

# PLASTIC LAMINATE CASEWORK

# WARRANTY

OnePointe Solutions LLC (“OnePointe”) warrants the products sold are free of defects in materials or workmanship to the Purchaser under normal use and service for the warranty periods specified with the exceptions stated below. This limited warranty only applies to an original Purchaser located in the United States, Canada, or Mexico. Coverage duration for plastic laminate casework is (5) years which starts from the date of shipment and runs concurrently. Defects resulting from normal wear and tear, color/grain variations, changes in surface finishes due to exposure to light, faulty installation, operation, disassembly, or remodeling, or from misuse, misapplication, neglect, abuse, accident, alteration, or the lack of proper maintenance, storage, cleaning, and care are not covered by OnePointe’s limited warranty. Products that are exposed to extreme environmental conditions or that have been subject to improper storage are not covered by OnePointe’s limited warranty. OnePointe does not provide warranty on components manufactured by others – only the original manufacturer’s warranty applies. OnePointe, as its sole obligation, will repair or replace (at its option) any product, part, or component covered by this warranty which fails perform to the product’s specifications. If OnePointe acknowledges that any such defects found within the warranty period are the result of faulty material or workmanship, will repair or replace the product, part, or component with a comparable product, part, or component at its own expense. OnePointe may elect to provide on-site repair of defective product and in these cases, Buyer agrees to allow OnePointe factory technicians or authorized representative reasonable and timely access to jobsite during normal business hours. Repairs or replacement of product under warranty does not extend the original warranty period. THERE ARE NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, WHICH EXTEND BEYOND THE FACE HEREOF INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR APARTICULAR USE. The liability and remedy set forth above, in the event of a breach by OnePointe of its warranties set forth above or any of the covenants or agreements relating to the sale of the products to the Purchaser, shall be the sole and exclusive remedy to the Purchaser. In no event shall OnePointe’s liability exceed the amount paid, excluding installation, by the Purchaser to OnePointe or any of its dealers or agents for the products to which the breach applies. In no event shall OnePointe be liable to the Purchaser for any consequential or indirect damages including, but not limited to, loss of income, revenue, or profits in the event of a breach of any of the warranties or other covenants made by OnePointe with respect to the sale of OnePointe products to the Purchaser. The foregoing may not be modified except by a written amendment signed by OnePointe. The Purchaser, by accepting delivery of any product manufactured by OnePointe, hereby accepts the foregoing, and expressly waives any other remedy and damages, direct, indirect, and consequential. Contact OnePointe Solutions for any warranty questions or claims by phone 512.652.6292, or email [warranty@onepointesolutions.com](mailto:warranty@onepointesolutions.com). No product or parts thereof shall be returned to OnePointe or any of its dealers or agents without OnePointe’s prior written consent. Product returned to OnePointe shall be shipped at buyers cost and risk of loss. Replacement product shall be returned at OnePointe’s cost and risk of loss. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

### ALIGNED TEXTURE

Aligned Texture is the latest innovation from Wilsonart, using synchronized texture and visual pattern for designs with striking clarity and richness. The first dynamic collection of woodgrain colorways features the Aligned Oak texture (-57)- where authentic realism is brought to the surface as each elegantly aged oak design exhibits the natural dimension and feel of real wood.

## LAMINATE SURFACE TEXTURES

WILSONART® is a trademark of Wilsonart International, Inc. registered in the United States and other countries. HIGH DEFINITION, HD, and AEON are also trademarks of Wilsonart LLC.

**#01 HIGH GLOSS - PREMIUM** 

A mirror sheen finish, which gives a smooth, brilliant appearance. Recommended for horizontal applications such as countertops and light-to medium commercial applications. Excellent for vertical application.

**#07 TEXTURED GLOSS - PREMIUM** 

A textured finish which reproduces the high sheen of waxed wood furniture. Recommended for horizontal and vertical application.

**#12 SOFTGRAIN - PREMIUM** 

A dense, woodgrain structure that is low gloss and soft to the touch. Subtle highlights of reflectivity randomly occur within the embossed grains, creating a sophisticated raw wood look. Recommended for horizontal and vertical application.

**#16 CASUAL RUSTIC - PREMIUM** 

A woodgrain texture with a blend of grain variations ranging from linear to subtle movement with random, irregular features. The overall low gloss surface is accented with higher sheen woodgrain ticking and random highlights. Recommended for horizontal and vertical application.

