## FLORIDA DEPARTMENT of CORRECTIONS

Governor BOB MARTINEZ Secretary RICHARD L. DUGGER

1311 Winewood Boulevard, Tallahassee, Florida 32399-2500 • 904/488-5021

December 18, 1988

Honorable Bob Martinez Governor of Florida Honorable Members of the Florida Legislature

Dear Governor and Members of the Legislature:

In accordance with Chapter 20.315 (15), Florida Statutes, the Department of Corrections respectfully submits its Annual Report for Fiscal Year 1987-88. This year's Report will provide you and other interested individuals and agencies with information regarding the activities, status, functions and impact of the Florida Department of Corrections as it executes its statutory responsibility for the custody, care, treatment, management, and supervision of adult and youthful offenders incarcerated and under Community Supervision. Should you have any questions regarding the material in the Annual Report,

we will be happy to respond.

Sincerely,

Rulal L. Dagger

RICHARD L. DUGGER Secretary

# A MESSAGE FROM SECRETARY RICHARD L. DUGGER

During Fiscal Year 1987-88, the Department met a number of challenges which reflected the States' continuing growth and the resultant extraordinary increase in prison admissions and population. This circumstance literally demanded creative correctional administration. The judicious use of Administrative Gain Time, increases in the Basic Release Assistance (BRAP) and Supervised Community Release (SCR) programs, expansion of community-based diversionary alternatives and "quick" construction to increase bed capacity were instrumental in the successful management and retention of the Department's inmate population within lawful capacity. At the end of the fiscal year, BRAP releases had increased from about 400 to 1,521 per month. The number of inmates released to Supervised Community Release increased from approximately 400 to 700 per month. The new Transition Assistance Program (TAP) was implemented to help inmates bridge the gap between incarceration and the free society. Court felony dispositions increased for Pretrial Intervention, Probation, and Community Control to the extent consistent with public safety. There were 84,138 offenders under supervision at the closing of the fiscal year.

The 1987 Legislature appropriated 4,158 new prison beds as a result of the Governor's initiatives. Use of "quick" construction and inmate labor for new beds resulted in dramatic savings in construction costs. Three new major correctional institutions were opened during the year. Sites for these institutions and for work/forestry camps were donated to the State in six Florida counties. A new prison design permitted the expansion of existing "quick" construction facilities to accommodate close custody inmates.

An innovative Basic Training Program (Boot Camp) was established in October, 1987 for the purpose of diverting youthful offenders from institutional to community supervision. Preliminary analysis of this highly visible program indicates a great potential for success.

During the fiscal year, medical services of the Department were expanded and staffing levels greatly increased. The organizational structure of Health Services was completely realigned to ensure accountability, quality of services, compliance with protocols and policies and cost control. A professional Health Service Administrator, having correctional experience, was employed to manage administrative functions of health services. Chronically ill inmates incarcerated in six major institutions were shifted, in a major reassignment effort, from rural areas to urban locations where needed care could be more readily obtained.

A determined effort to expand utilization of inmates for work programs resulted in work squads under armed supervision being organized at seven institutions. The squads consist of close custody inmates, many of whom would otherwise be idle. These squads were in addition to the many inmate volunteer work squads which are employed on community beautification projects and other authorized work details.

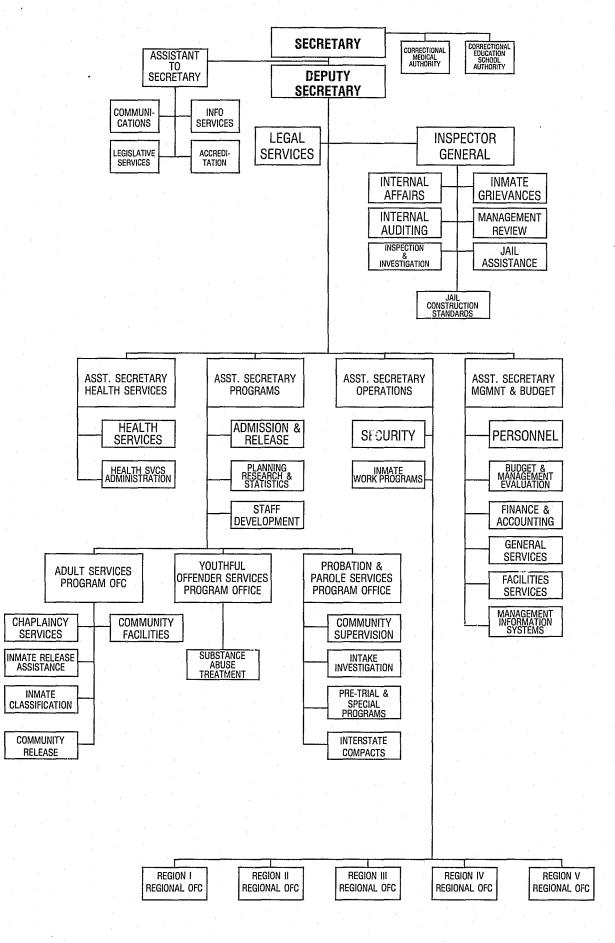

During FY 1987-88 the Community Control Program was expanded. An estimated 32% increase in the Community Control caseload may be attributed to increased emphasis on diversions from prison prompted by greater ability to supervise offenders using electronic devices. A total of 296 active electronic monitoring units were placed in seven urban areas in the State. Passive electronic surveillance devices are operating in ten areas throughout the State.

Fifteen of twenty judicial circuits are utilizing some type of electronic monitoring device. The response to electronic monitoring programs by judges and law enforcement officials has been very supportive. The Department successfully competed with correctional departments of other states for funding to develop and implement a model Comprehensive Substance Abuse Program. Over one million dollars was awarded to the State of Florida for treatment of substance abusing offenders. This grant has placed Florida in the forefront of inmate substance abuse treatment among all states.

The Department initiated significant cost savings measures and improved productivity. These efforts included the issuance of canvas shoes in lieu of leather brogans to inmates where job assignments make this feasible and use of inmate labor in construction of "quick" beds. This form of construction saved the State \$109,000,000 during the year. Donated prison sites provided a value to the State of over \$900,000.00. Also, the automation and centralization of inmate banking operations permitted increased accountability and interest earnings. Effectiveness of Probation and Parole Supervision was enhanced by automation of probation and parole office operations. This has increased available time for officers to supervise offenders individually.

In summary, Fiscal Year 1987/88 has been one of challenge and progress. To the employees of the Department who made this progress a reality I extend my congratulations and appreciation for jobs well done. We must persist in pressing forward in the coming year. The inmate population continues to rise; we are facing the need to deal with aging inmates in numbers greater than we have seen in past years; victim's rights are expanding, placing additional responsibilities on the Department; new initiatives such as provisional release credits, must be implemented effectively. These and other challenges to come will further test our creativity, initiative and resolve. They mandate continuing effort for improvement in every area of departmental operations.

DEPARTMENT ORGANIZATION CHART

3

# **MANAGEMENT AND FUNCTIONS**

SECRETARY RICHARD L. DUGGER is chief administrator of the Department of Corrections. He was appointed to this position by Governor Bob Martinez in January, 1987, after having held positions of important responsibility with the Department since 1964. The Secretary has the authority and responsibility to plan, direct, coordinate and effect the powers, duties and responsibilities assigned to the Department. Secretary Dugger, through the Deputy Secretary and Assistant Secretaries and the Assistant to the Secretary, provides guidance to the Department, identifies major issues and directs planning and implementation of policies and procedures necessary to the operation of the State Correctional System.

4

DEPUTY SECRETARY DAVID H. BRIERTON assists the Secretary in supervising the activities of top management staff in the Department, in addition to acting on his behalf in the Secretary's absence. Appointed to Deputy Secretary in 1988, Mr. Brierton previously held positions including Superintendent at Florida State Prison and Inspector General. A 28-year veteran of corrections, Mr. Brierton started his career in 1960 as a correctional officer, and held numerous high administrative positions. Known for his expertise in management and administration, he is particularly interested in upgrading administrative procedures and management development programs.

Harry K. Singletary, Assistant Secretary for Operations

### ASSISTANT SECRETARY FOR OPERATIONS

**Operational Supervision:** Responsible for direct supervision of the five Regional Directors and the delivery of all Departmental programs and services in the Regions through major institutions, community facilities and Probation and Parole Services.

