# Are you thinking Lean?

70% of manufacturers in the U.S. are either using lean manufacturing concepts or planning to in 2009.

## Basic Lean Manufacturing Opportunities You Should Look For:

- ✓ Reduce waste
- ✓ Decrease cost in manufacturing
- ✓ Increase profitability
- ✓ 5S (reduce setup cycle, lower accident costs, reduce wasted labor, and increase equipment reliability)
- ✓ 6S (includes increased safety)
- ✓ Kanbans
- ✓ Communication
- ✓ TPM (Total Productive Maintenance)

In the front of our newest catalog we offer examples of lean work cells and suggested products used in the lean manufacturing process. Our selection of lean products will continue to grow.

## What is Lean Manufacturing?

A business philosophy that continuously shortens the time between a customer order and shipment by eliminating everything that increases the cost and time.

### It can address these production issues:

- ✓ Large batches
- ✓ Excessive inventory
- ✓ Long lead times
- ✓ Excessive work in progress
- ✓ Disorganized shop floor with no space
- ✓ High costs
- ✓ Low percent of on-time deliveries
- ✓ Difficulty in meeting customer needs
- ✓ Not competitive—having selling price too high

## The Benefits of a Lean Manufacturing System

A lean manufacturing system is a philosophy that was first developed by Toyota for its production system. Lots of manufacturing businesses have adopted this principle and enjoy the benefits that it offers.

### The lean manufacturing system principles are:

- 1. Value**—Customer's willingness to pay for your product.
- 2. Value Stream**—Add-ons to a product or process.
- 3. Flow**—The movement of your product through a single piece flow or work cells rather than production lines.
- 4. Pull**—Having the right amount of materials to manufacture the product, and at the same time, having a small or no inventory.
- 5. Continuous Improvement**—Getting rid of waste on a constant basis.

## Lean Manufacturing Glossary of Terms

**5S:** The principle of waste elimination through workplace organization. 5S stands for sort (red tag area, etc), sweep/shine, straighten, standardize/schedule, and sustain.

**Kanban:** a Japanese term meaning card signal. Kanban is the information signal used to indicate the need for material replenishment in a pull production process.

**Total Productive Maintenance (TPM):** Maximizing equipment effectiveness and uptime throughout the entire life of the equipment.

**Value Stream:** A series of all actions required to fulfill a customer's request, both value added and not.

**Value Stream Mapping (VSM):** This is the process of directly observing the flows of information and materials as they now occur, summarizing them visually (mapping), and then envisioning a future state with much better performance.

**Visual Factory/Control & Management:** The placement in plain view of all tools, parts, production activities, and indicators of production system performance so everyone involved can understand the status of the system at a glance. Often involves use of labeling.

**Water Bug (spider):** This is the skilled and well-trained person who makes the rounds supplying parts, assisting with changeover, providing tools and materials.

**Work Cell:** A cell is a grouping of equipment and/or people in a work environment that is dedicated to the completion of common work tasks. (Also called a Production Cell).

# Look inside for these symbols:

To help make your shopping experience easier, look for these symbols that identify what's new, in stock, and on sale!

### New:

We continue to add new and innovative products to our already vast selection.

### Stock Products:

Blue model numbers indicate products that are in stock in one of our national distribution centers ready to ship.

### Factory Quick Ship:

Green model numbers indicate products that will ship in 7 days or less directly from the manufacturer.

# SAVE on selected items.

Save on select items, with prices even lower than our everyday low prices.

Look for this symbol throughout the book to find our great deals!

## Can't find it?

We take pride in offering a wide selection of products from multiple manufacturers. However, if you don't see what you're looking for, just give us a call. We'll work with you and our vendors to get you the right product for your application.

# LEAN MANUFACTURING!

CREATE AN EFFICIENT LEAN MANUFACTURING SYSTEM IN YOUR FACILITY. WE HAVE THE PRODUCTS THAT ALLOW YOU TO CREATE ONE-PIECE FLOW WORK CELLS FOR EVERYTHING FROM LIGHT ASSEMBLY TO HEAVY MANUFACTURING. WHEN YOU ELIMINATE: UNNECESSARY WASTE IN THE TRANSPORTING OF GOODS, EXCESS OPERATOR MOTION, AND WAITING TIMES THAT RESULT FROM NOT HAVING PARTS WHERE YOU NEED THEM, YOU WILL IMMEDIATELY REALIZE SAVINGS FROM THE REMOVAL OF NON-VALUE ADDED WORK.

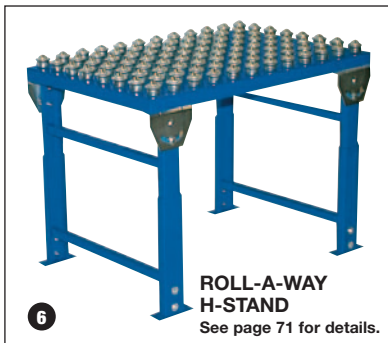

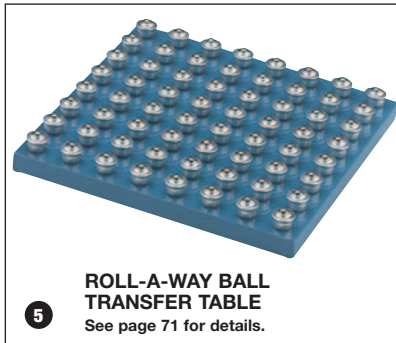

## Light-Duty Lean Manufacturing

This light-duty lean manufacturing station features configurable conveyors that allow you to easily move product from workstation to workstation and create work cells for multiple part families. Our workstations can be set up to match your process and organized to increase throughput and reduce worker fatigue and injuries.

USING LEAN MANUFACTURING TECHNIQUES CAN:

- INCREASE PRODUCTION PER EMPLOYEE
- DECREASE MANUFACTURING COSTS
- INCREASE PROFITS

# LEAN MANUFACTURING!

1

DOES NOT INCLUDE BINS. SEE PAGE 201 TO ORDER BINS.

## SCHNEIDER INDUSTRIES Conveyor Workstation

- 160-lb. capacity
- 4" rubber casters

Can be positioned along conveyor runs for access to parts. Extruded aluminum construction. Includes 8" D shelf, 36"W x 19"H bin panel, and framework for optional light or tool balancer. FOB WISCONSIN.

Model No. **XA-1400—Conveyor Workstation.**  
Wt. 150 lbs. ....\$625.00

### ACCESSORIES

- Model No. **XA-1401—10" shelf** (replaces standard 8" shelf). Wt. 5 lbs. ....\$41.00

- Model No. **XA-1403—Tool balancer, 1–2 lb. capacity.** Wt. 9 lbs. ....\$111.00
- Model No. **XA-1404—Tool balancer, 2–5 lb. capacity.** Wt. 9 lbs. ....\$137.00
- Model No. **XA-1405—48"L fluorescent light.** Wt. 8 lbs. ....\$162.00

2

## SCHNEIDER INDUSTRIES ESD Work Positioner

- 220-lb. capacity
- Platform size: 19-1/2"W x 13-3/4"D
- Platform height: 24-1/2–34-1/2"
- Platform tilt: 0–40°

Features anti-static painted platform and anti-static casters. Hydraulic gas lift raises work surface. 55-lb. lifting capacity. 3" rubber casters, one with brake. FOB WISCONSIN.

Model No. **XA-1406**—Wt. 54 lbs. ....\$383.00

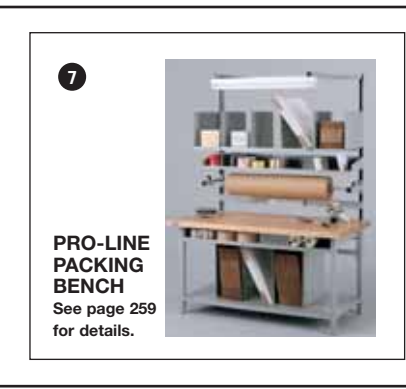

3

## SCHNEIDER INDUSTRIES Work Positioning Tilt Table

- 1,000-lb. capacity
- Manual hand control
- Hydraulic 0–45° tilt

All-welded tubular steel frame with 8" casters and heavy-duty floor lock. FOB WISCONSIN.

Model Number	Overall W x D	Fits Container	Wt. Lbs.	Price Each
<b>XA-1407</b>	32 x 46"	32"W x 40"D	325	<b>\$3805.00</b>

## Heavy-Duty Lean Manufacturing

Reduce the handling time needed to unload and organize incoming raw materials when you utilize this heavy-duty lean manufacturing layout. Choose rollout storage racks with shelves that can be loaded and unloaded directly from overhead then rolled back out of the way of the operator. Loading directly from overhead reduces the possibility of injury commonly seen with standard racks. In this layout you'll also find slings, a stand-alone bridge crane, lifting beams, hoists, gravity roller conveyors, and carts—all available in this catalog.

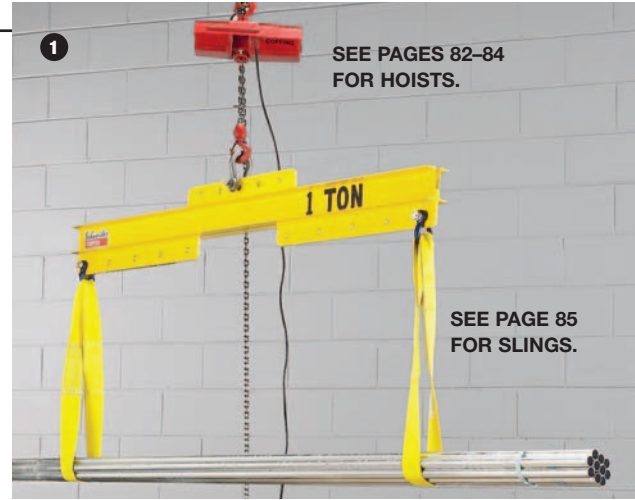

# LEAN MANUFACTURING!

## SCHNEIDER INDUSTRIES Lifting Beams

- I-beam construction
  - 2,000- and 4,000-lb. capacities
- Adjustable spreader. Welded steel construction. Includes (3) screw pin shackles. Color: safety yellow. FOB WISCONSIN.

Model Number	Overall LxWxH	Cap. Lbs.	Headroom	Spread	Wt. Lbs.	Price Each
XA-1409	72x4x11"	2,000	13-1/4"	72"	180	\$533.00

## FAULTLESS® Light- and Medium-Duty Casters

Among the most popular in the industry, these casters are ideal for a number of general use applications. Cold-forged raceways have hardened steel ball bearings. Use single-ball race when swiveling is infrequent, double-ball race for smoother, quieter swiveling, under harder use. Choice of semi-steel (SS), soft rubber (SR), or hard rubber (HR). **IN STOCK.**

\*Single ball race; others double ball race. \*\*Bolt holes are 1-3/16" x 4".

## COLSON Hi-Tech Casters

Ideal for use in wet or corrosive environments, as these casters resist most chemicals, solvents, water, and acids. Polyurethane tread is mechanically bonded to a gray polyolefin core with Delrin™ bearings. 2-1/2" x 3-5/8" top plate includes 1-3/4" x 3" bolt holes. Swivel model has a double-ball raceway with dust cover. Zinc-plated finish with grease hole. Works well in temperatures from -30° to +180°F.

## FAULTLESS® Polyolefin Casters

Economical, strong injection-molded wheels offer 200% more strength than standard rubber casters. Highly resistant to most solvents and chemicals, polyolefin material is impervious to water, grease, oil, and gasoline. Self-lubricating and non-flattening casters can be steam-cleaned. Feature double-ball raceways and plain bores. **IN STOCK.**

## Mold-On Rubber Casters

Impact-resistant casters offer smooth-rolling operation in a number of applications. Rubber tire is bonded to a corrosion-resistant, lightweight cast aluminum wheel center. Swivel models have roller bearing wheels with heat-treated double-ball raceways. Top plate and legs are zinc-plated. 4" x 4-1/2" top plate with slotted holes for 2-5/8" x 3-5/8" or 3" x 3" bolt holes. 500-lb. capacity. **IN STOCK.**

Model Number	Caster Type	Wheel Dia. x W	Overall Height	Wt. Lbs.	Price Each

ZV-1290	Rigid	8 x 2"	9-1/2"	6	28.30

## FAIRBANKS® Medium-/Heavy-Duty Casters

Larger, hot-forged, 1-piece, king-bolt construction with lower ball raceway stands up to tough use. Heat-treated upper and lower ball raceways. Hardened roller bearings. Grease seal ring on upper ball raceway. 4" x 4-1/2" top plate includes slotted bolt holes for 2-5/8" x 3-5/8" to 3" x 3" bolt holes. ASTM test-proven epoxy powder coat meets FF-C-88-C and MIL-C-747E specifications. Wheel types: SS—semi-steel, MR—mold-on rubber, PO—polyolefin, PU—polyurethane, PH—phenolic, MR-HC—mold-on rubber, high capacity. **SELECTED MODELS IN STOCK.**

## PARENT METAL Shelf Trucks

- 13–20 gauge steel
- 1,000-lb. capacity
- 5" hard rubber casters

Ideal for transport and volume storage of parts, packages, and supplies. Shelves are bolted to heavy 13-ga., 1" x 2" hot-rolled rail steel angle posts at two points in each corner, creating a rigid 8-point suspension. Gusset angle sways, on three levels and all four sides provide extra rigidity. Shelves adjust on 1" centers. Tubular push handle for fingertip control. Two rigid, 2 swivel casters are bolted to bottom shelf. Color: gray. Ships unassembled. **SPECIFY STYLE: A - Open truck, B - Semi-open truck, C - Closed truck. FACTORY QUICK SHIP – FOB PENNSYLVANIA.**

## ORBIS® BulkPak™ Containers

Industrial and pharmaceutical supplies as well as food and beverages are just some of the items that can be stored inside these rugged containers. Rotationally molded polyethylene construction offers maximum durability and strength. Smooth interior and exterior walls are easy to steam clean. Materials have been approved to meet FDA standards. Flat bottom allows containers to stack with lids or nest when empty. Can be moved by either a forklift or pallet jack. XB-1260 and XB-1261 feature vertical ribbing for added side wall stiffness. XA-2008 offers double-wall construction for extra strength and standard drain hole with bulk head fitting and drain plug. **IN STOCK.**

# HERCULES® Box Dumpers & Tilt Tables

## Box Dumpers

Heavy-duty, all-welded steel dumpers are made to handle heavy loads from 2,000 to 6,000 lbs. Push-button control activates chute, lifting container to desired dump height—36", 48" or 60". Chutes have a 1/4" plate steel base with 7-ga. sides. Dumpers are fully powered up and gravity down and include an overload-protected NEMA 4 magnetic motor starter with dual voltage transformer for 120V control circuit. Dumper bolts directly to floor to ensure stability during operation. Dumps completely in less than one minute. Casters, variable speed control, stainless steel, and higher dump heights are available, call for information. **SPECIFY 3-PHASE VOLTAGE: A - 230V, B - 460V.** FOB MINNESOTA.

## Hydraulic Tilt Tables

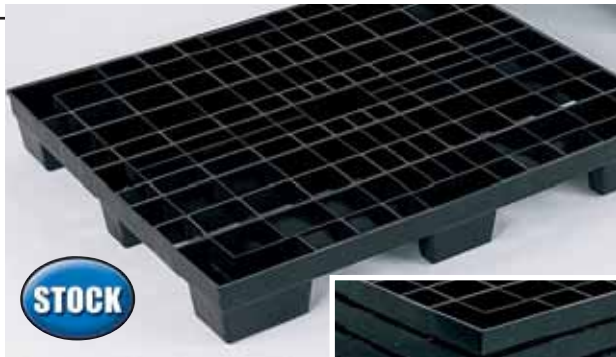

Prevent back strain and fatigue from bending, lifting and reaching with these hydraulic tilt tables. One person can tilt pallets, crates, boxes and other large containers to an ideal working position. Quality-constructed tables feature all-welded heavy-duty plate steel for years of use. 1/60/120 volt, 1HP motor-driven hydraulic system tilts these tables up and down. To raise or lower them, step on the "deadman-type" foot pedal control. Tilts from 0 to 60 degrees. Deck height is 10-1/2" when unit is lowered. 12"H lip helps to hold containers in place during use. If container is tilted more than 45 degrees, bolt the table in place or brace it properly to prevent tipping. Choose from 2,000-, 4,000-, or 6,000-lb. capacities. Enamel finish. Color: blue. FOB MINNESOTA.

# Pallet Trucks

**QUICK LIFT PUMP!**

## HERCULES® Premium 6000-Lb. Capacity Pallet Truck

- 5-year full replacement pump warranty
- Quick Lift pump raises 0 to 330-lb. loads off the floor with only 2 strokes
- Extra thick steel with reinforced fork bracing
- 6,000-lb. capacity
- 7" steering and 2.8" load steel hub, polyurethane tread wheels
- 6"W forks include nylon pallet entry/exit wheels
- Yellow powder coat finish

Built to last, this premium pallet truck is backed by two extensive warranties—5 years on the pump and 1 year on the frame. Bushings replace zerk fitting at all pivot points for maintenance-free use—just change hydraulic oil when necessary. Spring-loaded handle remains upright when not in use and includes rubber covered top and 3-position raise, lower, and neutral fingertip controls. 210° steering arc. **IN STOCK.**

# Pallet Trucks

## Low-Profile Pallet Truck

2.75–7.3" lowered fork height is 3/8" lower than other pallet trucks, permitting entry into lower height pallets. Handles 5,500-lb. capacity loads. Pumps easily and rolls smoothly on polyurethane wheels and rollers. Features fully rebuildable pump unit with overload valve and hard chrome-plated lift ram and pump piston. Low-maintenance truck has entry and exit ramps and sealed ball bearings. Strong, one-piece tapered forks. High quality seals and wipers. 1-year warranty on parts. 1-year pump exchange program. **SPECIFY FORK SIZE:** A - 20-1/2"W x 36"L, B - 20-1/2"W x 42"L, C - 20-1/2"W x 48"L, D - 27"W x 36"L, E - 27"W x 42"L, F - 27"W x 48"L. **IN STOCK.**

Model No. **YK-2380**—20-1/2" x 36".  
Reg. \$415.00. **SALE** .....\$341.00

## Little Mule Pallet Trucks

When you add together all the features, the high capacity, and the comprehensive 1-year pump warranty, you get one of the best performing pallet trucks on the market today. Fitted with a three-position, safety control handle, this pallet truck is easy to operate even during the most demanding applications. And the break-resistant switch with finger-formed grip offers good ergonomic operation. Encapsulated hydraulic system includes integral tank, mechanically protected piston, and pressure relief valve. Other quality features include: 6.9" raised height, sturdy 6" wide forks with polyurethane steer and polyamide load rollers, rounded fork tips, and durable powder coat finish. **FACTORY QUICK SHIP—FOB INDIANA.**

**STANDARD MODEL.** 5,500-lb. capacity. Fork height: 2.9–7.6". **SPECIFY FORK SIZE:** A - 21"W x 36"L, B - 21"W x 42"L, C - 21"W x 48"L, D - 27"W x 36"L, F - 27"W x 48"L.

