POWERSPORT SERIES

MAXIMUM PERFORMANCE AND ULTIMATE RELIABILITY FROM POWER SONIC

Whether you're racing on the track, exploring extreme off road trails, cruising the highway or riding through deep snow, Power Sonic has the right battery solution for you.

2

As an OEM qualified supplier we offer a complete line of Powersport batteries engineered to the highest international standards by our ISO:9001 and ISO:14001 certified factory. Our Powersport batteries are designed to provide maximum performance, superior starting power and unrivalled reliability whatever the vehicle.

Featuring a comprehensive range of sizes and battery types, Power Sonic Powersports batteries are one of the best choices available on the market today, suitable for a diverse range of applications including:

- **Motorcycles**
- **Scooters**
- **ATV's**
- **Personal Watercraft**
- **Snowmobiles**
- **Utility Vehicles**
- **Lawn and Garden**

All Power Sonic batteries are subject to stringent quality control through every step of the manufacturing process ensuring both consistency and reliability.

BATTERY SELECTION GUIDE

**MAXIMUM PERFORMANCE AND ULTIMATE
RELIABILITY FROM POWER SONIC**

KEEPING YOU IN CHARGE WITH THE POWER SONIC BATTERY SELECTION GUIDE

Power Sonic offers a complete battery line for all your powersport needs. Our batteries are designed to provide high-performance and ultimate reliability for those who demand the best from their vehicle. Manufactured using the most advanced components and latest state-of-the-art equipment our products have become renowned for their quality and reliability.

BATTERY TYPE >	SUPER SPORT			ULTRA SPORT	HYPER SPORT
	CONVENTIONAL	LOCALLY ACTIVATED AGM	AGM READY TO GO	HIGH PERFORMANCE AGM	LITHIUM NEW
PERFORMANCE	Good power, good cycle life, meets entry-level and older vehicle OE specs	Superior power, extended cycle life, vibration resistant, good safety features, long shelf life, meets current OE specs	Superior power, extended cycle life, great safety features, highly vibration resistant, meets current OE specs	Superior capacity, enhanced performance, maximum cycle life, maximum safety features, highly vibration resistant, lower discharge rate, exceeds OE specs	Ultra lightweight, ultimate performance, extreme cycle life, highly vibration resistant, very low self discharge, faster charging, far exceeds OE specs
RECOMMENDED VEHICLE TYPE	Suitable for entry-level and older vehicles that have basic power needs	Fits most applications	Ideal for high-end motorcycles, ATVs, and off-road vehicles	Ideal for premium vehicles with built-in or add-on electrical equipment	The ultimate choice for sports bikes and seasonal use vehicles
RECOMMENDED APPLICATIONS	Scooters Lawn & Garden	Motorcycles Scooters	UTVs ATVs	Snowmobiles Personal Watercraft	Motorcycles Scooters UTVs ATVs Personal Watercraft
READY TO GO	Initial filling required	Initial filling required	Ready to Go	Ready to Go	Ready to Go
POSITIONING	Upright mounting only	Medium inclination	High inclination	High inclination	Multiple positions
ACID PACK INCLUDED	Acid pack included	Acid pack included	No initial filling	No initial filling	No acid
MAINTENANCE	Requires ongoing filling	Maintenance free after initial filling	100% maintenance free	100% maintenance free	100% maintenance free
TECHNOLOGY	Flooded dry charged	AGM dry charged	AGM charged	AGM charged	Lithium Iron Phosphate

CONVENTIONAL

SUPER SPORT CONVENTIONAL batteries are designed for entry-level and older powersport vehicles with basic power requirements. Conventional batteries are flooded lead acid batteries that need to fill before first use and periodically topped up to maintain.

