped car body parts and how to troubleshoot them to find a solution (Summer 2006). Finally worked on developing a standardized template for supplying materials to the assembly line. The bulk of those experiences concentrate not so much on the technical aspects of engineering but again on how to handle the human resources and develop good working networks.

**Question:** If the candidate answered I have no technical work experience, BUT I have non-technical work experience (e.g., retail sales, etc.) the following question(s) will be presented:

**Answer:**

9.1

**Question:** Please describe your work experience.

**Answer:** No Answer

**Question:** Please select the response that most accurately describes your academic honors, awards and/or extracurricular activities.

10

**Answer:** I am an active member of one professional or technical society, AND I have received at least one academic award or scholarship from a professional or technical organization, association, etc.

**Question:** If the candidate answered I have received multiple academic awards and/or scholarships from professional or technical organizations, associations, companies, etc. (e.g., Dean's List, academic scholarships, induction into the Honor Society, etc.) the following question(s) will be presented:

**Answer:**

10.1

**Question:** Please list and describe the academic awards and/or scholarships you received from professional or technical organizations, associations, companies, etc.

**Answer:** No Answer

**Question:** If the candidate answered I held a leadership role in a professional or technical society (e.g., holding an office, chairing a society-sponsored function, etc.) the following question(s) will be presented:

**Answer:**

10.1

**Question:** Please provide the title and description of the leadership role you held in a professional or technical society.

**Answer:** No Answer

**Question:** If the candidate answered I am an active member in multiple professional or technical societies (e.g., ANS, IEEE, ASME, SHPE, NSBE, SWE, etc.) the following question(s) will be presented:

**Answer:**

10.1

**Question:** Please list and describe the memberships you held in multiple professional or technical societies.

**Answer:** No Answer

**Question:** If the candidate answered I have received one academic award or one scholarship from a professional or technical organization, association, etc. the following question(s) will be presented:

**Answer:**

10.1

**Question:** Please list and describe the academic award or scholarship from a professional or technical organization, association, etc.

**Answer:** No Answer

**Question:** If the candidate answered I am an active member of one professional or technical society, the following question(s) will be presented:

**Answer:**

10.1

**Question:** Please list and describe the membership you held in a professional or technical society.

**Answer:** No Answer

**Question:** If the candidate answered I am an active member of one professional or technical society, AND I have received at least one academic award or scholarship from a professional or technical organization, association, etc. the following question(s) will be presented:

**Answer:**

10.1

**Question:** Please list and describe the membership you held in a professional or technical society, AND the academic award or scholarship from a professional or technical organization, association, etc.

Worked for two years on SAE (Society of Automotive Engineers) Mini Baja, an off road vehicle designed and built by university students. For this project a colleague and myself device a mechanical system which allowed my handicapped colleague (unable to use his feet) to drive the vehicle while operating the Baja's pedal with one hand and the steering wheel with the other. For that design we won the Puerto Rico College of Engineers regional competition for student projects.

**Answer:**

11

**Question:** Where did you learn about the Nuclear Safety Professional Development Program (NSPDP)?

Answer: College University

**Resume**

Jorge Javier Corujo-Sandin

(b)(6)

Evening Phone: (b)(6)

Mobile: (b)(6)

Email: (b)(6)

Social Security Number: (b)(6)

Country of citizenship: (b)(6)

Veterans' Preference: (b)(6)

Registered for Selective Service

Contact Current Employer: Yes

**AVAILABILITY**

Job Type:  
Permanent

Work Schedule:  
Full Time

**DESIRED LOCATIONS**  
US

**WORK EXPERIENCE**

General Motors  
Warren, Michigan  
US

(b)(6) - Present  
Hours per week: 40  
Student Intern

•In charge of closures for one of their 2008 models and keeping the parts list updated.

•Prepared visual aids for manufacturing process, which allow easy interpretation of complex assemblies.

•Helped design an organization system for some of their web sites

Contact Supervisor: Yes  
Supervisor's Name: (b)(6)  
Supervisor's Phone: (b)(6)

General Motors  
Warren, Michigan  
US

(b)(6)  
Hours per week: 40  
Student Intern

•Traveled to the New United Motor Manufacturing (NUMMI) in San Francisco, CA to learn about their material handling strategies. (NUMMI is a General Motors – Toyota joint venture automobile manufacturing plant)

•Helped begin development for a material handling database that will capture best practices in production.

•Assisted engineers working on roof laser welding.

Contact Supervisor: Yes

Supervisor's Name: (b)(6)

Supervisor's Phone: [Redacted]

General Motors  
Warren, Michigan  
US

(b)(6)

Hours per week: 40  
Student Intern

•Directed the current builds on a part-time basis when floor Engineer was unavailable.

•Assisted floor Engineer during builds on a daily basis.

•Spent a week in Flint (Michigan) Truck Assembly Body Shop assisting PPI engineer.

General Electric  
Cincinnati, Ohio  
US

(b)(6)

Hours per week: 40  
EID Co-op Student

•Helped coordinate mapping of two databases to allow information exchange.

•Kept repair records updated and monitored performance for decrease in quality trends.

**EDUCATION**

University of Puerto Rico  
Mayaguez, Puerto Rico  
US

Bachelor's Degree (b)(6)

162/175 Semester Hours  
Major: Mechanical Engineer  
GPA: 3.16 out of 4.00

**LANGUAGES**

English  
Spoken: Advanced  
Written: Advanced  
Read: Advanced

(b)(6)

**AFFILIATIONS**

American Society of Mechanical Engineers (ASME)  
Member

Society of Automotive Engineers (SAE)  
Member

**REFERENCES**

(b)(6)

**ADDITIONAL INFORMATION**

• Won first price in regional engineering design competition, with the design and construction of a mechanical device for handicapped people that allows them to operate both pedals of an off-road vehicles with one hand.

• Participated during two years on the design and construction of the mechanical engineering SAE Mini Baja (off-road vehicle) special project.

• Received a recognition reward for a database project done while on an internship with General Electric, which helped save \$10,000.

• Won five times in four years in regional English Forensics League competitions.

**Applicant Level Assessments:**

Eligibility Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answers:

2. (b)(6)

2. Are you a current Federal employee?

Answers:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answers:

3. I am not a current Federal employee

4. If you selected "Other", please enter the agency and organization.

Answers: NA

5. If you are a current Federal employee, what is your duty station? [City, State] (Enter N/A if not Applicable)

Answers: NA

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answers:

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on

permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answers:

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answers:

5. Not applicable

9. If you selected "Other", please enter the Pay Plan.

Answers: NA

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answers: NA

11. If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

Answers: NA

12. If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answers: NA

13. May we contact your current supervisor for a reference?

Answers:

1. Yes

14. Does the NRC employ any member of your family?

Answers:

2. (b)(6)

15. If yes to Question 14, please provide the name, relationship, organization in which employed, and location if known.

Answers: (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answers:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answers:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answers:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answers:

2. No

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

**Answers:**

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

**Answers:**

6. None of the above

22. If you selected other please list the OPM Special Appointment Authority for which you qualify.

**Answers:** NA

**Assessment Questions**

What locations do you wish to apply to?  
Lisle, IL, US

What Grades do you wish to apply to?  
13

**All Grades**

1. How did you first hear about this job opportunity at the NRC?

**Answers:**

3. Online job posting or advertisement

**Resume**

(b)(6)

Mobile: (b)(6)

Email: (b)(6)

Country of Citizenship: (b)(6)

Availability: Job Type: Permanent  
Work Schedule: Full-Time

Desired locations: US - IL  
US - TX

Work Experience: First Energy  
08/2009 - Present  
5501 N State Route 2  
Oak Harbor, OH 43449 US  
Hours per week: 42  
Supervisor: (b)(6)  
Okay to contact this Supervisor: Yes

**Reactor Operator**

- " I have been the designated At the Controls (ATC) Reactor Operator for two refueling outages and a maintenance outage
- " I successfully lead multiple teams of operators and people from other departments in completing infrequent Surveillance testing such as the Integrated Safety Features Actuation System refueling interval test
- " I proactively identified and resolved issues during reactor start-ups such as recognizing that the Power Range Nuclear Instruments would need to be calibrated before they became

Inoperable

- " I have been the lead operator for plant outage evolutions which includes reactor startup, reactor shutdown, Reactor Coolant Heat-up and Reactor Coolant cool-down
- " As a reactor operator I have organized operators for routine plant evolutions during power operations that maintained plant parameters at the desired values during power operations
- " I have audited two NRC license exams for the NRC and First Energy that resulted in quality NRC Exams being administered to other license classes
- " I have experience writing new procedure sections that improved plant control such as changing our Integrated Control System procedure that
- " I have experience writing new surveillance procedure sections that improved the testing of equipment during a refueling outage that improved the scheduled testing of our Makeup pumps during a refueling outage
- " I have written clearances for planned maintenance during a refueling outage for non-technical staff that allowed them to complete maintenance activities on plant equipment safely
- " I have identified equipment issues of concern using the Corrective Actions program such as discovering a slowly degrading seal on a Reactor Coolant Pump after noticing a rising trend on a RCS Leakage Surveillance Test performed every night
- " I have been responsible for a team of four people on the Fire Brigade as the Fire Captain

First Energy

07/2005 - 07/2009

5501 N State Route 2

Oak Harbor, OH 43449 US

Hours per week: 42

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Non-licensed Operator

- " Identified degraded equipment issues that could potentially lead to larger problems later
- " Followed the directions of Control Room operators for routine work and surveillance tests
- " Fire Brigade Member

Education: Texas A&M University

College Station, TX US

Bachelor's Degree - (b)(6)

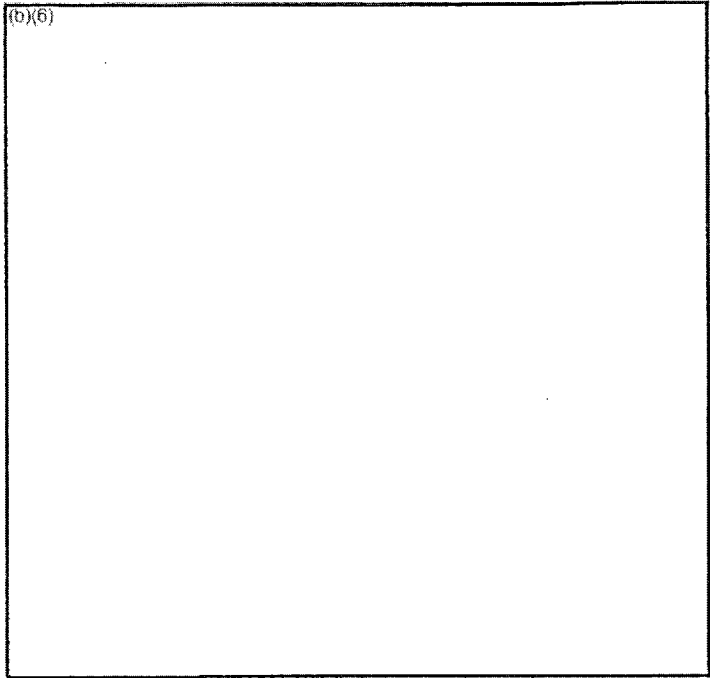

Major: Nuclear Engineering

Minor: Mathematics

Job Related Training: I earned a Reactor Operator License from NRC Region 3 to operate the Davis Besse Nuclear Power Plant after completing a license training program that lasted almost 2 years. The process for earning this license required extensive knowledge for Nuclear Power Plant Design, Theory of Operation and the procedures used to operate the power plant. This license operator training also included learning the Technical Specifications as well as the technical bases for these license requirements at Davis Besse.

References: (b)(6)

(b)(6)

Additional Information: I passed an extensive background check to gain unescorted access to a nuclear power plant and I have never lost my plant access due to a failure on a drug test or non-work related activities.

**Jason Douglas James Draper**

E-mail (b)(6)

**Current Address:**

(b)(6)

**Permanent Address:**

(b)(6)

**Objective:** To contribute to my employer to further the applications of nuclear science—especially its relationship with the environment—while extending my education in all associated fields.

**Qualifications:** I am a hard-working individual and am very interested in learning as much as I can about my field and others. I graduated from my high school class 3<sup>rd</sup> out of 80 with a 3.9/4.0 GPA. I am a junior at UIUC and currently hold a 3.48/4.0 GPA. (b)(6) I work well with computers, can use Microsoft Office, and know C language. I have a very precise and skeptical mind that isn't satisfied until it has the right answer. I am honest and trustworthy and promise to uphold all ethics of the business I join.

**Education:**

(b)(6)

Junior. University of Illinois at Urbana-Champaign, Department of Nuclear Engineering (Concentration in Power, Safety, and the Environment). Minor in Mathematics. Plan to graduate and either enter the workforce or continue directly into Graduate School.

(b)(6)

**Employment:**

(b)(6)

*Customer Service Associate, Lowe's Home Improvement Warehouse, Champaign, IL.*  
Work in Outside Lawn and Garden Center assisting customers and performing maintenance tasks such as cleaning and stocking with power equipment.  
*Laboratory Assistant, Nuclear Radiation Laboratory, UIUC, Urbana, IL.*  
Worked on FLIRE (Flowing Lithium Retention Efficiency), a machine that studies the ability of flowing Lithium metal to extract waste particles from a nuclear fusion reactor.  
*Bin Crew Member, AgVlew FS, Princeton, IL*  
Built grain bins, performed maintenance calls on grain bins, and built machine shed.  
*Summer Maintenance Assistant, Bureau County Highway Department, IL.*  
Aided in the various road maintenance projects including paving, patching, flagging, mowing, laying gravel, and rolling gravel and pavement.  
*Crew Member, McDonald's Restaurant, Princeton, IL.*  
Prepared fast food, took orders, and worked a cash register as well as performed many maintenance activities such as cleaning, unloading truck, and driving to other stores for additional food products.

**Selected Extracurricular Activities and Honors:**

(b)(6)

Engineering College Deans List—UIUC Spring '04 and Spring '05  
American Nuclear Society, Illinois Chapter.  
Nuclear Engineering Scholarship, University of Illinois Department of Nuclear, Plasma, and Radiological Engineering

(b)(6)

Prairie State Scholar.  
Illinois State Scholar.  
Bausch & Lomb Junior Science Award, Bausch & Lomb.  
National Honor Society, RVHS

(b)(6)

 (b)(6)

**Eligibility Questions**

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answers:

1 (b)(6)

2. Are you a current Federal employee?

Answers:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answers:

3. I am not a current Federal employee

4. If you selected 'Other', please enter the agency and organization.

Answers: NA

5. If you are a current Federal employee, what is your duty station? [City, State] (Enter N/A if not Applicable)

Answers: NA

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answers:

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answers:

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answers:

5. Not applicable

9. If you selected 'Other', please enter the Pay Plan.

Answers: NA

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answers: NA

<https://hr.mgsapps.monster.com/nrc-ats/reports/reportoutput.hms?childWindow=true&randomKey...> 10/24/2011

11. If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

Answers: NA

12. If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answers: NA

13. May we contact your current supervisor for a reference?

Answers:

1. Yes

14. Does the NRC employ any member of your family?

Answers:

2. (b)(6)

15. If yes to Question 14, please provide the name, relationship, organization in which employed, and location if known.

Answers: (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answers:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answers:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answers:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answers:

2. No

US Navy - USS Asheville

San Diego, CA

US

2/2006 - 10/2006

Salary: 105,000 USD Per Year

Hours per week: 80

Damage Control Engineer

- Inspected multiple system for verification of ships integrity and safety to ensure safe submergence and surfacing.

- Supervised and verified all aspects ships plant for Reactor Startup from Cold Shutdown (200F) to Reactor Critical (480F).

- Audited maintenance, calibration, and repair records of all plant systems.

- Developed new Damage Control SEOP for supervisor's utilization for safety during drills and casualties contributing to the increased proficiency of the crew in combating complex casualties and the successful completion of an Operation Reactor Safeguards Examination and Pre-Overseas Movement Certification.

<https://hr.mgsapps.monster.com/nrc-ats/reports/reportoutput.hms?childWindow=true&randomKey...> 10/24/2011

-Supervised major repair of Diesel Engine in excess of 80 man hours over a 3 day period therefore allowing ship to get underway on schedule.

US Navy - USS Asheville  
San Diego, CA

US

7/2004 - 11/2005

Salary: 94,000 USD Per Year

Hours per week: 90

Main Propulsion Engineer

- Qualified Engineer, Engineering Duty Officer, Engineering Officer of the Watch (EOOW).
- Recognized specifically by the Nuclear Power Evaluation Board for strong watchstanding and plant control as Engineering Officer of the Watch during Operational Reactor Safeguards Examination.
- Implemented safety standards, requirements and regulations related to the design, construction, and operations of the reactor plant..
- Identified deficiencies in small valve maintenance program and spearhead improvements in under a month and correcting over twenty material deficiencies.
- Manage 30 supervisors and technicians in the Mechanical Division and Reactor Controls Division. Directly responsible for the operation and maintenance of all nuclear and non-nuclear mechanical systems, Reactor controls systems including electrical power generation turbines, propulsion turbines, condensers, heat exchangers and Reactor protection equipment.
- Planned and Controlled detailed plant maintenance by evaluating scope of work, establishing safety boundaries, and supervising maintenance through completion.

US Navy- Officer in Training  
Charleston, SC

US

8/2001 - 7/2004

Salary: 65,000 USD Per Year

Hours per week: 65

Prospective Submarine Warfare Officer

Officer candidate School

Advanced Nuclear Power School

Nuclear Propulsion Plant Operator School

Submarine Officer Basic School

Hercules Incorporated

Wilmington, DE

US

5/1997 - 7/2001

Salary: (b)(6) USD Per Year

Hours per week: 48

Analytical Polymer Chemist

Project Manager for R&D for Development of Chemicals for Pulp and Paper Industry

- Developed product and supervised process from lab to plant production
- Trained new and seasoned Lab Technicians on new lab and safety procedures

#### EDUCATION

Naval Postgraduate School

Monterey, CA

US

Master's Degree, (b)(6)

recently enrolled Semester Hours

Major: Master of Science Engineering Science (Mechanical Engineering)

Old Dominion University

Norfolk, VA

US

Master's Degree, (b)(6)

6 out of 19 required Semester Hours

Major: Master of Engineering Management

GPA: 3.50 out of 4.0

Morgan State University

Baltimore, MD

US

Bachelor's Degree, (b)(6)

121 Semester Hours

Major: Chemistry

GPA: 3.54 out of 4.00

Honors: cum laude

Navy Nuclear Power School and Training Command

Charleston, SC

US

Certification. 3/2003

n/a

Major: Nuclear Engineering

Relevant Coursework, Licensures and Certifications:

- Six months of hands-on training in power plant design, operation, and management at an operational prototype nuclear reactor.

- Six months of postgraduate studies in engineering disciplines including thermodynamics, nuclear physics, chemistry and electrical engineering.

JOB RELATED TRAINING

Top Secret/SCI Clearance  
Anti-terrorism Officer Level II  
Prospective Nuclear Engineering Training  
Operational Water Chemistry and Radiological Controls

# Alexander David Garmoe

## Current Address

(b)(6)

(b)(6)

## Permanent Address

(b)(6)

## Objective:

To obtain an internship that would allow me to be an asset to a Nuclear Engineering company and to gain valuable experience in the Nuclear Engineering field.

## Education:

Purdue University, West Lafayette, Indiana

(b)(6) – present

Bachelor of Science in Nuclear Engineering

Expected Graduation: (b)(6)

Selected Courses (completed by (b)(6)):

Radiation and Neutron Physics 2 semesters

Fluid Mechanics / Heat Transfer 2 semesters

Differential Equations 1 semester

Cumulative GPA: 2.80/4.0

## Research:

US-Nuclear Regulatory Commission Task 12

(June 2002 – present)

Professor: Dr. Karen Vierow

- MELCOR modeling of PWR station blackout

## Work Experience:

Starbucks Coffee Company

Barista

Village Links of Glen Ellyn

Grounds Crew

(b)(6)

## Honors:

Village Links of Glen Ellyn / Ed Posh Scholar

## Activities:

President - American Nuclear Society local chapter

Webmaster - American Nuclear Society local chapter

(b)(6)

Cert #: SA-USNRC-0005

Vacancy: NSPDP-2005-0007 Nuclear Safety Professional Development Prog GG-7/11-13

Grade: 07

Locations: Atlanta, GA, Chicago Metro Area, IL, Dallas-Fort Worth Metro Area [Includes Arlington], TX, Philadelphia Metro Area, PA

Applicant: JONES, MICHAEL

## Personal Data

First Name: MICHAEL

MI: A

Last Name: JONES

Address1:

Address2:

City:

State:

Zip Code:

Plus 4:

Phone:

Email:

US Citizen:

Veteran Preference:

(b)(6)

(b)(6)

## Core Questions

1	Are you a vet who was separated from the armed forces under honorable conditions after completing an initial continuous tour of duty of 3 years (may have been released just short of 3 years)?
	(b)(6)
2	Are you a current Federal employee?
	No
3	If you are a current Federal employee, by what agency and organization are you employed?
	Not applicable
6	If you are a Federal employee, under what type of appointment are you currently serving?
	Not applicable
7	Are you a student appointee under the Student Career Experience Program who has completed all requirements for graduation and conversion under the SCEP appointing authority and is in the 120 day period for conversion to term, career or career-conditional appointment?
	Not Applicable
8	If you are NOT currently serving in the competitive or excepted service as a permanent career or career-conditional Federal employee, are you eligible for reinstatement based on a career or career-conditional Federal status in the competitive or excepted service?
	Not Applicable
9	If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:
	Not applicable
14	May we contact your current supervisor for a reference?
	Yes
15	Does the US Nuclear Regulatory Commission employ any member of your family?
	(b)(6)
17	If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?
	Yes
18	If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?
	Not Applicable
19	Are you a retiree receiving a Federal annuity, either military or civilian?
	(b)(6)
20	Have you accepted a buyout from a Federal agency within the past 5 years?
	Not Applicable

## Vacancy Data

All Grades	1	Do you have a BACHELOR'S degree; OR do you expect to complete a BACHELOR'S degree by September 2006? Answer(0 points): Yes
All Grades	1.1	What is the OFFICIAL academic title of the major (and/or minor) of your BACHELOR'S degree? Answer(0 points): Mechanical Engineering
All Grades	1.3	Please indicate the school from which you received, or will receive your BACHELOR'S degree. Answer(0 points): Florida Agriculture & Mechanical University
All Grades	1.5	When was your Bachelor's degree granted, or when will it be granted? Answer(0 points): (b)(6)
All Grades	2	Do you have a MASTER'S degree; OR do you expect to complete a MASTER'S degree by September 2006? Answer(0 points): No
All Grades	3	Do you have a DOCTORAL degree; OR do you expect to complete a DOCTORAL degree by September 2006? Answer(0 points): No
All Grades	4	Regarding your HIGHEST level engineering or science degree, what is your cumulative Grade Point Average (GPA)? APPLICANTS ARE RESPONSIBLE FOR CONVERTING TO 4.0 SCALE, IF ANOTHER SCALE IS USED. Answer(5 points): On a 4.0 scale, my cumulative GPA is between 2.85 and 3.24
All Grades	5	Please indicate the response that most accurately describes your work experience since entering college. Answer(10 points): I have technical work experience related to my area of study (engineering or physical science)
		Please DESCRIBE how your technical work experience relates to your academic major.

