Fax2Mail - Inbound & Outbound	Fax2Mail, offered as Standard version and available in a HIPAA/PCI compliant version,\ is a digital fax service with password encryption that supports high-volume and long-form faxing. Users can easily exchange faxes within email applications. All charges are per line. This package includes inbound and outbound faxing, with a monthly allowance of 75 pages.	EA - MRC	\$ 7.99	1.50%	\$	7.87
Fax2Mail - Outbound Only	Fax2Mail, offered as Standard version and available in a HIPAA/PCI compliant version, is a digital fax service with password encryption that supports high-volume and long- form faxing. Users can easily exchange faxes within email applications. All charges are per line. This package includes outbound faxing only, with a monthly allowance of 75 pages.	EA - MRC	\$ 4.99	1.50%	\$	4.92
Fax2Mail - Set-Up Fee	One-time set-up fee per user	EA- NRC Purchase Price	\$ 4.00	1.50%	\$	3.94
Fax2Mail - Overage Allowance (Per Page)	Per-page overage rate for Granite's Fax2Mail service.	EA - Usage	\$ 0.08	1.50%	\$	0.08
Audio Conferencing	Standalone audio-conferencing solution for up to 300 attendees with toll and toll-free number provided. Includes call my phone, Global HD audio across 160 point of presence and 60+ countries, and Host portal.	Per Minute	\$ 0.049	1.50%	\$	0.048
Domestic toll-free dial-in Transport	A telephone number that is billed for arriving calls instead of charging the originating telephone subscriber.	Per Minute	\$ 0.049	1.50%	\$	0.048
Canada toll free dial-in Transport	A telephone number that is billed for arriving calls instead of charging the originating telephone subscriber.	Per Minute	\$ 0.049	1.50%	\$	0.048
Hosted PBX	A hosted private branch exchange is a telephone exchange system built, delivered and managed by a third-party service provider. Hosted PBX is an IP-based telephony solution provisioned and accessed entirely through the Internet. Hosted PBX is offered in three different seat options - base, business and executive and are differentiated by the amount of features.	EA	\$ 15.25	1.50%	\$	15.02
Base Seat	The base level is the introductory seat of the Hosted PBX. The standard base seat features are: Call Forwarding, Call Waiting, Call Transfer, Call Pickup Groups, Speed Dials, Short Codes, Intercom Dialing, 3-Way Calling, Call Park, Paging via an IP Phone, Line State Monitoring, Directed Call Pick up, CommPortal access, Call Screening Features, SimRing and Music on Hold.	EA	\$ 13.22	1.50%	Ş	13.02
Business Seat	The business seat is the next level of the Hosted PBX. The Business features include all features included in the base seat as well as the following: Voicemail, Incoming Call Manager, Find Me Follow Me, Voicemail with Fax, Accession Communicator and Music on Hold.	EA	\$ 16.26	1.50%	\$	16.02
Executive Seat	The executive seat is the highest level of seats for Hosted PBX. The Executive Seat features all base seat features as well as the following: Incoming Call Manager, Find Me Follow Me, Accession Communicator and Music on Hold.	EA	\$ 25.42	1.50%	\$	25.04
Soft Seat	The Soft Seat is an option for those who would like to use the Hosted PBX platform but do not want the hardware associated typically with HPBX. Soft Seat features include: Call Forwarding, Call Waiting, Call Transfer, Call Pick up Groups, Speed Dials, Short Codes, Intercom Dialing, 3 - Way Calling, access to the CommPortal, Call Screening features, SimRing, and Voicemail with Fax.	EA	\$ 14.22	1.50%	\$	14.01
Executive Meeting Seat	This option includes Executive seat features as well as audio/video conferencing.	EA	\$ 50.85	1.50%	\$	50.09
Soft Meeting Seat	This option includes the Soft seat feature as well as audio/video conferencing.	EA	\$ 40.68	1.50%	\$	40.07
Call Path	A logical connection over IP that allows a SIP based VOIP call (inbound or outbound) to be established with Granite's MetaSwitch. Can be ordered individually starting at one. For each active call, a call path is deducted from the configured amount of call paths allowed until that call is disconnected	EA	\$ 5.09	1.50%	\$	5.01
Hot Desking	Allows logging in and out of a desktop phone for agent-based features and extension mobility within a facility.	EA	\$ 5.08	1.50%	\$	5.00
Voicemail Transcription	Enables voicemail messages to be transcribed and sent as an email and/ or viewable in Commportal.	EA	\$ 5.09	1.50%	\$	5.01
Voicemail (Stand Alone)	A voicemail box that is not tied to a user's extension. Typically assigned to a main number as a general mailbox for inbound calls.	EA	\$ 17.28	1.50%	\$	17.02
Easy Auto Attendant (Stand Alone)	A single level call tree that allows advanced routing features and initial call servicing to inbound callers by pressing 0-9 on their phone. Also allows agencies to define separate menus to be played during and outside of normal business hours.	EA	\$ 15.77	1.50%	\$	15.53
Premium Auto Attendant (Stand Alone)	A multi-level call tree that allows advanced routing features and initial call servicing to inbound callers by pressing 0-9 on their phone with multiple submenus for each option. Also allows more control over scheduling by providing more advanced time options over during and outside of business hours with a configurable option to transfer directly to voicemail.	EA	\$ 27.98	1.50%	\$	27.56
Easy Auto Attendant	A single level call tree that allows advanced routing features and initial call servicing to inbound callers by pressing 0- 9 on their phone. Also allows agencies to define separate menus to be played during and outside of normal business hours.	EA	\$ 8.14	1.50%	\$	8.02
Premium Auto Attendant	A multi-level call tree that allows advanced routing features and initial call servicing to inbound callers by pressing 0-9 on their phone with multiple submenus for each option. Also allows more control over scheduling by providing more advanced time options over during and outside of business hours with a configurable option to transfer directly to voicemail.	EA	\$ 20.35	1.50%	\$	20.04
Pilot TN for MLHG	A main DID that routes calls to a predetermined list of extensions configured in a multi-line hunt group.	EA	\$ 7.63	1.50%	\$	7.52
Directory Assistance (per call) Basic Call Recording (per seat)	Operator assisted service used to find a telephone number. The ability to record inbound calls on an individual extension to off-site cloud storage.	EA EA	\$ 6.09 \$ 15.26	1.50% 1.50%	\$ \$	6.00 15.03
Compliance Call Recording (per seat)	Storage priced separately. The ability to record inbound calls on an individual extension to off-site cloud storage that adheres to compliance standards, such as HIPPA. Storage priced separately.	EA	\$ 35.60	1.50%	\$	35.07
Monitored Call Recording (per seat)	The ability to record inbound calls on an individual extension to off-site cloud storage with additional features such as speech analytics, screen recording, live monitoring, and agent evaluation. Storage oriced separately.	EA	\$ 55.95	1.50%	\$	55.11

