Re: Task Order
 Contract Number: PS1836
 Task Order Number: 04685-PS1836-TO935
 Project Name: 2017 OVS Camera/Network Maintenance
 Services: Maintenance and Repairs
 User Agency: Office of Emergency Management and
 Communication

Dear Mr. Ramsey:

The Public Building Commission of Chicago accepts Motorola Solutions, Inc. Task Order Proposal dated March 2, 2017.

2017 OVS Camera/Network Maintenance

\$3,587,078.74 Fee for Basic Services as described in the attached proposal

The value of the task order is for a total amount of \$3,587,078.74. This project is subject to the terms and conditions in Contract# PS1836. The following Commission Representative will be issuing a Notice to Proceed:

- Project Manager Name: Randy Williams
- Project Manager Telephone #: 312-545-0150

The Notice to Proceed authorizes Motorola Solutions, Inc. to proceed with the Scope of Services described in the proposal.

The above referenced services have been approved by the Executive Director of the Public Building Commission of Chicago.

Raven A. DeVaughn, Director of Procurement

Task Order 935
2017 OVS MAINTENANCE PROGRAM

This Task Order is effective as of February 22, 2017 and is by and between the Public Building Commission of Chicago (“PBC”), a municipal corporation and unit of local government existing under the Constitution of the State of Illinois on behalf of itself and the City of Chicago, a municipal corporation and home rule unit of local government existing under the Constitution of the State of Illinois (the “State”) and Motorola Solutions, Inc., a Delaware corporation (“Vendor” or “Motorola”) and is issued under and is subject to the terms and conditions set forth in the Master Agreement, dated January 19, 2011, between the PBC and Vendor (the “Agreement”), except as noted below and is incorporated by reference therein. All capitalized terms not defined herein shall have the meaning set forth in the Agreement.

This Task Order is issued in connection with that certain Master Intergovernmental Agreement dates as of April 19, 2011, between the Public Building Commission and the OEMC, City of Chicago for the OEMC Camera Surveillance Network Infrastructure Program.

RECITALS

- A. The Agreement provides that Services, and Goods and Software must be authorized in writing in a Task Order that describes with particularity such Services, and Goods and Software, together with any Deliverables, a timetable for delivery, and other specific commercial terms and conditions regarding such Services, Goods and Software, including the applicable Fees.
- B. The PBC desires that Vendor provide certain Services, Goods and Software in connection with the project in accordance with the Agreement and as set forth herein, and Vendor desires to provide such Services, Goods and Software in accordance with the Agreement and as set forth herein.
- C. Vendor is solely responsible for successful completion of all work (regardless if performed by a subcontractor), customer satisfaction and any remediation required.

NOW, THEREFORE, in consideration of the foregoing premises and the mutual covenants set forth below, the Parties agree as follows:

ARTICLE 1. TASK ORDER AND NOTICE TO PROCEED

Upon execution of this Task Order by the Executive Director or by the Authorized Commission Representative if this is an Emergency Task Order, Vendor may commence performance of the Services set forth in this Task Order

ARTICLE 2. MAINTENANCE AND SUPPORT SERVICES

OVERVIEW

Motorola's comprehensive maintenance program for the OVS Camera Infrastructure Program is comprised of the following services:

- Network Monitoring, Dispatch Service and On Site Response
- Preventive Maintenance
- Infrastructure Repair
- Warranty Support
- System Manager Support
- On-site Support Services
- Field Support Services
- Dedicated Technical Resource
- Uptime Reporting
- Software Maintenance and Support
- A/V Maintenance
- Deliverables

Contact information, notification procedures, escalation procedures, and Site ID's for equipment locations will be detailed in the Customer Support Plan ("CSP") that will be delivered upon execution of this Task Order.

NETWORK MONITORING, DISPATCH SERVICE AND ON SITE RESPONSE

Motorola will provide Network Monitoring, Dispatch Service and On Site Response services for the OVS Camera Infrastructure Program.

Description of Services

Network Monitoring is a service designed to electronically monitor the IP's of OVS Network Infrastructure for events when the Motorola System Support Center (SSC) detects an event, a technologist initiates an appropriate response per the Customer Handling Procedure. Appropriate responses could include, but are not limited to, continuing to monitor the event for further development or opening a case for dispatch of a servicer. If dispatched, the servicer will respond to location of the outage based on pre-defined Severity Levels set forth in the Severity Definitions Table and response times set forth in the On-Site Response Time Table in order to restore the system.