All Grades	5.1	<p><b>Answer(0 points):</b> I have worked in manufacturing on an assembly line, which has taught me the direct benefits of streamlining operation through methodologies such as Six Sigma, Lean Sigma, TPS, etc. Having this opportunity, has contributed to the many class design projects that I have been apart of. In each project, complete analysis was necessary, since the design processes used covered every aspect of engineering from need statement, to manufacture, and in some cases to the end of a products life. This past summer I had the opportunity to work in medical technology, in pacemaker lead development. My first objective required me analyze and characterize torques and stresses in leads while compiling a library documenting how the different lead types performed.. Comprised of tasks that required mechanics and materials, this objective required extensive testing, analysis, and calculation. In my second objective, I was put in charge of creating manufacturing processes and coating procedures for polymer application on pressure sensors. This objective has required me to apply all knowledge obtained in labs because extensive documentation of methods used and results gained was needed. Overall, in my experience I have become very conscious of meeting deadlines while skillfully completing tasks with little or no supervision. I have developed the math skills necessary for extensive product analysis if the need is presented. As a student mechanical engineer and a summer employee in a professional environment, the ability to network with individuals external to my personal tasks and objectives has enabled me to be more thorough in every aspect of past projects.</p>
All Grades	6	<p>How many years of Full-Time Professional Engineering or Physical Science related work experience do you have since obtaining your degree?</p> <p><b>Answer(0 points):</b> I have LESS THAN ONE (1) year of professional experience.</p>
All Grades	7	<p>Please select the response that most accurately describes your Academic Honors, Awards and/or Extracurricular Activities.</p> <p><b>Answer(10 points):</b> <u>Combination between options 1, 2, or 3</u></p> <p>Please DESCRIBE your academic awards and/or scholarships, and/or any leadership roles you have held, and/or the professional or technical societies that you are member of.</p>
All Grades	8	<p><b>Answer(0 points):</b> For the past few years, I have been an active member in the American Society of Mechanical Engineers and the Nation Society of Black Engineers. I have been a member of NSBE for the past three years, first introduced to the organization through its mentor program. I have taken part in several conferences since my joining, all contributing to my professional development. I have volunteered, in some capacity, to help at a few planned fundraising committee activities. Over the past few years my active involvement in ASME has increased greatly. This year I hold the position of Vice Chair. My duties include, but are not limited to supporting the president and assisting committees and officers with their endeavors and tasks. I am playing an integral part this year in obtaining funding for our planned opportunities this school year. To date, I have written proposals and networked with the senior section and our ME department as necessary to maintain a positive relationship through which they are able to see the capacity in which we operate.</p>
All Grades	9	<p>Where did you hear about this vacancy? (Check all that apply)</p> <p><b>Answer(0 points):</b> Career Fair - Florida Agricultural &amp; Mechanical University</p>

**RESUME for MICHAEL JONES**

# RESUME

MICHAEL A. JONES JR.

(b)(6)

Home: (b)(6)

Mobile: (b)(6)

## OBJECTIVE

To obtain full time employment that will allow me to further develop in the field of mechanical engineering project management, to learn and apply concepts that will allow the optimal performance, functionality designs.

## EDUCATION

College

Florida A&M University

Tallahassee, Florida

Bachelor of Science in Mechanical Engineering,

Credit Hours Earned: 114 (Semester Hours)

Expected graduation date (b)(6)

Cumulative Grade Point Average: 2.94/4.0

High School

(b)(6)

## EXPERIENCE

(b)(6) GROWTH INNOVATIONS, Student

Engineer TALLAHASSEE, FL

- Design mechanism of an adjustable pitch propeller, for boats, which enable the craft to forge swamp like environment, while remaining weed free.
- Reassess materials used in previous design, to determine which materials are most suitable for the improvement of the application in the manufacturing process

Manager (b)(6)

Phone: (b)(6)

(b)(6) MEDTRONIC INC. Mech. Engineering

Intern MINNEAPOLIS, MN

- Successfully managed to start a polymer performance feasibility study, which has determined how well a new polymer coats piece-parts and pressure sensors, while documenting manufacturing processes used. This allowed the development of an effective coating process.
- Created an extensive library that makes readily available the performance specifications of active defibrillating pacemaker leads. This was done following a series of torque and stress tests that required the development of S.L.A. path models.

+Manager (b)(6)

+Phone: (b)(6)

(b)(6) ELECTROLUX INC, Summer

Associate-Assembly KANSAS CITY, MO

- Assembled high quality parts for tile and concrete

cutting saws including blade guards, instrument panels, rolling carts, chassis, blade shafts, jackshafts, motor mounts

• Successfully assisted in the increase of production of heavy machinery by quickly assembling parts on a sub assembly line

#### COURSE PROJECTS

- Gear Pump (water pump): Design, cost analysis, build
- Cooling system for a mini nitro R/C car: Thermal Analysis, Pro-E Design
- Stirling Engine: Thermal Analysis, Pro-E design, Pro Mechanica simulation, and Machining
- Roller Coaster lift hill mechanism design
- Hand crank pencil sharpener reverse engineered in Pro-E 2001 and Pro-Mechanica
- Tea-cup like ride with simultaneous revolving and lateral motion relative to forward velocity of cars, created by design process webpage creation

#### COMPUTER SKILLS

Operating Systems: Windows 2000/XP and Mac OS  
Pro E Wildfire V1, Pro Mechanica, Smart Sketch, Working Model, MathCAD,  
Microsoft Office, Algor-FEA, Mat-Lab

#### ORGANIZATIONS

American Society of Mechanical Engineers (A.S.M.E.) (Vice Chair (b)(6) school year)  
National Society of Black Engineers (N.S.B.E.)  
Society of Automotive Engineers (S.A.E.)

# BRIAN J. KEMKER

(b)(6)

(b)(6)

(home)

(b)(6)

## EDUCATION

Purdue University, West Lafayette, Indiana  
B.S. Applied Physics (Nuclear Engineering concentration) (b)(6)

## EXPERIENCE

Senior Engineer, Electric Boat Corporation (July 1995 to Present)  
Senior Engineer, Westinghouse Hanford Company (April 1990 to July 1995)  
Commissioned Officer, United States Navy (December 1984 to March 1990)

## PERSONAL

(b)(6)

### **ELECTRIC BOAT CORPORATION** Groton, Connecticut (July 1995 to Present)

**NSSN Reactor Compartment Major Area Team Leader** - Responsible for the performance of a cross-functional design-build team cognizant for the design and construction of the New Attack Submarine (NSSN) reactor compartment. This includes the detailed development of reactor compartment arrangements as well as coordination with system integration teams for class drawing development and construction work package development.

**Reactor Plant Fluids Systems Engineer** - Responsible for coordinating reactor plant safety and survivability efforts for the S9G reactor plant design as well as performing technical evaluations in support of overall plant design development efforts.

#### Accomplishments include:

- Routinely interfaced with Engineering, Design, Planning, Manufacturing and Operations personnel to facilitate the smooth and timely completion of design deliverables.
- Developed and submitted a consolidated document providing justification of reactor compartment containment adequacy.
- Prepared and submitted reactor plant safety related technical correspondence to support development of the NSSN Class Submarine Safety Analysis Report (SAR) as well as habitability and steam casualty analyses.
- Developed and submitted the reactor plant effluent collection system diagram and reactor plant insulation schedule.

### **FAST FLUX TEST FACILITY** Richland, Washington (April 1990 to July 1995)

**Operations Engineer** - Responsible for assisting the FFTF Plant Shift Operations Manager (SOM) with directing the safe efficient operation of the plant. This includes administering the Lock and Tagout System; providing positive control of plant modifications and jumpers which may be installed as a result of maintenance activities; and, administering all active plant work authorization documents and test procedures. Additionally, responsible to provide guidance and technical assistance to personnel involved in the maintenance of critical reactor plant components, ensuring proper/safe system lineups for conduct of maintenance and proper system restoration following maintenance.

**Chief Operator/Shutdown Watch** - Qualified Senior Reactor Operator (SRO) responsible, under the FFTF Plant Shift Operations Manager (SOM), for the direct supervision of plant operations. This includes operational control of all plant configuration changes and maintenance activities as well as ensuring that the plant is operated within the FSAR Technical Specifications, approved operating, and test procedures.

**Refueling Engineer** - Responsible under the FFTF Plant Shift Operations Manager (SOM), for the direct supervision of fuel handling operations. This includes directing the performance of the Detailed Refueling Plan, coordinating the operation of plant refueling machines, and overseeing the receipt and shipment of reactor components.

**Test Engineer** - Assigned the over-all responsibilities for performance of various tests including test documentation, completion of witness points, reviewing current test data results for conformance to applicable test specifications, and supervising the test activities.

**Accomplishments include:**

- Completed rigorous qualification programs for Operations Engineer, Chief Operator and Refueling Engineer. My Operations Engineer and Chief Operator qualifications were achieved within three years which equals the record time for these qualifications at the FFTF.
- Graduated first in the 1992 FFTF Reactor Technician Class and was the first graduate of the class to qualify as a Reactor Operator.
- Routinely interfaced with Engineering, Safety, Quality Assurance, Maintenance and Work Control staff to facilitate the smooth and timely completion of plant testing and maintenance procedures. Authored and incorporated work change documentation as well as changes to engineering drawings and documents to enable successful completion plant work.
- As one of the senior qualified personnel on the operations crew, routinely provided valuable on-the-job training to enhance the professional development of peers.
- As the operations crew Drill Coordinator, documented the performance of 125 operations training drills (of which approximately 50 were categorized as major drills) and originated six new training drill scenarios during 1993.
- Routinely evaluated proposed changes to plant configuration and procedures for their affect on plant safety as potential Unreviewed Safety Questions.
- Prepared a detailed lesson plan for and taught the 1993 FFTF Reactor Technicians Class Reactor Physics Problem Solving Workshop.
- Instructed the Nuclear Physics Reactor Kinetics and Reactivity Assessment Course for the 1994 FFTF Reactor Technicians Class.
- Prepared two Special Refueling Instructions to the Detailed Refueling Plan that allowed the successful receipt and processing of 26 Multipurpose Test Assemblies for the reactor. These instructions accommodated the design of special shipping crates for these assemblies and the use of a special assembly up righting fixture.
- Prepared detailed work instructions to deactivate the two emergency diesel generators to support the facility transition to shutdown.
- Prepared and supervised the performance of a test procedure that determined the cool down rate for an isolated dump heat exchanger module. Data obtained from this test procedure provided critical information to the plant engineering staff who prepared procedures to drain the liquid metal from the plant's main heat transport system to support the facility transition to shutdown.

**USS QUEENFISH (SSN-651) Pearl Harbor, Hawaii (1989 to 1990)**

**Sonar Officer** - Supervised a twelve man division responsible for the maintenance and operation of the ship's primary sensors. Required to maintain complete and accurate records of all corrective and preventive maintenance to the ship's sonar equipment as well as to develop detailed sonar systems employment plans which maximize the utility of the ship's primary sensors.

**Quality Assurance Officer** - Responsible for review and approval of controlled work documents for all ship's critical maintenance evolutions. This included administering the ship's Nuclear Quality Assurance and SUBSAFE records.

**Accomplishments include:**

- Completed a rigorous qualification program for Officer of the Deck (OOD), Command Duty Officer (CDO) and Qualification in Submarines.
- Successfully supervised ship's operations, under the Commanding Officer, underway and in port for over 1000 hours which included a Western Pacific deployment and a mission vital to national security.
- Supervised and coordinated the timely completion of divisional work during five arduous upkeep periods maintaining the ship's primary sensors 100 percent combat ready.
- Supervised the completion of four detailed acoustic data packages contributing to the ship's excellent performance on an Anti-Submarine Warfare (ASW) exercise and Pre-overseas Movement (POM) certification.

**USS HAWKBILL (SSN-666) Pearl Harbor, Hawaii (1986-1988)**

**Reactor Controls Assistant** - Supervised a seven man division responsible for the maintenance and operation of reactor plant control instrumentation, protection and alarm instrumentation, and primary plant indicating instrumentation. Required to maintain complete and accurate records of all corrective and preventive maintenance, start-up and shut-down conditions, and reactor plant operating parameters.

**Engineering Department Training Officer** - Responsible for planning, coordinating, and documenting training for all ship's nuclear trained personnel. Required to submit a detailed report of training to the Director of Naval Nuclear Propulsion every quarter-year.

**Accomplishments include:**

- Completed a rigorous qualification program for Engineering Officer of the Watch (EOOW) and Engineering Duty Officer (EDO).
- Wrote and edited numerous engineering procedures for technical accuracy and ease of performance.
- Successfully supervised the operation of the ship's engineering plant for over 1500 hours of maintenance and power generation.
- Developed and successfully implemented in-depth training plans for ship's engineering personnel.
- Successfully completed an Operational Reactor Safeguards Examination (ORSE) with no reported discrepancies for my division.
- Consistently met deadlines for division work packages during a ten week Selected Restricted Availability (SRA) and two three week upkeep periods.

**NOTIFICATION OF PERSONNEL ACTION**

Senior Resident Inspector, 0840

Assigned as the Senior Resident Inspector at the LaSalle County Nuclear Generating Station during the entire period. Duties included, but were not limited to:

- identification of safety issues at the LaSalle County Nuclear Generating Station;
- initial receipt of allegations from licensee personnel;
- implementation of the NRC inspection program at the LaSalle County Nuclear Generating Station;
- management of the Resident Inspectors' Office;
- supervision of the Resident Office Assistant, the Resident Inspector, and all other temporarily assigned NRC personnel;
- training and coaching of the assigned Resident Inspector, and other Inspectors-in-Training;
- clearly and efficiently communicating issues with NRC management and licensee personnel;
- preparation of concise, timely, and technically accurate inspection reports;
- analysis of site events.

- and, as necessary, implementation of the NRC emergency response plan.

Accomplishments during assignment as the Senior Resident Inspector at the LaSalle County Nuclear Generating Station have included, but were not limited to:

- successful implementation of the USNRC Revised Oversight Program at a large, two-unit reactor site while being largely understaffed;

- successfully training and qualifying a new resident inspector;

- significant contributions in support of the inspector qualifications of several USNRC Nuclear Safety Professional Development Program interns, and one branch reactor engineer;

- identification and documentation of numerous inspection findings and associated non-cited violations, with the identification and documentation of a substantive cross-cutting issue in human performance in the 2004 mid-cycle plant assessment being one of the most noteworthy;

- one of only a handful of inspectors in Agency history to have responded to a Site Area Emergency while assigned as Senior Resident Inspector (LaSalle Unit 1 Site Area Emergency, 2/20/2006);

- and receipt of a USNRC Performance Award and Certificate of Recognition in December of 2006 for sustained high level performance which resulted in a significant contribution to the work of the USNRC. Note that this is the 4th Performance Award of this type received in the past five years, and the 3rd consecutive award while serving as a Senior Resident Inspector.

- identification of safety issues at the Monticello Nuclear Generating Station;
- initial receipt of allegations from licensee personnel;
- implementation of the NRC inspection program at the Monticello Nuclear Generating Station;
- management of the Resident Inspectors' Office in the absence of the Senior Resident Inspector;
- clearly and efficiently communicating issues with NRC management and licensee personnel;
- preparation of concise, timely, and technically accurate inspection reports;
- analysis of site events;
- and, as necessary, implementation of the NRC emergency response plan.

Accomplishments during assignment as the Resident Inspector at the Monticello Nuclear Generating Station have included, but were not limited to:

- receipt of a USNRC Special Act Award in recognition of outstanding efforts in support of the identification of significant problems with the Inservice Inspection and Inservice Testing Programs at the Monticello Nuclear Generating Station in March of 2001;
- in March of 2002, receipt of a USNRC Instant Cash Award in recognition of efforts which identified that a licensee plan to remove spray shields from two emergency service water pumps would have, unbeknownst to the licensee, rendered the pumps and their supported components inoperable;
- receipt of a USNRC Team Award and Certificate of Recognition for contributions made during an arduous 95003 Supplemental Inspection at the Cooper Nuclear Station in Nebraska over a three-month period during the summer of 2002;
- and receipt of a USNRC Performance Award and Certificate of Recognition in January of 2003 for sustained high level performance which resulted in a significant contribution to the work of the USNRC;

**US Nuclear Regulatory Commission**  
**All Applicant Data Report**  
 Announcement Number: R-III/DRP-2013-0009  
 Position Title: Reactor Engineer/Resident Inspector

Name: DONALD R KRAUSE

SSN: (b)(6)

MIDX

Address1: (b)(6)

Address2:

City: (b)(6)

State

Country: (b)(6)

Post Code: (b)(6)

Plus4:

Phone: (b)(6)

Email: (b)(6)

United States Citizen: (b)(6)

Veteran Preference: (b)(6)

(b)(6)

**Applicant Level Assessments:**

**Eligibility Questions**

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

**Answers:**

1. (b)(6)

2. Are you a current Federal employee?

**Answers:**

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

**Answers:**

3. I am not a current Federal employee

4. If you selected "Other", please enter the agency and organization.

**Answers:** NA

5. If you are a current Federal employee, what is your duty station? (City, State) (Enter N/A if not Applicable)

**Answers:** NA

6. If you are a current Federal employee, under what type of appointment are you currently serving?

**Answers:**

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

**Answers:**

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answers:

5. Not applicable

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answers: NA

11. If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

Answers: NA

12. If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answers: NA

13. May we contact your current supervisor for a reference?

Answers:

3. Please contact me first

14. Does the NRC employ any member of your family?

Answers:

2. (b)(6)

15. If yes to Question 14, please provide the name, relationship, organization in which employed, and location if known.

Answers: (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answers:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answers:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answers:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answers:

3. Not Applicable

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

6. None of the above

22. If you selected other please list the OPM Special Appointment Authority for which you qualify.

Answers: NA

**Assessment Questions**

What locations do you wish to apply to?  
Chicago Metro Area, IL, US

What Grades do you wish to apply to?  
13

**All Grades**

1. How did you first hear about this job opportunity at the NRC?

Answers:

3. Online job posting or advertisement

- " Keep management apprised of progress and developments on licensing and regulatory issues and projects
- " Scope and manage Security, Regulatory Compliance and Licensing projects and budgets
- " Ensure preparation and support for State and Federal regulatory authority inspections
- " Assist in responding to significant incidents and government requests / notices
- " Responsible for physical security on site, including drills

GE Hitachi  
08/2008 - 09/2012  
6705 Vallecitos Road  
Salary: (b)(6) USD Per Year  
Sunol, CA 94586 US

Hours per week: 60

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Manager, EHS and Regulatory Compliance, Radiation Safety Officer

- " Maintained Site Safety I&I rate well below industry norms
- " Led site in third California OSHA Voluntary Protection Program (VPP) re-certification
- " Evaluate facility EHS conditions, assess risks and develop appropriate corrective-action plans and budgets to address deficiencies in comparison to regulations and GE Hitachi (GEH) policy / protocol
- " Assist site organization in executing GEH Environmental, Health & Safety priorities, metrics, goals and requirements
- " Provide leadership, support and training to build technical, management and leadership skills of site leadership team in EHS
- " Conduct data mining to identify EHS program trends and develop corrective and preventative actions
- " Identify and communicate continuous improvement opportunities in EHS performance and programs
- " Support efforts to analyze and communicate performance against expectations, provide feedback, establish and track required actions to improve performance

Lawrence Livermore National Laboratory (LLNL)

03/2005 - 08/2008

7000 East Avenue

Salary: (b)(6) USD Per Year

Livermore, CA 94550 US

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Work Controls Manager  Nuclear Materials Technology Program (NMTP)

- " Responsible for establishing and sustaining a culture promoting a safe and positive work environment within the four Nuclear Materials Technology Program (NMTP) nuclear facilities.
- " Coordinated the launching formal Conduction of Operations program
- " Directed the statusing, maintenance, integration and development of Primavera Master Schedule.
- " Responsible for ensuring self-assessment plans are implemented and corrective actions are taken
- " Liaison to NNSA/DOE oversight inspection teams
- " Member of Process Improvement Management Team (Six Sigma equivalent).
- " Extent-of-Condition auditor of nuclear facilities for work and configuration management
- " Coordinate maintenance and operations schedules between work groups to ensure efficient worker utilization.
- " Oversee the day-to-day activities of personnel to ensure that tasks are accomplished in a formal and deliberate manner with an emphasis on safety and in accordance with functions of the Integrated Safety Management (ISM) System and NMTP's Work Control process.
- " Provide oversight for the facility evaluations performed for work in NMTP facilities to ensure they meet established work control standards.
- " Ensure NMTP Facility's and Program operations maintain compliance with applicable DOE Orders, Safety & Health regulations, Facility Authorization Basis, and Work Control processes
- " Responsible for ensuring self-assessment plans for work control actions are implemented and that necessary corrective and feedback actions are taken.
- " Coordinate the activities of facility skilled labor, technicians, project managers, and contract maintenance personnel for NMTP work activities
- " NMTP liaison to NNSA/DOE oversight inspection teams
- " Member of NMTP Process Improvement Management Team (Six Sigma equivalent).
- " Extent-of-Condition auditor of LLNL's nuclear facilities for work control processes and configuration management deficiencies

Lawrence Livermore National Laboratory (LLNL)

01/2003 - 03/2005

7000 East Avenue

Salary: (b)(6) USD Per Year

Livermore, CA 94550 US

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Deputy Facility Manager / Deputy Associate Tritium Program Leader

Deputy Facility Manager □ NMTP Cat 3 Facilities, NMTP Deputy Associate Tritium Program Leader

" Established & proceduralized Tritium Facility contamination/radiation (ALARA) work limits

" Lead for eliminating backlogged/delinquent Deficiency Tracking System items

" Representative on an Incident Investigation Team concerning a Safeguards and Security issues

" Lead on Tritium Facility Modernization Preliminary Documented Safety Analysis

" Principle Investigator for \$5M + Shot-diagnostics capability / test readiness proposal & project

" NMTP representative for implementing LLNL Nuclear Transportation Safety Document within NMTP

" Involved in implementing NMTP Quality Assurance Plan within Cat-3 Facilities

" Strongly involved with the National Ignition Facility tritium target projects

BWXT SERVICES, Inc

05/1998 - 12/2002

2016 Mt. Athos Road

Salary: (b)(6) USD Per Year

Lynchburg, VA 24506 US

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Project Manager, D&D Technology Programs - Mound

" Coordinated Site, and DOE EM-50, D&D Technology Programs for BWXT of Ohio at Mound

" Managed \$7M+ Tritium Technology Demonstration Project at the Mound D&D site

" Managed \$6M+ Long-term Stewardship Technology Demonstration Project at the Mound site

" Managed and directed the proposal effort for \$800k Characterization Technologies Deployment Project

" Coordinated \$2M Multi-site Technology Sharing Project for BWXT

" Managed contractors for on-site support of program related work

" Directed the activities of up to 15 engineers, technicians, and hourly workers

" Met project specific performance based indicators for DOE fee awards

" As Proposal Technical Manager developed the work breakdown structure, cost projections, and baseline schedule

" Formulated area decontamination, and equipment and structural dismantlement strategies

" Selected potential sub-contractors and arranged for local labor force selection

BWXT SERVICES, Inc

03/1996 - 05/1998

2016 Mt. Athos Road

Salary: (b)(6) USD Per Year

Lynchburg, VA 24506 US

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Project Engineer

" Represented BWXT Services, Inc. on the Fernald Large Scale Technology Demonstrations Project Team

" Developed technical and cost inputs for each Demonstration's Detailed and Summary Reports

" Contributed to integrating and balancing of Program needs with that of baseline project

- " Collaborated with team members for communicating Program results
- " Supervised Large Scale Technology Demonstrations (LSTDs) at the Fernald DOE site
- " Developed work breakdown structure, cost estimate, and baseline schedule of each demonstration
- " Provided engineering and first line management oversight for 7 superintendents and hourly workers
- " Realized excellent safety record with no lost time accidents or incident reports
- " Maintained demonstrations on time and budget in spite of a constantly changing project schedule
- " Responsible for preparing engineering plans and cost-benefit analyses to support uranium, thorium, and plutonium project decontamination and decommissioning (D&D) activities
- " Prepared work plans and provided monthly schedule input
- " Evaluated change orders and prepared contract modification claims

