

# Cisco IP Camera Scripting Application

### **Product Overview**

The Cisco<sup>®</sup> IP Camera Scripting Application allows extreme customization of Cisco Video Surveillance IP Cameras. Operators create custom scripts to automate responses based on specific triggers or events. They can also create scripts to generate customized notifications and automatically execute predefined actions.

Automating camera functions using the Cisco IP Camera Scripting Application greatly improves the efficiency in which the Cisco IP cameras can process and relay mission-critical information to operators.

#### Features and Benefits

The Cisco IP Camera Scripting Application offers benefits such as:

- Improved efficiency: Automate actions to be carried out directly from the camera
- Standards-based language: Write and run scripts using the Lua lightweight programming language
- **Customizable:** Create unique scripts based on specific scenarios and then import or export them based on need

# **Product Support**

Cisco IP Camera Scripting Application supports the following Cisco Video Surveillance IP Cameras (listed by part number):

- CIVS-IPC-2830
- CIVS-IPC-2835
- CIVS-IPC-3421V
- CIVS-IPC-3520
- CIVS-IPC-3530
- CIVS-IPC-3535
- CIVS-IPC-6000P
- CIVS-IPC-6020
- CIVS-IPC-6030
- CIVS-IPC-6400
- CIVS-IPC-6930
- CIVS-IPC-7030

# **Product Specifications**

Table 1 shows the key specifications.

Table 1. Key Specifications of Cisco IP Camera Scripting Application

Item	Specification
Input events	Configurable camera events
Output triggers	Standard camera triggers
Camera alerts	Email, HTTP, and FTP alerts
Configuration	Through IP camera web-based GUI
Supported IP camera software	2.0 or later

## Warranty Information

Find warranty information on Cisco.com at the Product Warranties page.

## Ordering Information

To place an order, use the information in Table 2 when you visit the <u>Cisco Ordering home page</u>. To download software, visit the <u>Cisco Software Center</u>.

Table 2. Ordering Information

Product Name	Part Number
Tier 1 Cisco Application for Cisco IP Cameras	L-FL-C-AP1=

## Cisco Services

Cisco and our certified partners can help you accelerate success and improve the return on your investment in a Cisco Physical Security solution. The Cisco lifecycle approach to services defines the requisite activities at each phase of the solution lifecycle:

- Reduce deployment costs by identifying the features that will best meet your business requirements
- Accelerate migration by assessing the readiness of your network to support the system and by developing a sound design
- Support smooth implementation through effective planning and expert installation, configuration, and integration
- Increase operational efficiency and extend the value of your investment with award-winning technical support