Severity Definitions Table

Severity Level	Problem Types
Severity 1	<p>Response is provided Continuously</p> <ul style="list-style-type: none"> • Major failure (as defined in the CSP) in the following items: <ul style="list-style-type: none"> ○ Cisco fiber optic infrastructure (repair not covered in this contract) ○ Video management system (repair not covered in this contract) ○ Storage facilities ○ Severity 1 Camera/edge equipment per the camera location priority list in the CSP • This level is meant to represent a major issue that results in an unusable system, sub-system, Product, or critical features from the user's perspective. No Work-around or immediate solution is available.
Severity 2	<p>Response during Standard Business Day</p> <ul style="list-style-type: none"> • This level is meant to represent a moderate issue that limits a Customer's normal use of the system, sub-system, product, or major non-critical features from a Customer's perspective • Severity 2 Camera/edge equipment per the camera location priority list in the CSP • System problems presently being monitored • Intermittent system issues • Information questions • Upgrades/Preventive maintenance
Severity 3	<p>Response during Standard Business Day</p> <ul style="list-style-type: none"> • This level is meant to represent a minor issue that does not preclude use of the system, sub-system, product, or critical features from a Customer's perspective. It may also represent a cosmetic issue, including documentation errors, general usage questions, recommendations for product enhancements or modifications, and scheduled events such as Preventive maintenance or product/system upgrades. • Severity 3 Camera/edge equipment per the camera location priority list in the CSP • Intermittent system issues • Information questions • Upgrades/Preventive maintenance

On-Site Response Time Table (Customer's Response Time Classification is designated in the Service Agreement).

Severity Level	Response Time On Site	Off Deferral
Severity 1	Within 4 hours from receipt of Notification 24/7, Monday through Fridays and Holidays. When feasible* repair within 8 hours**	Time provided by Servicer
Severity 2	Within 24 hours from receipt of Notification Standard Business Day. When feasible* repair within 48 hours**	Time provided by Servicer
Severity 3	Within 48 hours from receipt of Notification Standard Business Day	Time provided by Servicer

- "Feasible" repairs are those where spare parts are in-stock and available for immediate deployment into the field. Motorola will be responsible for recommending appropriate spare parts inventory levels and regularly reporting on the current inventory levels.
- Failure to meet the specified repair times for severity 1 and severity 2 issues will result in a \$500 credit for severity 1 issues and \$250 credit for severity 2 issues for each occurrence where the issue was not resolved in the specified repair time, subject to the above definition of a feasible repair.

Camera severity levels will be detailed in the Customer Support Plan ("CSP").

Motorola will provide case management as set forth herein. The SSC maintains contact with the on-site servicer and System Manager until system is restored and the case is closed. The SSC will continuously track and manage case activity from open to close through an automated case tracking process.

Motorola Responsibilities

1. Provide dedicated connectivity through a private network connection necessary for monitoring the OVS Camera Infrastructure Program network elements.
2. If determined necessary by Motorola, provide Motorola owned equipment for monitoring OVS Camera Infrastructure Program network elements.
3. Verify connectivity and event monitoring prior to System Acceptance or start date.
4. Continuously receive data from customer monitored system and customer initiated service requests.
5. Remotely access the system to perform remote diagnosis.
6. Create a case, as necessary. Gather information to perform the following:
 - Characterize the issue
 - Determine a plan of action
 - Assign and track the case to resolution
7. Dispatch a Servicer, as required, by Motorola standard procedures and provide necessary case information.
8. Ensure the required personnel have access to information as defined in the Customer Support Plan.
9. Disable and enable system devices, as necessary, for servicers, if feature is available per device capabilities.
10. Servicer will perform the following on-site:
 - Run diagnostics on the equipment
 - Replace defective equipment that is identified in the recommended spares list (PBC/OEMC owned/provided); if required part is not available, PBC/OEMC will be notified and an action plan will be developed; if required parts are not available from the customer provided spares, then the required repair time will be waived

- Provide tools, diagnostic/test equipment, and any other requirements necessary to perform the Maintenance service (excluding spare parts)
 - If a third party vendor is needed to restore the system, the servicer may accompany that vendor onto the premises
11. Escalate the case to the appropriate party upon expiration of a response time.
 12. Close the case upon receiving notification from servicer, indicating the case is resolved.
 13. Notify PBC/OEMC of case status, as described in the CSP at the following case levels:
 - Open and closed; or
 - Open, assigned to the servicer, arrival of the servicer on site, deferred or delayed, closed
 14. Provide the following reports weekly:
 - Case activity reports
 - Network Monitoring Service reports for OVS system(s)
 - Network performance report
 15. Respond in accordance to pre-defined response times.

