◆ This product is allowed with restrictions. See the Categories section for use restrictions.

■ This liquid fertilizer has been inspected and approved for use in NOP organic production by OMRI.

1 The arsenic level of this product exceeds 10ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

2 The arsenic level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

4 The lead level of this product exceeds 90ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

5 The lead level of this product exceeds 180ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

6 The cadmium level of this product exceeds 20ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

7 The cadmium level of this product exceeds 40ppm. Application to certified organic farms must not contribute to contamination of crops, soil, or water.

8 This product contains more than 1,000 MPN/g fecal coliform. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

9 This product contains more than 3 MPN/4g Salmonella. Application of this product on certified organic farms poses a significant risk of contributing to contamination of crops, soil, or water. Pathogen mitigation measures, such as a 120/90 day pre-harvest application period or composting as described at §205.203 of the National Organic Program Regulations, must be part of an organic system plan to reduce the contamination risk of this product.

10 This ingredient or processing aid is not certified organic. The operation supplying this input material may be exempt from certification under §205.101. Agricultural ingredients in this product shall not be labeled as organic when used in further processed products unless the ingredient or processing aid is certified by a USDA accredited certifier.

Livestock Products: Diatomaceous Earth

DE Diatomaceous Earth Food Grade (abv-12383) ◆

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Crop Products: Adjuvants, for use in pesticides

XPANDEX Surfactante Organosiliconado Líquido Miscible (adh-13659) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

PALENE DF® COADYUVANTE ORGÁNICO LÍQUIDO MISCIBLE (adh-14900) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Aquatic Plant Products, synthetically extracted

ALGACROP FERTILIZANTE ORGÁNICO GRANULADO (adh-0570)

ALGACROP L10 FERTILIZANTE ORGÁNICO LÍQUIDO (adh-10715)

Crop Products: Botanical Pesticides

CANELCROP Insecticida-Fungicida-Nematicida Agrícola Concentrado Emulsionable (adh-11574) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ULTRAGARLIC Insecticida Agrícola Concentrado Soluble (adh-11575) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CELAPYR CE Aceite de canela + Piretrinas Insecticida Agrícola Concentrado Emulsionable (adh-13129) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

REGAUCID PRO Quitina + Aminoácidos + Extracto de regaliz + Corteza de sauce blanco FUNGICIDA AGRÍCOLA CONCENTRADO SOLUBLE (adh-14458) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CANELMAX Aceite extracto de canela Insecticida - Fungicida - Nematicida Agrícola Concentrado Emulsionable (adh-15870) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GARLIMAX Extracto de ajo Allium spp. 25 % Insecticida Agrícola Concentrado Soluble (adh-15872) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PYRELA CE Aceite de canela + Piretrinas Insecticida Agrícola Concentrado Emulsionable (adh-15874) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

PROTECTOR Sulfato de cobre pentahidratado Fungicida Agrícola Solución Acuosa (adh-8759) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended

AMINOANIC K30 Fertilizante Orgánico Líquido (adh-14461)

AMINOANIC Ca Fertilizante Orgánico Líquido (adh-14463)

RADIKO AA FERTILIZANTE ORGÁNICO LÍQUIDO (adh-14677)

Crop Products: Fertilizers, Blended with micronutrients

AMINOANIC Zn Fertilizante Orgánico Líquido (adh-14459) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

AMINOANIC Ca-B-Mo Fertilizante Orgánico Líquido (adh-14462) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate

AMINOANIC Mg Fertilizante Orgánico Líquido (adh-14460) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Humic Acids – alkali extracted

ULTRAHUMI FERTILIZANTE ORGÁNICO LÍQUIDO (adh-1622)

Crop Products: Microbial Inoculants

NITROFIX COMPLEX® INOCULANTE BIOLÓGICO LÍQUIDO (adh-13134)

PSEUDOMIX SOL-P® INOCULANTE BIOLÓGICO LÍQUIDO (adh-13135)

Crop Products: Microbial Products

BIOBACIL Bacillus subtilis Fungicida Agrícola Concentrado Soluble (adh-8475) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIO BT Bacillus thuringiensis Insecticida Agrícola Concentrado Soluble (adh-8476) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOVERIA Beauveria bassiana Insecticida Agrícola Polvo Humectable (adh-10367) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NEMAFIN Paecilomyces lilacinus Nematicida Agrícola Polvo Humectable (adh-10368) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RIZIUMAX Metarhizium anisopliae Insecticida Agrícola Polvo Humectable (adh-10369) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

TRIDER Trichoderma harzianum Fungicida Agrícola Polvo Humectable (adh-10370) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

STREMICID SC® Streptomyces spp.
FUNGICIDA AGRÍCOLA CONCENTRADO SOLUBLE (adh-13136) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RADIKO GLOM® INOCULANTE BIOLÓGICO POLVO (adh-14676)

Crop Products: Molasses

SUGARCROP FERTILIZANTE ORGÁNICO LÍQUIDO (adh-1714)

Crop Products: Neem and Neem Derivatives

AGRONEEM Aceite extracto de neem (azadiractina) Insecticida Agrícola Concentrado Soluble (adh-8758) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FOLINEEM Aceite extracto de neem (Azadiractina) Insecticida Agrícola Concentrado Soluble (adh-15871) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Plant Extracts

ULTRAFULVI FERTILIZANTE ORGÁNICO LÍQUIDO (adh-2561)

Crop Products: Pyrethrum

PYRDIGO Piretrinas Insecticida Agrícola Concentrado Soluble (adh-15667) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

ULTRASOAP Ácidos grasos + Sales potásicas INSECTICIDA AGRÍCOLA SUSPENSIÓN ACUOSA (adh-10716) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

MAXISOAP Ácidos grasos + Sales potásicas Insecticida Agrícola Suspensión Acuosa (adh-15873) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Adjuvants, for use in pesticides

Blue Drop (aeu-11817) ◆

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Amino Acids

Blue Nitro 14-0-0 (aeu-8027)

Crop Products: Calcium Carbonate

Blue Cal 66 (aeu-10717)

Crop Products: Calcium Sulfate

BLUE CAL SULFUR Prime Soil Improvers (aeu-14588)

Crop Products: Coppers, fixed

Blue Copper (aeu-11818) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Fertilizers and Soil Amendments, Blended

Blue Root Plus (aeu-11813)

Blue Stimulant (aeu-11814)

Blue Silicate (aeu-11815)

Blue Soil (aeu-11816)

Blue Kelp (aeu-11910)

Crop Products: Herbicides

Blue Weed NATURAL HERBICIDE (aeu-13847) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Inoculants

Blue Myco (aeu-11888)

Crop Products: Soap

Blue Aphid (aeu-11870) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as a herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Joel Inzunza
Callejón Esmeralda #406 Int. 10. Colonia Acapulco
Ensenada, Baja California 22890
Mexico
info@agronuve.com.mx

Crop Products: Botanical Pesticides

Agronuve innovando valor CHALEP DEFENSE insecticida (anv-8411) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Cu-Protect agronuve Fungicida/Bactericida (anv-7635) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients

Agronuve innovando valor BIOAMIN PLUS Elicitor Vegetal (anv-11689) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fungicides

Agronuve innovando valor BOTRIMIL Fungicida (anv-8309) ◆
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides

Agronuve innovando valor NOT FUNGUS Fungicida/Nematicida (anv-8258) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Biosphere Soil Inoculante De Suelo (anv-15288)

Crop Products: Potassium Silicate, aqueous

Agronuve Sili-K Insecticida/Fungicida (anv-6803) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Agronuve Innovando Valor Pyrestop Insecticida (anv-11310) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

ECO-1 Garden Spray Concentrate (abj-10436) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ECO-1 Ready To Use Garden Spray (abj-10437) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Eco-1 Fruit & Vegetable Spray Concentrate (abj-11962) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Eco-1 Fruit & Vegetable Spray Ready To Use (abj-11963) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ECO-1 40 Broad-Spectrum Insecticide, Miticide, and Fungicide (abj-13099) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

AzaSol Non-Oil Based, Water Soluble Powder (abj-5907) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

AzaSol WSP Non-Oil Based, Water Soluble Powder (abj-11949) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

ARCADIAN EZPOROFF Fungicida & Bactericida Sistémico (arh-14111) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

ARCADIAN BIODUX RBD Supresor de Plagas Orgánico (arh-14110) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Chlorine Materials

Accu-Tab® SI Calcium Hypochlorite Tablets with Scale Inhibitor Potable/Industrial Water Chlorination (ppg-2373) ◆

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Induclor Calcium Hypochlorite Granules for Industrial Applications and Swimming Pool Use Water Treating Agent - Algacide - Bactericide - Bleach (ppg-5284) ◆

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Chlorine Materials

Indutabs Induclor Calcium Hypochlorite Tablets (ppg-13740) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Accu-Tab Calcium Hypochlorite Tablets (ppg-13806) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Induclor Calcium Hypochlorite Granules for Industrial Applications and Swimming Pool Use Water Treating Agent - Algacide - Bactericide - Bleach (ppg-5285) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Boron Products

Phyto-Plus® Brand Boron 3.0% (bai-9570) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Calcium Chloride

Phyto-Plus® Brand Calcium 5.0% (bai-9993) ◆

For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Fertilizers, Blended with micronutrients, Sodium Nitrate (Chilean Nitrate)

Phyto-Plus® Brand Micro-Plenty 2-0-1 (bai-9573) ◆

This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Iron Products

Phyto-Plus® Brand Iron 5.0% (bai-9569) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Lignin Sulfonates

Phyto-Plus® Brand Plant Stimulator (Buffer) (bai-9575) ◆
For use as a chelating agent or dust suppressant.