## VESTIL All-Terrain Pallet Trucks

Transports cargo safely over rough terrain, snowy ground, or uneven surfaces. Large 17" front and 10" rear pneumatic wheels reduce effort needed to start truck on its way. Extra wide outriggers allow trucks to surround pallet for maximum load stability. Straddle inside width: 48". 4"W adjustable forks can be set anywhere between 9-1/2" and 26"W. 300° steering arc. 2,000-lb. capacity at 12" load center; 1,500-lb. capacity at 15" load center. Lightweight steel tubular frame and sealed wheel bearings offer long life. 49"L x 66"W overall. Painted yellow finish. **FOB INDIANA.**

# Lifts & Stackers

## BEECH Stackers

- 1,000-lb. lifting capacity
- 2-year warranty on all components except battery; 1-year warranty on battery and 5-year warranty on weldments

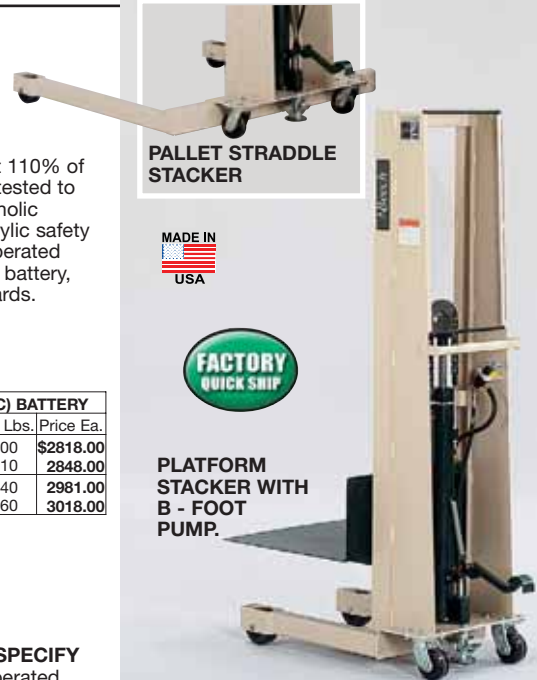

Hand-controlled needle valve precisely lowers the load. Safety bypass valve is set at 110% of capacity to prevent dangerous overloads and the entire unit has been factory-proof tested to 150% of capacity. Stackers roll on 5" x 2" load and 4" x 2" swivel roller-bearing phenolic wheels with grease fittings. All units are equipped with a manual floor lock. Clear acrylic safety shield provides an unobstructed view and protects operator. Choose either a foot-operated model with fold-up pump pedal or battery-operated unit with heavy-duty deep cycle battery, and 10 amp automatic built-in charger. All units exceed ASME B56.10 design standards.

STATIONARY  
PALLET STAND

WN-2200D SHOWN WITH  
OPTIONAL CAROUSEL

## Pallet Stands, Pallet/Carousel Stands

Reduces back strain by raising load to a comfortable working height. Heavy-duty springs allow one person to operate. Locking mechanism keeps stand in raised position during stationary use—will not collapse during raising and lowering operations. When stand is in desired locked position and loaded, it cannot be adjusted until load is taken off. To move stands with casters they must be unloaded and collapsed. All-welded structural channel construction with heavy-gauge flux core for heavy-duty use, increased efficiency, less fatigue and safer operation. Collapsible to save space. **SELECTED MODELS IN STOCK.** Others **FACTORY QUICK SHIP—**FOB NEBRASKA.

## HERCULES® Mobile Scissors Lift Tables

Perfect in the office or shop, this convenient table will lift, position, and transport loads up to 2,200 lbs. Steel platform with rust-resistant construction. Manually operated unit has a easy-to-operate foot pump and safety overload valve. Rolls on polyurethane casters—two rigid, two swivel with brakes. All casters have safety covers. Also includes plastic protective shields inside the handle and a maintenance stop pin that prevents platform from falling during service. **IN STOCK.**

## LIFT PRODUCTS Max-Lift Hydraulic Lift Tables

Premium quality table offers excellent stability and safety as a result of "trapping" the cam rollers in a top and bottom channel. High-quality components and greasable pivot points provide for long life under demanding conditions. Deck and legs are "trapped" to prevent accidental tipping due to unbalanced loads or accidental impact. Zerk grease fittings on camrollers and all pivot points to ensure long life of moving components. Built-in maintenance safety bars eliminate the potential for lost or misplaced safety blocks required for inspection or repairs. Magnetic backed pendant control box for operator convenience. 1-1/2 HP motor, single or three phase input. **SELECTED MODELS FACTORY QUICK SHIP.** All FOB WISCONSIN.

# Conveyors

## NESTAFLEX® Expandable Portable Conveyors

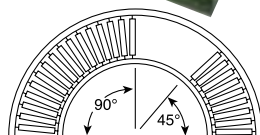

Flexible, portable, expandable conveyor systems are ideal for all types of shipping and receiving operations. Systems set-up fast when needed and fold-away when not in use. All units bend around a 21" radius. Conveyors roll on 5" swivel antistatic rubber casters with foot brakes. High tensile, galvanized steel tie rods. There is a 4' space between each leg and 5-1/4" center to center of each axle when fully extended. Ideal for UPS and packaging lines. Supports up to 226 lbs. per ft. Legs have single cross brace with 2-point, 11-ga. connection. Side links are 11-ga. zinc plated steel. Height adjusts from 28"-44". 6-9 skatewheels per axle. **SPECIFY SELF-TRACKING SKATE WHEELS: A** - Red nylon with celcon bushings for general applications and low-to-moderate volume, **B** - Black polymer with moisture-resistant ball bearings for light to medium weight packages and ideal for long run applications, **C** - Steel with ball bearings for heavy-duty applications and high impact. **SELECTED MODELS IN (B) PLASTIC ARE IN STOCK.** Others FOB OHIO.

# Forklift Attachments

## HERCULES® Mobile Boom Lift Attachments

Converts your forklift into a low-cost mobile boom lift in seconds. Structural steel boom features ten alternate hook positions with clevis-type safety hooks. Telescoping boom retracts to 7'4" and extends to 12' (center line of hook). Also includes: welded hand pull, fork pockets, boom lock and 3' restraining chain. Easy-on easy-off restraining chain with grab hook attaches to forklift carriage to secure the unit onto the forks. Handles 4,000-, 6,000-, and 8,000-lb. loads. Before using, check with the manufacturer of your fork lift for load capacities. Non-telescoping models also available. Additional pocket size options available. **SELECTED MODELS IN STOCK.** Others FOB MINNESOTA.

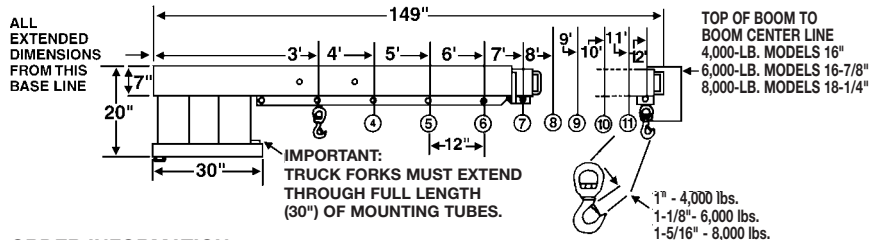

### BASE MODELS

Note: Special base widths and pocket sizes are numerous. Let us know your special needs. All models available in non-telescoping design.

## VESTIL Steel Hopper

Move parts and bulk-in-process materials with your fork truck when you utilize this hopper. 19"H unit fits easily underneath machinery to act as a parts catch basin. May be attached to fork truck via 7-1/2"W x 2-1/2"H fork pockets and dumped 90° using the convenient pull-cable. Once material is dumped, hopper automatically returns to locked position when lowered to the ground. All-welded steel hopper measures 48-1/2"W x 58-1/2"D overall and includes a 33-1/2"H removable handle. 1,500-lb., 1/2 cu. yard capacity. Rolls on 4" x 2" phenolic casters—2 swivel, 2 rigid. Powder coat finish. Color: blue. FOB INDIANA.

Model No. **XC-8848**—  
Wt. 289 lbs. .... **\$630.00**

## HERCULES® Crane Hook

All-welded steel frame features a swivel hook to handle loads up to 6,000 lbs. Attaches easily by hand-tightening bottom wing nuts tightly against forks. Fits onto both forks with a 24" fork spread. 25" wide overall. Before using, check with manufacturer of your forklift for load capabilities. **IN STOCK.**

Model No. **WC-118**—Wt. 40 lbs. .... **\$280.00**

# CONTRX Jib Cranes

## Self-Supporting 360° Jib Cranes

A jib crane that's well-designed, well-constructed at an economical price! Bottom thrust rollers consist of two self-aligning, heavy-duty sealed follower-type bearings. Free-standing unit rotates 360° continuously for maximum head room application. Rolled steel I-beam boom fits most standard hoist trolleys (removable end stops furnished). The head is heavy wall pipe with roller axles and boom connection plates. To assure squareness, assembly is jig-welded. Heavy pipe mast column has top bushing and housing; welded steel base plate and gussets are provided for rigid mounting. **SPECIFY UNDERSIDE HEIGHT: A - 8', B - 10', C - 12'.** Other sizes and capacities available. Call for more information. **FACTORY QUICK SHIP—FOB WISCONSIN.**

## Heavy-Duty, Minimum Deflection 360° Jib Cranes

Rugged construction offers years of trouble-free service. Complete assembly is supported by adjustable tension bolts to permit field adjustments and ensure even pressure of the roller on pipe. Side thrust roller unit is mounted in heavy-duty machine carriage weldment. I-beam shaped rolled steel boom. Two heavy side reinforced plates balance stress. Steel pipe pillar is reinforced with heavy base plates, allowing it to withstand bending stress without undue deflection. Heavy steel capping has provision for bearing mount. Girder contains proper mount provisions for connection to jib crane and has removable end stops. **SPECIFY UNDERSIDE HEIGHT: A - 10', B - 12', C - 14'.** Other sizes available. **SELECTED MODELS FACTORY QUICK SHIP.** All FOB WISCONSIN.

## CONTRX Over-Braced Wall-Mount Jib Cranes

Ideal for crowded areas because this crane mounts within inches of any overhead obstruction. Single tie rods with threaded ends allow easy field adjustment. 180° hook rotation.

Constructed of high grade steel hinges and beams with Teflon® journal bearing hinges and hardened pins. Painted one coat standard machinery yellow.

**FACTORY QUICK SHIP—FOB WISCONSIN.**

## Floor-Mounted Tool Jibs

Keep tools and lines out of your way. All-steel units are available with either swinging or fixed 6' long booms. Swinging booms rotate 180°. 3" dia. column is either 7'H or 9'H. Includes tool and festoon trolleys and predrilled mounting base. (Anchors, nuts and washers for mounting jib to floor not included).

**FACTORY QUICK SHIP—FOB WISCONSIN.**

# Cranes & Trolleys

**SPANCO Industrial Bridge Cranes**

Free-standing bridge cranes reduce operator fatigue when operating hoists, balancers, or manipulators continuously over multiple shifts. 100 to 1 weight-to-force ratio of the enclosed track provides an ergonomic weight advantage that eases movement yet ensures accurate load positioning. 23' runways have a 20' support center; 33' runways have a 17' and 13' support center. Columns meet AISC specifications. Includes bridge, runway trusses, support columns, header beams and hanger clamps, end stops, hoist trolley, end trucks, flat-wire festooning for runway and bridge, and installation instructions. Hoist and lag bolts not included. FOB PENNSYLVANIA.

**CUSTOM SIZES, LIGHT-DUTY AND MONORAIL VERSIONS AVAILABLE. CALL FOR INFORMATION.**

## MaxX® Magnetic Lifters

Magnetic force grabs, carries and releases flat, round or curved steel loads over 1" thick very quickly with only one operator. Tested to a safety factor of x3. On/off rotor reduces residual magnetism, making piece lifted easy to remove once rotor is turned off. Permanent magnet eliminates fear of magnetic failure in the event of a power failure. **FACTORY QUICK SHIP—FOB MICHIGAN.**

## JET SS Series Single-Speed Electric Chain Hoist

Engineered to operate under tough conditions, these hoists feature totally enclosed steel plate construction with durable powder coat finish. Lifetime lubricated gear trains offer quiet operation and low maintenance without periodic oil changes. Tough, heavy-duty fan cooled motor features class E insulation for 3-phase, class B insulation for 1-phase. Reliable electromagnetic DC brake eliminates the need for gap adjustment, absorbs inertia, and holds the load even if power is interrupted. Other features include: quick connect wiring for low voltage, 24V NEMA 2-button control with strain relief, simple upper and lower limit buttons. Thermal overload protection for 1-phase; reverse phase protection for 3-phase. Drop forged safety hooks, 16-1/2' power cable with quick connects, and heavy-duty chain container. H3 rating with 25% duty cycle for 1-phase and 30% duty cycle for 3-phase. Proof tested, certified and meets OSHA and ANSI B30.16 standards. Two-year warranty. **FOB TENNESSEE, WASHINGTON.**

## COFFING® Heavy-Duty Dual Brake Hoists

Ideal for use in paper mills, textile, industrial and food processing plants. Meets all applicable ANSI standards with 30-minute dual voltage motor. Adjustable upper and lower limit switches. Pre-set overload clutch device protects against damage caused by reverse phasing. Dual braking system features a multiple direct acting motor disc brake and a safety mechanical load brake operates even when power is turned off. 10' standard lift. Also includes: five pocket load sheave, 24V push button station, safety latch hooks, and chain container. Lifetime warranty. Meets ANSI standards. **SPECIFY: A** - 115/230 volt, 1-phase, **B** - 230/460 volt, 3-phase. **FACTORY QUICK SHIP—FOB CALIFORNIA OR NORTH CAROLINA.**

# Hoists

## COFFING® Portable Electric Chain Hoists

With a compact hoist weighing only 20 lbs. or less you can lift up to 1,000 lbs. For a variety of light-duty lifting jobs, high-strength, lightweight aluminum housing makes hoist easy to move from one workstation to another. 115V, AC, 1/3 HP motor with low-voltage control station for safe, one-handed operation. If power is interrupted, you still have positive braking. Duty cycle: 15 secs. on, 60 secs. off (20%) at max. speed. Meets OSHA/ANSI Standards. Machine hardened alloy steel gears with lifetime lubrication. Safety latch hooks and chain container included. Made in the U.S.A. 9-3/4" L x 5-1/4"W x 4-1/4"H. **IN STOCK.**

Model Number	Rated Load	Std. Lift Height	Speed FPM	Unit Voltage	Wt. Lbs.	Price Each
<b>WP-0389</b>	500 lbs.	10'	12	115 V	16	\$1095.00

<b>WP-0391</b>	1,000 lbs.	10'	6	115 V	20	1263.00

NOTE: Push-button drop is approximately 3' less than lift.

## COLUMBUS MCKINNON Portable Electric Chain Hoists

Popular chain hoists are ideal in plants where sterile, clean conditions are a must. Lifetime lubrication means there is no oil to change and no drips to clean up. Major maintenance is completed in minutes, making this one of the easiest hoists to maintain. Rigid-duty cycle meets ANSI B30.16 and has a 30-minute duty rated motor and exclusive CM hoist-alloy long life chain. Also includes: adjustable upper and lower enclosed geared limit switches, magnetic and regenerative non-asbestos dual braking system, and load protector. All operated from a Nema 4 weatherproof, 115V, snap action control station. Chain container included. **SPECIFY: A - 115V, 1-phase, B - 230/460V, 3-phase. SELECTED MODELS IN STOCK.** Others FOB VIRGINIA.

## WAMPLER Air-Operated Hoists

Your operation will not shut down if power goes out because these strong hoists run without electricity. Air-operated rotary vane type motor runs cool, allowing continuous operation. Automatic disc brake holds loads securely. Standard models have pull chain to give operator full control over the load. Add optional pendant control for remote operation. Standard top and bottom hooks.

**SPECIFY LIFT: A - 9.8', B - 19.7'. FOB KENTUCKY.**

## MORSE Drum Spotter

Economical drum handler lifts and moves a 55-gal. drum from any 6"H pallet, skid or containment basin. Innovative design utilizes leverage and strong gas springs to lift 800-lb. rimmed steel, fiber, or plastic drums. Here's how it works: position handler so hooks are below drum rim, pull down handle to engage hooks, activate hand-operated release to raise drum handle and disengage steel hooks. Straddle legs fit into corner letting you reach a drum in any pallet location. Rolls on (2) 6" polyolefin roller-bearing load wheels and (2) 5" rear swivel casters. **IN STOCK.**

## MECO Pry Handle Drum Cradles

This all-purpose drum stand allows you to easily raise 15-, 30-, or 55-gallon drums to a 20" drain height. 1,000-lb. capacity. Handles extend fully to 64" and retract into frame for convenient storage. Rollers on top of frame allow barrel to be rotated while in a horizontal position. **IN STOCK.**

## HERCULES® Strong-Arm® Fiber/Steel Drum Handler

Let the powerful jaws on this drum handler do the work for you! Handles drums with chime and closure ring design that are strong enough to support the weight of their own contents. Works on open or closed drums, fiber or steel drums, and even plastic drums if the drum lip can support the weight of the drum's contents. Will not work on welded closed top steel drums. Choose single- or double-drum units. One person can easily install and operate this unit. Drum handler mounts quickly to forks and stays in place with turn-down bolts. 37" H overall. **SELECTED MODELS IN STOCK.** Others FOB MINNESOTA.