Phone Set up Installation	Installation of Hosted PBX from Granite by a trained professional technician for	EA	\$ 25.43	1.50%	\$	25.05
Hosted PBX Installation	additional phones. Installation of Hosted PBX from Granite by a trained professional technician. Install and test one Granite provided router, switch or Integrated Access Device (IAD) with the installation of 4 digital IP Phones. The technician will arrive at the designated site, make contact and confirm arrival with the LCON. The technician will then locate the designated work area and the Customer Premise Equipment (CPE) and any additional peripherals Is required for completion of the installation. The technician will also conduct a visual inspection of the CPE and peripherals to ensure compatibility and serviceability of all required items. The technician will then install and test one Granite provided and preconfigured router and/or switch in the designated location or demarcation point (D-marc) or Minimum Point of Entry (MPOE). If the D-marc needs to be extended or any additional work is required, the work will be billed at the established Time & Materials rates. Standard rate includes only an hour of labor. After the first hour, an additional fee of \$125 per hour in 30-minute increments will be charged. Ranges from standard handset installation at user desks to router and POE switch installation and cabling, if needed. Cabling and router/switch install are ICB.	HR	\$ 303.16	1.50%	\$	298.61
SIP Call Paths	SIP Call Paths are the logical connectivity for an individual call, either inbound or outbound, to be established with an end user of a Session Initiated Protocol Voice over Internet Protocol service provider and the calling/called party across the Public Switched Telephone Network. These can be requested in quantities of one with no predetermined maximum limit. When ordered to a single customer and configured on the customer's IP PBX, it is known as a SIP Trunk with the quantity SIP Call Paths, also known as Concurrent Call Paths, configured for that individual customer.	EA	\$ 10.13	1.50%	\$	9.98
	**Includes local calling.					
Line Initiation Charge	Line Initiation Charge is a one-time fee charged for establishing a SIP Trunk between a customer and Granite.	EA	\$ 25.43	1.50%	\$	25.05
DID	Direct Inward Dial numbers are telephone numbers that can be assigned to end users on a Private Branch Exchange of a customer that subscribes to a trunking service to access the PSTN. These numbers are globally unique and allow inbound calling to be delivered to users of a PBX individually or as a primary pilot number within the PBX to reach a hunt group or an auto attendant. DID numbers can be ordered individually but are usually ordered in blocks of 20 or 100.	EA	\$ 0.30	1.50%	Ş	0.30
Additional E911 Registration	An additional E911 registration for customers needing additional dispatchable locations assigned to individual DIDs on their Granite Business SIP Trunk or Hosted PBX service to be registered for e911. This can include additional location information such as floor, room, campus building, area of building/floor (cafeteria, gym, northeast corner), etc. Line(s) to be registered and address(es) that the line(s) should be registered to should be included when requesting additional registrations.	EA	\$ 1.50	1.50%	\$	1.48
SIP CommPortal	Granite's SIP Portal is an online tool that can be accessed from a web browser by a SIP Trunking customer, usually a telephony system administrator, for DID configuration and routing and call analytics on the SIP Trunking service.	EA	\$ 4.07	1.50%	\$	4.01
SIP Bursting	A Burstable Call Path is the same as a regular call path in the sense that it provides a Granite SIP Trunking customer access to the PSTN over a SIP based VoIP connection. The difference is Bursting allows a customer to temporarily use more than the predetermined base number of concurrent call paths (CCP), at a rate up to 50% more. For example, if a customer subscribes to 10 CCPs, the 11th call, inbound or outbound, will receive a busy tone. When a customer subscribes to bursting they are billed for the base quantity of 10 unless they have an event of higher than normal call volume. That 11th call, and up to 50% more than the base for a total of 15 CCPs, will be connected without the need for Granite's intervention. The amount of call paths that burst above the base number will be billed for the month in which they are used (in the example above a total of 11 will be billed) and return to the normally billed amount the following month.	EA	\$ 10.17	1.50%	\$	10.02
Truck Roll Setup Fee	A Truck Roll Fee is a one-time fee charged to install any necessary hardware needed to terminate the Granite provided SIP Trunking service. This fee is optional and only needed when a customer requests a dedicated access circuit for the bandwidth needed for SIP trunking service.	EA	\$ 20.35	1.50%	\$	20.04