Crop Products: Magnesium Sulfate – Allowed With Restrictions

Phyto-Plus® Brand Magnesium 2.5% (bai-9571) ◆
May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Manganese Products

Phyto-Plus® Brand Manganese 5.0% (bai-9567) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients

Phyto-Plus® Brand Zinc 5.0% (bai-8025) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Biopesticides

Bayer Minuet (gus-11626) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer CropScience MeloCon Prime DC Biological Nematicide (gus-12802) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides

Bayer Contans WG Biological Fungicide (gus-6391) ◆
For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Microbial Pesticides

Bayer Serenade Optimum A Wettable Powder Biofungicide (gus-3975) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade MAX (gus-4424) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Ready to Use (gus-4427) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Jazz A Wettable Powder Biofungicide (gus-5131) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade Opti A Wettable Powder Biofungicide (gus-5425) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Bayer Serenade ASO (gus-4423) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Serenade Soil (gus-4425) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Concentrate (gus-4426) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Serenade Garden Disease Control Ready to Spray (gus-4428) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer Rhapsody (gus-5132) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides

Biologa® Basub® (bla-10731) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Biologa® ProtectoX® Fungicida-Bactericida Extracto de Gobernadora (Larrea tridentata) Fungicida-Bactericida/Suspensión Concentrada (SC) (bla-10580) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Biologa® Solak® Extracto de Canela Insecticida/Concentrado Emulsionable (CE) (bla-10582) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Products

BTX 44SC (bla-13638) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate

Biologa® Secadert® Sulfato de Cobre Pentahidratado Fungicida-Bactericida/Concentrado en Suspensión (SC) (bla-10581) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate, Elemental Sulfur

Biologa® Secadert®-S (bla-16066) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Biologa® BTX PLUS® Fungicida-Bactericida/Suspensión Acuosa (SA) (bla-11584) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Biologa BTX (bla-15030) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Fertilizers and Soil Amendments, Blended

Alzim® (bla-13549)

Crop Products: Microbial Products

Biologa® Bauba® (bla-10881) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Trichoderma spp.

Biologa® Trichor® (bla-10733) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Biologa Mylos (bla-14440) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide

Oxine Sanitizer/Disinfectant/Deodorizer (box-10699) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Dioxide

Oxine® Sanitizer Disinfectant Bacteriostat/Deodorizer Fungicidal-Bactericidal-Virucidal (box-2885) ◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

ProOxine AH Sanitizer Disinfectant Fungicidal-Bactericidal-Virucidal (box-3657) ◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

Livestock Products: Sodium Chlorite, Acidified

Smartdip™ 800 (box-12772) ◆
For use as a livestock teat dip.

Processing Products: Acidified Sodium Chlorite

Keeper Professional Post Harvest (box-3346) ◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

XG-940 (box-3347) ◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Post Harvest (box-3436) ◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Professional Red Meat (box-8762) ◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Keeper Red Meat (box-8763) ◆
For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Chlorine Dioxide

OXINE® Sanitizer Bacteriostat/Deodorizer - Active Oxine- Disinfectant Fungicidal-Bactericidal (box-0075) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

ProOxine Sanitizer -Active ProOxine-Disinfectant Fungicidal-Bactericidal (box-0973)

◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Purogene Chlorine Dioxide Sanitizer and Deodorizer (box-6601) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Purogene Professional Potato Storage Antimicrobial Sanitizer Disinfectant Bactericidal Fungicidal (box-13142) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

BT NOW (bss-13201) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hydrogen Peroxide

OxiDate 2.0 (bss-3213) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

TerraClean 5.0 (bss-4640) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

GreenClean Liquid 5.0 (bss-12406) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

OxiDate 5.0 (bss-12910) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

SaniDate 5.0 (bss-12912) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

SaniDate WTO (bss-12913) ◆

For use as disinfectant or sanitizer, including irrigation system cleaner.

SaniDate WTO (bss-5819) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

ZeroTol 2.0 (bss-5846) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Hydrogen Peroxide Starting Materials

PerCarb (bss-8484) ◆

Must be mixed with water prior to use. For plant disease control. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Inoculants

TerraGrow (bss-5931) ◆

TerraGrow (2-0-6) (bss-15889)

Crop Products: Neem and Neem Derivatives

AzaGuard (bss-1943) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peroxyacetic/Peracetic Acid

ZeroTol HC (bss-11883) ◆

For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

SaniDate 12.0 (bss-13782) ◆

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Crop Products: Soap

BioSafe Weed & Grass Killer Broad Spectrum Non-Selective Herbicide Concentrate (bss-12911) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Soap, Ammonium

AXXE® Broad Spectrum Herbicide (bss-2930) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. When used as animal repellent, may only be used as a large animal repellent and substance must not contact soil or edible portion of crop.

Crop Products: Sodium Carbonate Peroxyhydrate

GreenCleanPRO Broad Spectrum Algicide/Fungicide/Bactericide (bss-2281) ◆

Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioSafe Systems GreenClean Granular Algicide (bss-13190) ◆

Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Livestock Products: Neem

AzaGuard (bss-11996)

Livestock Products: Peracetic Acid/Peroxyacetic Acid

Crop Products: Magnesium Sulfate – Allowed With Restrictions

Brandt Magnesium Sulfate - Crystal Nutrient Supplement (cle-3768) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Brandt Magnesium Sulfate - Granular Nutrient Supplement (cle-4356) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Brandt Organics 4% Mg Liquid Complexed Micronutrients (cle-4479) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Brandt 4% Mg Fertilizante Inorgánico Líquido Soluble (cle-16079) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Magnesium Sulfate – Allowed With Restrictions, Micronutrients

Brandt Organics Crop Mix Liquid Complexed Micronutrients (cle-4473) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics Hort Mix Liquid Complexed Micronutrient (cle-11332) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Manganese Products

Brandt Manganese Sulfate - Powder Micronutrient Supplement (cle-3765) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Manganese Sulfate - Granular Micronutrient Supplement (cle-3766) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients

Brandt Organics 7% Mn Liquid Complexed Micronutrients (cle-4475) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics Tree & Vine Mix Liquid Complexed Micronutrients (cle-4476) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics Desert Crop Mix Liquid Complexed Micronutrient (cle-11331) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organiplex Micro Mix Liquid Complexed Micronutrients (cle-12530) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organics 3% B Liquid Complexed Micronutrients (cle-13073) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Brandt Organiplex 4% Fe Liquid Complexed Nutrients (cle-14625) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Nematicides

Brandt Nema-Q A Biopesticide (cle-4343) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

Saf-T-Side Paraffinic Oil from Petroleum Insecticide and Acaricide Emulsion in Water (cle-1078) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Brandt TresOil Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2685) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Brandt TriTek Spray Oil Emulsion Fungicide, Insecticide and Miticide (cle-2686) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Miticide / Insecticide 800EL (cle-3773) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Emulsion d'Huile pour bouillies agricoles Insecticide & Acaricide (cle-5523) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Saf-T-Side Insektisit-Akarisit (cle-6981) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peroxyacetic/Peracetic Acid

Hye-Clean Out Antimicrobial Solution (cle-5967) ◆
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Crop Products: Wetting Agents

Brandt Organics Ag Aide Spreader Activator (cle-6305)

Crop Products: Zinc Products

Brandt Organics 7% Zn Liquid Complexed Micronutrients (cle-4477) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Organics 10% Zn Liquid Complexed Micronutrients (cle-4478) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Zinc Sulfate - Powder (cle-11221) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Organiplex 6% Zn Liquid Complexed Micronutrient (cle-12359) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt Zinc Sulfate - Granular Nutrient Supplement (cle-15805) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Brandt 10% Zn Fertilizante Inorgánico Líquido Soluble (cle-16081) ◆
Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Chlorine Dioxide

CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-2220) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Dioxide

CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-2221) ◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

Processing Products: Chlorine Dioxide

CDG Environmental CDG Solution 3000 An Aqueous Solution of Chlorine Dioxide (cdg-1857) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

CDG Aquadioxide (Contains 0.3% Chlorine Dioxide Aqueous Solution) (cdg-14589) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Neem Oil RTU Fungicide/Miticide/Insecticide (ttc-4003) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NeemGard® Fungicide/Miticide/Insecticide (ttc-0493) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nimbus™ Fungicide/Miticide/Insecticide (ttc-2559) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Trilogy XL-O Fungicide/Miticide/Insecticide (ttc-3510) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Polyoxin D Zinc Salt

OSO 5%SC Fungicide (ttc-13605) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Bicarbonate

Carb-O-Nator (ttc-6938) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Potassium Silicate, aqueous

Sil-MATRIX LC Fungicide/Miticide/Insecticide (ttc-13607) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

DES-X™ Insecticidal Soap Concentrate (ttc-1763) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Final-San-O Non-Selective Grass and Broadleaf Herbicide (ttc-2557) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Seduce Insect Bait Ant, Earwig, and Cutworm Bait (ttc-1923) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Virus Sprays

Gemstar® LC Insecticidal Virus Liquid Concentrate Biological Insecticide (ttc-9821) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Spod-X LC Insecticidal Virus Liquid Concentrate Biological Insecticide (ttc-9822) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYD-X® Insecticidal Virus An Aqueous Suspension Biological Insecticide for Control of the Codling Moth (ttc-3084) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYD-X® HP Insecticidal Virus High Potency Aqueous Suspension Biological Insecticide for Control of the Codling Moth (ttc-2802) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Madex HP Insecticidal Virus Biological Insecticide (ttc-14957) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Materials

Oxide+ Deposition Control (che-6620) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

RTU Oxide + (che-8924) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Chlorine Materials

Oxide+ Deposition Control (che-6621) ◆
Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

RTU Oxide + (che-8925) ◆

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

Processing Products: Chlorine Materials

Oxide+ Deposition Control (che-6622) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