## University of Virginia

07/1990 - 03/1996

## Human Resources

Salary: (b)(6) USD Per Year

914 Emmet Street, P.O. Box 400127

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Charlottesville, VA 22904 US

## Senior Reactor Operator

- " Directed staff and student reactor operators in daily reactor operations
- " Managed the Reactor Facility Emergency Preparedness Program
- " Liaison with NRC and Virginia Department of Emergency Services
- " Established site protocol for off site agency emergency response units
- " Managed Facility Low Enriched Uranium (LEU) Reactor Fuel Conversion Test Program
- " Taught Nuclear Engineering Laboratory classes for graduate and undergraduate classes

## Henrico County Public Schools

08/1989 - 07/1990

3820 Nine Mile Road

Salary: (b)(6) USD Per Year

Richmond, VA 23223 US

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

## Math Teacher

- " Developed year long curriculum schedules, lesson plans, objectives, and assessment criteria
- " Coached basketball and track teams - established team strategies and motivated players

## Virginia Tech University

06/1982 - 09/1985

## Human Resources

Salary: (b)(6) USD Per Year

North End Center, 300 Turner Street NW, Suite 2300,

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Yes

Blacksburg, VA 24061 US

## Reactor Supervisor

- " Managed the daily operation of all reactor facilities
- " Senior Reactor Operation Certification
- " Maintain facilities and equipment in support of reactor program missions

\* Oversaw licensing activities and Facility contact for NRC

US Navy

08/1974 - 08/1980

FPO New York

Salary: \$7,000.00 USD Per Year

Naval Base, Norfolk, VA 23511 US

Hours per week: 40

Propulsion Plant Watch Supervisor

\* Directed the activities of a nuclear propulsion watch-section

\* Managed divisional work center for electrical nuclear operators

\* Electrical Work Center Supervisor

Education: University of Virginia

Charlottesville, VA US

Master's Degree - (b)(6)

31 Semester hours

Major: Nuclear Engineering

GPA: 3.8

Relevant Coursework, Licensures and Certifications:

Inducted in Alpha Nu Sigma (ANS) honor society

Worked full time at UVA Reactor Facility, qualified as SRO

Virginia Tech

Blacksburg, VA US

Bachelor's Degree - (b)(6)

204 Quarter hours

Major: Secondary Education

GPA: 2.56

Relevant Coursework, Licensures and Certifications:

Worked at Virginia Tech Reactor Facility full time, became Reactor Supervisor, Certified as Senior Reactor Operator

Job Related Training: Radiation Safety Officer

Fundamentals of Criticality Safety

Incident Analysis/Occurrence Reporting

DOE Order 5480.21; Unreviewed Safety Question Determination training, USQ

Approver/Reviewer/Preparer

HAZWOPER Supervisor (OSHA Site Supervisor), 40 hour HAZWOPER (29 CFR 1910.120)

Primavera Schedule basic and advanced training

DOE/Mound 40 hour Tritium Training

LLNL Explosive Safety Orientation

Authorized Derivative Classifier

DOE Rad Worker II, LLNL RZW-2

Held NRC Senior Reactor Operator Licenses on two, independent, research reactors

U. S. Navy Nuclear Power Schools, Bainbridge, MD and West Milton, NY

Affiliations: Health Physics Society

Member

American Nuclear Society

Member

Virginia Section of American Nuclear Society

Past Chair

# Matthew C. Learn

(b)(6)

**Objective** An internship to utilize current skills while gaining experience in mechanical engineering, while investing in the company for possible future employment.

**Education** Bachelor of Science in Mechanical Engineering  
Minor in Applied Mathematics  
(Junior) expected graduation in (b)(6)  
Northern Illinois University, DeKalb, IL GPA 3.46/4.0

## Coursework/Skills

- Strength of Materials
- Material Sciences
- Dynamics / Statics
- Eng. Thermodynamics
- Fluids
- Mechanism Design
- Mechanical Vibrations
- Probability Analysis
- AutoCAD
- MS Office
- Control Systems
- Circuit Analysis
- Manufacturing Tech.
- Computational Meth.

**Experience** CS2 Design Group. Elk Grove, IL  
Intern / Engineer's Assistant (b)(6)

- Pre-sale/Post-sale client support to include site visits, CAD drawing, and customer specification documentation.
- Support inside engineering staff

Willow Creek Community Church Barrington, IL  
Facility Technician (b)(6)

- Work with team to maintain campus.
- Team leader in set-up requests including audio/visual

## Activities/Honors

- Dean's List (b)(6)
- SAE

(b)(6)

## Community Involvement

(b)(6)

Veteran Preference: (b)(6)

(b)(6)

**Applicant Level Assessments:**

Eligibility Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answers:

2. (b)(6)

2. Are you a current Federal employee?

Answers:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answers:

3. I am not a current Federal employee

4. If you selected "Other", please enter the agency and organization.

Answers: NA

5. If you are a current Federal employee, what is your duty station? [City,State] (Enter N/A if not Applicable)

Answers: NA

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answers:

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answers:

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answers:

5. Not applicable

9. If you selected "Other", please enter the Pay Plan.

Answers: NA

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answers: NA

11. If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

Answers: NA

12. If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answers: NA

13. May we contact your current supervisor for a reference?

Answers:

1. Yes

14. Does the NRC employ any member of your family?

Answers:

2. (b)(6)

15. If yes to Question 14, please provide the name, relationship, organization in which employed, and location if known.

Answers: (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answers:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answers:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answers:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answers:

2. No

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

6. None of the above

22. If you selected other please list the OPM Special Appointment Authority for which you qualify.

Answers: NA

**Assessment Questions**

What locations do you wish to apply to?

Atlanta  
Lisle  
Arlington  
King of Prussia  
Rockville

What Grades do you wish to apply to?

07

**All Grades**

1. Where did you learn about the Nuclear Safety Professional Development Program (NSPDP)?

**Answers:**

1. College/University Career fair

2. From the following list, please select the choice that matches your educational background.

**Answers:**

3. I expect to receive a degree in the field of Engineering or Science from an accredited university or college BY September of 2012.

3. Since obtaining your degree, how many years of full-time professional work experience related to Engineering or Physical Science do you have?

**Answers:**

6. Not applicable

4. From the following list of choices, please select the college or university you have or will have received your latest degree from?

**Answers:**

20. Rensselaer Polytechnic Institute

5. Please select the highest grade level for which you qualify. If you select a grade level that you do not qualify for, your application may be marked for disqualification and you will NOT be considered for this position.

**Answers:**

1. GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major.

If you answered GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major. then answer the following questions.

5.1. From the following list of choices, please select the qualification you are using to apply for this position.

**Answers:**

1. I have or will have received a Bachelors degree by September of 2012 in or related to Engineering or Physical Science.

6. What is the official title of your academic degree applicable to this vacancy in the field of Engineering or Physical Science that you have or expect to obtain between 2009 and September 2012?

**Answers:**

14. Nuclear Engineering

7. What is your cumulative Grade Point Average (GPA)? Applicants are responsible for converting to a 4.0 scale if another is used.

**Answers:**

1. on a 4.0 scale, my cumulative GPA is 3.3 to 4.0

8. Please indicate the response that most accurately describes your work experience since entering college.

**Answers:**

[https://hr.mgsapps.monster.com/nrc-ats/reports/reportAllApplicantData/run.htm?\\_\\_checkbox\\_coreQuesti...](https://hr.mgsapps.monster.com/nrc-ats/reports/reportAllApplicantData/run.htm?__checkbox_coreQuesti...) 02/16/2012

3. I have no technical work experience, BUT I have non-technical work experience (e.g., retail sales, etc.)

If you answered I have no technical work experience, BUT I have non-technical work experience (e.g., retail sales, etc.) then answer the following questions.

8.1. Please describe your work experience.

Answers: Building Maintenance at the Batavia Industrial Center - knowledge of basic building maintenance as well as some simple repair; Rides Operator at Darien Lake in Darien Center, NY - extensive customer interaction, knowledge on how to train new employees

9. Please select the response that most accurately describes your academic honors, awards and/or extracurricular activities.

Answers:

6. I am an active member of one professional or technical society, AND I have received at least one academic award or scholarship from a professional or technical organization, association, etc.

If you answered I am an active member of one professional or technical society, AND I have received at least one academic award or scholarship from a professional or technical organization, association, etc. then answer the following questions.

9.1. Please list and describe the membership you held in a professional or technical society, AND the academic award or scholarship you received from a professional or technical organization, association, etc.

Answers: I am on the Dean's List and am a member of our campus section of ANS.

US Nuclear Regulatory Commission

Applicant Resume Detail

Vacancy Description: Reactor Engineer / Resident Inspector (GG-13)

Certificate ID: R-III/DRP-2005-0017-SEL

Name: JAMES M MCGHEE

SSN: (b)(6)

JAMES M. MCGHEE

Phone: home (b)(6)

Email: (b)(6)

Nuclear Experience:

1994-2005 Entergy Operations, Inc. - River Bend Station, single unit Boiling Water Reactor

Maintenance Manager (Jan 2002-Jan 2005) - managed department of 135. Responsible for all Instrumentation & Control, Mechanical, Electrical, and Modification/Construction work and surveillance activities as well as departmental long range planning, maintenance training oversight, budget development and implementation, corrective action and assessment activities. Reviewed and approved work schedules, participated in pre-job and post-job reviews and performed in-field observations/coaching of work activities. Performed contract management and contract oversight activities for multi-million dollar contracts. Participated on site oversight committees for safety, design basis management, and radiological protection. Performed/approved job hazards analysis and infrequently performed (high-hazard and complex) tasks. Acted as site Emergency Director for emergency response and Duty Manager for daily operations. Accomplishments as Maintenance Manager:

- \* Implemented safety policies and practices that lowered OSHA recordable events and first aid events. Examples include safety program implementation assessments, installation of shop safeguards, walkdowns by Superintendents with Safety representatives, and initiation of safety moments for job-site safety hazard analysis.

- \* Executed bump-less implementation of INDUS PassPort as the maintenance work management document and storage tool.

- \* Established zero tolerance policy for unplanned equipment failures including repeat maintenance elimination and utilization of training for performance improvement. Achieved continuous improvement in production hours each year.

- \* Established a craft ownership program at RBS that encourages craft participation in problem solving and performance improvements.

- \* Managed work force to support 4 fleet outages with approximately half the maintenance work force in 2003 while reducing corrective work order backlog from 170 to 2 and elective backlog from 450 to 290.

- \* Demonstrated improvement in schedule adherence (from 75% to 95%) and schedule stability (from 70% to 95%) performance in the work management process.

- \* Implemented condensate full-flow filtration modification that resulted in improvement in CPI from a high of 1.4 in 2003 to 1:0 in 2004.

Applicant Resume Detail

Vacancy Description: Reactor Engineer / Resident Inspector (GG-13)

Certificate ID: R-III/DRP-2005-0017-SEL

Name: JAMES M MCGHEE

SSN: (b)(6)

Operations Manager (1999-2002) - managed department of 90. Responsible for all Operations department activities including operation and monitoring of plant equipment, establishment and maintenance of site operational focus, and as well as departmental long range planning, Operator and Shift Technical Advisor training oversight, budget development and implementation, corrective action and assessment activities. Responsible for management and coordination of 5 operating crews working 12-hour rotating shift. Provided primary interface with utility operations group. Participated on site oversight committees for safety, design basis management, and radiological protection. Acted as site Emergency Director for emergency response and Duty Manager for daily operations.

Accomplishments as Operations Manager:

- \* Revised operator outage work practices and schedules to execute 18 day outage.
- \* Developed and delivered site-wide Conservative Decision-Making seminars.
- \* Provided oversight for site-wide implementation of the human performance improvement initiative including development of electronic coaching cards and trending data-base
- \* Developed and implemented electronic operator rounds via hand-held computers and electronic logkeeping that is read accessible via site intranet.

Site Human Performance Champion (1998) as part of fleet-wide team established common procedure and processes for Entergy Human Performance Initiative including development of performance improvement coaching program and tools. Coached Operations, Shift managers and site supervision on use of human performance tools and traps for performance improvement.

Assistant Operations Manager [Licensed Senior Reactor Operator] (1996-1998) responsible for direct oversight of plant operations and all five operating crew activities as the senior licensed position on site.

Operations Staff Coordinator (1994-1996) responsible for all Operations departmental support activities including procedure revision and development, scheduling, and work control process implementation. Provided oversight for implementation of surveillance testing activities.

1989-1994 General Physics Corporation - Baton Rouge, LA  
Regional Office Manager (1993 - 1994) responsible for oversight of technical projects, business development, proposal preparation and presentation, office management, training and development of employees, as well as work scheduling and budget activities.

Applicant Resume Detail

Vacancy Description: Reactor Engineer / Resident Inspector (GG-13)

Certificate ID: R-III/DRP-2005-0017-SEL

Name: JAMES M MCGHEE

SSN (b)(6)

Project Manager/Operations Specialist/Instructor (1989 - 1993) acted as project lead for GP services for Gulf States River Bend plant. As Operator Instructor/Evaluator acted a Licensed Operator Requalification and Shift Technical Advisor Lead Instructor. Conducted NRC requalification examinations and developed training/examination materials as well as classroom and simulator training for operators and engineers.

1986-1989 EG&G Idaho - Idaho National Engineering Laboratory  
NRC BWR Operator Licensing Examiner - developed and administered examinations for NRC senior/reactor operator new and requalification operating licenses.

DOE/DOD/NRC Operations Specialist/Inspector - participated as operations specialist on DOE and NRC inspection/assessment teams at multiple commercial and government sites. Participated in Emergency Operating Procedure and Equipment Qualification inspections, software and simulator development projects and performance assessments.

1981-1986 Gulf States Utilities - River Bend

- \* Radwaste Foreman - responsible for startup testing and operations of Radwaste processing systems as well as on-line operations of the waste processing facility.
- \* Licensed Senior Reactor Operator
- \* Nuclear Equipment (non-licensed) Operator
- \* Procedure writer/developer.

1975-1981 U.S. Navy

- \* Electrician's Mate (E6)
- \* Engineering Watch Supervisor

Education/Training:

- 1996 Licensed (second time) Senior Reactor Operator (BWR6-River Bend)
- 1988 B.S. Nuclear Engineering Technology; The University, State of New York
- 1986 Certified NRC BWR Licensing Examiner
- 1985 Licensed Senior Reactor Operator (BWR6-River Bend)

(b)(6)

E-MAIL: (b)(6)

# Daneira Meléndez- Colón, EIT

**Objective** Seeking for a position where my knowledge may add value to your organization and it also provides me the opportunity to gain experience in the Chemical and Environmental Engineering field.

**Education** (b)(6) University of Puerto Rico

Mayagüez, PR

M.S. degree in Environmental Engineering

Expected graduation date (b)(6)

(b)(6)

Interamerican University of Puerto Rico

Barranquitas, PR

Elementary Accounting I

(b)(6)

University of Puerto Rico

Mayagüez, PR

B.S. degree in Chemical Engineering GPA 3.17 Major GPA 3.43

Certificate in Environmental Engineering

**Experience** (b)(6) - *Part-time* University of Puerto Rico

Mayagüez, PR

Development of novel dual-function media for treatment and separation of oil &amp; grease from tuna wastewater.

Subject of Thesis. The objective of this work is to develop and to determine the effectiveness of novel dual-function media for the immobilization of odorous waste mixtures containing oils and grease and in-situ biodegradation of the immobilized wastes.

(b)(6)

Present

Health Department of Puerto Rico

Ponce, PR

Environmental Health Division, Public Water Supply Supervision Program. Sanitary Surveys and Inspections to Public (PRASA) and Private (Non - PRASA) Water Supply Systems. Technical assistance and support to those systems. Work for compliance with the Federal Regulations for potable water.

(b)(6)

University of Puerto Rico

Mayagüez, PR

Acidic Rain in Puerto Rico

Developed a study of the acidity of the rainwater in Puerto Rico.

Quality of Potable Water in Puerto Rico

Developed a study of the potable water in Puerto Rico, including an analysis of TDS (Total Dissolved Solids) presents in the water, salts, chloride, and pH of potable water in Puerto Rico.

Biodiesel

Research on new methods for the production of biodiesel from herbaceous material.

(b)(6)

University of Puerto Rico

Mayagüez, PR

Research Assistant

Library research, use of the Chemical Abstracts.

**Skills** Bilingual (English, Spanish). (b)(6) Knowledge of C++, Excel, Word, Power Point and PLC. Knowledge of basic accounting. Excellent teamwork, initiative, and leadership.

**Activities** Development of novel dual-function media for treatment and separation of oil & grease from tuna wastewater. This work was presented in the Sixth Caribbean Islands Water Resources Congress in the Mayagüez Resort and Casino, Mayagüez, Puerto Rico on February 22, 2001.

**Organizations** American Water Works Association (AWWA)

Water Environment Federation (WEF)

Colegio de Ingenieros y Agrimensores de Puerto Rico (CIAPR)

Announcement Number: R-III/DRP-2008-0002  
Position Title: Reactor Engineer/Resident Inspector

Name: ROBERT J MURRAY  
SSN: (b)(6)  
Address1: (b)(6)  
Address2:  
City: (b)(6)  
State: (b)(6)  
Post Code: (b)(6)  
Plus:  
Phone: (b)(6)  
Email: (b)(6)  
United States Citizen: (b)(6)  
Date of Birth: (b)(6)  
Veteran Preference: (b)(6)  
(b)(6)

Core Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answer:

2. (b)(6)

2. Are you a current Federal employee?

Answer:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answer:

3. I am not a current Federal employee

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answer:

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answer:

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you hold:

Answer:

5. Not applicable

13. May we contact your current supervisor for a reference?

Answer:

1. Yes

14. Does the NRC employ any member of your family?

Answer:

2. (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service

System?

Answer:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answer:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answer:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answer:

2. No

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

6. None of the above

#### Assessment Questions

What locations do you wish to apply to?

Chicago Metro Area, IL

What Grades do you wish to apply to?

12

13

#### All Grades

1. (F0007) Knowledge of the design features and operating characteristics of nuclear reactor facilities. (Describe your professional experience with reactor facilities, commercial, government, or military. The experience may have been as a power plant operator, in a staff position in operations, or associated with plant operations.)

Answer: After being commissioned in the Navy through Officer Candidate School in 2001, I reported to Naval Nuclear Power Training Command in Charleston, SC for the start of a 12 month training pipeline that all nuclear trained navy personnel attend. The first six months was at Nuclear Power School and is solely classroom based training. While there, I had graduate level instruction in the areas of reactor dynamics, core construction, heat transfer, electrical engineering, chemistry, materials, radiological fundamentals and reactor plant operations. All of the courses related to the design, construction, operation and maintenance of naval nuclear power plants. After graduating in the top half of my class, I transferred to the Nuclear Power Training Unit (NPTU) in Charleston, SC. This was also a six month school and was a 'hands on' training approach. During this training, I learned the duties and responsibilities of all watch standers on a naval nuclear power plant. I achieved the qualification of Engineering Officer of the Watch and with that qualification had the authority to be the plant supervisor for 11 plant operators on one of the Navy's nuclear power plants.

After graduating, I reported to the USS Helena (SSN-725), one of the Navy's fast attack nuclear powered submarines. One of my first watch qualifications was Engineering Officer of the Watch, where I was again responsible for the safe operation of the power plant. I had significant operational experience in this qualification (two and a half years) as my ship completed 2 six month deployments and three Operational Reactor Safeguard examinations (ORSE). As Engineering Officer of the Watch I completed multiple reactor startup and shutdown procedures, along with countless casualty drills, which tested my ability to complete immediate and supplemental actions during reactor and secondary plant casualties. During my first ORSE as Engineering Officer of the Watch, I was cited as being 'above average' in coordinating multiple nuclear evolutions at one time.

In addition to being qualified as Engineering Officer of the Watch, supervising critical reactor plant operations, I was also qualified as Engineering Duty Officer, supervising multiple shutdown maintenance periods. As Engineering Duty Officer I would have to coordinate and prioritize all shutdown maintenance taking place on both primary and secondary systems. This including approving maintenance after personally verifying boundary controls and initial conditions of the plant supported maintenance. In addition I would also have to ensure containment and barrier criteria were always verified.

The first nuclear division I was in charge of was Electrical Division as the Electrical Officer. My Division was responsible for all electrical equipment relating to the ship's main electrical distribution system, including the ship's turbine generators, motor generators and battery. After being in charge of Electrical Division for one year, the division was cited as being significantly improved and above average during an Operational Reactor Safeguards Examination.

After two years on Helena I was certified as a Naval Nuclear Engineer by Naval Reactors. This qualification required me to demonstrate significant knowledge in the areas of reactor control electrical systems, reactor theory, chemistry, fluid systems and integrated plant operations. Having completed this qualification, I was able to act as Senior Supervisory Watch for complex nuclear testing and maintenance evolutions.

During my last couple of months on Helena I was promoted to the job of Assistant Engineer, directly assisting the Engineer in coordinating all aspects of the nuclear power plant. This included planning maintenance and operational evolutions, managing the department training program and qualifying nuclear operators. There were several occasions where I would serve as the acting Engineer, being solely responsible for all power plant operations.

After completing my tour on USS Helena, I was selected to be an instructor at Naval Nuclear Power Training Command in Charleston, SC. Since January of 2006, I have been an instructor to officer students, teaching the Aspects of Reactor Plant Operations course, which is the capstone course for Nuclear Power School. The course introduces the students to all primary and secondary reactor plant systems, including electrical power distribution, reactor protection systems, plant operational procedures and analysis of reactor plant casualties. I qualified as a Master Training Specialist within a year of qualifying instructor and have personally taught over 200 students and been involved in the instruction of over 500 students.

2. (F0008) Demonstrated experience in applying the theories, principles, and practices of engineering to the design, construction, and/or operation of nuclear power plants. (Describe substantive experience in applying engineering knowledge to nuclear power plant design, construction, or operation, and/or to inspection of nuclear power plant operations.)

Answer: As Engineering Officer of the Watch on the submarine, I was continually responsible for applying engineering theories, principles and practices in order to safely operate the nuclear power plant and its systems. As supervisor during all operations, a key component to safe operation is procedural compliance. Along with procedural compliance, I would also have to apply engineering principles in anticipating and evaluating the plant's response to each procedural step and take action if those responses did not match expected. During casualty drills as Engineering Officer of the Watch I would also have to use my knowledge of the plant and the engineering theories of plant operation to take time dependent actions in order to place the plant in a safe condition. These are just some examples of applying engineering principles in operation of naval nuclear power plants. Engineering principles are the foundation of safe operation of naval nuclear power plants.

As a division officer, it was my responsibility to run a monitored evolutions program. Monitored evolutions would be conducted during routine maintenance and operational procedures completed on the engineering plant. I have been both the junior and senior monitor for countless nuclear plant evolutions which were inspections of the operators as they performed their duties. Monitors would have to verify compliance with written procedures, safety, and correct parts and tool use. As a division officer, I would receive all of the monitored evolution reports and conduct root cause analysis on each deficient comment. I would also determine a corrective action for each item. Using the root causes and corrective actions, I would often implement them into my division's training program to ensure corrective actions were completed.

