748XXL Series Genuine Epson® Ink cartridges
*Printer designed for use exclusively
with Epson Ink cartridges*.*

- ¹ Compared with best-selling color lasers priced at \$699 (USD) or less as of June 2015. Calculation based on continuous printing with highest-capacity cartridges. Actual savings will vary based on print task and use conditions.
- ² 748XXL Black cartridge prints about 10,000 ISO pages. 748XXL color cartridges print about 7,000 ISO pages on average. Replacement cartridge yields are based on ISO/IEC 24711 tests in Default Mode printing continuously. Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. All ink colors are used for printing and printer maintenance, and all colors have to be installed for printing. For print quality, part of the ink from the included cartridges is used for printer startup and a variable amount of ink remains in the cartridges after the “replace cartridge” signal. For details, see www.epson.com/inkinfo
- ³ Black and color print speeds are measured in accordance with ISO/IEC 24734. Actual print times will vary based on factors including system configuration, software, and page complexity. For more information, visit www.epson.com/printspeed