Service Name	Description	Service Charge	List Price	Percent Public Discount	Propo Publi	osed c Price
Direct Trunk Overflow	Direct Trunk Overflow is a feature of Granite'S SIP trunking service that allows multiple customer PBX's the ability to act as primary and backup, load balanced pairs or separate individual objects with DID failower capabilities.DTO will allow the total number of call paths across all PBXs that have a configured SIP Trunk to be available to a single customer PBX if one should fail or lose access to the PSTN. Also, if one PBX fails or loses access to the PSTN, DID failower to the customer's other PBX is automatic without any intervention from Granite or the customer.	EA	\$ 34.94	1.50%	\$	34.42
Microsoft Teams Direct Routing	Employing Granite's Business SIP trunking, Direct Routing (DR) allows interconnection of the PSTN with your Microsoft cloud-based phone system, facilitating calls between Teams users and mobile or fixed line telephone subscribers anywhere in the world. Teams DR is recommended for customers with over 25 end users and the ability to maintain the Phone System add-on feature.	EA	\$ 11.99	1.50%	\$	11.81
Intralata Long Distance (per minute)	Long Distance is offered in two separate manners for SIP services. If a user plans to use only local calling, they may pay for Long Distance on a per minute rate. If the user plans on using their SIP service for both local and long-distance calling, they may opt to purchase an LD package that allots a certain number of minutes per month.	EA	\$ 0.02	1.50%	\$	0.02
Interstate Long Distance (per minute)	Long Distance is offered in two separate manners for SIP services. If a user plans to use only local calling, they may pay for Long Distance on a per minute rate. Nationwide Services Notes:

