How To Specify the JSN A1132 Equipment Rail and Accessory

FOR THE OFFICIAL CSI MASTER FORMAT SPECIFICATION, PLEASE REQUEST IT FROM THE MANUFACTURER.

SPECIFICATION: EVOLUTION Fairfield-Style Equipment Management Rail By Paladin Healthcare LLC

R-2XX, for example specify length, R204 designates a 4' rail

** Image shown is a seamless fit in a modular casework application and does not include end caps. **

- EVOLUTION Equipment Management Rail: a seamless, extruded aluminum profile with clear anodized finish containing a groove for attaching an adapter that supports the Owner supplied specified hospital accessories and equipment and includes termination caps at each end. The groove and adapters are designed so that the adaptor requires a seven degree tilt for attachment. The rail is designed to accommodate a seamless Wilsonart laminate decorative color inlay the length of the rail up to ten feet in length.
- EVOLUTION Equipment Management Rail shall be specified in one to ten foot lengths as shown on drawings or indicated on purchase order to accommodate room conditions. Rail will be cut to exact lengths as indicated. For lengths greater than ten feet, a JOINER piece is used to attach together multiple pieces of rail to meet the required total length. **The length of the rail is nominal for the rail only and does *not* include the end caps. Use of two end caps increases the total length of the rail by ½".
- EVOLUTION Equipment Management Rail is pre-drilled on sixteen-inch centers (minimum) with the exception of a one-foot rail length which has two mounting holes drilled at eight inches on center. The Rail may also be field drilled by the installer to accommodate specific job site conditions.
- End caps shall be constructed of injected molded thermoplastic and shall resist most hospital cleaning and disinfecting chemicals. The color shall be white and molded throughout the material. End caps shall be friction-fit without use of fastening devices.
- Decorative inlay shall be supplied by Paladin for installation by the owner or contractor. Inlay is Wilsonart laminate in the standard finish which will resist most hospital cleaning and disinfecting chemicals. Color shall specified by the Owner. Specialty coating finishes can be made available for additional cost and lead time. Alternate laminate manufacturers may be specified for additional cost and lead time. Contact manufacturer for details.
- Option to powder coat rail with anti-microbial finish (AMF) in select colors. Contact manufacturer for details.

EVOLUTION Fairfield-Style Equipment Rail

Item #	JSN #	Dimensions	
R201	A1132-1	1'W x 1"H x 1"D	1' Rail
R202	A1132-2	2'W x 1"H x 1"D	2' Rail
R203	A1132-3	3'W x 1"H x 1"D	3' Rail
R204	A1132-4	4'W x 1"H x 1"D	4' Rail
R205	A1132-5	5'W x 1"H x 1"D	5' Rail
R206	A1132-6	6'W x 1"H x 1"D	6' Rail
R207	A1132-7	7'W x 1"H x 1"D	7' Rail
R208	A1132-8	8'W x 1"H x 1"D	8' Rail
R209	A1132-9	9'W x 1"H x 1"D	9' Rail
R210	A1132-10	10'W x 1"H x 1"D	10' Rail

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

How to read our part numbers (*very important*)

Part numbers ending in “-P” = Plate (Rail Mounting Solution without Accessory)

This means the item to be mounted is NOT included in the purchase. It’s just the mounting plate and adapter kit necessary to mount the item to the rail. Some additional installation maybe required to a 3rd party device.

Part numbers ending in “-PM” = Plate Mounted (to item)

This means the item itself is Paladin factory mounted to the plate and adapter kit necessary to mount the item to the rail. The item and adapter kit are both included in the price. Maybe used for its intended purpose out of the box.

Part numbers including “HV” = Horizontal or Vertical (mounting options)

This means the mounting plate has integral options for mounting the item either horizontally, or vertically, on the rail.

You and your sales rep will specify the initial orientation of the item and will receive it from the factory ready to hang in the orientation specified.

If a field change is required, simply remove the adapters and relocate them into the alternate hole pattern.

How our Evolution rail system works

For an image-based explanation, see page 6: “Required Parts and Pieces”

We use a 3-Part system to turn your wall mounted items into a componentized method of mounting and managing your equipment in a way that is flexible, adaptable, and expandable now and throughout the lifecycle of the facility.