Security Coordination: Monitors and evaluates security programs at all facilities; advises superintendents in the event of riots, disturbances, or potentially dangerous situations; monitors care and control of all movable security equipment; reviews security plans of all proposed institutions.

Inmate Work Coordination: Responsible for monitoring review and providing assistance to institutions and facilities which are involved in inmate work programs with the Department of Transportation, counties, cities, other State Agencies and non-profit organizations.

William J. Thurber, Assistant Secretary, Office of Management and Budget

### ASSISTANT SECRETARY FOR MANAGEMENT AND BUDGET

**People Services:** Personnel - Represents the Department in all personnel matters. Manages collective bargaining, recruiting, classification and pay programs departmentwide.

Dollar Services: Budget and Management Evaluation -Coordinates statewide legislative and operating budget requests, plans and supervises fund allocations and associated releases. Prepares the annual financial plan for the Department.

Management Services: Finance and Accounting - Plans for and maintains records and reports to reflect past, current and future financial posture of the Department. General Services - Plans and coordinates food service programs; acquisition and management of property; energy, safety and preventative maintenance activities; coordinates purchasing activities relative to statewide contracts, force account construction, emergency purchases and communication equipment. Management Information Services - Designs, implements and maintains automated information programs to assist in management of key aspects of the Department.

Facilities Services: Prepares requests to the Legislature and plans and supervises resulting appropriation to construct, renovate and maintain the fixed assets of the Department.

### ASSISTANT SECRETARY FOR HEALTH SERVICES

Supervision of Professional Delivery of Health Care Services: Directly responsible for the provision of inmate health care services at hospital, regional and institutional levels. Health care services relate to different disciplines, including dental, mental health, nursing, administrative and medical services. Maintains liaison with recognized health care providers and other agencies, such as the Department of Health and Rehabilitative Services; as well as with other National and State professionals and authorities in correctional health services.

Health Services Policies: Establishes health care standards, policies and directives, and formulates related health services legislative proposals.

Health Services Planning: Develops and implements health care plans and programs in accordance with State Comprehensive Plan goals; monitors and evaluates progress and status of health services delivery.

Medical Issues: Consultant and medical advisor to the Secretary of the Department of Corrections and staff members on health services issues.

Harry I. Shuman, M.D., Assistant Secretary for Health Services

### ASSISTANT SECRETARY FOR PROGRAMS

Supervision of Program Offices: Assesses program needs, develops policies, monitors and controls program quality and provides technical assistance in the areas of Adult Services, Youthful Offenders and Probation and Parole Services.

Admission and Release: Receives, documents and establishes the official record of all persons sentenced to the Department of Corrections; the physical movement of inmates between institutions and community facilities and returning parole violators from out-of-state.

Planning, Research and Statistics: Develops goals, objectives and performance measures; evaluates programs of the Department; forecasts prison populations and probation and parole supervision caseloads, produces the Department's Agency Functional Plan and Annual Report; provides recurring monthly reports regarding admissions and releases and status of the population under supervision.

**Staff Development:** Coordinates and supervises all staff training programs conducted within the Department.

Interstate Compact: Arranges and coordinates the implementation of the Interstate Compact Agreement; implements interstate extradition proceedings.

6

Wilson C. Bell, Assistant Secretary for Programs

## **CORRECTIONAL FACILITIES**

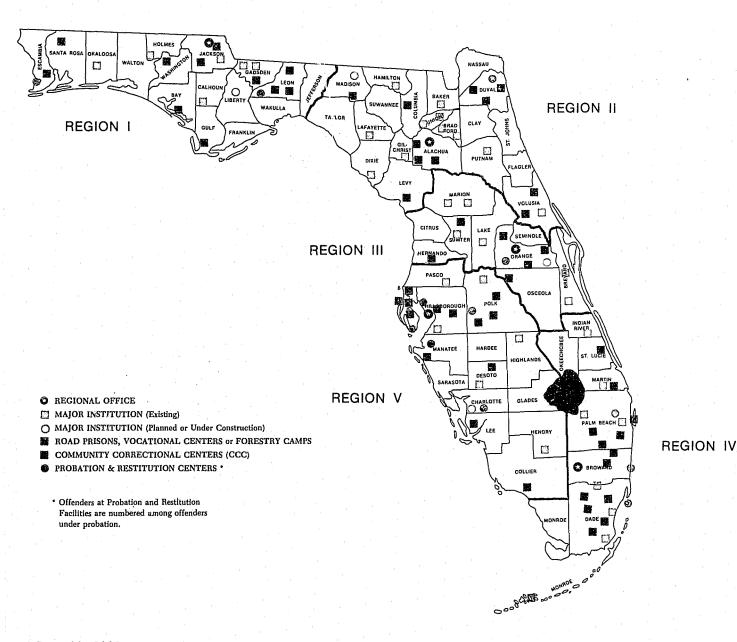

Facilities required for housing incarcerated offenders are located throughout Florida. The geographical separation of similar facilities provides additional opportunities for appropriate programming and management of the inmate population.

#### THE DEPARTMENT IS RESPONSIBLE FOR:

#### SUPERVISING 33,681 OFFENDERS

IN

#### 104 FACILITIES \*

7

# **PROBATION AND PAROLE OFFICES**

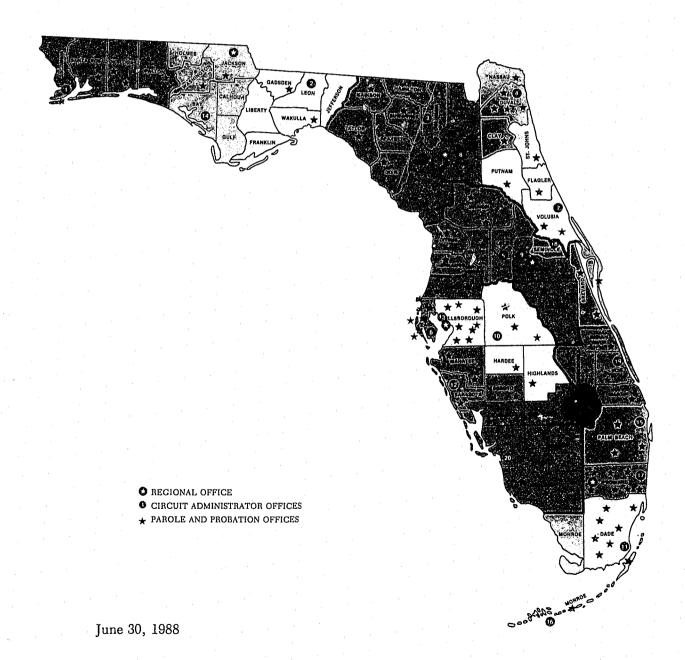

Diversionary strategies are a critical factor in the success of any offender based criminal justice system. Florida relies on the quality and professionalism of the Probation and Parole offices to keep diversionary practices a viable alternative for offender rehabilitation.

THE DEPARTMENT IS RESPONSIBLE FOR:

#### SUPERVISING 84,138 OFFENDERS

FROM

#### 112 PROBATION/PAROLE OFFICES

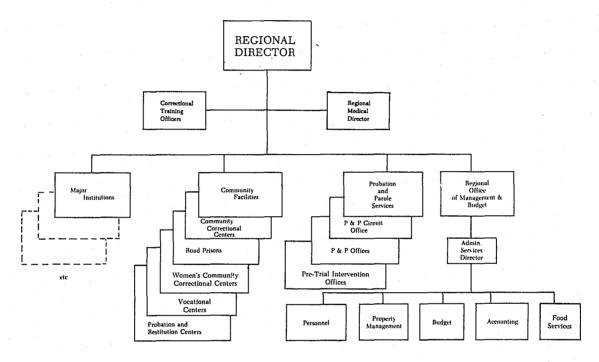

8

# **REGIONAL ORGANIZATION**

Correctional institutions, facilities and probation and parole offices are administered through five geographic regions. Each region is headed by a regional director who supervises the activities of the superintendent of each major institution, the superintendent of community facilities and the regional probation and parole administrator. The regional director is responsible for financial administration and personnel management within his region and for ensuring that departmental policies are carried out and standards are met. Regional organizations and functions are shown below.