**STOCK**  
Selected Models

Easy 4-step operation:

- (1) Approach drum with mast of truck tilted slightly forward.
- (2) Jaws open as you lower unit onto drum.
- (3) Jaws lock on drum as you tilt back and raise mast.
- (4) Jaws automatically open and release drum as you set drum down, tilt mast forward and back away.

MODEL YD-176 SHOWN

JAWS ADJUST MANUALLY

WD-336 SINGLE-DRUM HANDLER SHOWN

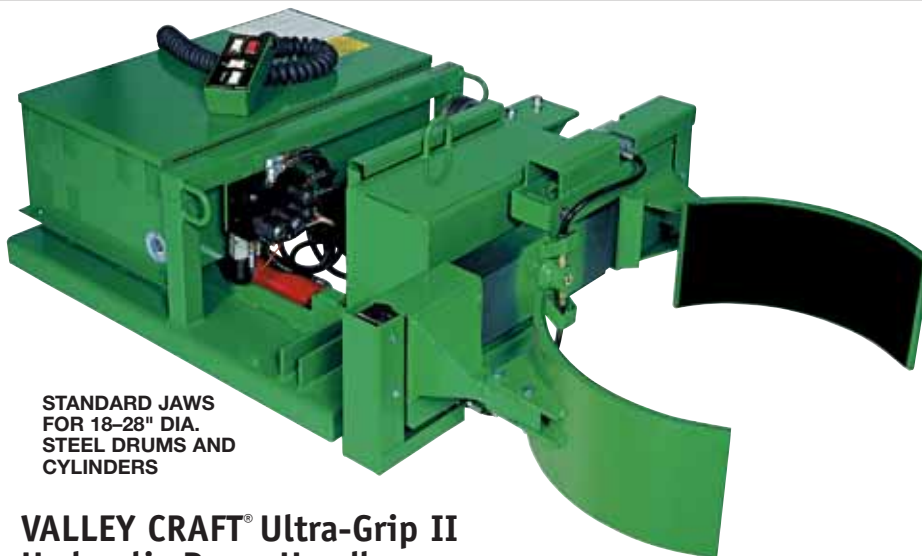

YD-179 STANDARD FIXED DOUBLE DRUM HANDLER SHOWN

## HERCULES® Automatic Drum Handlers

Designed for the heavy-duty loading, handling, and stacking of steel drums. One person can lift, transfer and deposit steel drums without leaving the forklift. Drum handlers slide onto forks and are secured by turn-down bolts. Heavy-duty drum lifter features spring and cam actuated jaws that automatically grip when engaging the drum and release when lowering it. Strong steel shaft lets gripping arms work parallel to each other for better operator control and steady drum placement. Economical Herc-U-Grab® model is perfect for low-volume drum handling jobs. 1/2" x 2-1/2" lifting arms automatically grasp drums by utilizing a unique knuckle-gripping system and the natural pressure of a loaded drum. Also includes retaining chain. **IN STOCK.**

NOTE: All dimensions are in inches. Dimensions for clearance only. All specifications subject to modification or improvement without prior notification.

\*Dump height is for 45° dump angle.

\*\*Dump time is up time to 45°; down time approximately the same.

## ORDERING INSTRUCTIONS

1. Measure the size and determine the capacity of the container you are dumping. If you must dump various size containers, please specify all dimensions.

2. Measure the height of the receptacle you are dumping into. If the receptacle height does not match a standard dump height listed in chart below, see if the next dump height dimension will work for you. Pay close attention to overhead clearance (OC) required to fully dump.

3. Now that you know the capacity and dump height, select the appropriate model.

# Drum Storage

## 2- and 3-Drum Racks

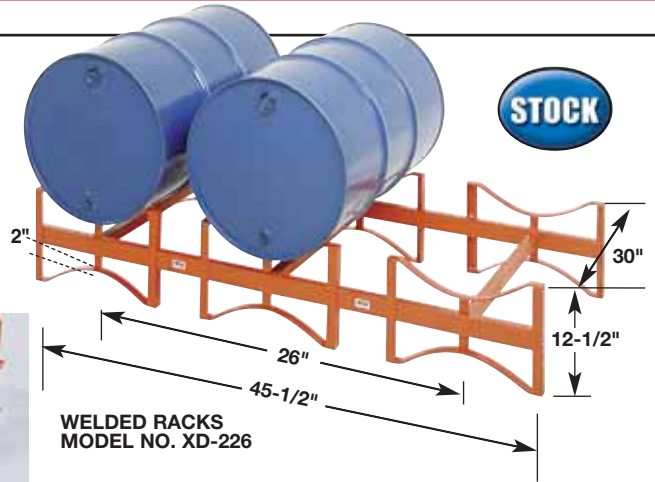

### MECO 2- AND 3-DRUM RACKS.

Contoured, all-welded steel racks hold 55-gallon steel drums. Stackable up to 4 high for space-efficient, vertical drum storage. Four-way access easily accommodates fork trucks for easy portability. Do not transport more than 2 stacked racks. Ships via small package carrier stacked and banded. Color: safety orange. **IN STOCK.**

# Drum Accessories

## Plastic Faucets

Constructed of polyethylene with instant on/off—no drip. Materials have been approved to meet FDA standards. Suitable for light oils, waxes, most cleaning solutions, water-based solvents, and solutions with up to 50% sulfuric or hydrochloric acid. Liquids must not exceed 140°F.  
**IN STOCK.**

Model No. **XP-453**—3/4" NPT. Sold in multiples of 5. ....\$2.62  
Model No. **XP-454**—2" NPT. ....\$11.20

**OPTIONAL CONVERSION ADAPTER.** Changes 2-3/4" O.D. buttress threads to NPT threads.

Model No. **XP-455B**—Wt. 0.3 lbs.....\$22.10

## WESCO® Zinc Die Cast Faucets

Built-in safety features include automatic shut-off, handle that can be padlocked in closed position, and static ground hook. 3/4" NPT. Explosion-proof flame arrester. Not for use with chlorinated solvents, high acids, alkalies. FM approved for viscous liquids.  
**IN STOCK.**

Model No. **YP-459**—Wt. 1 lb.....\$44.10

## JUSTRITE® Self-Closing Drum Cover

Clamps onto 22-1/2"–22-3/4" dia., 55-gal. drum, creating a firesafe container. Cover automatically shuts if there is a fire in the drum when the replaceable, fusible link inside melts at 165°F. Ideal for storing combustible trash. Red powder coat paint finish.  
**IN STOCK.**

Model No. **WP-493**—Wt. 16 lbs. ....\$141.00

## VESTIL Quick-Open Drum Deheader

Removes drum heads in about 30 seconds. Unique tool operates similar to a household can opener, making drum deheading quick and easy. Deheader has a comfort grip handle and an inside cutting blade that won't leave sharp, jagged edges. Must use with a 1/2" manual ratchet driver (not included). Works well on all 30- and 55-gallon steel head drums.  
**IN STOCK.**

Model No. **XL-0760**—Wt. 10 Lbs. ....\$114.00

## KRUEGER SENTRY Fill Gauges

Accurate, durable unit helps prevent costly drum overfills. See-through plastic dome surrounds calibration chart. Shows gallons, liters and percent of liquid remaining. Anti-fog material makes it easy to read the red indicator and black calibrations. Resistant to oil and many chemicals. **SPECIFY DRUM SIZE: A - 55-gal., B - 30-gal., C - 15-gal. Model No. **XP-473**—Wt. 8 lbs. ....\$135.00

### PACER Transfer Pumps

Non-corrosive thermoplastic pumps deliver 1 qt. per stroke. 1" inlet with stainless steel screen, 3/4" discharge. Up to 14' lift with 2-pc. suction tube, 8' discharge hose, 2" bung adapter. For 30- and 55-gal. drums. **IN STOCK.**

**TRANSFER PUMP FOR PETROLEUM OILS.** Also diesel fuels, leaded and unleaded fuels.

Model No. **YP-467**—Wt. 10 lbs. ...\$137.00

**TRANSFER PUMP FOR AGGRESSIVE CHEMICALS.** For alkalis, caustics, acids (pH range 2–12), also detergents, waxes, and disinfectants. **SPECIFY CHEMICAL TO BE PUMPED.**

Model No. **YP-470**—Wt. 10 lbs. ..\$292.00

### Syphon Pumps

Leakproof pump is ideal for mildly corrosive fluids, light oils, waxes, most cleaning solutions, soaps, disinfectants, antifreeze and deodorants. Fits 55-gallon steel drums with 2" female IPS opening. Can be adapted for 15- or 30-gallon drums. 3' hose. **IN STOCK.**

Model No. **ZP-463**—5 GPM max. flow. Wt. 4 lbs. ....\$11.70

Model No. **ZP-464**—Heavy-duty plastic construction with 7 GPM max. flow. Wt. 5 lbs. ....\$16.00

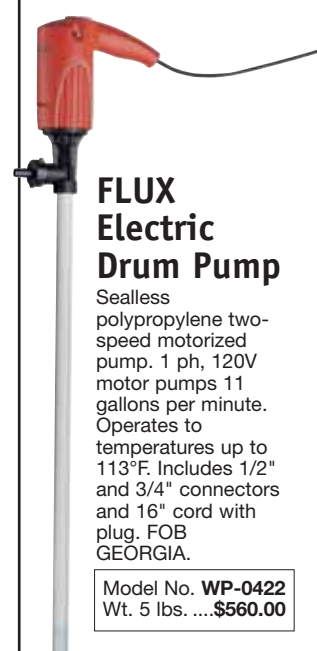

### All-PVC Piston Pumps

100% polyvinylchloride piston pump is the only one of its kind. Designed for rugged use and ideal for a variety of chemicals and liquids. Includes 2" NPT bung adapter and flexible 1/2" discharge hose. Handles up to 40 wt. motor oil. **IN STOCK.**

Model No. **YP-0353**—For 5-, 15-, 30-, and 55-gallon drums. 8 oz./stroke, 21" discharge hose. Wt. 3 lbs. ....\$23.00  
Model No. **YP-0354**—For 15-, 30-, and 55-gallon drums. 22 oz./stroke, 36" discharge hose. Wt. 4 lbs. ....\$38.10

PUMPS NOT RECOMMENDED FOR gasoline, diesel fuel, 80% acetic acid, acetone, aqua regia, chloric acid, hydrofluoric acid and MEK.

### FLUX Electric Drum Pump

Sealless polypropylene two-speed motorized pump. 1 ph, 120V motor pumps 11 gallons per minute. Operates to temperatures up to 113°F. Includes 1/2" and 3/4" connectors and 16" cord with plug. FOB GEORGIA.

Model No. **WP-0422** Wt. 5 lbs. ....\$560.00

# Drum Heaters

## Electric Drum Heaters

Speed up the flow of solid/semi-solid viscous materials in pails and drums with these handy electric heaters. Wraparound aluminized steel unit effectively spreads heat over the entire surface. Toggle clamp secures heater around drum or pail. Also includes neon pilot light and 6' power cord. Not recommended for fiber or fiber-lined drums. Units are not moisture-resistant or explosion-proof. Select from four heating controls. 1-year warranty. UL listed and CSA certified. **IN STOCK.**

**A. THERMOSTAT CONTROL WITH 3-HEAT SWITCH** for heating materials with good heat receptivity. 3-heat switch allows three wattage ratings per thermostat setting and voltage rating. Thermostat bulb senses temperature in areas away from heating element. Packed with fiberglass insulation.

**B. INFINITE (VARIABLE) CONTROL WITH 3-HEAT SWITCH** for heating materials that are subject to coking, burning, or chemical separation, like food, chocolate, honey, light oils, chemicals, and undercoating materials. Infinite control allows operator to closely control heater output within a 3-heat switch setting of high, medium, or low. Does not include a thermostat and will not automatically reach and maintain a certain temperature. Packed with fiberglass insulation.

**C. WATER BOIL-OFF WITH THERMOSTAT CONTROL** removes water from non-flammable solutions, reducing the volume of material for disposal. Includes 70–300°F thermostat with resettable cut-off switch. Automatically shuts off when water is below heater level. When metal container is refilled, boil-off process may be restarted by pressing the red reset button. Packed with fiberglass insulation.

**D. PLASTIC DRUM HEATER WITH THERMOSTAT CONTROL** for heating contents in 55-gallon plastic drums. 9" shroud does not include fiberglass insulation. As recommended for plastic drums, preset thermostat will not exceed 160°F. 5-gallon pail heaters available, call for information.

## BH THERMAL Briskheat® Drum Heaters

Designed for freeze protection and viscosity control of stored materials.

**STANDARD AND HEAVY-DUTY DRUM HEATERS.** Totally integrated heating systems feature wraparound spring fasteners and encapsulated thermostatic controllers with adjustable settings. Standard 3"W grounded models quickly heat steel drums. Heavy-duty 4"W units have nickel-iron heating elements insulated with fiberglass and laminated between two layers of silicone rubber-impregnated fiberglass cloth with dense grounding grid. 120V units include 6' power cord and plug. 240V units do not have plugs. 1-year warranty. UL-listed. **IN STOCK.**

## ENPAC Drum Workstations & Ramp

This workstation doubles as drum storage/pump station and as a waste collection center. It will hold up to eight 55-gallon drums with a static load capacity of 8,000 lbs. At 6-1/4" high, this product is one of the lowest profile compliance spill pallets on the market. It has a 60-gallon sump capacity to catch incidental spills. A ramp is also available with the workstation. It hooks onto the workstation for stability, and it also has 2 gallons of incidental spill capacity. Ramp load capacity is 1,000 lbs. **FACTORY QUICK SHIP—FOB OHIO.**

# Safety Cabinets

**SINGLE-DRUM CABINET**

**DOUBLE-DRUM CABINET**

## SECURALL® Safety Cabinets

Two great ways to safely store dangerous flammable chemicals. Reinforced 18-ga. all-welded galvanized steel construction offers an iron-zinc alloy finish without spangles and premium paint adherence. Two 2" vents with flash arrestors prevent buildup of dangerous gases. Double-wall construction includes 1-1/2" air space and leakproof 2" deep sill. Doors swing on continuous piano hinges and lock via three-point self-latching devices with flush-mount handles. Large warning label spans both doors. Choose either horizontal cabinets with floor tracks that guide drum cradle into position or vertical cabinets with ball-bearing rollers for easy drum placement and a galvanized steel storage shelf for small waste containers. Meet OSHA and NFPA code 30 regulations. **FACTORY QUICK SHIP—FOB INDIANA.**

**YK-1081 DOUBLE-DRUM CABINET**

## EAGLE® Safety Cabinets

Designed for temporary on-site storage of hazardous waste containers. Double-wall, 18-ga. steel cabinet includes 2" sill and 2" screened flame arrestor vents that prevent dangerous vapor build-ups. Door features a 3-point lock to prevent unauthorized access to hazardous contents. Easy-to-read "Flammable—Keep Fire Away" stencils on both doors.

Adjustable leveler feet stabilize cabinet. Choose either single-drum cabinet or double-drum cabinets that store both 55-gallon drums and small containers. Selected cabinets have a roller bottom that eases removal of heavy drums. Both cabinets meet OSHA and NFPA standards.

NOTE: NFPA Code 30 limits storage in one cabinet to 120 gal., and only 60 of the 120 gallons can be flammable liquids.

# JUSTRITE® Safety Cabinets

## Safety Cabinets with Sure-Grip® EX Handle

Store flammables safely with these double-wall 18-ga. welded steel cabinets. 1-1/2" air space prevents buildup of explosive temperatures. Self-closing doors shut automatically via fusible link that melts at 165°F (per Uniform Fire Code, UFC). Doors clearly marked with Haz-Alert™ reflective labels reading "FLAMMABLE KEEP FIRE AWAY" in three languages. U-Lock™ padlock handle includes both a keyed lock and padlock hasp (padlock not included) for maximum security. Adjustable SpillSlope™ shelves are angled to drain leaks to the back; meet ANSI standards with a 350-lb. cap. Durable chemical-resistant powder coat finish. 10-year manufacturer warranty. Meets the National Fire Protection Assoc. Flammable Combustible Liquid Code #30 and with OSHA std. 1910.106. FM-approved. **SELECTED MODELS IN STOCK. FACTORY QUICK SHIP AND FACTORY DIRECT MODELS FOB ILLINOIS.**

### DOUBLE-WALL SAFETY CABINETS

Rated to handle type I and II safety containers in sizes up to 5 gallons. 30-gal. models have (1) 15"D shelf, 45-gal. models have (2) 15"D shelves, 60- and 90-gal. models have (2) 31"D shelves. Color: yellow.