1. Prices are subject to pre-qualification of sites to determine service availability.

2. Internet Service will be delivered via Digital Subscriber Line (DSL). Cable Broadband, or ETTX.

3. The following minimum requirements for quantity and coverage area apply to be eligible to order the Nationwide Service.

A. Minimum order quantity: 200 Circuits

B. Minimum coverage area: 11 States

4. Minimum contract term is 1 year.

Maximum allowable service relocations within 12 months shall be limited to 10% of total inventory.

6. Symmetrical Broadband is not available for all Carriers. Speed availabilities are not guaranteed, even when in the Broadband footprint. A prequalification must be run for every location to determine availability.

Additional Notes:

1. Speeds are listed by download speed / upload speed

Prices are subject to change if construction is necessary to deliver the requested service.

Granite will waive its Carrier Surcharge Recovery Fee for all to all Hi-CAP circuits/services delivered by Covad, Verizon, AT&T or CenturyLink.
 Prices exclude modem and router costs, which vary based on customer specifications and models.

5. Prices exclude applicable taxes, fees and surcharges in accordance with applicable law, tariff or regulatory provisions. Terms and Conditions:

Prices are subject to pre-qualification of sites to determine service availability. If applicable, T-1 Mileage shall be the total miles between the service location and the serving central office. CableVision FootPrint - Colorado, Connecticut, Montana, New Jersey, New York, Utah, Wisconsin

Charter FootPrint - Alabama, California, Connecticut, Georgia, Illinois, Louisiana, Michigan, Minnesota, Missouri, Nebraska, Nevada, New Hampshire, North Carolina, Oregon, South Carolina, Tennessee, Texas, Vermont, Virginia,

Washington, Wisconsin.

SD-WAN Velocloud - Small Branch	An SD- WAN solution with a max bandwidth of 30 Mbps per location. Included: Cloud- Delivered; Velocloud Dynamic Multi-Path Optimization (DMPO); cloud VPN; Velocloud Multisource Inbound Quality of Service; stateful firewall; multiple WAN connections with load sharing; application optimization. Software- defined WAN (SD- WAN) is a suite of features designed to allow the network to dynamically adjust to changing WAN conditions without the need for manual intervention by the network administrator. By providing granular control over how certain traffic types respond to changes in WAN availability and performance, SD- WAN can ensure optimal performance for critical applications and help to avoid disruptions of highly performance- sensitive traffic, such as VoIP. SD- WAN is divided into bandwidth tiers with max speed mbps per location and facilitates multiple WAN paths to achieve the desired features of the end user.	EA	\$ 116.99	1.50%	\$ 115.23
SD-WAN Velocloud - Medium Branch	An SD- WAN solution with a max bandwidth of 50 Mbps per location. Included: Cloud- Delivered; Velocloud Dynamic Multi-Path Optimization (DMPO); cloud VPN; Velocloud Multisource Inbound Quality of Service; stateful firewall; multiple WAN connections with load sharing; application optimization. Software- defined WAN (SD- WAN) is a suite of features designed to allow the network to dynamically adjust to changing WAN conditions without the need for manual intervention by the network administrator. By providing granular control over how certain traffic types respond to changes in WAN availability and performance, SD- WAN can ensure optimal performance for critical applications and help to avoid disruptions of highly performance- sensitive traffic, such as VoIP. Mobility Overage Protection	NOverage allows customers to have Granite automatically upgrade their plans to avoid overage	EA - MRC	\$ 1.98	1.50%	\$	1.95
Plan (NOverage)	charges, subject to the following conditions:					
	1. Granite Telecommunications, LLC ("Granite") will monitor data usage for the purpose of					
	implementing plan revisions to accommodate increased usage and optimize Customer's cost.					
	Customer agrees to pay a monthly recurring charge of \$1.95 per Mobility Service plan, per					
	month for enrollment in the Overage Protection Plan.					
	2. Customer's Mobility Services plans will be revised, by Granite, to increase data allowance					
	and avoid overages. Enrollment within the Overage Protection Plan requires inclusion of all of					
	Customer's Mobility Services.					
	3. Customer will not incur a Service Order Charge for plan revisions made in accordance with					
	the Overage Protection Plan.					
	4. Customer fully accepts payment obligations associated with all Mobility Services and plan					
	revisions in accordance with the Overage Protection Plan.					