**#18 LINEARITY - PREMIUM** 

A directional texture running the length of the sheet, having a narrow, random, matte-gloss linear quality. It is complementary to linear woodgrains, and linear patterns and provides dimension and visual movement to solid colors. Recommended for horizontal and vertical application.

**#19 LENO WAEVE\* - PREMIUM** 

Random intersecting horizontal and vertical lines create a geometric weave with a mattegloss mix. Recommended for horizontal and vertical application.

**#22 ANTIQUE - PREMIUM** 

A mixture of varying low gloss features combined with organic movement, indicative of the surface of an aged stone or an antique metal. Recommended for horizontal and vertical application.

**#28 GLOSS LINE - PREMIUM** 

A linear woodgrain texture with varied widths of narrow grain structures in an alternating mix of matte and gloss surface areas. Recommended for horizontal and vertical application.

**#38 FINE VELVET TEXTURE**

A smooth textured finish with moderate reflective value. Recommended for horizontal and vertical application.

**#52 QUARRY - PREMIUM** 

Premium finish emulating the "pitted" look of polished natural stone. Recommended for horizontal and vertical application.

**#60 MATTE**

Textured finish with a moderate reflective quality. Recommended for horizontal and vertical application.

**#78 FINEPRINT - PREMIUM** 

This premium finish features the polish and luxe of a real wood veneer, with a subtle, narrow grain structure that runs the length of the sheet. Recommended for horizontal and vertical application.

**#35 MIRAGE - HD PREMIUM**  

Subtle variations in matte and gloss finish connect to nature's own finishes: rough and weathered, smooth and polished. Recommended for horizontal and vertical application.

**#55 GLAZE - HD PREMIUM**  

A layering of matte features over a glaze of semi-gloss, creates this timeworn effect. Recommended for horizontal and vertical application.

**#57 ALIGNED OAK\* - HD PREMIUM**  

Authentic realism is brought to the surface using synchronized texture as each elegantly aged oak design exhibits the natural dimension and feel of real wood. Recommended for horizontal and vertical application.

 Finish features AEON™ Enhanced Performance Technology, providing 3x industry standard wear resistance, improved scratch, scuff and mar performance, versus comparable competitive finishes.

 ANTIMICROBIAL PROTECTION is built into the laminate to protect the surface against damaging microbes. Antimicrobial agents protect the surface from the growth of mold and mildew that cause odors when used for countertops and work surfaces.

HIGH PRESSURE LAMINATES

Lasting inspiration from Montréal

### NEUTRALS

## Balancing the scales with neutrals

The emerging color story of "neutral" responds to the desire for simplicity within busy modern living. Technology makes us efficient and able to take on more tasks. But being always connected and always "on" can feel hectic. So, we seek to declutter and reduce the noise within our spaces. Natural, organic hues and soft-to-mid tones feel soothing and authentic. Greys, from light to charcoal, warm spice colors such as saffron, turmeric and cinnamon, and rich creams all contribute to a calm, clean look.

Neutral color trends set the stage for strong statement surfaces in color and texture. Flooring, with its definitive area, is increasingly delivering large-scale designs in both hard surfaces and carpet. With beautiful, bold aesthetics underfoot, we've developed our new collection to be timeless and minimalist. In other areas, intricate patterns or interesting textures are used with tone-on-tone neutrals to add interest without adding noise. The quiet woodgrains and small-scale abstract patterns of our laminates work with other materials to create harmonious spaces.

### GREEN AND BLUE

# Putting green and blue to work for you

Underlying trends of biophilia and health/wellness bring blues and greens into commercial, healthcare and hospitality environments. As the scale of botanical patterns increases in carpet and upholstery, the tone of blues and greens becomes more temperate and subdued. Sage greens and mid-tone blues with a soft grey or silver undertone feel warm and inviting. While a bottle green with bluish or metallic undertones feels cool and crisp.

As a durable surface, laminate tends to pull color when light reflects off other materials. The result can be the dreaded unintentional color-flip, where a color looks completely different in context of the application. To remedy this, we've built very specific warm and cool undertones into our designs. Multiple colorations within patterns intentionally line up to bring out the intended hues of the other materials in the palette so that colors stay true.