RTU Oxide + (che-8769) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. Crop Products: Copper Products

C1 Chem One Copper Sulfate Crystals (col-4073) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate

Copper Sulfate Crystals (col-4001) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides

Bacit-21 Bactericida Orgánico Bactericida Agrícola/ Líquido Emulsionable (ans-12816) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

FLY-NOT Insecticida Orgánico Extracto Vegetal de Quilaya Insecticida / Líquido Emulsionable (ans-4581) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FUBAGRO Fungicida Bactericida Orgánico Extracto Vegetal de Gobernadora + Pino + Ácido Cítrico Fungicida/Líquido Emulsionable (ans-4582) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NEM-OVER Nematicida Orgánico Extracto Vegetal de Pino + Orégano + Higuierilla Nematicida/Líquido Emulsionable (ans-4583) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

AGRI-CINNA Insecticida Orgánico Extracto Vegetal de Canela Insecticida Agrícola/Líquido Emulsionable (ans-5503) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BLEEM-30 Repelente e Insecticida Orgánico Extracto Vegetal de Neem + Ajo Insecticida Agrícola/Líquido Emulsionable (ans-5504) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fungicit Fungicida Botánico Extracto Vegetal de Almendro Fungicida Agrícola/Líquido Emulsionable (ans-12796) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

In-Copalk Insecticida Botánico Extracto Vegetal de Copalquin Insecticida Agrícola/Líquido Emulsionable (ans-12815) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Rudanem Nematicida Botánico Extracto Vegetal de Ruda Nematicida Agrícola/Líquido Emulsionable (ans-12819) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

LEPICIT-70 INSECTICIDA Orgánico Extracto de Vegetal de Orégano, Neem y Tolohache Insecticida Agrícola/Líquido Emulsionable (ans-12964) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

FOLI-CU PLUS Sulfato de Cobre Pentahidratado Fungicida Agrícola/Solución Acuosa (ans-5505) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

BIOCREALAB BIO BASSB INSECTICIDA Biológico Polvo Humectable (ans-6573) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO BONT INSECTICIDA Biológico Líquido Emulsionable (ans-6574) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO BOSTER FUNGICIDA Biológico (ans-6575) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO FACEF INSECTICIDA Biológico Polvo Humectable (ans-6576) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO FACEL NEMATICIDA Biológico Polvo Humectable (ans-6577) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIOCREALAB BIO MA-BB INSECTICIDA Polvo Humectable (ans-6578) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Comet Sulfato de Cobre Pentahidratado Fungicida Sólido Soluble (cup-11904) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Oximet Oxicloruro de Cobre Fungicida Polvo Humectable (cup-12204) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Trimet Sulfato Tribásico de Cobre Fungicida Polvo Humectable (cup-12205) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cobre Cuprosa Hidromet Hidróxido Cúprico Fungicida Polvo Humectable (cup-12699) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Livestock Products: Copper Sulfate

Cuprosa S.A. De C.V. Sulfato De Cobre Pentahidratado (cup-12079) ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Dutrion Chlorine Dioxide 0.2% Concentrate Tablet (dna-7526) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Copper Sulfate

AgriTec Algaecide/Bactericide (eal-10433) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CopCheck (eal-14003) ◆

Crop Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and
Acidified Chlorite Solution Precursor (ent-
10480) ◆

Residual chlorine levels in the water in direct
crop contact (when used pre-harvest) or as water
from cleaning irrigation systems applied to the
soil should not exceed the maximum residual
disinfectant level under the Safe Drinking Water
Act (4 mg/L (4ppm) expressed as chlorine, 0.8
mg/L (0.8 ppm) expressed as chlorine dioxide),
except that chlorine products may be used in
edible sprout production according to EPA label
directions. May be used up to maximum labeled
rates for disinfecting and sanitizing equipment or
tools. No intervening event is necessary before
equipment is used in contact with organic crops.

EnviroChlorite 15 Chlorine Dioxide and
Acidified Chlorite Solution Precursor (ent-
10481) ◆

Residual chlorine levels in the water in direct
crop contact (when used pre-harvest) or as water
from cleaning irrigation systems applied to the
soil should not exceed the maximum residual
disinfectant level under the Safe Drinking Water
Act (4 mg/L (4ppm) expressed as chlorine, 0.8
mg/L (0.8 ppm) expressed as chlorine dioxide),
except that chlorine products may be used in
edible sprout production according to EPA label
directions. May be used up to maximum labeled
rates for disinfecting and sanitizing equipment or
tools. No intervening event is necessary before
equipment is used in contact with organic crops.

Crop Products: Hydrogen Peroxide

Perasan 'A' Antimicrobial Solution (ent-5117)
◆

For use as a plant disease control or as an
algicide, disinfectant, or sanitizer. May only be
used if the requirements of 205.206(e) are met,
which requires the use of preventive, mechanical,
physical, and other pest, weed, and disease
management practices. For use as an inert
ingredient in passive pheromone dispensers.

Peragreen® 5.6% Antimicrobial Solution (ent-7249) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Peroxyacetic/Peracetic Acid

BioSide™ HS 15% (Antimicrobial Solution) (ent-2949) ◆

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Peragreen 15% (Antimicrobial Solution) (ent-11505) ◆

For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Livestock Products: Acid Activators for Chlorine Dioxide

EnviroTech Acivate-O Acid Activator (ent-13094) ◆

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

Livestock Products: Chlorine Dioxide

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-8702) ◆

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

SureCide AH Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-10867) ◆

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

ChlorCide Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-11958) ◆

Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

Processing Products: Acidified Sodium Chlorite

EnviroChlorite 7.5 Chlorine Dioxide and Acidified Chlorite Solution Precursor (ent-8701) ◆

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Processing Products: Peracetic Acid/Peroxyacetic Acid

BioSide™ HS 15% (Antimicrobial Solution) (ent-1708) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2 Antimicrobial Solution For Meat, Poultry, Seafood, and Produce (ent-6349) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan MP-2C (Antimicrobial Solution) For Meat, Poultry, Seafood, and Produce (ent-6350) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 5.6% Antimicrobial Solution (ent-7248) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peragreen® 22 Antimicrobial Solution (ent-7289) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Perasan OG (Antimicrobial Solution) (ent-12982) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Peraspray Ready To Use Sanitizer (ent-13203) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

BioFruit XF-15 (Antimicrobial Solution) (ent-13794) ◆

Crop Products: Copper Sulfate

BluMaxx Copper Sulfate Liquid Algicide (ecr-5513) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bonne Org Sticker Agent for Use in Organic Production (bri-6389) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Surf Org Wetting/Spreading Agent for Use in Organic Production (bri-6390) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Kompat Org (bri-15024) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Biopesticides

Ovex Ovicide for Use in Organic Production (bri-6813) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Xhanthex Bactericide (bri-11986) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Boron Products, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride
Fosfi - K Org 1-6-3 (bri-12020) ◆

Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Botanical Pesticides
NemaKill Nematicide for Use in Organic Production (bri-3497) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fender Nematicide (bri-5379) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Slam Org Bactericide (bri-11567) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Steward Bactericide (bri-12411) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bemix Insecticide for Use in Organic Production (bri-3400) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Boom Insecticide for Use in Organic Production (bri-14960) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride, Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride
EvergreenOrg 3-3-3 (bri-5659) ◆

For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Must be applied in a manner that minimizes chloride accumulation in the soil. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Fertilizers and Soil Amendments, Blended – Allowed With Restrictions, Potassium Chloride
Best-K Org 0-0-13 (bri-10754) ◆

Must be applied in a manner that minimizes chloride accumulation in the soil. Refer to specific ingredient categories for applicable use restrictions.

Crop Products: Fertilizers, Blended Humiplant (bri-5130)
Crop Products: Fertilizers, Blended with micronutrients
Fosfi-Cal Org 1-8-0 (bri-5956) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with micronutrients, Potassium Chloride
Magnet-B Org 1-6-3 (bri-10804) ◆

Must be applied in a manner that minimizes chloride accumulation in the soil. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fungicides
Jaque Mate Fungicide for Use in Organic Production (bri-3392) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Cyclops Fungicide for Use in Organic Production (bri-3974) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Disease Stop Fungicide for Use in Organic Production (bri-4468) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Growth Regulators for Plants
Outbreak Plant Growth Regulator (bri-4945) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sucker Zap Tobacco Sucker Control Agent Plant Growth Regulator for Use in Organic Production (bri-15681) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides
Herbor-G Herbicide (bri-5268) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Weed Crush Herbicide for Use in Organic Production (bri-14769) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils
Aramite Insecticide for Use in Organic Production (bri-2474) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bug Stop Insecticide for Use in Organic Production (bri-4467) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IC Turbo Insecticide for Use in Organic Production (bri-14240) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bent Insecticide for Use in Organic Production (bri-2690) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Repellents – Allowed With Restrictions
Zig-Zag Natural Oil Insect Repellent (bri-14958) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Tickless Natural Oil Insect Repellent (bri-14959) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Vitamin D3

Brat-G Rodent Bait for Use in Organic Production (bri-3551) ◆

For use as a rodenticide. For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone.