1. Rail (Evolution Equipment Rail)
2. Plate + Adapter = Mounting Kit
3. traditionally wall mounted Item

The mounting kit marries the traditionally wall-mounted item to the rail. Items can be locked in place on the rail by tightening the Allen screws on the bottom of the adapter.

When a change of devices or process is necessary, simply snap the item off of the rail, snap it onto the rail in its new location, test your new workflow process, and lock the items to the rail when the layout is efficient. Change is a Snap!

We have hundreds of product mounting solutions available

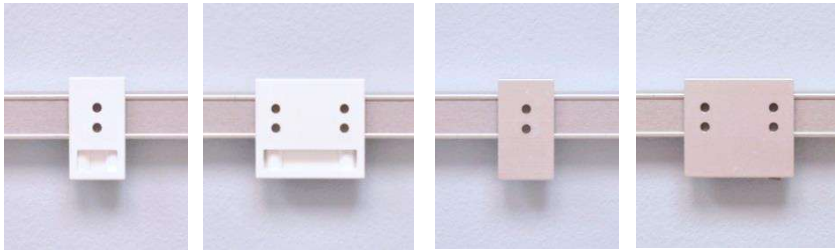

If you don’t find what you need in this catalog, please call us! We might have a solution already! If we haven’t, we are more than happy to design one for you!