Wireless Services Terms and Conditions

1. Granite's price includes a dedicated Premier support team, advanced online portals for management and reporting, as well as optional TEM services.

2. Granite's Cross Carrier Pooled plans offer the choice of Verizon, AT&T, or T-Mobile to provide coverage flexibility while retaining the simplicity of a single management interface and bill.

3. For services outside of Granite's service area, Granite may re-bill and manage the line at cost, with an added monthly fee of \$17.95 per paper invoice.

- 4. Minimum service term commitments may apply
- 5. Prices do not include overage charges, SIM card or any equipment, which will be separately assessed. Additional devices not itemized in Granite's price list are available at MSRP.

6. Phase 1 conversion may take up to 3 months to complete

7. Applicable taxes, fees, shipping and delivery are not included.

8. International Day Pass will be activated for \$10 per day when traveling internationally

9. No Granite Wireless VzW Domestic Roaming or International Services.

Wireless Broadband Terms and Conditions

1. AT&T may slow speeds, after 75GB of 12Mbps data usage, 125GB of 50Mbps data usage and or 175GB of 100Mbps data usage. After 300GB usage overage of \$3.50/GB.

2. Verizon 100x100Mbps requires 5G connectivity, if there is no 5G in the area then Verizon reserves the right to bump the plan to the 10x10Mbps 25x25Mbps plan.

3. Verizon plans deprioritize at 25GB for 10x10Mbps plan, 50GB for 25x25Mbps Plan. After 300GB usage overage of \$3.50/GB.

	A Granite Tech Dispatch subscription through Granite Guardian that gives automated approval for a Granite tech to dispatch in the event of a service issue. Tech dispatches are to provide onsite troubleshooting services to configure devices such as routers, switches, firewalls, wireless controllers, access points, and other network hardware and troubleshoot network failures of Granite provided services.	Monthly	\$ 65.00	1.50%	\$ 64.03
Granite Guardian - Ticket Integration	Integration with customer management software, such as SolarWinds, to provide system to system updates for all monitored and managed options under the Guardian product suite. One time charge includes working with customer to write the proper API for integration with customer's system.	One Time Charge	\$ 3,500.00	1.50%	\$ 3,447.50

POTS Replacement Service

A Plain Old Telephone Service replacement. Granite can provide a comprehensive package to replace out-of-date landlines with an LTE device to make and receive telephone calls using standard analog telephones. Utilizing Verizon's extensive 4G LTE network, the EPIK device delivers an analog signal to break free from aging networks and rising costs. Save money and upgrade technology with an all- inclusive package and an EPIK device.

Complete Solution:

- Life safety Enables alarms and elevator phones to fully communicate, even if power or Internet goes down.
 Disaster avoidance Reliable, self-contained connections for a cost-effective "always up" alternative to copper
 Faxing Reliably, send and receive faxes without the challenges. Complies with HIPPA regulations.
 Business Continuity Enjoy robust 4G Internet failover as back-up for primary Internet connection. EPIK is 5G ready

*Minimum order of 3 lines required