Crop Products: Copper Products

Quimag Quimicos Aguila Copper Sulfate Crystal (fab-0991) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

QUIMAG Químicos Águila Fertiazul Sulfato De Cobre Pentahidratado (fab-8239) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Quimag Químicos Águila Copper Sulfate Crystal Fertilizer (fab-13527) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate

Quimag Químicos Águila Copper Sulfate Crystal (fab-0979) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Quimag Químicos Águila Copper Sulfate Crystal - Crop (fab-1986) ◆

Crop Products: Botanical Pesticides

Piredown Insecticida Agrícola Solución Oleosa (fms-14820) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Formugarlic Insecticida Agrícola Concentrado Soluble (fms-14821) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Extracacter Bactericida Concentrado Soluble (fms-14822) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Picus Knock Down Insecticida Agrícola Solución Oleosa (fms-14823) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Neemgrow Insecticida Agrícola Concentrado Soluble (fms-14826) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Cinnagrow Insecticida Agrícola Concentrado Soluble (fms-14828) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Extracfin Nematicida Concentrado Soluble (fms-14886) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Sulfacu Fungicida Agrícola Solución Acuosa (fms-14817) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

STRONG Fungicida/Bactericida (SC) (fod-15218) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenPlanet Medi One 4-3-3 1Part Nutrient System (hit-8582) ◆◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. This product contains highly soluble nitrogen and must be applied in a manner that does not contribute to the contamination of crops, soil or water. Its use must be part of an organic system plan that maintains or improves the natural resources of the operation, including soil and water quality, and comply with crop nutrient and soil fertility requirements.

Crop Products: Adjuvants, for use in pesticides

Kinetic® A Nonionic Wetter/Spreader/Penetrant Adjuvant (hcc-2663) ◆

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Kinetic Nonionic Surfactant and Silicone Surfactant Blend (hcc-8931) ◆

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Iron Products

EcoMate® 5 Fe (hcc-2886) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions

EcoMate 4 Mg (hcc-5235) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Manganese Products

EcoMate® 5 Mn (hcc-2913) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Micronutrients

EcoMate® Crop Mix (hcc-3286) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Oils, Horticultural

OMNI SUPREME SPRAY (INSECTICIDE-MITICIDE) LIQUID (hcc-2461) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stilet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

OMNI Oil 6 (Insecticide-Miticide) Liquid (hcc-6699) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stilet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Seaweed and Seaweed Products

Eco-Mate Seatract 0-0-6 Seaweed Concentrate for Organic Crops (hcc-14907)

Crop Products: Zinc Products

EcoMate® 10 Zn (hcc-2862) ◆

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Botanical Pesticides

Scary Garlic Plus (asj-3372) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IAN METAGARLIC RP Insecticida Orgánico (asj-15709) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Cinnapro Natural Miticide (asj-3774) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IAN CINNAMO Acaricida Orgánico (asj-15711) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

IAN BAJA NEEM Insecticida Orgánico (asj-15721) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

KOCH Potassium Soap Pesticide and Acaricide (asj-3631) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

IAN KSOAP MB Jabón Potásico Insecticida y Acaricida Orgánico (asj-15710) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Processing Products: Chlorine Materials

QuimiTech BIOCLOR Limpiador Concentrado a Base de Hipoclorito de Sodio (igt-13784) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Processing Products: Peracetic Acid/Peroxyacetic Acid

QuimiTech Zone 15 (igt-10475) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Copper Sulfate

Mastercop Bactericide/Fungicide (iis-7534) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

PURESPRAY green Horticultural Spray Oil for Listed Insect, Mite and Disease Control (inl-3042) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PureSpray GREEN Formula 3 (inl-2073) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Civitas Turf Defense Pre-M1xed California Plant Protection Product and Fungicide (inl-6923) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Civitas Turf Defense Pre-M1xed Plant Protection Product, Fungicide and Insecticide (inl-5988) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Civitas Turf Defense Ready-2-Mix Plant Protection Product, Fungicide and Insecticide (inl-5991) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

AgroIQC INTERGOBER Extracto de gobernadora (*Larrea tridentata*) Fungicida y Bactericida Botánico/Líquido Soluble (iqc-9008) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

AgroIQC INTERNEEM-A Extracto de Neem + Extracto de Canela Insecticida Botánico/Concentrado Emulsionable (iqc-9009) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Agro IQC INTERPIRET Extracto de Tagetes (*Tagetes* spp.) Insecticida Botánico/Concentrado Emulsionable (iqc-10434) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CANEEMA 70EC INSECTICIDA-ACARICIDA-BOTANICO EXTRACTO DE NEEM+EXTRACTO CANELA (iqc-10744) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PIRETAGE 90EC INSECTICIDA-BOTANICO EXTRACTO DE TAGETES (iqc-10745) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

EXTRAGOBER 95SL FUNGICIDA-BACTERICIDA-BOTANICO EXTRACTO DE GOBERNADORA (iqc-10820) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

AgroIQC COPPERSYST Sulfato de Cobre Pentahidratado Fungicida Agrícola/Solución Acuosa (iqc-13370) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

pht® Ad-Here SP Deposition Aid (jrs-3825) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Plant Health Technologies Vestis Silicone Surfactant (jrs-6537) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Plant Health Technologies Elimino Antifoaming Agent/Defoaming Agent (jrs-6780) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Simplot Plant Health Technologies SS88 Silicone Surfactant (jrs-14340) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Calcium Chloride

pht Soical Soil and Water Amendment (jrs-0866) ◆
For use as a foliar spray to treat a physiological disorder associated with calcium uptake.

Crop Products: Copper Sulfate

Water Guard WG 2500 Algacide/Bactericide (jrs-6782) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur

pht® Dryout Dust (jrs-4758) ◆
For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hydrogen Peroxide

Water Guard WG 4500 (Antimicrobial Solution) (jrs-15559) ◆
For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers.

Crop Products: Oils, Horticultural

pht 440 Supreme Spray Oil (jrs-2883) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Simplot pht 415 Supreme Spray Oil Insecticide - Miticide 415 Type Oil (jrs-14336) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Peroxyacetic/Peracetic Acid

Water Guard WG 4000 (Antimicrobial Solution) (jrs-15557) ◆
For disinfecting facility, processing equipment, seed and asexually propagated planting material. For use in hydrogen peroxide formulations as allowed in 205.601(a) at a concentration of no more than 6% as indicated on the product label.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Water Guard WG 4000 (Antimicrobial Solution) (jrs-15558) ◆

other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

KeyPlex Ecotrol IC-3 (key-6960) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

KeyPlex Sporan® EC² Fungicide (key-7232) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

KeyPlex Ecotrol EC Insecticide/Miticide
Emulsifiable Concentrate (key-7631) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

Sporan EC Fungicide (key-10145) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

Sporatec Mezcla de Aceites Vegetales
Fungicida agrícola/Concentrado
Emulsionable (key-10542) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

Keyplex ECOTEC Mezcla de Aceites
Vegetales Insecticida agrícola / Concentrado
Emulsionable (key-13907) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

KeyPlex Ecotrol EC Mezcla de Aceites
Vegetales Insecticida Agrícola / Concentrado
Emulsionable (key-15067) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

Keyplex Sporan 38 EC Fungicida-Botánico
(key-15068) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

Keyplex Ecotrol 17 EC Insecticida, Acaricida
- Botánico (key-15072) ◆
For use as a pest lure, repellent, or as part of a
trap, or as a disease control. May be used for
other pesticidal purposes if the requirements of
205.206(e) are met, which requires the use of
preventive, mechanical, physical, and other pest,
weed, and disease management practices.

Processing Products: Botanical Pesticides

KeyPlex Ecotrol Plus Insecticide/Miticide Emulsifiable Concentrate (key-6921) ◆

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

KeyPlex Ecotrol IC-3 (key-6961) ◆

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

KeyPlex EcoZAP Activator Mosquito Control Synergist/Activator Concentrate (key-7334) ◆

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Nutri2 (MSL2) Natural Nutrition (lal-5163) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Fortiferm Blanc Yeast Rehydration Nutrient
(lal-11024) ◆

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Processing Products: Yeast

Opti-White® (lal-1245) ◆

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Opti-Red® (lal-1246) ◆

When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

NOBLESSE For red wines, rosé, or white Yeast nutrient (lal-2039) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

GO-FERM Yeast rehydration nutrient (lal-2040) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

FERMAID O Yeast nutrient for alcoholic fermentation (lal-2042) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

NUTRIENT VIT NATURE Yeast nutrient for alcohol fermentation (lal-2581) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Redules® (lal-3292) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

ML RedBoost (lal-10768) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Opti'Malo Blanc (lal-10769) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Opti-Mum Red (lal-10771) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Processing Products: Yeast Autolysate

NUTRIENT VIT END Yeast Nutrient to ensure a good end of alcoholic fermentation (lal-2580) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

OptiMUM WHITE® For white wines (lal-2582) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Opti-Lees® (lal-2970) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

GLUTASTAR For white and rosé wines (lal-15304) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

abvickers Yeastlife O Yeast Nutrient for Specialized Alcoholic Fermentations (lal-15404) ◆
When used as food or a fermentation agent in products labeled as "organic," yeast must be organic if its end use is for human consumption. Nonorganic yeast may be used when organic yeast is not commercially available.

Crop Products: Bacillus thuringiensis

Monterey B.t. Biological Insecticide (lgp-2796) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey B.t. RTU (Ready-To-Use)

Biological Insecticide (lgp-4376) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Monterey Liquid Copper Fungicide RTU (lgp-6603) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Ferric Phosphate

Monterey Sluggo® (lgp-0598) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Sluggo Plus Insect, Slug & Snail Pellets (lgp-2870) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Ant Control (lgp-4674) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Sluggo Maxx Brand (lgp-12051) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients

Monterey Dr. Iron® (lgp-0268) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Magnesium Sulfate – Allowed With Restrictions

Monterey Epsom Salts Magnesium Sulfate (lgp-0376) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing.