3. (P0242) Demonstrated ability to develop and implement successful approaches to problem solving and conflict resolution. (See examples below)

Answer: Day to day operations of a division on a submarine are normally executed and managed by the division's petty officer (LPO). LPOs normally have at least 6-7 years experience and sometimes up to 13 years experience. During my first nuclear division officer job on Helena I was assigned as the Electrical Officer. Electrical Division had been a struggling part of the Engineering Department for the past year and most of their problems had stemmed from senior leadership within the division. I struggled with this job for my first couple of months as I learned the equipment, maintenance and responsibilities the division had to the ship. While reviewing the division's maintenance program, I had noticed that a lot of their administrative records were not completed or correct. After asking many questions to determine how things in the division were getting done, I decided to check other records the division kept. I began to notice more of the same problems. It had also become apparent to me that the LPO was not a good manager of the division. I confronted him about this and he acknowledged this fact. This was due to his inability to plan day to day operations and follow through with subordinates in the division. I began to work with the LPO daily for a few months, making him present me the division's daily work plans and report progress throughout and at the end of the day. I would also plan an administrative review for all of the division's programs, having him review them first and then giving them to me for review. I would make notes of discrepancies and have him fix them. This showed him what mistakes the division was making in the division's records so he would be able to find these mistakes on his own. After several months of working with this LPO, he eventually was able to run the day to day operations of the division with little oversight by myself. At the next division's Operational Reactor Safeguards Examination, Electrical Division was cited as being "significantly improved" and administrative records were "above average".

One of the main responsibilities of supervisors on submarines is to ensure safety of personnel and the ship before all other goals, including mission accomplishment. The Officer of the Deck of the submarine is the captain's direct representative in control of all evolutions taking place on the ship. The Officer of the Deck is also the person on the submarine that takes the ship from being submerged at 150 feet up to periscope depth. I was Officer of the Deck on time and we had been operating at periscope depth for some time. Our mission at this point was to keep the periscope out of the water in order to collect all intelligence possible. I was the periscope operator at the time and a heavy sea storm moved over our position. This was a dangerous situation for the submarine. While a periscope depth, the sub can be as little as 5 feet below

the water line. A ship of any significant weight would most certainly collide with a submarine at periscope depth if they drove over it. While I was operating the periscope visibility became very low. I could not see more than 50 feet in front of the submarine. The risk of this evolution was definitely not in line with the reward and I felt as though the safety of the ship was threatened. I recommended to the captain that the ship submerge to a deeper depth in order to let the storm pass and visibility improve. Knowing that the ship would not be able to complete its mission without the periscope out of the water, the captain agreed with my assessment and ordered me to go to deeper water. This taught me that no matter what the situation and who is in charge, everyone involved should always maintain an attitude in order to ensure that everything is going safely, as planned. This is especially true in submarining and nuclear power. Supervisors need backup from subordinates just as well as the opposite is true. Supervisors also need to create an environment where input from juniors is encouraged in order to promote operating with the entire team on the same page. I believe this also gave my captain a greater sense of trust in my judgment, knowing that I will make recommendations to him in the best interest of the ship.

Both of these situations show that problem identification can sometimes take longer than others. The same is true for resolutions of problems. Depending on the situation, some problems and conflicts require constant address and action. It is the supervisors role to determine the attention given to each situation and see that problems are resolved.

4. (P0243) Demonstrated ability to communicate well, both orally and in writing. (This includes demonstrated ability to establish effective working relationships with supervisors, Government and industry officials, utility employees and managers, Government committees, co-workers, media personnel, NRC officials and senior managers, as well as the ability to write technical reports containing findings, analyses, and conclusions.) (See examples below)

Answer: Throughout my naval career I have had to present technical and administrative information to subordinates, peers and senior leadership. Starting in Nuclear Power School, I had to take 26 technical exams in various classes. These exams ranged in length from one to four hours. The next six months at the Nuclear Power Training Unit had both written and oral exams. Most exams were oral where I would demonstrate my knowledge to one other person on a specific system or procedure. I have also had multiple qualification boards in my naval career where I would have to demonstrate my knowledge of a watchstation in front of senior board members (normally 3). My naval nuclear engineers exam was a 4 hour written and 2 hour oral exam. I was required to display my knowledge in the areas of chemistry, reactor electrical systems, fluid mechanics, reactor physics and plant operations. While on the submarine Holena, I was required to give training to the entire engineering department of 60 personnel. I gave many training lectures in my three years on the submarine, all presenting technical nuclear information relating to procedures and nuclear systems. As a division officer I was required to give technically accurate reports to my supervisors on the status of my division's equipment. I would also have to give briefs on maintenance or non-routine operational procedures that often required me to explain initial conditions of the plant which were required, stopping points in the procedures, and recast requirements. These briefs often required the explanation of technical manuals and electrical or mechanical schematics which would be used. While the ship was underway I would often have to write technical reports to various ashore commands in order to inform them on the status of equipment and required or desired parts or technical assistance.

For the past year and a half I have been teaching recent college graduates complex technical information on the operation of nuclear power plants. I teach reactor plant operations which includes all reactor plant systems, secondary systems, electrical systems, reactor protection equipment and systems, operational procedures, and casualty analysis. I have to be able to relate this information to different types of students, which often requires being able to explain the concepts to different levels of understanding. Throughout my time at power school I have become an excellent public speaker, being able to read my audience and adjust my lectures as I am teaching in order to enhance understanding of a topic.

Communication is a fundamental skill required of good leaders. Throughout my time in the Navy I have had experience in communicating to supervisors and subordinates alike. Most information I have had to communicate was technical in nature. My experience communicating throughout my career has given me the ability to communicate well with multiple groups of individuals and tailor my presentation to my audience effectively.

US-WI-Milwaukee

**WORK EXPERIENCE**

US Navy, Naval Nuclear Power Training Command

Charleston, SC

US

1/2006 - Present

Hours per week: 40

Senior Instructor

Responsible for teaching over 200 junior officers and recent college graduates complex nuclear engineering design, theory and operational principles in the capstone course for the Navy's Nuclear Power School.

-Certified as Master Training Specialist within one year of instructing, well ahead of the average 14 -15 month normal certification process

-Screened for Department Head on first look by Navy board

Contact Supervisor: Yes

Supervisor's Name: CDR Jim Latsko

Supervisor's Phone: (843)813-8803

US Navy, USS Helena (SSN-725)

San Diego, CA

US

9/2005 - 12/2005

Hours per week: 60

Assistant Engineer/ Quality Assurance Officer

Principal Assistant to Engineer Officer, directly in charge of more than 60 personnel in all aspects of operation,

maintenance and training of a nuclear reactor and engine room systems.

-Ranked as one of the top two division officers on the ship (out of 12)

-As Quality Assurance Officer, managed all submarine safety maintenance items, ensuring the ship maintained its certification following an arduous two month maintenance period following a six month western Pacific deployment.

-Earned the Navy and Marine Corps Commendation medal for superior performance, an award normally reserved for department heads on submarines.

Contact Supervisor: Yes

Supervisor's Name: (b)(6)

Supervisor's Phone: [REDACTED]

US Navy, USS Helena (SSN-725)

San Diego, CA

US

10/2004 - 9/2005

Hours per week: 60

Damage Control Assistant/ Ship's Diving Officer

Responsible for 15 mechanics in Auxiliary Division and the ship's emergency diesel, damage control equipment, atmosphere support systems, ship control systems, and escape equipment.

-Managed division cited as 'Best in Squadron' during annual inspection, an award the division had not received in over 5 years.

-As Ship's Diving Officer, my program was noted by a senior Navy Captain as 'Significantly Above Average' during annual Tactical Readiness Evaluation

-Awarded qualification by the Department of Energy's Naval Reactors Division as a certified naval nuclear engineer.

Serial: R-III/DRP-2003-0024-PNL  
 Vacancy: R-III/DRP-2003-0024 Reactor Engineer / Resident Inspector (GG-13)  
 Location: DuPage County, IL  
 Grade(s): 13

Applicant:

ROACH, GREGORY

## Personal Data

First Name:	GREGORY
MI:	M
Last Name:	ROACH
Address1:	(b)(6)
Address2:	
City:	
State:	
Zip Code:	
Plus 4:	
Phone:	
Email:	
US Citizen:	
Veteran Preference:	
Grade:	13

## Core Questions

1	Are you a vet who was separated from the armed forces under honorable conditions after completing an initial continuous tour of duty of 3 years (may have been released just short of 3 years)?	(b)(6)
2	Are you a current Federal employee?	Yes
3	If you are a current Federal employee, by what agency and organization are you employed?	Other
4	If you selected "Other", please enter the agency and organization.	U.S. Navy- I am currently in the Navy
5	If you are a current Federal employee, what is your duty station? [City,State] (Enter N/A if not Applicable)	U.S. Naval Academy-Annapolis, Maryland
6	If you are a Federal employee, under what type of appointment are you currently serving?	Permanent-Career, competitive service
7	Are you a student appointee under the Student Career Experience Program who has completed all requirements for graduation and conversion under the SCEP appointing authority and is in the 120 day period for conversion to term, career or career-conditional appointment?	No

http:

This is an 'official' document generated from the eOPF system.

8	If you are NOT currently serving in the competitive or excepted service as a permanent career or career-conditional Federal employee, are you eligible for reinstatement based on a career or career-conditional Federal status in the competitive or excepted service?	Not Applicable
9	If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:	Not applicable
10	If you selected "Other", please enter the Pay Plan.	O3
11	If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter NA if Not Applicable):	NA
12	If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or NA if Not Applicable):	NA
13	If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter NA if Not Applicable)	O3
14	May we contact your current supervisor for a reference?	Yes
15	Does the US Nuclear Regulatory Commission employ any member of your family?	(b)(6)
17	If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?	Yes
18	If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?	Not Applicable
19	Are you a retiree receiving a Federal annuity, either military or civilian?	(b)(6)
20	Have you accepted a buyout from a Federal agency within the past 5 years?	No

## Report Results

R-III/DRP-2003-0024 Reactor Engineer / Resident Inspector (GG-13)

1	(F0007) Knowledge of the design features and operating characteristics of nuclear reactor facilities. (Describe your professional experience with reactor facilities, commercial, government, or military. The experience may have been as a power plant operator, in a staff position	I am qualified as a Chief Engineer Officer by the Department of Naval Reactors on the S6G Pressurized Water Reactor(PWR). Since July of 1999: I have qualified on and operated both critical and shutdown as Engineering Officer of the Watch on the Navy's S5W and S6G PWR. From October 1999 until April 2002 I served as the Assistant Engineer Officer and Quality Assurance Officer onboard the nuclear powered attack submarine USS ASHEVILLE (SSN 758). My responsibilities included review and oversight of all nuclear and steam plant maintenance to include PORV testing, replacement of Reactor Coolant Pumps, and Steam Generator hydrostatic testing. I was also responsible for the weekly training and monthly examinations of all nuclear supervisors. As an instructor at the U.S. Naval Academy I have personally developed and instruct a senior level Nuclear Engineering course. The course focuses on the commercial nuclear power industry both in the United States and abroad. Topics include: uranium

This is an 'official' document generated from the eOPF system.

	<p>in operations, or associated with plant operations.)</p>	<p>enrichment; Light Water Reactor fuel rod construction and core loadout patterns; PWR and BWR design and operation; LMFBR, CANDU-PHWR, PTGR, and HTGR overview; reactor safety systems; reactor accidents; and spent fuel handling/disposal.</p>
2	<p>(F0008) Demonstrated experience in applying the theories, principles, and practices of engineering to the design, construction, and/or operation of nuclear power plants. (Describe substantive experience in applying engineering knowledge to nuclear power plant design, construction, or operation, and/or to inspection of nuclear power plant operations.)</p>	<p>As the Quality Assurance Officer in an S6G Pressurized Water Reactor, I reviewed for technical correctness all nuclear and steam plant maintenance packages performed in the plant. In order to successfully accomplish this task, it was imperative to have a thorough knowledge of all affected systems to ensure personnel and reactor safety. In order to qualify as Chief Engineer, I undertook an intensive 8 week immersion course on the design and operation of the Navy's S6G Pressurized Water Reactor (PWR). This knowledge was evaluated by a 5 hour written examination covering reactor physics, electrical distribution systems, and plant chemistry. This was followed by 2 hours of oral interviews on reactor plant operations and reactor plant mechanical systems.</p>
3	<p>(F0242) Demonstrated ability to develop and implement successful approaches to problem solving and conflict resolution. (See examples below)</p>	<p>As the Assistant Engineer Officer, I attended all critiques of mishaps (personnel and equipment relayed) occurring in the nuclear power plant. I was also responsible for drafting and submitting all Incident Reports to the Department of Naval Reactors (NAVSEA O8). In this capacity, I was responsible for the developing, implementation, and training of engineering department personnel with regards to corrective actions. In order for the corrective actions to be successful the root cause of the incident had to be determined and addressed aggressively. One such example of tracking a problem to its source occurred when a reactor protective action was received due to an insufficient power to flow ratio which existed following the electrical loss of 2 reactor coolant pumps resulting from a trip of a Turbine Generator. Working with my senior electrical and mechanical technicians a detailed troubleshooting plan was devised and implemented. The fault was isolated to the electrical power supply for the electrohydraulic governor valve to the steam powered Turbine Generator. This process exposed a fault that enabled the fleet to perform an inspection of their governor control circuitry. A second example occurred when an Electromagnetic Interference Pulse caused a Reactor Coolant Pump breaker to trip following the manual operation of a breaker in the shared circuitry. I was able to work with Knolls Atomic Power Laboratory representatives to determine the cause of the trip. Once the cause was known, I generated a standing order for non-emergency operation of the breaker in question based on reactor plant flow conditions.</p>
4	<p>(F0243) Demonstrated ability to communicate well, both orally and in writing. (This includes demonstrated ability to establish effective working relationships with supervisors, Government and industry officials, utility employees and managers, Government committees, co-workers, media personnel, NRC officials and senior managers, as</p>	<p>As a Naval Officer, I have had the privilege to give several oral presentations. Presently, I am an instructor at the U.S. Naval Academy in the Naval Architecture and Mechanical Engineering Departments. My lectures are given on ship performance and the commercial nuclear power industry. Both courses are taught at the junior and senior level. In order to qualify, supervisory watchstations onboard the submarine both in and out of the nuclear power plant a formal oral board was held by the ship's Commanding Officer. During my qualification process as Chief Engineer, I was subjected to oral boards on reactor plant operations and plant systems. These boards were held by NAVSEA O8 engineers personally responsible for the design of the particular systems covered. In order to meet the requirements for obtaining my Masters degree in Nuclear Engineering from the Georgia Institute of Technology, I wrote a thesis (&gt;400 pages including data summary) on the Onset of Critical Heat Flux and Flow Instability in Microchannels. This thesis was presented to a panel of professors and a representative from Los Alamos National Laboratory. One example of helping to change the minds of co-workers occurred while in the shipyard. With a significant procedure to be performed in support of nuclear maintenance an</p>

<p>well as the ability to write technical reports containing findings, analyses, and conclusions.) (See examples below)</p>	<p>arduous shift work schedule was adopted. This was initially not met with a high level of motivation on the deck plate level. In order to help change the attitude I ensured that down time was minimized while on-shift in the form of conducting future training and aggressively attacking preventative maintenance schedules. This helped the crew not feel like it was wasting time while on-duty and ensured that the time following the shift work period was restful and not full of deferred items. Once this reality was apparent it made the crew more aggressive about accomplishing future tasks and less apt to be dwelling negatively about the extra time being spent at work.</p>

## RESUME for GREGORY ROACH

<b>RESUME</b>	
GREGORY M. ROACH, Jr.	
(b)(6)	work: (b)(6)
	(H) (b)(6) (W)
<b>EDUCATION</b>	
Georgia Institute of Technology, Atlanta, GA	
Master of Science, Nuclear Engineering (3.65 GPA), (b)(6)	
United States Naval Academy, Annapolis, MD	
Bachelor of Science (With Merit), Marine Engineering (3.54GPA), (b)(6)	
<b>PROFESSIONAL EXPERIENCE - Lieutenant, United States Navy</b>	
May 1996 - present	
Senior Instructor, Mechanical Engineering and Naval Architecture, U.S. Naval Academy, Annapolis, MD (May 2002-present).	
Personally selected by senior Navy leadership to a high-profile academic position training and mentoring future naval officers. Courses taught: Nuclear Energy Conversion and Principles of Ship Performance.	
Assistant Engineer/Quality Assurance Officer, USS ASHEVILLE, Pearl Harbor, HI (October 1999 - April 2002)	
Responsible for the operation, maintenance, and repair of shipboard electrical distribution systems, motor generators, turbines, steam plant piping and components, main propulsion shaft line components, hydraulic systems, diesel generator, high pressure and diver-quality air systems, and various atmosphere control equipment onboard a nuclear-powered submarine. Led and trained divisions/departments numbering from 6 to 70 personnel.	
Student, Nuclear Power School, Nuclear Prototype Training Unit, Submarine Officer Basic Course (June 1998 - October 1999).	
<b>QUALIFICATIONS</b>	
<input type="checkbox"/> Key manager, mentor and trainer responsible for	

https://

2/2003

division of 10 senior engineering supervisors and 60 operators.

Decisive leader sought for the most demanding situations and increasing positions of responsibility. Recognized as Submarine Squadron Three Junior Officer of the Year 2001 from a pool of over 50 officers.

Analytical problem solver with diverse experience in naval engineering, mechanical engineering, reliability engineering, nuclear engineering, and quality assurance/control.

Extensive background teaching and training complex engineering and technical subjects and systems in both college and vocational settings. Rated "best engineering instructor" while teaching at the Naval Academy.

Developed and modernized senior level nuclear engineering program detailing all aspects of the nuclear fuel cycle and commercial reactor plant operations.

Developed innovative and dynamic curriculum for complex engineering and technical subjects in courses taken by over 700 students per year and taught by 10 to 20 faculty members.

Quality assurance and control system expert for all aspects of a one-billion dollar submarine subject to several stringent quality assurance standards.

Reviewed and approved all quality assurance/control projects associated with preventive and corrective maintenance on structural hull components, high pressure air systems, hydraulic systems, and nuclear, seawater, and steam piping systems. All projects were vital to the safety, reliability, and survivability of a nuclear-powered submarine.

Developed, implemented and administered a model quality assurance audit and surveillance program.

Experienced with Microsoft Office (Word, Excel, PowerPoint), Fastship, MCNP.

Qualified Nuclear Engineer Officer by the Department of Naval Reactors.

Certified US Navy Electronics Technician.

Hold a current TOP SECRET Security Clearance.

Certified Emergency Medical Technician in the state of Maryland.

John Scott Robbins

(b)(6)

(b)(6)

**EDUCATION**

**Clemson University**                      **Clemson, SC**  
(b)(6) - BS Electrical Engineering - 3.23 current GPA  
(120 semester credits completed of 135)

(b)(6)

(b)(6)

**WORK EXPERIENCE**

**Cargo Agent**                      **Delta Air Lines Global Services (GSP Airport, Greer, SC)**  
03/2001 - 10/2001                      **1007 Virginia Ave. Atlanta, GA 30354**

(b)(6)

25-30 hours / week  
Voluntary Termination for Pursuit of Education

**Automation Engineer**                      **Spartanburg Steel Products**  
02/1994 - 06/2000                      **1290 New Cut Road, Spartanburg SC 29304**

(b)(6)

50-65 hours / week  
Voluntary Termination for Pursuit of Education  
-Maintain and Troubleshoot robotic and automated equipment  
-Project Management of capital investments  
-Supervise preventative maintenance processes and personnel  
-Facilitate maintenance and production training

**Field Service Engineer**                      **ISI Robotics**  
06/1991 - 02/1994                      **31915 Groesbeck Hwy. Fraser, MI 48026**

(b)(6)

50-60 hours / week  
Voluntary Termination for Pursuit of Other Employment Opportunity  
-On-site project management  
-Supervise on-site installation  
-Work with Chrysler, Ford, and General Motors employees

**MILITARY EXPERIENCE**

**Petty Officer 3rd Class**                      **US Navy**    *(DD214 available upon request)*  
02/19/1987 - 03/01/1991                      -Aviation Intermediate Maintenance Department

-Maintain communication and navigation equipment for various naval aircraft  
-Maintain work center training records  
-Award for exceptionally high scholastic achievement  
-Letter of appreciation for work in the AIMD hazardous material program

**OTHER TRAINING / EXPERIENCE**

01/2003 - 06/2003	Study Abroad - The University of Hong Kong	Hong Kong
03/1996 - 04/1996	SMG Hydraulic Training	Heidelberg, Germany
04/1995 - 04/1995	Microsoft Project Training	Spartanburg, SC
11/1987 - 03/1988	Communication / Navigation Equipment Training	Jacksonville, FL
04/1987 - 10/1987	Electronic / Radar Theory	Millington, TN

Serial: SA-USNRC-0003

Vacancy: NSIP-2003-0032 Nuclear Safety Intern Program  
FY04

Grade: 07/09

Locations: Chicago Metro Area, IL

Applicant: ROBBINS, JOHN

## Personal Data

First Name:	JOHN
MI:	(b)(6)
Last Name:	(b)(6)
Address1:	
Address2:	
City:	
State:	
Zip Code:	
Plus 4:	
Phone:	
Email:	
US Citizen:	
Veteran Preference:	
(b)(6)	

## Core Questions

- 1 Are you a vet who was separated from the armed forces under honorable conditions after completing an initial continuous tour of duty of 3 years (may have been released just short of 3 years)?  
(b)(6)
- 2 Are you a current Federal employee?  
No
- 3 If you are a current Federal employee, by what agency and organization are you employed?  
Not applicable

- 6 If you are a Federal employee, under what type of appointment are you currently serving?  
Not applicable
- 7 Are you a student appointee under the Student Career Experience Program who has completed all requirements for graduation and conversion under the SCEP appointing authority and is in the 120 day period for conversion to term, career or career-conditional appointment?  
No
- 8 If you are NOT currently serving in the competitive or excepted service as a permanent career or career-conditional Federal employee, are you eligible for reinstatement based on a career or career-conditional Federal status in the competitive or excepted service?  
Not Applicable
- 9 If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:  
Not applicable
- 11 If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter NA if Not Applicable):  
NA
- 12 If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or NA if Not Applicable):  
NA
- 13 If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter NA if Not Applicable)  
NA
- 14 May we contact your current supervisor for a reference?  
Yes
- 15 Does the US Nuclear Regulatory Commission employ any member of your family?
- 17 If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?  
Yes
- 18 If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?  
Not Applicable
- 19 Are you a retiree receiving a Federal annuity, either military or civilian?
- 20 Have you accepted a buyout from a Federal agency within the past 5 years?  
No

## Report Results

NSIP-2003-0032 Nuclear Safety Intern Program FY04

All Grades	1	Is your academic background in ENGINEERING (not engineering technology) or PHYSICAL SCIENCE? Answer(0 points): Yes
All Grades	2	Do you have a BACHELOR'S degree; OR do you expect to complete a BACHELOR'S degree by September 2004? Answer(0 points): Yes
All Grades	3	What is the academic major of your BACHELOR'S degree?(Check all that apply.) Answer(0 points): Electrical Engineering
All Grades	5	Please indicate the school from which you received, or will receive your BACHELOR'S degree. Answer(0 points): Clemson University
All Grades	7	When was your Bachelor's degree granted, or when will it be granted? Answer(0 points): (b)(6)
All Grades	8	Do you have a MASTER'S degree; OR, do you expect to complete a MASTER'S degree by September 2004? Answer(0 points): No
All Grades	13	When was your MASTER's degree granted, or when will it be granted? (01/MM/YYYY) Answer(0 points): (b)(6)
All Grades	14	Do you have a DOCTORAL degree; OR do you expect to complete a DOCTORAL degree by September 2004? Answer(0 points): No
All Grades	19	When was your DOCTORAL degree granted, or when will it be granted? Answer(0 points): (b)(6)
All Grades	20	Regarding your HIGHEST level engineering or science degree, what is your cumulative Grade Point Average (GPA)? APPLICANTS ARE RESPONSIBLE FOR CONVERTING TO 4.0 SCALE, IF ANOTHER SCALE IS USED. Answer(10 points): On a 4.0 scale, my cumulative GPA is between 3.25 and 4.0
All Grades	21	Please indicate the response that most accurately describes your work experience since entering college. Answer(10 points): I have worked directly for the NRC in a technical position (e.g., Summer-Hire, Cooperative Education Student, etc.);.....OR, I have technical work experience related to my area of study (engineering or science).