PBC/OEMC Responsibilities

1. Allow Motorola continuous remote access to obtain system availability and performance data.
2. Allow Motorola to access system if firewall has been installed; provide permanent/dedicated access for SNMP traps. Also provide continuous utility service to any Motorola equipment installed or utilized to support delivery of the service.
3. Unless otherwise specified, Motorola recommends a private network connection for all other systems.
4. Provide Motorola with pre-defined information and preferences prior to start date necessary to complete Customer Support Plan., including, but not limited to:
 - Case notification preferences and procedure
 - Repair Verification Preference and procedure
 - Database and escalation procedure forms
 - Submit changes in any information supplied in the Customer Support Plan to the System Manager
5. Provide the following information when initiating a service request:
 - Assigned System ID number
 - Problem description and site location
 - Other pertinent information requested by Motorola to open a case
6. Notify the SSC when PBC/OEMC performs any activity that impacts the system.
(Activity that impacts the system may include, but is not limited to, installing software or hardware upgrades, performing upgrades to the edge devices, or taking down part of the system to perform maintenance.)

7. Allow servicers access to equipment (including any connectivity or monitoring equipment) if remote service is not possible.
8. Allow servicers access to remove Motorola owned monitoring equipment upon cancellation of service.
9. Supply equipment per the recommended spares list in order for Motorola to restore the system.
10. Maintain and store in an easy accessible location any and all software needed to restore the system.
11. Maintain and store in an easily accessible location proper system backups.
12. Provide all OVS managed passwords required to access OVS system to Motorola upon request or when opening a case to request service support or enable response to a technical issue.
13. Pay additional support charges above and beyond the contracted service agreements that may apply if it is determined that system faults were caused by the PBC/OEMC making changes to critical system parameters.
14. Cooperate with Motorola and perform all acts that are reasonable or necessary to enable Motorola to provide the services described in this Task Order.

PREVENTIVE MAINTENANCE

Preventive Maintenance ("PM") services will be provided once per year to ensure the equipment meets the original manufacturer's specifications. PM assures that your edge devices and network backbone are running in top condition. This service proactively detects those potential issues that may result if the equipment is not meeting original manufacturer's specifications. PBC/OEMC can help prevent a system malfunction and minimize their costly repairs, thus managing their operations and maintenance budget. Motorola's technicians have immediate access to engineering design teams and multiple technology experts. The technicians are equipped with detailed checklists describing what and how the pieces of equipment need servicing with the goal to maximize uptime.

Any repairs required will be completed and documented while on site if possible. A case will be opened for any issues discovered during the PM that are not correctable while on site.

If a PM is accomplished during a non-scheduled service call and within 30 days of the scheduled PM, this PM will be considered as the PM for that annual period.

PMs included in this task order:

- One PM per year for all cameras listed
- Two PMs per year on lake front cameras

Motorola Responsibilities

1. Notify the PBC/OEMC of any possible system downtime needed to perform this service.
2. Physically inspect the infrastructure equipment in the system including all cabling, connectors and wiring.
3. Remove any dust, and/or foreign substances from the infrastructure.
4. Clean filters, if applicable.
5. Measure, record and adjust the infrastructure equipment parameters in accordance with the manufacturer’s specifications and the Rules and Regulations of the Federal Communications Commission (FCC), where applicable.
6. Provide PBC/OEMC schedule of PMs within two weeks of NTP and update and provide schedule weekly thereafter. Schedule will include PMs performed and the results of the PM.

PBC/OEMC Responsibilities

1. Approve the agreed upon preventive maintenance schedule as provided by the System Manager.
2. Authorize and acknowledge any scheduled system downtime.
3. Provide the servicer full, free, and safe access to the equipment so that the servicer may provide services. All sites shall be accessible by standard service vehicles.
4. Provide escort for areas deemed unsafe.
5. Cooperate with Motorola and perform all acts that are reasonable or necessary to enable Motorola to provide the Preventive Maintenance services.

