Rosenberger
Automotive Cable & PCB Connector System

FAKRA Products

Rosenberger Automotive –
a Synonym for Quality and Innovation

On the following pages we present the high-quality Rosenberger FAKRA connectors developed in our Automotive Business Area to fulfill the tough requirements of the automotive industry.

Contents

The Rosenberger online catalog contains the current Rosenberger standard FAKRA product range with specific details, including data sheets, assembly instructions, and panel piercings.

Rosenberger Automotive

At Rosenberger, we firmly believe in developing technology for the future. We are currently working on products and solutions that will shape our lives in the future.

We want to get faster and smarter in what we do and how we do it. Car driver assistance systems, connected car technology, electromobility, infotainment systems – Rosenberger is extremely committed to designing innovative connector systems for future automotive electronics.
In 2000, Rosenberger started working in the automotive sector, designing and producing customized and standard products for these specific markets.

Rosenberger Automotive is a specialist development partner when it comes to integrating connector designs and customer-specific solutions with the highest quality and best performance – while continuing to meet customer price targets.

The contact systems have been specially designed to fulfill the tough requirements of the automotive industry. From the beginning, Rosenberger has developed a close and open relationship with its customers.

The priority in the most automotive applications, such as autonomous driving and driver assistance systems, is to ensure safety. It is necessary to determine exact positions, continuously calculate routes, and detect and classify objects. High data volumes from several cameras, various sensors, and navigation sources must be combined and transported for this purpose – in real time.

Applications

- Cameras
- Sensors for detection, evaluation and reaction
- High Performance Computing
- Radio antenna
- GPS telematics or navigation
- Infotainment & television
- Mobile communication
- RF bluetooth / WLAN applications
- Radio frequency remote control for keyless entry
- Vehicle auxiliary heating

FAKRA
Product Overview

Rosenberger FAKRA* industry standard compatible connectors are designed to fulfill the rigorous mechanical and environmental requirements of the automotive industry. Ensuring maximum electrical and mechanical performance, these high quality FAKRA connectors feature specific color coded plastic housings in accordance with the FAKRA coding industry standard. Thirteen distinct mechanical and color codes enable easy identification and unique keying to avoid mismating and additional one neutral coding.

Combining Rosenberger's turned part production expertise and FAKRA SF** stamped and formed technology these precision manufactured products are ideally suited for process-safe and fully automated assembly by harness makers – leading to a significant reduction in production costs.

Rosenberger FAKRA connectors are used as standard interfaces for high-frequency telematic applications in vehicles where the number one priority is to ensure safety. For example, in autonomous driving and driver assistance systems where it is necessary to determine exact positioning, continuously calculate routes, and detect and classify objects. High data volumes from several cameras, various sensors and navigation sources must therefore be combined and transmitted in real time.

* FAKRA   = FAchKReisAutomobil
               (Automobile Expert Group)
** FAKRA SF = FAKRA Stamped and Formed
Benefits

- Fulfill the tough requirements of the automotive industry
- No misuse due to secure coding system
- Primary and secondary locking systems lead to high assembling security
- Reliable and durable
- Multiple housings for space savings and for quick plug-in operations
- FAKRA-SF products allow process-safe and fully automated assembly for significant cost reduction
- Separate housings available

Product Portfolio

- Cable connectors (straight, right angle)
- PCB connectors (pin-in-paste soldering, SMD)
- Panel connectors
- Standardized housings (single, double, triple, quad)
- Cable assemblies
- Customized solutions
- Calibration kits
- Measurement equipment & accessories
- Tools
- Waterproof versions

Cameras

ADAS Head Unit
Wiring Harness Topologies

Features

- Impedance 50 Ω
- Frequency range DC up to 6 GHz
- High data rates up to 8 Gbps
- Return loss ≥ 18 dB
- Temperature range from -40 °C to +105 °C
- Mating cycles ≥ 25
- 13 mechanical and colored codings and one neutral coding
- Primary and secondary lock
- Stamped parts on separate coils (center contact, support sleeve, connector head plug)
- RoHS, WEEE, ELV Conformity

Applications

- Radio antenna
- GPS telematics or navigation
- Infotainment & television
- Mobile communication
- RF bluetooth / WLAN applications
- Radio frequency remote control for keyless entry
- Vehicle auxiliary heating
- Sensors for detection, evaluation and reaction