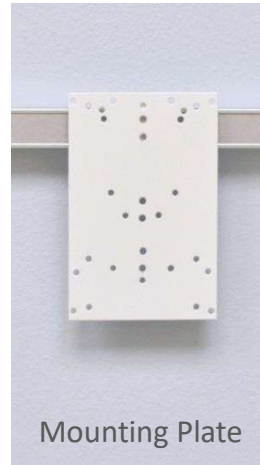

JSN A1132: Required Parts and Pieces Fairfield-style Equipment Rail System

Paladin's Fairfield-style Equipment Rail with inlay

Adapters – every “mounting kit” includes an adapter

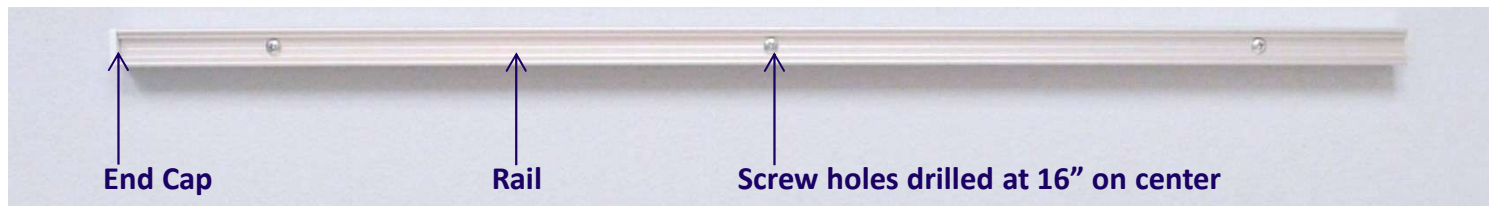

Mounting Plate

Device

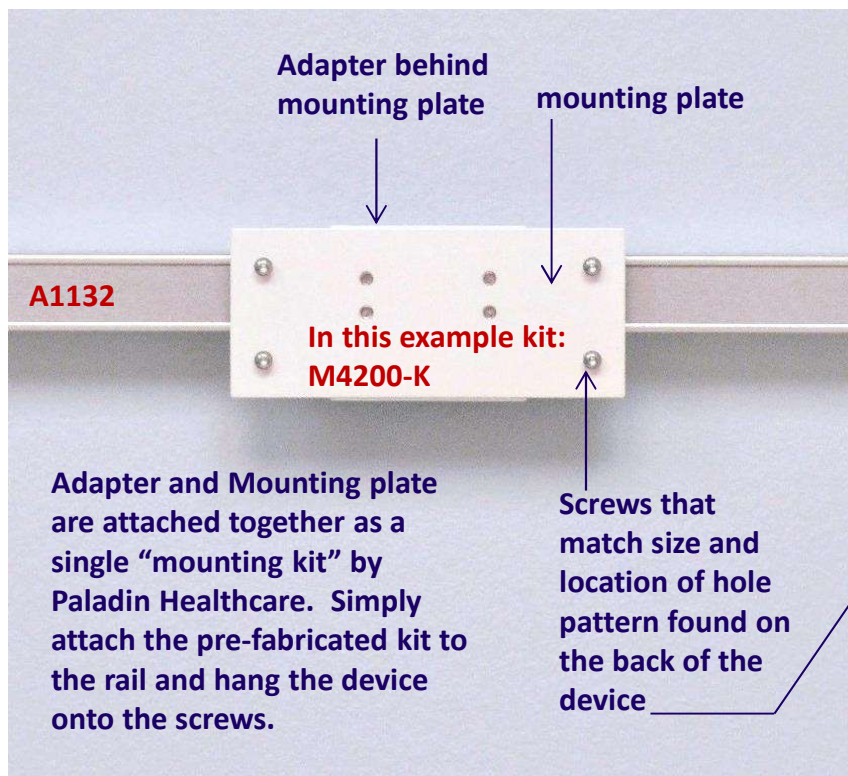

****The Mounting Kit is determined by the device to be hung on the rail. User provides device specification.****

End Cap

Rail

Screw holes drilled at 16" on center

Adapter behind mounting plate

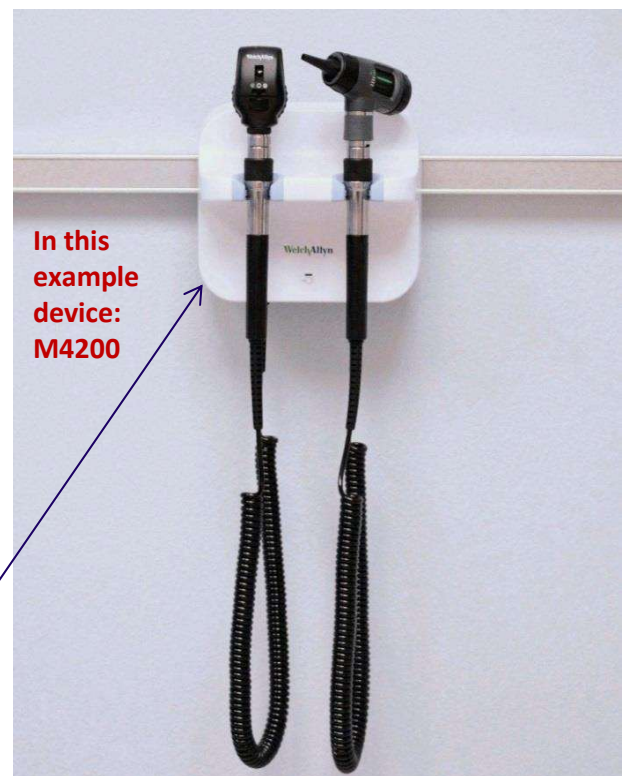

mounting plate

A1132

**In this example kit:
M4200-K**

Adapter and Mounting plate are attached together as a single “mounting kit” by Paladin Healthcare. Simply attach the pre-fabricated kit to the rail and hang the device onto the screws.

Screws that match size and location of hole pattern found on the back of the device

**In this example device:
M4200**

User provides make and model of the item to be mounted. Paladin Healthcare determines which adapters and plates are used on a per product basis.

Devices may or may not be included. Refer to catalog description for device inclusion information. Consult your sales rep for details.

Complete kit for mounting all diagnostic related instruments on A1132 Rail

MADE IN THE USA

Item Number: DEM100-4-P
For mounting of JSN Numbers:

A1132-4 48" Rail
M4100A Blood Pressure Devices
M4200-X Opth/Oto Scope device
M4200A-X Speculum Holder
M4200 Thermometer
M4100B Basket

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Complete Mounting Plate Kit
with 4ft rail, adapters and BP
cuff basket for the equipment
components of the owner
provided Welch Allyn 777
diagnostic instruments on a
4ft Rail

Welch Allyn products are not included.