A PM includes the following:

Preventive Maintenance Procedures

Element	Preventive Maintenance Procedures
Edge Devices	
EBOX W/Camera	<ul style="list-style-type: none"> • Check for physical defects to housing. • Check for loose wiring and mounting hardware. • Wipe down lenses.
LPOD/CPD POD	<ul style="list-style-type: none"> • Wipe down lenses. • Check for physical defects to housing and camera. • Check for loose wiring and mounting hardware.
MotoPOD	<ul style="list-style-type: none"> • Wipe down lenses. • Check for physical defects to housing and camera. • Check for loose wiring and mounting hardware.
UPS	<ul style="list-style-type: none"> • Visit all UPS locations and verify power supplies, batteries, switches are free from defects

INFRASTRUCTURE REPAIR

Description of Services

Infrastructure may be repaired down to the component level, as applicable, at the applicable vendor. If infrastructure is no longer supported by the original equipment manufacturer or third party vendor, and is deemed not economically feasible to repair, Motorola will provide a Task Order proposal for replacement equipment.

Service issues that are not due to malfunctioning equipment covered under this task order will be considered outside the contract and will require a Field Order for repair.

Sources of services issues outside Motorola control can include:

- Infrastructure issues caused by an outside source damaging host power
- Support structure being hit by a vehicle
- Acts of God
- External causes such as interference
- Fiber issues

The Motorola System Support Services Team will be responsible to:

1. Provide repair return authorization numbers when requested by the PBC.
2. Provide the following services on infrastructure:
 - Perform pre-diagnostic and repair services to confirm infrastructure malfunction and eliminate sending Infrastructure with no trouble found (NTF) to third party vendor for repair, when applicable
 - Ship malfunctioning infrastructure to the original equipment manufacturer or third party vendor for repair service, when applicable
 - Track infrastructure sent to the original equipment manufacturer or third party vendor for service
 - Perform a post-test after repair to confirm malfunctioning infrastructure has been repaired and functions properly. Upon completion of post-test provide root cause analysis of the malfunction
 - Re-program repaired Infrastructure to original operating parameters based on archived templates. If Motorola determines that the malfunctioning infrastructure is due to a software defect, Motorola reserves the right to reload Infrastructure with a similar software version
 - Properly package repaired infrastructure
 - Return repaired infrastructure back into spares stock
 - Provide recommendations on spares stock level
 - Provide photo evidence of equipment needing time and materials repair including before and after photos of all repairs

PBC/OEMC Responsibilities

1. In the event that an issue is discovered by PBC/OEMC, they will contact the System Support Management Team and request a return authorization number prior to shipping malfunctioning infrastructure or third party infrastructure.
2. Provide model description, model number, serial number, type of system and firmware version, symptom of problem and address of site location for infrastructure.
3. Indicate if infrastructure or third party Infrastructure being sent in for service was subjected to physical damage or lightning damage.
4. Follow Motorola instructions regarding inclusion or removal of firmware and software applications from infrastructure being sent in for service.
5. Cooperate with Motorola and perform all acts that are reasonable or necessary to enable Motorola to provide the infrastructure repair services.

Exceptions

- Physical fiber optic cable and connections are not included

WARRANTY SUPPORT

The Motorola System Management Services Team will provide support services for equipment warranty issues. Motorola will handle equipment under the umbrella of this task order that is currently under warranty and or out of warranty.

For equipment in warranty, Motorola will perform the following:

- Diagnose inoperable equipment at the location and remove when necessary
- Replace removed equipment at location with spare, if available
- Capture serial number information, site location, etc. to be updated in administrative records
- Troubleshoot equipment
- Return equipment to manufacturer (RMA) for repair, as needed
- Receive repaired equipment and place in spare inventory

For equipment out of warranty, Motorola will perform the following:

- Diagnose inoperable equipment at the location and remove when necessary
Replace removed equipment at location with spare, if available
Capture serial number information, site location, etc. to be updated in administrative records
- Troubleshoot equipment and gather quotes for repair
- Motorola Customer Service Manager will produce a Field Order with estimate of repair and associated administrative costs (i.e., shipping, tracking, etc.) and provide to PBC PM
- Receive Field Order PBC PM approval to proceed with repair
- Ship equipment to manufacturer or other for repair

- Receive repaired equipment and place in spare inventory
- Update Field Order with firm pricing and receive signoff and acceptance

SYSTEM MANAGER SUPPORT

Motorola will provide a team of support staff to support the OEMC onsite and remotely. The team will be led by a System Manager who will be the direct point of contact for the customer for all maintenance and service activities included in this contract. The System Manager will also provide oversight of all onsite support and subcontractors working on maintenance services as part of this contract.