Please DESCRIBE your work experience at the NRC, or how your technical work experience relates to your academic major.

All  
Grades 22

Answer(0 points): I have not worked for the NRC directly or indirectly. During my four year enlistment with the United States Navy I worked in Aviation Intermediate Maintenance Department. I was responsible for the component level repair for aircraft communication and navigation equipment. Additionally, I have experience with the design, manufacture, and repair of automated systems as it relates to the manufacturing environment: Specifically automotive manufacturing. The duties performed by me are congruent with those performed by electrical engineers in the industry.

All  
Grades 23

How many years of Full-Time Professional Engineering or Physical Science related work experience do you have since obtaining your degree?

Answer(0 points): I have less than ONE (1) year of professional experience.

All  
Grades 25

Please indicate the response that most accurately describe your Academic Honors, Awards and/or Extracurricular Activities.

Answer(10 points): I have received MULTIPLE academic awards and/or scholarships from professional or technical organizations, associations, companies, etc. (e.g. Dean's list, academic scholarships, induction into Honor Societies, etc.).... OR, I held a leadership role in a technical or professional society (e.g. holding an office, chairing a society-sponsored function, etc.).... OR, I belong to MULTIPLE professional or technical societies (e.g. ANS, IEEE, ASME, SHPE, NSBE, SWE, etc.).

All  
Grades 26

Please DESCRIBE your academic awards and/or scholarships, and/or any leadership roles you have held, and/or the professional or technical societies that you are member of.

Answer(0 points): I received the following: Fleet Readiness Award for exceptionally high scholastic achievement. Letter of Appreciation for work associated with the Hazardous Materials Program at N.A.S. Cecil Field, Florida. Appointment to the Deans List for several semesters during my academic career. (b)(6)

(b)(6)

All  
Grades 28

Where did you hear about this vacancy? (Check all that apply)

Answer(0 points): Career Fair - Clemson University

## RESUME for JOHN ROBBINS

### RESUME

John Scott Robbins

(b)(6)

#### EDUCATION

Clemson University Clemson, SC

(b)(6) - BS Electrical Engineering - 3.50 current GPA

(101 semester credits completed of 135)

# ROBERT RUIZ

(b)(6)

Home: (b)(6)

Cell: (b)(6)

## Objective:

Seeking to obtain an entry-level electrical engineering position in an organization where I can apply my skills and knowledge towards the success of the company.

## Education:

- 1998 – Present      Purdue University, Calumet      Hammond, IN
- Cumulative GPA: 3.25/4.0
  - Bachelor of Science in Electrical Engineering
  - Expected date of graduation: (b)(6)
  - Received Semester Honors for past four semesters

## Summary of Qualifications:

Excellent oral and written communication skills. Possess great leadership qualities and good work ethics. Ability to work independently and as a team member. Maintains confidentiality when required. Prioritizes assignments effectively. Performs assignments with minimal instructions and supervision. Excellent customer service skills. Trustworthy, loyal, conscientious and self-motivated.

## Technical Experience:

(b)(6)

Purdue University, Calumet: Engineering Dept.

Hammond, IN

### *Research and Development Student Project Engineer*

- Manage a timeline of project goals and tasks
- Research cost effective methods of achieving project goals
- Give periodic oral and Power Point presentations
- Compose formal technical reports and progress reports

### *Engineering Tutor and Mentor*

- Increase engineering student retention
- Aid students in courses of difficulty

Summer 2002

Leslie's Pool Supplies

Merrillville, IN

### *Technician and Sales Associate*

- Performed electrical and mechanical repairs on pool equipment (motors, pumps, etc.)
- Underwent extensive product training for hazardous chemicals

## Technical Skills:

- Assembly language, Matlab, Dynamic C, C++, P-spice, Auto-Cad, VHDL and MS Office
- Experienced with analog and digital laboratory environments
- Extensive knowledge of PC's and PC hardware installation and configuration

## Activities:

- Executive Board President (elected position) of the Society of Hispanic Professional Engineers (SHPE).
- Active member of the International Association of Electrical and Electronics Engineers (IEEE)

(b)(6)

(b)(6)

Home: (b)(6)

Cell: (b)(6)

E-mail: (b)(6)

# Robert Ruiz

## Objective

To obtain an entry level position in the field of electrical engineering within a corporation that will not only be challenging but will also promote the furtherance of education. Areas of interest: Hardware Engineering, Logic-Design, and Audio.

## Education

(b)(6)

- Present

Purdue University - Calumet

Hammond, IN

- GPA: 3.17/4.0
- Major: Electrical Engineering
- Expected date of graduation: (b)(6)
- Received Semester Honors for past three semesters.

## Relative Course Work

- **Digital Systems-Logic Design:** Logical design and analysis of digital systems, using CMOS and VHDL programming.
- **Electronic Systems/Amplifiers:** Design and analysis of analog amplifier circuits using transistors (BJT, MOSFET, JFET).
- **Microprocessors:** Assembly language programming techniques, control of digital hardware and peripheral devices via software.

## Computer Skills

Assembly language, MatLab, P-spice, C++, Auto-Cad, VHDL, Fortran and MS Office. Broad knowledge of PC's, hardware installation/configuration.

## Experience

(b)(6)

Purdue University Calumet

Hammond, IN

Tutor/Mentor

- Increase student retention through constant interaction and counseling.
- Aid students in courses of difficulty.

(b)(6)

Leslie's Pool Supplies

Merrillville, IN

Technician/Sales

- Performed electrical/mechanical repairs on pool equipment (motors, pumps, etc.).
- Underwent extensive product training for hazardous chemicals.

2000 - 2001

Circuit City

Calumet City, IL

Sales Counselor

- Received award for outstanding sales performance, exceeding quota by 40%.
- Completed rigorous product training within the home audio department.

## Interests & Activities

- **President** of the student chapter of the Society of Hispanic Professional Engineers (SHPE). My duties include leading student events, heading community-oriented projects, fundraising, delegating responsibilities and organizing the annual banquet.
- **Experience** in repairs and alterations of electronic components of electric guitars, effects processors and guitar amplifiers.
- **Experience** with home recording studio hardware/software.

US Nuclear Regulatory Commission

Applicant Resume Detail

Vacancy Description: Nuclear Safety Intern Program FY03

Staging Area ID: SA-USNRC-0004

Name: ROBERT RUIZ

(b)(6)

Objective

To obtain an entry level position in the field of electrical engineering within a firm that will not only be challenging, but will also promote intellectual growth.

Education

(b)(6)

Purdue University-Calumet Hammond, IN

•GPA: 3.17/4.0

•Major: Electrical Engineering

•Received Semester Honors for past four semesters.

•Expected date of graduation: (b)(6)

Relative Course Work

•Analog Systems/Amplifiers: Design and analysis of amplifier circuits using transistors (BJT, MOSFET, JFET).

•Microprocessors: Assembly language programming techniques, control of digital hardware and peripheral devices via software.

•Control Systems: Analysis of analog control systems using in-class methods, as well as in-lab computer simulation software (MATLAB/Simulink).

•Digital Systems/Logic Design: Logical design and analysis of digital systems, using TTL and VHDL programming.

Computer Skills

Assembly language, C++, VHDL, Matlab, P-spice, Auto-Cad, Fortran and Excel. Broad knowledge of PC's, hardware installation/configuration.

(b)(6)

# ELBA M. SANCHEZ

## OBJECTIVE

Obtain a position in which I will be able to use my knowledge and further develop my abilities in the area of engineering to in this way contribute to reach the goals of the company.

## EDUCATION

University of Puerto Rico, Mayaguez Campus  
Degree: B.S. in Mechanical Engineering  
GPA: 3.09 on a 4.00 scale  
Expected graduation date: (b)(6)

## WORK EXPERIENCE

(b)(6)

Engineering Class: Computer Aided Design  
Student

The project consisted of redesigning an electric sharpener using the Design program Pro-Engineer.

## KNOWLEDGE AND SKILLS

- Microsoft Office, C/C++ languages, Power Point, Windows XP, Auto CAD, Pro-Engineer Wildfire
- Team work oriented
- Good communication and interpersonal relationships
- Fluent in both English and Spanish (written and spoken).

## ACTIVITIES

(b)(6)

# Elba M. Sánchez Santiago

(b)(6)

Phone (b)(6)  
E-mail

**OBJECTIVE:** Obtain a coop or internship where I will be able to demonstrate my abilities and knowledge in the area of engineering and in this way contribute to reach the company goals.

**EDUCATION:** University of Puerto Rico, Mayaguez Campus  
Degree: B.S. In Mechanical Engineering  
GPA: 3.19 on a 4.00 scale  
Expected graduation date: (b)(6)

## WORK EXPERIENCE

(b)(6) 2007 Solar House Team Member  
- Present - Water Distribution System

(b)(6) Research at the University of Puerto Rico, Mayaguez Campus  
- Present Student Researcher  
• Research in the area of corrosion. Specifically hydrogen permeation tests on coated steels by ways of electrochemical methods

(b)(6) Internship at The United States Nuclear Regulatory Commission, Lisle, IL  
Student Engineer  
• The job consisted of seminars, classes and diverse in-office assignments where I developed better organizational abilities as well as more knowledge in the nuclear industry as well trips to diverse nuclear plants to observe how they function.

(b)(6) Design of mechanism course at UPR Mayaguez Campus  
• Design of base for a computer monitor

(b)(6) Computer Aided Design Course at UPR Mayaguez Campus  
• Re-design of an electrical pencil sharpener using Pro-Engineer Wildfire.

## SKILLS

- Computer Knowledge (Microsoft Office, C/C++ languages, Power.Point, Windows XP, Pro-Engineer, Auto CAD, Microsoft Excel, Microsoft Visio, Solid Works)
- Characterization techniques knowledge (AFM, Potentiostat, XRD and others)
- Interpersonal Skills (teamwork, individual work, leadership)
- Communication (b)(6)

## ACTIVITIES

- Presentation of poster:
  - NACE Corrosion Convention; March 2006 in San Diego
  - NEA Science Day; February 2006 University Of Puerto Rico Mayaguez
- ASME
- IIM (Instituto de Ingenieros Mecanicos)
- NACE International (National Association of Corrosion Engineers)
- Materials Advantage
- (b)(6)

## INTERESTS

Innovative design, materials science, metallurgical test, biomaterials.

**Core Question Responses**

Number	Question/Answer
1	Question: Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.) Answer: (b)(6)
2	Question: Are you a current Federal employee? Answer: No
3	Question: If you are a current Federal employee, by what agency and organization are you employed? Answer: I am not a current Federal employee
4	Question: If you selected "Other", please enter the agency and organization. Answer: No Answer
5	Question: If you are a current Federal employee, what is your duty station? [City,State] (Enter N/A if not Applicable) Answer: No Answer
6	Question: If you are a current Federal employee, under what type of appointment are you currently serving? Answer: Not applicable
	Question: If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent

- 7. service in the excepted service or based on career or career-conditional Federal status in the competitive service?  
 Answer: No  
 Question: If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:
- 8. Answer: GG  
 Question: If you selected "Other", please enter the Pay Plan.
- 9. Answer: No Answer  
 Question: If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):
- 10. Answer: 5  
 Question: If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):
- 11. Answer: June 2006-August 2006 June 2007-July 2007  
 Question: If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)
- 12. Answer: NA  
 Question: May we contact your current supervisor for a reference?
- 13. Answer: Yes  
 Question: Does the NRC employ any member of your family?
- 14. Answer: (b)(6)  
 Question: If yes to Question 16, please provide the name, relationship, organization in which employed, and location if known.
- 15. Answer: (b)(6)  
 Question: If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?
- 16. Answer: Not Applicable  
 Question: If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?
- 17. Answer: Not Applicable  
 Question: Are you a retiree receiving a civilian Federal annuity?
- 18. Answer: (b)(6)  
 Question: Have you accepted a buyout from a Federal agency within the past 5 years?
- 19. Answer: No  
 Question: Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)
- 20. Answer: No  
 Question: From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)
- 21. Answer: None of the above  
 Question: If you selected other please list the OPM Special Appointment Authority for which you qualify.
- 22. Answer: No Answer

All Grades Vacancy Question Responses	
Number	Question/Answer
1	Question: From the following list, please select the choice that matches your educational background. Answer: I expect to receive a degree in the field of Engineering or Science from an accredited university or college BY September of 2008.
2	Question: Since obtaining your degree, how many years of fulltime professional work experience related to Engineering or Physical Science do you have? Answer: I have less than one year of professional work experience related to Engineering or Physical Science.

- 3
  - Question: From the following list of choices, please select the college or university you have or will have received your latest degree from?
  - Answer: University of Puerto Rico
  - Question: If the candidate answered Other the following question(s) will be presented:
  - Answer:
- 3.1
  - Question: In the space provided below, please provide the name of the university or college you have or will have received your latest degree from.
  - Answer: No Answer
  - Question: Please select the highest grade level for which you qualify. If you select a grade level that you do not qualify for, your application may be marked for disqualification and you will NOT be considered for this position.
  - Answer: GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major.
  - Question: If the candidate answered GG-07: I have or will have a Bachelors degree in or related to Engineering or Physical Science discipline, with at least a 2.95 overall GPA or 3.5 in my major, the following question(s) will be presented:
  - Answer:
- 4
  - Question: From the following list of choices, please select the qualification you are using to apply for this position.
  - Answer: I have or will have received a Bachelors degree by September of 2008 in or related to Engineering or Physical Science.
  - Question: If the candidate answered GG-09: I have or will have a Masters degree or Bachelors degree and one year of post degree work experience in or related to Engineering or Physical Science, the following question(s) will be presented:
  - Answer:
- 4.1
  - Question: From the following list of choices, please select the qualification you are using to apply for this position.
  - Answer: No Answer
  - Question: If the candidate answered GG-11: I have or will have a Doctorate degree (Ph.D) or Masters degree and one year of post degree work experience or Bachelors degree and two years of post degree work experience in or related to Engineering or Physical Science, the following question(s) will be presented:
  - Answer:
- 4.1
  - Question: From the following list of choices, please select the qualification you are using to apply for this position.
  - Answer: No Answer
  - Question: What is the official academic title of the major for your Bachelors degree?
  - Answer: Mechanical Engineering
  - Question: If the candidate answered Other the following question(s) will be presented:
  - Answer:
- 5.1
  - Question: In the space provided below, please provide the official academic title of your major for your Bachelors degree.
  - Answer: No Answer
  - Question: What is the official academic title of the major for your Masters degree?
  - Answer: Not Applicable
  - Question: If the candidate answered Other the following question(s) will be presented:
  - Answer:
- 6
  - Question: In the space provided below, please provide the official academic title of your major for your Masters degree.
  - Answer: No Answer
  - Question: What is the official academic title of the major for your Doctorate degree?
  - Answer: Not Applicable
  - Question: If the candidate answered Other the following question(s) will be presented:
  - Answer:
- 7
  - Question: In the space provided below, please provide the official academic title of your major for your Doctorate degree.
  - Answer: No Answer
  - Question: What is your cumulative Grade Point Average (GPA)? Applicants are responsible for converting to a 4.0 scale if another is used.
  - Answer: on a 4.0 scale, my cumulative GPA is 2.95 to 3.29
  - Question: Please indicate the response that most accurately describes your work experience since entering college.
  - Answer: I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education
- 7.1
  - Question: In the space provided below, please provide the official academic title of your major for your Doctorate degree.
  - Answer: No Answer
  - Question: What is your cumulative Grade Point Average (GPA)? Applicants are responsible for converting to a 4.0 scale if another is used.
  - Answer: on a 4.0 scale, my cumulative GPA is 2.95 to 3.29
  - Question: Please indicate the response that most accurately describes your work experience since entering college.
  - Answer: I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education
- 8
  - Question: Please indicate the response that most accurately describes your work experience since entering college.
  - Answer: I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education
- 9
  - Question: Please indicate the response that most accurately describes your work experience since entering college.
  - Answer: I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education

**Question:** If the candidate answered I have worked directly for the NRC in a technical position (e.g., Summer-hire, Cooperative Education Student, etc.) the following question(s) will be presented:

**Answer:**

**Question:** Please describe your technical work experience at the NRC.

I participated as a summer hire two summers at Region 3(2006 and 2007). During this time I took various training courses and I participated in plant tours and inspections. In the office I was assigned various tasks such as putting together binders with needed information or scheduling inspections for the following year. I also participated in the daily morning call with DRP as well as the daily morning meetings. I attended different conferences and meetings in other regions such as Region 2 and Headquarters. During my time at the nuclear power plants I was taken on tours where I was shown the location and function of various components. I also observed an active inspection where I shadowed some of the inspectors by repeating and reviewing calculations and documents they were using. I interacted with many of the inspectors where they spoke to me about how power plants work as well as what an inspectors job involves and requires. With this I received a better understanding of the job requirements are, what the goals of the agency are and how these are met.

9.1

**Answer:**

**Question:** If the candidate answered I have technical work experience related to my area of study (e.g., Engineering or Physical Science), the following question(s) will be presented:

**Answer:**

**Question:** Please describe how your technical work experience relates to your academic major.

9.1

**Answer:** No Answer

**Question:** If the candidate answered I have no technical work experience, BUT I have non-technical work experience (e.g., retail sales, etc.) the following question(s) will be presented:

**Answer:**

**Question:** Please describe your work experience.

9.1

**Answer:** No Answer

**Question:** Please select the response that most accurately describes your academic honors, awards and/or extracurricular activities.

10

**Answer:** I am an active member in multiple professional or technical societies (e.g., ANS, IEEE, ASME, SHPE, NSBE, SWE, etc.)

**Question:** If the candidate answered I have received multiple academic awards and/or scholarships from professional or technical organizations, associations, companies, etc. (e.g., Dean's List, academic scholarships, induction into the Honor Society, etc.) the following question(s) will be presented:

**Answer:**

**Question:** Please list and describe the academic awards and/or scholarships you received from professional or technical organizations, associations, companies, etc.

10.1

**Answer:** No Answer

**Question:** If the candidate answered I held a leadership role in a professional or technical society (e.g., holding an office, chairing a society-sponsored function, etc.) the following question(s) will be presented:

**Answer:**

**Question:** Please provide the title and description of the leadership role you held in a professional or technical society.

10.1

**Answer:** No Answer

**Question:** If the candidate answered I am an active member in multiple professional or technical societies (e.g., ANS, IEEE, ASME, SHPE, NSBE, SWE, etc.) the following question(s) will be presented:

**Answer:**

**Question:** Please list and describe the memberships you held in multiple professional or technical societies.

10.1

**Answer:** I am an active member of ASME, AIAA, IIM(Institute of mechanical engineers). My participation in these societies includes attending most of the conferences and forums held and actively planning these activities. I am also a member of the Solar house team, where I am a leader of one of the sub-mechanical engineering teams. Specifically the water heating and distribution team. I was also a member of NACE and materials advantage.

**Question:** If the candidate answered I have received one academic award or one scholarship from a professional or technical organization, association, etc. the following question(s) will be presented:

**Answer:**

**Question:** Please list and describe the academic award or scholarship from a professional or technical organization, association, etc.

10.1

**Answer:** No Answer

**Question:** If the candidate answered I am an active member of one professional or technical society. the following question(s) will be presented:

**Answer:**

**Question:** Please list and describe the membership you held in a professional or technical society.

10.1

**Answer:** No Answer

Answer:

Question: If the candidate answered I am an active member of one professional or technical society, AND I have received at least one academic award or scholarship from a professional or technical organization, association, etc. the following question(s) will be presented:

Answer:

10.1

Question: Please list and describe the membership you held in a professional or technical society, AND the academic award or scholarship from a professional or technical organization, association, etc.

Answer: No Answer

11

Question: Where did you learn about the Nuclear Safety Professional Development Program (NSPDP)?

Answer: College/University

(b)(6)

Grade Level: GG-05

Salary: 33309 USD Per Year

Hours per week: 40

Student Engineer, 899

My job included both in-office and out of office experiences. In the Office I worked on putting together various documents as well as some research tasks: I put together some binders of information that was needed at the moment and I looked up information on various topics as an assistance to co-workers.

While I was out of the office I attended a conference with other regions. I also went on various inspections where I participated as an observer. During these inspections I participated in tours of the nuclear power plants where I learned the functionality of many of the components as well as the importance of the safety related systems. I also participate in the inspection by observing the inspectors and repeating calculations and observations to be able to get a full understanding of their jobs as inspectors.

Summary of Training and Activities I participated in during the 2006 summer internship

• Training

- o Probabilistic Risk Assessment
- o Site Access Training at the TTC in Chattanooga
- o Reactor Concepts

• Out of office visits

o Braidwood – Basic plant tour of the turbine building, emergency diesel generator room and visited a simulator control room.

o Watts Bar – Toured the turbine building, emergency diesel generator room and entered containment of the unit 1 to reactor which is still under construction.

o Byron – Toured the turbine building, entered the control room and observe operations and I also viewed the test run of an emergency diesel generator.

o Headquarters – Participated in various meetings and tours such as:  
#61607; Managers morning briefing  
#61607; Tour and orientation of the incident response center

#61607; Met and conversed briefly with the Headquarters Operations Officers.

#61607; Met the Chairman and his assistant for reactors and research with whom we conversed a little on the basis of his job.

#61607; Attended the EEO public meeting

#61607; Toured the facilities

• Activities and assignments

o Worked briefly on the analysis and identification of important questions asked during Perry's Component Design Bases Inspection with the purpose of later putting them together to form a list of generic questions that should be considered during these inspections.

o With guidance and specifications from the DRS engineering branch chiefs I put together the 2007 engineering inspection schedule.

o Assisted in the external engineering public meeting, helping with

registration and the slide show presentations.  
o Participated daily in the DRP branch 1 morning status calls.

Vacancy: R-IV/DRP-2007-0041 Project Engineer  
GG-13

Grade: 13

Locations: Arlington, Texas

Applicant: SCHAUP, WILLIAM

## Personal Data

First Name:	(b)(6)
MI:	
Last Name:	
Address1:	
Address2:	
City:	
State:	
Zip Code:	
Plus 4:	
Phone:	
Email:	
US Citizen:	
Veteran Preference:	
(b)(6)	

## Core Questions

1 Are you a vet who was separated from the armed forces under honorable conditions after completing an initial continuous tour of duty of 3 years (may have been released just short of 3 years)?

(b)(6)

2 Are you a current Federal employee?

Yes

3 If you are a current Federal employee, by what agency and organization are you employed?

Other

4 If you selected "Other", please enter the agency and organization.

Department of Defense (Navy)

5 If you are a current Federal employee, what is your duty station? [City, State] (Enter N/A if not Applicable)

Norfolk Naval Shipyard Reactor Servicing Department Portsmouth Va

6 If you are a Federal employee, under what type of appointment are you currently serving?

Permanent-Career, competitive service

7 Are you a student appointee under the Student Career Experience Program who has completed all requirements for graduation and conversion under the SCEP appointing authority and is in the 120 day period for conversion to term, career or career-conditional appointment?

No

8 If you are NOT currently serving in the competitive or excepted service as a permanent career or career-conditional Federal employee, are you eligible for reinstatement based on a career or career-conditional Federal status in the competitive or excepted service?