Dimensions in mm

FAKRA Technical Data (Code 59)

Applicable Standards

Interface according to	ISO 20860-1, SAE/USCAR-18

Electrical Data

Impedance	50 Ω
Frequency range (depends on cable), connector, assembling, testing	DC up to 6 GHz
Return loss	≥ 18 dB
Insertion loss	≤ 0.1 x $\sqrt{f(GHz)}$ dB
Insulation resistance	≥ 1 x 1 $\overline{GΩ}$
Center contact resistance	≤ 5 mΩ
Outer contact resistance	≤ 5 mΩ
Test voltage	750 V DC
Working voltage	60 V DC
Contact current (depending on cable size, connector and housing)	≤ 4 A DC
RF-leakage	≥ 65 dB

Mechanical Data

Mating cycles (standard)	≥ 25
Mating cycles (waterproof)	≥ 5
Engagement force (single, standard)	≤ 25 N
Engagement force (waterproof)	≤ 45 N
Disengagement force	≥ 2 N
Retention force latch	≥ 110 N
Retention force primary lock	≥ 80 N
Retention force secondary lock	≥ 60 N

Environmental Data

Temperature range	-40 °C – +105 °C
Vibration	DIN EN 60068-2-64
Mechanical shock	DIN EN 60068-2-27
Thermal shock	DIN EN 60068-2-14 Na
Temperature humidity cycling	DIN EN 60068-2-30 variante 2
High temperature exposure	DIN EN 60068-2-2

Materials

Outer contact	CuZn, CuSn, Zn, Stainless steel
Center contact	CuZn, CuBe, CuSn
Dielectric	PTFE, PA, LCP, PBT
Gasket	Silicone, Rubber
Crimping ferrule	CuZn, CuSn
Plastic housings	PBT, PA, PPE, POM
Secondary lock	PBT, PA, PPE

Platings

Outer contact	Au, Ni, Sn, Stainless steel
Center contact	Au

Rosenberger-connectors fulfill in principle the indicated data of the Technical Data. Individual values of connectors may deviate depending upon application, design, type of cable, assembly method and execution. Specific data sheets for particular products can be provided on request from your Rosenberger sales partner.

59S14K-40MT5-y	Pin-in-paste Pin length 2.25 mm -y: please fill-in requested coding	MB 506	
59S11K-40MT5-y	Pin-in-paste Pin length 1.95 mm -y: please fill-in requested coding	MB 506	

Straight Plug PCB without Housing for Camera Applications

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S13X-40MT5	Custom specific versions on request	MB 495	

Right Angle Jack PCB incl. Housing, Single

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59K23C-40MA5-y	Pin-in-paste Designed for antenna applications -y: please fill-in requested coding	MB 297	

PCB Connectors SMD Pin-in-Paste

Right Angle Plug PCB incl. Housing, Single

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S20K-40MT5-y	Pin-in-paste Coupling nose up -y: please fill-in requested coding	MB 601	
59S2UK-40MT5-y	Pin-in-paste Coupling nose down -y: please fill-in requested coding	MB 601	
59S2LK-40MT5-y	Pin-in-paste Coupling nose left -y: please fill-in requested coding	MB 601	
59S2RK-40MT5-y	Pin-in-paste Coupling nose right -y: please fill-in requested coding	MB 601	
59S22B-40MT5-y	Coupling nose up -y: please fill-in requested coding	MB 281	
59S21B-40MT5-y	Coupling nose down -y: please fill-in requested coding	MB 281	

Right Angle Plug PCB incl. Housing, Single

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S2AQ-40MT5-y_1	Pin-in-paste Coupling nose up -y: please fill-in requested coding	MB 172, MB 355	
59S2UQ-40MT5-y_1	Pin-in-paste Coupling nose down -y: please fill-in requested coding	MB 172, MB 355	
59S2LQ-40MT5-y_1	Pin-in-paste Coupling nose left -y: please fill-in requested coding	MB 172, MB 355	
59S2RQ-40MT5-y_1	Pin-in-paste Coupling nose right -y: please fill-in requested coding	MB 172, MB 355	

Right Angle Plug PCB incl. Housing, Single

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S2PL-40MT5-y	Pin-in-paste Coupling nose up -y: please fill-in requested coding	On request	
59S2UL-40MT5-y	Pin-in-paste Coupling nose down -y: please fill-in requested coding	On request	
59S2LL-40MT5-y	Pin-in-paste Coupling nose left -y: please fill-in requested coding	On request	
59S2RL-40MT5-y	Pin-in-paste Coupling nose right -y: please fill-in requested coding	On request	

