Contract Number: **47QTCA23D000A**

Period Covered by Contract: **October 21, 2022 – October 20, 2027**

General Services Administration
Federal Supply Service

Pricelist current through GSA Modification # **PO-0001 (10/07/2022)**

Products and ordering information in this Authorized FSS Information Technology Schedule Pricelist are also available on the GSA Advantage! System. Agencies can browse GSA Advantage! by accessing the Federal Supply Service's Home Page via the Internet at <http://www.fss.gsa.gov/>

AUTHORIZED FEDERAL SUPPLY SERVICE
INFORMATION TECHNOLOGY SCHEDULE PRICELIST
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY
EQUIPMENT, SOFTWARE AND SERVICES

Special Item No. 518210DC	Document Conversion Services
Special Item No. 518210ERM	Electronic Records Management Solutions
Special Item No. 493110RM	Physical Records Management Services
Special Item No. 561439	Document Production On-Site and Off-Site Services
Special Item No. 33411	Purchasing of New Electronic Equipment
Special Item No. 811212	Maintenance of Equipment, Repair Services and/or Repair/Spare Parts
Special Item No. 511210	Software Licenses
Special Item No. 54151	Software Maintenance Services
Special Item No. 611420	IT Training
Special Item No. 54151S	IT Services
Special Item No. OLM	Order-Level Materials

Note 1: All non-professional labor categories must be incidental to and used solely to support hardware, software and/or professional services, and cannot be purchased separately.

Note 2: Offerors and Agencies are advised that the Group 70 – Information Technology Schedule is not to be used as a means to procure services which properly fall under the Brooks Act. These services include, but are not limited to, architectural, engineering, mapping, cartographic production, remote sensing, geographic information systems, and related services. FAR 36.6 distinguishes between mapping services of an A/E nature and mapping services which are not connected nor incidental to the traditionally accepted A/E Services.

Note 3: This solicitation is not intended to solicit for the reselling of IT Professional Services, except for the provision of implementation, maintenance, integration, or training services in direct support of a product. Under such circumstances the services must be performance by the publisher or manufacturer or one of their authorized agents.

Prices are Net Prices (All Discounts have already been applied)

INFORMATION FOR ORDERING OFFICES

APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. Geographic Scope of Contract:
The geographic scope of this contract is the 48 contiguous states and the District of Columbia.
2. Contractor's Ordering Address and Payment Information:
**Ordering / Payment Address: Quality Associates, Inc.
 11850 West Market Place, Suite P
 Fulton, MD 20759**

Contractors are required to accept the Government purchase card for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Government purchase cards will not be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering agencies to obtain technical and/or ordering assistance:

410-884-9100 (Main)

3. LIABILITY FOR INJURY OR DAMAGE
The Contractor shall not be liable for any injury to Government personnel or damage to Government property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.
4. Statistical Data for Government Ordering Office Completion of Standard Form 279:
Block 9: G. Order/Modification Under Federal Schedule
Block 16: Data Universal Numbering System (DUNS) Number: **024966595**
Block 16: SAM Unique Entity ID: **CC24WEJQAB77**
Block 30: Type of Contractor – **Corporate Entity (Not Tax Exempt)**
Block 31: Woman-Owned Small Business - **No**
Block 36: Contractor's Taxpayer Identification Number (TIN): **521482791**

- 4a. CAGE Code: **1ZLF3**
- 4b. Contractor **has** registered with the Central Contractor Registration Database.

5. FOB Destination

6. DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
<u>33411</u>	
<u>811212</u>	
<u>511210</u>	
<u>54151</u>	Delivery
<u>611420</u>	as Determined
<u>518210DC</u>	by the Ordering
<u>518210ERM</u>	Agency and Quality Associates, Inc.
<u>493110RM</u>	
<u>561439</u>	
<u>54151S</u>	
<u>OLM</u>	

SPECIAL ITEM NUMBER	EXPEDITED DELIVERY TIME (Days ARO)
<u>33411</u>	
<u>811212</u>	
<u>511210</u>	
<u>54151</u>	Delivery
<u>611420</u>	as Determined
<u>518210DC</u>	by the Ordering
<u>518210ERM</u>	Agency and Quality Associates, Inc.
<u>493110RM</u>	
<u>561439</u>	
<u>54151S</u>	
<u>OLM</u>	

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering agency, agencies are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering agency, any order(s)

placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. Discounts: Prices shown are NET Prices; Basic Discounts have been deducted.
- | | | |
|----|---------------------------------------|---------------------------------|
| a. | Prompt Payment – | None Offered |
| b. | Quantity – | None Offered |
| c. | Dollar Volume – | 1% on orders over \$500k |
| d. | Government Educational Institutions – | None Offered |
| e. | Other – | None Offered |

8. Trade Agreements Act of 1979, as amended:

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. Statement Concerning Availability of Export Packing:
All packaging meets export-packaging requirements.

10. Small Requirements: The minimum dollar value of orders to be issued is \$ **100.00**.

11. Maximum Order (All dollar amounts are exclusive of any discount for prompt payment.)

- a. The Maximum Order value for the following Special Item Numbers (SINs) is **\$1,000,000**:

Special Item No. 518210DC	Document Conversion Services
Special Item No. 518210ERM	Electronic Records Management Solutions
Special Item No. 493110RM	Physical Records Management Services
Special Item No. 561439	Document Production On-Site and Off-Site Services

- b. The Maximum Order value for the following Special Item Numbers (SINs) is **\$25,000,000**:

Special Item No. 33411	Purchasing of New Electronic Equipment
Special Item No. 811212	Maintenance of Equipment, Repair Services and/or Repair/Spare Parts
Special Item No. 511210	Software Licenses
Special Item No. 54151	Software Maintenance Services
Special Item No. 611420	IT Training
Special Item No. 54151S	IT Services
Special Item No. OLM	Order-Level Materials

12. USE OF FEDERAL SUPPLY SERVICE INFORMATION TECHNOLOGY SCHEDULE CONTRACTS. In accordance with FAR 8.404:

[NOTE: Special ordering procedures have been established for Special Item Number (SIN) 54151S IT Professional Services; refer to the terms and conditions for that SIN.]

Orders placed pursuant to a Multiple Award Schedule (MAS), using the procedures in FAR 8.404, are considered to be issued pursuant to full and open competition. Therefore, when placing orders under Federal Supply Schedules, ordering offices need not seek further competition, synopsize the requirement, make a separate determination of fair and reasonable pricing, or consider small business set-asides in accordance with subpart 19.5. GSA has already determined the prices of items under schedule contracts to be fair and reasonable. By placing an order against a schedule using the procedures outlined below, the ordering office has

concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the Government's needs.

a. Orders placed at or below the micro-purchase threshold. Ordering offices can place orders at or below the micro-purchase threshold with any Federal Supply Schedule Contractor.

b. Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold. Orders should be placed with the Schedule Contractor that can provide the supply or service that represents the best value. Before placing an order, ordering offices should consider reasonably available information about the supply or service offered under MAS contracts by using the "GSA Advantage!" on-line shopping service, or by reviewing the catalogs/pricelists of at least three Schedule Contractors and selecting the delivery and other options available under the schedule that meets the agency's needs. In selecting the supply or service representing the best value, the ordering office may consider--

- (1) Special features of the supply or service that are required in effective program performance and that are not provided by a comparable supply or service;
- (2) Trade-in considerations;
- (3) Probable life of the item selected as compared with that of a comparable item;
- (4) Warranty considerations;
- (5) Maintenance availability;
- (6) Past performance; and
- (7) Environmental and energy efficiency considerations.

c. Orders exceeding the maximum order threshold. Each schedule contract has an established maximum order threshold. This threshold represents the point where it is advantageous for the ordering office to seek a price reduction. In addition to following the procedures in paragraph b, above, and before placing an order that exceeds the maximum order threshold, ordering offices shall review additional Schedule Contractors'

- (1) catalogs/pricelists or use the "GSA Advantage!" on-line shopping service;
- (2) Based upon the initial evaluation, generally seek price reductions from the Schedule Contractor(s) appearing to provide the best value (considering price and other factors); and
- (3) After price reductions have been sought, place the order with the Schedule Contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

NOTE: For orders exceeding the maximum order threshold, the Contractor may:

- (1) Offer a new lower price for this requirement (the Price Reductions clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations);
- (2) Offer the lowest price available under the contract; or
- (3) Decline the order (orders must be returned in accordance with FAR 52.216-19).

d. Blanket purchase agreements (BPAs). The establishment of Federal Supply Schedule BPAs is permitted when following the ordering procedures in FAR 8.404. All schedule contracts contain BPA provisions. Ordering offices may use BPAs to establish accounts with Contractors to fill recurring requirements. BPAs should address the frequency of ordering and invoicing, discounts, and delivery locations and times.

e. Price reductions. In addition to the circumstances outlined in paragraph c, above, there may be instances when ordering offices will find it advantageous to request a price reduction. For example, when the ordering office finds a schedule supply or service elsewhere at a lower price or when a BPA is being established to fill recurring requirements, requesting a price reduction could be advantageous. The potential volume of orders under these agreements, regardless of the size of the individual order, may offer the ordering office the opportunity to secure greater discounts. Schedule Contractors are not required to pass on to all schedule users a price reduction extended only to an individual agency for a specific order.

f. Small business. For orders exceeding the micro-purchase threshold, ordering offices should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

g. Documentation. Orders should be documented, at a minimum, by identifying the Contractor the item was purchased from, the item purchased, and the amount paid. If an agency requirement in excess of the micro-purchase threshold is defined so as to require a particular brand name, product, or feature of a product peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, the ordering office shall include an explanation in the file as to why the particular brand name, product, or feature is essential to satisfy the agency's needs.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS: Federal departments and agencies acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering offices, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. SECURITY REQUIREMENTS. In the event security requirements are necessary, the ordering activities may incorporate, in their delivery orders, a security clause in accordance with current laws, regulations, and individual agency policy; however, the burden of administering the security requirements shall be with the ordering agency. If any costs are incurred as a result of the inclusion of security requirements, such costs will not exceed ten percent (10%) or \$100,000, of the total dollar value of the order, whichever is less.

15. CONTRACT ADMINISTRATION FOR ORDERING OFFICES: Any ordering office, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the Government's convenience, and (m) Termination for Cause (See C.1.)

16. GSA Advantage!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

- (1) Manufacturer;
- (2) Manufacturer's Part Number; and
- (3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is <http://www.fss.gsa.gov/>.

17. PURCHASE OF INCIDENTAL, NON-SCHEDULE ITEMS

For administrative convenience, open market (non-contract) items may be added to a Federal Supply Schedule Blanket Purchase Agreement (BPA) or an individual order, provided that the items are clearly labeled as such on the order, all applicable regulations have been followed, and price reasonableness has been determined by the ordering activity for the open market (non-contract) items.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

- (1) Time of delivery/installation quotations for individual orders;
- (2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.
- (3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

N/A

Upon request of the Contractor, the Government may provide the Contractor with logistics support, as available, in accordance with all applicable Government regulations. Such Government support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as "...a simplified method of filling anticipated repetitive needs for supplies or services by establishing 'charge accounts' with qualified sources of supply." The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c)(3), which reads, in part, as follows:

“BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract.”

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up “accounts” with Schedule Contractors to fill recurring requirements. These accounts establish a period for the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful with the new Maximum Order feature. See the Suggested Format, contained in this Schedule Pricelist, for customers to consider when using this purchasing tool.

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Contractor’s Reports of Sales and 552.238-76, Industrial Funding Fee, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall receive less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The requisitioning activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

23. SECTION 508 COMPLIANCE.

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

WWW.QUALITYASSOCIATESINC.COM

The EIT standard can be found at: www.Section508.gov/.

**TERMS AND CONDITIONS APPLICABLE TO
DOCUMENT CONVERSION SERVICES
(SPECIAL ITEM NUMBER 518210DC)**

SIN 518210DC Includes scanning of the original document's text and images, converting the information to digital data, transferring the data to a new media file, and formatting the information for use in a document imaging and storage system. Customized coding and indexing options are also available as part of the document conversion process.

Cooperative Purchasing: No
Set Aside: No
FSC/PSC Code: R799
Maximum Order: \$1,000,000

NAICS

Number	Description	Business Size
518210	Data Processing, Hosting, and Related Services	\$35 million

Instructions:

ADDITIONAL INFORMATION FOR DOCUMENT CONVERSION SERVICES DESCRIPTION: The process of document conversion involves state-of-the-art scanning of the original document's text and graphic image into digital data, which is then transferred to a new media and formatted for use in a document imaging and storage system. Comprehensive DCS are used to transfer text and graphic images in existing documents (e.g., correspondence, files, technical manuals, land records, charts, engineering drawings, legal instruments, etc.) in whatever media they currently exist (e.g., paper, aperture cards, microfiche, microfilm, roll film, etc.) onto a new delivery/ storage media (e.g., CD-ROM disks, 4mm/8mm magnetic tape, magnetic storage disks, aperture cards, microfiche, microfilm, roll film, etc.) in any required format (e.g., raster images, ASCII text, SGML tagged for electronic distribution or publishing, PDF image files, etc.) required for use in a document imaging and storage system. Customized coding and indexing options are also available as part of the document conversion process. This SIN includes transcription and medical transcription services; it excludes transcriptions for Title III Monitoring.