Not Applicable

9 If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

GS

11 If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter NA if Not Applicable):

12

12 If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or NA if Not Applicable):

Present

13 If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter NA if Not Applicable)

07

14 May we contact your current supervisor for a reference?

Yes

15 Does the US Nuclear Regulatory Commission employ any member of your family?

(b)(6)

17 If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Yes

18 If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Not Applicable

19 Are you a retiree receiving a Federal annuity, either military or civilian?

(b)(6)

20 Have you accepted a buyout from a Federal agency within the past 5 years?

No

# Vacancy Data

R-IV/DRP-2007-0041 Project Engineer GG-13

(F0729)A Knowledge of nuclear power plant operations, systems, procedures, and integrated facility operations. (Describe your professional experience with reactor facilities, commercial, government, or military. The experience may have been as a power plant operator, in a staff position in operations, or associated with reactor plant operations.)

Answer(0 points): I have been working for the Nuclear Engineering and Planning Department, Reactor Testing Division and Servicing Division, Norfolk, VA since March 1990. Training and professional qualifications: My formal experience with nuclear plant operations and reactor servicing began in May of 1990 after I was hired by Norfolk Naval Shipyard. I was first assigned to the Nuclear Engineering and Planning Department's Test Engineering Division. The division is responsible for all aspects of reactor plant test operations, for establishing reactor plant conditions to support plant overhauls, refuelings, and for maintaining reactor plant safety. Additionally the division is responsible for providing technical advice and assistance to all departments of the shipyard on matters such as scheduling reactor plant work, reactor plant safety or matters pertaining to nuclear propulsion plant work. Within the division I began qualification as a Shift Test Engineer (STE). Basically the STE position is equivalent to a nuclear power plant licensed operator that acts as the shipyard's on site representative during the overhaul of the reactor plant up through critical operation testing. Training began with a four month preliminary Phase I engineering course that included reactor physics, reactor theory, reactor plant systems, propulsion plant systems, reactor plant operations, reactor safety and the basic tenants of the naval nuclear propulsion program. Lectures discussed different naval nuclear reactor plants, differences between commercial and naval reactor plants, boiling water reactors and pressurized water reactors, mechanical and electrical systems, nuclear instrumentation and control and reactor plant safety. After completion of phase I training phase II practical training began. The training occurred over a 12-month period. I was assigned to a qualified STE and given a practical factor qualification card. Phase II training was the application of classroom lectures with hands on training to gain experience working on the job everyday. The practical factors were split into three areas: Cold operations (Reactor shutdown, Reactor cool down, establish plant conditions for maintenance), Hot operations (Primary plant heat up, minor steam testing) and Critical operations (Reactor startup, testing). All facets of the reactor operation were covered including: Reactor plant systems and components, electrical systems, operations, reactor plant chemistry, secondary plant systems, secondary plant chemistry, maintenance procedures, safety, quality control, instrumentation, and reactor plant safety. After knowledge was satisfactorily demonstrated to a qualified STE the practical factors would be signed off on the card. Final training for qualification begins with phase III training. Candidates are selected based on past performance and sent to STE School for preparations for written and oral examinations required for qualification. The school took 22 weeks and focused on in-depth reactor plant knowledge to gain full understanding of how each reactor plant and secondary system interacted. At the completion of the course candidates are administered an 8 hour exam that covers

All Grades

mechanical systems, electrical systems, reactor theory, reactor chemistry, radiological controls, reactor instrumentation and controls, and casualty response. A second 8 hour exam administered by NAVSEA is taken one week later. Finally an oral examination is given to test the candidates' leadership, knowledge, and situational response to a casualty situation. I qualified on the A4W reactor plant (Nimitz Class Aircraft carrier). As an STE I was expected to maintain profession knowledge and competence in nuclear engineering principles and concepts and to research, develop, design equipment for testing, operating and maintaining reactor plants at the deck plate level from day to day. I needed to be familiar with related fields such as mechanical and electrical. I required detailed knowledge of test methods and practices to direct the preparation, modification or identification of needed changes to test procedures or test equipment work instructions involving reactor plant systems, radiological controls, plant operations, safety and administrative procedures. I was expected to review all the necessary technical work documents and then independently plan and coordinate the required maintenance. The work requires innovative judgment due to the extensive technical requirements and the impact on the safety, economy and efficiency of the naval nuclear propulsion plant overhaul and testing program. I worked in the testing division for six years primarily on nuclear powered aircraft carriers. I then transferred to the Nuclear Refueling Division. After transfer to the refueling division I immediately began qualification as a Shift Refueling engineer. The qualification process is similar to the STE qualification but with emphasis on refueling operations versus plant operations. The Refueling Department is responsible for engineering, planning, coordinating and exercising technical control of all shipyard work pertaining to reactor servicing operations. It is also responsible for establishing technical requirements for the shipyard facilities, procedures and standards pertaining to reactor servicing work and associated radiological work. As an SRE I was expected to maintain profession knowledge and competence in nuclear engineering principles and concepts and to research, develop, design, install, and maintain equipment which releases, controls and utilizes nuclear energy as well as the ability to apply standard engineering practices for day-to-day work. I required detailed knowledge of reactor servicing methods and practices to direct the preparation, modification or identification of needed changes to servicing procedures or servicing equipment work instructions involving reactor plant systems, radiological control fundamentals, servicing operations, safety requirements and administrative procedures for the refueling program. As an SRE I have been qualified on the S6G and S8G reactor plant types over the last 10 years. I am currently qualified to work as radiation and contamination worker. Additionally I am qualified to write instructions and determine the methodology for radiological control processes under NAVSEA Articles 107, 108, and 112.

(F0242) Demonstrated ability to develop and implement successful approaches to problem solving and conflict resolution. (See examples below)

Answer(0 points): As an STE or SRE I was required to oversee the day to day deck plate operations on any phase of work being performed on the reactor plant. I would provide technical authority and act as a consultant for shop personnel performing work and repairs. I would discuss and resolve all problems that would arise including problems with written instructions, equipment, scheduling of work, training of personnel and operations being performed on the reactor. Problems that occurred on the deck were immediately reported to me for resolution. Problems would be documented different ways depending upon the type of problem. Some problems could be resolve by using my technical knowledge to either provide clarification on a written instruction or requirement or may involve providing written instructions to personnel to perform work or repair equipment. Additionally I was responsible as the shipyards on site representative for casualty response when an emergency situation occurred during the performance of work on the reactor. I was expected to take charge of the scene and perform the necessary immediate and follow up actions to ensure the casualty situation was brought under control and that reactor plant safety was maintained. Example of complex problem solving: After being assigned to work on refueling S8G reactors the process for cutting the main omega seal on the pressure vessel head to allow the actual refueling to commence was still in the process of being developed. I was assigned to work with the prime contractor to develop the process to cut the seal. I spent several months off yard at the contractor's development site using my expertise and knowledge of machining processes to help develop a cutting machine that would cut the seal and prepare seal land surface and seal itself for re-weld. After developing the cutting machine I assisted the contractor with preparing the technical manual that provides the operating and maintenance instructions for using the cutting machine. After the manual was complete I then developed the local instructions used by the shipyard to install, operate and remove the machine during shipboard operations. I then was tasked with overseeing the actual work shipboard. Due to my expertise on the cutting machine I was also tasked with performing this work at Puget Sound Naval Shipyard. I have been involved with the use of this cutting machine on seven S8G refuelings. Example of complex conflict resolution: I have had numerous occasions where I have had to take charge of casualty situations the most predominate are termed spills. A spill is a situation that has the potential to spread contamination outside of predetermined control areas. During these situations I was responsible for ensuring the spill was contained and the source of the spill stopped. I would have to secure on going work and ensure the reactor was in a safe condition. It would be my responsibility to ensure the proper notifications were made to response personnel and managers. I would coordinate clean up actions and radiological controls to assess the extent of spread of contamination and any potential radiation effects. I would have to assess effects on the personnel and equipment in the spill location. I would remain on scene to ensure that all follow up actions were complete and that the spill scene was secured.

All  
Grades 2

(F0102) Demonstrated ability to evaluate activities and events, develop inspection findings, and evaluate adequacy of corrective actions. (Describe specific experience, education, training and accomplishments that demonstrate your ability to evaluate operations, engineering, and maintenance of operating nuclear power plants. Give examples of your accomplishments.)

Answer(0 points): As part of my duties after problems occur and are resolved I would have to determine long term corrective actions that would ensure the problem did not reoccur. This could include updating briefing packages and presentations to include past problems and the corrective action. It could mean incorporating additional instructions into written procedures, technical manuals or corporate instructions. It could mean developing or modifying tooling to perform better during shipboard use. In these instances evaluation of the corrective actions would be determined the next time the operation was performed. As part of reactor servicing many operations are trained on mock ups prior to performing the work on actual shipboard components. I would work with the Lead Shop Supervisor (LSS) to plan and execute training programs for different evolutions or operations. All team members go through various phases of training: lectures, demonstrations, familiarization and qualification. During the lectures, the LSS and I will review the technical work document with the team to ensure that team understands every aspect of the operation, including tools, cleanliness, radiological, sequence of operation and how to perform the operation. After reviewing technical work document, the LSS and I conduct an official briefing in the presence of management and the team is tested on all aspects of the Job. At the end of the brief, LSS, management, and I make a determination whether the team performed satisfactorily and demonstrated adequate knowledge to perform practical training. After the demonstration run, all team members are given the chance to perform familiarization (FAM) runs where I help them learn the practical aspect of the job and the sequence in which it should be performed. After each FAM run, team members are given comments on the areas of improvement for the next run. I evaluate whether they are ready to qualify depending on their ability to perform without any coaching from me, the LSS or other team members. I also evaluate mechanics on their individual performance to determine how well he/she is prepared to do the job and whether he/she follows radiological and cleanliness controls. I also determine how to improve the training to aid the mechanics so they can perform better. I record my findings on monitor logs, which are then reviewed by production and engineering management. After the completion an operation, debriefing of the operation is performed with managers and the personnel that performed the work. During debriefing all aspects of the operation are reviewed and problems, improvement items and weak areas are identified. A debrief report is issued by the SRE that directed the operation with short term and long term corrective.

All  
Grades 3

(F0243) Demonstrated ability to communicate well, both orally and in writing. (This includes demonstrated ability to establish effective working relationships with supervisors, Government and industry officials, utility employees and managers, Government committees, co-workers, media personnel, NRC officials and senior managers, as well as the ability to write technical reports containing findings, analyses, and conclusions.) (See examples below)

Answer(0 points): During the last phase of qualification process for SRE, an oral board examination is given to each candidate. The board members include the head of the Nuclear Planning and Engineering Division, the head of the Nuclear Refueling Division, the Training Branch Head of Nuclear Refueling Division, Senior SRE, Chief Refueling Engineer, the head of Reactor Plant Contractor Office (RPCO) along with his representative for Refueling, and the head of Naval Reactors Representative Office (NRRO) along with his representative for Refueling. The Training Branch Head is the facilitator and presents the candidate with a casualty scenario, which the candidate has one hour to complete. I was tasked to take control of the situation, place the reactor plant in a safe condition, investigate the problem, make proper notification, obtain help from supporting codes to aid in casualty resolution, and place an operational hold. After investigation, I made an evaluation and recommendation to the CRE and other members of the board on Courses of Action to resolve the situation. While in the process of fact finding and investigation, I was asked a variety of questions about personnel safety, nuclear safety, radiological safety, equipment damage, foreign material in the reactor plant or equipment, emergency response procedure, administrative requirements, procedure requirements, and correct operating conditions of cranes. As part of my duties as SRE, I give daily briefings prior to every shift and at the start of every project. This briefing is conducted in front of production and engineering management to ensure that my team is ready to perform the given operation, and that they are well aware of the requirements of the operation. I have also given briefings to the Ship's Force, updating them on the refueling plan of the day. I have written briefing packages on particular refueling operations. In these briefing packages, I discuss in detail the techniques to be used while performing the step. I also list the different responsibilities of personnel and the sequence of events that will take place to perform a particular step. The package provides an overall objective of the operation, a brief summary of it, and radiological and cleanliness control associated with the operation. It also includes the number of tradesman required and their responsibility, along with how much exposure is expected during the performance of this operation. Additionally, the package covers subtle differences between training and actual shipboard operation and previously encountered problems. This aids team members tremendously while reviewing technical work document. I have also written memorandums about techniques and work processes amongst the four public yards, along with corporate procedure change request (CPCR). CPCR is a process requesting certain change to corporate procedure for improvement purpose from all the public yards including RPCO and NRRO office. I write reports daily that discuss how to resolve deficiencies with equipment, operation, or other anomalies occurring during operation. I have assisted the CRE in writing a Course of Action to an Operational Hold, which involves a brief description of the problem, immediate corrective action taken to place the reactor and the reactor plant in safe condition, short term and long term corrective actions that will be taken to resume work, and actions taken to avoid reoccurrence of the same or similar situation. After occurrence of such casualty situation, I have written document called Refueling Alerts to make other Shipyards aware of the problem to ensure they do not go through the same situation.

### WORK EXPERIENCE

#### Current Work Experience

Norfolk Naval Shipyard  
Code 2370 Reactor Servicing Division  
Portsmouth, Virginia 23709

Employed from July 1989 to Present: Average Number of hours 40+/Week

My highest grade is GS-0840-12 step 7; Nuclear Engineer

Current Immediate Supervisor: Mike Keenan; Work Phone: 757-396-9060

GS-0840; V12 step 7

Nuclear Testing Engineering Division 5/21/90 to 5/26/96

I worked in the Nuclear Testing Division for six years. I initially qualified as a Shift Test Engineer (STE) A4W Reactor Plant in December of 1992. The Shift Test Engineer exercises technical control of all types of shipyard work related to the overhaul and refueling of nuclear propulsion plants and acts as the Chief Test Engineer; is representative on the deck plates. The STE carries out a continuing review of the engineering and

production work to insure that the requirements for propulsion plant work and reactor plant safety are met. The STE is the shipyard representative that stands watch during reactor plant testing and plant operation while a propulsion plant is in the shipyard. The STE is responsible for setting plant conditions including isolation of electrical, mechanical and fluid systems. I requalified one time as a STE. I directed cold operations, hot operations and critical operations on the USS Dwight D Eisenhower (CVN 69), USS Theodore Roosevelt (CVN 71), and USS George Washington (CVN 73).

Major duties included:

- Qualified to stand watch as shipyard representative during critical reactor plant operations. Required to ensure safe plant operation and to take appropriate actions during casualty situations.
- Performed daily pre-job and pre-shift briefings to ship's force, shipyard personnel, senior managers, and oversight personnel.
- Coordinated all phases of nuclear overhaul work between ship's force, nuclear and non-nuclear engineering, refueling and production personnel to insure timely flow of information and production effort to meet schedule and cost requirements.
- Developed procedures and provided technical direction over complex operations involved in the testing of reactor plants.
- Technical authority on any phase of work and served as a consultant with ship's force, nuclear and non-nuclear engineering, refueling and production personnel.
- Passed oral and written exams two times including a Navsea initial qualification exam with oversight provided by the Naval Reactors Representatives Office and Reactor Plant Contractors Office.

Nuclear Refueling Engineering Division 5/26/96 to Present

I have worked in the Nuclear Refueling Division for six years. I initially qualified as a Shift Refueling Engineer (SRE) D1G Core 2 Type in April of 1998. The Shift Refueling Engineer exercises technical control of all types of shipyard work related to the refueling of nuclear propulsion plants and acts as the Chief Test Engineer's representative on the deck plates. The SRE carries out a continuing review of the engineering and production work to insure that the requirements for reactor servicing work and reactor plant safety are met. A Shift Refueling Engineer directs a highly trained team of production personnel, quality assurance personnel, and radiological control technicians in the critical and non-critical servicing operations involved with a naval nuclear propulsion plant.

I have requalified one time as a SRE. I am currently qualified on the D1G Core 2 (CGN), S6G (Fast Attack Submarine). I have directed critical and non-critical operations aboard USS Baltimore (SSN-704), and USS San Francisco (SSN-711). I am currently qualifying on the S8G core type in preparations for SSBN refuelings and conversions.

• Qualified to direct the removal of spent nuclear fuel

cells from the core of a naval nuclear reactor. Required to ensure that reactor plant safety is maintained and to take appropriate actions during casualty situations.

- h Performed daily pre-job and pre-shift briefings to assigned shipyard personnel, senior managers, ship's crew, and oversight personnel.
- h Acted as a representative for NNSY at public and private shipyards, at shipyard vendors and shipyard contractors for research and development projects, design and tooling meetings and site visits.
- h Responsible for conducting classroom training for new hire and senior engineers in the principles of the naval nuclear propulsion program, reactor plant fundamentals, reactor physics, reactor safety, fuel removal and discharge, cleanliness and component installation.
- h Developed procedures and provided technical direction over complex operations involved in reactor servicing.
- h Technical authority on any phase of work and served as a consultant with ship's force, nuclear and non-nuclear engineering, refueling and production personnel.
- h Qualified Radiological Controls Technical Work Document Writer (NAVSEA Article 112) and Contamination Control Worker.
- h Passed oral and written exams two times with oversight provided by the Naval Reactors Representatives Office and Reactor Plant Contractors Office.

**EDUCATION**

(b)(6)

Undergraduate: Pennsylvania State University  
Bachelor of Science Mechanical Engineering

(b)(6)

Graduate: Old Dominion University  
School of Engineering and Applied Sciences  
Master of Environmental Engineering  
Currently attending

**SPECIAL SKILLS, ACCOMPLISHMENTS AND AWARDS**

Performance Award (5 times: 1/02, 10/99, 11/98, 11/95, and 11/94).  
Special Act or Service Award (17 times: 5/02, 4/02, 4/02, 11/01, 3/01, 10/00, 9/00, 10/99, 9/99, 4/99, 2/99, 10/98, 6/98, 10/97, 9/96, 11/94 and 12/92).

**US Nuclear Regulatory Commission  
All Applicant Data Report**

Announcement Number: R-III/DRP-2013-0002  
Position Title: Senior Resident Inspector (BWR/TL)

Name: WILLIAM T. SCHAUP

SSN: (b)(6)

MIDX: [REDACTED]

Address1: (b)(6)

Address2: [REDACTED]

City: (b)(6)

State: (b)(6)

Country: (b)(6)

Post Code: (b)(6)

Plus4: [REDACTED]

Phone: 479-968-3290

Email: (b)(6)

United States Citizen: (b)(6)

Veteran Preference: (b)(6)

(b)(6)

**Applicant Level Assessments:****Eligibility Questions**

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answers:

2. (b)(6)

2. Are you a current Federal employee?

Answers:

1. Yes

3. If you are a current Federal employee, by what agency and organization are you employed?

Answers:

1. US Nuclear Regulatory Commission

5. If you are a current Federal employee, what is your duty station? [City, State] (Enter N/A if not Applicable)

Answers: London, Arkansas

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answers:

1. Permanent-Career, competitive service

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answers:

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answers:

1. GG

<https://hr.mgsapps.monster.com/nrc-ats/reports/reportAllApplicantData!run.hm?timestam...> 02/26/2013

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answers: 13

11. If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

Answers: Current

12. . If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answers: 07

13. May we contact your current supervisor for a reference?

Answers:

1. Yes

14. Does the NRC employ any member of your family?

Answers:

2. (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answers:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answers:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answers:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answers:

2. No

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answers:

6. None of the above

#### Assessment Questions

What locations do you wish to apply to?

Clinton, IL, US

What Grades do you wish to apply to?

14

<https://hr.mgsapps.monster.com/nrc-ats/reports/reportAllApplicantData/run.htm?timestamp...> 02/26/2013

All Grades

1. (F0085) Knowledge of nuclear power plant operations, systems, integrated facility operations, and design consistent with that gained through assignment as a resident inspector. (See examples below)

**Answers:** I worked for 18 years as a deck plate nuclear engineer at a naval shipyard where I routinely performed and monitored shipboard operations, maintenance, testing and inspections on reactor plants.

I began working at the shipyard in the Test Engineering Division. The division was responsible for establishing plant conditions for maintenance activities, monitoring maintenance activities and the integrated testing program that each naval nuclear vessel would undergo after the completion of complex maintenance activities at the shipyard. My primary duties included reactor plant and personnel safety, establishing plant conditions to perform maintenance activities, monitoring maintenance activities, interaction with shipboard force and shipyard personnel to complete the activities, preparation of maintenance and test documents, and the performance of tests to ensure the reactor plant operated correctly during cold, hot and critical operations.

To qualify as a shift test engineer I was required to first attend phase I training. This training provided basic level knowledge of nuclear engineering, basic mechanical and electrical plant systems and components (e.g. pumps, valves, breakers) used on naval nuclear vessels. At the completion of Phase I training I was assigned as an assistant shift test engineer (basically an engineer in training). Under the guidance of a qualified test engineer I worked through a detailed qualification card and attended phase II training to strengthen my knowledge and understanding of the reactor, primary and secondary reactor plant systems, interaction between the primary and secondary systems, plant chemistry, requirements for operating the systems and performing testing on the reactor plant.

After completion of the qualification card I attended a 22 week course on the propulsion plant (PWR reactor) used on aircraft carriers. Courses included reactor physics, radiological controls, plant chemistry, mechanical and electrical systems, primary and secondary systems, operating procedures, casualty procedures, reactor plant and personnel safety and technical and administrative requirements for operating naval nuclear reactors. At the completion of the course I was required to successfully complete two eight hour comprehensive essay exams one administered by the shipyard and the other by our regulator, naval reactors. After successfully completing the exams I took an oral examination to demonstrate my understanding of casualty procedures and integrated plant systems. The board is paneled by shipyard senior managers including the division head, department head, chief test engineer, naval reactors, a prime contractor and other department heads.

Re-qualification was required every two years by taking a written an examination and completing another oral examination.

As the shift test engineer I was responsible for authorizing all maintenance activities performed on the on the reactor plant I was assigned. Responsibilities included establishing the plant conditions, draining systems, tagging out systems, establishing correct system line ups, in accordance with reactor plant technical manuals and administrative requirements to perform maintenance on the reactor and supporting systems. Certifying that conditions were correct for maintenance and then monitoring the maintenance to ensure it was performed correctly. Returning affected systems and components back to required operational conditions and then testing the effected systems and components to ensure operability. Additionally, I wrote operating and testing procedures used during shipboard work.

Additionally I was required to monitor routine maintenance activities performed by shipboard force personnel such as surveillance testing of systems, primary chemistry sampling, post maintenance testing performed by shipboard force. I routinely audited tag out isolations in effect and closed out, outstanding and closed work orders, deficiency reports, and completed maintenance and testing procedures.

I directed operating procedures and instructions, performed the pre-job briefs for the evolutions, ensure the prerequisites for the evolution were complete,

coordinated the shipyard and shipyard force personnel involved, and resolved issue that occurred during the evolution.

I worked on numerous aircraft carrier availabilities for a total of six years as a shift test engineer and then transferred to the Reactor Servicing Department to become a shift refueling engineer.

Shift refueling engineers work in the Reactor Servicing Division. The division was responsible for the defueling and refueling of nuclear naval vessels. My duties included reactor plant and personnel safety, establishing the conditions to remove spent and install new fuel into the reactor, movement of new and spent fuel, reassembling the plant after fuel installation was complete or ensuring the plant was ready for inactivation, writing procedures, training refueling personnel, planning and execution of all activities related to refueling operations including new fuel inspection and refurbishment of reuse components.

Qualifications for the position were similar to that of a shift test engineer. I worked on numerous refueling availabilities for 12 years as a shift refueling engineer.