BENEFITS:

- Engineered to protect against corrosion and withstand vibration
- Delivers high cranking power
- Acid pack and vent tube included for initial filling
- Long shelf life, with no need to recharge before initial acid filling
- Wide variety of battery sizes including 6V and 12V versions
- High performance and low maintenance versions available
- Ideal for ride on mowers and garden equipment

LOCALLY ACTIVATED AGM

SUPER SPORT AGM delivers excellent power and dependable lifespan, helping you go the distance in even the harshest weather conditions. The battery is 100% maintenance free, only needing filling up initially to get you started. Utilizing advanced AGM technology, the battery is ideal for a wide range of powersport applications matching OE specifications.

BENEFITS:

- Superior starting power
- Extended cycle life
- Vibration and impact resistant
- Acid pack included for initial filling
- 100% maintenance free after initial filling
- Long shelf life, with no need to recharge before initial acid filling
- Completely sealed and spill proof after initial filling
- Suitable for all weather conditions
- Wide range of sizes covering most applications
- Matches OE specifications

AGM READY TO GO

AGM READY TO GO provides superior power and is so convenient that all you need to do is install the battery and you are ready to go! No initial acid filling or ongoing maintenance needed. The battery is highly vibration and impact resistant making it ideal for all-terrain and off road uses. AGM Ready to Go offers exceptional starting power and reliability in all weather conditions.

BENEFITS:

- Superior starting power
- Extended cycle life
- Highly vibration and impact resistant
- 100% maintenance free
- Completely sealed and spill proof
- Suitable for all weather conditions
- Wide range of sizes covering most applications
- Matches OE specifications
- Simply install and you are ready to go

* Maintenance free gel technology † Cranking value determined by the use of hand held tester. Individual test results may vary.
 Due to the self-discharge characteristics of this type of battery, it is imperative that they be charged within 6 months of storage,
 otherwise permanent loss of capacity might occur as a result of sulfation.
 To prolong shelf life without charging, store batteries at 50° F (10° C) or less.

FURTHER INFORMATION

Please refer to our website www.power-sonic.com for product catalogs, safety data sheets (SDS), ISO certification, etc.

HIGH PERFORMANCE AGM

POWER SONIC ULTRA SPORT is the perfect choice for any premium powersport vehicle. The battery has been designed to deliver enhanced performance for large engine motorcycles and vehicles that are equipped with power hungry electronics like alarms, audio, heating systems and GPS. It is 100% maintenance free, completely spill proof and ready to use with no initial acid filling.

BENEFITS:

- Ideal for premium vehicles with power hungry equipment
- Superior capacity
- Excellent cycle life
- Highly vibration and impact resistant
- 100% maintenance free
- Completely sealed and spill proof
- Suitable for all weather conditions
- Very low self-discharge rate
- Upgrade to OE specifications
- Simply install and you are ready to go

LITHIUM

POWER SONIC HYPER SPORT is the ultimate choice for those who demand the very best riding experience. The battery has been designed to be up to four times lighter than AGM reducing the overall weight of your bike, resulting in faster acceleration and maximum performance. With proven lithium iron phosphate technology, the battery has a very low self-discharge making it ideal for starting your engine after long periods of non-use. At the heart of every Hyper Sport battery is an integrated active management system that monitors and reacts to multiple voltage, current and temperature events to maximize performance, battery life and safety.

BENEFITS:

- Ultra-lightweight – up to 4 times lighter than lead acid batteries
- Super-fast charging – up to 4 times faster charging than lead acid batteries
- Maximum cycle life – over 2000 cycles
- Multi-position mounting
- 100% maintenance free
- Very low self-discharge – long shelf life
- Super safe with integrated active management systems
- Perfect for seasonal use
- Upgrade to OE specifications
- OE fitment – Simply install and you are ready to go

*Cranking Amps is measured by real discharging (5 seconds at 25°C), please do not use lead acid battery CA tester to measure lithium battery CA.
 **Operation temperature: -10°C ~ 55°C (14°F ~ 131°F), if the ambient temperature is lower than 15°C (59°F), the lead acid equivalent should be smaller

TERMINAL CONFIGURATIONS

Terminal shapes vary from one battery to another. By identifying the correct replacement battery from the listing in this book, you are assured of the proper terminal configuration.