Crop Products: Microbial Pesticides

Monterey Complete Disease Control Brand Aqueous Suspension Biofungicide/Bactericide (lgp-6455) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Monterey Complete Disease Control Brand RTU Ready-to-Use Biofungicide/Bactericide (lgp-6454) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Monterey Fruit Tree Spray Plus Broad Spectrum Insecticide, Fungicide, and Miticide (lgp-3720) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Nematicides

Monterey Nematode Control (lgp-3282) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

Monterey Horticultural Oil Fungicide, Insecticide, & Miticide (lgp-2574) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Monterey Bug Buster-O (lgp-4823) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Monterey Garden Insect Spray RTU (Igp-5689) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Monterey Insecticidal Soap RTU (Igp-14034) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Monterey Garden Insect Spray (Igp-0034) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Along-Life Algicide/Bactericide* (lsg-5470) **I**

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RiceGuard Algicide (lsg-8205) **I**
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. Crop Products: Copper Sulfate

ab Brand Copper Sulfate Crystals (Ioz-10555) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Sodium Carbonate Peroxyhydrate

Applied Biochemists Phycomycin SCP Algicide/Cyanobactericide (Ioz-11685) ◆
Federal law restricts the use of this substance in food crop production to approved food uses identified on the product label. For use as an algicide. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides

Mar Vista Resources VistaSil 100 Silicone Surfactant (mav-11605) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

GreenFurrow Organics Foam Preventer (mav-13441) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

GreenFurrow Organics VistaSil 100 Silicone Surfactant (mav-13442) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Mar Vista Resources GreenFurrow Organics Aqua Buff Acidifier & Buffering Agent (mav-14113) ◆
For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Aquatic Plant Products, synthetically extracted

Mar Vista Resources GreenFurrow Organics 0-0-3 Seaweed Extract (mav-14550)

Crop Products: Biopesticides

GreenFurrow Organics BacStop Bactericide/Fungicide (mav-11784) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics EF 300 All Purpose Insecticide (mav-11785) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics EF 350 All Purpose Insecticide (mav-11786) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics EF 400 All Purpose Fungicide (mav-11787) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics Soil Shot Nematicide/Fungicide (mav-11789) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GreenFurrow Organics SuperFix Bactericide/Fungicide (mav-11790) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

REMCA Organics SuperFix Bactericide/Fungicide (mav-13496) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Boron Products

Mar Vista Resources GreenFurrow Organics Boron 2% (mav-14713) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Boron Products, Copper Products, Iron Products, Magnesium Sulfate – Allowed With Restrictions, Manganese Products, Zinc Products

Mar Vista Resources GreenFurrow Organics MultiMix (mav-13908) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Botanical Pesticides

REMCA Organics DuoGuard Insecticide/Fungicide (mav-13551) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Calcium Chloride, Zinc Products

GreenFurrow Organics 8% Calcium (mav-14146) ◆
For use as a foliar spray to treat a physiological disorder associated with calcium uptake. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Copper Products, Zinc Products

Mar Vista Resources GreenFurrow Organics Copper 5% (mav-13699) ◆
Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Elemental Sulfur

Mar Vista Resources Dusting Sulfur (mav-9685) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Mar Vista Resources GreenFurrow Organics Dusting Sulfur (mav-14758) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended with micronutrients

Mar Vista Resources GreenFurrow Organics Nutri-Drive (mav-15446) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Humic Acids – alkali extracted

Mar Vista Resources GreenFurrow Organics Humic Acid 12% (mav-12717)

Mar Vista Resources GreenFurrow Organics Humic Acid 6% (mav-12790)

Crop Products: Iron Products, Zinc Products

Mar Vista Resources GreenFurrow Organics Iron 5% (mav-13700) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Magnesium Sulfate – Allowed With Restrictions, Zinc Products

Mar Vista Resources GreenFurrow Organics Magnesium 3% (mav-14367) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Manganese Products, Zinc Products

Mar Vista Resources GreenFurrow Organics Manganese 6% (mav-14368) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Oils, Horticultural

VistaSpray 440 Spray Oil (mav-10344) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VistaSpray 415 Spray Oil (mav-10592) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Summer Oils

Mar Vista Resources GreenFurrow Organics Vista Clear Spray Oil II (mav-13598) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in combination with permitted active pesticidal ingredients, excluding EPA 25(b) exempt pesticides.

Crop Products: Wetting Agents

GreenFurrow Organics Root-Active (mav-12433)

GreenFurrow Organics Soil Rx (mav-12512)

Crop Products: Zinc Products

GreenFurrow Organics PR+ (mav-13377) ◆

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

MarVista Resources GreenFurrow Organics PR-A+ 0.1-0-0.1 (mav-13534) ◆

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Mar Vista Resources GreenFurrow Organics Zinc 6.5% (mav-13701) ◆

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Mar Vista Resources GreenFurrow Organics MVR+ (mav-15369) ◆

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Mar Vista Resources GreenFurrow Organics MVRA+ (mav-15370) ◆

Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Botanical Pesticides

Regalia® Biofungicide (moi-1575) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia® Maxx Biofungicide Concentrate (moi-1711) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia® PTO Biofungicide (moi-3854) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia® Rx Biofungicide (moi-3855) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia 12 Biofungicide (moi-5307) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FMC Regalia Maxx Extracto de Reynoutria sachalinensis Fungicida / Suspensión Concentrada (moi-5446) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Reysana Biofungicide (moi-10057) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia CG Biofungicide (moi-10242) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Regalia Maxx 20 SC Fungicida-Botánico (moi-11396) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-106 12 Biofungicide (moi-12704) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Marrone Bio Innovations PACESETTER (moi-13975) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Hydrogen Peroxide, Peroxyacetic/Peracetic Acid

EVOCAD E Fungicide, Bactericide, Algaecide for Agricultural Uses (moi-13805) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers. For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

Marrone Bio Innovations Jet-Ag® 5 Fungicide, Bactericide, Algaecide for Agricultural Uses (moi-14662) ◆

For use as a plant disease control or as an algicide, disinfectant, or sanitizer. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an inert ingredient in passive pheromone dispensers. For use as a pesticide to control fireblight. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in hydrogen peroxide formulations as allowed in §205.601(i) at a concentration of no more than 6% as indicated on the pesticide product label.

Crop Products: Microbial Pesticides

MBI-203 WDG (moi-6266) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo WDG Bioinsecticide (moi-7140) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grandevo CG Bioinsecticide (moi-10241) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Venerate Bioinsecticide (moi-3903) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Venerate™ XC Bioinsecticide (moi-4939) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Majestene Bionematicide (moi-6393) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MBI-206 EP (moi-7141) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Venerate CG Bioinsecticide (moi-10244) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Zelto (moi-10245) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Processing Products: Peracetic Acid/Peroxyacetic Acid

Marrone Bio Innovations Jet-Oxide® 15 (Peroxyacetic Acid Solution) (moi-14664) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Marrone Bio Innovations Jet-Oxide® 5 (Peroxyacetic Acid Solution) (moi-14665) ◆

May be used as a sanitizer on food contact surfaces. Use in wash and/or rinse water must comply with FDA limitations.

Crop Products: Acid Activators for Chlorine Dioxide

MChem HYDROFLO CLEANER & PROCESS WATER TREATMENT (mce-13486) ◆

Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Crop Products: Chlorine Dioxide

MChem MClean 15 Chlorine Dioxide and Acidified Chlorite Solution Precursor (mce-13485) ◆

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. Crop Products: Acid Activators for Chlorine Dioxide

FreshFlo 100 Acid Activators for Chlorine Dioxide (mix-8627) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.601(a)(2)(ii). Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Livestock Products: Acid Activators for Chlorine Dioxide

FreshFlo 100 Acid Activators for Chlorine Dioxide (mix-8628) ◆
Must only be used for the generation of chlorine dioxide. Use of resulting chlorine dioxide must comply with 205.603(a)(10)(ii). Chlorine products may be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools (including dairy pipelines and tanks). Residual chlorine levels in the water in direct contact with food products or animals shall not exceed the maximum residual disinfectant limit under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide). May be used up to maximum labeled rates for sanitizing equipment or tools. Label instructions should be followed regarding requirements for rinsing or not rinsing prior to the equipment's next use.

WONDERFUL AK-47 Acaricida Ovicida (naa-13273) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

MÁXIMO Control Afido (naa-13326) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ACDG (naa-13327) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

WONDERFUL R-15 (naa-13392) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BEAUTIFUL Calibre 50 (naa-13393) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ACARON (naa-13394) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SuperNeem (naa-13395) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Products

GLUCO CU 2000 (naa-13439) ◆

Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Copper Sulfate

ELIMINATOR SCu sulfato de cobre pentahidratado Fungicida-Bactericida Concentrado en suspensión (naa-13438) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Adjuvants, for use in pesticides

NB-ACTIVATOR Adherente Dispersante Penetrante (nbt-12611) ◆

For use as an inert ingredient in combination with permitted active pesticidal ingredients.

Crop Products: Botanical Pesticides

NB TRIPER (nbt-10272) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-BIONEMIC Extracto de Marigold Nemátocida - Solución Acuosa (nbt-14954) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DEFENDER-S (nbt-15164) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chitin**NB-FUSAR (nbt-13120) ◆**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate**NB FUNBAC 27 S Fungicida/Concentrado Emulsionable (nbt-10268) ◆**

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides

Adera X Herbicida Natural Herbicida Sistemico y de Amplio Espectro (nbt-14451) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides**FOSFICUR (nbt-13016) ◆**

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-GLYCOM Agente de Control Biológico - Polvo Humectable (nbt-14468) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB-RIZOVER Agente de Control Biológico - Polvo Humectante (nbt-14469) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products**NB NATU-CROP Insecticida Biológico Agrícola (nbt-10269) ◆**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB QUARECZ Agente de Control Biológico - Polvo Humectable (nbt-10270) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB TIME CONTROL Biofungicida (nbt-10271) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NB Z-CROP Biofungicida (nbt-10273) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives**NB-Neem 100% Aceite Puro de Neem (nbt-10360)****Crop Products: Pyrethrum****Titan-Force Insecticida natural de Piretrina (nbt-11586) ◆**

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Oleotrol®-I Bio-Insecticide Concentrate (nts-5177) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides

Oleotrol-M Bio-Fungicide Concentrate (nts-0223) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

nu-clean

Crop Products: Coppers, fixed

Champ® WG Agricultural Fungicide (agt-1382) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

ChampION++ Fungicide/Bactericide (agt-5824) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cuproxat FL Copper Fungicide (agt-8990) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Gibberellic Acid

GibGro® 20% Powder (Gibberellic Acid) (agt-0005) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

GibGro® 4LS (4% Liquid Gibberellic Acid) (agt-3090) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pseudomonas sp.