Many of the responsibilities and duties were similar to the shift test engineer position specializing on work during a reactor refueling. Refueling of naval vessels is more intensive than commercial reactor plants since commercial plants are designed to facilitate refueling event 18 to 24 months and naval vessels are refueled every 15 to 20 years. Many interferences and reactor components must be removed, refurbished and tested and reinstalled during the refueling of a naval vessel.

As a shift refueling engineer some additional duties included developing training, procedures and mock ups for training the craft personnel that would perform shipboard work. Training and qualification of the craft personnel that would perform the ship board work, developing the equipment used to perform refueling operations, developing radiological controls to perform the work including containment design, survey practices and contamination and radiation controls.

I have served as resident inspector at Arkansas Nuclear One (ANO) since January of 2011. During this time, I have taken full advantage of every opportunity to become familiar with all aspects of the system design bases as well as operations and engineering activities at this facility. Through the implementation of the reactor oversight process (ROP) baseline inspections, I have gained familiarity with many aspects of the operation and maintenance of the plant and its systems.

Additionally as a resident baseline inspection activities include heat exchanger inspection, fire protection inspection and problem identification and resolution inspection activities. Specifically, resident inspectors perform daily reviews of condition reports monitor corrective actions assigned, perform semi-annual trend assessment of corrective action documents and in-depth reviews of selected corrective action documents. As a resident inspector I routinely review and assess licensee apparent cause evaluations, root cause analysis and assess the safety culture at the operating station.

Prior to being assigned as the resident inspector at ANO I completed a three month rotations at Wolf Creek and Fort Calhoun Station and as an acting resident inspector. Additionally, as a project engineer in DPR Branch E I have performed resident inspector duties multiple times for site coverage to fill in for residents inspectors when they were on leave or at training or when extra resident support was required at a site in Region IV.

I have closely observed and evaluated the conduct of operations at

2. (F0086) Demonstrated ability to observe, evaluate, and assess the operations of nuclear power plants including events. (Describe specific experience, training, and accomplishments that demonstrate your ability or potential to evaluate an operating nuclear power plant, including observing, monitoring, or reviewing integrated plant operations.)

**Answers:** I began working for the Nuclear Regulatory Commission in March of 2008 as a Project Engineer for Branch E of the Division of Reactor Projects in Region IV. I completed my basic inspector qualification (IMC1245 Appendix A), general

proficiency-level training and qualification journal (IMC1245 Appendix B), Reactor Operations Inspector technical proficiency training and qualification journal (IMC1245 Appendix C) and successfully passed the reactor operations inspector qualification board. I attended the Pressurized Water Reactor series at the TTC. Additionally, since my qualification I have attended the Babcock and Wilcox cross training course and the Combustion Engineering cross training course.

As a project engineer and resident inspector, I have independently observed and evaluated numerous plant operations activities. I have reviewed and assessed the adequacy of operations and maintenance procedures, surveillance testing, plant modifications, etc, consistent with the resident inspector baseline inspection modules and applicable Temporary Instructions. I have inspected and evaluated activities and plant operations for four inspection quarters during full power operations and two refueling outages. I have also challenged the licensee on the quality of several safety related equipment operability evaluations.

I have independently developed and evaluated inspection findings, as well as participated in the ROP assessment process for licensed facilities in my branch as a project engineer. I have independently identified violations of NRC regulations at licensed reactor facilities associated with a variety of regulations and inspection procedures. I have assisted in preparing and reviewed integrated inspection reports, and followed up on a number of diverse technical issues at my assigned facilities. I have been involved with processing and review/evaluation of several allegations and licensee responses as a project engineer and resident inspector. I have developed mid cycle and end-of-cycle assessment documents in accordance with Inspection Manual Chapter 0305 for Plants assigned to Branch E as project engineer.

During my assignments as a resident inspector I have used my knowledge of nuclear power plant operations, systems, integrated facility operations, design and engineering during inspections of various functional engineering activities, including direct observation and monitoring of day-to-day operational activities. I also implemented baseline inspection programs at the facilities and performed field inspections and observed operations to ensure that the plant was operated in a safe manner and was in compliance with Technical Specification, design bases and regulatory requirements.

During my assignments as a resident inspector, I have had the opportunity to become familiar with the plant equipment associated with Combustion Engineering, Babcock and Wilcox and Westinghouse technologies and the conduct of operations of Arkansas Nuclear One under a variety of operating conditions. I participated in an integrated operational emergency response exercises at Fort Calhoun Station in the role of resident inspector and at Arkansas Nuclear one as the Senior Resident Inspector. I have evaluated simulator and emergency drill plant operations and responses for design basis events.

While a project engineer at Region IV I was qualified for numerous positions for the regional safety team to support emergency response in the Incident Response Center (IRC). While working at the shipyard I maintained qualifications for performing various duties to support the Emergency Control Center (ECC) at the shipyard. The ECC has a similar function to the IRC at Region IV.

Additionally while working at the shipyard there were numerous times when I observed or participated in power plant events that I was later asked to evaluate and assess the responses to those events.

The following examples further demonstrate my ability to evaluate operations, engineering and maintenance of operating nuclear plants while I work at Norfolk Naval shipyard.

During my 18 years at the shipyard I was required to prepare, concur, review and approve numerous engineering products such as deficiency reports, test and refueling procedures, briefing packages, presentations, training plans, lesson

<https://hr.mgsapps.monster.com/nrc-ats/reports/reportAllApplicantData!run.hm?timestam...> 02/26/2013

plans, technical work documents, technical manuals, radiological controls, and administrative control documents. Many of these documents and procedures are very similar to those used by commercial power plants.

I participated in numerous self assessments, audits, de-briefings, and critiques of various facets of engineering and maintenance work performed at the shipyard. The techniques used at the shipyard were typical of those used in private industry and those used by commercial power plants.

The departments I worked in at the shipyard were the equivalent of operations, engineering and maintenance departments of a commercial nuclear plant. My duties included directing, monitoring and evaluating operations occurring on the reactor plant. When events occurred during work like abnormal work stoppages or a casualty I was the immediate on scene commander in charge to mitigate the event and ensure that casualty procedures were followed and directed actions to combat the casualty. When abnormal work stoppages occurred I would develop corrective actions to allow work to progress and to prevent occurrence of the stoppage again.

3. (F0087) Demonstrated ability to apply NRC rules, regulations, policies, guides and review plans in the review or inspection of reactor operations, maintenance, engineering and plant support. (Describe specific experience and training which demonstrates your ability to apply NRC rules and regulations. Provide examples that were particularly challenging.)

**Answers:** Having achieved full qualification as an operations inspector, I have successfully completed numerous training courses that have introduced and reinforced the application of a variety of NRC rules and regulations through the conduct of inspection activities. As a project engineer and resident inspector, I have successfully evaluated a broad range of operations, maintenance, and engineering activities at my assigned facilities against applicable agency standards and regulations. I have applied the specifics of 10CFR20, 10CFR50, and Appendix B of 10CFR50 and demonstrated my knowledge of these regulations during my tenure as a project engineer and as a resident inspector.

During these assignments my knowledge of nuclear power plant operations, systems, integrated facility operations, design and engineering was applied during inspections of various functional engineering activities, including direct observation and monitoring of day-to-day operational activities. I also implemented baseline inspection programs at the facilities, I performed field inspections and observed operations to ensure that the plant was operated in a safe manner and was in compliance with Technical Specification, design bases and regulatory requirements. My plant inspections include inspections during a refueling outage which allowed me to monitor shutdown conditions and operations of a nuclear power plant.

Based on my knowledge of nuclear power plant operations, and my performance as a reactor inspector and rotational resident inspector, I have demonstrated my ability to inspect and review performance at different licensee facilities and include the following examples:

While acting senior resident at Columbia Generating Station performing problem identification and resolution baseline inspections, I characterized non-cited violation of the licensee's Technical Specification which demonstrates my ability to perform plant performance assessment, as well as my ability to assess programmatic aspects of the licensee. A mechanic was performing work in the radiologically control area of the site and entered a posted high radiation area and received a high dose rate alarm on their electronic dosimeter. After investigation it was determined that the mechanic was not authorized to enter the high radiation area and failed to stop at the high radiation boundary and not enter. This was identified as a failure of the mechanic to have authorization to enter and be knowledgeable of the radiation levels in the high radiation area, which was a violation of the licensee's technical specifications.

As the resident at Arkansas Nuclear One performing problem identification and

<https://hr.mgsapps.monster.com/nrc-ats/reports/reportAllApplicantData/run.htm?timestamp...> 02/26/2013

resolution baseline inspections, I characterized a non-cited violation of finding licensee's Technical Specification which demonstrates my ability to perform plant performance assessment, as well as my ability to assess programmatic aspects of the licensee. On multiple occasions, station personnel failed to maintain configuration control through the use of valve line-ups and station procedures to ensure reactor plant components were in required positions. Based upon the multiple examples of failures to satisfy station configuration control procedures the inspectors have determined the failures to be indicative of a programmatic failure to position plant components as required per the configuration control program. This was identified as a failure of station personnel to maintain configuration control through the use of valve line-ups and governing station procedures, which was a violation of the licensee's technical specifications.

While acting resident at Fort Calhoun Station I characterized a finding for the failure of the licensee to for an industry standard for crane use which demonstrates my ability to evaluate industry standards, as well as my ability to apply regulations governing nuclear reactor operations. The licensee was performing dry fuel storage activities using an overhead gantry crane located over the spent fuel pool. Prior to using the crane for work, each crew was required to perform operational checks on the crane to ensure proper operability of the crane. Included with the checks were performing operations checks of the main hoist limit switches to ensure proper operation. The licensee failed to perform the required checks prior to using the crane for work. This was identified as a failure to perform the required checks as specified in ANSI B30.2, Overhead and Gantry Cranes.

Additionally I have participated on two problem identification and resolution biannual inspections, one at South Texas Project and one at Arkansas Nuclear One as an inspector.

During these inspections I participated in the safety culture interviews and provided insight to the team lead into whether the licensee had established a safety conscious work environment. I followed up on previously identified compliance issues (non-cited violations). I reviewed information related to the cross-cutting areas that was used by the team in the assessment process. I provided assessment into whether the licensee was complying with NRC regulations regarding corrective action programs. I reviewed the resolution of issues that earlier had been assessed for the licensee's identification efforts only. I assisted the team lead in comparing the NRC's results against the licensee's assessment of performance in the problem identification and resolution area, and assessing whether the deficiencies may indicate potential programmatic issues.

4. (F0019) Demonstrated ability to present technical information both orally and in writing.

**Answers:** When I worked at the naval shipyard I prepared procedures and technical work documents used by the craft and trade personnel to perform shipboard work. Additionally I worked in the engineering training department at times where I prepared lesson plans, power point presentations and gave lectures.

I have prepared numerous presentations for pre-job briefings, training, management reviews, operational overviews and readiness reviews.

I have written official correspondences and responses to organizations such as the Naval Sea Systems Command, reactor plant prime contractors, and other government agencies as part of my duties at Norfolk Naval shipyard.

Nearly every day at the shipyard problems would arise during the course of work. Depending on the severity of the problem different levels of documentation and corrective actions would be required to solve the problem. Once the solution was complete I was generally the person that would brief the problem and the solution to the crew, managers, naval reactors and reactor plant contractors. Sometimes this could be as simple as a deck plate level brief or a phone call, a more detailed discussion at the pre-shift brief or a full power point presentation to the entire department.

When I worked shipboard I was required to maintain a detailed log of the activities performed during my shift. These logs were distributed throughout the shipyard for various managers, reactor plant prime contractors and the regulator

to view for status and information.

During my work at Norfolk Naval shipyard I was assigned many new engineers to mentor either during or at the completion of their qualification. The purpose was to assist and provide guidance to them until the managers felt comfortable with them performing work without additional oversight.

When working at Norfolk Naval Shipyard I interacted with personnel ranging from the shop, craft, and trade personnel, their supervisors and general foreman, engineers from other departments (radiological, non-nuclear, crane, equipment and facilities), their supervisors and department heads, senior shipyard managers, and the shipyard commander. Also I interacted with naval personnel (shipboard force) from enlisted personnel to the command officers of the vessels. Within the shipyard there are a diverse number of organizations such as nuclear departments, non-nuclear departments, radiological controls, shops and trades that I worked with on a daily basis to perform shipboard work. I routinely interacted with our regulator, Naval Reactors and our Reactor Plant Prime contractors in yard and off yard. I traveled many times to other public and private shipyards and worked with similar personnel at these facilities.

My duties at the shipyard included briefing and informing my supervisors and managers daily on shipboard work progress and activities on the deck plate. I worked with engineers, co-workers, craft supervisors and managers everyday to complete work assignments.

Since I began working for the NRC in the Region IV office I have interacted with numerous personnel from every division in the region up to the Regional Administrator. Primarily I work with personnel in the Division of Reactor Projects. As a project engineer I assist the senior project engineer and the branch chief with end of cycle reports, resident inspector reports and support, briefings, status and morning calls, allegations and other assignments. Many assignments require some interaction with personnel from the other departments and divisions at the NRC.

During assignments as a resident inspector I have interacted with all levels of plant personnel up to site vice president.

Every day at the shipyard I would be in charge of shipboard work and would have a diverse crew of shop, trade, supervisors and managers that I would have to coordinate with all day to get the work accomplished. It required a good working relationship with all these individuals to get the work done. To get the work done one thing I needed was the respect of these individuals so that when conflicts arose or additional motivation was required we could quickly resolve the issue and move on. I earned their respect by listening to their input and actually using it, by work side by side with them when other engineers did not, by explaining to them why we were doing things the way we were and most importantly by following through with them by taking responsibility for the things that occurred during our shift. I have participated in the writing, reviewing, and editing of a number of quarterly integrated inspection reports. I have added value to the quality of the products submitted for management review, in terms of both content and technical accuracy. I have also attended the NRC Media Workshop and Effective Communication for Inspectors courses. These courses have helped refine my communication skills by utilizing videotape and allowing instant feedback on my communication skills.

5. (F0089) Ability to lead, train, and assess performance of other assigned inspectors and part-time secretary. (See examples below)

**Answers:** While working a Norfolk naval shipyard as a shift test engineer (STE) and as a shift refueling engineer (SRE) I was assigned numerous engineering candidates that were qualifying to become STEs or SREs. I would supervisor, lead and train these individuals in the field during their qualification process and assess their performance by certifying in their qualification cards that the activities required by the qualification card were completed satisfactorily.

Activities assessed included knowledge of reactors and reactor plant systems, secondary or balance of plant systems, radiological controls, procedure usage and writing, operational tagouts, performing valve line ups, administrative procedures and controls, regulations and codes, performance of tests, conduct of operations during cold operations, hot operations and critical operations.

<https://hr.mgsapps.monster.com/nrc-ats/reports/reportAllApplicantData/run.hm?timestam...> 02/26/2013

While at Norfolk naval shipyard I work at various times in the nuclear training department. During these times I supervised and trained candidates in the class room by preparing and presenting classroom lectures to reinforce knowledge gained during field training. I prepared and evaluated exams administered to the candidates during the qualification process. I prepared, assisted administering and evaluated oral boards administered to the candidates as the final part of qualification process.

While at Norfolk naval shipyard working as a SRE I was required to lead, train and assess the performance of multiple disciplined shop and technical personnel assigned shipboard work prior to performing the work and then during the actual ship board work.

Prior to performing refueling shipboard work on naval nuclear reactors numerous jobs are trained on mockups and the shop and technical personnel are required to be qualified to do the work. I was the responsible for leading and training the shop and technical personnel on the operations and I was the one that evaluated and certified the workers were qualified to perform the work.

During the performance of shipboard work I was typically the lead for the work and directed the operations. Part on my duties during shipboard work was continual assessment of the shop and technical personnel performing the work. I had the authority to have personnel relieved from their duties if I believed that their performance was not satisfactory.

After candidates initially qualified as a STE or SRE they would be assigned to a senior STE or SRE as a mentor to assist them until it was determined that the individual could perform the functions without oversight. I had numerous occasions to mentor initial qualified individuals.

As a resident inspector, I have been involved with the planning, scheduling, coordination, and execution of baseline inspection activities for the resident staff including a refueling outage. I have actively participated in and successfully processed and evaluated technical issues and inspection findings. I have observed, assisted, and become familiar with the duties and responsibilities of the site secretary and resident inspector, and feel prepared to supervise and evaluate both.

I recently had the opportunity to perform the duties of a senior resident inspector that demonstrates ability to provide leadership for others, including initiative and ability to work independently with minimal supervision and be responsible for the results of activities.

During that time I lead the site staff, including the site resident inspector and site secretary, to accomplish the baseline inspection and completion of the resident inspector quarterly report. Several issues documented in the report were resolved by incorporating varying technical positions into a common position supported by the staff and the region, through effective communications and by establishing effective working relationships.

I believe with my past experiences I am able to assess individual strengths and weaknesses and can effectively utilize that knowledge to incorporate them into an effective team to achieve objectives, effectively solve problems, and resolve conflicts.

Resident Inspector

Conduct baseline inspections to assure compliance with design specifications, the operating license and rules and regulations of the NRC to include: Planning the scope of inspections to obtain sufficient information through direct observation and verification of licensee activities.  
Analyzing the implications of inspection findings and making technical judgments and conclusions regarding licensee performance.  
Participates in entrance meetings with licensee management to discuss the scope of the inspection and establish licensee contacts.  
Participates in exit meetings with licensee management to present the results of the inspection.  
Provides input to inspection reports detailing inspection observations, findings, and conclusions, including recommendations for additional inspection activities and/or enforcement sanctions.  
Recommends new NRC guidelines and requirements based on assessment of conditions identified during inspections.  
Attends meetings and communicates information about plant safety and performance with technical staff of the various regional offices and other components of the NRC.  
Reviews current technology, operation practices and codes and standards to make recommendations to improve inspection techniques and standards.  
Maintains technical proficiency and understanding of the latest developments in reactor technology, codes and standards, procedures, operation techniques, radiological controls and nuclear safety..  
Communicates with regional staff to obtain technical guidance and to resolve technical problems pertaining to operation activities.  
Reviews and provides feedback to the SRI regarding the accuracy of inspection issues in the plant issues matrix.  
Recommends enforcement action to the SRI and regional management for inspection findings including: Preparing enforcement related documentation  
Identification of issues that require enforcement decisions  
Incorporating proposed enforcement action into inspection reports  
Participates in enforcement panels  
Participates as a team member in inspections or reported problems, incidents, abnormal conditions or allegations involving or pertaining to nuclear facilities.  
For declared emergencies, functions as the initial site responder until relieved.  
Receives and processes allegation per agency policy and procedure.  
Communicates with regional office management during events that may be of interest to other federal agencies including the EPA, DOE, FBI and OSHA.  
Responds to inquiries from the news media, general public, and state and local governments.  
Responds to the site for emergent issues and operational events and communicates status to regional management.  
Assists the SRI in continually evaluating overall licensee performance and recommends regional action on areas requiring special attention and prepares inputs into the performance evaluation process.

Portsmouth, VA US  
Hours per week: 50

Nuclear Engineer (Shift Refueling Engineer)

As a Shift refueling Engineer I maintained professional knowledge and competence in nuclear engineering principles and concepts through written exams and oral boards. On a daily basis I worked to research, develop, design equipment, write procedures, schedule and plan refueling activities for nuclear naval vessels at the deck plate level. I needed to be familiar with related mechanical, nuclear instrumentation, reactor protection and electrical systems and how they interfaced. I was required to maintain detailed knowledge of refueling methods and practices, including radiological controls, to direct the preparation, modification or identification of needed changes to procedures, refueling equipment, work instructions involving reactor plant systems, plant operations, safety and administrative procedures. I was expected to review all the necessary technical work documents and then independently plan and coordinate the required refueling activities planned for the shift. The work requires innovative judgment due to the extensive technical requirements and the impact on the safety and efficiency of the reactor servicing program.

Norfolk Naval Shipyard  
05/1990 - 06/1996  
Portsmouth, VA US  
Hours per week: 50

Nuclear Engineer (Shift Test Engineer)

As a Shift Test Engineer I maintained professional knowledge and competence in nuclear engineering principles and concepts through written exams and oral boards. I was required to research, develop, design equipment and write procedures for testing, operating and maintaining reactor plants during maintenance activities at the shipyard. I needed to be familiar with related nuclear instrumentation, reactor protection, mechanical and electrical systems and how they interfaced. I required detailed knowledge of test methods and practices to direct the preparation, modification or identification of needed changes to test procedures or test equipment and work instructions involving reactor plant systems, radiological controls, plant operations, safety and administrative procedures. I was expected to review all the necessary technical work documents and then independently plan and coordinate the required maintenance activities scheduled for the shift. The work requires innovative judgment due to the extensive technical requirements and the impact on the safety and efficiency of the naval nuclear propulsion plant overhaul and testing program.

Education: Penn State University

## US Nuclear Regulatory Commission All Applicant Data Report

Announcement Number: NSPDP-2010-0003

Position Title: General Engineer / Physical Scientist GG - 0801/1301 7/9/11

Name: JAKOB STEFFES  
 SSN: (b)(6)  
 MIDX: [REDACTED]  
 Address1: (b)(6)  
 Address2: [REDACTED]  
 City: (b)(6)  
 State: (b)(6)  
 Country: (b)(6)  
 Post Code: (b)(6)  
 Plus4: [REDACTED]  
 Phone: (b)(6)  
 Email: (b)(6)  
 United States Citizen: (b)(6)  
 Date of Birth: (b)(6)  
 Veteran Preference: (b)(6)  
 (b)(6)

Core Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answer:  
 1. (b)(6)

2. Are you a current Federal employee?

Answer:  
 2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answer:  
 3. I am not a current Federal employee

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answer:  
 6. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career conditional Federal status in the competitive service?

Answer:  
 7. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

Answer:  
 8. Not applicable

10. If you are, or ever were, a Federal civilian employee, please indicate the highest grade level you held (Enter N/A if Not Applicable):

Answer: NA

11. If you are, or ever were, a Federal civilian employee, please indicate the dates of the highest graded position you held (MM-YYYY to MM-YYYY or Present, or N/A if Not Applicable):

Answer: N/A

12. If you are, or were, a Federal employee who held a permanent position in the competitive or excepted service, what is the highest full performance level of that position? (Enter N/A if Not Applicable)

Answer: NA

13. May we contact your current supervisor for a reference?

Answer:  
 13. Yes

<https://hr.mgsapps.monster.com/nrc-ats/reportout.hms?randomKey=1493696079>

11/22/2010

14. Does the NRC employ any member of your family?

Answer:

2. (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

Answer:

1. Yes

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

Answer:

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

Answer:

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

Answer:

3. Not Applicable

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

1. Yes

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

Answer:

1. Veterans' Recruitment Appointment (VRA)

#### Assessment Questions

What locations do you wish to apply to?

Rockville  
King of Prussia  
Atlanta  
Lisle  
Arlington

What Grades do you wish to apply to?

GS

#### All Grades

1. Where did you learn about the Nuclear Safety Professional Development Program (NSPDP)?

Answer:

1. College/University Career Fair  
2. Professor/Career Counselor  
3. Professional Society Conference/Meeting

2. From the following list, please select the choice that matches your educational background.

Answer:

1. It has been TWO YEARS OR LESS (2008 to 2010) since I received a degree in the field of Engineering or Physical Science from an accredited university or college.

3. Since obtaining your degree, how many years of full-time professional work experience related to Engineering or Physical Science do you have?

Answer:

2. I have less than one year of professional work experience related to Engineering or Physical Science.

4. From the following list of choices, please select the college or university you have or will have received your latest degree from?

Answer:

23. University of Michigan

5. Please select the highest grade level for which you qualify. If you select a grade level that you do not qualify for, your application may be marked for disqualification and you will NOT be considered for this position.

Answer:

1. GS-09: I have or will have a Masters degree or Bachelor's degree and one year of post degree work experience in or related to Engineering or Physical Science.