For custom applications, refer to the following chart to identify terminal shape and corresponding batteries.

TERMINAL TYPE	FRONT	SIDE	TOP	BATTERY TYPE
1				PTX16-BS-1, CB7C-A, CB14L-A1
2				CB9L-A2, CB16AL-A2
3				CB7L-B, C60-N24L-A, C60-N24AL-B, 12N24-3
4				PTX14AHBS-FS, PTX14AHLBS-FS, PTX14BS-FS, PTX15LBS-FS, PTZ16H, PTX20BS-FS, PTX20LBS-FS, PIX50LBS-FS, PTX14AH-BS, PTX14AHL-BS, PTX14-BS, PTX14L-BS, PTX15L-BS, PTX16-BS, PTX20CH-BS, PTX20-BS, PTX20L-BS, PIX50-BS, PIX50L-BS, CB12C-A, CB16B-A, C50-N18L-A3, CB30L-B, CB30CL-B, PAL4HY, PAL5LHY, PAL7AHY, PAL7ZSHY, PAL9HY, PAL12HY, PAL14HY, PAL14LHY, PAL14-AHY, PAL14L-AHY, PAL14ZSHY, PAL16HY, PAL20LHY, PAL50N18L-AHY

BATTERY TYPE

NUMBER EXPLANATION

The numbers and letters in the top halves of the tables are commonly known used examples of Powersport batteries. Use the numbers in the bottom halves of the table and the designation keys below each to see what the letters & numbers represent.

LITHIUM						
PAL	20	L	A	HY	-	H
1	2	3	4	5	-	6
1 Power Sonic active intelligent monitoring lithium	2 Performance classification	3 Polarity location	4 Designates unique battery case size	5 Hyper sport series	6 Designates Harley Davidson flush mount	

AGM								
PTX	14	A	H	L	-	BS	-	1
1	2	3	4	5	-	6	-	7
1 High performance AGM (PTX, PIX, PTZ)	2 Performance classification	3 Designates unique battery case size	4 Designates higher CCA	5 Polarity location	6 Bottle supplied electrolyte	7 Designates unique terminal		

HIGH PERFORMANCE CONVENTIONAL				
CB	16A	L	-	A2
1	2	3	-	4
1 High performance conventional battery	2 Size of the battery case	3 Polarity location	4 Terminal & Exhaust location	

CONVENTIONAL							
12	N	12A	-	4	A	-	1
1	2	3	-	4	5	-	6
1 Normal voltage	2 Conventional battery	3 Size of battery case	4 Polarity location	5 Exhaust location	6 Designates unique terminal

† Eliminates need for sensor (needs to be disabled).

* The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

Top and front terminal mounts only.

≠ Top and side terminal mounts only.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

- # The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.
- † Must use factory activated battery.
- * Must use adapter kit available from Buell.
- < Requires use of Cover/Spacer Kit.
- + Eliminates need for sensor (needs to be disabled).
- = This battery includes a sensor.
- ** When ordering this battery, specify sensor.
- ++ Must use existing terminal adapter.
- ≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≡ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

POWERSPORT SERIES

BATTERY APPLICATIONS: MOTORCYCLES

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

z G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≡ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.

The PTX20 series batteries may be used as an optional upgrade, but some modification to the hold down may be necessary. See battery label for retrofit cautions.

† Must use factory activated battery.

* Must use adapter kit available from Buell.

< Requires use of Cover/Spacer Kit.

+ Eliminates need for sensor (needs to be disabled).

= This battery includes a sensor.

** When ordering this battery, specify sensor.

++ Must use existing terminal adapter.

≠ G3SS & G3TR models having the engine production #235611 and above, use a 6N4-2A-5 battery.