TYPICAL ORGANIZATION

## **REGIONAL FUNCTIONS**

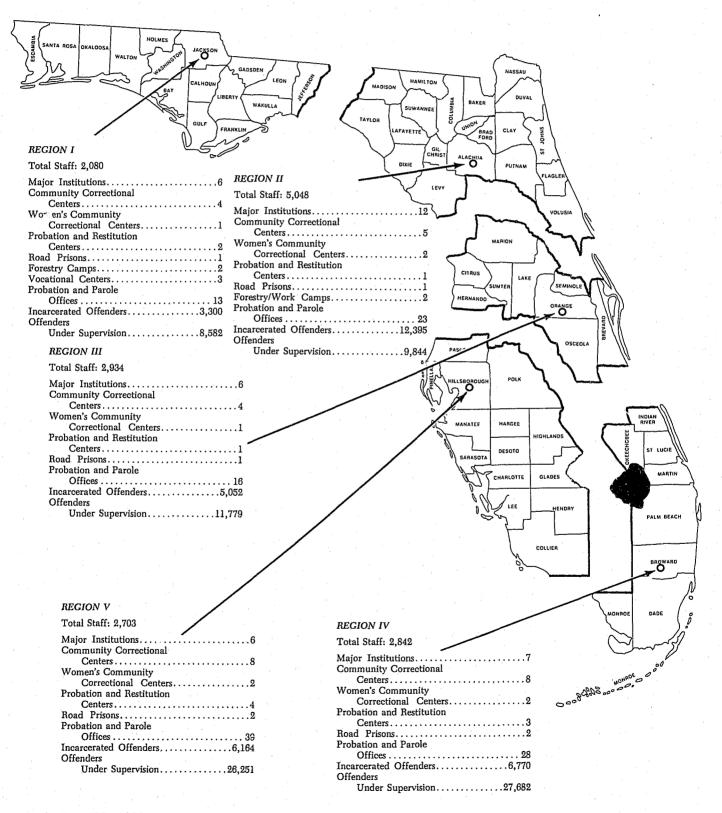

Each regional office coordinates activities and solves problems at major institutions in accordance with standard Department diagnosis, evaluation, referral, classification and case management procedures.

The activities of all community correctional centers, road prisons, vocational training centers, women's community correctional centers and probation and restitution centers are also directed by the regional office in accordance with Central Office policies and directives.

The offices coordinate and direct all probation and parole services and activities in accordance with policy guidelines and program directives from the Central Office, to include supervision, investigation, intake and diversionary programs.

Each office performs personnel management activities, to include maintenance of personnel files and related records for personnel of community facilities, probation and parole offices and the regional office. In addition, regional officers maintain property accounting records, document all property transactions and maintain property management and control. The regional offices also prepare and submit regional budgets, monitor operating accounts and expenditures and supervise regional fund allocations and releases.

### THE REGIONS: GEOGRAPHICAL LOCATIONS AND ADMINISTRATIVE DATA

# DEPARTMENT OF CORRECTIONS GOALS AND RECOMMENDATIONS

As required by Chapter 20.315 (15), F.S., the Department of Corrections has developed recommendations for improving the delivery of correctional services in the State. The recommendations address views and requirements that have become apparent in the areas of policy needs, facilities necessary to remain ahead of inmate population growth and personnel requirements to ensure optimal effectiveness of our correctional personnel. Based on the accomplishments of 1987-88 and assessments of requirements for further progress toward established Departmental goals as set forth in the Department's Agency Function Plan, the following recommendations are listed under the goals to which they are related.

#### GOAL: PUBLIC SAFETY

State Policy: Maintain safe and secure prisons and other correctional facilities with the required number of well-trained staff.

- -Purchase sites for prisons in advance of their need.
- -Enable expansion of capacities for close management inmates.
- -Begin planning with the Executive Office of the Governor and the Legislature to phase out World War II type dormitories at Avon Park and Desoto Correctional Institutions.
- -Enable completion of all physical components of major institutions.
- -Over the next three years permit replacement of facilities cited in the Capitol Improvement Program.
- -Provide funding in the Capitol Improvement Program to accomplish major repairs and renovation of the Department's facilities, for restoration of services and the elimination of deficiencies.
- -Convert surplus public facilities into correctional facilities as feasible.
- -Permit increased use of razor wire at major institutions.
- -Establish full time professional and clerical positions to effectively manage a viable safety and loss control program.
- -Fund a relief factor for Correctional Officer posts that is based on leave time, training requirements, and security needs, so that essential posts can be filled without the expense of overtime pay.
- -Provide resources for a computerized transfer program which will automatically handle institutional assignments for previously approved transfer orders as vacancies occur in Department facilities.
- -Enable implementation and enhancement of a computer-assisted victim notification system.
- -Introduce legislation to secure certification of institutional Correctional Probation Officers, in order that these officers may remain in the same class of employee as those working in the community.
- -Improve opportunities for youthful offenders to participate in substance abuse treatment programs.
- -Increase casework services and provide for sufficient staff to allow for continuous supervision of incarcerated youthful offenders.
- -Provide funding for 5 Regional Chaplains.
- -Enable establishment of additional Chaplain positions to provide a Chaplain position for 300 inmates and an additional Chaplain position for additional increments of 500 inmates.
- -Provide for separate chapel facilities for institutions not having one, and include plans for a separate chapel facility for all new institutions.
- -Provide for one secretarial position for each institution with two or more Chaplains.

# State Policy: Provide effective alternatives to incarceration for appropriate offenders and encourage victim restitution.

- -Reestablish probation officer caseload ratio at 1:81 for adult offenders, which is at the same level which existed prior to implementation of community control.
- -Authorize establishment of correctional probation officer pay grade at a level commensurate with the elevated education requirements and the technical nature of the work.
- -Fully fund community control as a separate budget issue to prevent further deterioration of probation services. -Permit expansion of electronic monitoring of offenders based upon sound evaluation of existing electronic monitoring efforts.
- -Continue enhanced funding of drug abuse counseling and monitoring.
- -Continue to provide resources for the Office Automation/Automated Intake System for parole and Probatrion offices. -Encourage victim restitution by developing and implementing a computerized system for recording and tracking payment of court costs, victim repayments and other fines.
- -Continue to supply computer equipment to provide access to the Offender Based Information Systems for Parole and Probation offices that do not now have access.
- -Provide computer interface for Parole and Probation field offices to link up with local County Criminal Justice Systems. -Exclude fiscal clerks and data entry positions from clerical staffing ratios.

State Policy: Make the corrections system as financially cost-effective as possible through prison industries, and other inmate work programs, and through contractural agreement with public and private vendors.

- -Provide resources to expand program direction and support for after-hour activities for adult inmates to reduce idleness. -Continue support for further expansion of PRIDE Industries Programs which replicate the best aspects of private enterprise relative to on-the-job training, incentives and productivity and career advancement opportunities.
- -Provide funding to assure a continuing capability within the Department to coordinate the efforts of PRIDE of Florida, Inc. in the operation, expansion and up-grading of industrial work programs and to evaluate ongoing industrial operations.
- -Continue to support expansion of inmate work programs in cooperation with the state's political sub-divisions.

State Policy: Continue to monitor educational and vocational training for inmates to assure that our goal of increasing the likelihood of successful reintegration into the community is being accomplished.

- -Provide resources to assist the Correctional Education School Authority (CESA) in the implemention of their Five Year Comprehensive Plan, the better to provide inmates, through academic and vocational instruction, with the prerequisite skills needed for post-release employment, and promotion in existing and projected industry programs. -Provide additional education program space at selected major institutions.
- -Fully implement and enhance the Computerized Program and Placement and Counseling System.
- -Improve pre-employment training, job placement and follow-up activities.
- -Support joint efforts of CESA, Social Security Administration, Department of Labor and Employment Security and the Department of Corrections in gathering information related to job success of inmates released to community supervision.
- -Continue to fund the Department of Labor and Empolyment Security and Department of Corrections contract for job placement services. (TAP and 401 programs).

State Policy: Ensure that all inmates have access to comprehensive health care, including effective diagnostic and treament programs for offenders suffering from substance abuse or psychological disorders.