## The bold and the beautiful

The color story of red, orange and pink is moving toward rich and saturated tones. Dark shades such as merlot, sediment, clay, baked earth, terra cotta, and even aubergine, are balanced with vibrant jewel tones. Purple, pink, fuchsia, apricot and peach are appealing and warm. Bold patterns accompany the bold colors, though often as tone-on-tone to mute the look so it does not become distracting.

Mixing and layering different scale and structure of bold reds, oranges and pinks is a great way to add contrast and interest into a design with paint, carpet, upholstery and other soft surfaces. Our laminate's job is to create an environment that will support today's bold aesthetic, while being versatile enough to adapt to tomorrow's. Our designs are demure, elegant, timeless, and able to accept big patterns from other materials without making the space look heavy or busy.

## NEW COLLECTION

Please request an actual chip for color or pattern verification at [arborite.com](http://arborite.com) or 1.800.361.8712

### Denim

Inspired by the classic textile in which the warp thread is dyed while the weft thread is left white, Denim features a diagonal ribbing that is refined and pleasing.

### City

Like intersecting streets in a metropolitan landscape, City balances movement with order for a series of designs that are sophisticated and inclusive.

### Nordic Wood

Minimalist and unpretentious, Nordic Wood's easily pleasing structure is clean and comforting. The design's new low sheen CW (Casual Wood) finish adds visual interest with soft ticking.

### Arcadian Oak

Arcadian Oak delivers a substantial wood aesthetic, yet the subtle grain and gentle coloration prevent the design from being heavy or demanding.

### Artisan Walnut

Elevated by the application of the new registered embossed AW finish, our Artisan Walnuts carry texture that exactly matches the design for unprecedented fidelity.

### Chambray

Named for a distinctive weave of linen that produces a mottled appearance, Chambray's organic, fibrous look offers neutral tones that blend beautifully with woodgrains.

### Illusion

Intriguing and versatile, Illusion incorporates both organic woodgrain elements and abstract geometric elements into a finely-built design.

### Contemporary Maple

These carefully-crafted maple designs were built with warm and cool undertones to prevent color-flipping and ensure the look stays true in any application.

### Scandinavian Ash

The structure of Scandinavian Ash is soothing, offering design longevity that harmonizes with bolder patterns and colors.

### Just In

Responding to European trends, Arborite's new collection combines color, market and material trends with insights from the architecture and design community to deliver solutions. With a focus on woodgrains, the designs in our new collection are at home in neutral color schemes but can also work seamlessly with pops of color. Our laminates are developed to integrate into a larger palette and tie other elements together— quietly grounding bolder material specifications without competing.

## STANDARD COLLECTION

### Just Solids

Featuring timeless hues, adaptable neutrals, elegant greys and dynamic brights, our solids collection includes simple basics and stand-out colors. They are available in a standard matte finish, or can be enhanced with a premium texture.

### JustWood

With a combination of realistic and wood-inspired designs these curated, organic patterns provide opportunity to achieve the look of rare and endangered woods sustainably. Specify classic wood patterns for use in applications where performance matters. Adding a premium texture to our woodgrains enhances their fidelity, so your project looks great in the long run.

## STANDARD COLLECTION

### Just Patterns

Our patterns incorporate a unique and expansive selection of abstract designs. With geometric shapes, textile/organic motifs, metallics, concrete-inspired looks and engineered stones these collections provide endless inspiration. Flexible and versatile, these options seamlessly complement other materials within an environment. Patterns are available in a standard finish or can be enhanced with other available textures.

## SPECIALTY COLLECTION

Arborite has you covered with specialty products engineered to provide solutions to specific needs in many different segments and applications.

### Pure

Keeping your surfaces streak free has never been easier with Arborite's Pure collection. With a luxurious, velvety texture, Pure features fingerprint-resistant technology to ensure that your high-traffic areas are free of fingerprints and smudges. As with all Arborite products, Pure is easy to clean, heat resistant and durable.

ARBORITE  
Pure

### Arborite Ink

Arborite Ink is a design collaboration focused on applying contemporary design to high pressure laminates. Working with leading artists and designers, our aim is to produce an ongoing collection of innovative products for today's most creative professionals.