If you answered GG-09: I have or will have a Masters degree or Bachelor's degree and one year of post degree work experience in or related to Engineering or Physical Science, then answer the following questions.

5.1. From the following list of choices, please select the qualification you are using to apply for this position.

Answer:

2. I have a Masters degree in or related to Engineering or Physical Science.

6. What is the official title of your academic degree applicable to this vacancy in the field of Engineering or Physical Science that you have or expect to obtain between 2008 and September 2011?

Answer:

14. Nuclear Engineering

7. What is your cumulative Grade Point Average (GPA)? Applicants are responsible for converting to a 4.0 scale if another is used.

Answer:

1. on a 4.0 scale, my cumulative GPA is 3.3 to 4.0

8. Please indicate the response that most accurately describes your work experience since entering college.

Answer:

3. I have no technical work experience, BUT I have non-technical work experience (e.g., retail sales, etc.)

If you answered I have no technical work experience, BUT I have non-technical work experience (e.g., retail sales, etc.) then answer the following questions.

8.1. Please describe your work experience.

Answer: Initially I worked for Home Depot as a sales associate in the electrical department. The primary function was customer service while secondary functions included ensuring items remained in stock and keeping the store clean and clear of clutter for the safety of customer and associate alike. Since the primary function was customer service, the ability to quickly and consistently ascertain the needs of the customer was paramount. This required that a good rapport be established during the first interaction with the customer, regardless of their initial mood. This skill would be an asset while working for the Nuclear Regulatory Commission whether in the office with coworkers or in the field while interacting with the utilities or the public. Additionally, working at the Home Depot required that I maintain a very high level of attention to detail which was originally learned in the US Navy's Nuclear Power Program. Attention to detail was important for many number of tasks including, but not limited to, keeping items in stock and assisting customers with difficult and easy projects. These skills served well while working at the Home Depot leading to the admiration of management and accolades.

While in school I also obtained an internship in the Department of Radiation of Oncology's Division of Radiation Physics at the University of Michigan's hospital. This internship was mainly centered around a project assisting in the assessment of radiation treatment to patients of many fractions. The primary duties included transferring images of patients undergoing treatment taken before every treatment with the linear accelerator unit into a local system using established protocol to anonymize in order to ensure patient confidentiality. These images obtained using a cone beam CT were then rigidly registered, or aligned, using the vertebrae for head and neck cases to the pretreatment images using a different modality. After rigid registration the soft tissue in these images were then deformably registered in order to give a best image for predicting patient treatment and outcome as a function of time and soft tissue deformation. The first skill obtained and used in this work was ensuring the privacy and security of patient information. The second skill established through this internship was the flexibility to quickly and efficiently learn a software program developed and maintained within the University of Michigan's health system.

9. Please select the response that most accurately describes your academic honors, awards and/or extracurricular activities.

Answer:

1. I have received multiple academic awards and/or scholarships from professional or technical organizations, associations, companies, etc. (e.g., Dean's List, academic scholarships, induction into the Honor Society, etc.)

If you answered I have received multiple academic awards and/or scholarships from professional or technical organizations, associations, companies, etc. (e.g., Dean's List, academic scholarships, induction into the Honor Society, etc.) then answer the following questions.

9.1. Please list and describe the academic awards and/or scholarships you received from professional or technical organizations, associations, companies, etc.

Answer: Upon exiting the US Navy I first attended the University of Michigan - Dearborn in the fall of 2006. As a student at Dearborn I earned Dean's list honors for fall 2006, winter 2007 and fall 2007. I then transferred to the University of Michigan - Ann Arbor to begin the nuclear engineering and radiological sciences curriculum. After an adjustment period to the new learning environment at Ann Arbor I earned Dean's list honors for winter 2009, fall 2009 and winter 2010.

In addition to the honors, I served during the 2009-2010 year as the treasurer for the University of Michigan Health Physics Society student chapter. During this same time I served as the American Nuclear Society social chair for the University of Michigan student chapter.

I am currently an active member of the student chapters of the American Nuclear Society as well as the Health Physics Society. Additionally, I am a member of the Health Physics Society, American Nuclear Society and the National Society of Black Engineers.

## WORK EXPERIENCE

University of Michigan - Office of Linguistics  
 Ann Arbor, Michigan  
 US

9/2010 - Present  
 Salary: (b)(6) USD Per Hour  
 Hours per week: 11.5  
 Office Assistant

Primary duties include facilitation of communications between faculty, staff and students pertaining to daily and weekly events. Provide assistance to all personnel via phone, email or face to face communications. Related skills would include the ability to interact amiably to all persons encountered regardless of their demeanor. Strong oral and written communication skills required to facilitate an efficient work environment. Limited supplies and assistance require that I am adaptable in many situations and to think creatively in order to accomplish tasks.

University of Michigan - Radiation Oncology Physics Department  
 Ann Arbor, Michigan  
 US

5/2008 - 1/2010  
 Salary: (b)(6) Per Hour  
 Hours per week: 30  
 Research Assistant

Assist in research projects aimed at optimizing radiation induced imaging, registration and dosimetrics. Daily tasks included anonymization of patient information entered into the local computer domain to maintain patient confidentiality, register the patient images of different modalities and analyze for soft tissue movement during patient treatment. Skills pertaining from this work is the ability to rapidly acquire the knowledge of in house developed software for use in daily tasks. Patient confidentiality being of the utmost importance the ability to maintain strict controls over access to the information is a related skill.

Home Depot U.S.A. Inc.  
 Ypsilanti, Michigan  
 US

4/2004 - 1/2009  
 Salary: (b)(6) USD Per Hour  
 Hours per week: 20  
 Sales Associate

Primary duty was customer service in order to quickly and effectively ascertain if the customer required assistance and in which area. Secondary duties included maintaining product on the shelves by down stocking out of stock items which included at times using heavy machinery, keeping the floor clean and clear of obstructions in order to maintain a safe environment for customers and associates alike.

Home Depot U.S.A. Inc.  
 Livonia, Michigan  
 US

10/2006 - 4/2008  
 Salary: (b)(6) USD Per Hour  
 Hours per week: 25  
 Sales Associate

Primary duty was customer service in order to quickly and effectively ascertain if the customer required assistance and in which area. Secondary duties included maintaining product on the shelves by down stocking out of stock items which included at times using heavy machinery, keeping the floor clean and clear of obstructions in order to maintain a safe environment for customers and associates alike.

7/2003 - 3/2006  
 Salary: (b)(6) USD Per Year  
 Hours per week: 70  
 Nuclear Electronics Technician

Four years of operational experience on a nuclear reactor on board USS Greenville SSN-772. Performed numerous reactor and engine room startups and shutdowns, ensuring plant power and thermal restrictions were not compromised. Provided invaluable

Operational and simulated casualty situational backup and advice. Generated and performed procedures for the inspection, replacement and retest of several steam plant and reactor plant instrumentation. Supervised and trained junior/peer and senior technicians on proper reactor plant maintenance techniques. Performed preventative and corrective maintenance evolutions on highly sensitive reactor plant control and instrumentation with zero major deficiencies. As a stand in division manager coordinated and directed the efforts of eight subordinates. Generated and implemented a complex rod control fault guide which led to high marks on the subsequent test. Generated, led and supervised division training on reactor controls and protection systems essential to safe operation of the nuclear reactor. The related skills gained would include strong personal initiative and proven leadership under adverse conditions which lead to being qualified in a supervisory role much earlier than usually done. Clear and concise technical written and oral communication skills. Maintained strict controls over classified material at all times ensuring no losses.

**US Nuclear Regulatory Commission  
All Applicant Data Report**

Announcement Number: ALL OFC-2014-0041

Position Title: General Engineer/Scientist, GG-5/7/9/11; FPL 13

Name: JACQUELYN WOJEWODA

SSN: (b)(6)

MIDX: (b)(6)

Address1: (b)(6)

Address2:

City: (b)(6)

State: (b)(6)

Country: (b)(6)

Post Code: (b)(6)

Plus4:

Telephone 1: Mobile - (b)(6)

Telephone 2:

Telephone 3:

Email: (b)(6)

United States Citizen: (b)(6)

Veteran's Preference: (b)(6)

(b)(6)

**Applicant Level Assessments:**

Eligibility Questions

1. Are you a veteran separated from the armed forces after 3 or more years of continuous active service performed under honorable conditions? (Veterans who were released shortly before completing a 3-year tour are considered to be eligible.)

Answers:

2 (b)(6)

2. Are you a current Federal employee?

Answers:

2. No

3. If you are a current Federal employee, by what agency and organization are you employed?

Answers:

3. I am not a current Federal employee

6. If you are a current Federal employee, under what type of appointment are you currently serving?

Answers:

10. Not applicable

7. If you are NOT currently serving in the competitive or excepted service as a permanent career or career conditional Federal employee, are you eligible for reinstatement based on permanent service in the excepted service or based on career or career-conditional Federal status in the competitive service?

Answers:

3. Not Applicable

8. If you are, or ever were, a Federal civilian employee, please indicate pay plan of the highest graded position you held:

**Answers:**

5. Not applicable

13. May we contact your current supervisor for a reference?

**Answers:**

1. Yes

14. Does the NRC employ any member of your family?

**Answers:**

2. (b)(6)

16. If you are a male at least 18 years of age, born after December 31, 1959, have you registered with the Selective Service System?

**Answers:**

3. Not Applicable

17. If you are a male at least 18 years of age, born after December 31, 1959 AND you have NOT registered with the Selective Service System, do you have an approved exemption?

**Answers:**

3. Not Applicable

18. Are you a retiree receiving a civilian Federal annuity?

**Answers:**

2. (b)(6)

19. Have you accepted a buyout from a Federal agency within the past 5 years?

**Answers:**

3. Not Applicable

20. Are you eligible for noncompetitive appointment under an OPM Special Appointing Authority? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

**Answers:**

2. No

21. From the following list of choices, please select the OPM Special Appointing Authority under which you are applying? (Note: The NRC will determine your eligibility for appointment under comparable NRC special appointing authorities. You will be asked to provide appropriate documentation to be considered under NRC noncompetitive appointment authority.)

**Answers:**

6. None of the above

**Assessment Questions**

What locations do you wish to apply to?

- Atlanta, GA, US
- Lisle, IL, US
- Rockville, MD, US
- King of Prussia, PA, US
- Arlington, TX, US

What Grades do you wish to apply to?

- 05
- 07
- 09
- 11

**All Grades**

1. (F2001) Do you have a Bachelors degree (or graduate degree) in professional engineering or physical science?

Answers:

1. Yes

If you answered **Yes** then answer the following questions.

1.1. What is the official academic title of the major for your Bachelors degree?

Answers:

26. Nuclear Engineering

2. (F2002) Do you have a Masters degree?

Answers:

1. Yes

If you answered **Yes** then answer the following questions.

2.1. What is the official academic title of the major for your Masters degree?

Answers:

26. Nuclear Engineering

3. (F2003) Do you have a Doctoral degree?

Answers:

2. No

4. What is your cumulative Grade Point Average (GPA)? Applicants are responsible for converting to a 4.0 scale if another is used.

Answers:

1. on a 4.0 scale, my cumulative GPA is 3.3 to 4.0

5. Please indicate the response that most accurately describes your work experience since entering college.

Answers:

2. I have technical work experience related to my area of study (e.g., Engineering or Physical Science).

If you answered **I have technical work experience related to my area of study (e.g., Engineering or Physical Science)**, then answer the following questions.

5.1. Please describe how your technical work experience relates to your academic major.

Answers: This past summer I held a position at Westinghouse Electric Company in the thermal-hydraulics department. I verified a modification of a code that is used to model temperatures in a reactor core. In addition, I analyzed departure from nucleate boiling calculations for specific power plants.

6. Since obtaining your degree, how many years of full-time professional work experience related to Engineering or Physical Science do you have?

Answers:

2. I have less than one year of professional work experience related to Engineering or Physical Science.

7. Please select the response that most accurately describes your academic honors, awards and/or extracurricular activities.

Answers:

6. I am an active member of one professional or technical society, AND I have received at least one academic award or scholarship from a professional or technical organization, association, etc.

If you answered **I am an active member of one professional or technical society, AND I have received at least one academic award or scholarship from a professional or technical organization, association, etc.** then answer the following questions.

7.1. Please list and describe the academic awards and/or scholarships you received from professional or technical organizations, associations, companies, etc.

Answers: I received Dean's List: (b)(6)

(b)(6)

University Honors: (b)(6)

**Resume**

Jacquelyn Wojewoda

(b)(6)

Mobile: (b)(6)

Email: (b)(6)

Country of Citizenship: (b)(6)

Availability: Job Type: Permanent  
Temporary  
Work Schedule: Full-Time

Work Experience: Westinghouse Electric Company LLC

(b)(6)

Cranberry, PA US

Hours per week: 40

Supervisor: (b)(6)

Okay to contact this Supervisor: Contact me first

**Intern**

Verified the integration of the FIGTH materials library within the VIPRE-W code through temperature, enthalpy, and departure from nucleate boiling ratio (DNBR).  
Researched top peak power as the more limiting factor in DNBR calculations.

Toshiba Westinghouse Fellows Program

05/2012 - 08/2012

University Park, PA US

Hours per week: 25

Supervisor: (b)(6)

Okay to contact this Supervisor: Contact me first

**Summer Research Assistant**

Worked in a wet lab to create epoxy samples with embedded carbon nano fibers (both aligned and unaligned), thus increasing the piezoelectric properties.  
Tested several samples, including PZT, pure epoxy and epoxy with unaligned carbon nano fibers in an irradiated gamma environment.

U of M Department of Atmospheric Oceanic Space Science

(b)(6)

Ann Arbor, MI US

Hours per week: 10

Supervisor: (b)(6)

Okay to contact this Supervisor: Contact me first

**Lab Instructor**

Instructed weekly 2 hour labs for a Wind Energy Engineering.  
Held office hours for additional build time of the student designed wind turbines.

Yazaki North America

(b)(6)

Canton, MI US

Hours per week: 40

Summer Intern, Product Management

Assisted in the development of the High Voltage Department Business Plan by researching and analyzing customer, competitive, financial, and marketing information  
Prepared several high level presentations, including the Business Plan Executive and Operating Committee Presentations and various customer presentations

U of M, Department of Atmospheric Oceanic Space Science

09/2010 - 04/2011

Ann Arbor, MI US

Hours per week: 10

Supervisor: (b)(6)

Okay to contact this Supervisor: Contact me first

Research and Class Assistant

Conducted research, including the testing of components on a network analyzer; utilized the design program Inventor for a microwave remote sensing project.  
Assisted in the curriculum design for a Wind Energy Engineering Class.

AxleTech International

(b)(6)

Troy, MI US

Hours per week: 40

Intern

Analyzed sales orders in the Customer Service Department and worked with customers to resolve issues.

Monitored purchase order requirements in the Planning Department and recommended corrective actions as required.

Developed a parts inventory control system for multiple warehouse locations during AxleTech's purchase and consolidation of Truck Trailer Transit, Inc. facilities.

Worked with several departments to complete project assignments and gained a broad understanding of North American business operations.

Education: University of Michigan

Ann Arbor, MI US

Master's Degree - (b)(6)

Major: Nuclear Engineering and Radiological Sciences

Relevant Coursework, Licensures and Certifications:

Radiation Detection Lab, Radiation Materials Science

University of Michigan

Ann Arbor, MI US

Bachelor's Degree - (b)(6)

Major: Nuclear Engineering and Radiological Sciences

Minor: Mathematics

GPA: 3.581

Affiliations: American Nuclear Society, University of Michigan Chapter

University of Michigan Engineering Council Chair for the Nuclear Society

References: (b)(6)

(b)(6)

(b)(6)

Additional Information: Proficient in Microsoft Word, Excel and PowerPoint

# Michael E. Ziolkowski

Michael E. Ziolkowski  
(b)(6)

**Objective** To obtain employment as a Mechanical Engineer.

**Education** University Of Illinois at Chicago (UIC)  
• Bachelor of Science in Mechanical Engineering (b)(6)  
• Current Cumulative GPA: 3.47/4.0

<b>Technical Skills</b>	<b>CAD Software</b>	<b>Other Systems</b>
	AutoCAD 2005	Microsoft Windows XP, 2000
	Pro Engineer Wildfire 2.0	Microsoft Office
	Pro/Mechanica	Fortran
	SolidWorks 2004	

**Work Experience**

CAD Draftsman, *Dimension Crail INC.*, Chicago, IL 11/04 - Present

- Assemble functional construction drawings from conceptual three dimensional renditions for the production of various trade show related components.

\* Carpenter, *Defined Exhibits*, Chicago, IL 2/03 - Present

- Design, construct, and supervise the installation and removal of various exhibit displays for local and National trade shows.

\* Forklift Operator, *Jeka Transport*, Chicago, IL 4/02 - 2/03

- Maintained a high level of safety and accountability for the removal, weighing, and loading of assorted freight cargo.

Construction Laborer, *Peotono Construction Co.*, Orland Park, IL Summer 01

- Effectively distributed and positioned materials for the seamless construction of single family homes.

**Military Experience**

Sergeant (E5) - United States Marine Corps 1996 - 2001  
Machine Gun Section Leader (0331)  
Charlie Company 1/7 - 1<sup>st</sup> Marine Division Twentynine Palms CA,

- Responsible for the lives and welfare of twenty-one junior Marines, as well as the safe employment of six medium machineguns in direct support of live fire maneuvers.
- Accountable for various elements of government property including weapons, explosives, optics, and night vision equipment.
- Marine Combat Instructor of Water Survival (MCWS)*. Taught water survival training to Marines and ensured the safety of two hundred Marines while conducting aquatic training.
- Helicopter Rope Suspension Training (HRST) Master*. Conducted safe and efficient rappel and fast rope operations from both helicopters and static towers under simulated combat conditions.
- Nuclear, Biological, and Chemical (NBC) Warfare Liaison*. Senior Noncommissioned Officer on a Monitor, Survey, Decontamination Team. Responsible for the detection, management and decontamination of personnel and equipment in a nuclear, biological and/or chemically contaminated environment.

**Memberships Accomplishments and Activities** (b)(6)

45. Remarks

Appointment affidavit executed 23-JAN-2006.

OPF maintained by HRSC-NW, 3230 NW Randall Way, Silverdale, WA 98383.

Full performance level of employee's position is GS-12.

Superior qualifications appointment made under Reg 531.203(b).

Service counting towards permanent tenure from (b)(6)

Special rate under 5 U.S.C. 5305.

Frozen Service: none

(b)(6)

Employee is automatically covered under (b)(6)

Employee covered by the terms and conditions of the Navy Career Intern Program (NCIP) approved by OPM on March 1, 2001.

### OBJECTIVE

A management position that will utilize my expertise in engineering, business management and operations.

### QUALIFICATIONS

I am a nuclear engineer with over 30 years of experience in reactor engineering, first line supervision, and nuclear operations. I currently promote teamwork among operations and engineering personnel. I am a self-motivated professional with a broad technical/management background and proficient in the use of personal computers, PC software and the Internet. My education includes a BS in Nuclear Engineering and an MBA.

### PREVIOUS EMPLOYMENT

**NUCLEAR REGULATORY COMMISSION, Lisle, IL** **2002 to present**  
*Region III Office*

**Operations Engineer** (2002 to Present)

Prepares and administers operator licensing examinations and requalification inspections for plants primarily in Region III.

- Chief Examiner qualified
- Qualified in all 4 reactor technologies and AP1000
- Temporary promotions (3) for Project Engineer in DRP.
- Other inspections performed include License Renewal, CDBIs (3), PI&Rs (3), and Baseline Inspections for Resident Inspector support.

**EXELON CORPORATION, Marseilles, IL** **1998 to 2002**  
*LaSalle Generating Station*

**Database Administrator** (1998 to 2002)

Implement performance improvements for station Training Department personnel based on corporate input.

- Develop and manage Training Department budgets.
- Researched and developed curricula and training materials in a wide variety of technical disciplines.
- Develop and maintain qualification and training databases to meet current training requirements.

**COMMONWEALTH EDISON COMPANY, Zion, IL** **1986 to 1998**  
*Zion Nuclear Generating Station*

**Engineering Training Administrator** (1996 to 1998)

Prepare and implement performance improvements for station technical support personnel using the systematic approach to training (SAT) process.

- Conducted training needs analyses for station engineers and senior managers.
- Researched and developed curricula and training materials in a wide variety of technical disciplines.
- Developed and delivered training programs in both the classroom and the simulator.
- Researched, developed and delivered training on SOER 96-2 for senior managers.
- Achieved qualification in Severe Accident Management Guidelines (SAMG)
- Achieved performance recognition award for most recent (GSEP) exercise participation.
- Maintained Senior Reactor Operator (SRO) certification.
- Developed and maintained the 10 CFR 50.59 training and station qualification database.

**Principal Simulator Instructor** (1991 to 1996)

Prepared and implemented performance improvements for station operations personnel using the Systematic Approach to Training (SAT) process.

- Achieved Senior Reactor Operator Certification.
- Achieved Simulator Operator Certification.
- Researched, developed and delivered training materials for plant systems and operations fundamentals.
- Coordinated fundamentals phase of initial license training process with exceptional performance results.
- Coordinated and delivered simulator training for initial license and engineering training processes.
- Assisted with operator continuing training process in both the classroom and the simulator.
- Maintained exam bank database to meet current training requirements.

**Nuclear Group Leader/ Engineer** (1986 to 1991)

Provided management and technical support to the station reactor core and spent fuel pool.

- Directed the efforts of seven nuclear engineers including performance reviews, training and resource management.
- Developed and implemented the station's initial reactivity management program.
- Coordinated and performed startup physics tests and surveillances that ensured safe core operation.
- Managed projects such as modifications, vendor analyses and reactor vessel repairs.
- Budgeted resources to ensure sufficient personnel and equipment to meet station priorities.

**COMMONWEALTH EDISON, Byron, IL**

**Nuclear Group/QA Engineer** (1982 to 1986)

Ensure safe and proper plant operations by writing and performing tests, surveillance's and audits.

- Wrote and performed initial startup physics tests for Byron Unit 1, assuring scheduled dates were met.
- Achieved Lead Auditor qualification in less than one year.
- Wrote and performed surveillance's and audits to verify plant operation per applicable requirements.

**EDUCATION**

**M.B.A, Project Management**, Lewis University  
Romeoville, IL. Graduated with honors in (b)(6)

**B.Sc., Nuclear Engineering**, University of Illinois, Urbana, IL

---

**CONTINUING EDUCATION/PROFESSIONAL DEVELOPMENT**

*Digital Electronics, Gateway Technical College, Racine, WI*  
*Severe Accident Management, Commonwealth Edison, Zion, IL*  
*SRO Certification, Commonwealth Edison, Zion, IL*  
*Radiation Monitors, GA Technologies, San Diego, CA*

**COMPUTER SKILLS**

- Windows
- ADOBE Acrobat
- Excel
- ADAMS
- Internet Explorer
- MSWord
- Access
- Word Perfect
- PowerPoint
- CITRIX

Dear FOIA Requester:

The FOIA Improvement Act of 2016, which was enacted on June 30, 2016, made several changes to the Freedom of Information Act (FOIA). Federal agencies must revise their FOIA regulations to reflect those changes by December 27, 2016. In addition to revising our regulations, we intend to update the Form 464, which we use to respond to FOIA requests.

In the interim, please see the comment box in Part I.C of the attached Form 464. The comment box includes information related to the recent changes to FOIA that is applicable to your FOIA request, including an updated time period for filing an administrative appeal with the NRC.

Sincerely yours,

*Stephanie Blaney /S/*

Stephanie Blaney  
FOIA Officer