- Enhance recruitment and retention of nurses through improved salaries and working conditions.
- Support inmate mental health care through the provision of appropriate treatment settings.
- Enable development and implementation of a computerized system for Health Services to monitor hospital inpatient days to reduce costs of hospital visits.
- Provide resources to develop computerized assistance for quality assurance.
- Expand funding necessary to develop a plan for implementing a computer-assisted pharmacy system.
- Enable development of a computerized data base of health-related information on 100% of the inmates under custody.
- Provide resources to develop a computerized appointment scheduling system for the various clinics in the institutions such as dental, hypertension, lab, x-ray, etc.
- Appropriate the funds necessary to plan and implement computer assistance for mental health services.

State Policy: Provide incentives which will attract and retain high quality law enforcement and correctional officers.

- -Increase salary level and Competitive Area Differentials for Correctional Probation/Community Control Officers. -Provide funding for computer equipment and systems, particularly in the office automation and Management Information System area to expand on the "Job Enrichment" effect and reduce turnover.
- -Enable continued development and exploration of opportunities for computer-assisted instruction in major institutions.
- -Revise current salary levels to reflect the increased workload and experience requirement for all personnel in the Correctional Training Officer and Training Manager series.
- -Permit enhancement of video production capability in support of Department objectives.
- -Provide for at least one Correctional Training Officer in every major institution.

#### GOAL: ENERGY

State Policy: Promote the use and development of renewable energy resources.

-Provide resources to evaluate renewable energy sources for all construction over 5,000 square feet and utilize wherever cost-effective.

#### GOAL: GOVERNMENTAL EFFICIENCEY

State Policy: Encourage greater efficiency and economy at all levels of government through adoption and implementation of effective records-management, information management, and evalution procedures.

-Provide for additional professional and support staff for Accounting, Personnel, Purchasing, Management Information Systems and Facilities Services consistent with workload and size of Department.

-Develop an automobile replacement schedule to enable replacement of Department vehicles having over 100,000 miles and requiring maintenance that is no longer cost effective.

- -Provide funds for computer terminals, as outlined in the Information Resource Commission (IRC) plan and expand the installed network providing increased access by major institutions, community facilities, probation and parole offices and the Central Office to the Offender Based Information System (OBIS).
- -Provide resources to support the approved office automation supplement to the IRC plan to improve and expand services to probationers, parolees, inmates and prosecutors in Florida and other states.
- -Support Departmental requests for funding of Probation and Parole Services access to local county criminal justice systems.
- -Provide Property Officer positions to improve the accountability of State proprety.
- -Appropriate resources and establish positions in the fiscal and administrative areas to provide for the coordination of all segments of the Florida Fiscal Accounting Management Information System.
- -Provide for continued growth and support to the Justice Data Center.
- -Provide resources to reduce the backlog of Offender Based Information System requests for enhancements by 50%.

State Policy: Discourage undue expansion of state government and make every effort to streamline government in a cost-effective manner.

-Strengthen the Department's inspection process for facilities by increasing the number of Prison Inspectors, providing the appropriate training for Inspectors and improving the system for monitoring the deficiencies and the implementation of the recommendations of each inspection.

#### GOAL: PLAN IMPLEMENTATION

State Policy: Establish strong and flexible agency and regional planning functions at all levels of government capable of responding to changing state policies and goals.

- -Establish the system necessary for the Florida Department of Law Enforcement, State Courts, local courts and other criminal justice agencies to link computers and share criminal justice information as defined in the Department's Information Resource Plan.
- -Permit upgraded technical training for all staff assigned to the Bureau of Planning, Research and Statistics.
- -Provide for two Planner II professional positions and one secretarial/word processing position.
- -Enhance statewide strategic planning for Information Resource technology actively working with the Information Resource Commission and Joint Committee on Information Technology.
- -Provide for Information Security Manager and planning positions as called for in the State Strategic Plan for Information Resource Management.
- -Provide funds to conduct a strategic data planning study in responce to the State Plan for Information Resource Management.

## ACTIVITIES

### **BASIC TRAINING PROGRAM**

The Department initiated a new diversionary program on October 1, 1987 in accordance with a legislative mandate. The Basic Training Program is a military type program for youthful offenders, frequently referred to as "Boot Camp". It was established utilizing an existing single cell dormitory at Sumter Correctional Institution.

Youthful offenders in the Program are separated from adult offenders by internal fencing. An essential component in motivating youthful offenders to do well in the Program is the very real possibility of failing and thus being returned to regular prison and serving the complete time required.

Based upon carefully drawn criteria participants are selected by the Department and recommended to the sentencing court for entry in the Program. Upon successful completion of the 90-120 day program offenders are released on probation to complete their sentences. Florida's Program incorporates a broad based concept wherein inmates are subjected on a daily basis to hard work and counseling to improve their decision making processes and promote acceptance of responsibility. Physical exercise, including an imposing obstacle course, and substance abuse programming are integral parts of the Program. All aspects of the Program are characterized by strict, military style discipline and accountability. The inmates wear specialized uniforms and conform to stringent dress codes. Group movements are done to marching cadences. The daily regimen begins at 4:00 AM. Privileges such as television, and radio and access to telephones are completely eliminated.

An inmate counts pushups aloud while closely supervised by correctional officers.

Other privileges such as visiting and free time are used to motivate positive inmate participation.

Staff supervising the Program are especially selected and trained correctional officers, who also serve as role models for the youthful offenders in the Program. These officers must maintain top physical conditioning, since they are required to march or run with the inmate groups and demonstrate proper execution of drill and exercise movements.

In the first nine months, 232 inmates have been admitted. Early indications are that about two thirds will successfully complete the Program and be released on probation.

A new inmate double-times to his squad with his property.

The daily regimen requires all inmates to press their clothing and "spit-shine" their shoes.

Marching discipline is displayed by a platoon nearing completion of basic training.

# **INMATE LABOR PROGRAMS**

Historically, the Department of Corrections has provided inmate labor to cities, counties, and other state agencies, through the Inmate Work Program. This program supplies free labor to perform work projects normally beyond resources of those agencies and municipalities, thus providing a service and cost savings to taxpayers.

The work program reduces inmate idleness; assists inmates with transition to the "free" community by teaching or sharpening work skills and provides a sense of accomplishment through positive work experiences. All of this is designed to promote the work ethic in individual inmates.

Currently, the Department provides approximately 2,500 inmate workers statewide to work on projects for other state agencies, federal agencies, counties, cities, and nonprofit organizations. Labor is provided under three authorized programs: Public Works Trust Fund Projects, Department of Transportation (DOT) highway maintenance projects, and Interagency/Community Service agreements.

Public Works Trust Fund: In 1985 the Florida Legislature created Florida Statute 946.40, which established the Public Works program with funds from the cost-of-supervision payments made by probationers and parolees. Projects include landscaping and maintenance of parks and recreation areas, and building repairs as well as numerous other worthwhile services.

Inmate work squads help maintain and repair Florida's highways. Department of Transportation Labor Contracts: Under a contractual agreement with the Department of Transportation (DOT), the Department of Corrections provides inmate labor for work crews. Projects include road maintenance, mowing of highway medians and right-of-ways, weed control, cleaning of drainage ditches, litter removal, and many other similar activities. The annual DOT contract provides the primary funding source for the operation of the Department of Corrections' seven road prisons.

Interagency/Community Service Agreements: Interagency work squads also serve other governmental agencies, cities, counties, and non-profit organizations. Each year over a million hours of labor are provided by these work crews. An estimated savings, or cost avoidance, in excess of 4 million dollars is accrued to the taxpayers of Florida. Projects include moving furniture, food distribution, beautification, maintenance projects, and many other work functions.

In addition to the previously mentioned inmate work options the Department assigns over 17,000 inmate workers to jobs that are essential to the operation of the state's correctional facilities. Some 2,000 of those inmates work for Prison Rehabilitative Industries and Diversified Enterprises (PRIDE), of Florida, Inc., the non-profit business organization which produces goods for use by state agencies.

During the fiscal year, when computed at the rate of \$3.77 per hour, an estimated \$8 million worth of labor (not including DOT contract work) was provided to authorized agencies and governments, statewide, by inmate work crews.