BlightBan® A506 (agt-0701) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

ICC Ionic Copper Concentrate Liquid Concentrate Natural-Based Contact Fungicide & Bactericide (ocn-5303) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Ocion PT81 Algicide/Bactericide/Fungicide (ocn-5305) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. KALMOR Fungicide/Bactericide Dry Flowable (ohp-11389) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

GROTTO Flowable Liquid Copper Fungicide (ohp-13643) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Herbicides

FireWorxx Herbicide (ohp-11781) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides

Triathlon BA Aqueous Suspension Biofungicide/Bactericide (ohp-6962) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ANCORA Microbial Insecticide (ohp-8735) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Azatin® O Biological Insecticide (ohp-3970) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Triact® 70 Fungicide/Insecticide/Miticide (ohp-7175) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Pycana Insecticide/Miticide (ohp-11175) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

KOPA Insecticidal Soap Insecticide/Miticide/Fungicide (ohp-8736) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Copper Sulfate

CUBIDEX (pef-14370) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Manage (phb-14488) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Prathista™ PUSH® Organic Crop Protector (pil-2978) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fertilizers, Blended

Prathista™ Bio-Zinc® Foliar Spray for All Crops Eco Friendly (pil-2259)

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate, Manganese Products

Prathista Bio-Phos Foliar Spray for all Crops (pil-11763) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Fertilizers, Blended with synthetic magnesium sulfate, Manganese Products, Zinc Products

Prathista Aishwarya Organic Nutritional & Complete Fertilizer (pil-11670) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.

Crop Products: Magnesium Sulfate – Allowed With Restrictions, Manganese Products

Prathista™ Bio Magnesium® Eco Friendly (pil-2258) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Prathista Bio Calcium Eco-Friendly (pil-2731) ◆

May be used as a plant or soil amendment if soil deficiency of magnesium is documented by testing. Must not be used as an herbicide, defoliant or desiccant. Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent.

Crop Products: Chlorine Dioxide

ProKure V Cultivator Liquid Mold & Mildew Eliminator (pks-7120) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Acidified Sodium Chlorite

ProKure V Liquid
Deodorizer/Disinfectant/Fungicide (pks-7136) ◆

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only.

Crop Products: Coppers, fixed

Technical Copper Oxochloride (qin-5966) ◆
For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Elemental Sulfur

Defend DF Micronized Wettable Sulphur WDG (Water Dispersible Granule) (qin-4443) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ACOIDAL Fungicide-Miticide Micronized Wettable Sulphur WDG (Water Dispersible Granule) (qin-4634) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sulphur Technical For Manufacturing Fungicide and Insecticide Products (qin-6623) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sulfur Dust (qin-12110) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Nufarm Microsulf Azufre micronizado FUNGICIDA/GRÁNULOS DISPERSABLES (qin-12532) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Pesticides

Lepdicol Bacillus thuringiensis Insecticida Biológico Polvo Humectable (qam-5983) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Akorde Bacillus amyloliquefaciens Fungicida Biológico Polvo Humectable (qam-6033) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Milini Beauveria bassiana Insecticida Biológico Polvo Humectable (qam-6034) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Arrecife Paecilomyces lilacinus y Bacillus firmus Nemática Biológico Polvo Humectable (qam-6078) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Tango Inoculante (Sólido/Polvo) (qam-12419) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Trichoderma spp.

Fragata Trichoderma harzianum Fungicida Biológico Polvo Humectable (qam-5982) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Lucava BioCinnamon extracto de canela Emulsión Aceite en Agua Insecticida y Acaricida (qmc-11480) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava RetriX4 extracto de tagetes Concentrado Emulsionable Insecticida (qmc-11482) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Coppers, fixed

Grupo Lucava Magna-Bon CS 2005 sulfato de cobre pentahidratado Solución Acuosa Fungicida (qmc-13630) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Coppers, fixed, Elemental Sulfur

Lucaflow Cu azufre elemental + oxiclorigo de cobre Suspensión Acuosa Fungicida (qmc-11533) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Elemental Sulfur

Grupo Lucava Azufre Perfecto 93 Azufre Elemental Polvo Fungicida-Acaricida (qmc-5293) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Azufre Eléctrico Azufre Elemental Polvo Fungicida (qmc-5919) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Azufram Azufre Elemental Sólido Mejorador de Suelo Inorgánico (qmc-5935)

Grupo Lucava Azufre Humectable 90 azufre elemental Polvo Humectable Fungicida (qmc-11431) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Lucaflow azufre elemental Suspensión Acuosa Fungicida (qmc-11432) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Aguerido Azufre Elemental Gránulos Dispersables Fungicida (qmc-12739) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Growth Regulators for Plants

Grupo Lucava Vitazyme Regulador de Crecimiento Tipo 1/ Líquido (qmc-13482) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Vita Zuper Regulador de Crecimiento Tipo 1/ Líquido (qmc-13483) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT RAÍCES Regulador de Crecimiento Tipo 1 Líquido (qmc-14657) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT SEMILLAS Regulador de Crecimiento Tipo 1 Líquido (qmc-14658) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT FRUTOS Regulador de Crecimiento Tipo 1 Líquido (qmc-14659) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BRASINEXT CRECIMIENTO Regulador de Crecimiento Tipo 1 Líquido (qmc-14660) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Lucava DiraXtra80 extracto de aceite de neem Concentrado Emulsionable Insecticida y Acaricida (qmc-11481) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

Grupo Lucava Lucasoil aceite parafínico Emulsion Aceite Agua Insecticida-Acaricida (qmc-12698) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grupo Lucava Aguijón Azufre + Aceite Parafínico Suspensión Concentrada Insecticida - Acaricida - Fungicida (qmc-12738) ◆
For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stylet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide

Dioxy ORG Desinfectante de Contacto Fungicida-Bactericida-Virucida-Alguicida (qca-14606) ◆
Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Chlorine Dioxide

Dioxy ORG Desinfectante de Contacto Fungicida-Bactericida-Virucida-Alguicida (qca-14604) ◆
May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Crop Products: Copper Sulfate

INSTILL-O (stj-12513) ◆
For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Grower's Ally Spider Mite Control Concentrate (sge-12822) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Grower's Ally Spider Mite Control (sge-12823) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Earth's Ally Insect Control For Organic Gardening (sge-12824) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Earth's Ally Insect Control For Organic Gardening Concentrate (sge-15329) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Fungicides

Grower's Ally Fungicide Concentrate (sge-13252) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Grower's Ally Fungicide (sge-13253) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Earth's Ally Disease Control for Organic Gardening (sge-13254) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Earth's Ally Disease Control For Organic Gardening Concentrate (sge-13255) ◆

For plant disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Ferric Phosphate

Natria Snail & Slug Killer Bait Ready-To-Use (sbm-10100) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natria Garden Insect Killer Granules (sbm-14167) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

Natria Disease Control Ready-To-Spray (sbm-12156) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natria Disease Control Ready-To-Use (sbm-12157) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

Natria Neem Oil Concentrate (sbm-10098) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Natria Neem Oil Ready-To-Use (sbm-10099) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Natria Insecticidal Soap Ready-To-Use (sbm-10097) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demossor, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Natria Ant Barrier Ready-to-Use (sbm-13512) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Chlorine Dioxide

Selectrocide® 12G

Disinfectant/Sanitizer/Tuberculocide/Virucide*/Fungicide/Algaecide/Slimicide/Deodorizer (smt-6719) ◆

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Selectrocide® 2L500

Disinfectant/Sanitizer/Virucide*/Fungicide/Algaecide/Slimicide/Deodorizer (smt-6720) ◆

Residual chlorine levels in the water in direct crop contact (when used pre-harvest) or as water from cleaning irrigation systems applied to the soil should not exceed the maximum residual disinfectant level under the Safe Drinking Water Act (4 mg/L (4ppm) expressed as chlorine, 0.8 mg/L (0.8 ppm) expressed as chlorine dioxide), except that chlorine products may be used in edible sprout production according to EPA label directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in contact with organic crops.