SCOPE: Document conversion consists of scanning document images and converting them into electronic digital data, which is then transferred into a new format, and media for use in a document imaging, retrieval, and storage system. This SOW addresses the "backfile and day-forward conversion" of documents, which includes both file and data format and media conversion. It does not include data processing and communications equipment (e.g., digital computers, display devices, software, LAN/WAN networks), which may be employed in a document imaging, retrieval, and storage system. The types of DCS may include, but is not limited to: - Index data migration - Project evaluation or discovery - Optical mark scanning (OMR) - PDF Electronic file forms - Web Hosting (ASP)

GENERAL REQUIREMENTS: Unless otherwise specified by the ordering activity, the following general requirements are applicable to document conversion performed under this contract:

- a. Contractor Responsibility - The Contractor shall be responsible for furnishing all items used in performing the work unless otherwise specified or approved by the Contracting Officer. The Contractor will act independently and not as an agent of the Government.
- b. Document Conversion - The contractor shall scan a variety of source documents (e.g., correspondence, files, technical manuals, land records, charts, engineering drawings, or legal instruments) from a variety of source media (e.g., paper, film, microfiche, aperture cards, magnetic tape, or Mylar) having varying degrees of image quality (e.g., crisp originals, faded, poor contrast, or overexposed photographs) using character recognition (e.g., OCR, ICR) into a compressed digital file (e.g., C4

compressed image file format) and deliver that file in a variety of output file formats (e.g., PDF, SGML, HTML, XML, CAD, word processing) on a variety of output media (e.g., optical disks, magnetic tape, or CD-ROM).

- c. Image Enhancement - The contractor shall perform image enhancement immediately after scanning. Image enhancement shall allow soiled, faded, deteriorated, and inferior quality images to be "cleaned-up". The image enhancement process shall reduce background noise and improve uneven line widths, dull edges, faded areas, and uneven illumination. If required by the ordering activity, special image enhancement (e.g., removal of date stamps and other markings, deskewing images to within 5 degrees or less of skew, cropping, rotation) shall be accomplished during the document conversion process.
- d. Indexing - The contractor shall provide an index (in both hardcopy and digital format) for all converted data. The index shall permit tracking, retrieval, and storage of converted documents. The index shall be as specified by the ordering activity and shall consist, as a minimum, of the document number, document title, page number, revision level, and date. The index shall be structured from the source data and may be incorporated in the raster image header, incorporated as PDF Bookmarks, or provided separately, as specified by the ordering activity.
- e. Data Entry - The contractor shall provide keystroke data entry, as required
- f. Delivery Media - The contractor shall deliver the digitally converted data in an output media (e.g., CD-ROM, 4mm DAT or 8mm magnetic tape; 9-Track 1600 BPI or 6250 BPI magnetic tape; 3.5 inch, 5.25 inch, 12 inch, or 14 inch Write-Once Read-Many (WORM) optical or magnetic disks and/or Write-Many Read-Many optical disks) and output format (e.g., PDF text and/or image files, TIFF, BMP, JPEG, HTML, ASCII text, SGML tagged for electronic distribution or publishing, XML, CAD, word processing), as specified by the ordering activity. Delivery media shall be labeled in such a manner as to identify the contents of the deliverable.
- g. Source Document Inspection - The contractor shall inspect all source documents and shall notify the ordering activity's Contracting Officer of any condition which will likely prevent successful performance of the work required. Such notification shall be received by the Contracting Officer within ten (10) working days (or as stipulated on the individual agency task order) following receipt of the source documents.
- h. Quality Assurance - Unless otherwise specified by the ordering activity, the contractor shall perform 100% quality assurance of the scanned images to ensure that an image is produced for each page or microform frame; the image is equal to or better than the readability of the source page or microform frame; and the image is in accordance with the ordering activity's requirements. Marginal images (e.g., due to poor source images or film quality) shall be electronically marked and specified as such in the production reports. All indexing elements and SGML tagged data shall be parsed to ensure compliance with the requirements prior to delivery. Hollerith data shall be verified against the information contained in the title block of the document and will be edited, if necessary, to ensure the accuracy of the fields (e.g., document type, drawing number, drawing revision, sheet revision, card number, number of cards, drawing size, rights code, and security code). The ordering activity reserves the right to perform quality assurance on any products produced under this contract. Failure to meet quality assurance standards will result in re-work at the contractor's expense or contract termination, as appropriate.
- i. Corrections - Document conversion errors caused by the contractor shall be considered corrections and shall not be charged to the ordering activity as an additional digitized item. Unless otherwise specified by the ordering activity, the contractor shall be liable for corrections for 12 months from output media delivery.
- j. Workmanship Standards - The quality of services rendered by the contractor shall conform to the standard commercial practice in the document scanning and conversion profession, trade, or field of endeavor. All services shall be rendered by or supervised directly by individuals fully qualified in the document scanning and conversion profession, and holding any licenses required by law. Failure to meet workmanship standards will result in re-work at the contractor's expense or contract termination, as appropriate.
- k. Basic Preparation and Handling - The contractor shall be responsible for basic document preparation and handling during all phases of the document conversion effort. The pre-conversion effort shall include document receipt, inspection, inventory and document preparation for scanning and conversion (e.g., removing bindings, paper clips, attachments, and fasteners; photocopying oversize or undersize documents; purging unnecessary information; repairing damaged originals). The conversion effort shall include all necessary document preparation and handling. The post-conversion effort shall consist

of reconstruction of the documents including the attachment of fasteners and bindings, reassemble of the documents into their original configuration, preparing a document inventory listing, and packaging/packing for return shipment to the ordering activity.

- l. Special Preparation and Handling - When special preparation and/or handling requirements are specified by the ordering activity, the contractor shall be responsible for any special document preparation and handling requirements (e.g., staple locations being required to be marked during pre-conversion preparation and the documents being re-stapled using their original staple locations at post-conversion).
- m. Production Reports - With each delivery, the contractor shall provide a Production Report (in hardcopy and digital format) that describes the data contained on the delivery media. The report shall be provided to the ordering activity's Contracting Officer or COTR and shall contain, at a minimum, the index for each document, number of pages for each document, and total pages.
- n. Monthly Volume Report - The contractor shall provide a Monthly Volume Report (in hardcopy and digital format). The report shall be provided to the ordering activity's Contracting Officer and shall, at a minimum, list the number of converted documents delivered and the percentage of work completed.
- o. Final File - The contractor shall provide a final file (in both hardcopy and digital format) upon project completion to the ordering activity's Contracting Officer. The file shall delineate those documents for which conversion has been completed; if applicable, the intermediate format in which each document has been scanned; the applicable character recognition, compression algorithm, output storage media and file format of the stored image; and an index for all converted data. The index shall, as a minimum, consist of each document number, document title, date, revision level, and page number. This index shall be structured from the source data and may be incorporated in the raster image header, incorporated as PDF Bookmarks, or provided separately, as specified by the ordering activity.
- p. Backup Copy - The contractor shall maintain a backup copy of all data generated. The backup copy shall be maintained for a period of 12 months after project completion, unless otherwise specified for a different period by the ordering activity.
- q. Returned Material - Unless otherwise specified by the ordering activity, all material provided by the ordering activity shall be returned with the delivered product in the same condition (normal wear and tear excepted) and sequence as the original submission. The contractor shall be responsible for shipping costs, unless otherwise specified by the ordering activity.
- r. Source Document Destruction - Upon termination or completion of all work, the Contractor shall comply with agency requirements for disposal. All materials produced or delivered will become and remain the property of the Government. When required by the ordering activity, the contractor shall destroy (rather than return) the source documents.
- s. Classified Documents - The contractor shall be responsible for providing the appropriate handling, distribution, and storage of classified documents in accordance with all applicable security regulations and laws.
- t. Page Pricing - Unless otherwise specified in the contractor's price proposal, page pricing shall be based on an original source page size of 8.5 inches x 11 inches. Increments for oversize source document pages shall be based on the number of whole or partial 8.5" x 11" pages.
- u. Drawing Pricing - Unless otherwise specified in the contractor's price proposal, drawing sheet pricing shall be based on the size of the drawing. Increments for oversize drawings shall be based on the number of whole or partial F size drawings.
- v. Production Facility - Unless otherwise specified by the ordering activity, production shall be performed at the contractor's facility. If the ordering activity requires scanning of the documents at a designated facility, the contractor shall provide all the necessary resources (e.g., personnel, equipment, material, and supplies) required to accomplish the work, unless otherwise specified by the ordering activity. However, the ordering activity will be responsible for providing adequate space and electrical power at the designated facility.
- w. Data Rights - All data produced in performance shall be the sole property of the Government. The Contractor agrees not to assert rights at common law or equity and not to establish any claim to statutory copyright in such data in whole or in part in any manner or form nor authorize others to do so, without prior written consent of the Contracting Officer. This does not restrict the use or publication of such data by the Contractor or its employees.

DETAILED REQUIREMENTS: Unless otherwise specified by the ordering activity, the following detailed requirements are applicable to the contractor's document conversion efforts under this contract:

- a. Scanning - Images shall be scanned at 200 DPI (dots per inch) resolution for engineering drawings, 500 DPI for engineering drawings being converted to CAD, and 300 DPI for all other document types, except photographs, which shall be scanned at 400 DPI. Raster images shall be compressed using CCITT Group 4 algorithms as specified in Federal Information Processing Standard (FIPS) Publication 150 "Facsimile Coding Schemes and Coding Control Functions for Group 4 Facsimile Apparatus", prior to transfer to the storage media. The latest revision of FIPS Publication 150 in effect at the date of the order or as specified by the ordering activity shall be used. Proprietary compression algorithms are not acceptable. Hollerith data shall be read during image scanning and provided as an index to the image.
- b. Indexing/Coding - The index requirements (e.g., index fields, number of characters, nomenclature for the index fields) shall be specified by the agency. As a minimum (via display of the scanned image), the index shall consist of three fields having a maximum of 30 characters located peripherally on the page.
- c. Portable Document Format (PDF) Conversion - Adobe Portable Document Format conversion shall be accomplished in compliance with the latest version of the Portable Document Format Reference Manual (e.g., Version 1.3) in effect on the date of the order or as specified by the ordering activity. PDF converted formatted documents shall replicate all visual characteristics and attributes of the source document. Graphics portions of the source document shall be included in the PDF file as raster images. Scanning of graphic portions shall be provided at a resolution of 300 DPI or greater. PDF converted documents shall contain thumbnail files.
 - (1) Image Only Scanned: Source documents shall be raster scanned at 300 DPI. The scanned image shall be a bitmapped image of the original document and shall be equal to the readability of the original page. The images shall be converted to PDF Image Only files prior to being written to the delivery media.
 - (2) Image Plus Edited Text: Source documents shall be raster scanned at 300 DPI. Textual data shall be converted to ASCII utilizing OCR technology. All free standing standard character text larger than 6 point shall be edited to ensure accuracy of 95% or greater. All converted numerics shall have an accuracy of 100%. Graphics shall be provided as 300 DPI raster graphics. The document shall be converted to PDF Plus Text files prior to be written to the delivery media.
 - (3) PDF Normal: Source documents shall be raster scanned at 300 DPI. Textual data shall be converted to ASCII utilizing OCR/ICR technology. All free standing standard character text larger than 6 point shall be edited to insure accuracy of 95% or greater. All converted numerics shall have an accuracy of 100%. Suspect characters shall be corrected. Color images and photographs shall be scanned and inserted. Graphics shall be provided as 300 DPI raster graphics. The original fonts and format of the document shall be maintained. The document shall be converted to PDF Normal files prior to being written to the delivery media.
 - (4) Hyperlinking: Hyperlinks shall be created for each item contained in the content reference pages of the document (e.g., Tables of Contents, Indexes). In addition, hyperlinks shall be created for all intact internal references. Bookmarks and Thumbnails shall be created for each document. PDF Normal processing of the documents is required prior to hyperlinking.
 - (5) Application File: When required by the ordering activity, an application (output) file from PDF converted documents (e.g., in a word processing format) shall be created. Application files shall be created after completion of any PDF document quality assurance and editing.
 - (6) Accuracy: The accuracy requirements for documents converted using optical recognition technology (e.g., OCR, ICR) shall be applicable to each page as specified by the ordering activity. The percent accuracy is defined as the number of correct characters per page (i.e., characters in the converted document that are the same as the corresponding character in the source document) divided by the total number of characters on the page multiplied by 100.
- d. Standard Graphic Markup Language (SGML) Tagging - Paper documents shall be raster scanned at 300 DPI. Textual data shall be converted to ASCII utilizing Optical Character Recognition (OCR) technology. All free standing standard character text larger than 6 point shall be proofed and edited to ensure accuracy of 99.5% or greater. All converted numerics shall have an accuracy of 100%. Graphics shall be provided as 300 DPI raster graphics. Tagged data shall be in accordance with the Document Type Definition (DTD) and the Style Sheet. Tagged data shall provide 100% parsing against the provided DTD. Intact internal references shall be tagged.

- (1) Level I: Level I SGML tagging shall consist of DTDs that are targeted at electronic browsers, which utilize a limited number of tags to describe the basic document.
 - (2) Level II: Level II SGML tagging shall consist of DTDs that are targeted at complex publishing systems which require an increased number of tags, tag attributes, and specific structural relationships to produce the required printed document.
- e. HyperText Markup Language (HTML) Conversion - Conversion shall be in accordance with the latest version of the W3C Recommendations (e.g., HTML Version 4.0) in effect on the date of order or as specified by the ordering activity.
 - f. Extensible Markup Language (XML) Conversion - Conversion shall be in accordance with the latest version of the W3C Recommendations (e.g., XML Version 1.0) in effect on the date of the order or as specified by the ordering activity.
 - g. Graphics File Formats (e.g., GIF, JPEG) - The specific graphic file format shall be as specified by the ordering activity.
 - h. Application Files (e.g., Word, CAD, WordPerfect) - The specific application file format shall be as specified by the ordering activity.
 - i. CD-ROM Mastering: Converted data shall be pre-mastered in accordance with ISO 9660, Volume and File Structure of CD-ROM Information Exchange specification using the latest version in effect on the date of the order or as specified by the ordering activity. CD-ROM masters shall be produced in accordance with industry standards as defined in the CR-ROM Yellow Book.
 - j. CD-ROM Replication: Replicas shall mark as specified by the ordering activity. Replicas shall be provided in CD-ROM.