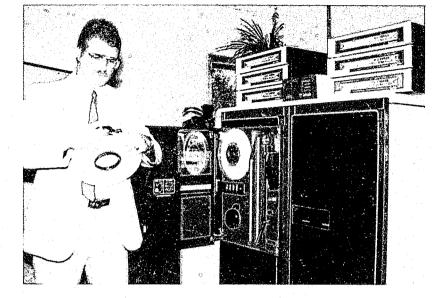

Inmates also assist in keeping Florida's highways free of litter.

An inmate work squad helps a local community clear debris after a tornado.

# STRATEGIC APPLICATION OF INFORMATION TECHNOLOGY

CPO II Jamie Walker loads a computer tape in Jacksonville Probation and Parole Circuit Office. The automated system handles all word processing and offender tracking for Jacksonville, Gainesville, Bronson, Stark and Lake City P & P Offices.

#### **Offender Based Information System**

The Department's major day-to-day operational computer data base system continued to improve through the implementation of many extensions and enhancements to its functions and features. This system is nationally known and has been transferred to several other state correctional systems. The daily transaction rate reached a record level in FY 87/88. This indicates heavy use by department staff.

#### Office Automation/Automated Intake

During Fiscal Year 1987-88, the Department continued to expand on the highly successful Daytona Beach Pilot Project for automating the probation and parole intake process. During the year, the Bureau of MIS, with funding from the Legislature, was able to expand the system into the Orlando, Broward, Tampa, Jacksonville and Gainesville probation and parole circuits. The system automates much of the preparation, tracking and administration of the pre-sentence investigation process which requires so much of a probation officer's time. It allows the officers to concentrate more on supervising offenders and less on "paperwork". Major improvements included reductions in investigation backlog and staff turnover. Other benefits included reduced costs of mail and messenger time, reduced forms inventory and improved ability to share workload peaks among geographically separated offices. Additionally it enabled staff to focus on delinquent Cost of Supervision accounts. The Department will continue to implement the system in the remaining circuits as funding permits.

Automated Reception Center System: During FY 87-88, The Bureau of MIS installed a distributed processing computer system at the Reception and Medical Center at Lake Butler. When fully operational, this system will reduce much of the paperwork in the intensive reception process to a more efficient computer assisted procedure. The process will allow for machine-readable transfer of intake documents from Probation and Parole offices and subsequent automated tie-in to the Department's Offender Based Information System.

**Community Facilities:** The Department brought on-line twenty (20) community facilities by installing computer terminals and printers which access the Offender Based Information System in Tallahassee.

Florida Department of Law Enforcement and County Criminal Justice Tie-in: During FY 87-88, the Department tied-in eighteen (18) additional probation and parole offices to the FCIC/NCIC data base of the Florida Department of Law Enforcement allowing for speedier, more complete pre-sentence investigations. Also, the Department has provided two (2) additional probation and parole circuits access to their local criminal justice computer systems.

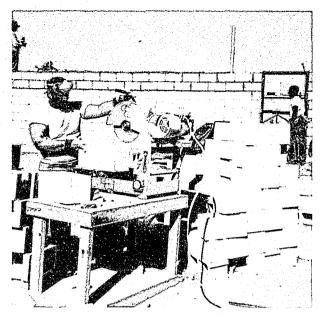

Criminal Justice Information Technician Diane Gunning inputs new Probation & Parole cases into the data base.

### **CONSTRUCTION PROGRAMS**

The Department placed priority on the construction of facilities providing new beds and the correction of fire safety deficiencies during the fiscal year. There were two separate approaches to the construction of new beds: construction contracts for single cell prototype facilities and the use of inmate labor for "quick" construction facilities. A total of 3,861 beds were constructed and brought on-line during FY 87-88.

Construction Contracts: All site preparation, utilities, road paving and construction of buildings was accomplished through contractors. Single cell dormitories were constructed with sophisticated electronic locking devices and complex mechanical and structural systems. The complicated process in constructing these larger, multilevel buildings made it impractical to accomplish construction through inmate labor. By using a prototype design, architectural and engineering costs were minimized since the same design was used for each prototype facility. The Department has been utilizing existing State lands or land donated by counties upon which to build prisons. Use of donated land as sites for the construction of new facilities during the Fiscal Year 87-88 saved in excess of \$900,000.00.

"Quick" Construction Beds (Inmate Labor): Force account facilities were built in accordance with designs by in-house architects and engineers. All purchasing was done by Central Office or institutional purchasing staff. Extensive use was made of inmate labor during the construction phase.

Inmate labor was used extensively in the construction of Calhoun Correctional Institution, a "quick" construction facility.

Due to more sophisticated construction requirements a private company was contracted to build Orange Correctional Institution.

Three major institutions and five work/forestry camps were constructed in this manner during the fiscal period. All five work/forestry camps, located at Tomoka, Sumter, Madison, Levy and Polk, were substantially completed in nine months. Construction started on Holmes and Calhoun Correctional Institutions in August, 1987. Six dormitories were completed along with five support buildings during the fiscal year. Construction began on Hamilton Correctional Institution during February, 1987, and was completed except for the confinement, academic and vocational buildings. These "quick" construction facilities are single story, concrete block/slab construction, utilizing a wooden truss roof system. The dormitories are open bay design with the shower area and bathroom facilities centralized in one area. Normally, "quick" construction facilities provide 768 bed institutions at one third the cost of a single cell prototype institution. This type of facility can be completed within approximately 11 months construction time compared to 24 months for the single cell prototype institution.

The Appropriations Act of 1988-89 included planning funds for additional facilities and funding for 4,085 additional beds.

### JAIL LITIGATION

In August of 1987, <u>Arias vs. Wainwright</u>, the class action suit challenging the conditions of confinement in Florida's county jails, ended under stipulation and consent decree. This eight year old statewide lawsuit filed on behalf of all county prisoners, stemmed from claims of overcrowding, understaffing, structural deterioration, and other alleged violations of offender constitutional rights. Under obligations of S.951.23, F.S., and the Arias consent decree, it has been necessary for the Department to file 44 state enforcement suits against county governments to bring the jails up to standards.

Inspector James Keen examines locks in a local county jail during a routine inspection.

New jails have been placed under construction and existing jails substantially renovated to improve conditions. Jails continue to be confronted by issues and problems generated by Florida's growing population.

Although the "compliance term" has ended, the Department, through the Inspector General's Inspection and Investigations Division, continues under an obligation to vigorously inspect, regulate, and enforce standards, pursuant to s. 951.23, Florida Statutes.

## STATEWIDE SUBSTANCE ABUSE TREATMENT PROGRAM

The Department initiated a substance abuse intervention program which provides services for identified inmates with histories of substance abuse. The program provides essential community and institutional linkages and creates new services as intended by the Florida Legislature. Operations commenced in February 1988. This project utilizes an assessment procedure and a four tier program model to provide a comprehensive array of drug abuse services.

Inmates sentenced to the Department of Corrections undergo assessment procedures at one of five reception locations. The outcome of this procedure allows a rapid assessment of each inmate's substance abuse addiction severity and their readiness for treatment activities.

Tier I, a 30-40 hour program, is an information/orientation component designed for those inmates with less severe substance abuse problems. It consists of literature distribution, short term counseling, group discussion and presentation of program material. Tier II, is an intensive eight-week program, designed as a modified therapeutic community, for inmates with serious substance abuse problems who will not be in the correctional system long enough to participate in a more extensive program. This level is characterized by frequent individual and group counseling and continuous intervention techniques.

Florida Correctional Institution inmates participate in a group discussion as part of Tier I of the Substance Abuse Program.

Tier III, consists of full service therapeutic communities, which serve both female and male inmate populations. Complete implementation of Tier III is scheduled for 1988. Upon placement at a Community Correctional Center, external constraints on offender behavior are minimal. Substance abuse intervention will continue with the implementation of Tier IV, designed specifically to provide counseling services to inmates assigned to Community Correctional Centers by means of contracted services from local providers. The programs will be provided to inmates after they have completed their normal work requirements.

In addition to the four tiers of treatment, the Department also implemented a Drug Abuse Treatment Resource Center (DATRC) located in the Central Office. The Center is responsible for the accumulation, distribution and publication of materials regarding substance abuse for the use of counseling staff and inmates.