# EAGLE® Safety Cabinets

## Double-Wall Flammable Storage Cabinets

Double-wall, 18-gauge welded steel construction with 1-1/2" air space prevents gas build-up that may occur when storing hazardous liquids. Choose either manual close doors or models with self-closing doors that shut automatically via a melting link when temperatures reach 160°F (meets Uniform Fire Code, UFC). Other protective features include: dual 2" capped vents to provide external exhaust, ground wire connection to prevent static buildup (wire not included), and leakproof 2" base sill that contains hazardous liquids. Locking 3-point handle secures contents. Shelves adjust to accept different sized containers. Labeled with large easy-to-read "Flammable Keep Fire Away" message in three languages. Complies with National Fire Protection Association Flammable Combustible Liquid Code #30 and with OSHA standard 1910.106. Color: yellow. **IN STOCK.**

# SECURALL® Safety Cabinets

## Safety Cabinets

Loaded with features to safely store flammables in accordance with OSHA standards and NFPA code 30. 18-gauge all-welded galvanized steel construction for premium paint adherence and an iron-zinc alloy finish. 1-1/2" insulating air space to prevent buildup of explosive temperatures. 2" leakproof door sills help contain spills while the adjustable self-leveling legs keep cabinet stable on uneven floors. Doors feature flush-mounted locking handle for safety and 3-point self-latching system with spring latches. Choose either manual or self-closing doors that automatically shut via a fusible link that melts at 165°, closing the door. Color: yellow. **FACTORY QUICK SHIP—FOB INDIANA.**

## SECURALL® Aluminum Cylinder Cabinets

Keep cylinders organized and away from theft and vandalism. All-welded aluminum construction is designed for outdoor use, making these durable cabinets ideal for all weather environments; they won't corrode or discolor with age either. See-through expanded metal sides and doors stop the accumulation of hazardous gases and permit quick, visual checks of cylinders. Most locks fit the built-in padlock hasp. Meets OSHA requirements and NFPA standards. Shipping costs are greatly reduced because aluminum is 1/3 the weight of steel. Ships fully assembled, ready for use immediately. **FACTORY QUICK SHIP – FOB INDIANA.**

## Magnetic Forklift Mirrors

For use as forklift back-up mirror, in elevators or in small confined areas. Heavy rubber frame and adjustable swivel mounting bracket included. Glass convex with metal back. **IN STOCK.**

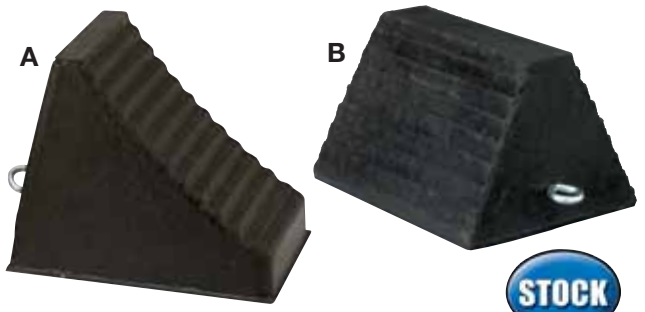

Model Number	Size	Wt. Lbs.	Price Each
XA-2018	5"	2	\$25.60
XA-2015	6"	1-1/2	30.00
XA-2019	8"	3	35.00

# Chocks

## Optional #2/0 Gauge Chain

For use with molded rubber, aluminum, and plate steel chocks. 15' long straight, zinc plated link chain. Includes S-hooks. **IN STOCK.**

Model No. **YD-1917** .....\$10.40

## Molded Rubber Wheel Chocks

Constructed of a tough rubber, durable chocks resist sun, salt, oil, and ozone. Fluted design gives maximum gripping power while the tire-like bottom tread prevents kickout. Cushion-core design absorbs shock. Meets OSHA requirements. Eyebolt for chain attachment. Order optional chain below. **IN STOCK.**

- A. Model No. **YD-1911**—7-1/2"W x 9-1/2"D x 8"H. Wt. 11 lbs. ....\$17.20
- B. Model No. **YD-1912**—9-3/4"W x 6"D x 8"H. Wt. 10 lbs. ....\$18.60

## Urethane Wheel Chocks

Molded urethane chocks resist oils and chemicals to assure superior gripping action on both tires and pavement. Fluted design causes downward pressure to lock chock in place. High visibility orange color. Also includes anti-theft chain hole and safety tread on face. Choose Model YD-1915 for use with small utility trucks, trailers, pickups, autos and RVs. For Over the Road trucks and trailers, select Model YD-1916. **IN STOCK.**

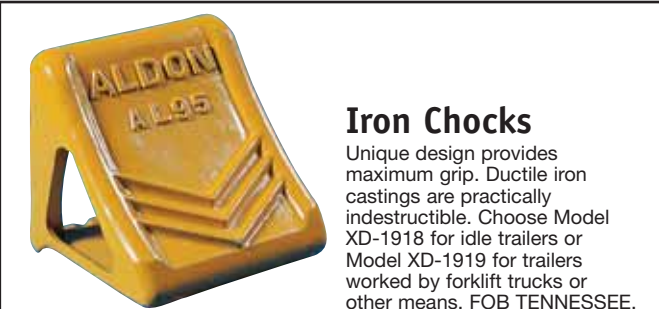

- Model No. **YD-1915**—8-1/2"L x 7-1/2"W x 6-1/4"H. Wt. 2 lbs. ....\$21.20
- Model No. **YD-1916**—11"L x 7-3/4"W x 8"H. Wt. 4-1/2 lbs. ....\$31.60

## Laminated Rubber Chock

Rubber and steel chock consists of curved rubber pads compressed and held together by 1/8" thick steel, triangle-shaped plates. 8"W x 8"D x 8"H. OSHA-approved and resistant to sun, moisture, salt, and oil. **IN STOCK**

Model No. **YK-1148**— Wt. 14 lbs. ....\$53.10

## Iron Chocks

Unique design provides maximum grip. Ductile iron castings are practically indestructible. Choose Model XD-1918 for idle trailers or Model XD-1919 for trailers worked by forklift trucks or other means. FOB TENNESSEE.

- Model No. **XD-1918**—Medium-duty. 8"L x 9-1/8"W x 8-1/2"H. Wt. 16 lbs. ....\$57.70
- Model No. **XD-1919**—Heavy-duty. 10-1/2"L x 10"W x 10-3/4"H. Wt. 27 lbs. ....\$115.00

## Aluminum Wheel Chocks

3/8" long cleats grip hard surface—provide excellent holding power. Ribbed wheel area grabs tire securely. 10-3/4"L x 7"W x 8"H. **IN STOCK.**

- Model No. **XK-1151**—Aluminum. Wt. 7-1/4 lbs. ....\$53.00
- Model No. **XK-1160**—Yellow Aluminum. Wt. 7 lbs. ....\$57.90

## Rail Chocks

Replaceable heat-treated steel spurs grab rails to prevent slipping. Use on exposed rails only. For one directional stopping choose the single rail chock. Double rail chock is needed to stop in both directions (with rubber strap and hooks for greater tension). Meet OSHA regulations. FOB ILLINOIS.

- Model No. **WS-517**—Double Chock w/Flag. Wt. 16 lbs. ....\$138.00
- Model No. **WS-518**—Double Chock. Wt. 12 lbs. ....\$127.00
- Model No. **WS-519**—Single Chock w/Flag. Wt. 13 lbs. ....\$104.00

# Stabilizing Jacks

## Truck Stabilizing Jacks

Stabilize and prevent tilting of trucks and semi-trailers during loading and unloading. Prevent supplementary running gear collapse when trailers are detached from tractor. Always use in front position to prevent collapse of trailer running gear. All-steel body. Built-in dolly has either 6" or 10" ball bearing semi-pneumatic rubber wheels. Storable handle with rubber hand grip. When model number XS-412 is placed under trailer's fifth wheel plate, the 7" diameter ball and socket mounted top pad tilts 9° for complete contact. Meets OSHA requirements. **SELECTED MODELS IN STOCK.** Others FOB TENNESSEE.

Model Number	Description	Static Cap. Lbs	Lifting Cap. Lbs	Top Pad Size	Height Range	Foot Pad Dia.	Wt. Lbs	Price Each
<b>JACK WITH 6" SEMI-PNEUMATIC RUBBER TIRES WITH OFFSET STEEL HUBS</b>								
XS-478	Standard	50,000	5,000	5" Sq.	43-1/2" - 50-1/2"	12"	54	\$292.00

## VESTIL Economical Trailer Stabilizing Jacks

Low cost, yet dependable units stabilize trucks and prevent running gear collapse when trailers are detached from tractors. Always position jack in front of trailer to prevent collapse of running gear. 5" swivel top pad secures firmly to base of trailer. Raises from 44-51" high.

### TRAILER JACK

Supports static loads up to 50,000 lbs. 5" x 5" top plate lifts 5,000-lb. loads. Round base distributes load to the ground. **IN STOCK.**

Model No. **XS-1414**—  
Wt. 45 lbs. ....\$109.00

### TRAILER STABILIZING JACK WITH DOME-SHAPED BASE.

Sturdy base ensures jack stability beneath truck. 14" diameter base supports the 3" welded steel tube column. Supports up to 40,000 lbs. **IN STOCK.**

Model No. **XF-2025**—  
Wt. 35 lbs. ....\$99.40

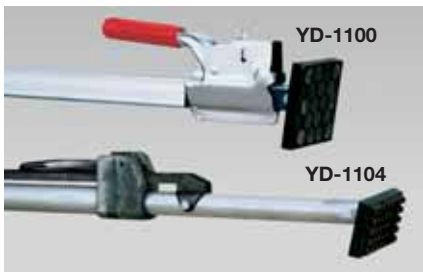

## VESTIL Hand-Crank Stabilizing Jacks

Supports up to 80,000 lbs. 40,000 lbs. lift capacity. Oversized 16" x 21" base. 30"L x 6"W top plate is 3/8" thick. Jack extends from 41" - 55"H. Full 1-1/2" dia. roll thread acme jackscrew. Oversized 16" wheels. Meets all OSHA requirements. Made in USA. **FACTORY QUICK SHIP—FOB INDIANA.**

Model No.	Description	Wt. Lbs.	Price Ea.
XS-2900	16" dia. semi-pneumatic tires with gear box	200	\$730.00
XS-2901	16" dia. pneumatic wheels with gear box	200	698.00

# Dock Equipment

## Cargo Bars

Limit load movement and prevent costly cargo damage with these protective bars. Rubber end pads hold bars securely in place. May be positioned vertically or horizontally. Choose one-piece or two-piece construction. Two-piece enables unit to fit easily inside locked trailer cab when not in use. **IN STOCK.**

**STEEL CARGO BARS.** Mounts vertically or horizontally. 1-1/2", 14-ga. square tube. Non-slip mechanical ratchet.

Model No. **YD-1100**—1-pc. Galvanized Cargo Bar. 87-119"L. Wt. 19 lbs. ..\$66.00  
 Model No. **YD-1101**—Folding Cargo Bar. 87-119"L. Wt. 19 lbs. ....\$69.90

**CARGO BAR WITH ALUMINUM STOPS.** For use in trailers. Locking handle. Rack and pinion jack.

Model No. **YD-1104**—1-pc. Cargo Bar. 89-104"L. Wt. 12 lbs. ....\$71.80

**CARGO BAR WITH STEEL STOP AND HOOP.** All-welded construction. 19-1/2"H hoop. 70-3/4"L top loop; 78-1/2"L bottom loop.

Model No. **YD-1102**—1-pc. Cargo Bar. 87-116"L. Wt. 35 lbs. ....\$89.40

**CARGO BAR WITH E- AND A-FITTINGS.** 2-1/2" x 3-1/2" aluminum tube has a 2-3/8" x 3" steel tube that slides and locks in each end. Adjusts 92-102". E- and A-track fittings on both ends.

Model No. **YD-1768**—Wt. 22 lbs.....\$86.80

## E-Track Sections

12-gauge steel and 50,000 lbs. psi yield strength. Available in 5' sections. Accommodates YD-1768 cargo bar and YA-1134 and YA-1135 tie downs. **IN STOCK.**

Model No. **YA-1120**—Painted. ....\$16.70 ea. 5' section  
 Model No. **YA-1121**—Galvanized. ....\$20.40 ea. 5' section

CAM BUCKLE SHOWN

## Polyester Ratchet Tie Downs With E- and A-Track Fittings

Rugged polyester tie down has a fixed 4' side and an adjustable 8', 12', or 16' side. Both have E- and A-track fittings on the ends. Uses 2" wide polyester with 3,000-lb. capacity. **SPECIFY LENGTH: A - 12', B - 16', C - 20'. IN STOCK.**

Model Number	Description	(A) 12'L		(B) 16"L		(C) 20'L	
		Color	Price Ea.	Color	Price Ea.	Color	Price Ea.

YA-1135	With ratchet buckle	Yellow	21.30	Gray	23.20	Blue	25.00

# Dock Equipment

## BLUFF Edge of Dock Levelers

Innovative design dramatically reduces installation time and virtually eliminates installation errors. New flanged mount plate simply rests on top of the dock edge automatically positioning the unit at the proper height in relation to the dock surface. One person can easily move leveler into position. Handles standard trucks from 5" lower to 5" higher than dock height. 4" x 10" x 12" molded rubber bumpers are mounted on steel beams and extend 16-1/2" from dock face. Leveler extends 27-3/4" from dock face. Integrated bumper assemblies help you anchor and weld unit in place. **IN STOCK.**

### Easy four-step operation:

1. Pull handle up from stored position and pull back toward dock.
2. As you pull handle back and down, leveler moves into upright ready position.
3. Push handle back toward trailer and leveler automatically extends into trailer floor.
4. Returns to dock automatically when trailer pulls away.

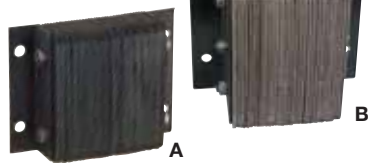

Model Number	Plate Width	Overall Width	Wt. Lbs.	Price Each
WV-3519	66"	88"	505	\$923.00
WV-3520	72"	96"	545	1007.00
WV-3521	78"	102"	585	1218.00

## VESTIL Dock Bumpers

Place at intervals along your dock edge—either direct to dockface or mount on existing wooden bumper strips. Rubber impregnated pads are secured by adjustable threaded 2-1/2" x 3", 1/4" thick angle iron brackets. Mounting brackets which form the ends are drilled with two 13/16" diameter mounting holes. To order: Select appropriate length by allowing 12" clear between each rubber block. **SELECTED MODELS IN STOCK.** Others FOB INDIANA.

Model No. XP-0053 — 30"L. 6 holes. Wt. 15 lbs.	\$29.40

# BLUFF Aluminum Dockplates & Dockboards

## SELECTION GUIDE

Choosing the correct **SIZE** and **CAPACITY** of equipment helps improve your dock operation. The following guidelines will help you determine what equipment best suits your individual needs.

### HEIGHT DIFFERENTIAL

#### Highest Truck Height T

We recommend using 55" for the T unless your customer says otherwise, since 55" is the maximum height of most trailers. On refrigerated or container trailers use 59".

T =  Inches

#### Dock Height D

(You must measure this.)

D =  Inches

#### Height Differential (Maximum) H

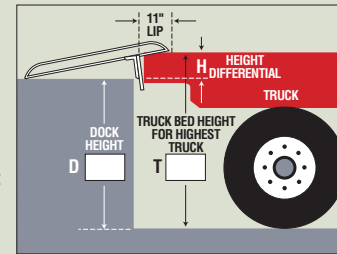

H is equal to T minus D.

H =  Inches

## LENGTH

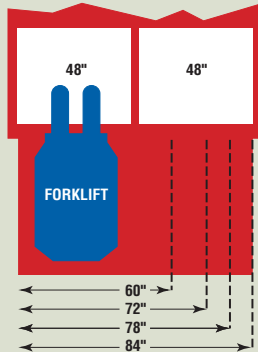

To determine the proper length of a dockboard/plate, three items are required:

- Dock height (D)
- Height of highest truck (T)
- Type of loading equipment used

## WIDTH

Bluff recommends a minimum product width of 12" to 18" wider than the overall width of the vehicle or pallet used. For improved end loading efficiency, you may consider increasing board width, as shown in diagram.

## CAPACITY NOTES

- Stackers and other narrow aisle loaders should not be used on a dockboard.
- Paper roll clamp and multi-shift loading add 5,000 pounds to the board capacity.
- Capacity rated for single-shift operation at a 3 mile per hour maximum rate of travel.
- For all railroad applications, we require a fully completed railroad worksheet.

## CAPACITY SELECTION CHART

3-Wheel Forklift	4-Wheel Forklift	Board Capacity
2,000 – 2,500		10,000
	2,000 – 3,000	10,000
3,000 – 3,500		15,000
4,000 – 5,000		20,000
	3,000 – 5,000	15,000
	5,000 – 6,000	20,000
Lifting Capacities		

## Aluminum Dockplates

Here's an economical dockplate recommended for light-activity operations and non-powered loading. Includes non-slip diamond tread surface and bolt-on steel legs to secure unit between dock and trailer. Other sizes and capacities available, call for information. **SELECTED MODELS FACTORY QUICK SHIP.** All FOB TEXAS.

## Steel T-Boards

Specially designed T-board features steel pins that drop into side pockets to give you extra strength during heavy-duty applications. When pins are in side pockets, they position the board securely between trailer and dock. MIG continuously welded steel side curbs help prevent runoffs and add 6" to width in chart. Includes lift loops to ease movement of board. T-boards work well with standard or refrigerated trailers. **SELECTED MODELS FACTORY QUICK SHIP.** All FOB TEXAS.

LIFT LOOPS ARE UNCONDITIONALLY GUARANTEED

## Red Pin Steel Dockboards

Positive pin locking system offers safety, versatility in handling conventional parking or troublesome angle park-outs. 1" steel pins slide into side holds safely securing board between trailer and dock. Other features include safety curbs with tapered ends, forklift loops, and two deck plate bends that stop kick-ups and allow plenty of bottom clearance for forklifts. All-steel construction is continuously MIG-welded for maximum strength and longer service. **SPECIFY CAPACITY: A - 15,000-lb., B - 20,000-lb. FOB TEXAS.**

# Ramps

## MAGLINE® Aluminum Walk Ramps

Non-rusting aluminum walk ramps ease truck to ground loading or unloading. May also be used to cross over machinery, or in place of an entrance stairway. Level-off apron overlaps trucks bed. Lightweight aluminum construction with non-slip serrated deck and welded safety curbs to prevent runoff. Not for use with pallet jacks or any motorized equipment. **SELECTED MODELS IN STOCK AND FACTORY QUICK SHIP.** Others FOB MICHIGAN.