Processing Products: Acidified Sodium Chlorite, Chlorine Dioxide

Selectrocide A12 (smt-6541) ◆

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide® A5 (smt-7602) ◆

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide® -Pouch 200MG-Disinfectant/Sanitizer/Virucide*/Fungicide/Algaecide/Slimicide/Deodorizer (smt-2834) ◆

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

CIO2bber 100 Abridged Disinfectant/Sanitizer/Virucide*/Fungicide/Algaecide/Slimicide/Deodorizer (smt-5288) ◆

For secondary direct antimicrobial food treatment and indirect food contact surface sanitizing. Acidified with citric acid only. May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Processing Products: Chlorine Dioxide

Selectrocide® 2L500

Disinfectant/Sanitizer/Virucide*/Fungicide/Algicide/Slimicide/Deodorizer (smt-2339) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide® 12G

Disinfectant/Sanitizer/Tuberculocide/Virucide*/Fungicide/Algicide/Slimicide/Deodorizer (smt-2340) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide 1G

Disinfectant/Sanitizer/Tuberculocide/Virucide*/Fungicide/Algicide/Slimicide/Deodorizer (smt-15724) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

Selectrocide 5G

Disinfectant/Sanitizer/Tuberculocide/Virucide*/Fungicide/Algicide/Slimicide/Deodorizer (smt-15855) ◆

May be used in direct contact with post-harvest crop or food at levels approved by the FDA or the EPA for such a purpose. Such use must include a final rinse and residual chlorine levels in final rinse water shall not exceed the Maximum Residual Disinfectant Limit under the Safe Drinking Water Act, except that a final rinse is not required for use in FSIS inspected egg breaking facilities. When used as disinfectants and sanitizers for food contact surfaces, may be used up to maximum labeled rates and rinsing is not required unless mandated by the label use directions. May be used up to maximum labeled rates for disinfecting and sanitizing equipment or tools. No intervening event is necessary before equipment is used in organic production.

CuProtective Fungicida Bactericida (smr-11041) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

FungiMixTOS Bio Fungicida Foliar Fungicida/ Bactericida (smr-14800) ◆

crop or food at levels approved by the FDA or the
EPA for such a purpose. Such use must include a
final rinse and residual chlorine levels in final
rinse water shall not exceed the Maximum
Residual Disinfectant Limit under the Safe
Drinking Water Act, except that a final rinse is not
required for use in FSIS inspected egg breaking
facilities. When used as disinfectants and
sanitizers for food contact surfaces, may be used
up to maximum labeled rates and rinsing is not
required unless mandated by the label use
directions. May be used up to maximum labeled
rates for disinfecting and sanitizing equipment or
tools. No intervening event is necessary before
equipment is used in organic production. Refer to
specific ingredient categories for applicable use
restrictions. For use in post-harvest handling of
raw agricultural commodities.

Processing Products: Peracetic
Acid/Peroxyacetic Acid

Spartan PAA Sanitizer (spt-11413) ◆

Crop Products: Copper Sulfate

TMTAGRO Kupfer/AP Sulfato De Cobre Al 21% Fungicida y Bactericida Solución Acuosa (taa-13754) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

BIODi®e argemonina, berberina, ricinina y α -terthienil Insecticida Y/O Acaricida Botánico / Extracto Acuoso (uqa-2974) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Naturacide® argemonina, berberina, ricinina y a-terthienil Insecticida Y/O Acaricida Botánico / Extracto Acuoso (uqa-3462) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Star Agricola® argemonina, berberina, ricinina y a-terthienil Insecticida Y/O Acaricida Botánico / Extracto Acuoso (uqa-3463) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BIODI® argemonina, berberina, ricinina y a-terthienil Insecticida Y/O Acaricida Botánico / Extracto Acuoso (uqa-3464) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRAMIC® CinnAcar extracto de canela Insecticida y Acaricida/Emulsión Aceite en Agua (uqa-4598) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRAMIC® Mega extracto de gobernadora (Larrea tridentata) Fungicida y Bactericida Botánico/ Líquido Soluble (uqa-4599) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRAMIC® NeemAcar CE Extracto de Neem + Extracto de Canela Insecticida Y Acaricida Botánico / Concentrado Emulsionable (uqa-4600) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR Canela extracto de Canela Insecticida y Acaricida Agrícola/Emulsión Aceite en Agua (uqa-5148) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR Cinna-Neem CE Extracto de Neem + Extracto de Canela Insecticida y Acaricida Botánico / Concentrado Emulsionable (uqa-5149) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR Mega extracto de gobernadora (Larrea tridentata) Fungicida y Bactericida Botánico/Líquido Soluble (uqa-5150) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRAMIC® Omega extracto de chicalote (Argemone mexicana) Insecticida y Acaricida Botánico/Concentrado Emulsionable (uqa-7615) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

PROGRAMIC® Piretro extracto de tagetes (Tagetes spp.) Insecticida Botánico/Concentrado Emulsionable (uqa-7616) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioPow® argemonina, berberina, ricinina y a-terthienil Insecticida Y/O Acaricida Botánico / Extracto Acuoso (uqa-8771) ◆
For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Omega extracto de chicalote (Argemone mexicana) Insecticida Y Acaricida Botanico / Concentrado Emulsionable (uqa-8772) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR® Piretrinas Extracto de tagetes (Tagetes spp.) Insecticida Botanico/Concentrado Emulsionable (uqa-8773) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Progranic® LarreaT® extracto de gobernadora (Larrea tridentata) Fungicida y Bactericida Botanico/Liquido Soluble (uqa-8774) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Progranic® Tagetes® extracto de tagetes (Tagetes spp.) Insecticida Botanico/Concentrado Emulsionable (uqa-8776) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Acar® Progreen® extracto de canela Insecticida y Acaricida/Emulsion Aceite en Agua (uqa-11775) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ULTRACHEM® Mega extracto de gobernadora (Larrea tridentata) FUNGICIDA y BACTERICIDA BOTANICO / LIQUIDO SOLUBLE (uqa-12970) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DISAGRO SUPRALID INSECTICIDA BIOQUÍMICO – Alcaloide, Alquilsulfato Argemoneina, Berberina, Ricinina, α-Terthienil (uqa-14006) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioProtector argemoneina, berberina, ricinina y α-terthienil INSECTICIDA Y/O ACARICIDA BOTANICO / EXTRACTO ACUOSO (uqa-14143) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Caneema 70 EC Insecticida - Acaricida - Botánico Extracto de Neem + Extracto de Canela (uqa-15447) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Extragober 95 SL Fungicida - Bactericida - Botánico Extracto de Gobernadora (uqa-15448) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Piretage 90 EC Insecticida-Botánico Extracto de Tagetes (uqa-15449) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

NATURICIDE PIRETRO extracto de tagetes (Tagetes spp.) Insecticida Botanico/Concentrado Emulsionable (uqa-15986) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

STAR argemoneina, berberina, ricina y α-terthienil Insecticida y/o Acaricida Botanico / Extracto Acuoso (uqa-16059) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Neem and Neem Derivatives

PROGRANIC® Nimicide 80 extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-2975) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

CYR Neem 80 CE extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-3465) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Naturacide Neem CE 80 extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-3466) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Progreen® Neem CE 80® extracto de aceite de neem Insecticida Y Acaricida / Concentrado Emulsionable (uqa-8775) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Ultralux® S sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-7617) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

CYR® PotasyMax sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-10485) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Die Soap K sales potásicas de ácidos grasos Insecticida y Acaricida/Concentrado Soluble (uqa-11776) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Processing Products: Botanical Pesticides

Eco Urban argemonina + berberina + ricinina + α -terthienil Insecticida / Extracto Acuoso (uqa-13220) ◆

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

Crop Products: Copper Sulfate, Potassium Bicarbonate, Potassium Silicate, aqueous

Blue Cure (una-13189) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as plant disease control, or as an insecticide (including acaricide or mite control). May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Valent Professional Products DiPel® PRO DF Biological Insecticide Dry Flowable (abb-3279) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioBit® HP Biological Insecticide Wettable Powder (abb-9521) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

XenTari® Biological Insecticide Dry Flowable (abb-9495) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® 2X Biological Insecticide Wettable Powder (abb-0103) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

XenTari WDG Biological Insecticide Water Dispersible Granule (abb-8062) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® DF Biological Insecticide Dry Flowable (abb-9054) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Valent Professional Products Gnatrol® WDG Biological Larvicide Water Dispersible Granule (abb-9583) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac® WDG Biological Larvicide Water Dispersible Granule (abb-9528) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Xtreem DF Insecticida biológico agrícola / Floable seco (abb-0360) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Foray® 48B Biological Insecticide Flowable Concentrate (abb-0522) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Astuto® Bacillus thuringiensis var. kurstaki Insecticida biológico / floable seco (abb-2071) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bactur 2X Insecticida Biológico (abb-2670) ◆
May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bazthu • 32 Insecticida larvicide para el control de lepidópteros. Polvo mojable (WP) (abb-2679) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

BioBit 32 Insecticida Granulado Dispersable en Agua (WG) (abb-2680) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Geoda Insecticida Larvicide Para El Control De Lepidópteros Polvo Mojable (WP) (abb-2681) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bayer FlorBac® Insecticida biológico contra orugas Granulado dispersible en agua (WG) (abb-2706) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aztron WDG Biological Insecticide (abb-2707) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® 6,4WG Bt.k Biological Insecticide Water Dispersible Granule/WG (abb-3417) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel® 10G Biological Insecticide Granule (abb-3723) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel 54WG Insecticida Biológico De Uso Agrícola Granulo dispersable en agua (WG) (abb-3755) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac GR Biological Larvicide Granules (abb-8250) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bactimos WG Bacterial Larvicide (abb-11512) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel WG Insecticida Granulado Dispersable (WG) (abb-11955) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel DF Insecticida Biologico / Floable Seco (abb-13306) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel 2X Insecticida Biológico Polvo Mojable (P.M.) (abb-13366) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

XenTari DF Insecticida Biologico/Floable Seco (abb-13537) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

XenTari Microbial Pesticide (abb-13917) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoBac WG Biological Larvicide Water Dispersible Granule (abb-13979) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiPel DF Biological Insecticide Water Dispersible Granule (abb-15778) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Florbac WG Biological Insecticide Water Dispersible Granule (abb-15779) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Biopesticides

DiTera® DF Biological Nematicide Dry Flowable (abb-3077) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VectoMax FG Biological Larvicide Fine Granule (abb-8251) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

DiTera DF Nematicida Biologico / Floable Seco (abb-13307) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Gibberellic Acid

