## ITEMS REQUIRING BOCC APPROVAL June 11, 2020 (4 ITEMS)

#### 1. CHANGE ORDER #2 - AMENDMENT TO DISABILITY COCOON CONTRACT -- SEDGWICK COUNTY DEVELOPMENTAL DISABILITY ORGANIZATION (SCDDO)

#### **FUNDING -- CAPACITY DEVELOPMENT**

(Contract Amendment)

#18-0076

	Disability Cocoon LLC
Amendment to contract length	Extend the current contract for an additional six months

On the recommendation of Britt Rosencutter, on behalf of SCDDO, Russell Leeds moved to accept the change order to extend the contract with Disability Cocoon LLC through December 31, 2020. Linda Kizzire seconded the motion. The motion passed unanimously.

The original contract term was from January 1, 2019 through December 31, 2019. An extension through June 30, 2020 was approved at the December 5, 2019 Board of County Commission meeting. The contractor required additional time to complete the project. There was no change to the scope of work or funding. The vendor had scheduled a final conference for June 2020, but with the pandemic no vendors would sign up to travel to Kansas. We are requesting that the contract term be extended through December 31, 2020 to allow for completion of the project. No additional funds or other changes are being requested.

Note:

The programs under this contract address the shortage of qualified direct support staff and/or increase client independence through the use of technology. The chosen vendor has been working with multiple providers in the community to educate them on opportunities to utilize and implement technology to safely reduce staffing costs.

## 2. CHANGE ORDER #1 - AMENDMENT TO KONICA MINOLTA BUSINESS SOLUTIONS U.S.A., INC. CONTRACT -- VARIOUS COUNTY DEPARTMENTS <u>FUNDING -- VARIOUS COUNTY DEPARTMENTS</u>

(Contract Amendment)

#18-2065

Sourcewell Bid #083116; Contract 083116-KON	Konica Minolta Business Solutions U.S.A., Inc.
Amendment to contract length	Extend the current contract through October 19, 2021.

On the recommendation of Josh Lauber, on behalf of various departments, Jennifer Blasi moved to **accept the change order to extend the contract with Konica Minolta Business Solutions U.S.A., Inc. through October 19, 2021.** Tim Myers seconded the motion. The motion passed unanimously.

Various county departments have expressed their need for multi-function printers and various solutions.

Note:

Sourcewell conducted a competitive solicitation process and received eight (8) sealed proposals. Service pricing will be locked in for 60 months (5 years) at a rate determined by machine model number and purchase date.

#### **Questions and Answers**

Russell Leeds: So this is a continuation or renewal of a Sourcewell contract?

Josh Lauber: Correct. This is an extension of the Sourcewell contract.

# 3. SOFTWARE PRODUCTS AND RELATED SERVICES -- VARIOUS DEPARTMENTS <u>FUNDING -- VARIOUS DEPARTMENTS</u>

(Joint Governmental Purchase - Texas Department of Information Resources DIR-TSO-4368)

#20-2040 Contract	
	Executive Information Systems, LLC
Software Products and Related Services	Pricing listed on above Texas DIR contract

On the recommendation of Josh Lauber, on behalf of various departments, Linda Kizzire moved to **utilize the Texas Department of Information Resources contract DIR-TSO-4368 with Executive Information Systems, LLC good through 04/04/2021 with two (2) two** (2) year options to renew. Jennifer Blasi seconded the motion. The motion passed unanimously.

The county in its efforts to analyze disease investigation and public health emergency preparedness related data, produces reports for internal use and community partners. Statistical Analysis System (SAS) is a statistical software that assists in data management, advanced analytics, multivariate analysis, business intelligence, and predictive analytics as a few examples of common uses.

Note: For additional information please visit: https://dir.texas.gov/View-Search/Contracts-Detail.aspx?contractnumber=DIR-TSO-4368 http://www.execinfosys.com/SAS%20TXMASDIR4368%20PriceList.pdf

Sedgwick County Health Department has historically spent the following amounts for this software: 2016 - \$4,857.00 2017 - \$5,390.00 2018 - \$6,477.00 2019 - \$6,653.00 2020 - \$12,489.00 (estimated)

## **Questions and Answers**

Linda Kizzire: Is this the vendor we currently use?