### Selecting a Ramp

1. Measure height from truck bed to ground or between two levels in your building.
  2. Select ramp best suited to your needs.
- Note: More than one length handles a given height. If only unloading light loads, shorter length with greater incline is satisfactory. If unloading and loading heavy loads, longer ramps with shorter inclines are recommended.

Model Number	Ramp Height	Overall Length	Capacity Lbs.	Wt. Lbs.	Price Each
<b>OVERALL WIDTH 28-3/4", USEABLE WIDTH 26-1/4"</b>

NOTE: Capacities shown are for two- and four-wheeled trucks only.

## BLUFF Portable Steel Yardramps

No more waiting to unload trucks or trailers, because this portable YardRamp can be at the dock in minutes. Ramp features a tubular steel box undercarriage assembly with wide 18" solid rubber pneumatic tires that let you easily tow or reposition ramp where you need it. The self-contained, double-action hydraulic pump wheel assembly quickly places ramp at the proper height. 8" curb height. Supports 16,000 or 20,000 lbs. Other features include: open serrated steel grating for excellent traction, beveled approach for smooth transition, and safety chain. For truck- or rail car-to-ground applications, choose a 36' unit with a 6' level off. For dock-to-ground applications, choose a 30' model. Other sizes available, call for information. **FACTORY QUICK SHIP—FOB TEXAS.**

## Steel Sentry™ Impact-Resistant Railing Systems

You can have it all—a protective, immovable barrier with unobstructed access to machinery for repairs and maintenance. Removable rails bolt in place for strength and can be easily lifted out when necessary. Extremely strong posts are constructed of 4" square tubular 7-gauge steel. Rails are constructed of 3" x 4" tubular 11-gauge steel. Posts are supported by 11" x 11", 1/2" thick foot plates with 7/8" mounting holes and should be bolted to the floor for stability. Ships unassembled. **FACTORY QUICK SHIP—FOB ILLINOIS.**

# Commercial & Industrial Sweepers

## TRYNEX Commercial Sweepers

Modular broom is designed for indoor and outdoor use. Perfect for sweeping warehouses, parking lots, construction sites and more. Handles dry or wet material. Brushes away snow and squeegees water. Easy 30-second installation—simply attach broom to forklift. Main frame is constructed of 10-ga. steel with 1/4" thick end caps. Eight brush rows feature replaceable, recyclable polypropylene bristles. Bristle wear is 1/64th of an inch per mile. Low-maintenance.

EASY-TO-REPLACE BRISTLES

**PRO SERIES HEAVY-DUTY INDOOR/OUTDOOR BROOMS.** Designed for heavy-duty applications, these brooms handle sand, gravel, and standing water with ease. Perfect for outdoors and construction sites. 11-1/2"H bristles, 10-ga. steel frame. Magnetic bar attachment picks up nails and dangerous metal debris.

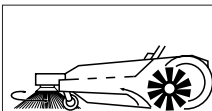

**FACTORY QUICK SHIP—FOB MICHIGAN.**

**VALUSWEEP™ STANDARD-DUTY INDOOR BROOMS.** 8"H bristles sweep away light- and medium-weight debris. Lightweight, extruded aluminum mounts to lift truck using Quick-Tite fork pockets. Ships via small package carrier. **IN STOCK.**

## GOFF Curtain Walls™

Increase useable floor space while controlling contaminants, climate, and noise levels. Curtain Walls™ glide easily on steel track and dual-wheeled rollerhooks. Made from a combination of 14-oz. heavy-duty, reinforced vinyl and double-polished 20-mil clear PVC material. Reinforced hems and chain-weighted lower hems add durability. Hook and loop fasteners on side hems attach to adjacent panels. Available in standard, weldview or privacy design. Meet NFPA-701 requirements for flame retardancy. Standard model has a white vinyl top, clear PVC center, blue vinyl bottom. Privacy model has a 27"H blue vinyl bottom with white vinyl top. Weldview model has a white vinyl top, UV yellow weldview center, and black vinyl bottom. **STANDARD DESIGN IS FACTORY QUICK SHIP.** ALL FOB WISCONSIN.

## GOFF Welding/Safety Screens

Modular screens feature lightweight 1" extruded aluminum frame that stand up to the toughest shop environments. Panels mount to frame with brass grommets and button head screws. Finished hem on all edges. **SPECIFY COLOR: BL - Blue, GN - Green, GR - Gray, RD - Red, YL - Yellow.** **FACTORY QUICK SHIP—FOB WISCONSIN.**

**SAFETY/PRIVACY SCREENS.** Ideal for areas where an opaque barrier is required. Protects from UV rays, dirt/dust, and most chemicals. Tough 14-oz. reinforced vinyl coated polyester fabric resists tears, heat, and moisture. Meets NFPA-701 flame retardancy and California Fire Marshal standards.

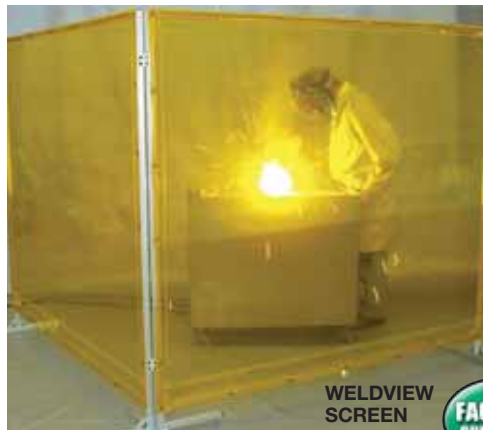

**WELDVIEW ROLLS AND SCREENS.** Creates safe work areas by confining harmful glare from welding arcs and dangerous welding sparks. Durable, transparent 14 mil thick PVC provides see-through visibility to welding area. Blocks 100% of UV light. Available in two styles. WELDVIEW SCREENS can be used to create welding booths by hinging frames together with optional kit. Both meet CPAI-84 and California health and safety code requirements and are weld spatter resistant and OSHA approved. WELDVIEW ROLLS are extremely cost-effective and perfect for temporary or emergency situations when frames aren't needed. Cut curtains as needed with a scissors or utility knife.

UNIQUE UNDER-OVER LEG DESIGN ALLOWS ADJACENT PANELS TO BE PLACED AT DESIRED ANGLES.

EXTRA-STURDY FRAME.

## GOFF Portable Acoustic Enclosures

Designed to enclose noisy power equipment, machinery or air compressors; versatile units reduce sound by 10–12 dB. Designed for 5–10 HP vertical or horizontal compressors with tank sizes up to 120 gal. Quilted panels with a barium-loaded vinyl barrier are constructed of sound-absorbing fiberglass vinyl that is coated to resist most chemicals. Material is also waterproof and fire retardant in accordance with ASTM-E84 Class 1. Rugged aluminum frames. Order the optional casters and create movable panels that allows you to easily access machine for maintenance operations. FOB WISCONSIN.

# ALECO® Strip Doors

## Energy-Saving Strip Doors

Reduce the loss of heated and cooled air while preventing the flow of dust and contaminants from parking or loading areas with these energy-efficient doors. With the addition of strip doors, you'll have reduced clean-up and maintenance costs as well as lower sound transmission helping you meet OSHA requirements. Constructed of fire-resistant, self-extinguishing PVC, strip doors offer 2-way visibility for safety. Clear-Flex II™ rounded edges won't cut, non-stick additive prevents clinging. Ships knocked down for easy assembly. Holes are pre-punched and all strips are cut to size. **SPECIFY VINYL STRIP:** **A** - Standard for indoor/outdoor applications and temperatures from -10° to 150°F; **B** - for interior applications only. Recommended for coolers and freezers, meets food service requirements and remains flexible in temperatures as low as -40°. **SELECTED MODELS IN STOCK.** Others **FACTORY QUICK SHIP – FOB ALABAMA.**

**CUSTOM CUT STRIPS.** Punched (3/8" dia. holes on 2" centers). Can be used on most other strip doors. Available in full-foot increments only. **SPECIFY BOTH TOTAL AND CUT LENGTH.** Example: 100 ft., Model No. YP-758, (A) Std. @ \$1.35/ft. cut and punched in (10) 10 ft. lengths.

## GOFF DRAW-TITE™ Powered Doors

Keep the wind out! Indoor/outdoor dock doors feature a unique tensioning system that draws doors closed, enabling wind load capability to 70 MPH (wind load tested on 10' x 12' solid vinyl roll-up door per ANSI/DASMA 108-2002). Fiberglass wind bars breakaway to prevent damage. Doors roll up and down on garage-door type rollers in an extruded aluminum side track with EPDM weather-strip seals. Operate at 36" per second with a 110V motor; up to 4,000 cycles per day. Also features a standard wall-mount 3-button control station. Optional rain cover available. NOTE: Face mount doors are incompatible with dock seals and dock shelters. Trim color matches requested color unless specially ordered. FOB WISCONSIN.

### VINYL DOORS

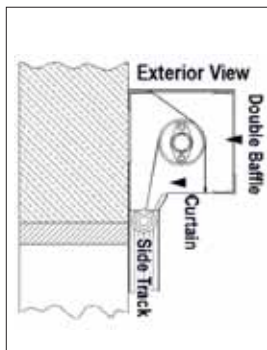

Save energy, reduce heating costs, and lessen noise! Constructed of 18 oz./sq. yd. vinyl coated polyester. Feature a clear window to allow light into work areas.

# FordLogan Wire Partitions

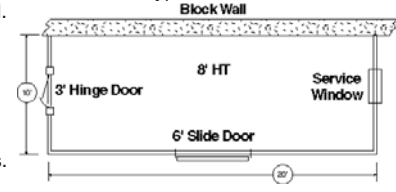

**FACTORY QUICK SHIP**  
Selected Models

## HOW TO PLAN AND ORDER

A sketch of the area to be partitioned should be prepared. (see sample line drawing). Details of the sketch should include the following :

- (1) Overall layout dimensions.
- (2) If doors and windows are to be included in the installation, the location and type of each should be indicated.
- (3) Height of partitions.
- (4) Show locations of existing walls and obstructions.

The original FordLogan heavy-gauge wire partitions are structurally strong to assure years of service with little maintenance. Constructed of 10-gauge, 1-1/2" diamond wire mesh that is securely clinched to frames. Vertical frames are 1-1/4" x 5/8" roll-formed "C" channels mortised and tenoned at the corners. Horizontal frames are 1" x 1/2" roll formed steel. Center channels provide extra reinforcement. Top cap channels are constructed of 1-1/2" x 1/2" x 14-gauge roll formed channel with bolt holes in-line with panel's top bars. 1-1/4" x 1-1/4" x 11-gauge hot roll formed angle steel makes up the corner posts. Line posts—3-1/2" x 1-1/4", 10-gauge. Die cast aluminum base shoes are 2" high. Gray polyester powder coat paint finish is standard. All necessary hardware furnished. Bronze cylinder mortise type locks are standard on sliding or hinged doors.

## WIREWAY/HUSKY™ EZ-Wire™ Partition System

Patented hook design dramatically reduces labor costs and installs in one-third the time as traditional nut and bolt or screw-type partitions. Tubular supports have a 50% thicker base plate. Hook fastener on partitions slips easily into 2-1/2" sq. tube posts. Aluminum drive pins are tapped into place above hook for permanent installation. All attachments are done on inside of enclosure. Panel orders are crated, eliminating damage during transit. A rough sketch of each enclosure is required with every order. Color: gray. **FACTORY QUICK SHIP—FOB NORTH CAROLINA.**

### How To Order

Make a rough floor plan of area to be enclosed. Note overall measurements. Call us to request help.

# Modular Buildings & Wire Enclosures

## Modular Buildings

Interchangeable walls are easy to replace or relocate without disturbing adjacent walls. Non-combustible 3" thick panels are built to keep sound out and heat in—1/2" vinyl-faced gypsum board is laminated to both sides of a polystyrene core. Color: khaki. Each wall is supported by two-piece aluminum posts, forming a concealed vertical raceway. Design allows electric, communication and data lines to be installed on both sides of the post. Color: khaki. Ceilings are suspended and have 2' x 4' white acoustical tiles. Door resists marring and is constructed of light oak vinyl hardboard with 1/4" tempered glass window. Door includes 18-ga. steel frame, ball bearing hinges and stainless steel key-in knob lock set. Steel roof deck is constructed of 22-ga. 1-1/2" deep ribbed painted steel for noise and dust control. Electrical package includes 2' x 4' recessed fluorescent light fixtures, light switch, duplex receptacles and load center with proper circuit breaker. Optional windows measure 4'W x 3'H, have 1/4" tempered safety glass and are assembled in the factory in extruded aluminum frames. Modular buildings ship knocked down with pre-cut components and easy instructions. Other sizes available. Call for quote. Please submit a rough floor plan of area to be enclosed. Note overall measurements and door and panel locations. Call us for help if needed. **FACTORY QUICK SHIP—FOB MISSOURI.**

**Wire Mesh Back Riser.**  
Wt. 15 lbs. ....**\$82.10**

## DIXIE Universal Bulb Caddy

Shatter-resistant bulb caddy hooks over the rail of your forklift work platform. Works on any manufacturer's model. UV protected polyethylene construction will not rust, scratch, or dent and protects fragile bulbs better than metal models. FOB SOUTH CAROLINA.

Model No. **YK-0600**— Wt. 14.5 lbs. ....**\$74.80**

## DIXIE Poly Work Platform

Perfect for high-reaching electrical tasks, this unique platform is completely dielectric. Poly material will not conduct electricity. Dual chain front gate and non-skid floor keep worker safe during use. Unit secures to forklift via 7" fork pockets and a safety chain. Also includes a molded-in tool tray. 36"W x 40"D x 48-1/4"H overall. 1,000-lb. capacity. Color: yellow with black base. FOB SOUTH CAROLINA.

Model No. **XA-0700**—Wt. 99 lbs. ....**\$538.00**

# Step Stands

## EGA Adjustable One-Step Steel Work Platforms

Serrated, Grip-Strut® tread gives you safe, sure footing in wet or dry environments. Heavy-gauge steel construction stands up to the rigors of every day use. Simply twist threaded feet to adjust platform to desired height. If you need a larger stepping surface, place multiple platforms side-by-side until you reach desired length. Meets OSHA 1910.26 standards. Gray enamel finish. FOB WISCONSIN.

Model Number	Adjustment Height	Platform Size	Wt. Lbs.	Price Each
YC-1397	5-8"	24" x 24"	25	\$264.00
YC-1398	5-8"	24" x 36"	34	286.00

# Work Platforms & Ladders

## Work Platforms

Lift employees to higher heights comfortably with these plastic platforms and anti-fatigue mats. Plastic platforms stack together easily for increased height. Lock adjacent platforms together to create large work surfaces. FOB MICHIGAN.

BASE WITH TWO ADD-ONS AND MAT SHOWN.

**PLATFORMS.** Start with a base and use add-ons to create multiple levels. Stack them vertically or use optional connection clips to link them horizontally. 2-5/8" H polyethylene is lightweight and easy to move. High-density plastic resists chemicals. Grates on the surface allow fluids and small particles to drain away. Wide-stance design for comfort.

**SPECIFY UNIT:**

## EGA Rubber-Tread Rolling Ladders

Attractive colors combine with strong durable construction making this ladder ideal for both industrial and office use. Rigid 1" dia. square steel construction supports up to 300 lbs. Steps feature rubber tread for safe footing, and the gradual incline eases climbing. 3" rubber casters retract automatically when weight is applied to first step so rubber tipped legs grip the floor for stability. Meets OSHA standards. Enamel finish. **SPECIFY COLOR: BK** - Black, **BL** - Blue, **GY** - Gray, **SD** - Sandalwood. **SELECTED MODELS ARE FACTORY QUICK SHIP.** All FOB WISCONSIN.

## GILLIS Saf-T-Six Wheeler Rolling Ladders

Cut turning radius in half with these six-wheeler ladders. Patented design features a set of middle wheels that allow ladder to turn on its own radius making it a great option for tight areas. 1" O.D. tube frame construction with enamel finish. Front casters are 4" swivel, middle are 6" rigid, and back are 4" rigid. As soon as you step on first step the middle casters rise and ladder feet lower so that ladder is stabilized to floor. When front bar is touched the middle casters lower, returning ladder to rolling position. 7"D steps with a 14" top platform. 350-lb. capacity. **SPECIFY ANGLE AND STEP: STANDARD ANGLE, A - Perf Step, B - Grip-Strut®; 50° SAF-T-ANGLE, C - Perf Step, D - Grip-Strut®.** FOB ILLINOIS.

All our ladders comply with OSHA and ANSI standards. Please note: California and portions of other areas may require special options such as higher handrails. Please check your local codes before ordering.

EZY TREAD STEP GRIP-STRUT® STEP

## Safety Ladders With EZY Tread or Grip-Strut® Steps

Square tubing plus quality design is the hallmark of these safety ladders. Handrails and frames are constructed of 1" square tubular steel that is 40% stronger than round tube. Casters on the 2-4 step ladders are spring-loaded and locking. 5-16 step ladders have a heavy-duty EZY lock first step with a foot release. Choose from two stair tread types—EZY Tread or Grip-Strut®. The EZY Tread stair has 1"L x 3/8"W perforations to prevent slipping. For even more slip resistance, choose the Grip-Strut®

tread, designed for wet or oily work conditions. Both styles have 7" deep steps with a 9" top platform. Ladder legs have rubber tips that grip the floor for extra stability. Sub-assemblies are welded, making them more durable. The hand rail sits 30" above platform on 2-13 step ladders and 37" on 13-16 step ladders. All ladders meet OSHA standard 1910.29 and ANSI standard A14.7-1991 and are carefully packaged to prevent freight damage. 2-4-step ladders ship via small package carrier; 2-, 3-step without handrail ship completely assembled; 3-step with handrails ship knocked down. Easy to assemble. **SELECTED MODELS IN (A) ARE FACTORY QUICK SHIP.** All FOB WISCONSIN.