### **PROBATION AND PAROLE SERVICES**

Community Control: "House Arrest", an innovative initiative to address prison overcrowding, continues to find favor with judges as a popular diversionary alternative to incarceration. The program provides for home confinement except for authorized movement due to employment and personal necessities. As a result, tremendous cost savings in prison operation and construction costs have been realized.

Electronic Monitoring: Community Control II, a project implemented in 1987, requires offenders to wear electronic anklets which restrict their activites to within 150 feet of their homes unless they are working or involved in other authorized activities. A computer monitors their whereabouts 24 hours a day. Community Control II provides a less costly sanction whereby focus remains on punishment in the community. It is successfully operating in 8 of the 20 judicial circuits.

"Passive" electronic monitoring is an additional element of community control used in Miami and Ft. Lauderdale. Electronic wristlets and verifying units along with computerized programming enables periodic checking on offenders via telephone. Conventional pagers with an accompanying computer system programmed to "page" the offender periodically, supplemented with officers utilizing cellular phones and "voice mailboxes", were the featured components of a third system of electronic monitoring used to monitor compliance with "house arrest" sanctions in St. Petersburg and Sarasota. The almost 300 electronic monitoring units in operation during the fiscal year were used to monitor over 600 offenders who were diverted from prison. These 300 "passive" electronic monitoring units supplemented regular officer surveillance and increased protection to the community.

Cost of Supervision Collections: Although caseloads for officers have been high, Probation and Parole Services collected \$16,282,724 last year in monthly supervision fees. These fees were placed in the State Treasury to offset costs of government. Additionally, \$11,915,982 was paid to victims of crime for restitution and \$6,001,731 in court costs, fines, and public defender fees were paid to the counties by over 80,000 felony offenders.

CPO II Bruce Weintraub adjusts an electronic monitoring anklet...

...before attaching the anklet to the offender.

# ACHIEVEMENTS HONORED EMPLOYEES

Employee of the Year: The Department Employee of the Year for 1988 was Martha I. Guynn, a Personnel Technician at Polk C.I. Guynn joined the Department in 1975 as a secretary at Zephyrhills Community Correctional Center. She subsequently held positions in the accounting and personnel departments at Polk C.I. She played a key role in the Institution's transition to automated computer systems, and was recognized for professional contributions which helped Polk C.I. earn recognition as having the "Best Operated Personnel Department" in the Agency in 1986. In recommending her for the state award. Regional Director Bill Booth wrote that Guynn "is not only a very competent, dependable and hard-working employee, but is also recognized for her willingness to handle extra responsibilities in addition to her own job duties."

**Correctional Probation Officer of the Year:** Robert L. Woody, Community Control Officer in Gainesville, won Correctional Probation Officer honors for 1988. Officer Woody joined the Department almost 10 years ago, and has served as senior Community Control Officer in the North Gainesville Circuit (084) for the past several years. Circuit Administrator, A.N. Proto, recommended Woody for the award, noting that he "has devoted much extra time and attention both to the surveillance and enforcement facets of his position, and to sustained extraordinary efforts to assist and encourage clients to better themselves." In addition, Officer Woody "demonstrated a tireless devotion to his community that is truly exemplary." He is a member of the Gainesville Human Relations Board, the Black on Black Crime Task Force, the NAACP and the Gainesville Police Department Advisory Board. He is also a member of the Alachua County Department of Corrections Advisory Committee.

Personnel Technician Martha J. Guynn

Correctional Probation Officer Robert L. Woody

Correctional Officer Joseph Gary Keen

Personnel Services Specialist Gail Thompson

Correctional Officer of the Year: Sgt. Joseph Gary Keen, is a Correctional Officer at Cross City C.I., was named Correctional Officer of the Year. Sgt. Kean is a seasoned Correctional Officer, having joined the Department 13 years ago. Since then Sgt. Keen has consistently expanded his knowledge and capabilities in the field of corrections. His supervisor, Major D.J. Dekle, describes him as "one of our most dependable employees. He is qualified to work any position we have to offer, and is always willing to take on any task assigned to him." Sgt. Keen is completing his studies toward a bachelor's degree in psychology, proof of his commitment to both personal and professional development. Keen is further described as a "responsible supervisor...always willing to spend extra time with the employees under his supervision when they need his assistance."

Central Office Employee of the Year: Gail Thompson, Personnel Services Specialist, was selected Central Office Employee of the Year. Mrs. Thompson's job involves dealing with employee complaints; her role is to serve as intermediary between management and the employee. Specifically, she supervises the Employee Relations section in Personnel, which handles Equal Employment **Opportunity and Affirmative Action claims**, union and career services grievances, labor relations contract administration, and assorted problems and complaints from employees. She clearly enjoys her work. Thompson has been with the Department since 1977, when she started in Personnel as an Aide. She is described by her supervisor as "a model employee...hardworking, dedicated and very good at her job."

**Teacher of the Year:** Janet Renfroe, an English teacher at A.C.I. was selected Teacher of the Year by the Correctional Education School Authority (CESA). Janet received a Bachelor of Science degree in Social Studies Education from Florida Atlantic University in 1976. She is presently working on a Master's degree in Guidance and Counseling at Florida A & M University. Renfroe has been a teacher at Apalachee Correctional Institution for the past eight years.

Ms. Janet Renfroe

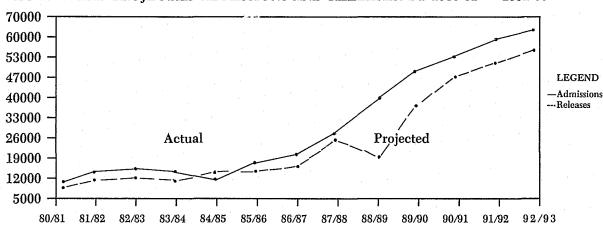

"I've always enjoyed a challenge." said Renfroe, adding that "every day is different. I never know what's in store for me when I get to class." Teaching inmates is important to Renfroe. In her opinion, "if we don't do something about educating inmates, we will continue to support them here (in prison) rather than helping them to become productive citizens who can support themselves." Renfroe says her hope for correctional education is that it will grow through public support and attention.

### **CRIMINAL JUSTICE TRENDS**

The size of the inmate population and the probation and parole caseload of the Department of Corrections is the result of varying rates of admissions and releases. Several factors affect the rates of admission including population growth in Florida, crime rates, rates of arrest and prosecution, use of alternative programs, sentencing policies of the judiciary and statutes relating to sentencing. Factors affecting releases include the extent of mandatory sentencing, the existence of parole and other post release supervision programs, sentence length, and policies concerning the award of gain time.

#### TRENDS IN PRISON ADMISSIONS AND RELEASES

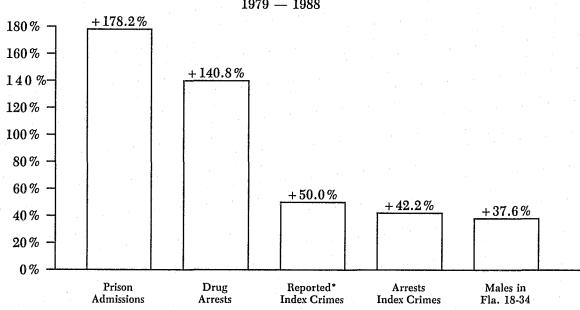

The number of new inmates admitted to prison (new court commitments and violators) has increased from 11,014 in fiscal year 1980-81 to 30,644 in 1987-88, a 178.2% increase over a eight year period. The Criminal Justice Estimating Conference has projected that admissions will increase another 101.7% in the next five years to an annual level of 60,494 in fiscal year 1992-93. Prison releases have increased from 7,591 in 1980-81 to 29,575 in 1987-88, a 289.6% rise. If special early release mechanisms are not used, the prison population is projected to increase to 91,866 inmates by the end of fiscal year 1992-93, an 173% increase from the present level of 33,681.

ACTUAL AND PROJECTED ADMISSIONS AND RELEASES: FY 1980-81 - 1992-93

#### RISE IN ADMISSIONS ASSOCIATED WITH DRUGS AND CRIME

The chart below suggests that increases in crime, especially drug arrests are closely associated with the rise in new prison commitments.