ProVide® 10 SG Plant Growth Regulator Soluble Granule (abb-5058) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pro-Gibb® Plus 2X Soluble Powder Plant Growth Regulator (abb-0315) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® 40% Plant Growth Regulator Water Soluble Granule (abb-9526) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RyzUp® Plant Growth Regulator Soluble Concentrate (SL) (abb-9871) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Release® LC Plant Growth Regulator Solution (abb-3139) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Release® Plant Growth Regulator Soluble Powder (abb-3140) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

RYZUP® 40 SG Regulador De Crecimiento Granulos Solubles (SG) (abb-0649) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Activol® 40% GS Ácido Giberélico (abb-2540) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® Plus Regulador de Crecimiento Polvo Soluble - SP (abb-2882) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb® TVO Plant Growth Regulator Solution (abb-10174) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb 10SP Plant Growth Regulator Soluble Powder (abb-11552) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb 40% GS Regulador De Crecimiento Vegetal (Tipo 1) Granulado Soluble (abb-13308) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProVide 10SG Regulador De Crecimiento (Tipo 1) Granulos (abb-13356) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Growth Regulators for Plants

RyzUp SmartGrass® Plant Growth Regulator Water Soluble Granule (abb-1880) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProTone® SG Plant Growth Regulator Soluble Granule (abb-2103) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ConTego SL Plant Growth Regulator Soluble Liquid (abb-5520) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Gibberellic Acid (GA3) Technical Powder Plant Growth Regulator (abb-5906) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VBC-30396 Plant Growth Regulator Water Soluble Granule (abb-6114) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ExCelero Regulador de Crecimiento de Plantas de Uso Agrícola Granulos Solubles (SG) (abb-8605) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ReTain OL Plant Growth Regulator Liquid Concentrate (abb-11800) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProTone SG Regulator De Crecimiento Vegetal (Tipo 1) Solido (abb-13309) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb LV PLUS Plant Growth Regulator Solution (abb-5392) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aviglycine Technical Concentrate Plant Growth Regulator (abb-7320) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ProGibb LV PLUS T&O Plant Growth Regulator Solution (abb-14410) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

ConShape SL Plant Growth Regulator Soluble Liquid For Use On Christmas Trees (abb-15539) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Microbial Products

DiPel® 2X DF Biological Insecticide Dry Flowable (abb-1490) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Botanical Pesticides

Sifatec Fenoxon Extracto de neem y extracto de canela 650 CE Insecticida/Concentrado Emulsionable (via-14797) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sifatec Krox Sophora flavescens 10 CL Insecticida/Concentrado Líquido (via-14803) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VITACULTIVOS® LOKI® FORTE Extracto de neem y extracto de canela 650 CE Insecticida/Concentrado Emulsionable (via-16119) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VITACULTIVOS® HEADER® Sophora flavescens 10 CL Insecticida/Concentrado Líquido (via-16121) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Copper Sulfate

Sifatec Pentahcu Sulfato de Cobre Pentahidratado 65 SC Fungicida/Suspensión Concentrada (via-14804) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

SELETOP 65 SC Syngenta Sulfato de cobre pentahidratado

Fungicida/Bactericida/Suspensión Concentrada (via-15947) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

VITACULTIVOS® COP FIVE 65 SC SULFATO DE COBRE PENTAHIDRATADO FUNGICIDA-BACTERICIDA / SUSPENSIÓN CONCENTRADA (via-15948) ◆

For plant disease control, must be used in a manner that minimizes accumulation of copper in the soil. For use as an algicide in aquatic rice systems and for tadpole shrimp control in aquatic rice systems, must not exceed one application per field during any 24-month period. Application rates are limited to those which do not increase baseline soil test values for copper over a time frame agreed upon by the producer and accredited certifying agent. Crop Products: Coppers, fixed

Cueva Fungicide Ready-To-Use Flowable Liquid Copper Fungicide (neu-3101) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cueva 2.4 Copper Soap Flowable Liquid Copper Fungicide (neu-3989) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Cueva Fungicide Concentrate Flowable Liquid Copper Fungicide (neu-11228) ◆

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil.

Crop Products: Ferric Phosphate

Sluggo® Slug & Snail Bait (neu-0583) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Bug-N-Sluggo Insect, Slug and Snail Bait (neu-2578) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sluggo Maxx Brand (neu-10015) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Antixx Plus (neu-10677) ◆

For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Herbicides

HomePlate Non-Selective Herbicide (neu-6439) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Fireworxx (neu-11344) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Homeplate RTU (neu-12678) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils

Vegol Insecticidal Oil (neu-3007) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum

Pyrol-O RTU (neu-3589) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O (neu-3590) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Pyrol-O Insecticide/Miticide (neu-10817) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Aerosol Pyrol-O RTU (neu-15979) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Neudorff's Insecticidal Soap Concentrate

(neu-4182) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff's Insecticidal Soap RTU (neu-0074)

◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

KOPA Insecticidal Soap (neu-0806) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudosan Insecticidal Soap Ready-to-Use

(neu-0807) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Neudorff H01 Concentrate Herbicidal Soap

(neu-2487) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Finalsan Ready-to-Use Herbicidal Soap (neu-2488) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Finalsan Concentrate Grass and Weed Killer (neu-2489) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Moss-Aside Moss Killer (neu-2602) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

NEU1138I Concentrate (neu-5281) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

NEU1138I Ready-to-Use (neu-5282) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Crop Products: Spinosad

Neudorff Bug Bait (neu-1123) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Neudorff Bug Bait Residential (neu-13266) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

For plant disease control. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. Must be used in a manner that minimizes copper accumulation in the soil. For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Crab/Crustacean Meal

Lighthouse Crab Shell Soil Amendment (wec-12209)

Crop Products: Elemental Sulfur

Wilbur-Ellis Ben-Sul 85 (wec-4045) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Special Electric® Refined Super-Adhesive Dusting Sulfur (wec-1478) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Wilbur-Ellis Dusting Sulfur (wec-1479) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Wilbur-Ellis SOIL SULFUR GRANULAR (wec-2022)

Wilbur-Ellis SOIL SULFUR FINE GRIND (wec-2023)

Golden Micronized Sulfur (FUNGICIDE AND INSECTICIDE) (wec-2773) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Sulfur Dry Flowable Fungicide - Miticide Micronized Wettable Sulfur WDG (Water Dispersable Granule) (wec-11466) ◆

For use as plant disease control, or as an insecticide (including acaricide or mite control). For use as slug and snail bait. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Neem Oil RTU Fungicide / Miticide / Insecticide (wsc-8420) ◆

For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Oils, Horticultural

Safer Brand Horticultural & Dormant Spray Oil (wsc-9669) ◆

For use as an insecticide (including acaricide or mite control) and for plant disease control as dormant, suffocating, and stilet (summer) sprays. May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Pyrethrum, Soap

Safer® Brand Tomato & Vegetable Insect Killer II (wsc-4089) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops. For use as a pest lure, repellent, or as part of a trap, or as a disease control. May be used for other pesticidal purposes if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Repellents – Allowed With Restrictions

Havahart® Critter Ridder® (wsc-4215) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Havahart® Critter Ridder® Ready-To-Use (wsc-0279) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Animal Repellent (wsc-12345) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Deer & Rabbit Repellent Ready-To-Use (wsc-12346) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Safer Brand Critter Ridder Animal Repellent Ready-To-Use (wsc-12400) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices.

Crop Products: Soap

Safer® Brand Insect Killing Soap with Seaweed Extract II (wsc-9909) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Insect Killing Soap Concentrate II (wsc-9786) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready-To-Spray II (wsc-9789) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand Moss & Algae Killer & Surface Cleaner Ready-To-Use II (wsc-9790) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand End All® Insect Killer (wsc-1484) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Safer® Brand #567 Pyrethrin & Insecticidal Soap Concentrate II (wsc-1899) ◆

May only be used if the requirements of 205.206(e) are met, which requires the use of preventive, mechanical, physical, and other pest, weed, and disease management practices. For use as an algicide/demosser, herbicide or insecticide. When used as an herbicide may only be used for farmstead maintenance (roadways, ditches, right of ways, building perimeters) and ornamental crops.

Livestock Products: Diatomaceous Earth

Safer® Brand Food Grade Diatomaceous Earth (wsc-12126) ◆

Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Processing Products: Diatomaceous Earth

Safer Brand Ant & Crawling Insect Killer Made From Diatomaceous Earth (wsc-5552) ◆

For use as a pesticide only in conjunction with the facility pest management practices provided for in paragraphs 205.271(a) and (b) and only if those practices are not effective to prevent or control pests alone. For use in post-harvest handling of raw agricultural commodities.

ProPath LQ Cu 180 Copper Amino Acid Complex (zin-13790) ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Zinpro ProPath Performance Minerals Cu 170 (zin-15005) ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Livestock Products: Iron

ProPath LQ Fe 160 Iron Amino Acid Complex (zin-13791) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Zinpro ProPath Performance Minerals Fe 150 (zin-15004) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Manganese

ProPath LQ Mn 160 Manganese Amino Acid Complex (zin-13792) ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Zinpro ProPath Performance Minerals Mn 150 (zin-15007) ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.

Livestock Products: Minerals

Zinpro Performance Minerals 4-Plex E Feed Ingredient (zin-1133) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Zinpro Performance Minerals Zinpro E Feed Ingredient (zin-1153) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

ProPath LQ Zn 180 Zinc Amino Acid Complex (zin-13296) ◆
Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life.

Livestock Products: Zinc

Zinpro ProPath Performance Minerals Zn 170 (zin-15006) ◆
For use as feed additives and supplements. Must not be fed in amounts above those needed for adequate nutrition and health maintenance for the species at its specific stage in life. Must not be used to stimulate growth or production.