## 60° Angle Safety Ladders

Rolls easily to and from work areas. 1" steel tube frame and handrails provide structural support. Handrail is 24" high on 2-3-step ladders, 30" high on 4-12-step ladders, and 42" high on 13-16-step ladders. 14"D top platform is standard, 21" and 28"D platforms are also available. 7"D stairs are available with perforated tread for general-duty use or Grip Strut® stair tread for oily or wet environments. Two- to five-step ladders have retractable casters while the 6-16-step ladders have four casters with floor locking mechanisms. 2-, 3-, and 4-step ladders (without handrails) ship fully assembled. All others ship unassembled to save freight. Ladders are packaged to reduce the risk of shipping damage. Assembled, welded version available on request. Meet OSHA standard 1910.29, and ANSI standard A-92.1-1971. Gray/green enamel. **SELECTED MODELS IN (A) ARE FACTORY QUICK SHIP.** All FOB ILLINOIS.

### OUTRIGGER. Meet CAL-OSHA Requirements (10-16-step)

Model No. **XV-3821** .....\$54.40

NOTE: Cal-OSHA requires 42"H handrails. Call for our selection.

# GILLIS Ladders

All our ladders meet OSHA and ANSI standards. **NOTE:** California and portions of areas may require special options such as higher handrails. Please check your local codes before ordering.

Selected Models

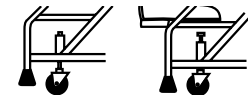

## Saf-T-Angle Safety Ladders

Safe 50° climbing angle lets workers turn around at top and descend facing forward. Assures maximum safety with any load. Rugged 1" steel tubing construction provides long lasting service. Double deep top step—other steps 7" deep. 350-lb. capacity. Conforms to OSHA and ANSI standards. Color: gray/green enamel finish. **SPECIFY STEP:** **A** - Perforated, **B** - Grip-Strut®. **SELECTED MODELS FACTORY QUICK SHIP.** All FOB ILLINOIS.

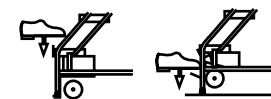

**OPTIONAL 42" HANDRAIL** (Factory installed only). Model No. **WK-705**—For 5-12-step ladders. Necessary to meet California OSHA standards.....**\$83.00**

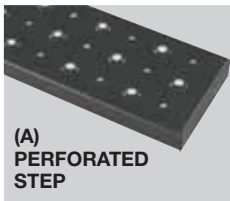

5- TO 16-STEP LADDERS ARE PROTECTIVELY PACKAGED TO PREVENT DAMAGE DURING SHIPPING. PROTECTIVE PACKAGING ADDS TO PRODUCT WEIGHT. ONLY PRODUCT WEIGHT IS LISTED BELOW.

**FLOOR-GRIPPING MECHANISM FOR 2-4-STEP LADDERS—SPRING-LOADED CASTERS RETRACT AUTOMATICALLY UNDER INDIVIDUAL'S WEIGHT. WIDE BASE & DURABLE RUBBER TIPS GRIP FLOOR & SECURE THE LADDER.**

**SAF-T-LOCK IS STANDARD ON 6-12-STEP LADDERS. BOTTOM STEP RELEASES THE CASTER CARRIAGE, PUTS LEGS FIRMLY ON FLOOR. JUST ACTUATE FOOT PEDAL TO RAISE THE LADDER ONTO SWIVEL CASTERS FOR EASY ROLLING.**

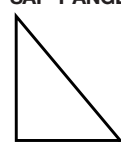

**(A) PERFORATED STEP**

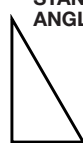

**(B) GRIP-STRUT® STEP**

**50° SAF-T-ANGLE**

**60° STANDARD ANGLE**

**TAPERED DESIGN FOR BETTER STABILITY.**

# PENCO Premium Industrial Shelving

**EXTRA SHELF CLIP**

- Shelves connect to posts via Clipper® compression clips
- Shelf capacity: up to 1,250 lbs.

Begin row with complete starter unit and connect add-on units to extend row. Shelves feature welded tubular front and rear edges with double flanged sides for extra strength. Shelves adjust on 1" centers. Common front box post cuts assembly time when connecting two or more units. Extra shelves include clips. Color: gray. **IN STOCK.**

- Shelves attach to posts via a boltless single-rivet connection
  - Shelf capacity: up to 600 lbs.
  - Particleboard decking is sold separately
- Safe, economical storage for virtually any kind of hand-loaded material. Top and bottom shelves connect with double rivets. Common T-post between starters and add-ons. Shelves adjust on 1-1/2" centers. Light putty baked-on finish. Optional heavy-duty single-rivet beams available (or make your own custom units using 60", 96", or 120" high uprights). **IN STOCK.**

**SHELVES WITHOUT DECKING.** Combine with uprights to build your own custom unit. Double-rivet shelves must be used at top and bottom with single-rivet shelves in between. Can be built using all double-rivet shelves if necessary.

# PENCO Rivet-Rite™ Double-Rivet Bulk Storage Shelving

**STARTER**

**ADD-ON**

**EXAMPLE: One starter and one add-on.**  
 Starter and add-on units are combined to form rows of shelving. Each add-on unit includes a pair of tee posts which are used in common between units. Begin each row with two angle posts from the starter unit and join the desired number of add-on units to complete the row. Finish the last unit with a pair of angle posts from the starter unit.

**EASY ASSEMBLY—ALL YOU NEED IS A RUBBER Mallet.**

- Shelves attach to posts via a boltless double-rivet connection
- Shelf capacity: up to 1,400 lbs.
- Wire or particleboard decking

Stores retail, wholesale, or industrial goods. Starter and add-ons include four shelves that adjust in 1-1/2" increments. Roll-formed steel framing with chip-resistant baked enamel finish. **IN STOCK.**

**ORDER DECKING SEPARATELY**

# EDSAL Bulk Storage Shelving

- Boltless beams lock to posts via tab hook connections
- Shelf capacities: 60" wide (2200 lbs.)  
72" wide (1500 lbs.)  
96" wide (1200 lbs.)

- Steel decking
- 16-gauge steel

Designed for hand loading of bulky items. Racks without decking include front-to-back components to build 24", 36", or 48" deep uprights. Capacities are per pair of beams.

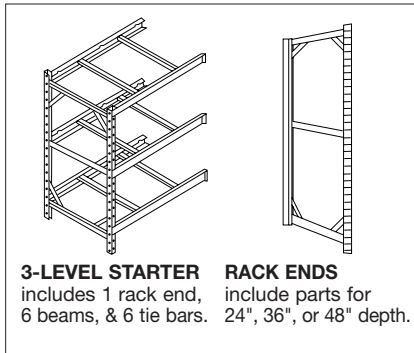

**IN STOCK.**

### BEAM CONNECTOR.

16-ga. beams offer extra stability, more load capacity. Three tab hooks engage matching key-slot openings in uprights for rigid rack assembly. Adjusts on 1-1/2" centers.

**EACH ROW OR SINGLE UNIT REQUIRES A RACK END TO FINISH ROW.**

### 3-LEVEL STARTER

includes 1 rack end, 6 beams, & 6 tie bars.

### RACK ENDS

include parts for 24", 36", or 48" depth.

**ONE STARTER WITH OPTIONAL RIBBED STEEL DECKING AND ONE RACK END SHOWN**

# Pallet Rack Selection Guide

Are you looking for the most popular and versatile storage for large, palletized, or boxed loads? You've found it with Pallet Racks. This guide provides basic information needed to select pallet racking. However, before selecting any racking, please check local ordinances, codes, and seismic requirements.

**3. BEAM WIDTH.** Determine the width of your pallet/load and allow a minimum of 4" between the upright frame and the load and a minimum of 4" between loads. Example: to store (2) 42"W loads.  $4 + 42 + 4 + 42 + 4 = 96$ " wide beam. Beam Capacity. Multiply the weight of the pallet and load by the number of pallets per level. Example: two pallets with a weight of 2500 lbs. each per level.  $2500 \text{ lbs.} \times 2 \text{ pallets per level} = 5000 \text{ lb.}$  beam capacity minimum requirement.

**4. UPRIGHT FRAME DEPTH.** The depth of the upright frames should be your pallet depth (48") minus 6" (3" overhang in the front and 3" overhang in the back). Example:  $48" - 6" = 42$ " deep upright frame.

**5. UPRIGHT FRAME HEIGHT.** Determine the overall load height. Add a minimum of 6" clearance between top of load and next level of beams. Add the beam height and multiply total by the amount of upper levels required. (do not count floor level). Example (4 shelf levels):  $48"H + 6"$  (for clearance)  $+ 5"$  (beam height)  $= 59"$ .  $3 \text{ upper levels} \times 59 = 177"$  high upright frame requirement.

## To Select Pallet Rack

### 1. DETERMINE THE SIZE OF YOUR PALLET TO BE STORED.

Example: 42"W x 48"D x 6"H.

### 2. DETERMINE THE OVERALL LOAD W X D X H.

For the overall height, add the load and pallet heights together.

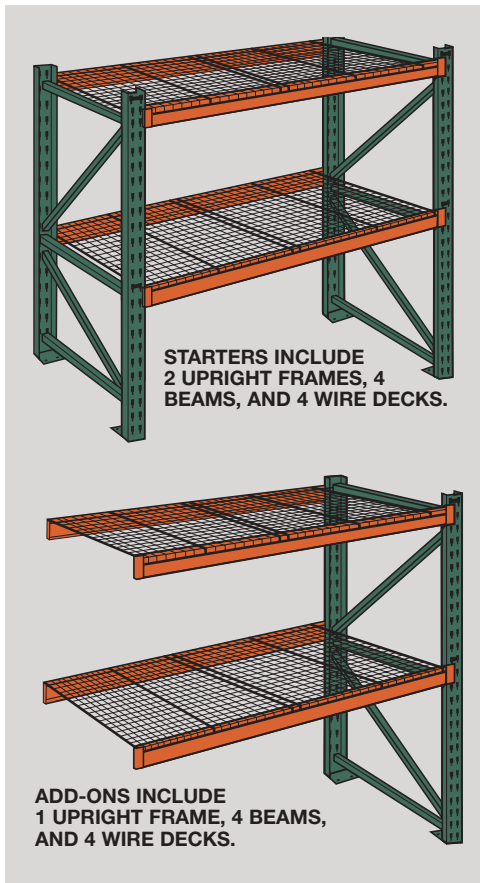

Example: load height 42" + pallet height 6" = 48" overall height. Overall load: 42"W x 48"D x 48"H.

## Accessory & Component Guide

- 1. UPRIGHT FRAME:** Vertical structural support for racking system.
- 2. BEAM:** Horizontal steel supports that tie upright frames together and hold the load.
- 3. SKID SUPPORT:** Supports items smaller than the unit depth.
- 4. WIRE DECKING:** Turns area between beams into useable shelving space. Mesh promotes air flow and eases inventory checks.

- 5. SPACERS:**
  - ROW:** Connects and spaces two rows of rack back-to-back.
  - WALL:** Connects racks to wall for additional stability.
- 6. SHIM:** Levels upright frames on slopes or uneven surfaces to ensure uniform heights.
- 7. UPRIGHT FRAME PROTECTOR:** Protects upright frames from damaging impact from material handling equipment.

# Pallet Racks

## WIREWAY/HUSKY™ Invincible™ Complete Pallet Racks

- Welded upright frames
- Pre-configured starters and add-ons
- Upright frame capacities from 10,400 to 25,000 lbs.
- Patented Bowlock® safety clip securely attaches beam to upright

Here's a vast selection of in-stock racking ready to ship immediately! Rugged, high-strength steel construction allows 2" beam adjustability. One-piece tubular beams feature a continuous seam weld. A minimum of 2 pairs of beams are required for each storage bay. Safety certified 55,000 lbs. psi minimum yield high-strength steel used throughout. Upright frames include foot plates. Complete starters include 2 upright frames, 4 solid beams, and 4 wire decks. Add-ons include 1 upright frame, 4 solid beams, and 4 wire decks. Heavy-duty foot plates are available for seismic requirements. Polyurethane paint finish on upright frames and beams. Color: orange beams and green upright frames. **IN STOCK.**

# Pallet Racks

**Selected Models**

## PENCO Pallet Racks

- All-welded upright frames
- Upright frame capacities from 18,000 to 30,000 lbs.
- Three-rivet beam connection locks six ways for greater stability
- Beams are available in two step sizes: 7/8" and 1-5/8"

Beams and upright frames let you create various sized 'bays'. Unique beams assure positive beam to post alignment and uniform load distribution. Upright M-recessed frames are made from two vertical posts joined with cleanly welded horizontal and diagonal braces. End posts have support holes punched the entire length for 3" adjustability. Safety load factor is 1.92. **SELECTED MODELS IN STOCK.** Others FOB PENNSYLVANIA.

### UPRIGHT FRAME CAPACITIES

# Pallet Rack

ALL-WELDED CONSTRUCTION

## INTERLAKE InterRack-30™ Pallet Racks

- All-welded
- Upright frame capacities from 21,600 to 35,200 lbs.
- Column-shaped stud and keyhole beam connection increase rigidity
- Piston (pull-pin) lock for secure beam attachment

One of the strongest and most flexible racking systems on the market today. Innovative beam features a patented stud and keyhole that increase rigidity and reduce stress at the connection. Choose either U-punch or teardrop keyhole beam connection. Upright frames feature a combination of narrow keyholes (punched every 2") and offset rectangular holes allowing beam to seat automatically into column, locking securely in place. High-strength steel columns have 55,000 psi min. yield strength. All-welded construction. Welds are made to AWS standards to ensure strength and long product life. Hardbaked enamel finish is corrosion and scratch resistant and meets or exceeds all environmental regulations. FOB ILLINOIS, SOUTH CAROLINA.

## STEEL & WIRE DECKING REFERENCE GUIDE

CAPACITY OF DECKING IS NEVER GREATER THAN BEAM CAPACITY. HOW TO FIGURE THE NUMBER OF DECKS NEEDED FOR MOST BEAM LENGTHS:

Beam L	Use
4' (48")	One 46"
5' (60")	One 58"
8' (96")	Two 46"
9' (108")	Two 52"
10' (120")	Two 34" & One 46"
12' (144")	Three 46"

WIRE DECKING WILL ONLY WORK ON 36", 42", OR 48" PALLET RACK WITH 1-1/2" TO 1-5/8" STEP BEAMS WITH A MINIMUM 3/4" WIDE LEDGE.

MIN. 3/4" STEP DEPTH

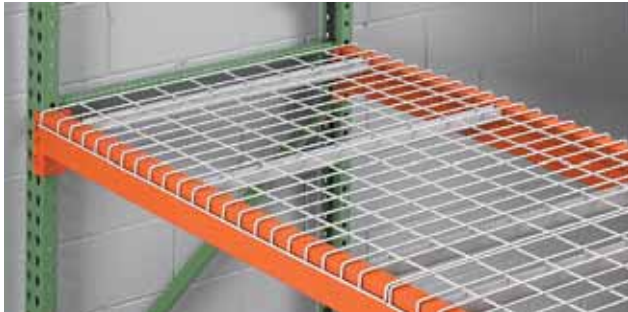

BEAM PROFILE

BEAM TOP SURFACE (A) MUST BE BETWEEN 1-5/8" AND 1-7/8" WIDE.

DEPTH

WIDTH

## NASHVILLE WIRE Painted Steel Wire Decking

- 2x4" steel mesh
- Instant storage—simply drop decking in place over rack beams. 1-1/2" x 1-1/8", 12-gauge channel. Gray polyester paint finish. Custom sizes available. **SPECIFY MANUFACTURER NAME AND STEP HEIGHT BEAM. FACTORY QUICK SHIP—FOB TENNESSEE.**

# Pallet Rack Accessories

## WIREWAY/HUSKY™ Steel Pallet Rack Guards

- 10-gauge, 1/2" diamond steel wire mesh
- Attaches with spacer slips or flush-mount clip

Keep stored items from falling off shelves. Heavy-duty mesh is welded to steel 1-1/4" x 1-1/4" x 1/8" angle frame to enclose back of pallet racking while still providing clear visibility of inventory. One panel is required for each bay. Spacer clips are sold separately. Color: safety yellow. FOB NORTH CAROLINA.

## QuikPik® Gravity Flow Pallet Rack Levels

- Inverted channel adjusts every 1/2"
- Shelf capacity: 25 lbs. per square foot

QuikPik® shelves convert your pallet racks to carton flow racks. RollaTrak with guide rails conveys packages in separate lanes. Inverted channel locks firmly in place without tools. Patented clip attaches to all pallet racking with round or square side post holes that are 7/16" or larger and 2" center-to-center. Comes complete with 16 RollaTrak pieces and 7 guide rails per shelf level (uprights and beams not included). FOB KENTUCKY.

# Cantilever Rack Selection Guide

Cantilever racks are ideal for storing long, rigid materials such as lumber, pipe, and bar stock. The racks can be front-loaded by hand or with a fork truck or can be used as side pick racks in space-conscious areas. This guide will help you through the ordering process by providing basic information needed to select cantilever rack.