Chris Steward: Yes. To my understanding, this is the vendor for governments for SAS. SAS doesn't sell directly so they have this vendor do it for them.

Russell Leeds: So we're currently using Statistical Analysis System?

Chris Steward: Yes.

Tim Myers: I noticed our estimated cost for 2020 is basically double of what we spent in 2019. Is that due to the pandemic?

Chris Steward: No. Actually we are requesting to purchase one (1) more license. So in 2016 to 2019 those are maintenance fees for three (3) PC licenses. It costs about \$6,000.00 to \$6,500.00 to buy a new license. So that \$12,000.00 is one (1) new license plus three (3) annual maintenance fees. So next year the costs would go down. It wouldn't be another \$12,000.00. The maintenance fees are about \$2,000.00 each.

Russell Leeds: So we anticipate the spending to be somewhere around \$8,600.00 or \$9,000.00 give or take?

Chris Steward: Correct, if we go with this as our usual cost. I think what Josh is presenting, from what I am understanding, there is this place we can get this contracted price that is a little bit less.

# 4. SEDGWICK COUNTY BACKUP SOLUTION – DIVISION OF INFORMATION AND TECHNOLOGY <u>FUNDING – DIVISION OF INFORMATION AND TECHNOLOGY</u> (Request sent to 330 vendors)

On the recommendation of Josh Lauber, on behalf of Division of Information Technology (DIT), Tim Myers moved to accept the low proposal from Eagle Software Inc., dba Eagle Technologies for an estimated five (5) year cost of \$328,685.63. Linda Kizzire seconded the motion. The motion passed unanimously.

A review committee comprised of James Arnce, Jerry Becker, Peggy Payne, and Julie Lancaster - DIT; Bonny Patrick - Sheriff's Office; and Josh Lauber with Purchasing evaluated the proposals based on the criteria set forth in the RFP.

One of Sedgwick County's IT functions is to safeguard county data and support the departments to ensure data is available for services they provide to the community. This system will encompass servers, software, licensing, and support for an enterprise wide backup solution.

The current backup solution has become too small and is getting old to where the hardware will soon start failing. This solution backs up department drives, personal drives, emails, as well as, the public drive. Servers and key applications like 911, Tax, eDiscovery, OnBase, SAP and many others are also backed up through this system. Without this new product, our current backup solution will not be able to keep up with the changes and increased county data. This puts Sedgwick County at risk for data loss or if a catastrophic event were to occur, the county would not be able to recover data. This would result in loss of services that departments provide to the community.

#### Questions and Answers

Linda Kizzire: I notice there is a significant price difference between the various vendors. Is this going to be significant for Sedgwick County to back up all of our data? Some of these are over \$1,000,000.00. There's \$500,000.00.

James Arnce: No. The cost in front of you shows a five (5) year that includes maintenance, hardware maintenance. All the renewals are wrapped into one (1). With the RFP that went out, we put what our mandatory requirements were and the things we would like. These vendors put in their RFP responses to fulfill those requests. Some vendors made them larger and some made them smaller. It was up to the vendor as to what they wanted to present to us, as long as, they met the mandatory requirements.

Linda Kizzire: So Eagle met all the mandatory requirements but didn't add any enhancements?

s Group, Inc.	Galaxie Business Equipment, Inc.	High Touch Technologies
chnologies up, LLC	Optum	Phoenix Business Consulting
e Software roup	WSU Community Institu	

James Arnce: No. They actually not only met the mandatory requirements but met most of the desirable that we wanted as well and came in at the low bid.

Tim Myers: Have we had experience in dealing with Eagle Technologies in the past?

James Arnce: Yes we have.

Tim Myers: Have we been pleased with their performance?

James Arnce: Yes we have.