ARBORITE  
ink

### Textures

Our unique textures, from organic woodgrain to luxurious stone, complement Arborite's rich designs with radiant sheens, delicate beading, or subtle embossments.

## 180fx<sup>®</sup> by FORMICA GROUP

LAMINATE AS LARGE AS LIFE

Drawing on digital technology, the 180fx<sup>®</sup> Collection by Formica Group brings the true-scale visual drama of quartz, stone and hardwood slabs to durable, high resolution laminate.

2019 marks the 10th anniversary of 180fx<sup>®</sup>—and we're celebrating with the introduction of a beautiful new finish: SatinTouch<sup>™</sup>. This smooth to the touch surfacing option enhances select designs with a silky feel and eye-catching sheen.

Create and define your design vision with new patterns focused on a timeless palette versatile enough to enhance any interior. With Formica<sup>®</sup> EliteForm technology, your 180fx<sup>®</sup> surfaces will stand up to the wear and tear of daily life.

Affordable luxury knows no boundaries.

*180fx<sup>®</sup> by Formica Group  
LAMINADO CON INSPIRACIÓN REAL*

*Utilizando la tecnología digital, 180fx<sup>®</sup> by Formica Group brinda la escala real de la losa completa de cuarzo, granito y madera, a un laminado durable con alta resolución.*

*En 2019 se cumple el décimo aniversario de 180fx<sup>®</sup>, y lo estamos celebrando con la introducción de un nuevo acabado: SatinTouch<sup>™</sup>. Esta opción de superficie suave al tacto embellece los diseños selectos con una sensación sedosa y un llamativo brillo.*

*Cree y defina sus espacios utilizando esta paleta de diseños atemporales y versátiles. Con la tecnología Formica<sup>®</sup> EliteForm, sus superficies 180fx<sup>®</sup> resistirán el desgaste de la vida diaria.*

*El lujo accesible no conoce límites.*

*180fx<sup>®</sup> du Groupe Formica  
STRATIFIÉS PLUS VRAI QUE NATURE*

*Grâce à la technologie numérique, la collection 180fx<sup>®</sup> du Groupe Formica confère une dimension spectaculaire aux motifs de pierre, de quartz et de bois en capturant des images de grandeur réelle sur un stratifié durable haute résolution.*

*2019 marque le 10e anniversaire de la collection 180fx<sup>®</sup>, et nous le célébrons avec l'ajout d'un nouveau fini : SatinTouch<sup>™</sup>. Ce fini doux au toucher rehausse les designs sélectionnés en leur offrant une sensation soyeuse et une légère brillance qui attire le regard.*

*Créez et définissez votre propre vision du design avec de nouveaux modèles axés sur une palette intemporelle suffisamment polyvalente pour mettre en valeur tous les espaces intérieurs. Avec la technologie EliteForm de marque Formica<sup>®</sup>, vos motifs de la collection 180fx<sup>®</sup> seront à l'épreuve de l'usure de la vie quotidienne.*

*Le luxe abordable n'a pas de limite.*

## Formica® Ininiti

THE NEXT GENERATION IN SURFACING

Visually striking, but with state-of-the-art functionality and surprisingly little maintenance required, Formica Ininiti® is a game changer in surfacing.

As beautiful as it is durable, Formica Ininiti® surfacing features a soft-to-the-touch super matte finish, resists fingerprints and bacterial growth, and has thermal healing capabilities.

Formica Ininiti® is stocked in 16 colors, and available in all Formica® Brand standard colors on a made-to-order basis.

*Formica Ininiti®  
INNOVACIÓN EN SUPERFICIES DECORATIVAS*

*Visualmente impactante a primera vista, con un diseño funcional y un bajo mantenimiento, esto es sólo el principio con Formica Ininiti®, un elemento de cambio en superficies de revestimiento.*

*Tan hermosa como durable, Formica Ininiti® ofrece un acabado súper mate con textura suave al tacto, resistencia a huellas dactilares, con protección antimicrobiana y con propiedades térmicas de reparación.*

*Formica Ininiti® está disponible en 16 colores base, así como en toda la gama de laminados estándar de alta presión marca Formica® bajo pedido.*