The team will be responsible for the following:

Contract Compliance:

- Ensure the Terms and Conditions of the warranty/maintenance contract are met
- Coordinate service activities and ensure compliance to contract
- Ensures compliance with response/restoration time commitment
- Remotely diagnose system failure and facilitate call management as applicable
- Manage Emergency Service efforts and escalation procedures
- Manages MBE/WBE participation requirements clauses
- Monitor EEO compliance
- Ensures compliance of all safety rules

Reports:

- Maintain accurate records and service history statistics
- Maintain accurate records of spare equipment and generate quarterly reports for customer
- Review service information and quality reports generated by system service database
- Communicate user issues as they occur
- Monitor service bulletins and communicate to customer
- Prepares briefings for PBC/OEMC

Coordination:

- Coordinate on-going continuous improvement efforts for system
- Coordinate efforts to develop new metrics for measurements
- Work with PBC/OEMC and Motorola Sales Account Executive to formulate future system requirements
- Work with PBC/OEMC, Motorola System Engineers, and third party contractors to review design recommendations for upgrades, additions, modifications, and/or improvements to the system to ensure compatibility

ON SITE SUPPORT SERVICES

Motorola will provide On-site Support Services to support the team effort. Responsibilities on-site include:

- Provide an onsite contact to the customer for network and/or system troubleshooting, system and network monitoring, system upgrades and modifications
- Manage the resources available to sustain optimal uptime and maximum beneficial use of the system
- Review service information and quality reports generated by the system service database to determine an ongoing course of action
- Inventory control and management
- Prepare various reports at regular intervals from system performance metrics

FIELD SUPPORT SERVICES

Motorola will provide Field Support Services that will assist the team in the necessary scope in the field to maintain the system and continue to keep hardware up to date. The responsibilities of the Field Support Services include:

- Troubleshoot and perform technical support in the field on projects related to general camera maintenance for camera locations provided in this contract
- Provide administrative support associated with troubleshooting and technical support
- Program, configure and optimize existing or RMA replacement equipment, troubleshoot hardware and camera issues, assist in monitoring of existing hardware on the network and optimizing, as necessary
- Equipment and materials order management
- Equipment warranty services and assistance with producing network and system reports
- Subcontractor coordination, SOWs, oversight and M/WBE compliance

DEDICATED TECHNICAL RESOURCE

Vendor will supply a technical support resource. Tasks for the technical resource will include, but are not limited to:

- Video Management System administration and upgrade
- Support for private sector camera integration
- Ad-hoc requests
- Tier 1 support, Wednesday–Friday between the hours of 7:00 am to 7:00 pm

If mutually agreeable, between Motorola and the PBC, the PBC can request work be completed on Saturday, Sunday, holidays and after hours. If requested to work after hours and agreed upon the vendor will convert time with normal working hours owed to the OEMC at a rate of (1 hour overtime = 1.5 hours straight time).

Motorola Solutions will provide technical assistance to public safety personnel as it relates to the use of all aspects of the public safety camera system and associated applications through a dedicated individual. This individual's primary responsibility will be to perform

periodic checks of all camera systems and applications to validate proper performance ensure accuracy and reliability.

The services will be billed at a rate of \$218 per hour allowing for an aggregated total of 1,500 hours over the Task Order executable timeline. Support services will be provided during normal business hours to the greatest extent reasonable, unless otherwise agreed to. Off hours work (nighttime, weekends, holidays) can be quoted upon request.

Technical Resource Responsibilities

In this document, the term “update” or “updates” is intended to mean an action that modifies or changes an application (or application component) in the described manner, after the application (or component) has been successfully installed, configured, optimized and commissioned. Similarly, an update is not a maintenance task to repair a broken application or component that would be the responsibility of the application vendor under separate maintenance agreement. An update is work that is not typically performed as part of a task order, nor is it performed as part of a maintenance agreement, but rather is a method of managing the application for optimal use.