Item Number: DEM100-4-K

Individual mounting plates for attaching instruments to the A1132 Rail

Mounting Plate

for owner provided Welch Allyn ophthalmoscope (models 767/777)
(Welch Allyn products are not included)

JSN Number: M4200-X

Item Number: DEM108-P

Dimensions:

6"W x 2.5"H x 1"D

Weight: 1lb

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate

for owner provided Welch Allyn
specula holders (Welch Allyn
product is not included)

JSN Number: M4200A-X

Item Number: DEM109-P

Dimensions:

2.75"W x 4"H x 1"D

Weight: 1lb

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

MADE IN THE USA

Mounting Plate

for owner provided Welch Allyn aneroid BP sphygmomanometer Tycos 509 (Welch Allyn product is not included)

JSN Number: M4100A

Item Number: DEM106-P

Dimensions:

1.5”H x 5.5”W x 1”D

Weight: 1lb

Suggested for use in conjunction with SM-101 BP cuff basket

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with BP cuff basket factory
attached

JSN Number: M4100B
Item Number: SM101-PM

Dimensions:
7”H x 6.75”W x 4”D
Weight: 2lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
for owner provided Welch Allyn
“Sure Temp” thermometer
model 692 (Welch Allyn
product is not included)

JSN Number: M4200
Item Number: DEM110-P

Dimensions:
4.25”H x 7.5”W x 1”D
Weight: 1lb

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with Welch Allyn 71420 tray
for owner provided 71140 desk
charger (charger and
instruments are not included)

Requires user defined
JSN number

Item Number: DEM103-PM

Dimensions:
1.5”H x 7.5”W x 4.75”D
Weight: 3lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Combination Mounting Kit:
Mounting Plates for both owner provide Welch Allyn ophthalmoscope (models 767/777) and owner provided specula holders (Welch Allyn products are not included)

JSN Number: M4200-X and M4200A-X
Item Number: DEM198-K

Dimensions:

Specula Mounting Plate:

2.5”H x 6”W x 1”D - Weight: 1lb

Ophthalmoscope Mounting Plate:

6”H x 2.5”W x 1”D - Weight: 1lb

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Combination Mounting Kit:
Mounting Plates for both owner provided Welch Allyn ProBP 3400 model wall mount #34XFWT-B and BP cuff basket factory attached (Welch Allyn products are not included)

JSN Number: Requires user defined JSN number

Item Number: DEM196-K

Dimensions M4100:
1.5”H x 5.5”W - Weight: 1lb

Dimensions M4200:
7”H x 6.75”W x 4”D - Weight: 1lb

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate

for owner provided Welch Allyn
“Connex Integrated Wall
System” comprehensive
diagnostic center (Welch Allyn
products are not included)

Requires user defined
JSN number

Item Number: DEM105-P

Dimensions:
7”H x 11”W x 1”D
Weight: 2lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
for owner provided Baum
Aneroid BP sphygmomanometer
(Baum product is not included)

**Requires user defined
JSN number**

Item Number: DEM116-P

**Dimensions:
3.5" H x 3.5" W x 1" D
Weight: 1lb**

Suggested for use in conjunction with
SM-101 BP cuff basket

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

** Welch Allyn equipment SOLD SEPARATELY

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
for owner provided Welch Allyn S-shaped spot monitors with horizontal monitor mount (Welch Allyn products are not included)

Welch Allyn Spot Vital Signs Device with Nellcor SpO2, SureTemp Thermometry, Non-invasive Blood Pressure, Pulse Rate, MAP; 120 V, 60 Hz AC, Lithium Ion (#105631) Battery; IEC Plug Type-B. Various part numbers available for this monitor type. Part Number: 42NTB-E1 - GTIN: 00732094005714

JSN Number: Requires user defined JSN number

Item Number: DEM164-P

**Dimensions:
12”H x 3”W x 1”D**

Weight: 1lb

Mounting Plate
with monitor arm and GCX
channel factory mounted for
owner provided Welch Allyn
300 series vital signs
monitor (Welch Allyn
products are not included)

JSN Number: M4116-B
Item Number: DEM167-PM

Dimensions:
6”H x 4”W x 8”D
Weight: 5lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
for owner provided wall mount
for Welch Allyn thermometer
Thermoscan Pro 6000, or for
Genius 3 Tympanic thermometer
#CESS-A-GEN030
(Welch Allyn products are not
included)