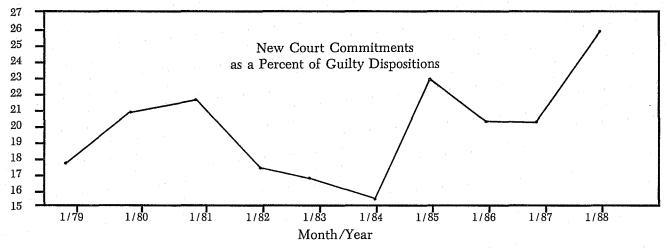

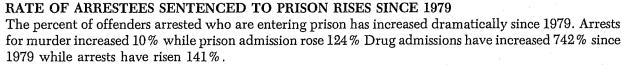

PERCENT CHANGES IN ADMISSIONS, CRIME AND POPULATION: 1979 — 1988

Index crimes include Murder, Rape, Robbery, Burglary, Aggravated Assault, Larceny, and Auto Theft. Crime Data is from calendar years 1979-1987. Admissions and population data is from fiscal years 1979-80 — 1987-88.

#### NEW COMMITMENTS AS A PERCENT OF GUILTY DISPOSITIONS UP SINCE 1979

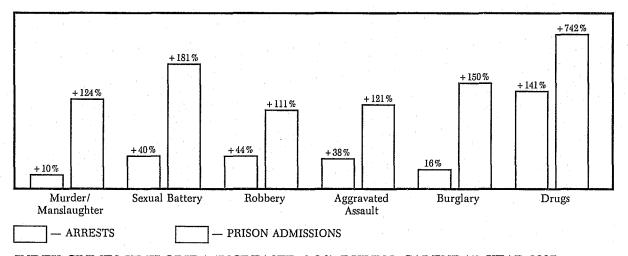

The percent of guilty dispositions that are committed to prison as new commitments hit a low of 15% in 1984 after the implementation of sentencing guidelines. Since 1984, the percent of felony convictions resulting in a prison sentence has increased to record levels as high as 29% in December, 1987. New commitments as a percentage of guilty dispositions averaged 26.2% in fiscal year 1987-88 compared with 18.8% in 1983-84.

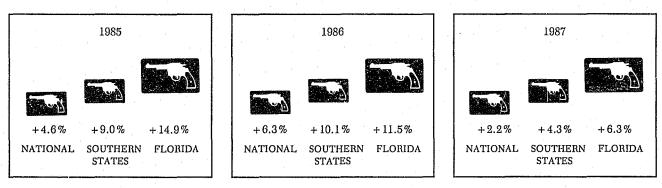

PERCENT CHANGE IN ARRESTS AND PRISON ADMISSIONS: 1979-88

PRESENT INCREASE:

INDEX CRIMES IN FLORIDA INCREASED 6.3% DURING CALENDAR YEAR 1987

The Uniform Crime Report provides a general indicator of criminal activity in the state. Crime report data historically has somewhat been related to prison admissions. This may be explained by the fact that the Uniform Crime Report counts crimes, not criminals. In addition, the index crimes reported include a significant number of misdemeanor offenses not resulting in prison admissions.

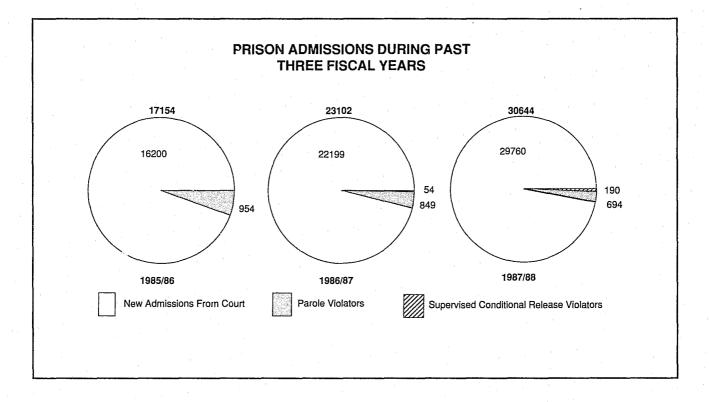

CRIME TREND DATA CALENDAR YEARS 1985-1987

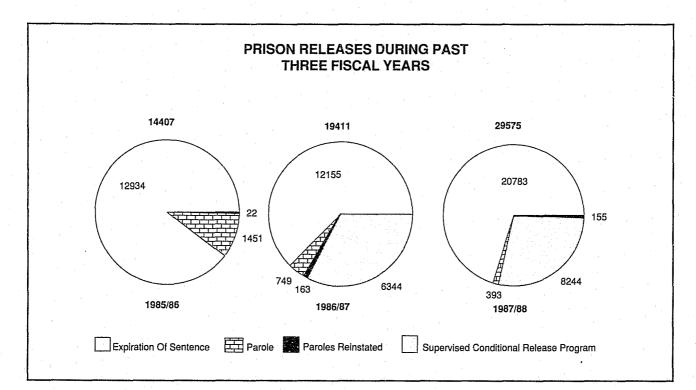

### **INMATE ADMISSIONS AND RELEASES**

#### THERE WAS A NET GAIN OF 917 INMATES AND THE TOTAL PRISON ADMISSIONS FOR THIS YEAR INCREASED BY 32.6% AS COMPARED TO FISCAL YEAR 1986-87

- New admissions from the court increased 34.1%
- Admissions of parole violators decreased 18.3%

PRISON RELEASES INCREASED BY 52.4% THIS FISCAL YEAR COMPARED TO FISCAL YEAR 1986-87

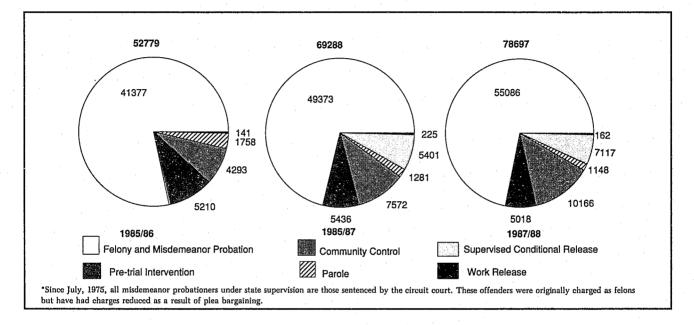

### **COMMUNITY SUPERVISION INTAKES AND LOSSES**

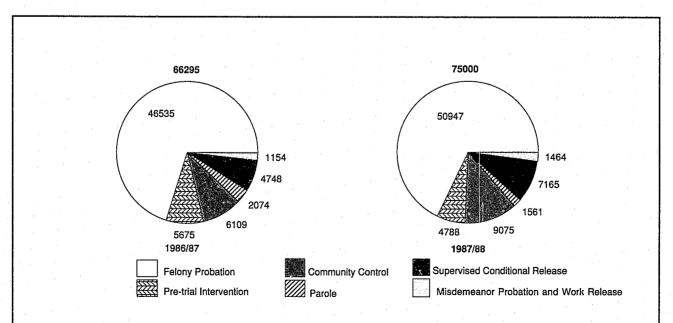

- SUPERVISION INTAKE FOR FISCAL YEAR 1987/88 WAS 13.6% MORE THAN THE PREVIOUS YEAR
- FELONY PROBATION INTAKE INCREASED 11.6%
- COMMUNITY CONTROL INCREASED 34.3%
- PAROLE INTAKE DECREASED 10.4%
- SCRP INTAKES INCREASED 31.8%

A

- WORK RELEASE INTAKES DECREASED 28.0%
- PRE-TRIAL INTERVENTION INTAKES DECREASED 7.7%

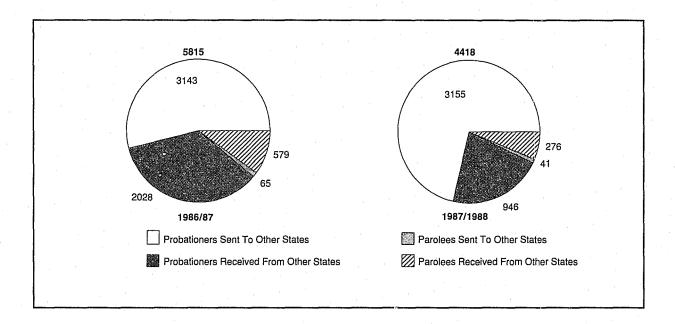

# SUPERVISION LOSSES FOR FISCAL YEAR 1987/88 INCREASED 13.1% OVER THE PREVIOUS YEAR CASELOAD LOSSES

INDIVIDUAL LOSSES ARE REFLECTED BELOW:

### **INTERSTATE COMPACT TRANSFERS**

- INTERSTATE COMPACT TRANSFERS DURING THE 1987/88 FISCAL YEAR DECREASED 24.0% FROM THE PREVIOUS YEAR
- FLORIDA SENT 41 PAROLEES TO OTHER STATES FOR SUPERVISION
- FLORIDA RECEIVED 276 PAROLEES FROM OTHER STATES TO SUPERVISE
- FLORIDA SENT 3,155 PROBATIONERS TO OTHER STATES TO SUPERVISE
- FLORIDA RECEIVED 946 PROBATIONERS FROM OTHER STATES TO SUPERVISE

# **CORRECTIONAL STATISTICS**

Our Computerized data system has permitted inclusion of information for incarcerated inmates and offenders under community supervision for two time periods:

- Offenders admitted to custody or supervision of the Department of Corrections during FY 1987-88.
- Offenders in custody or supervision of the Department as of June 30, 1988.