Specific Duties and Responsibilities

Genetec Security Center

- Updates to user or user groups permissions and partitioning
- Updates as required for OC, EOC, and CPD adoption of SC including discussion to determine how Security Center functions within specific scenarios they require
- Updates and re-integration as sister agencies upgrade version for instances that software or hardware is not required to support the changes
- Point of contact for user issues for Security Center or additional training
- Monthly check of external federations for changes and implementation of changes when possible; documentation of any issues with sister agency cameras that cannot be resolved
- Work with sister agencies in preparation for any planned upgrades, document any impact to OEMC's ability to view cameras; work with Motorola to identify additional hardware or software costs associated with any planned upgrade
- Re-integrated sister agencies after upgrade if there are not any additional hardware or software costs

GIS Mapping

- Updates to HBK GIS database and verification between Vidsys, SC, Omnicast, for changes or additions from sister agencies or tasks completed within this scope that are not included in other task order work
- Updates and formalization of CAD update process based of HBK shape file and switch from logical IDs to GUID IDs
- Updates and formalization of changes to CLEAR database for any cameras renamed and inclusion of sister agency cameras

- Point of contact for user issues for GIS web portal or additional training
- Provide weekly report to PBC/OEMC

PC Hardware and Software

- Updates to PC operating system hardware and software that may be specifically required to support the operational needs of any of the above applications and is not specifically included in the scope of another task order or contract.

Other related duties may be assigned by the OEMC Program Director on an as needed basis.

Technical Resource Assumptions

- Support services will be provided during normal business hours to the greatest extent reasonable, unless otherwise agreed to
- If the named individual is not available on a certain day advanced notice shall be given; in the event that it is multiple days Motorola but will use best efforts to find a suitable replacement which is at the discretion of the OEMC, Motorola Solutions has 30 days to find a suitable replacement to be approved by the OEMC
- Both parties of this agreement reserve the right to terminate this agreement for convenience with a 7 day notice provided to the other party in writing, upon such termination, payment for any unperformed hours of service will be credited to the customer and an invoice for the service hours performed will be provided
- Motorola is not including direct supervision for this individual, any major architecture/design decisions or configuration changes/modifications to the system performed by this individual will be done at the risk of the OEMC; Motorola recommends that the PBC and OEMC review and approve major administrative changes to the system before implementation; Motorola engineering will be made available for additional consultation if requested, this engineering activity may include additional charges based on the level of effort
- Motorola Solutions is not offering or including any type of implied or expressed warranty for these services provided to the City of Chicago Office of Emergency Management and Communications

PBC/OEMC Responsibilities

- Provide client liaison to coordinate effort
- Provide access to location and equipment including computer and desk area as necessary for tasks identified
- Weekly approval of timesheets

Deliverables

Weekly timesheets shall be submitted by this individual to the Motorola Solutions Program Director. This timesheet will be submitted every Monday to PBC for OEMC approval. Timesheets will include tasks completed with associated dates/hours. (example attached). Task detail will be written to the satisfaction of PBC/OEMC to gain approval. Should

approval for a weekly timesheet lapse more than 5 working days, work shall be suspended until the timesheet is approved by the OEMC. Weekly hours incurred are expected at 30 hours per week for the duration of this agreement. It is understood that some weeks might include more than 30 hours (not to exceed 40), other weeks might include fewer than 30 hours but the average weekly work effort is expected to be 30 hours up to a total of 1,500 hours.

UPTIME REPORTING

Uptime reporting will be included in the weekly and quarterly reports. Included in the report will be the seven pop sites listed below:

Core Availability - Last Month

NODE	AVERAGE AVAILABILITY
January 2017	
18th_Dist7606	100.00 %
BCF_7606	100.00 %
CH_7606	100.00 %
CPump_7606	100.00 %
Fire_Academy_7606	100.00 %
HW_LIB_7606	100.00 %
OEMC_7009	100.00 %

The head end equipment for the uptime report will include Directory, Archive and Federation servers located at OEMC, BCF and PSN locations. Along with the uptime report stated above, the head end equipment report will also be included in the weekly and quarterly reports.

Windows Node Availability - This Month

MONTH	VENDORCODE	AVERAGE AVAILABILITY
February 2017	BCF_ARCH_15	100.00 %
February 2017	BCF_ARCH_5	100.00 %
February 2017	BCF_CDIFRGW_2	100.00 %
February 2017	BCF_CDIFRGW_3	100.00 %
February 2017	BCF_CDIFRGW_4	100.00 %
February 2017	BCF_CDIFRGW_5	100.00 %
February 2017	BCF_CDIFRGW_6	100.00 %
February 2017	BCF_FED_2	100.00 %
February 2017	BCF_GW_3	100.00 %
February 2017	BCF_MDIR	100.00 %
February 2017	BCF_OVSS	100.00 %
February 2017	BCF_SCDIR	100.00 %
February 2017	BCF-ARCH-21	100.00 %
February 2017	BCF-ARCH-22	100.00 %
February 2017	BCF-ARCH-23	100.00 %
February 2017	BCF-CDIRGWB-8	100.00 %
February 2017	BCF-MGIW-2	100.00 %
February 2017	BCF-MGIW-3	100.00 %