*Formica Ininiti™  
LA NOUVELLE GÉNÉRATION DE REVÊTEMENTS DE SURFACE*

*Visuellement saisissant à première vue, avec des fonctionnalités à la fine pointe de l'art et de la technologie, et surprenamment facile d'entretien — Formica Ininiti™ marque le début d'une ère nouvelle dans le domaine des revêtements de surface.*

*Formica Ininiti™ présente un fini super-mat, doux au toucher, aussi beau que durable, anti-traces de doigts et muni d'une protection antimicrobienne qui peut être réparé à l'aide de la chaleur.*

*Les produits Formica Ininiti™ sont stockés en 16 couleurs et sont offerts dans toutes les couleurs de Stratifié de marque Formica® en commande spéciale.*

## dECOLeather®

RECYCLED LEATHER VENEER *by* FORMICA GROUP

dECOLeather® recycled leather veneer is a surface that beckons. dECOLeather® adds a sense of luxury to cabinets, closets, island surrounds and feature walls.

Richly grained, eco-friendly dECOLeather® brings sustainable elegance to the home and provides all the best of leather, including the look, feel and aroma—but with increased durability. dECOLeather® is available in 18 colors and three textures.

dECOLeather®  
REVESTIMIENTO DE PIEL RECICLADA BY FORMICA GROUP

El revestimiento de piel reciclada dECOLeather® es una superficie que atrae. dECOLeather® brinda una sensación de lujo a gabinetes, closets, islas de cocina y muros.

dECOLeather®, revestimiento de piel reciclada amigable con el ambiente, aporta práctica elegancia a espacios interiores y crea una atractiva atmósfera, trayendo consigo lo mejor de la piel incluyendo la apariencia, tacto y aroma, pero con mayor durabilidad. dECOLeather® está disponible en 18 colores y 3 texturas.

dECOLeather®  
PLACAGE EN CUIR RECYCLÉ DU GROUPE FORMICA

dECOLeather® est un placage en cuir recyclé converti en une surface invitante; il ajoute une touche de luxe aux armoires, aux garde-robes, aux façades d'un îlot de cuisine et aux murs d'accent.

dECOLeather®, un produit écoresponsable au grain riche, allie le design à la durabilité pour insuffler une touche d'élégance à tout espace, en ne gardant que le meilleur du cuir pour vous faire vivre une expérience tactile, visuelle et olfactive unique, tout en étant très durable. Offert en 18 couleurs et 3 textures.

## ColorCore® 2

COLOR THROUGH LAMINATES *by* FORMICA GROUP

A surfacing product with solid color all the way through, ColorCore®2 Laminate gets down to business when it comes to performance and versatility. ColorCore®2 can be machined, routed or engraved to create striking design effects any way you cut it.

ColorCore®2 is ideal for applications such as countertops, cabinets, doors, work surfaces — or anywhere you don't want to see the dark seam lines associated with traditional laminate edges.

Now available in an expanded selection of colors, patterns and finishes, ColorCore®2 has been extended to the Formica® Compact Structural Interior Laminate and Formica Infiniti® Laminate collections. ColorCore®2 Compact and Formica Infiniti® ColorCore®2 both feature color through the core for a beautiful, finished look.

ColorCore®2  
LAMINADOS DE COLOR *by* FORMICA GROUP

Un producto para superficies decorativas en todo sentido, el laminado ColorCore®2 ofrece tanto desempeño como versatilidad. ColorCore®2 puede ser cortado y grabado para crear efectos sorprendentes en diseño.

ColorCore®2 es ideal para aplicaciones tales como cubiertas, armarios, puertas, superficies de trabajo o en cualquier lugar en el cual no quiere ver líneas oscuras en las uniones que se asocian a los laminados tradicionales.

Ahora disponible en una mayor selección de colores, diseños y acabados, ColorCore®2 se ha extendido a las colecciones de Laminado Compacto Estructural Formica® y Formica Infiniti®. Tanto ColorCore®2 Compacto Fenólico, como Formica Infiniti® ColorCore®2, se embellecen con color en su núcleo.

ColorCore®2  
STRATIFIÉS COULEURS INTÉGRALES DU GROUPE FORMICA

Le stratifié ColorCore®2, un revêtement de surface avec un centre de couleur unie intégrale, est le choix par excellence lorsqu'il s'agit de performance et de versatilité. ColorCore®2 peut être usiné ou gravé afin de créer un design impressionnant.

