

# Huddle Space

Whether for impromptu or scheduled meetings, a typical huddle space accommodates 3 to 5 participants within a small private space, equipped for collaboration amongst the group or across the world.

## Let's huddle!

### For the 'do it now' meeting

When inspiration comes, nurture it instantly, sharing your idea to make it grow. No delay or interruption, no need to book a room; huddle spaces support immediate unimpeded exchanges for small groups of up to five people. An intimate and quiet space welcoming local and remote participants via video-conferencing.

### Collaboration Solution

Good teamwork knows no boundaries and good collaboration tools allow access to talent and expertise wherever it's located. Gather your team from across the globe via the NEC MultiSync C Series screen and Soundbar with built-in wide-angle camera and high quality audio to virtually seat them amongst your huddle. Instant wireless presentation with the optional Mosaic Connect Box enables any participant to take the lead at any time.

### NEC Mobile Huddle Room Solutions

#### 50" All-in-One Mobile Huddle Solution (40001343)

with MultiSync C501 with Active Collaboration Soundbar SP-ASCM and PD03 Tipster