In addition to the seven pop sites and head end equipment for the uptime report, a camera uptime report will also be included within this Task Order. The camera uptime report will include all cameras currently under contract and this report will be updated as new information becomes available. The camera uptime report will include:

- Case #
- Site ID/Site Name
- Issues
- Dates – Down, Triage, Estimated Date back in Service
- Notes on what work was done and what was done to repair

A sample report is attached and future reports will be available at:

https://docs.google.com/spreadsheets/d/1OrDNQWom85BlkpFvhCrmh2nnxEdLY2eq_BHQbgGA2s0/edit#gid=0

SOFTWARE MAINTENANCE and SUPPORT

GIS Hosting Services

The package includes database hosting services for the existing GIS database as well as quarterly meetings to review services provided and verify accuracy. Database updates will be handled through the Task Order or Field Order process.

AV MAINTENANCE

The work detail and activities covered by the personnel listed in this scope will be covered in the following sections.

Description of Work

Provide OVS video operational support for the following:

- Public Safety Headquarters
- Fusion Center
- Strategy Room
- OEMC
- Unified Communication Vehicles
- CFD Command Vehicles
- Other locations as specified by the OEMC but related to Homeland Security

Primary Support Role

1. Perform daily operational system checks for each of the above systems, and recording these checks in the systems operations log. If problems are discovered, findings will be immediately provided to client as well as a plan of correction.
2. First Line Support for all related OVS video systems and components. Execution and management of all existing service contracts on above systems to facilitate second line maintenance with those respective vendors until expiration of existing service contracts. Responsible for providing the client with one month advance notice when said maintenance contract is slated to expire, so the client has ample time to extend/renege the contract. Overlapping coverage of contracts is a must.
3. Provide client with an inventory list of all spare parts needed to maintain systems from year to year.
4. Proactively recommend bulb changes on video walls and execute with client's permission changes of such. In addition forecast LCD screen replacements three months in advance before monitors shut down.
5. Provide programming support to each Crestron controllers to ensure changes are provided when needed

Hours of Support Coverage

- OVS Video Support Services will be provided between the hours of 9:00AM and 5:00PM, Monday through Friday (unless otherwise agreed to schedule changes)
- Respond by phone within 30 minutes of the call; will be on-site within 2 hours of call out, if required; if customer deems on-site is required, contractor will respond
- If primary on site technician is off due to vacation, sickness, personal leave or any other reason which prohibits a physical body from being on site or available for after hours call out, contractor will provide a substitute with the same or better skill set as person absent
- Observed Holidays

Assumptions

- Motorola Solutions is **only** providing operational support services under this scope agreement; any corrective maintenance activities requested will require a control change and be invoiced separately for those incurred services
- Motorola Solutions is not offering or including any type of implied or expressed warranty for any OVS video systems at the City of Chicago Office of Emergency Management and Communications
- Motorola Solutions is not supplying any system consumables (lamps, fuses, etc) or providing any stock availability of said consumables in the event of any system component failure; Motorola can repair the items as quickly as possible, providing an approved field order is in place prior to any repair work commencing.

PBC/OEMC Responsibilities

1. Provide all software and hardware components needed for implementation.
2. Provide system configuration specifications as they relate to the application requirements.
3. Provide detail list of network access requirements.
4. Provide client liaison to coordinate implementation effort.
5. Provide access to location and equipment as necessary for implementation and testing
6. Motorola is not responsible for any software compatibility and defects. If the City of Chicago asks for software to be implemented on any maintained system it is the responsibility of Motorola Solutions to advise whether the objective can/cannot be met.
7. Motorola is not liable for third party software functionality, defects or compatibility. If the COC asks for software to be implemented on any AV system it is the responsibility of Motorola Solutions to advise whether the objective can/cannot be met
8. This does not include any desktop client upgrades or modifications, unless specifically part of a maintained system.
9. This does not include any migration or application installation other than already stated, unless specifically part of a maintained system
10. This does not include any desktop modifications or installations other than already stated, unless specifically part of a maintained system