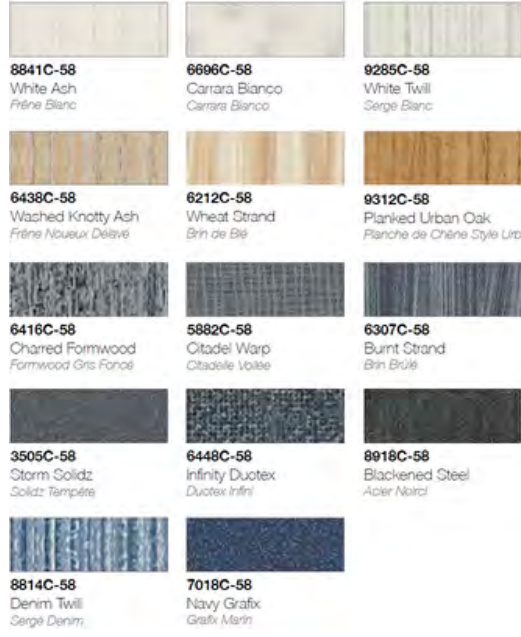

Il est idéal pour les applications telles que les comptoirs, les armoires, les portes, les surfaces de travail - ou tout autre endroit où vous ne voulez pas voir les lignes brunes; associées aux rebords des stratifiés traditionnels.

Maintenant offert dans une plus grande sélection de couleurs, motifs et finis, ColorCore®2 propose également des produits dans les collections Compact ColorCore®2, les panneaux structurels phénoliques, et Formica Infiniti™ ColorCore®2. Compact ColorCore®2 et Formica Infiniti™ ColorCore®2 présentent une couleur intégrale à travers la masse offrant ainsi une magnifique finition uniforme.

Nevamar® introduces the

## Yesteryears™ COLLECTION

### Nevamar® turns 80!

What's old is new again. Nevamar is proud to celebrate its 80th year in style by introducing the Yesteryears™ Collection, a mix of 20 new and retro inspired designs. These rich woodgrains, abstracts and solids are inspired by some of our favorite patterns over the past 80 years

Featuring a dynamic range of trend-setting styles, our designs are sleek and timeless allowing you design flexibility that take you back in time.

## Finish Options

Nevamar high pressure laminates are available in 22 different finishes designed to enhance the look and texture of any project. Please contact your local Nevamar representative or visit [Nevamar.com](http://Nevamar.com) for finish samples, grade and sheet availability. For quicker processing of your sample request, kindly use the designated finish code as listed below.

- Aged Bark (AB)** Medium-grain weathered wood
- Armored Protection® (ARP) (T)** Low gloss, textured finish with ARP
- Ashwood (AW)** Fine woodgrain with cathedral
- Barnboard (BB)** Linear plank, matte woodgrain
- Crystal (CR)** Fine pebbled finish, medium gloss
- Evolution (EV)** Smooth surface enhanced by contrasting matte and gloss organic texture
- Fineline (FL)** Deep, fine-grained linear pattern
- Gloss (GL)** High gloss, smooth finish
- Granite (GR)** Polished stone textured finish
- Groovy (GV)** Eclectic abstract pattern that appears to create motion
- LineZ (LZ)** Deeply embossed woodgrain
- Medium Gloss (MG)** Medium gloss, smooth finish
- Natural Stone (NS)** Matte surface accentuates the indentations offering a time-worn look
- Polished Velvet (PV)** Smooth, textured furniture finish
- Slate (SL)** Deeply embossed slate finish
- Soft Leather (LR)** Finely grained leather finish StoneX (SX) Natural and polished stone surface
- Super Matte (SM)** Smooth, non-reflective surface Textured | Suede (SD) Low gloss, textured finish
- Timberline (TL)** Wide grained linear texture
- Velvet (VE)** Smooth, finely grained surface
- Wood Essence (WE)** Natural, linear woodgrain finish

## Environmental Features

No matter which pattern you choose, Nevamar makes your laminate green!

Nevamar's low emission products are GREENGUARD® certified.

By formulating our own resins, we can assure you of an eco-conscious manufacturing process.

Nevamar laminates are easy to clean without using harsh chemicals.

Our products are manufactured with kraft and decorative paper from recycled or renewable sources to help preserve our forests and promote a healthier environment.