ACRONYMS AND DEFINITIONS

- a. ASCII (American Standard Code for Information Interchange). An 8 bit code representing English letters, characters and numbers. Seven bits are used to identify each individual entity (128 maximum) with one bit for parity. Extended ASCII uses of eight bits to represent up to 256 characters with no parity bit. Most computers use ASCII to represent text, which makes it possible to transfer data from one computer to another.
- b. BMP (BitMaP) - The standard bit-mapped graphics format used in the Windows environment.
- c. Backfile Conversion - Converts existing files for use in an imaging system.
- d. BCR (Bar Code Recognition)- The recognition of bar code (i.e., A method of representing data by combining lines of varying width.).
- e. CCITT (Consultative Committee on International Telephone and Telegraphy) sets standards for phones, faxes, modems, etc.
- f. COLD (Computer Output to Laser Disk) - The computer system contains files of ASCII data (from input or application programs) or bit-mapped files previously scanned from microfilm documents or pictures. These output files are compress by a factor of 5-20:1 from the original documents and stored on WORM optical/laser disks.
- g. DTD (Document Type Definition) - A description of the types of tags allowed in a document as well as the order in which they appear.
- h. FTP (File Transfer Protocol) - An Internet protocol to move files from one computer to another.
- i. Grayscale - The binary range of a graphic representation between pure black and pure white. A scale of 256 shades of gray will be a better representation than 16 shades.
- j. HTML (Hypertext Markup Language) - HTML is a W3C standard (i.e., W3C HTML Recommendations) based upon SGML that is designed to specify the logical organization of a document. HTML instructions divide the text of a document into blocks called elements that define how the body of the document is to be displayed by the browser and those that define information about the document (e.g., title, relationship to other documents). Use of HTML instructions is based on detailed rules (e.g., the names of tags/elements, how they can be used), which are defined using SGML. There are three variants of HTML 4.0 (i.e., HTML 4.0 Transitional, HTML 4.0 Strict, and HTML 4.0 Frameset).
- k. ICR (Intelligent Character Recognition) - The conversion of scanned images (bar codes or patterns of bits) to computer recognizable codes (ASCII characters and files) by means of software/programs, which define the rules of and algorithms for conversion.

- l. ITU-T - CCITT renamed Telecommunication Standardization Section of the International Telecommunications Union.
- m. JPEG (Joint Photographic Experts Group) - A compression algorithm for color image files.
- n. Optical Character Recognition - The computer processing/conversion of scanned images both full text and forms to computer recognizable codes (ASCII letter, numbers, and characters).
- o. PDF (Portable Document File) - PDF is a standard (i.e., Portable Document Format Reference Manual) provides a way of distributing, viewing, and printing documents with consistent appearance across a number of computer platforms. Files created from printed documents closely match the paper version including graphics, photographs, and fonts and are compressed for easy downloading and distribution. To view a .pdf file, an Adobe Acrobat Reader must be installed on the computer.
- p. SGML (Standard Generalized Markup Language) - SGML is an ISO Standard (i.e., ISO 8879), which delineates a methodology of describing architecture for information exchange. SGML is a synthesis of three things: A Document Type Definition (DTD), a style sheet, and tagged data. The DTD describes which tags are allowed. The style sheet describes how the corresponding tag is to be formed. The tagged data is the document, in which every piece of data is "tagged", using tags defined in the DTD and Style Sheet.
- q. Style Sheet - Describes how the SGML tag is to be formed.
- r. TIFF (Tagged Image File Format) - One of the most widely supported files formats for storing bit-mapped images (8-bit color and grayscale) on personal computers. Includes several types and groups, which are compressed and uncompressed.
- s. XML (extensible Markup Language) - XML is a W3C standard (i.e., W3C XML Recommendations) that could revolutionize the way intranet applications and document and non-document content are built and managed. XML promises "write once, publish anywhere" simplicity to users who don't have to become experts in Web programming languages. XML is an "instance" of SGML.
- t. WORM (Write Once Read Many) - Permanent optical storage method where data once written, cannot be erased or altered.
- u. W3C (World Wide Web Consortium) - W3C is an international industry consortium, which was founded in 1994 to lead the World Wide Web in developing common protocols that promote its evolution and ensure its interoperability. W3C develops standards, which are published in the form of Recommendations.

**TERMS AND CONDITIONS APPLICABLE TO
ELECTRONIC RECORDS MANAGEMENT SOLUTIONS
(SPECIAL ITEM NUMBER 518210ERM)**

SIN 518210ERM Electronic Records Management Solutions provide a comprehensive capability to solve the complex challenges posed by the movement, manipulation, archiving, security, and management of electronic records. The vendor provides professional management and administrative support personnel with the necessary skills to perform effective record management services for both classified and/or unclassified records. The services are provided using either Government or vendor equipment and facilities or a combination of both. The objective of electronic records management services is to permit the access, maintenance, control, storage, disposition, and transfer of electronic records. Includes any ancillary supplies and/or services necessary to provide a total electronic records management solution.

Cooperative Purchasing: No
Set Aside: No
FSC/PSC Code: R617
Maximum Order: \$1,000,000

NAICS

Number	Description	Business Size
518210	Data Processing, Hosting, and Related Services	\$35 million

Instructions:

NOTE: Electronic Records Management Solutions provide a comprehensive capability to solve the complex challenges posed by the movement, manipulation, archiving, security, and management of electronic records. The vendor provides professional management and administrative support personnel with the necessary skills to perform effective record management services for both classified and/or unclassified records. The services are provided using either Government or vendor equipment and facilities or a combination of both. The objective of electronic records management services is to permit the access, maintenance, control, storage, disposition, and transfer of electronic records. Includes any ancillary supplies and/or services necessary to provide a total electronic records management solution.

NOTE: Ordering Agencies are responsible for ensuring that vendors comply with all NARA regulations for electronic records management. All vendors must complete the Electronic Records Management (ERM) Vendor Capability Certification (located at www.gsa.gov/mascategoryrequirements) in order to certify their specific ERM capabilities.

Purpose:

Records management services provide various federal agencies technical support and solutions, i.e., file management and file storage, for managing records including files and documents by using state of the art records and information management solutions. This will enable ordering agencies to track, access, and retrieve documents and/or information in a timely manner throughout the entire lifecycle of the record. Ordering agencies will be able to dispose of records in accordance with approved schedules as well.

Scope of Work:

The vendor is responsible for providing personnel, materials, software, equipment, and as applicable, facilities to perform all work requirements as indicated in an ordering agency's task order. Records management services include the management of records at all stages of the lifecycle. Disposal of all documents shall be accomplished through Document Destruction Services.

Electronic Records Management Services - Electronic Records Management Services include but are not limited to helping agencies ensure records are reliable, authentic, have integrity, remain usable, and include the necessary content, context and structure. Records management also includes the ability to maintain records securely, manage access and retrieval, preserve records for as long as necessary and execute disposition.

File Organization and Maintenance Services - File Organization and Maintenance Services provides intellectual and physical support to enable the Government control of documents or information. It includes the organization of sophisticated documents and/or information placing it into a simplified filing system in accordance with an ordering agency's needs to improve their existing work environment. Generally, it includes gathering documents and data to be scanned and indexed into a digitized format. However, an ordering agency may simply require updating to an existing file system, maintenance of documents, or organizing existing documents or information into a storage media for shipping.

Verification:

Electronic records management systems or solutions must meet the applicable requirements as presented in the Universal Electronic Records Management (ERM) Requirements attachment to the solicitation. NARA created the Universal ERM Requirements to, (1) provide standards for agencies and existing Lines of Business to manage their electronic records; (2) help vendors determine capabilities for their ERM tools; and (3) help agencies identify the best tools to procure for their needs. For more information about the ERM Requirements contact NARA via PRMD@NARA.Gov. Note that these requirements will be periodically updated by NARA and will be incorporated into the MAS solicitation through a refresh and corresponding Mass Modification.

Security:

Background check

All vendor personnel with access to Federal records will be required to sign non-disclosure agreements. Some agencies may require vendor personnel obtain a security clearance before receiving access to records. Security clearances, when required on individual orders, will be obtained at the vendor's expense. Because of the nature and sensitivity of the records that will be handled by the vendor, care must be given to safeguarding records regardless of where the records are held or stored. Confidentiality of records must be maintained at all times. Records containing Controlled Unclassified Information must be safeguarded in accordance with 32 CFR 2002.20 standards.

Lifecycle Electronic Records Management:

Vendor is responsible for meeting and satisfying applicable requirements for managing electronic records throughout their lifecycle as defined in the ERM Requirements Collection and in this section. The broad categories of the electronic records management requirements are defined as follows:

Capture - Refers to the idea of placing an object under records management control for disposition and access purposes. Objects are not necessarily moved from the system they reside in when they are captured.

Maintain & Use - The process of managing records through their most active stage. This includes ensuring records are migrated and transformed as systems change, so the records remain usable.

Disposal - The period when records have met their retention period and no longer have business value to the organization. Records that meet these conditions are destroyed in accordance with their records retention schedule using methods such as those outlined in NIST Special Publication 800-88.

Transfer - Records that are identified as having historical value are permanent records. These permanent records are kept by the agency for a period of time specified by their records retention schedule; the records are then legally transferred to NARA for permanent storage.

Metadata - Identifiers that describes the context, content, and structure of the records. Examples include author, document type, date, record category, file size, etc.

Reporting - Generating reports to allow for further analysis and to demonstrate effective controls and compliance. Reports may include search results, records eligible for disposition, audit logs, and other customized or ad hoc reports.

Disposition:

Disposition is the process of destroying temporary records or transferring permanent records to NARA once they have met their retention period outlined in their NARA approved records schedule. When records have reached the end of their lifecycle, the vendor shall manage the disposition process. This includes notifying the records custodians of the ordering agency that records are eligible for disposal or transfer and implementing, managing, and removing court ordered or agency directed disposition holds placed on Federal records.

The vendor shall transfer permanent records to NARA in accordance with the requirements outlined in regulations defined in 36 CFR, Chapter XII, Subpart 1235.

Other General Requirements:

Storage:

Vendor's facilities used for the storage of electronic records on media, which are not part of operational IT systems, must meet the requirements and regulations defined in 36 CFR, Chapter XII, Subpart 1236.28.

Quality Assurance:

The Vendor shall have a quality control/quality assurance plan that meets the Government's requirements. The Vendor shall maintain records throughout the contract period concerning the results of its inspections and monitoring procedures and the Contracting Officer or designee shall provide copies of these to the Government upon request. These records shall also be made available to the Government when conducting an audit. NARA will review and make recommendations concerning the report as needed. The reports and related documentation shall be part of the information used and revised on periodic audits.

The Vendor must maintain up-to-date documentation about any electronic records management system or solutions that is adequate to: 1) Specify all technical characteristics necessary for reading and processing the records contained in the system; 2) Identify all inputs and outputs; 3) Define the contents of the files and records; 4) Determine restrictions on access and use; 5) Understand the purpose(s) and function(s) of the system; 6) Describe update cycles or conditions and rules for adding, changing, or deleting information in the system; and 7) Ensure the timely, authorized disposition of the records.

Personnel Requirements:

The vendor shall provide skilled personnel that may include the supervisory, management, and administrative services necessary to successfully meet the Government's requirements for Records Management Services per the ordering agency's task order. All Vendor employees assigned to this contract who create, work with, or otherwise handle records are required to take [Agency]-provided records management training. The Vendor is responsible for confirming training has been completed according to agency policies, including initial training and any annual or refresher training.

Technical Advisory Services:

On an as needed basis, the vendor will provide technical advisory services addressing records management issues relating to the entire lifecycle of records. Services that may be required include, file maintenance, forms design, and automated applications. All vendor personnel shall have met the applicable requirements defined in the previous Security section of this document.

NOTE: Under this SIN, contractors are permitted to quote the appropriate combination of electronic records management products, services and ancillary items from any other category under MAS in order to provide a total solution; however, the terms and conditions of the SIN under which the items are awarded must be applied. For example, a contractor could quote under SIN 518210ERM with electronic records management services along with some physical records management services from SIN 493110RM, document conversion services from SIN 518210DC and document destruction services from SIN 561990. The contractors awarded terms and conditions from SINs 493110RM, 518210DC, and 561990 must be applied to the total solution quoted under SIN 518210ERM. Note that sales in the amount of the total order should be reported and IFF remitted through SIN 518210ERM.

Vendor Certification for SIN 518210ERM --- Electronic Records Management Solutions

For the purposes of the GSA MAS Contract, eleven (11) specific elements of Electronic Records Management (ERM) Services have been identified. These 11 elements are fully defined and the corresponding requirements are identified in the Universal Electronic Records Management Requirements attachment to the solicitation. These requirements have been established and are administered by the National Archives & Records Administration (NARA).

Vendors may provide any combination of the 11 elements of ERM Services; however, vendors must certify that they are capable of meeting all standards associated with the elements they propose by completing this certification. Vendors should include a completed copy of this certification in their published GSA catalog to illustrate their ERM capabilities.

Quality Associates, Inc.
11850 West Market Place, Suite P
Fulton, MD 20759

Proposed Elements of Electronic Records Management Services:

- Element 1 – Office Management Applications
- Element 2 - Electronic Messages
- Element 3 - Social Media
- Element 4 - Cloud Services
- Element 5 - Websites
- Element 6 - Digital Media (Photo)
- Element 7 - Digital Media (Audio)
- Element 8 - Digital Media (Video)
- Element 9 – Structured Data
- Element 10 - Shared Drives
- Element 11 - Engineering Drawings

Quality Associates hereby certifies that we are capable of meeting all standards described in the Universal Electronic Records Management Requirements attachment for each of the sections of ERM Services we have proposed, as indicated above.

