Case Highlight

Despite being previously charged with felony insurance fraud and having his insurance license revoked, a former Oklahoma producer continued to scam past customers and local businesses by offering bogus certificates of insurance and pocketing the alleged premiums. When these contractors and subcontractors needed to file claims on what they thought were their general liability policies, they learned they had no such coverage in place. OID Anti-Fraud Investigators discovered the producer had preyed on parties unaware of his revocation and criminal charges in order to continue his cash inflows, despite no longer being appointed with any insurance provider. Upon reviewing insurance and banking records, OID Anti-Fraud Unit Investigators learned that the producer was utilizing legitimate company names on the certificates, but providing wrong industry numbers in an attempt to prevent detection, while depositing his ill-gotten gains into his personal banking accounts. In the State of Oklahoma, engaging in the “business of insurance” after license revocation is a felony, as is obtaining money through false pretenses above misdemeanor amounts. OID Anti-Fraud Investigators were able to locate the former producer. He was re-arrested, charged with additional felony counts for each bogus certificate of insurance, and is currently awaiting trial on the new charges.

YEAR IN REVIEW

In 2023 The MAP Division increased the number of public activities in which we participated as the public continued to emerge from the pandemic. While the number of face-to-face events grew, we continued to participate in webinar events to reach those seniors who preferred to use their computers for educational purposes. Starting this year, we engaged in a full-force social media campaign to expand the awareness of our program and the services we offer to Oklahoma’s seniors. MAP held training sessions around the state to assure we had adequate counseling staff throughout Oklahoma.

MAP did multiple presentations around the state on Medicare fraud prevention as part of our Senior Medicare Patrol Grant (SMP). In addition, we held training in Oklahoma City to increase the number of certified SMP counselors around the state. We partnered with the Oklahoma County Sheriff’s Department, the US Department of Justice, the FBI, the Oklahoma Bankers Association, the Social Security Administration, AARP, the Oklahoma Department of Securities, and the Oklahoma Attorney General’s Office to hold three Fraud Prevention events in 2023. The events were held at Metro Technology Center’s Springlake Campus where they could accommodate a large group of attendees in addition to streaming the event to multiple remote locations around the state.

MAP was also engaged in educating professionals around the state on Medicare, Medicare fraud, and Medicare financial assistance programs. Each year we participate in the training for the Oklahoma Aging Advocates Leadership Academy and the CMS-ITU training (IHS, Tribal, and Urban Indian Services). This is in addition to the annual training that our MAP counselors around the state must complete each year to remain certified for our program.

MAP is available for presentations to groups of any size. We speak at senior centers, churches, cultural centers, health fairs, etc. to educate as many people as possible about all aspects of Medicare. We work with various agencies, tribes, and other entities to identify opportunities for outreach around the state.

LEGISLATIVE RECAP

SENATE BILL 557

This measure requires health care providers reviewing claims for mental health or substance use disorder treatments and services to have appropriate, qualified, and specialized credentials with respect to the services and treatments.

CHAPTER 1 PERMANENT RULES

Updates our rules to reflect open records fees as prescribed by statute. Adds language allowing for electronic signature and for hearings to be held remotely in certain circumstances. The rule also sets timeframes for the Department to receive evidence when a hearing is to be held remotely. Updates requirements in rules to reflect new statutory changes. Removes unnecessary rules pursuant to the Governors Executive Order on rule regulation (EO2020-03).

SENATE BILL 638

This measure provides that a PEO or PEO Group shall submit to the Insurance Commissioner a financial statement from up to 365 days prior to their application date rather than 180 days as current law states. Any PEO, or PEO Group must submit any name or contact information changes to the Commissioner within 30 days of the changes. Submissions made after 30 days will require an accompanying fee of \$50. The measure also provides that a registration expired for failure to submit a renewal application may be reinstated within 90 days after the expiration date upon submitting a renewal application and a fee twice the amount of the renewal fee along with any transaction or other applicable fees.

CHAPTER 10 PERMANENT RULES

Updates our rules to reflect correct citations and amends the open enrollment time frame for Medicare supplement policies.