Distribution centers are strategically located across the country to reduce the use of fossil fuels when delivering Nevamar products.

Nevamar HPL surfaces do not support bacterial growth making them an ideal choice for healthcare, education and food service installations.

The mark of responsible forestry

### Multiple surfaces. One system. Amazing possibilities.

#### Same design. Different substrates

Nevamar continues its long-standing tradition of design and technical innovation featuring a broad selection of quality products. Today, our High Pressure Laminates (HPL) are more versatile than ever, with more design-forward patterns, accent colors, and finishes than ever before. Simply look at what we offer among our specialty laminates and you will know exactly what we mean.

- Thicklam®**  
Thick Phenolic provides unmatched strength for commercial countertops and casework.
- FRL®**  
Wall Protection Panels are the ideal high-impact wall and store surfacing solution for high-traffic environments.
- TFL**  
Thermally Fused Laminate offers cost-effective design and performance.
- ThruColor® HPL**  
Eliminates visible lines along laminate edges on finished products.
- HPL**  
High Pressure Laminate is a perfect surface for almost any horizontal or vertical application.

Armored Protection® laminates exclusively from Nevamar® provide more than 2X the wear protection of standard laminates, keeping your designs looking new longer. For unsurpassed resistance to abrasions and scuffs without sacrificing clarity of design, choose Nevamar laminates with Armored Protection (ARP) technology.

#### Wear Resistance Performance

(Per ANSI/NEMA LD3 test method)

**Please note:**

- Printed patterns are shown at a reduced scale from representative segments of large sheets

- Colors may differ slightly from the actual product
- Available in all Nevamar finishes
- Available for horizontal and vertical applications
- Please contact Nevamar or your local distributor for samples before specifying
- Ideal for retail, healthcare, education and other commercial applications

 Denotes New to Wallboard Items

## Technical Specifications

Technical information listed below applies to high pressure decorative laminates. For additional technical data, specification sheets, and three-part CSI, visit [nevamar.com](http://nevamar.com).

### STANDARD LAMINATE

Nevamar Standard Laminate is designed for either horizontal, vertical, or postforming applications. Typical uses include countertops, tables, vanities, interior doors, cabinets, contract furniture, and retail store fixtures. Three standard grades of Nevamar laminate are suitable for most applications.

#### G48 General Purpose Grade

**Nominal Thickness 0.048"/1.2 mm (NEMA HGS).**  
Most often used in horizontal applications where high-impact resistance and a durable, decorative surface is required.

#### F39 Postforming Grade

**Nominal Thickness 0.039"/1.0 mm (NEMA HGP).**  
Designed for manufacturing countertops and other horizontal surfaces where the laminate may be heated and rolled over the substrate edge to eliminate seams.

#### F28 Postforming Grade

**Nominal Thickness 0.028"/0.7 mm (NEMA VGP).**  
Designed for surfaces where impact resistance is less critical.

### SPECIALTY PRODUCTS

#### ThruColor™ HPL Laminate

ThruColor HPL is intended for use in applications where the edge of laminate contributes to the aesthetics of the final product. Nevamar's proprietary manufacturing process provides a second generation color-through laminate that is more flexible and much less likely to chip than other color-through laminates. ThruColor HPL colors and their corresponding colors in standard Nevamar are not exact matches. Sample evaluation is recommended. Ideal for high-wear horizontal and vertical applications such as high-end furniture.

#### ChemGuard Chemical Resistant Laminate

Available in thicknesses up to 1" (25.4 mm). Nevamar ChemGuard incorporates the decorative features of high pressure laminate into a durable, chemical resistant surfacing material. The unique manufacturing process of Nevamar ChemGuard results in a product with excellent chemical resistant properties. This feature ensures that the ChemGuard surface is more chemical resistant than competitive laminate. Nevamar ChemGuard's superior chemical resistant surface cannot be softened with heat for postforming. ChemGuard is ideal for education labs, culinary testing facilities, photographic darkrooms, nurses stations, medical, dental, and veterinary work areas and mortuaries. Thicker ChemGuard laminate can be used as structural components in laboratory bench tops precluding the use of a substrate.