**TERMS AND CONDITIONS APPLICABLE TO
PHYSICAL RECORDS MANAGEMENT SERVICES
(SPECIAL ITEM NUMBER 493110RM)**

493110RM Includes capabilities to manage the movement, manipulation, archiving, security, and management of physical records, including any ancillary supplies and/or services necessary to provide a total physical records management solution.

Cooperative Purchasing: No
Set Aside: No
FSC/PSC Code: R616
Maximum Order: \$1,000,000

NAICS

Number	Description	Business Size
493110	General Warehousing and Storage	\$30 million

Instructions:

NOTE:

Provides the comprehensive capability to solve the complex challenges posed by the movement, manipulation, archiving, security, and management of physical records. The vendor provides professional management and administrative support personnel having the necessary skills to perform effective records management services for both classified and/or unclassified records. The services are provided using either Government or vendor equipment and facilities or a combination of both. The vendor provides those services necessary to meet the following record management objectives using Government equipment and facilities. The records management objectives are to (1) maintain the facility in a manner that permits the easy location, retrieval, and storage of records; and (2) maintain a process that permits the capture, access, maintenance, control, storage, disposition, and transfer of physical records. Includes any ancillary supplies and/or services necessary to provide a total physical records management solution.

NOTE: Ordering Agencies are responsible for ensuring that vendors comply with all NARA regulations for physical records management.

Purpose:

Records Management Solutions (RMS) provide federal agencies with technical support and solutions regarding file management and file storage, managing records including files and documents, and using state-of-the-art records and information management solutions. It enables ordering agencies to track, access, and retrieve documents and/or information in a timely manner throughout the entire lifecycle of the record. Ordering agencies will be able to dispose of records in accordance with approved schedules as well.

Scope of Work:

Physical records management solutions are divided into two sections: (a) File Organization and Maintenance Services and (b) Storage Services. The vendor is responsible for providing personnel, materials, software, equipment, and as applicable, facilities to perform all work requirements as specified in an ordering agency's task order. RMS includes managing records at all stages of the lifecycle. Certifications of software applications are required. Disposal of all documents shall be accomplished through Document Destruction Services.

File Organization and Maintenance Services - File Organization and Maintenance Services provides intellectual and physical support enabling Government control of documents or information. It includes the organization of documents and/or information by placing it into a simplified filing system in accordance with an ordering agency's needs to improve their existing work environment. It includes gathering documents and data to be scanned and indexed into a digitized format. However, an ordering agency may require simply updating to an existing file system, maintenance of documents, or organizing existing documents or information into a storage media for shipping.

Storage Services - Storage Services provides for preparation, pick up, storage, and retrieval of records. Federal agencies must certify to NARA that a Commercial Records Storage Facility or an agency's own records center meets the 36 CFR 1234 standards. Commercial Records Center and an agency records center are defined in 36 CFR 1220.18.

Security:

Background check

All vendor personnel with access to Federal records will be required to sign non-disclosure agreements. Some agencies may require vendor personnel obtain a security clearance before receiving access to records. Security clearances, when required on individual orders, will be obtained at the vendor's expense. Because of the nature and sensitivity of the records that will be handled by the vendor, care must be given to safeguarding records regardless of where the records are held or stored. Confidentiality of records must be maintained at all times.

Specific Tasks:

Records Retrieval:

- A. The vendor must retrieve requested records and deliver those records to the agency requestor within a timeframe established by the individual task order. The agency may request records orally or in writing.
- B. The vendor must provide emergency reference services (retrieval services outside business hours) if required by an ordering agency, 24 hours each day, every day of the year. Emergency services are defined as services provided outside the normal operation hours of the vendor's facility. After notification, the required response time will be a maximum of 2 hours, unless otherwise specified in the task order. Any shipment under emergency services will be handled direct delivery within 8 hours, unless otherwise specified in the task order. The vendor must provide emergency service phone numbers for all storage sites to the ordering agency's contracting officer within 30 days after award of the contract, unless otherwise specified in the task.

Transferring of Records:

Transferring is the processing of records coming into the facility. The vendor must be able to transfer and store physical records in a variety of containers. Agencies may have records in various media/formats, such as audiovisual (e.g., photographs, posters, sound recordings) or x-rays. The vendor must have the capability to manage and store all potential media/formats. The Government may ship records to the vendor, or the vendor may pick up records from governmental sites (as outlined in the Pick-up Services section). The vendor will be responsible for maintaining the arrangement of each transfer and verifying that the contents match the accompanying documentation.

General guidelines for transferring records are outlined below:

- A: To safeguard the records and the information they contain, the records must be packaged in sturdy, approved containers. Commonly used containers include boxes with flaps, tubes with end caps, and map boxes with covers. The containers must be securely sealed with packing tape.
- B: Shipping methods include but are not limited to services provided by the United States Postal Service, express delivery services, or freight carriers.

Inventory Services:

The vendor may be asked to assist the agency by inventorying agency records. The inventories will require the gathering of data, including listings of individual folders or the numerical or alphabetical span of folders in each box. The inventories must be prepared according to the schedule established by the Contracting Officer's Representative (COR) for that agency. If travel is required, the vendor will be reimbursed in accordance with the Joint Travel Regulations.

Pick up Services:

- A: Within 50 Miles: Within a timeframe as established by the individual task order of notification by the Government, the vendor must pick up records that have been prepared for transfer from Governmental agencies storage facilities.
- B: Outside of 50 Miles: The vendor may use the GSA Government Bill of Lading (GBL) program to move records from sites more than 50 miles from the corporation site. The vendor will coordinate these moves unless otherwise directed by the ordering agency.

Disposition Services:

Disposition is the process of destroying temporary records or transferring permanent records to NARA once they have met their retention period outlined in their NARA approved records schedule. When records have reached the end of their lifecycle, the vendor shall manage the disposition process. This includes notifying the records custodians of the ordering agency that records are eligible for disposal or transfer and implementing, managing, and removing court ordered or agency directed disposition holds placed on Federal records.

The vendor shall transfer permanent records to NARA in accordance with the requirements outlined in regulations defined in 36 CFR, Chapter XII, Subpart 1235.

Tracking:

Vendor must possess an Automated Records Management tracking system. At a minimum this tracking system should have the capability of reading bar code labels, providing online access to the vendor's tracking system, and allowing customers to place reference requests electronically. The vendor shall maintain system capability with the requesting agency (agency will provide technical specifications at the task order level).

Other General Requirements:**Quality Assurance:**

The vendor must possess a facility capable of storing records in accordance with NARA requirements including 36 CFR 1234. Approval of the records storage facility shall be performed by the Government via the NARA document review.

The Government reserves the right to inspect the vendor's facility at any time to ensure standards are maintained throughout the contract period. From time to time, the Government (as represented by either the contracting agency or NARA itself) may conduct a site visit.

The vendor shall have a quality control/quality assurance plan that meets the Government's requirements. The vendor shall maintain records throughout the contract period concerning the results of its inspections and monitoring procedures. The Contracting Officer or designee shall provide copies of these records to the Government upon request.

These records shall be made available to the Government when conducting a site visit of the record storage facility. NARA will review and make recommendations concerning the facility as needed. The reports and related documentation shall be part of the information used and revised on periodic site inspections. The system

must have the capability of verifying the accuracy of the documents being retrieved (i.e. whether the correct document is being handled).

The vendor must provide reference room facilities in each records storage facility that maintain a normal office environment as defined by the agency. Only personnel authorized by the agency which owns the records will be granted access to that agency's records in the vendor-operated reference rooms.

Reports Preparation:

The vendor must provide monthly reports to the agency including but not limited to reports on holdings, transfers, disposals, records eligible for disposal, shipment of records, reference, refiles, and photocopying.

User's Manuals:

The vendor will prepare a User's Manual at no additional cost to the Government that will describe the detailed procedures to be used by the Government in conducting the accessioning, referencing, filing, and disposal activities described above. The manual will also include an organizational chart providing the point of contact in each vendor facility as well as a single point of contact for nationwide coordination. The Manual will also detail the various reports that are available for Government uses.

Personnel Requirements:

The vendor shall provide skilled personnel that may include the supervisory, management, and administrative services necessary to successfully meet the Government's requirements for Records Management Services per the ordering agency's task order. All vendor employees assigned to this contract who create, work with, or otherwise handle records are required to take agency-provided records management training. The Vendor is responsible for confirming training has been completed according to agency policies, including initial training and any annual or refresher training.

Technical Advisory Services:

On an as needed basis, the vendor will provide technical advisory services addressing records management issues relating to the entire lifecycle of records. Services that may be required include, file maintenance, forms design, and automated applications. All vendor personnel shall have met the applicable requirements defined in the previous Security section of this document. Personnel are required to display vendor identification during pick-up and delivery. All personnel responsible for transporting federal records must have a valid driver's license.

NOTE: Under this SIN, contractors are permitted to quote the appropriate combination of physical records management products, services and ancillary items from any other category under MAS in order to provide a total solution; however, the terms and conditions of the SIN under which the items are awarded must be applied. For example, a contractor could quote under SIN 493110RM with physical records management services along with some electronic records management services from SIN 518210ERM, document conversion services from SIN 518210DC and document destruction services from SIN 561990. The contractors awarded terms and conditions from SINs 518210ERM, 518210DC, and 561990 must be applied to the total solution quoted under SIN 493110RM. Note that sales in the amount of the total order should be reported and IFF remitted through SIN 493110RM.

**TERMS AND CONDITIONS APPLICABLE TO
DOCUMENT PRODUCTION ON-SITE AND OFF-SITE SERVICES
(SPECIAL ITEM NUMBER 561439)**

SIN 561439 Includes the necessary equipment (e.g. high-volume digital color copiers, scanners) and personnel required for effective on-site/off-site document production. Also includes single or multiple shift production operations, consumable supplies (paper and transparencies are usually not included), on-going equipment maintenance, and customized agency reports.

NOTE: Consider job turnaround time, maximum number of impressions per day or month, document quality expectations, etc.

Cooperative Purchasing: No
Set Aside: No
FSC/PSC Code: R799
Maximum Order: \$1,000,000

NAICS

Number	Description	Business Size
561439	Other Business Service Centers (including Copy Shops)	\$16.5 million

Instructions:

NOTE: A typical document production service would include the required equipment (e.g., high-volume digital color copiers, scanners) and contractor provided operational and management personnel required for effective on-site/off-site document production. Document production services are available using either contractor provided and installed equipment, using existing Government-owned equipment, or using equipment installed in Government locations under Lease-to-Ownership Plans. In addition, single or multiple shift production operations; consumable supplies (paper and transparencies are usually not included); on-going equipment maintenance; and customized agency reports are included. Negotiated Operational Performance Standards may be jointly developed and included in the purchase order (e.g., job turn-around time, maximum number of impressions per day or month, document quality expectations, turn-around performance and accuracy ratings, management of consumable supplies, and monthly management reports).

**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF
GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY
EQUIPMENT
(SPECIAL ITEM NUMBER 33411)**

1. MATERIAL AND WORKMANSHIP

All equipment furnished hereunder must satisfactorily perform the function for which it is intended.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPA) agreements shall be the basis for purchase in accordance with the provisions of this contract. If time of delivery extends beyond the expiration date of the contract, the Contractor will be obligated to meet the delivery and installation date specified in the original order.

For credit card orders and BPAs, telephone orders are permissible.

3. TRANSPORTATION OF EQUIPMENT

FOB DESTINATION. Prices cover equipment delivery to destination, for any location within the geographic scope of this contract.

4. INSTALLATION AND TECHNICAL SERVICES

a. **INSTALLATION.** When the equipment provided under this contract is not normally self-installable, the Contractor's technical personnel shall be available to the ordering activity, at the ordering activity's location, to install the equipment and to train ordering activity personnel in the use and maintenance of the equipment. The charges, if any, for such services are listed in the price schedule.

b. **INSTALLATION, DEINSTALLATION, REINSTALLATION.** The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of \$2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds \$2,000, then the requirements of the Davis-Bacon Act applies.

The ordering activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

c. **OPERATING AND MAINTENANCE MANUALS.** The Contractor shall furnish the ordering activity with one (1) copy of all operating and maintenance manuals which are normally provided with the equipment being purchased.

5. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any equipment that has been tendered for acceptance.

The ordering activity may require repair or replacement of nonconforming equipment at no increase in contract price. The ordering activity must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

6. WARRANTY

- a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.
- b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.
- c. **Limitation of Liability.** Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.
- d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant.

7. PURCHASE PRICE FOR ORDERED EQUIPMENT

The purchase price that the ordering activity will be charged will be the ordering activity purchase price in effect at the time of order placement, or the ordering activity purchase price in effect on the installation date (or delivery date when installation is not applicable), whichever is less.

8. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City or otherwise) covering work of this character, and shall include all costs, if any, of such compliance in the prices quoted in this offer.

9. TRADE-IN OF INFORMATION TECHNOLOGY EQUIPMENT

When an ordering activity determines that Information Technology equipment will be replaced, the ordering activity shall follow the contracting policies and procedures in the Federal Acquisition Regulation (FAR), the policies and procedures regarding disposition of information technology excess personal property in the Federal Property Management Regulations (FPMR) (41 CFR 101-43.6), and the policies and procedures on exchange/sale contained in the FPMR (41 CFR part 101-46).