Right Angle Plug PCB incl. Housing, Double 8 mm

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S2DA-40MT5-y	Pin-in-paste Coupling nose up -y: please fill-in requested coding	MB 182	
59S2DU-40MT5-y	Pin-in-paste Coupling nose down -y: please fill-in requested coding	MB 182	
59S2MU-40MT5-y	Pin-in-paste Coupling nose down -y: please fill-in requested coding	MB 447	
59S2MB-40MT5-y	Pin-in-paste Coupling nose up -y: please fill-in requested coding	MB 187	
59S20M-40MT5-y	Pin-in-paste Coupling nose up y: please fill-in requested coding	MB 602	
59S2UM-40MT5-y	Pin-in-paste Coupling nose down -y: please fill-in requested coding	MB 602	

Right Angle Plug incl. Housing, Double Stacked 12.7 mm

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S2DC-40MT5-y-y	Pin-in-paste Double stacked type -y: please fill-in requested coding	MB 269	

Right Angle Plug PCB incl. Housing, Quad, Stacked 12.7 mm

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S2QF-40MT5-y-y-y-y	Pin-in-paste Quad Stacked type -y: please fill-in requested coding	MB 696	

Right Angle Plug PCB incl. Housing, Quad

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S20Z-40MT5-y	Pin-in-paste Coupling nose down -y: please fill-in requested coding	MB 426	

Right Angle Plug, Quint

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59S2MC-40MT5	3, 4 or 5 connectors optional Available on request Only mateable with 59K2MP-40MT5	MB 563	

Right Angle Jack PCB incl. Housing, Quint

Rosenberger No.	Description	Panel Piercing / Footprint	Product
59K2MP-40MT5	5 connectors Die cast Only mateable with 59S2MC-40MA5	MB 555	

FAKRA Calibration Kits

Electrical Specifications

Calibration Standard	Frequency Range in GHz	Parameter	Specification
Opens[1] (plug and jack)	DC to ≤ 4 GHz > 4 GHz to ≤ 6 GHz	Error from Nominal phase	≤ 1.0° ≤ 1.5°
Shorts[1] (plug and jack)	DC to ≤ 4 GHz > 4 GHz to ≤ 6 GHz	Error from Nominal phase	≤ 1.0° ≤ 1.5°
Calibration loads (plug and jack)	DC to ≤ 4 GHz > 4 GHz to ≤ 6 GHz	Return loss	≥ 40 dB ≥ 35 dB
Calibration adaptors RPC-3.50 to FAKRA (plug/plug, plug/jack, jack/plug, jack/jack	DC to ≤ 1 GHz > 1 GHz to ≤ 3 GHz > 3 GHz to ≤ 6 GHz	Return loss	≥ 35 dB ≥ 26 dB ≥ 21 dB

1 The specifications for opens and shorts are given as allowed deviation from nominal model as defined in calibration certificate included with your kit.

Calibration Kit, Adaptor Version

Rosenberger No.	Description	Product
59CK070-150	Rosenberger calibration kits are delivered in stable wooden boxes including factory calibration certificate. Please use the following part numbers for ordering single components.	

Contents of Calibration Kit, Adaptor Version

Rosenberger No.	Description	Quantity
03K159-S20S3	Calibration adaptor, RPC-3.50 jack / FAKRA plug	1
03K159-K20S3	Calibration adaptor, RPC-3.50 jack / FAKRA jack	1
03S159-S20S3	Calibration adaptor, RPC-3.50 plug / FAKRA plug	1
03S159-K20S3	Calibration adaptor, RPC-3.50 plug / FAKRA jack	1
59Z114-000Z	Plastic housing plug	10
59Z113-000Z	Plastic housing jack	10

Please note: this calibration kit includes a set of adaptors only. The full functionality is only given with an additional RPC-3.50 calibration kit.

Calibration Kit, Full Version

Rosenberger No.	Description	Product
59CK010-150	Rosenberger calibration kits are delivered in stable wooden boxes including factory calibration certificate. Please use the following part numbers for ordering single components.	