## HOW TO ORDER

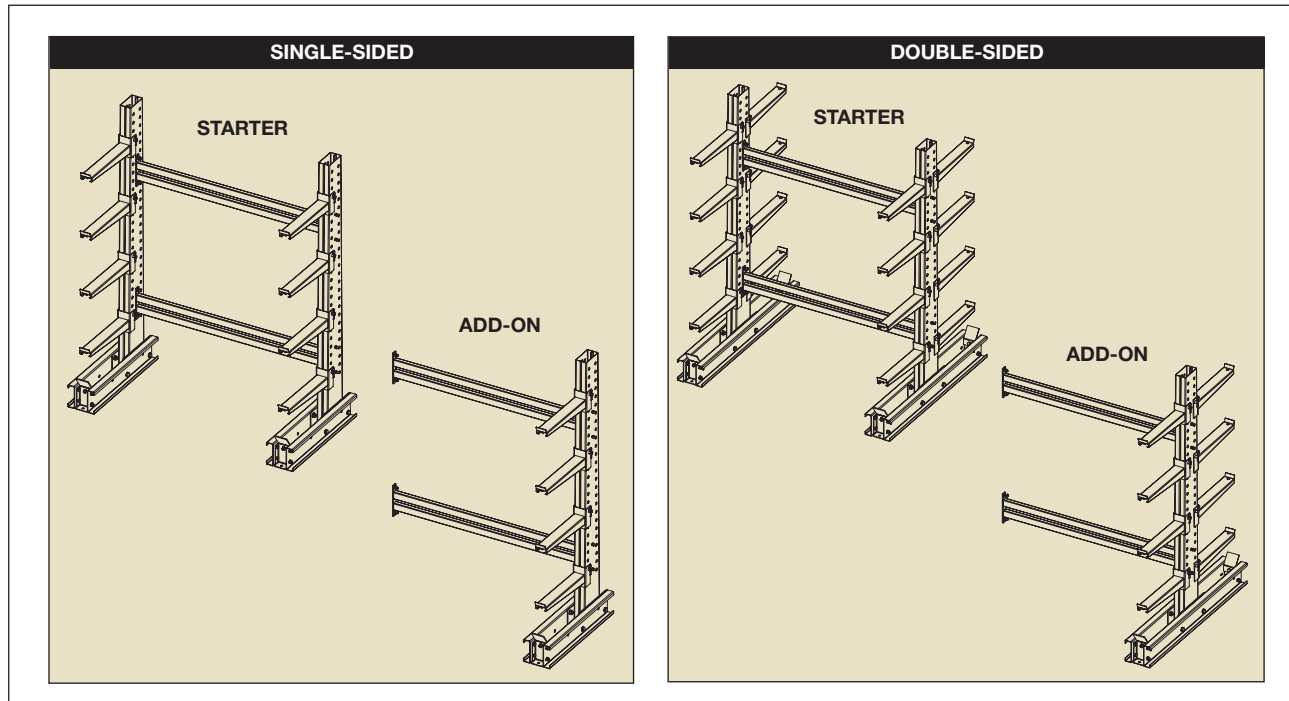

**A CANTILEVER RACK IS CONFIGURED PER BAY AND CONSISTS OF THREE GENERAL COMPONENTS: ARMS, COLUMNS, AND BRACE SETS.**

- 1. Determine storage needs** by taking into account the length, depth, height and weight of the product being stored.
- 2. Arms:** Choose arm style and length, along with the capacity needed to support the load. Two arms (one on each side) create a "level". Divide the weight of the load per level by two (for one bay) to give the individual arm capacity needed. (This assumes that the load is supported sufficiently by two arms to prevent load deflection).
- 3. Columns:** Determine the number of arms needed per column side and vertical space required. Adding up all of the individual arm capacities and vertical space required will determine the height and combined weight capacity needed for the two columns.
- 4. Brace:** Determine brace set width. Take into account the length of the pieces planned to be stored. Brace set widths will provide center-to-center measurements of the arms installed on columns. One brace set per bay is required.

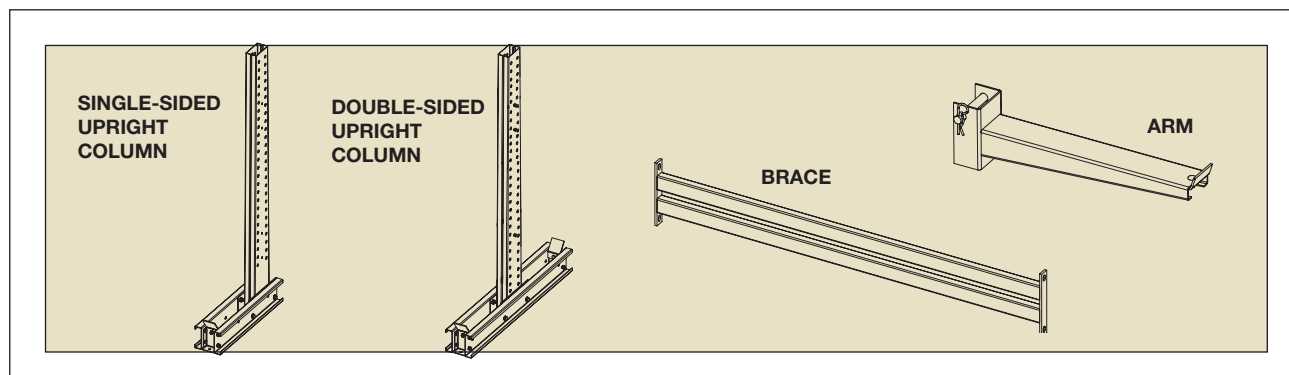

### EXAMPLE:

- 1. Product to store:** Pipes bundled at 8' long, 10" deep, weighing 2,000 lbs.
- 2. Arm choice:** 12"L, straight, with lip. Load weight is 2,000 lbs. Divide weight by two (one level) to obtain 1,000 lbs. per arm requirement.
- 3. Column choice:** Assuming four levels of load are required, then eight arms would be needed with vertical spacing of 18" apart. Eight arms x 1,000 lbs. capacity per arm = 8,000 lbs. Combined required column capacity (4,000 lbs. per column, single sided) at 8' high would be needed.
- 4. Brace:** 8'L load with two-arm (one bay) support would require a 4' wide brace set.

# Heavy-Industrial Grade Cantilever Racks

SHOWN WITH ONE DOUBLE-SIDED COLUMN AND ONE ADD-ON.

SHOWN WITH TWO SINGLE-ARM COLUMNS.  
THE ONLY MANUFACTURER WITH DOUBLE-TUBE BRACING FOR GREATER STABILITY.

RUGGED ARM CONSTRUCTION. RIGID COLUMNS ARE CONNECTED TO HEAVY ARM SADDLES FOR EFFICIENT LOAD SUPPORT.

SECURE PIN LOCK FOR ARMS AND BRACES. IS EASILY INSERTED OR REMOVED TO INSTANTLY ADJUST ARMS. PIN WILL NOT WORK LOOSE WHEN IT IS SECURED.

## JARKE® Steeltree® Heavy-Industrial Grade Cantilever Racks

- Single-sided column capacity: up to 16,000 lbs.
- Double-sided column capacity: up to 32,000 lbs.
- Arm capacity: up to 2,000 lbs.
- 8', 10', and 12' heights

Tapered columns have patented internal stiffeners. 10-gauge steel columns. Arms adjust on 3" centers. **SELECTED MODELS IN STOCK.** Others FOB ILLINOIS.

## All-Welded Steel Bins & Boxes

Combine any of these bins, boxes and racks to create a customized storage system. Heavy-gauge, all-welded steel construction withstands hard use. Stores assembly or in-process materials. Order steel boxes, steel bins and 12" double width base separately below. FOB RHODE ISLAND.

**STACKBINS®.** One-piece steel construction features sturdy stacking rim. Stacking capacity is 4,000 lbs. Large hopper front permits easy access to contents. **SPECIFY COLOR:** BE - Beige, BL - Blue, GN - Green, GY - Gray.

**STACKRACKS®.** Individual racks easily interstack to form any height or width racking system. Each rack is designed to house a corresponding bin or box. Rack weight capacity is 6,000 lbs. without deflection. Easy assembly. Sold individually.

**ADAPTOR COVER.** Used to adjust for the difference in depth between a larger and smaller Stackrack®.

# Bin Shelving

## Poly Bin Shelving

Add efficiency to your storage areas with these high quality, low cost bin systems. Racks are 36" wide with (10) or (13) shelves that are adjustable on 1" centers. Constructed of 16-gauge steel uprights and side braces, with 13-gauge steel back braces. Polypropylene bins have front label slots, finger grip, and reinforced ribs to prevent spreading. Bins are resistant to chemicals and oils, and will not rust or corrode.

Units are 75" high with 400-lb. shelf capacity. **SPECIFY BIN COLOR FOR 10-SHELF UNITS:** BL - Blue, GN - Green, RD - Red, YL - Yellow. **SPECIFY BIN COLOR FOR 13-SHELF UNITS:** BL - Blue, YL - Yellow. **IN STOCK.**

# Storage Cabinets

## Cabinet Selection Guide

With so many cabinet choices, it can be a challenge to pick the best manufacturer, style, size and color that best fits your needs. This guide will help you through the process by providing you with the basic information needed to select a cabinet, including details on construction, shelf capacities, and locking systems.

### CABINET STYLE GUIDE

**Ultra-Capacity:** 1,000+ lbs. capacity per shelf. Cabinets are constructed of the thickest (12–16 gauge) steel and are well-suited for the most demanding applications.

#### GAUGE RANGE

**Heavy-Industrial:** 400–999 lbs. capacity per shelf. Cabinets are constructed with thick (14–20 gauge) steel and are designed for long-term use in harsh environments.

#### GAUGE RANGE

**Standard-Industrial:** 200–399 lbs. capacity per shelf. Cabinets are constructed with lighter (16–22 gauge) steel for moderately harsh work environments.

#### GAUGE RANGE

**Light-Industrial:** 125–199 lbs. capacity per shelf. Cabinets are constructed with the lightest (20–24 gauge) steel and are for use in non-abusive environments or for office storage.

#### GAUGE RANGE

### GLOSSARY OF TERMS

**Shelf Capacity:** Rated by manufacturer, this is the maximum evenly distributed weight a shelf can safely hold.

**Gauge of Steel:** Each gauge number relates to a standard minimum thickness. As the gauge number goes down, the steel becomes thicker. Example: 18 gauge is at minimum 0.428" thick (43 mils); 12 gauge is at minimum .0966" thick (97 mils).

**Shelf Openings:** The number of openings between shelves, including the space at the bottom of the cabinet.

**Single-Point Lock:** Secures the door at the center point only.

**Two-Point Lock:** Secures the doors at the top and bottom of the cabinet.

**Three-Point Lock:** Secures the doors at the top, center, and bottom of the cabinet.

**Piano Hinge:** The door hinge runs continuously from the top to the bottom providing more security and strength.

**Leaf Hinge:** A standard door hinge consisting of two leaves that are joined together by a pin or metal rod.

### ASSEMBLY

**Unassembled:** Assembly is required. Hardware is provided by the manufacturer. Unassembled cabinets may cost less and are less expensive to ship.

**Set-Up:** The cabinet is either bolted or riveted together at the factory. No assembly is required.

**All-Welded:** The cabinet is put together using various welding techniques. No assembly is required.

### GAUGE RANGE Details above.

### ULTRA-CAPACITY GRADE

**3-POINT LOCKING MECHANISM WITH MALLEABLE CAST IRON ZINC PLATED HANDLE.**

**DOORS OPEN 180° ON WELDED LEAF HINGES WITH BRASS PINS.**

## EDSAL Vault Cabinets

# Lockers

## Locker Selection Guide

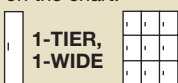

Lockers come in a variety of styles and sizes, ranging from a single box locker cube to a larger gear locker. This guide will provide the basic information to help identify the different parts of a locker and detail to consider when searching through the section. For further assistance please call.

### SELECTING A LOCKER

- 1. HOW MANY LOCKER OPENINGS ARE REQUIRED.** Determine the number of people that need a locker. Single- and three-wide models are available. Some manufacturers offer a starter and add-on style of locker. Also, consider the amount of space available for installation.
- 2. LOCKER OPENING SIZE NEEDED.** Consider what will be stored in the lockers. 1-tier through 6-tier offer a variety of overall opening dimensions for storage space. A 1-tier locker may be used for full-length uniforms and coats; a 6-tier may be used to secure purses and lunch boxes.
- 3. STYLE OF LOCKER.** Once the size needed is determined, other factors may influence your decision. Do the lockers need to be ventilated for visibility or air circulation? (Ventilated Lockers) Is corrosion-resistance needed? (Plastic or Galvanized lockers) Various handles are available in some styles, most offer the ability to use your own padlock, but a mounted combination lock, or keyed lock may be preferred.
- 4. INSTALLATION.** Lockers are available as unassembled, set-up and all-welded. Time and ease of installation may determine what is best for you.

**HELPFUL ICONS IN THE LOCKER SECTION:** Each page offers different manufacturers and styles of lockers. Icons and information boxes will be on most pages to help as a quick identifier on what you are looking for, along with other details about the lockers.

**EXAMPLE:** Offers a quick reference to locker details on the chart.

1-TIER,  
1-WIDE

3-TIER,  
3-WIDE

**EXAMPLE:** Details number plate information.

### A. VARIOUS HANDLE/LOCK TYPES

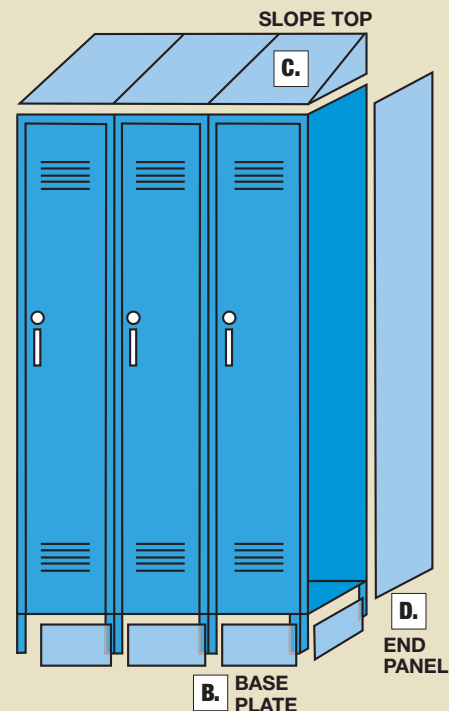

**PADLOCK HASP/PULL WITH PADLOCK.**

**RECESSED HANDLE WITH MOUNTED COMBINATION LOCK.**

**PADLOCK HASP/PULL WITH KEYED LOCK.**

**A.** Insets will show the **types of handles** available and reference where locks can be found.

**B.** Accessories available can be quickly located, such as: **Base Plates**—for enclosing the opening between legs of lockers. Various pages list, if not noted call for details.

**C.** **Slope Tops**—for keeping items off tops of lockers. Various pages list, if not noted, call for details.

**D.** **End Panels**—some styles require end panels to finish off sections of lockers, will be noted on pages.

SHOWN WITH DECORATIVE END PANELS.

XV-012BL

Unmatched in the industry for durability, ease of use, and safety. Heavy-gauge, welded 28-1/4"W x 28-1/2"D cabinets have fork truck base that lets them stack up to 5 high or units can be bolted side-by-side to create a storage system. All drawers have 4 slotted sidewalls and perforated grids at the bottom for positioning flexibility. Drawer walls are the same height all around for complete filling and space utilization. 24" x 24" interior dimension. Each drawer supports 440 lbs. and includes full-width drawer pulls with label holders and end caps. Drawers extend fully on smooth-operating precision ball bearings. Automatic locking system permits only one drawer to be open at a time. Wear-resistant baked-on enamel finish. **SPECIFY COLOR: BB - Bright Blue, BE - Beige, BL - Classic Blue, GR - Pearl (Light) Gray, GY - Gray. SELECTED MODELS IN BL - CLASSIC BLUE AND GR - PEARL GRAY ARE IN STOCK.** Others FOB MASSACHUSETTS.

## BUILT-RITE 3,000-Lb. Capacity Shop Stands

Durable, sturdy stands give you extra work space in your production area or shop. 1-1/2" square tube frame supports either a 1-3/4" thick Shop Mate® or 1-5/8" thick white leather-texture plastic laminate top. Both have smooth edges to seal out moisture and prevent warpage. Support 3,000-lb. evenly distributed loads. Flat feet can be bolted to the floor for extra stability. Other sizes available, call for information. Ships fully assembled. **SPECIFY FRAME COLOR: BE - Beige, BL - Blue, BK - Black, GY - Gray. FACTORY QUICK SHIP—** FOB WISCONSIN.

# Stools

## Sit/Stand Stool

Reduces worker fatigue where permanent seating isn't practical. Tilt adjustment mechanism allows user to adjust seat for maximum comfort. 13"W x 13"D soft form-molded poly seat. Adjusts with gas lift, 23" to 33"H. Ships unassembled via small package carrier. **IN STOCK.**

Model No. **YA-1310**—Wt. 19 lbs. ....\$171.00

## Polyurethane Ergonomic Stools

Comfortable, supportive seat and back are made of improved extra soft form-molded polyurethane backed by a sturdy steel understructure. High impact, molded plastic 27" dia. 5-star base adds stability. Seat height adjusts pneumatically 22" – 32". 20" dia. pre-assembled footring, backrest depth, and backrest height adjust manually for maximum comfort. 18"W x 17"D seat, 17"W x 12"D backrest. Lifetime guarantee on pneumatic cylinders. Ships via small package carrier. **SPECIFY: A** - Floor pods, **B** - Hard floor casters, **C** - Carpet casters. **IN STOCK.**

Model No. **YA-1562**—Wt. 33 lbs. ...\$231.00

### CONTINUOUS-USE STOOL.

Heavy-duty mechanism with additional seat and angle adjustments. Recommended for 24-hour continuous use with 15-yr. guarantee.