TERMS AND CONDITIONS APPLICABLE TO MAINTENANCE, REPAIR SERVICE AND REPAIR PARTS/SPARE PARTS FOR GOVERNMENT-OWNED GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT, (AFTER EXPIRATION OF GUARANTEE/WARRANTY PROVISIONS AND/OR WHEN REQUIRED SERVICE IS NOT COVERED BY GUARANTEE/WARRANTY PROVISIONS) AND FOR LEASED EQUIPMENT (SPECIAL ITEM NUMBER 811212)

1. SERVICE AREAS

- a. The maintenance and repair service rates listed herein are applicable to any ordering activity. If any additional charge is to apply because of the distance from the service locations, the mileage rate or other distance factor shall be negotiated at the Task Order level.
- b. When repair services cannot be performed at the ordering activity installation site, the repair services will be performed at the Contractor's plant(s) as outlined in the Task Order.

2. MAINTENANCE ORDER

- a. Agencies may use written orders, EDI orders, credit card orders, or BPAs, for ordering maintenance under this contract. The Contractor shall confirm orders within fifteen (15) calendar days from the date of receipt, except that confirmation of orders shall be considered automatic for renewals for maintenance (Special Item Number 132-12). Automatic acceptance of order renewals for maintenance service shall apply for machines which may have been discontinued from use for temporary periods of time not longer than 120 calendar days. If the order is not confirmed by the Contractor as prescribed by this paragraph, the order shall be considered to be confirmed by the Contractor.
- b. The Contractor shall honor orders for maintenance for the duration of the contract period or a lesser period of time, for the equipment shown in the pricelist. Maintenance service shall commence on a mutually agreed upon date, which will be written into the maintenance order. Maintenance orders shall not be made effective before the expiration of any applicable maintenance and parts guarantee/warranty period associated with the purchase of equipment. Orders for maintenance service shall not extend beyond the end of the contract period.
- c. Maintenance may be discontinued by the ordering activity on thirty (30) calendar days written notice, or shorter notice when agreed to by the Contractor; such notice to become effective thirty (30) calendar days from the date on the notification. However, the ordering activity may extend the original discontinuance date upon written notice to the Contractor, provided that such notice is furnished at least ten (10) calendar days prior to the original discontinuance date.
- d. Annual Funding. When annually appropriated funds are cited on a maintenance order, the period of maintenance shall automatically expire on September 30th of the contract period, or at the end of the contract period, whichever occurs first. Renewal of a maintenance order citing the new appropriation shall be required, if maintenance is to continue during any remainder of the contract period.
- e. Cross-year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month, fiscal year period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.
- f. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of maintenance service, if maintenance is to be terminated at that time. Orders for continued maintenance will be required if maintenance is to be continued during the subsequent period.

3. REPAIR SERVICE AND REPAIR PARTS/SPARE PARTS ORDERS

- a. Agencies may use written orders, EDI orders, credit card orders, blanket purchase agreements (BPAs), or small order procedures for ordering repair service and/or repair parts/spare parts under this contract. Orders for repair service shall not extend beyond the end of the contract period.
- b. When repair service is ordered, only one chargeable repairman shall be dispatched to perform repair service, unless the ordering activity agrees, in advance, that additional repair personnel are required to effect repairs.

4. LOSS OR DAMAGE

When the Contractor removes equipment to his establishment for repairs, the Contractor shall be responsible for any damage or loss, from the time the equipment is removed from the ordering activity installation, until the equipment is returned to such installation.

5. SCOPE

- a. The Contractor shall provide maintenance for all equipment listed herein, as requested by the ordering activity during the contract term. Repair service and repair parts/spare parts shall apply exclusively to the equipment types/models within the scope of this Information Technology Schedule.
- b. Equipment placed under maintenance service shall be in good operating condition.
 - (1) In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by the Contractor, without charge to the ordering activity.
 - (2) Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by the Contractor, if the equipment was under the Contractor's guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.
 - (3) If the equipment was not under the Contractor's responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the ordering activity, in accordance with the provisions of Special Item Number 132-12 (or outside the scope of this contract).

6. RESPONSIBILITIES OF THE ORDERING ACTIVITY

- a. Ordering activity personnel shall not perform maintenance or attempt repairs to equipment while such equipment is under the purview of a maintenance order, unless agreed to by the Contractor.
- b. Subject to security regulations, the ordering activity shall permit access to the equipment which is to be maintained or repaired.
- c. If the Ordering Activity desires a factory authorized/certified service personnel then this should be clearly stated in the task or delivery order.

7. RESPONSIBILITIES OF THE CONTRACTOR

- a. For equipment not covered by a maintenance contract or warranty, the Contractor's repair service personnel shall complete repairs as soon as possible after notification by the ordering activity that service is required. Within the service areas, this repair service should normally be done within 4 hours after notification.
- b. If the Ordering Activity task or delivery order specifies a factory authorized/certified service personnel then the Contractor is obligated to provide such a factory authorized/certified service personnel for the equipment to be repaired or serviced, unless otherwise agreed to in advance between the Agency and the Contractor.

8. MAINTENANCE RATE PROVISIONS

a. The Contractor shall bear all costs of maintenance, including labor, parts, and such other expenses as are necessary to keep the equipment in good operating condition, provided that the required repairs are not occasioned by fault or negligence of the ordering activity.

b. **REGULAR HOURS**

The basic monthly rate for each make and model of equipment shall entitle the ordering activity to maintenance service during a mutually agreed upon nine (9) hour principal period of maintenance, Monday through Friday, exclusive of holidays observed at the ordering activity location.

c. **AFTER HOURS**

Should the ordering activity require that maintenance be performed outside of Regular Hours, charges for such maintenance, if any, will be specified in the pricelist. Periods of less than one hour will be prorated to the nearest quarter hour.

d. **TRAVEL AND TRANSPORTATION**

If any charge is to apply, over and above the regular maintenance rates, because of the distance between the ordering activity location and the Contractor's service area, the charge will be negotiated at the Task Order level.

e. **QUANTITY DISCOUNTS**

Quantity discounts from listed maintenance service rates for multiple equipment owned and/or leased by a ordering activity will be outlined in the Task Order.

9. REPAIR SERVICE RATE PROVISIONS

a. **CHARGES.** Charges for repair service will include the labor charge, computed at the rates set forth below, for the time during which repairmen are actually engaged in work, and, when applicable, the charge for travel or transportation.

b. **MULTIPLE MACHINES.** When repairs are ordered by an ordering activity on two or more machines located in one or more buildings within walking distance of each other, the charges will be computed from the time the repairman commences work on the first machine, until the work is completed on the last machine. The time required to go from one machine to another, or from one building to another, will be considered actual work performance, and chargeable to the ordering activity, provided the time consumed in going between machines (or buildings) is reasonable.

c. **TRAVEL OR TRANSPORTATION**

(1) **AT THE CONTRACTOR'S SHOP**

(a) When equipment is returned to the Contractor's shop for adjustments or repairs which are not covered by the guarantee/warranty provision, the cost of transportation, packing, etc., from the ordering activity location to the Contractor's plant, and return to the ordering activity location, shall be borne by the ordering activity.

(b) The ordering activity should not return defective equipment to the Contractor for adjustments and repairs or replacement without his prior consultation and instruction.

(2) **AT THE ORDERING ACTIVITY LOCATION (Within Established Service Areas)**

When equipment is repaired at the ordering activity location, and repair service rates are established for service areas or zones, the listed rates are applicable to any ordering activity location within such service areas or zones. No extra charge, time, or expense will be allowed for travel or transportation of repairmen or machines to or from the ordering activity office; such overhead is included in the repair service rates listed.

(3) AT THE ORDERING ACTIVITY LOCATION (Outside Established Service Areas)

(a) If repairs are to be made at the ordering activity location, and the location is outside the service area as shown in paragraph 1.a, the repair service and mileage rates negotiated per subparagraphs 1.a and 8.d will apply.

(b) When the overall travel charge computed at the above mileage rate is unreasonable (considering the time required for travel, actual and necessary transportation costs, and the allowable ordering activity per diem rate for each night the repairman is required to remain overnight at the ordering activity location), the ordering activity shall have the option of reimbursing the Contractor for actual costs, provided that the actual costs are reasonable and allowable. The Contractor shall furnish the ordering activity with a report of travel performed and related expenses incurred. The report shall include departure and arrival dates, times, and the applicable mode of travel.

d. LABOR RATES

(1) REGULAR HOURS

The Regular Hours repair service rates listed herein shall entitle the ordering activity to repair service during the period 8:00 a.m. to 5:00 p.m., Monday through Friday, exclusive of holidays observed at the ordering activity location. There shall be no additional charge for repair service which was requested during Regular Hours, but performed outside the Regular Hours defined above, at the convenience of the Contractor.

(2) AFTER HOURS

When the ordering activity requires that repair service be performed outside the Regular Hours defined above, except Sundays and Holidays observed at the ordering activity location, the After Hours repair service rates listed herein shall apply. The Regular Hours rates defined above shall apply when repair service is requested during Regular Hours, but performed After Hours at the convenience of the Contractor.

(3) SUNDAYS AND HOLIDAYS

When the ordering activity requires that repair service be performed on Sundays and Holidays observed at the ordering activity location, the Sundays and Holidays repair service rates listed herein shall apply. When repair service is requested to be performed during Regular Hours and/or After Hours, but is performed at the convenience of the Contractor on Sundays or Holidays observed at the ordering activity location, the Regular Hours and/or After Hours repair service rates, as applicable, shall apply.

10. REPAIR PARTS/SPARE PARTS RATE PROVISIONS

All parts, furnished as spares or as repair parts in connection with the repair of equipment, unless otherwise indicated in this pricelist, shall be new, standard parts manufactured by the equipment manufacturer. All parts shall be furnished at prices indicated in this pricelist.

11. GUARANTEE/WARRANTY—REPAIR SERVICE AND REPAIR PARTS/SPARE PARTS

a. REPAIR SERVICE

All repair work will be guaranteed/warranted for a period of 30 days.

b. REPAIR PARTS/SPARE PARTS

All parts, furnished either as spares or repairs parts will be guaranteed/warranted for a period of 30 days.

12. INVOICES AND PAYMENTS

a. Maintenance Service

(1) Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

(2) Payment for maintenance service of less than one month's duration shall be prorated at 1/30th of the monthly rate for each calendar day.

b. Repair Service and Repair Parts/Spare Parts

Invoices for repair service and parts shall be submitted by the Contractor as soon as possible after completion of work. Payment under blanket purchase agreements will be made quarterly or monthly, except where cash payment procedures are used. Invoices shall be submitted separately to each ordering activity office ordering services under the contract. The cost of repair parts shall be shown as a separate item on the invoice, and shall be priced in accordance with paragraph #10, above. PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

**TERMS AND CONDITIONS APPLICABLE TO SOFTWARE LICENSES (SPECIAL
ITEM NUMBER 511210) AND SOFTWARE MAINTENANCE SERVICES (SPECIAL
ITEM NUMBER 54151) OF GENERAL PURPOSE COMMERCIAL INFORMATION
TECHNOLOGY SOFTWARE**

1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. GUARANTEE/WARRANTY

- a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract.
- b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.
- c. **Limitation of Liability.** Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

3. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number 800-488-3547 for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available from 8:00am to 5:00pm EST weekdays.

4. SOFTWARE MAINTENANCE

- a. Software maintenance as it is defined:
 1. Software Maintenance as a Product (SIN 511210)

Software maintenance as a product includes the publishing of bug/defect fixes via patches and updates/upgrades in function and technology to maintain the operability and usability of the software product. It may also include other no charge support that are included in the purchase price of the product in the commercial marketplace. No charge support includes items such as user blogs, discussion forums, on-line help libraries and FAQs (Frequently Asked Questions), hosted chat rooms, and limited telephone, email and/or web-based general technical support for user's self diagnostics.

Software maintenance as a product does NOT include the creation, design, implementation, integration, etc. of a software package. These examples are considered software maintenance as a service.

Software Maintenance as a product is billed at the time of purchase.

2. Software Maintenance as a Service (SIN 54151)

Software maintenance as a service creates, designs, implements, and/or integrates customized changes to software that solve one or more problems and is not included with the price of the software. Software maintenance as a service includes person-to-person communications regardless of the medium used to communicate: telephone support, on-line technical support, customized support, and/or technical expertise which are charged commercially. Software maintenance as a service is billed arrears in accordance with 31 U.S.C. 3324.

Software maintenance as a service is billed in arrears in accordance with 31 U.S.C. 3324.

b. Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). **PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.**

5. PERIODS OF SOFTWARE LICENSES (SIN 511210) AND SOFTWARE MAINTENANCE SERVICES (SIN 54151)

a. The Contractor shall honor orders for periods for the duration of the contract period or a lesser period of time.

b. Term licenses and/or maintenance may be discontinued by the ordering activity on thirty (30) calendar days written notice to the Contractor.

c. **Annual Funding.** When annually appropriated funds are cited on an order for term licenses and/or maintenance, the period of the term licenses and/or maintenance shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of the term licenses and/or maintenance orders citing the new appropriation shall be required, if the term licenses and/or maintenance is to be continued during any remainder of the contract period.

d. **Cross-Year Funding Within Contract Period.** Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.

e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, if the term licenses and/or maintenance is to be terminated at that time. Orders for the continuation of term licenses and/or maintenance will be required if the term licenses and/or maintenance is to be continued during the subsequent period.

6. CONVERSION FROM TERM LICENSE TO PERPETUAL LICENSE

a. The ordering activity may convert term licenses to perpetual licenses for any or all software at any time following acceptance of software. At the request of the ordering activity the Contractor shall furnish, within ten (10) calendar days, for each software product that is contemplated for conversion, the total amount of conversion credits which have accrued while the software was on a term license and the date of the last update or enhancement.

b. Conversion credits which are provided shall, within the limits specified, continue to accrue from one contract period to the next, provided the software remains on a term license within the ordering activity.

c. The term license for each software product shall be discontinued on the day immediately preceding the effective date of conversion from a term license to a perpetual license.

d. The price the ordering activity shall pay will be the perpetual license price that prevailed at the time such software was initially ordered under a term license, or the perpetual license price prevailing at the time of conversion from a term license to a perpetual license, whichever is the less.