Data in this section of the Annual Report are organized into two major subsections - incarcerated offenders, and offenders under community supervision. These subsections follow the summary statistics for population under criminal sentence.

In each subsection information comprises supervision data, dispositional data and offender demographics. The data are organized along the following lines:

- First, data descriptive of the prison and community supervision populations are presented. Data are included on the number of offenders, their origin by county, and where housed or supervised.
- Then, dispositional data as to criminal history, primary offense, length of commitment or supervision, and class of felony are included.
- Finally, offender specific data on age, education, intelligence, length of residence, employment, and use of alcohol or narcotics are provided.

In the inmate section a special subsection dealing with the drug offenders is included to highlight the specific problems posed by this group to the Department.

It should be noted that some data are the result of self reporting and may be subject to error. Also a redistribution of the missing data will subject the tables to some rounding problems.

Data from previous reports are available upon specific request from the Bureau of Planning, Research , and Statistics, 1311 Winewood Boulevard, Tallahassee, Florida 32399-2500, Telephone: (904) 488-8430, SunCom: 278-8430.

### **DRUG OFFENDERS**

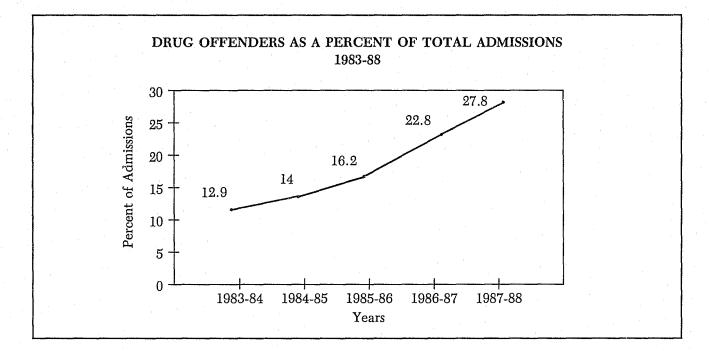

#### **RECENT TRENDS IN PRISON ADMISSIONS**

During the 1987-88 fiscal year, inmate admissions for drug offenses rose 61.3% over the previous year. With overall admissions up 33.2% for the same period of time, the growth in drug admissions is nearly double the general admissions growth. This indicates that drug offenses represent an increasingly prominent contributor to the problem of prison overcrowding.

The increase for 1987/88 continues a trend dating back several years. Between fiscal year 1983/84 and fiscal year 1987/88, inmate admissions grew 245%, while drug admissions rose 525%. The tables below indicate the yearly increases in drug admissions, both in simple number and as a percent of total inmate admissions.

If present trends continue, approximately one-third of the inmates admitted during fiscal year 1988-89 will be drug offenders.

		1983-88		
Fiscal Year	Total	Percent of P	revious Year Drug	Admissions
1983-84	1620		96.1%	
1985-84	2013		124.3%	
1985-86	2773		137.8%	
1986-87	5273		190.2%	
1987-88	8506		161.3%	

The growth in drug admissions is associated primarily with <u>cocaine</u>. While most illegal substances have shown a stable or declining pattern in inmate admissions, cocaine-related incarcerations continue their sharp rise, up 92.6% over the previous fiscal year. The month by month trend in admissions of cocaine offenders is generally upward throughout the 1987-88 fiscal year. This rise continues the pattern that began in 1986/87, when cocaine admissions rose more than five times the number recorded for 1985/86.

#### FISCAL YEAR 1987-88 ADMISSIONS\* BY MONTH FOR:

	Cocaine	Marijuana	Heroin	Hallucinogens
July 1987	496	62	14	2
August	452	48	6	2
September	538	63	8	1

April	749	42	8	2
May	795	48	3	2
June	795	39	4	1

\*Includes only drug offenders with identifiable type of substance abuse.

### PROFILE OF THE COCAINE OFFENDER ADMITTED TO STATE PRISON DURING THE 1987 - 88 FISCAL YEAR

• Is a black male (65.4%)

Average age is 29.7 years. Median age is 28.4 years.

• Is single (never married) (65.4%)

Is a Florida resident (91.1%)

• Has an average IQ of (83.9)

Admits to using illegal drugs (57.8%)

• Claims 10.6 years of education

• Has an average tested grade of 6.6

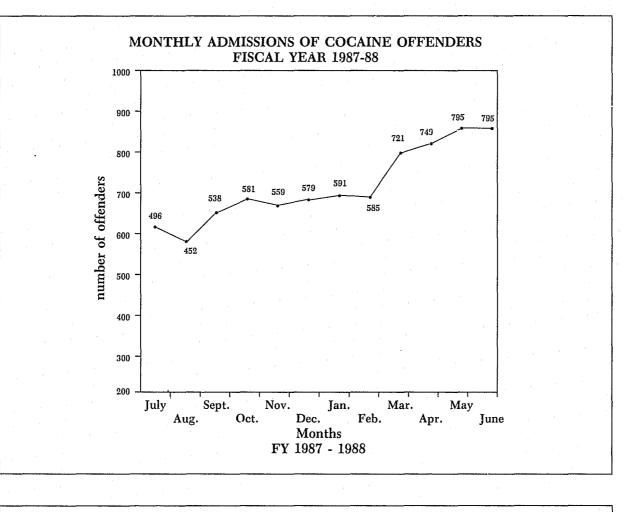

• Has no prior commitments to state prison (70.4%)

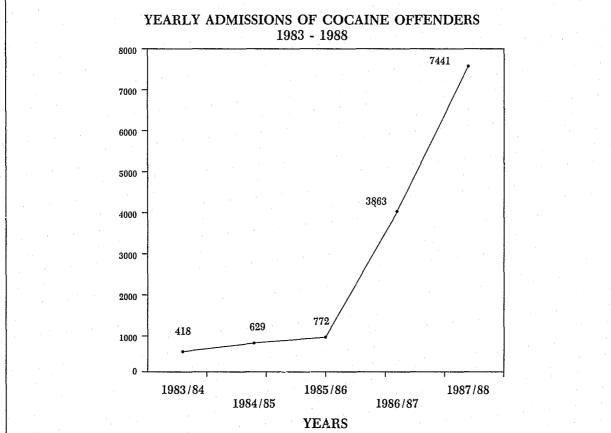

• Has a maximum prison sentence of 3 years or less (76.5%)

• Has one or more prior probations for a felony (80.4%)

• Was employed full-time at arrest (52.8%)

TOTAL ADMISSIONS = 7441

# **COMMUNITY SUPERVISION STATISTICS**

The following pages contain statistics concerning probationers and parolees under the supervision of the Department of Corrections. The probation and parole caseload continues to increase. The Department continues its emphasis upon diversionary programs and these programs, hopefully, will reduce the number of institutional beds necessary in the future. Consequently, an even greater probation and parole caseload is anticipated in the years to come.

In the following tables, misdemeanor probation reflects cases originally filed in circuit court as felonies that were reduced to misdemeanors and subsequently placed on probation.

#### POPULATION UNDER COMMUNITY SUPERVISION ADMISSIONS AND RELEASES FY 1987/88