Model No. **YA-1563**—Wt. 33 lbs. ....\$296.00

### OPTIONAL ARMS. Adjust vertically and horizontally.

Model No. **YA-1564**—Sold in pairs. Wt. 7 lbs. ....\$36.70

## STAPLETON® Crawler Mechanic's Roller Seat

Practical stool allows you to comfortably reach low repair jobs. Features include: 14"W x 8"D x 2"H padded seat, 15-3/4" x 14" tool and parts tray, powder coated steel frame and (4) 2-1/2" casters. **IN STOCK.**

Model No. **YA-1300**—Wt. 15 lbs. ....\$51.00

## BEVCO® Shop Stools

Machine shops, warehouses, and industrial work areas are just a few of the places you'll find this stool. Convenient tray keeps tools and supplies close at hand. 15" dia. polyurethane seat adjusts pneumatically from 15" to 20"H. Five-legged base features locking 3" polyurethane casters. 12-year guarantee (lifetime on cylinder). **IN STOCK.**

Model No. **XF-2240**—Wt. 19 lbs. ....\$179.00

### UTILITY STOOL

Assembly lines, drafting tables, and workbenches are just a few of the places you'll find this industrial-quality stool. Pneumatic adjustment raises the 15" dia. polyurethane seat from 15-3/4" to 20-3/4"H. Stool is supported by a five-star reinforced plastic base with dual wheel hard floor casters. 12-year guarantee (lifetime on cylinder). **IN STOCK.**

Model No. **YD-1124**—Wt. 15 lbs. ....\$121.00

YC-2204BU

## BREWER Vinyl Stools

Vinyl seat is 3-1/2" thick. Polished aluminum base. Stools have 18" dia. footring. Pneumatic seat height adjustment. Meets or exceeds ANSI/BIFMA standards, up to 250 lbs. capacity. Lifetime warranty on cylinder. **SPECIFY COLOR: BK** - Black, **BL** - Blue, **BU** - Burgundy, **GY** - Gray, **YL** - Yellow. FOB WISCONSIN.

YG-4701	36" x 72"	16-1/2	34.80

# Workbenches

Designed for heavy-duty applications because their rugged construction will stand up to tough use. Constructed of double-braced, heavy gauge steel for extra rigidity and support. 14-gauge double braced legs with leveling feet stabilize bench on uneven surfaces. Legs adjust from 30–34" in 1" increments to accommodate sitting or standing operations. Deluxe bench includes: rugged, stacking drawer, lower shelf, riser, back and end stops, and stringers. All benches are painted blue. Benches ship knocked down to save freight. **SPECIFY TOP: A - Hardwood, B - Maple, C - Shop-Mate, D - Duratop II, E - Plastic. IN STOCK.**

**STANDARD BENCH**

**COMBINE COMPONENTS TO CREATE A CUSTOM BENCH.**

**DELUXE BENCH**

**CHOOSE ONE OF THESE FIVE, 1-3/4" THICK SOLID TOPS.**

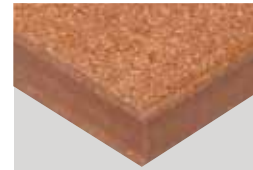

**HARDWOOD.** Natural Appalachian red oak with "Varnique" semi-gloss finish. Bull-nose front edge.

**MAPLE.** Virtually indestructible. Laminated throughout, warp-resistant and electronically thermobonded. "Varnique" wear-resistant finish.

**SHOP-MATE.** High strength lumber core with super hard, phenolic resincore surface. Continuous edges resist warping and moisture.

**DURATOP® II.** High strength MDF core with sealed hardwood bands. Phenolic resincore surface.

**PLASTIC.** White leather-textured .050" pressure laminated-plastic face on 3/16" hardboard with selected, edge-glued lumber core.

# Bench System Tops

**1-3/4" MAPLE TOPS.** Edge-grained laminated butcher block top is virtually indestructible. Warp-resistant materials are laminated throughout and electronically thermobonded. Non-toxic Varnique wear-resistant finish repels liquids.

**2-1/4" MAPLE TOPS.** Same durable construction as other 1-3/4" maple top but thicker for maximum strength and long life. Laminated clear through, warp-resistant and electronically thermobonded.

**SHOP-MATE TOPS.** Smooth surface offers strength and durability. 3/8" thick, 62-lb. density phenolic resincore surface with a compressed wood core. Resists moisture and warpage. 1-3/4" top has a high strength lumber core over sealed hardwood bands. 2-1/4" top features an edge-glued lumber core with clear bands.

**DYNA-TOP® TOPS.** Resists impact and wears well. Features an edge-glued lumber core sandwiched between 3/8", 60-lb. phenolic resincore board. Beveled front edge. Entire top is finished and vinyl sealed to resist conventional liquids. Urea-formaldehyde free.

ALL BENCH TOPS ARE IN STOCK

**1-1/2" BUTCHER BLOCK MAPLE TOPS.** Completely sealed surface features a special combination of pure mineral oil, raw linseed oil, and melted paraffin. Periodic applications of penetrating oil will help preserve top's original composition. Virtually indestructible, warp-resistant and laminated throughout.

**1-3/4" BUTCHER BLOCK OAK HARDWOOD TOPS.** Tough, durable Appalachian red oak tops feature a Varnique semi-gloss finish. Bull-nose rounded comfort edge.

**1-3/4" BUTCHER BLOCK BIRCH TOPS.** An economical alternative to maple. Kiln dried wood fibers are protected with penetrating oil while internal butt joints and full-length exterior rails enhance top's tough, wear-resistant construction. Periodic applications of NSF-approved oil (listed below) help preserve composition.

**1-3/4" DURATOP® II TOPS.** Comfort edge on both top and bottom increase safety. 3/8" thick 62-lb. density phenolic resincore top and bottom are coated with a catalyzed finish to resist conventional liquids. MDF core offers extra strength. 1-1/4" thick top has 1/2" thick core; 1-3/4" thick top has a 1" thick core.

 Model No. **XB-1819**—Penetrating Oil. All ingredients meet NSF formulation review for use on food preparation surfaces. Specially designed for 1-1/2" butcher block maple and 1-3/4" butcher block birch oil finished tops. ....\$6.20

# Bench System Tops

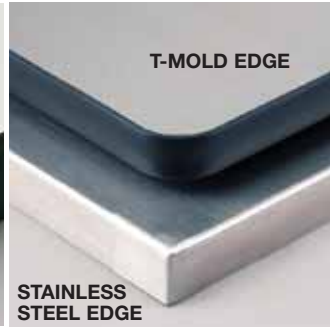

**1-1/4" PLASTIC LAMINATE TOP.**  
Now you can have a tough, stable work surface at an economical price. High-pressure laminate top and sides are supported by a phenolic backer sheet. 1-1/8" thick core is constructed of 45-lb. density particleboard.

**1-3/4" PARTICLEBOARD CORE PLASTIC LAMINATE TOPS**  
Ideal work surface for delicate precision jobs. Core is constructed of two 7/8" thick pieces of industrial-grade 45-lb. density particleboard. Self-edged high-pressure plastic laminate top and sides are balanced by a Resobak backer sheet.

**1-5/8" ARMOR EDGE TOP.**  
Resists moisture and rough treatment. High pressure plastic laminate top covers the 45-lb. density particleboard core. "Armor Edge" surrounds entire top perimeter.

**TYPE 304 STAINLESS STEEL TOPS**  
Choose either 1-1/4" thick top with industrial strength particle board core topped by 16-ga. Type 304 stainless steel with #4 finish and hard rubber T-mold edge and backer sheet; or 1-1/2" thick top with 1-7/16" thick MDF core topped by 16-ga. Type 304 stainless steel with #3 finish and welded, polished smooth stainless steel edge and melamine backer sheet.

\*96" tops require 3 legs and 2 stringers.

ALL BENCH TOPS ARE **IN STOCK**

**1-3/4" LUMBER CORE PLASTIC LAMINATE TOP.**  
Dependable, stable work surface for use where cleanliness is a must. Layered 1-3/4" thick core features high-strength lumber sandwiched between two 3/8" thick particleboard sheets. Plastic laminate face on top and edges with backer sheet on bottom. Square edge or 180° comfort edge. White leather finish.

**1-1/4" & 1-3/4" ESD TOPS**  
Prevents static electricity from damaging delicate components. Industrial-grade 45-lb. density particleboard core is surrounded by static-dissipating laminate face and self-edged sides. Choose one of two sizes: square 1-1/4" thick top with 1-1/8" thick core and phenolic backer sheet or "comfort" edged 1-3/4" thick top with two-piece 7/8" thick core and Resobak backer sheet.

**1-1/2" PLASTIC LAMINATE HARDWOOD EDGE TOPS**  
Hardwood beveled front edge gives this top a distinctive flair. High-pressure plastic laminate top and Resobak backer sheet surround the two 3/4" thick pieces of industrial-grade 45-lb. density particleboard.

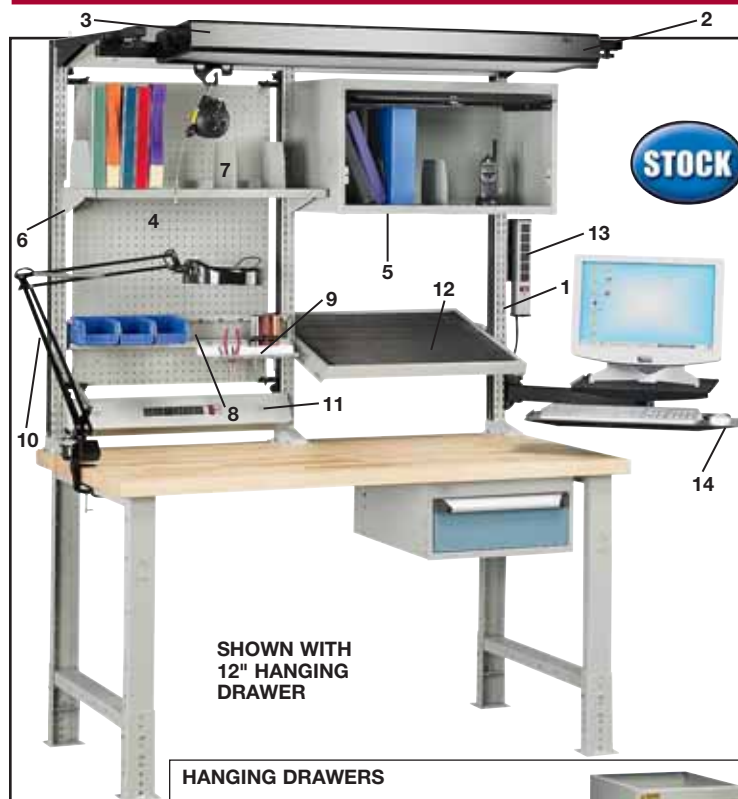

**1-3/4" PLASTIC LAMINATE T-MOLD EDGE TOPS**  
Designed for strength and stability. High-pressure gray plastic laminate top and phenolic backer sheet surround the two 3/4" thick pieces of industrial-grade particleboard. Black vinyl T-mold edging with radius corners.

# Workstations

## PRO-LINE Workstations

Perfect for labs or clean rooms, versatile workstations provide the rugged strength for demanding jobs, the ergonomics for comfortable working positions, and the aesthetics for a more pleasant environment – all at an affordable price! Whatever your job, you'll appreciate the high-quality features incorporated in these workstations. Top-grade construction, for instance, includes 16-ga., 2" sq. tubular legs that provide no-wobble stability and plastic laminated tops with T-mold edging to eliminate sharp corners. Benches are 30"H. Choose from a variety of options including modular drawers with laminated faces for a high-tech look. Ships unassembled. **SPECIFY STEEL FRAME COLOR: BE - Light beige, BL - Sky Blue, GY - Gray. FACTORY QUICK SHIP – FOB MASSACHUSETTS.**

### A. HD WORKSTATIONS

Incorporate modular design, strength, and aesthetics into a basic workstation with every accessory available. Independent four-leg design for maximum stability with plenty of leg room. Workstation surface adjusts from 30–36"H.

### B. CHD WORKSTATIONS WITH RECESSED LEGS

For those who want the versatility of an independent workstation, but also need the front legs recessed for additional leg clearance. Comes standard with modesty panel.

### C. ERGO-LINE WORKSTATIONS

Repetitive motion injuries can be greatly reduced and productivity increased by using this ergonomically designed workstation. Ergo-Line allows operators of all sizes to change their work surface height with an easy-to-use, hand-operated crank. Adjusts height from 30–42"

**WORKSTATIONS.** Available set-up on request.

## PRO-LINE Packing Benches

Sturdy packing benches store everything you need to complete mail room tasks. Choose either the fully accessorized complete bench or add accessories to the basic bench that includes top, adjustable legs and rear support. Both benches include 30" deep worksurfaces and strong 16-ga. square tubular legs with extenders that raise or lower tops from 30-36" in 1" increments. Choose either: plastic laminate top with T-mold edging or sturdy, hardwood maple top. Light bulbs and paper roll not included. Color: gray. **FACTORY QUICK SHIP—FOB MASSACHUSETTS.**

## Plastic Stretch Wrap

Superior stretchability secures and protects any size or shape pallet load. Clings to itself, eliminating the need for tapes, heat or ties. Puncture- and tear-resistant blown wrap stretches tightly to prevent load shifting. Performs well in deep freezers and is stiffer than cast film. Features exceptional long-term holding power and is ideal for irregular-shaped loads. Available in your choice of 80- or 90-gauge low-density wrap.

Order in quantities of 4, priced each. **IN STOCK.**

Model No.	Roll W x L	Gauge	Price Per Roll
<a href="#">XP-0203</a>	12" x 1,500'	80	<b>\$17.50</b>
<a href="#">XP-0205</a>	18" x 1,500'	80	<b>25.90</b>

<a href="#">XP-0208</a>	18" x 1,500'	90	<b>29.90</b>

## GOODWRAPPER® Extended Core Stretch Wrap

The fingertip control and flexible hand brakes in Goodwrapper's unique disposable handle make tighter and neater pallets in less time. The stretch wrap is tear- and puncture-resistant. During the manufacturing of blown stretch wrap, special additives are included that give wrap its exceptional cling. Keeps on working through temperature changes from -20° to 120° F.

Order 80-gauge for standard loads and 70-gauge for lighter tasks. Order in quantities of 4. **IN STOCK.**

# HERCULES® Vertical Baler

**NOTE: AN ELECTRICIAN WILL NEED TO HAVE ELECTRIC SERVICE PREPARED FOR THE BALER UPON DELIVERY. ELECTRICAL REQUIREMENTS—3-PHASE SERVICE. PLEASE LET US KNOW THE INPUT VOLTAGE AVAILABLE IN YOUR BUILDING.**

**THESE UNITS CAN BALE:  
STRETCH WRAP  
CARDBOARD  
CANS  
TRASH**  
NOTE: TO PROPERLY RECYCLE, EACH BALE MUST BE SAME MATERIAL.

**FREIGHT CHARGE WILL INCLUDE DELIVERY, INSTALLATION AND SAFE OPERATION TRAINING WITH NEEDED PERSONNEL.**

**EASILY REDUCE FACTORY WASTE INTO ORGANIZED BALES.**

**SELL BALED CARDBOARD PRODUCT AND CREATE A NEW CONTINUAL REVENUE STREAM! THERE ARE SEVERAL COMPANIES THAT WILL PAY FOR THE BALED CARDBOARD. PLEASE CONTACT US TO HELP LOCATE ONE THAT WILL SERVE YOUR NEEDS.**

- 73,502 lbs. of crushing force
- 30" x 48" x 60" bale
- 2,600-psi hydraulic system
- 15 hp, 208/230/460V, 3ph motor

Empty your dumpster less and save money! Environmentally friendly vertical balers can produce dense bales up to 1,100 lbs. Easy-to-operate—after waste is loaded into baler, a down stroke ram is activated which holds the waste in place until a light alerts you that there is enough to make a bale. After the bale has been tied, a door opens and ejects the bale onto a pallet for storage until pick-up. 78"W x 143"H overall. 48-second cycle time. Meets or exceeds all ANSI Z245.5 standards for bailing equipment. Two-year warranty on parts and labor plus a 5-year warranty on structure. FOB ALABAMA.

Model No. **WR-3750** — Wt. 5,000 lbs. .... **\$12,030.00**

## Notrax® Stages™ Entrance Matting

This proven floor system puts an end to messy, wet floors that can be hazardous to your patrons. **SPECIFY COLOR:** BK - Black, BL - Blue, BR - Brown, BU - Burgundy, GY - Gray. **FACTORY QUICK SHIP—FOB ILLINOIS.**

### PRELUDE SCRAPE CLEAN™

- Place outside entrances or office and warehouse passageways
- Non-absorbent polypropylene ribbon construction
- 1/4" thick

Offers vigorous scraping action; holds dirt below surface. Yarn fibers won't stain, fade and are easy to clean. Vinyl back.

### ENCORE SCRAPE AND DRY™

- For use inside entrances or passageways with medium traffic
- Nylon and ribbon polypropylene construction
- 5/16" thick

Loop-twist polypropylene ribbon is alternated in rows with loop pile nylon yarn to provide excellent scraping action and moisture absorption. Backed by 80 mil solid vinyl.

### OVATION PREMIUM NYLON™

- Place indoors in areas with medium traffic or heavy moisture
- Nylon construction
- 5/16" thick

Dense loop pile surface outperforms olefin and polyester yarns. Vinyl backing.

## WaterHog™ Waffle Design Mats

- Place inside entrances with heavy traffic
- Polypropylene construction
- 1/4" thick

Each mat is surrounded by a water dam that prevents water from spreading to floors.

Non-slip surface features a grid-patterned pile molded onto rubber nubs to prevent crushing. Non-skid, rubber backing will not crack in extreme temperatures. Stays in place on most carpet types and on all hard surfaces. During snowfall, ice melt may be used on mat surface. **SPECIFY COLOR:**

# Files & Bookcases

## KI Lateral File Cabinets

These files feature clean, smooth lines and a contemporary look. 18"D files include 11"H drawers with hanging folder bars that accept both letter or legal size files. Drawers extend fully on heavy-duty ball-bearing suspensions while the safety interlock system prevents more than one drawer from opening at a time. Direct drive lock with removable core and tamper-proof security bars along both cabinet sides protect stored contents from theft or damage. Other features include adjustable glides for stability on uneven floors and full-width drawer pulls. Five-high units include a top cabinet with receding door and reinforced fixed shelf to store binders or catalogs. **SELECTED MODELS IN BK - BLACK, GY - MEDIUM GRAY AND ST - STONE ARE FACTORY QUICK SHIP.**