7. TERM LICENSE CESSATION

- a. After a software product has been on a continuous term license for a period of 12 months, a fully paid-up, non-exclusive, perpetual license for the software product shall automatically accrue to the ordering activity. The period of continuous term license for automatic accrual of a fully paid-up perpetual license does not have to be achieved during a particular fiscal year; it is a written Contractor commitment which continues to be available for software that is initially ordered under this contract, until a fully paid-up perpetual license accrues to the ordering activity. However, should the term license of the software be discontinued before the specified period of the continuous term license has been satisfied, the perpetual license accrual shall be forfeited.
- b. The Contractor agrees to provide updates and maintenance service for the software after a perpetual license has accrued, at the prices and terms of Special Item Number 54151, if the licensee elects to order such services. Title to the software shall remain with the Contractor.

8. UTILIZATION LIMITATIONS - (SIN 511210 AND SIN 54151)

- a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.
- b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:
 - (1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.
 - (2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.
 - (3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.
 - (4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of Disaster Recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.
 - (5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause,

"Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

9. SOFTWARE CONVERSIONS - (SIN 511210)

Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system, or from one computer system to another.

10. DESCRIPTIONS AND EQUIPMENT COMPATIBILITY

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

11. RIGHT-TO-COPY PRICING

The Contractor shall insert the discounted pricing for right-to-copy licenses.

**TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF
TRAINING COURSES FOR GENERAL PURPOSE COMMERCIAL
INFORMATION TECHNOLOGY EQUIPMENT AND SOFTWARE
(SPECIAL ITEM NUMBER 611420)**

1. SCOPE

- a. The Contractor shall provide training courses normally available to commercial customers, which will permit Government users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.
- b. The Contractor shall provide training at the Contractor's facility and/or at the Government's location, as agreed to by the Contractor and the Government.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. TIME OF DELIVERY

The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the Government.

4. CANCELLATION AND RESCHEDULING

- a. The Government will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the Government to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the Government will modify its original training order to specify the time and date of the rescheduled training class.
- b. In the event the Government fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the Government will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the Government to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.
- c. The Government reserves the right to substitute one student for another up to the first day of class.
- d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the Government, the Contractor must notify the Government at least seventy-two (72) hours before the scheduled training date.

5. FOLLOW-UP SUPPORT

The Contractor agrees to provide each student with unlimited telephone support for a period of one (1) year from the completion of the training course. During this period, the student may contact the Contractor's instructors for refresher assistance and answers to related course curriculum questions.

6. PRICE FOR TRAINING

The price that the Government will be charged will be the Government training price in effect at the time of order placement, or the Government price in effect at the time the training course is conducted, whichever is less.

7. INVOICES AND PAYMENT

Invoices for training shall be submitted by the Contractor after Government completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

8. FORMAT AND CONTENT OF TRAINING

a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.

b. ****If applicable**** for hands-on training courses, there must be a one-to-one assignment of IT equipment to students.

c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.

d. The Contractor shall provide the following information for each training course offered:

- (1) The course title and a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);
- (2) The length of the course;
- (3) Mandatory and desirable prerequisites for student enrollment;
- (4) The minimum and maximum number of students per class;
- (5) The locations where the course is offered;
- (6) Class schedules; and
- (7) Price (per student, per class (if applicable)).

e. For those courses conducted at the Government’s location, instructor travel charges (if applicable), including mileage and daily living expenses, must be indicated below. Rates paid as a result of travel must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts.

All on-site (Customer location) courses would involve the addition of travel costs in accordance with the Federal Travel Regulation (or JTR) in effect at the time the travel is performed.

9. “NO CHARGE” TRAINING

The Contractor shall describe any training provided with equipment and/or software provided under this contract, free of charge, in the space provided below.

N/A

TERMS AND CONDITIONS APPLICABLE TO IT SERVICES (SPECIAL ITEM NUMBER 54151S)

1. SCOPE

- a. The prices, terms and conditions stated under Special Item Number 54151S IT Services apply exclusively to services within the scope of this Information Technology Schedule.
- b. The Contractor shall provide services at the Contractor's facility and/or at the Government location, as agreed to by the Contractor and the ordering office.

2. PERFORMANCE INCENTIVES

- a. When using a performance based statement of work, performance incentives may be agreed upon between the Contractor and the ordering office on individual fixed price orders or Blanket Purchase Agreements, for fixed price tasks, under this contract in accordance with this clause.
- b. The ordering office must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
- c. To the maximum extent practicable, ordering offices shall consider establishing incentives where performance is critical to the agency's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.
- d. The above procedures do not apply to Time and Material or labor hour orders.

3. ORDERING PROCEDURES FOR SERVICES (REQUIRING A STATEMENT OF WORK)

FAR 8.402 contemplates that GSA may occasionally find it necessary to establish special ordering procedures for individual Federal Supply Schedules or for some Special Item Numbers (SINs) within a Schedule. GSA has established special ordering procedures for services that require a Statement of Work. These special ordering procedures take precedence over the procedures in FAR 8.404 (b)(2) through (b)(3).

GSA has determined that the prices for services contained in the contractor's price list applicable to this Schedule are fair and reasonable. However, the ordering office using this contract is responsible for considering the level of effort and mix of labor proposed to perform a specific task being ordered and for making a determination that the total firm-fixed price or ceiling price is fair and reasonable.

- (a) When ordering services, ordering offices shall—
 - (1) Prepare a Request (Request for Quote or other communication tool):
 - (i) A statement of work (a performance-based statement of work is preferred) that outlines, at a minimum, the work to be performed, location of work, period of performance, deliverable schedule, applicable standards, acceptance criteria, and any special requirements (i.e., security clearances, travel, special knowledge, etc.) should be prepared.
 - (ii) The request should include the statement of work and request the contractors to submit either a firm-fixed price or a ceiling price to provide the services outlined in the statement of work. A firm-fixed price order shall be requested, unless the ordering office makes a determination that it is not possible at the time of placing the order to estimate accurately the extent or duration of the work or to anticipate cost with any reasonable degree of confidence. When such a determination is made, a labor hour or time-and-materials proposal may be requested. The firm-fixed price shall be based on the rates in the schedule contract and shall consider the mix of labor categories and level of effort required to perform the services described in the statement of work. The firm-fixed price of the order should also

include any travel costs or other incidental costs related to performance of the services ordered, unless the order provides for reimbursement of travel costs at the rates provided in the Federal Travel or Joint Travel Regulations. A ceiling price must be established for labor-hour and time-and-materials orders.

(iii) The request may ask the contractors, if necessary or appropriate, to submit a project plan for performing the task, and information on the contractor's experience and/or past performance performing similar tasks.

(iv) The request shall notify the contractors what basis will be used for selecting the contractor to receive the order. The notice shall include the basis for determining whether the contractors are technically qualified and provide an explanation regarding the intended use of any experience and/or past performance information in determining technical qualification of responses. If consideration will be limited to schedule contractors who are small business concerns as permitted by paragraph (2)(i) below, the request shall notify the contractors that will be the case.

(2) Transmit the Request to Contractors:

(i) Based upon an initial evaluation of catalogs and price lists, the ordering office should identify the contractors that appear to offer the best value (considering the scope of services offered, pricing and other factors such as contractors' locations, as appropriate). When buying IT professional services under SIN 54151S ONLY, the ordering office, at its discretion, may limit consideration to those schedule contractors that are small business concerns. This limitation is not applicable when buying supplies and/or services under other SINs as well as SIN 54151S. The limitation may only be used when at least three (3) small businesses that appear to offer services that will meet the agency's needs are available, if the order is estimated to exceed the micro-purchase threshold.

(ii) The request should be provided to three (3) contractors if the proposed order is estimated to exceed the micro-purchase threshold, but not exceed the maximum order threshold. For proposed orders exceeding the maximum order threshold, the request should be provided to additional contractors that offer services that will meet the agency's needs. Ordering offices should strive to minimize the contractors' costs associated with responding to requests for quotes for specific orders. Requests should be tailored to the minimum level necessary for adequate evaluation and selection for order placement. Oral presentations should be considered, when possible.

(3) Evaluate Responses and Select the Contractor to Receive the Order:

After responses have been evaluated against the factors identified in the request, the order should be placed with the schedule contractor that represents the best value. (See FAR 8.404)

(b) The establishment of Federal Supply Schedule Blanket Purchase Agreements (BPAs) for recurring services is permitted when the procedures outlined herein are followed. All BPAs for services must define the services that may be ordered under the BPA, along with delivery or performance time frames, billing procedures, etc. The potential volume of orders under BPAs, regardless of the size of individual orders, may offer the ordering office the opportunity to secure volume discounts. When establishing BPAs, ordering offices shall—

(1) Inform contractors in the request (based on the agency's requirement) if a single BPA or multiple BPAs will be established, and indicate the basis that will be used for selecting the contractors to be awarded the BPAs.

(i) SINGLE BPA: Generally, a single BPA should be established when the ordering office can define the tasks to be ordered under the BPA and establish a firm-fixed price or ceiling price for individual tasks or services to be ordered. When this occurs, authorized users may place the order directly under the established BPA when the need for service arises. The schedule contractor that represents the best value should be awarded the BPA. (See FAR 8.404)

(ii) **MULTIPLE BPAs:** When the ordering office determines multiple BPAs are needed to meet its requirements, the ordering office should determine which contractors can meet any technical qualifications before establishing the BPAs. When multiple BPAs are established, the authorized users must follow the procedures in (a)(2)(ii) above and then place the order with the Schedule contractor that represents the best value.

(2) **Review BPAs Periodically:** Such reviews shall be conducted at least annually. The purpose of the review is to determine whether the BPA still represents the best value. (See FAR 8.404)

(c) The ordering office should give preference to small business concerns when two or more contractors can provide the services at the same firm-fixed price or ceiling price.

(d) When the ordering office's requirement involves both products as well as executive, administrative and/or professional, services, the ordering office should total the prices for the products and the firm-fixed price for the services and select the contractor that represents the best value. (See FAR 8.404)

The ordering office, at a minimum, should document orders by identifying the contractor from which the services were purchased, the services purchased, and the amount paid. If other than a firm-fixed price order is placed, such documentation should include the basis for the determination to use a labor-hour or time-and-materials order. For agency requirements in excess of the micro-purchase threshold, the order file should document the evaluation of Schedule contractors' quotes that formed the basis for the selection of the contractor that received the order and the rationale for any trade-offs made in making the selection.

Ordering procedures for other services available on schedule at fixed prices for specifically defined services or tasks should use the procedures in FAR 8.404. These procedures are listed in the pricelist, under "Information for Ordering Offices," paragraph #12.

4. ORDER

a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.

b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

5. PERFORMANCE OF SERVICES

a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering office.

b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering office.

c. The Agency should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.

d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

6. INSPECTION OF SERVICES

The Inspection of Services–Fixed Price (AUG 1996) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) clause at FAR 52.246-6 applies to time-and-materials and labor-hour orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE GOVERNMENT

Subject to security regulations, the ordering office shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

9. INDEPENDENT CONTRACTOR

All IT Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the Government.

10. ORGANIZATIONAL CONFLICTS OF INTEREST

a. Definitions.

“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.

“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.

An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed Government contract, without some restriction on activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.

b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the Government, ordering offices may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES

The Contractor, upon completion of the work ordered, shall submit invoices for IT services. Progress payments may be authorized by the ordering office on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS

For firm-fixed price orders the Government shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour Contracts (Alternate I (APR 1984)) at FAR 52.232-7 applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts (FEB 1997) (Alternate II (JAN 1986)) at FAR 52.232-7 applies to labor-hour orders placed under this contract.

13. RESUMES

Resumes shall be provided to the GSA Contracting Officer or the user agency upon request.