2023

LEGISLATIVE RECAP (*CONTINUED*)

CHAPTER 25 PERMANENT RULES

Multiple regulations are being revoked due to the Governors EO 2020-03. These rule changes remove unnecessary regulation that is already addressed in the statutes and assist our licensees by reducing the number of regulations they must review for compliance. We also update the regulations to reflect statutory changes that were made last year on Insurance Consultants, Customer Service Representatives, Bail Bondsman, Captive insurers, Cemetery Merchandise Trusts, Prepaid Funeral Home Benefits, and Pharmacy Benefit Managers. We are also updating all of our forms as many are outdated or not required any longer. Removes an additional CE requirement, which aligns our Department with the NAIC Producer Licensing Model Act. The changes to the Cemetery Merchandise Trust rules help to better align with other similar entity types and reduce any duplicate statutory language. Rule changes also makes Emergency rules we did in 2022 on the Credit for Reinsurance Model Act permanent to ensure we remain in compliance with a larger effort to modernize reinsurance regulation in the United States. The adopted changes are in compliance with the Covered Agreements between the United States and the EU as well as the UK. These agreements were entered into under the authority of the Dodd-Frank Act and the revisions ensure that the States are in compliance and therefore not subject to preemption by the federal government. Finally, regulations are updated to reflect Annuity & Suitability & Best Interest Standard Model #275 training requirement.

CHAPTER 10 EMERGENCY RULES

The proposed emergency rule allows the state to offer a special enrollment period for Medicare supplement policies in conjunction with the ending of the Federal COVID-19 Public Health Emergency and discontinuation of SoonerCare/Medicaid coverage for enrollees who no longer meet eligibility criteria.

Director of Rate & Form Compliance

The Rate and Form Compliance Division works to protect Oklahomans by reviewing the policy forms and rates submitted by insurers to ensure compliance with state statutes and regulations. This division processes the policy forms and rates for most property and casualty lines of

insurance, such as Private Passenger Auto, Homeowners, Commercial Property and Liability, and many other related lines of insurance. The division also processes the forms associated with Life insurance products, Annuities, Accident and Health policies, and other related and similar lines of insurance, along with the rates for some (but not all) of those lines. Additionally, this division reviews and approves licenses for rating and advisory organizations, joint underwriting associations, and utilization review providers. This division also serves in a supporting and complementary role to the Commissioner and to other divisions, such as Legal, Market Conduct, Consumer Assistance, to provide information and assistance when needed.

THIS YEAR IN RATE & FORM COMPLIANCE

5,108 Property & Casualty Filings Received	2,880 Life & Health Filings Received
120 Utilization Review Licenses Issued	25 Advisory Organization Licenses Issued

Project Spotlight

The SERFF Modernization project was approved by NAIC membership and began in March of 2022. It is estimated to be a multi-year endeavor with a target completion date in 2026.

The goal of the modernization is still focused on gaining operational efficiencies while taking advantage of technology and innovation opportunities available today. The process improvements envisioned in the transition stages, bolstered by advanced technology solutions, will improve rate and form filing efficacy, which in turn will improve product speed to market. The new system will be easier and more intuitive to use, implement quality control checks to prevent incomplete filings, enhance communications between filers and reviewers, and provide access to data more easily. In the end, filings will be made more quickly and with fewer errors, enabling regulators to review the filings more easily and provide feedback in a streamlined manner captured by the system. The OID Rate & Form team continues to monitor the progress by the NAIC through monthly update calls on SERFF development activities.

REGULATE & PROTECT

Christine McEntire
Director of Real Estate Appraiser Board

The Real Estate Appraiser Board (REAB) ensures that appraisers and appraisal management companies meet federal requirements. REAB also approves and supervises continuing education providers, instructors and courses. The Board consists of seven regular members appointed

by the Governor for five-year terms. The Insurance Commissioner serves as the ex-officio Chairperson.

2023

REAB RECAP

- Board members and staff attended the Spring Conference of the Association of Appraiser Regulatory Officials (AARO) in Savanna, Georgia in May, 2023 and the Fall Conference in October, 2023 held in Salt Lake City, Utah. Discussions were held regarding newly implemented virtual work product experience program - Practical Applications of Real Estate Appraisals (PAREA). This program will assist new applicants, particularly in rural areas, that may have difficulty finding a supervisor for training purposes. The PAREA program allows applicants to obtain all of their work product experience in a virtual setting. Discussions also continue around the topic of valuation bias and fair housing.
- The Board is continuing to make improvements to its online licensing system and is preparing to migrate to an upgraded version of the current system in early 2024.

Note of Appreciation

"I just want to thank your staff member personally. She was the first person I talked to about getting started in the appraisal world and she led me to the choices for my schooling. Along the way when I needed something, I called and pestered her and she was very kind and helpful. Praise God it's over. That test was difficult and I'm so glad it's behind me."