#### ThickLam® Thick Phenolic Core Laminate

Available in thickness up to 1" (25.4 mm). Designed for applications where the decorative surface must contribute to the structural stability of the finished assembly. ThickLam offers the same chemical resistance properties as standard Nevamar laminate. ThickLam thick phenolic can be manufactured with enhanced chemical resistance and is available with Class A Fire rating if requested. Available in the following configurations: decorative both sides and decorative one side. Available with black or brown edge. Typical uses include toilet and dressing room privacy partitions, tabletops, doors, workstations, wall panels, and desktops.

#### Fire Rated Laminate

Designed for applications where a decorative surface must resist combustion and inhibit smoke production. Fire rated laminate is classified by Underwriter's Laboratory, Inc. under File R6581 in both the US and in Canada. Please refer to Nevamar Fire Rated Technical Bulletin for products available as IMO certified. Typical uses include elevator cabs, hospitals, schools, airports, hotels, and other public buildings where strict fire codes apply.

#### Hi-Wear Laminate

Designed for applications requiring increased abrasion and scuff resistance, the product offers more than five times the wear resistance of standard grade laminate. Due to the manufacturing process, Nevamar Hi-Wear laminate will vary in color from corresponding colors in standard Nevamar. This effect is more pronounced in darker colors and patterns. Sample evaluation prior to order placement is recommended. Typical uses include buffet counters, salad bars, checkout counters, kickboards, bartops, and restaurant counters.

#### ESD (Electrostatic Dissipative Laminate)

Developed specifically for surfacing workstations where static-sensitive electronic components are manufactured and assembled. ESD is post-formable. Works well in hospitals, medical facilities, and clean rooms as the surface will not attract dust or dirt particles. Due to the unique composition of this product, SDL colors and their corresponding colors in standard Nevamar are not exact matches. Sample evaluation is recommended.

### How to Specify:

|                        | EXAMPLE   |
|------------------------|---|
| Color Name             | Galao   |
| Color Reference Number | WX0075  |
| Finish                 | Aged Bark (AB)  |
| Size                   | 3' x 8' or 3' x 10'<br>4' x 8' or 4' x 10'<br>5' x 8' or 5' x 10' |

HÄFELE & ONEPOINTE SOLUTIONS

We have partnered with Häfele America Co. to give you a multitude of handle options for your plastic laminate furniture. If it's possible, we can get you any handle you desire.

For a full catalog of handle options, please contact us.

"Häfele" is a trademark or registered trademark of Häfele GmbH & Co., a company related to Häfele America Co. through common ownership.

Our plastic laminate casework is part of our line of custom industrial furniture and is made to align perfectly with your target aesthetic, layout, and budget. Owners and managers of dental offices, schools, libraries, apartment complexes, laboratories, testing facilities, warehouses, hotels, restaurants, and more trust our heavy-duty cabinets.

We guarantee short lead times, competitive pricing, and sleek, durable installations equipped with any finish.

With over 40 years of combined casework manufacturing experience, we offer the shortest lead times and highest quality in the custom commercial furniture industry.

## QUALITIES

### Heavy-Duty Construction

We typically use plywood or particleboard. Plywood is very heavy-duty, and serves as a great frame to support heavy countertops. Particleboard is a less expensive alternative that is more vulnerable to temperature and moisture damages, as well as screw and joint blow-outs.

### Sturdy Back Panel

Strong back panels are important for sturdy cabinets. Picture-frame backs, metal hang rods and rails, and thin panels can create massive liabilities in exchange for a reduced cost. Our full-height back panel cabinets are always built to withstand heavy loads and impacts. Choose cabinets with a thick back MDF panel, and avoid thin particleboard panels that weakened the durability of the frame.

### Soft-Close Hinges

We use high grade soft-close hinges in every single one of our cabinets. Poorly constructed hinges can cause loose, stiff, or uneven doors, and lead to costly damage over time. Our soft-close hinges are fully adjustable and eliminate noisy door and drawer slams. The nickel-plated, hardened steel construction of our hinges includes full six-way adjustability, both up-down and left-right.

### Fully Assembled in Factory

Our cabinets ship fully built, and are delivered with custom packaging to bring the probability of damage during freight nearly to zero. We send installers on-site who will stay until you are 100% satisfied with your cabinet configuration. That's our project completion guarantee. We offer many configurations, and are confident we will become your go-to casework supplier.