14. INCIDENTAL SUPPORT COSTS

Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering agency in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS

The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

QAI's GSA FSS IT Schedule Products and Services Pricelist

518210DC - Document Conversion Services			
New Item Number	Product Description	Unit/Quantity	Proposed GSA Sched 70 Price
Conversion Unit Cost Items			
QAIDC1001	DOC PREP: Standard - Standard pre-conversion document handling includes: Removal of paper documents from standard bindings or file folders, Minimal staple removal (not to exceed the average of one staple for every ten scanned images), Post conversion, the documents will be returned to the standard bindings or file folders, and The documents will not be re-stapled or reassembled	Page	\$0.05
QAIDC1002	DOC PREP: Enhanced - Any document preparation required to make the collection ready for scanner processing, over and above the Standard Document Handling. May include such items as: Removing documents from non-standard bindings, Removal of more than minimum staples, Insertion of separator sheets and/or paper clips to augment re-stapling after conversion. The handling of post-it notes and/or other non-standard size paper	Page	\$0.08
QAIDC1003	SCANNING/PAPER: Standard - Pages will be scanned at 200/300 dpi, Blank backsides will be removed, Images are de-skewed at the page level, Images are cropped to eliminate excess over scan, 10% of the images are quality assured, Pages, which are larger in size than 8.5"x14", but do not exceed 11"x17" are considered oversized. The fee for oversize scanning is assessed on a per segment basis (segment = 8.5"x11" or portion thereof).	Image	\$0.10
QAIDC1004	SCANNING/PAPER: Enhanced - Pages will be scanned at 200/300 dpi, Blank backsides will be removed, Images will be de-skewed at the page level, Images will be cropped to eliminate excess over scan, Images are rotated to insure proper viewing, 10% of the images are quality assured, Pages, which are larger in size than 8.5"x14", but do not exceed 11"x17" are considered oversized. The fee for oversize scanning is assessed on a per segment basis (segment = 8.5"x11" or portion thereof).	Image	\$0.12
QAIDC1005	SCANNING/APERTURE CARD: Aperture Card Scanning - Cards are scanned at 200 - 300 dpi, Images will be de-skewed at the page level, Images will be cropped to eliminate excess over scan, Images will be inspected for proper rotation and rotated as needed, 10% of the images are quality assured, Hollerith Data from each card is captured during the scanning process and delivered as the index in a delimited ASCII format	Image	\$0.44
QAIDC1006	SCANNING/GRAPHIC ARTS: 35mm Strip Format Film, Black and White and or Color - Standard 35mm Film Strip Scanning includes: Film will be scanned to 300 dpi to an output size of 10" on the long dimension, Images will be cropped to the frame edge, Images will be stored as jpg or tiff uncompressed format, Images will be named using a sequential file naming scheme, Auto-import of customer provided metadata if applicable	Frame	\$1.73
QAIDC1007	SCANNING/GRAPHIC ARTS: 120mm (2 1/4 Strip Format Film; 6x6, 6x7, 6x9 format, Black and White and or Color - Standard 120mm Film Strip Scanning includes: Film will be scanned to 300 dpi to an output size of 10" on the long dimension, Images will be cropped to the frame edge, Images will be stored as jpg or tiff uncompressed format, Images will be named using a sequential file naming scheme, Auto-import of customer provided metadata if applicable	Frame	\$1.73

518210DC - Document Conversion Services

New Item Number	Product Description	Unit/Quantity	Proposed GSA Sched 70 Price
Conversion Unit Cost Items			
QAIDC1008	SCANNING/GRAPHIC ARTS: Oversize Transparency Scanning to include 4"x5" up to 8" x 10", Black and White and or Color - Standard Oversize Transparency Scanning includes: Film will be scanned to 300 dpi to an output size of 10" on the long dimension; 3000 ppi, Images will be cropped to the frame edge, Images will be stored as jpg or tiff uncompressed format, Images will be named using a sequential file naming scheme, Auto-import of customer provided metadata if applicable	Frame	\$5.43
QAIDC1009	SCANNING/BOOKS: Standard Size Bitonal - Books will be scanned to 300 dpi bitonal tiff format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension up to 17" x 22" will be considered standard.	Image	\$0.25
QAIDC1010	SCANNING/BOOKS: Standard Size Grayscale\Color - Books will be scanned to 300 dpi grayscale or color format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension up to 17" x 22" will be considered standard.	Image	\$0.35
QAIDC1011	SCANNING/BOOKS: Oversize Bitonal - Books will be scanned to 300 dpi bitonal tiff format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension in excess of 17" x 22" and up to 23" x 34" will be considered oversize.	Image	\$0.64
QAIDC1012	SCANNING/BOOKS: Oversize Grayscale\Color - Books will be scanned to 300 dpi grayscale or color format, Images will be de-skewed and cropped to the page edge, Images are rotated to insure proper viewing, Images Quality Controlled to ensure no pages missing, Books with an open dimension in excess of 17" x 22" and up to 23" x 34" will be considered oversize.	Image	\$0.84
QAIDC1013	SCANNING: Enhanced Image QA - Perform additional image quality checks to achieve image quality level of 100% as measured at the batch level.	Image	\$0.03
QAIDC1014	INDEXING/PAPER COLLECTIONS: Folder/Book Level – I - Three (3) fields or up to 20 characters of alphanumeric data captured from file folder cover or tab, Data to be captured must be clearly available on the outside of each file folder, Data capture will be double key entry to ensure accuracy, Optionally match key entry against customer provided data, The index database is delivered in a delimited ASCII format, Index Quality Assurance of 99% at a minimum as measured at the batch level	Folder/Bk	\$0.13
QAIDC1015	INDEXING/PAPER COLLECTIONS: Document Level – I - Two (2) fields or up to 12 characters of alphanumeric data captured from individual documents, Data to be captured must be consistently located on the first page of each document, clearly identifiable and legible, Key entry is single pass, The index database is delivered in a delimited ASCII format, Index Quality Assurance of 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning</i>	Document	\$0.14
QAIDC1016	INDEXING/PAPER COLLECTIONS: Document Level – II - Three (3) fields or up to 20 characters of alphanumeric data captured from individual documents, Data to be captured must be consistently located on the first page of each document, clearly identifiable and legible, Key entry is single pass, The index database is delivered in a delimited ASCII format, Index Quality Assurance of 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning</i>	Document	\$0.17

518210DC - Document Conversion Services

New Item Number	Product Description	Unit/Quantity	Proposed GSA Sched 70 Price
Conversion Unit Cost Items			
QAIDC1017	INDEXING/PAPER COLLECTIONS: Document Type Level – I - Add additional intelligence to the image index database by including a Document Type Identifier, As part of the indexing process, identify 1-5 unique document types, Definitive examples of each Document Type supplied by the customer, Document types must be clearly unique and identifiable by a Title or Form Number, A Document Type with multiple versions (i.e. revised or re-designed forms) may be considered as multiple Document Types if not clearly similar, Accuracy level of Document Types is 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning</i>	Document	\$0.02
QAIDC1018	INDEXING/PAPER COLLECTIONS: Document Type Level – II - Add additional intelligence to the image index database by including a Document Type Identifier, As part of the indexing process, identify 6-10 unique document types, Definitive examples of each Document Type supplied by the customer, Document types must be clearly unique and identifiable by a Title or Form Number, A Document Type with multiple versions (i.e. revised or re-designed forms) may be considered as multiple Document Types if not clearly similar, Accuracy level of Document Types is 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning</i>	Document	\$0.02
QAIDC1019	INDEXING/PAPER COLLECTIONS: Document Type Level – III - Add additional intelligence to the image index database by including a Document Type Identifier, As part of the indexing process, identify 11-15 unique document types, Definitive examples of each Document Type supplied by the customer, Document types must be clearly unique and identifiable by a Title or Form Number, A Document Type with multiple versions (i.e. revised or re-designed forms) may be considered as multiple Document Types if not clearly similar, Accuracy level of Document Types is 95% at a minimum as measured at the batch level, <i>Requires Enhanced Paper Scanning</i>	Document	\$0.02
QAIDC1020	INDEXING/PAPER COLLECTIONS: Enhanced Index QA - Perform additional index quality assurance checks to achieve accuracy level of 99% or better as measured at the batch level.	Document	\$0.11
QAIDC1021	INDEXING/IMAGES FROM APERTURE CARDS: Standard - Hollerith punched data, if present, captured at scan time, The index database is delivered in a delimited ASCII format, Included in the scanning fee, For additional indexing from the converted image, refer to <i>Additional Indexing and Key Stroking</i> below.	Image	\$0.02
QAIDC1022	ADDITIONAL INDEXING & KEY STROKING: Level – I - Capture additional index values from paper based collections, Data to be captured must be legible and consistent in nature, The accuracy level of keystroke data will be 95% at a minimum, The Fee is on a per keystroke basis	Keystroke	\$0.01
QAIDC1023	ADDITIONAL INDEXING & KEY STROKING: Level – II - Capture additional index values from image based collections, Data to be captured must be legible and consistent in nature, The accuracy level of keystroke data will be 95% at a minimum, The Fee is on a per keystroke basis	Keystroke	\$0.01
QAIDC1024	ADDITIONAL INDEXING & KEY STROKING: Level – III - Enhanced Quality Assurance of keystroke data to achieve an accuracy level of 98.5%, Accuracy rate is measured at the batch level	Keystroke	\$0.01
QAIDC1025	PDF CONVERSION: Image Only - Scanned TIFF images are converted to an image only PDF format	Page	\$0.03
QAIDC1026	PDF CONVERSION: Image Plus Hidden Text - Paper documents scanned at 300dpi, Textual data will be converted to ASCII utilizing OCR technology, OCR text will be hidden behind original image. Document is searchable, This service is available for paper based collections only	Page	\$0.04

518210DC - Document Conversion Services

New Item Number	Product Description	Unit/Quantity	Proposed GSA Sched 70 Price
Conversion Unit Cost Items			
QAIDC1027	PDF CONVERSION: PDF Normal - Paper documents raster scanned at 300dpi, Textual data will be converted to ASCII utilizing OCR technology, All free standing, standard character text larger than 6 point will be proofed and edited to insure accuracy of 99% or greater at the document level Graphics will be 100% quality assured and provided as 300dpi raster graphics, The original fonts and format of the document will be maintained, This service is available for paper based collections only	Page	\$3.45
QAIDC1028	PDF CONVERSION: Hyper-Linking and Book-Marking - Automated methods will be utilized to create hyperlinks and bookmarks for each entry in the Table of Contents and other Content Reference Pages, Automated methods will be utilized to create internal references	Link	\$0.25
QAIDC1029	Delivery Media: CD	Each	\$12.31
QAIDC1030	Delivery Media: DVD	Each	\$24.65
QAIDC1031	Creation of Master Media	Each	\$64.03
QAIDC1032	XML Conversion services	KChar	\$1.98
QAIDC1033	Micrographics/Media Conversion	Each	\$2.48
QAIDC1034	SET-UP CHARGES: REBOXING AND LABELIING	Box	\$4.48
QAIDC1035	HANDLING & STORAGE COSTS - ANNUALLY	Box	\$12.09
QAIDC1036	PICK-UP & DELIVERY – MILEAGE COST	Mile	\$0.49
QAIDC1037	DOCUMENT DESTRUCTION	Minute/box	\$6.40
QAIDC1038	COMPUTER/MEDIA RECYCLING	Pound	\$1.18

518210ERM - Electronic Records Management Solutions				
New Item Number	Services Category	Description	On-site	Off-site
Services Categories				
QAIERM1001	ERM Program Manager	MS/BS/BA in IT Field - Responsible for all activities relating to program/technical guidance for planning, directing, and monitoring large/multiple contract/task operations. Plans, recommends and implements contract/task activities, modifications, or related requirements.	\$88.53	\$101.79
QAIERM1002	ERM Project Manager	MS/BS/BA in IT Field - Responsible for all activities relating to technical guidance for planning, directing, and monitoring a contract/task operation. Plans, recommends and implements contract/task activities, modifications, or related requirements.	\$81.21	\$93.40
QAIERM1003	ERM Subject Matter Expert	PhD/MS/BS/BA in IT or Scientific Field - Specialized experience includes: supervision of system architects, use of structured analysis, design methodologies and design tools (such as IDEF 1x, entity relationship diagrams, and other design techniques), object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. General experience includes increasing responsibilities in systems engineering.	\$106.53	\$122.51
QAIERM1004	ERM Senior Principal Analyst	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed enterprise-wide systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing large-scale systems.	\$102.75	\$118.16
QAIERM1005	ERM Principal Analyst	MS/BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for enterprise-wide systems, applications, and/or solutions.	\$86.44	\$99.40
QAIERM1006	ERM Senior Systems Analyst	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed complex systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing systems.	\$79.95	\$91.96
QAIERM1007	ERM Mid Systems Analyst	MS/BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for complex systems, applications, and/or solutions.	\$69.13	\$79.49
QAIERM1008	ERM Systems Analyst	BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for complex systems, applications, and/or solutions.	\$58.61	\$67.40
QAIERM1009	ERM Senior Applications Programmer	MS/BS/BA - Defines and implement specification for complex systems or applications or modifies/maintains complex existing systems. Responsible for quality assurance.	\$69.75	\$80.21
QAIERM1010	ERM Applications Programmer	BS/BA - Provides programming and maintenance services of computer applications and operating software. Tests and debugs software programs and develops operating instructions.	\$49.33	\$56.72
QAIERM1011	ERM Senior Data Management Specialist	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed complex database systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new internal programs or modifications to vendor software.	\$86.72	\$99.74
QAIERM1012	ERM Data Management Specialist	BS/BA in IT Field - Installs and modifies various database applications. Provides direction to workstation operators.	\$78.12	\$89.84
QAIERM1013	ERM Computer Systems Analyst	BS/BA/HS w/Training Certificate - Writes, evaluates, analyzes, and tests new and enhanced hardware and software. When appropriate selects COTS products then installs and modifies to suit the end user environment	\$59.73	\$68.69

518210ERM - Electronic Records Management Solutions

New Item Number	Services Category	Description	On-site	Off-site
Services Categories				
QAIERM1014	ERM Document Management Specialist	MS/BS/BA - Responsible for operation of complex computer based document management program. Plans, implements, supervises and controls document management procedures.	\$35.93	\$41.31
QAIERM1015	ERM Lead Conversion Supervisor	BS/BA or Equivalent - Implement and maintain complex databases with respect to production jobs, validation checks, organization, production and security, documentation, and guidelines.	\$41.81	\$48.08
QAIERM1016	ERM Document Conversion Specialist	HS or Equivalent - Under direct supervision, provides support in management of computer job processing. Analyzes output and errors to determine corrective actions.	\$28.99	\$33.34
QAIERM1017	ERM Document Conversion Clerk	HS or Equivalent - Enters and maintains data directory information, data keyword lists and dictionary forms of data media. Reviews all information for correctness and maintains media library of system's recorded information.	\$22.12	\$25.45