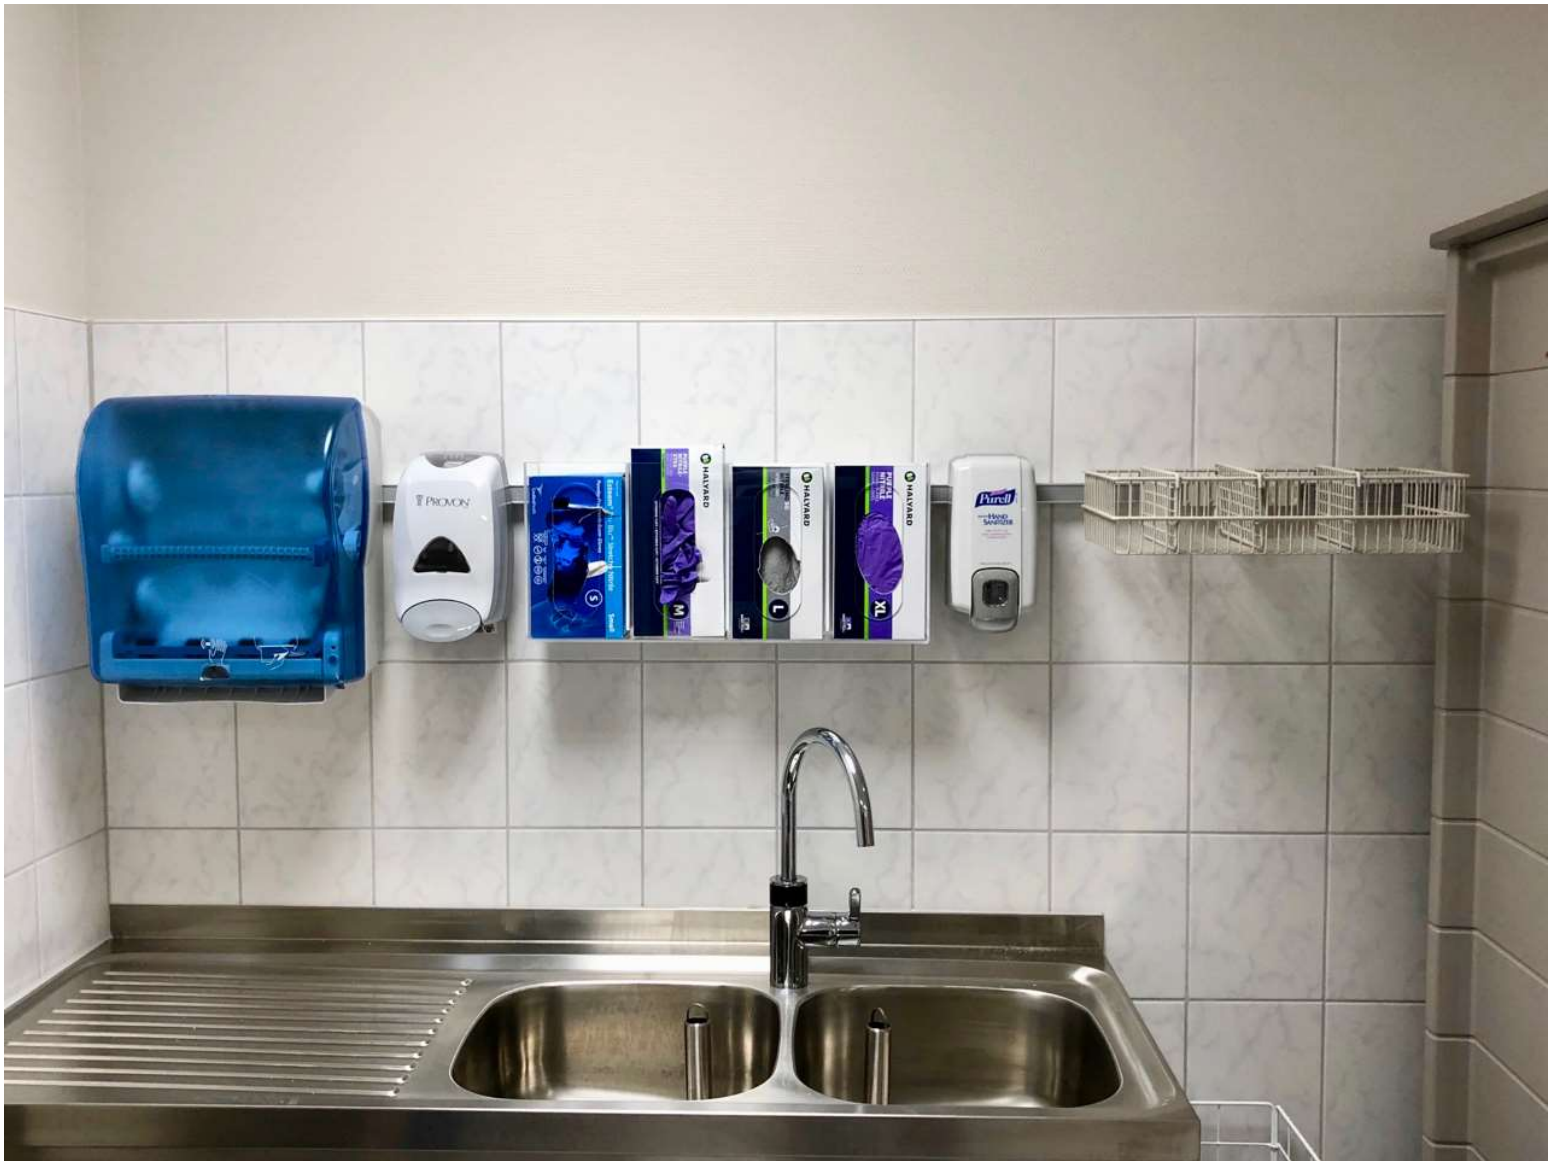

JSN Number: M7910
Item Number: DEM170-P

Dimensions:
6”H x 1.5”W x 1”D
Weight: 5lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Soap / Sanitizer / Wipes / Sharps / Paper Towels

Universal Mounting Plate
for most owner provided wide
body soap / sanitizer
dispensers (dispenser and
sanitizer are not included)

JSN Number: A5075A
Item Number: IC110-P

Dimensions:
7.5”H x 4.5”W x 1”D
Weight: 1lb

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate with universal width adjustable holder
for most brands of sanitizing wipes (wipes are not included)

JSN Number: Requires user defined JSN number

Item Number: IC112-PM

**Dimensions:
6”H x 5”W x 5”D
Weight: 2lbs**

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate

for owner provided GA Pacific
EnMotion paper towel
dispenser (model 59462)
(dispenser is not included)

Specific model number must be
verified prior to order
placement.

JSN Number: A5082A-X

Item Number: IC405-P

Dimensions:

10"W x 1"D x 9.125"H

Weight: 2lbs

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Adapter Plates are aluminum with an anti-microbial powder coat painted finish (AMF).
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with gloves box holder,
ABS plastic with internal dividers.
(glove boxes are not included)

Available in single, double, triple and quadruple. Please specify prior to order placement.

JSN Number: A5107A
Item Number: IC226-PM

Dimensions:
10.125”H x 17”W x 4.25”D (triple)
Weight: 3lbs

Item Description:

- Mounts to “EVOLUTION,” Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer’s devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate
with heavy duty acrylic gloves
box holder
(glove boxes are not included)

Available in single, double, triple and quadruple. Please specify prior to order placement.

JSN Number: Requires a user defined user number
Item Number: IC287-PM

Dimensions:
10"W x 18.75"H x 5"D (triple)
Weight: 3lbs

Item Description:

- Mounts to "EVOLUTION," Fairfield-style Medical Equipment Management Rail using a snap action adapter with positive snap attachment lock feature.
- Integrated Allen screws provide the ability to lock the adapter in place on rail.
- Standard adapters are plastic with embedded anti-microbial compound.
- Some accessories which require heavy-duty capacity will be provided with extruded aluminum adapter(s) and/or wall stand offs for added strength.
- Some plates have multiple holes to attach future products from different vendors without the need to purchase new plates each time.
- Some plates allowing adaptability to user demand, new codes or new vendor products without going to the wall and adjusting the rail itself.
- Alternate mounting kits available for other manufacturer's devices. Please contact your Sales Representative.
- Accessories now available for Modular, Hill-Rom/Wittrock and AMICO Style Rails.

Mounting Plate

for owner provided GA Pacific SofPull paper towel dispensers (models 58487 and 58470) (dispenser not included)

JSN Number: A5082-X

Item Number: IC411-P