Contents of Calibration Kit, Full Version

Rosenberger No.	Description	Quantity
03S12L-00FS3	Open circuit plug, RPC-3.50	1

Competencies & Technology

Rosenberger's mission is to be a leader when it comes to innovation and technology within its business segments.

An ongoing focus on cost management and process optimization complements our commitment to the increasingly stringent market requirements for delivering products of the highest quality. Effective research & development, the very latest manufacturing technologies, the highest possible levels of efficiency in production processes, and continuous improvement of process automation make up Rosenberger's core competencies.

Using state-of-the-art production, Rosenberger can continue to develop and optimize key manufacturing technologies – turned parts production, stamped & formed technology, injection molding technology.

Manufacturing everything in house ensures a high degree of flexibility which combined with continuous quality controls ensures newly designed products can be produced in the required quantities. With acceptable tolerances now in the range of one hundredth of a millimeter, the production of electronic connectors requires the highest precision.

Automated Connector Mounting and Cable Assembling

At Rosenberger various machine types are used for enabling precise and extreme deformation of raw materials and fast throughput of large quantities. In addition to extensive stamping, forming and embossing operations, Rosenberger machines are used to join, laser-weld and, if required, laser-mark large quantities of pieces. This takes place directly in the processing area with minimum set-up and assembly times.

The necessary tool construction for the specially equipped stamping and forming assembly machines are designed and produced as far as possible in the company's own tool shop.

Rosenberger uses various raw materials including pure and partially tinned copper, copper-tin and stainless steel strips.

Stamping Technologies

The Rosenberger Group meets the increasing requirements with its high-quality stamping technology. Competence and experience guarantees reliable pluggability as well as highly resilient, stamped and formed (SF) connectors; especially under demanding conditions such as those found in the automotive industry. Rosenberger quality is assured by the adoption of fully automated processes with 100 % repeatability. Maximum efficiency is achieved by the involvement of the potential harness makers as early as the design phase of the respective SF connectors.

Benefits of Stamping & Forming

- Cost optimization
- Reduced use of materials
- Fast production of large quantities
- Guaranteed plug compatibility
- Process-safe manufacturing
- Precision

Cable   SF support sleeve   SF center contact   SF connector body   Plastic housing
Belting & Packing – Tape & Reel

For high volume production, stamped and formed connector parts such as outer contacts/connector bodies, center/inner contacts or support sleeves can be delivered on reels only.

Information about high-volume production and assembly, special tools for cable assembly and ordering procedure of packing units is available on request: automotive@rosenberger.com

Stamping Technologies at Rosenberger

Quality & Environment

The quality of Rosenberger products, solutions and services is an essential part of our corporate strategy.

Ensuring the optimum quality of products and services and taking responsibility for our environment are fundamental elements of Rosenberger's corporate philosophy. Our quality philosophy does not only cover the optimization of parts and products, but also the continuous improvement of all company processes: from product development, planning, procurement, production, sales, logistics right through to environmental policy. To summarize, we want to offer maximum benefits for our customers all over the world.

We aim to act in an environmentally conscious manner, use materials economically, protect natural resources, recycle, and ensure energy efficiency.

In recognition of continuously improving processes and applying quality management systems, Rosenberger has won a number of prestigious quality and environmental excellence awards.

Complete Control with Innovative Technology

Industrial image processing guarantees fully automatic machine inspection. A combination of hardware and software ensures error-free execution of complex production. Digital sensors inside industrial cameras with special optics for image acquisition analyze and monitor all process steps. If products are in need of adjustment they are immediately scanned prior to checking for errors against the respective design data.

IMDS System

Rosenberger has been registered in the IMDS database (International Material Data System) since 2001.

IMDS reports for automotive customers are provided as a part of the PPAP documentation.

Certificates

- IATF 16949
- DIN EN 9100
- ISO 9001
- ISO 14001
- ISO 50001
- DaKKs accreditation according to DIN EN ISO 17025

Rosenberger Global Network

Rosenberger is one of the world`s leading manufacturers of impedance controlled and optical connectivity solutions. It provides connectivity solutions in high-frequency, high-voltage, and fiber-optic technology for mobile communication networks, data centers, test & measurement applications, automotive electronics, as well as high-voltage contact systems, medical electronics or aerospace engineering.

A global network of R&D, manufacturing and assembly locations provides innovation, optimized cost structure and excellent customer services world-wide more than 14,800 employees develop, produce and sell our products.