493110RM - Physical Records Management Services				
New Item Number	Services Category	Description	On-site	Off-site
Services Categories				
QAIRM1001	RM Program Manager	MS/BS/BA in IT Field – Responsible for all activities relating to program/technical guidance for planning, directing, and monitoring large/multiple contract/task operations. Plans, recommends and implements contract/task activities, modifications, or related requirements.	\$88.53	\$101.79
QAIRM1002	RM Project Manager	MS/BS/BA in IT Field - Responsible for all activities relating to technical guidance for planning, directing, and monitoring a contract/task operation. Plans, recommends and implements contract/task activities, modifications, or related requirements.	\$81.21	\$93.40
QAIRM1003	RM Subject Matter Expert	PhD/MS/BS/BA in IT Field - Specialized experience includes: supervision of system architects, use of structured analysis, design methodologies and design tools (such as IDEF Ix, entity relationship diagrams, and other design techniques), object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. General experience includes increasing responsibilities in systems engineering.	\$106.53	\$122.51
QAIRM1004	RM Senior Principal Analyst	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed enterprise-wide systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing large-scale systems.	\$102.75	\$118.16
QAIRM1005	RM Principal Analyst	MS/BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for enterprise-wide systems, applications, and/or solutions.	\$86.44	\$99.40
QAIRM1006	RM Senior Systems Analyst	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed complex systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing systems.	\$79.95	\$91.96
QAIRM1007	RM Mid Systems Analyst	MS/BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for complex systems, applications, and/or solutions.	\$69.13	\$79.49
QAIRM1008	RM Systems Analyst	BS/BA in IT Field - Analyzes/Defines/Implements system and user specifications for complex systems, applications, and/or solutions.	\$58.61	\$67.40
QAIRM1009	RM Senior Applications Programmer	MS/BS/BA - Defines and implement specification for complex systems or applications or modifies/maintains complex existing systems. Responsible for quality assurance.	\$69.75	\$80.21
QAIRM1010	RM Applications Programmer	BS/BA - Provides programming and maintenance services of computer applications and operating software. Tests and debugs software programs and develops operating instructions.	\$49.33	\$56.72
QAIRM1011	RM Senior Data Management Specialist	MS/BS/BA in IT Field - Evaluates, designs and maintains existing or proposed complex database systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new internal programs or modifications to vendor software.	\$86.72	\$99.74
QAIRM1012	RM Data Management Specialist	BS/BA in IT Field - Installs and modifies various database applications. Provides direction to workstation operators.	\$78.12	\$89.84
QAIRM1013	RM Computer Systems Analyst	BS/BA/HS w/Training Certificate - Writes, evaluates, analyzes, and tests new and enhanced hardware and software. When appropriate selects COTS products then installs and modifies to suit the end user environment	\$59.73	\$68.69
QAIRM1014	RM Document Management Specialist	MS/BS/BA - Responsible for operation of complex computer based document management program. Plans, implements, supervises and controls document management procedures.	\$35.93	\$41.31

493110RM - Physical Records Management Services

New Item Number	Services Category	Description	On-site	Off-site
Services Categories				
QAIRM1015	RM Lead Supervisor	BS/BA or Equivalent - Implement and maintain complex databases with respect to production jobs, validation checks, organization, production and security, documentation, and guidelines.	\$41.81	\$48.08
QAIRM1016	RM Conversion Specialist	HS or Equivalent - Under direct supervision, provides support in management of computer job processing. Analyzes output and errors to determine corrective actions.	\$28.99	\$33.34
QAIRM1017	RM Conversion Clerk	HS or Equivalent - Enters and maintains data directory information, data keyword lists and dictionary forms of data media. Reviews all information for correctness and maintains media library of system's recorded information.	\$22.12	\$25.45

561439 - Document Production On-site and Off-site Services

New Item Number	Services Category	Description	On-site	Off-site
Services Categories				
QAIDP1001	DP Program Manager	MS/BS/BA in IT Field - Responsible for all activities relating to program/technical guidance for planning, directing, and monitoring large/multiple contract/task operations. SKILL CATEGORIES and POSITION DESCRIPTIONS

Item Number	Skill Categories	Education Level	On-Site	Off-Site	Position Descriptions
QAI51001	Senior Program Manager	PhD/MS/BS/BA in Related Field	\$119.84	\$137.83	Responsible for all activities relating to program/technical guidance for planning, directing, and monitoring multiple contract/task operations. Supervises multiple Program Managers. Has input on all contract/task activities, modifications, or related requirements.
QAI51002	Program Manager	MS/BS/BA in IT Field	\$89.20	\$102.57	Responsible for all activities relating to a program/technical guidance for planning, directing, and monitoring a single large contract/task. Plans, recommends and implements contract/task activities, modifications, or related requirements.
QAI51003	Project Manager	MS/BS/BA in IT Field	\$81.84	\$94.11	Responsible for all activities relating to technical guidance for planning, directing, and monitoring a contract/task operation. Plans, recommends and implements contract/task activities, modifications, or related requirements.
QAI51038	Senior Systems Architect/Senior SharePoint Expert	PhD/MS/BS/BA in IT or Scientific Field. MCP/MCTS Certifications	\$249.38	\$286.79	Specialized experience includes: MOSS/SharePoint design work, documentation and best practices consulting. Included areas: Architecture design, Topology, classification taxonomies, governance, workflows, Business Intelligence, training. Experience with the logical and physical functional, operational, and technical architecture of large and complex information and SharePoint systems. Consult with customers to identify and implement SharePoint requirements using standard web parts, workflows and business intelligence. Assess new and relevant SharePoint Services technologies. Prepare and update SharePoint Services documentation and define proper business processes. Develop application documentation and appropriate training. Define new requirements and changes for sites and pages in an orderly, cost-effective manner.
QAI51039	Senior Technical Expert	PhD/MS/BS in IT or Scientific Field	\$199.50	\$229.43	Specialized experience includes: supervision of senior system architects, use of structured analysis, design methodologies and design tools, object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. General experience includes enterprise level systems engineering, analysis, and design.
QAI51004	Technical Expert	PhD/MS/BS in IT or Scientific Field	\$115.65	\$133.00	Specialized experience includes: supervision of system architects, use of structured analysis, design methodologies and design tools (such as IDEF Ix, entity relationship diagrams, and other design techniques), object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. General experience includes increasing responsibilities in systems engineering.
QAI51040	Senior Subject Matter Expert	PhD/MS/BS/BA in IT or Scientific Field	\$179.55	\$206.48	Specialized experience includes: supervision of senior system architects, use of structured analysis, design methodologies and design tools, object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. Responsible for monitoring and evaluating studies for SOP, Protocol, and GLP compliance. Performs Facility Compliance inspections. Has working knowledge of GLPs (EPA, FDA, OEDC), EPA GLP Advisories, and other appropriate guidelines and regulations. General experience includes enterprise level systems engineering, analysis, and design.

SKILL CATEGORIES and POSITION DESCRIPTIONS

Item Number	Skill Categories	Education Level	On-Site	Off-Site	Position Descriptions
QAI51041	DR Senior Developer	PhD/MS/BS/BA in IT or Related Field. Specialized Product Certifications and Experience	\$308.01	\$348.05	Specialized experience includes: experience as senior system architect, use of structured analysis, design methodologies and design tools, object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex Crowley information systems. Certifications in the product solutions being supported.
QAI51005	Subject Matter Expert	PhD/MS/BS/BA in IT or Scientific Field	\$107.34	\$123.44	Specialized experience includes: supervision of system architects, use of structured analysis, design methodologies and design tools (such as IDEF Ix, entity relationship diagrams, and other design techniques), object oriented principles, and experience with the logical and physical functional, operational, and technical architecture of large and complex information systems. Monitors and evaluates studies/facilities for SOP, Protocol, and GLP compliance. Has working knowledge of GLPs (EPA, FDA, OEDC), EPA GLP Advisories, and other appropriate guidelines and regulations. General experience includes increasing responsibilities in systems engineering.
QAI51006	Quality Assurance Manager	PhD/MS/BS in Science Field	\$103.29	\$117.37	Initiates and manages Quality Assurance Units at client locations (both field and laboratory). Responsible for monitoring and evaluating studies for SOP, Protocol, and GLP compliance. Performs Facility Compliancy inspection. Prepares and maintains all written and signed records for inspection/audits.
QAI51007	Senior Quality Assurance Auditor	PhD/MS/BS in Science Field	\$98.59	\$112.68	Manages Quality Assurance Units at client locations (both field and laboratory). Responsible for monitoring and evaluating studies for SOP, Protocol, and GLP compliance. Prepares course materials and teaches end user QA / Scientific training.
QAI51008	Quality Assurance Analyst	MS/BS in Science Field	\$89.20	\$103.29	Responsible for monitoring studies for SOP, Protocol, and GLP compliance at clients' sites. Has working knowledge of GLPs (EPA, FDA, OEDC), EPA GLP Advisories, and other appropriate guidelines and regulations. Reviews and revises SOPs, specific data forms, and studies for GLP and Protocol adherence.
QAI51009	Quality Assurance Auditor	MS/BS in Science Field	\$79.81	\$93.90	Has working knowledge of GLPs (EPA, FDA, OEDC), EPA GLP Advisories, and other appropriate guidelines and regulations. Sets up and conducts basic GLP training. Reviews and revises SOPs, specific data forms, and studies for GLP and Protocol adherence.
QAI51010	Sr Principal Analyst	MS/BS/BA in IT Field	\$103.53	\$119.07	Evaluates, designs and maintains existing or proposed enterprise-wide systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing large-scale systems.
QAI51011	Principal Analyst	MS/BS/BA in IT Field	\$87.10	\$100.16	Analyzes/Defines/Implements system and user specifications for enterprise-wide systems, applications, and/or solutions.
QAI51012	Sr Systems Analyst	MS/BS/BA in IT Field	\$80.56	\$92.66	Evaluates, designs and maintains existing or proposed complex systems; analyzes user needs and recommends solutions. Prepares specifications and flowcharts for implementation of new and/or modifying existing systems.
QAI51013	Mid Systems Analyst	MS/BS/BA in IT Field	\$69.65	\$80.10	Assists and supports the Systems Analysts with problems and issues. Analyzes/Defines system and user specifications for complex systems, applications, and/or solutions.
QAI51014	Systems Analyst	BS/BA in IT Field	\$59.06	\$67.91	Analyzes/Defines/Implements system and user specifications for complex systems, applications, and/or solutions.
QAI51015	Sr Systems Programmer	MS/BS/BA in IT Field	\$68.48	\$78.75	Defines and implements specifications for complex programs/applications or modifies/maintains existing complex programs.

Item Number	Skill Categories	Education Level	On-Site	Off-Site	Position Descriptions
QAI51028	Computer Systems Analyst	BS/BA/HS w/Training Certificate	\$60.19	\$69.21	Writes, evaluates, analyzes, and tests new and enhanced hardware and software. When appropriate selects COTS products then installs and modifies to suit the end user environment.
QAI51029	Equipment Manager Analyst	MS/BS/BA	\$54.15	\$62.27	Plans, recommends and implements computer modifications or equipment upgrades. Administers OEM and vendor maintenance contracts. Complies with Government and vendor standards and policies.
QAI51030	Senior Information Systems Training Specialist	MS/BS/BA	\$64.49	\$74.15	Develops, administers, organizes and conducts training and education programs for users, to include on-the-job training and user orientation. Develops, monitors and designs courses and develops plans to assess the effectiveness of training programs.
QAI51031	Information Systems Training Specialist	MS/BS/BA	\$45.71	\$52.56	Organizes and conducts moderately complex training and educational programs for users. Prepares training materials and develops class curriculum and schedules.
QAI51032	Senior Technical Writer	MS/BS/BA or Subject Knowledge	\$61.39	\$70.59	Reviews/Edits/Approves technical reports, brochures and/or manuals prepared by Technical Writers. Research and analyzes available technical literature, interviews subject matter experts and verifies documentation needs.
QAI51033	Technical Writer	BS/BA or Subject Knowledge	\$52.07	\$59.87	Writes and develops technical reports, brochures and/or manuals for documentation. Research and analyzes available technical literature, interviews subject matter experts and verifies documentation needs.
QAI51034	Document Management Specialist	MS/BS/BA	\$36.20	\$41.62	Responsible for operation of complex computer based document management program. Plans, implements, supervises and controls document management procedures.
QAI51035	Document Conversion Supervisor	BS/BA or 3 Yrs of Industry Experience	\$42.13	\$48.45	Implement and maintain complex databases with respect to production jobs, validation checks, organization, production and security, documentation, and guidelines.
QAI51036	Document Conversion Specialist	HS/GED or 1 Yr of Industry Experience	\$29.21	\$33.59	Under direct supervision, provides support in management of computer job processing. Enters and maintains data directory information, data keyword lists and dictionary forms of data media. Reviews all information for correctness and maintains media library of system's recorded information. Analyzes output and errors to determine corrective actions.
QAI51037	Document Conversion Clerk	HS/GED	\$22.29	\$25.64	Enters and maintains data directory information, data keyword lists and dictionary forms of data media. Reviews all information for correctness and maintains media library of system's recorded information.

**USA COMMITMENT TO PROMOTE
SMALL BUSINESS PARTICIPATION
PROCUREMENT PROGRAMS**

PREAMBLE

Quality Associates, Inc. provides commercial products and services to the Federal Government. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in Federal Government contracts. To accelerate potential opportunities please contact:

Please Contact: Mr. Michael Pitts

BPA NUMBER _____

(CUSTOMER NAME)
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s) _____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (Ordering Agency):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
_____	_____
_____	_____
_____	_____

(2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____
_____	_____

(3) The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

(4) This BPA does not obligate any funds.

(5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
_____	_____
_____	_____
_____	_____

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

- (a) Name of Contractor;
- (b) Contract Number;
- (c) BPA Number;
- (d) Model Number or National Stock Number (NSN);
- (e) Purchase Order Number;
- (f) Date of Purchase;

(g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and

(h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

BASIC GUIDELINES FOR USING “CONTRACTOR TEAM ARRANGEMENTS”

Federal Supply Schedule Contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a customer agency requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions of the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customer's needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedule “Team Solution” to meet the customer's requirement.
- Customers make a best value selection.