DELIVERABLES

- Preventative Maintenance
 - Provide PBC PM schedule within two weeks of NTP.
 - Provide checklist with each PM and includes: photos, time on-site and time off-site.
- Network Monitoring
 - Provide weekly updates/status of network equipment.
- Software Maintenance – Genetec / Vidsys / GIS Mapping
 - Provide weekly report of system outages (scheduled and non-scheduled).
- System Manager
 - Provide weekly executive reports to PBC/OEMC by Noon on Mondays.
 - Provide project-wide safety plan within two weeks of NTP
 - Provide Quarterly reports
- Infrastructure Repairs
 - Provide root cause analysis on all repairs
 - Provide Quarterly spares report
- Uptime / Downtime
 - Provide monthly reports on uptime / downtime

Services Not Included Under Maintenance Or Warranty

Services that are not described in this Task Order are not explicitly included, and will be performed at Motorola's discretion, Change Order to this Task Order, or via a subsequent Task Order. Optional Services are noted in the pricing table and are not included in the total pricing of this task order.

Inventory Spares

To comply with the agreed-upon Service Levels described in this Task Order, a spares inventory will be required for all applicable equipment. On a monthly basis, Motorola will review inventory spare stock and make recommendations for replenishment to the PBC. PBC/OEMC is responsible for purchasing all spares.

ARTICLE 3. ASSUMPTIONS

Overview

The Parties acknowledge and agree that they have entered into this Task Order based on the assumptions stated in this Article (the "Assumptions"), and that they will negotiate in good faith adjustments to this Task Order (i) pursuant to the Change Control Process to the extent deviations in the Assumptions have a direct impact on the Goods, Software and Services or (ii) as otherwise provided in this Article. Vendor agrees that if an Assumption is not true, Vendor will promptly notify the PBC in writing and use commercially reasonable efforts to mitigate any adverse impact on the Goods, Software and Services and any potential increase in the Fees. Vendor agrees that these Assumptions are the only assumptions regarding the Services under this Task Order.

Assumptions

The Parties acknowledge and agree that they have entered into this Task Order based on the assumptions stated in this Section (the "Assumptions"), and that they will negotiate in good faith adjustments to this Task Order pursuant to the Master Contract to the extent deviations in the Assumptions have a direct impact on the Goods, Software and Services or (ii) as otherwise provided in this Section.

1. Vendor will provide services in this Task Order on the Accepted System containing the products listed in Appendix.
2. Pricing assumes that there are not any access, material, environmental, structural, electrical, or plumbing problems at the Sites and that Vendor will be able to perform the work without delay or costs related to any such problems.
3. All equipment that is added through the Task Order process where warranty or service is part of the accepted quote, will abide by the same Terms and Conditions as agreed while this Task Order is active and fall under this Agreement.

PBC Responsibilities

The PBC will perform its obligations under the Agreement and as outlined in the approved Project Plan and Procedures Manual.

PBC will provide a PBC Project Manager. The PBC Project Manager's responsibilities include:

1. Serve as the interface between Vendor and the PBC.
2. Adhere to the Change Control Process with the Vendor Project Manager.
3. Provide agenda items for PBC meetings in a reasonable timeframe.
4. Attend Project status meetings.
5. Help resolve Project issues and escalate issues.
6. Comply with PBC's obligations with respect to licenses.

Insurance

Unless stated otherwise in this task order, no additional insurance coverage, limits, or evidence of the same; other than that previously provided by Motorola, shall be required.

PRICING DETAIL

Description	Price
SERVICES INCLUDED	
OVS-24X7 On-Site Response, Repair and PM Camera Pods – 1 Touch*	\$2,121,727.50
Lakefront Cameras - 2nd Touch	\$26,927.08
OVS - System Management Services	\$272,708.33
OVS - On-site Support Services	\$314,600.00
OVS - Field Support Services	\$314,600.00
OVS - Technical Resource	\$299,750.00
OVS - Remote Network Monitoring	\$89,375.00
AV Support and Maintenance	\$120,120.00
GIS Map Hosting Services	\$27,270.83
TOTAL SERVICES	\$3,587,078.74

Total Funding Requirement: \$3,587,078.74
Notice to Proceed: Upon receipt of Task Order Authorization Form
Start Date: February 1, 2017
Final Completion: December 31, 2017
Payment Schedule: Financial Terms are subject to the terms and conditions set forth in the Master Agreement, dated January 19, 2011, between the PBC and Vendor.

Milestone invoices will be submitted monthly.

The pricing quoted herein is valid for 90 days from the date of this Task Order. If this Task Order is not accepted during that price validity period, MSI may provide a revised Task Order and pricing is subject to change.
