ARUBA'S CLEARPASS + SWITCH PROMO

Resolve your customers colorless ports & dynamic segmentation on their network

Customers that are concerned about the cost of getting to colorless ports and dynamic segmentation on wired networks can affordably combine Aruba Switches and ClearPass Network Access Control for Optimized LAN Security and Network Efficiency. Individually, ClearPass and Aruba switches provide extensive security capabilities. By adding ClearPass to Aruba wired infrastructure, the protection dramatically expands.

ClearPass secure network access control leverages built-in security functions in Aruba switches to provide the visibility, authentication, single point of control and proactive attack response to defend against targeted, highly lethal attacks on your customers network. For a limited time, you can offer Aruba ClearPass for Free when your customer purchases $100,000.00 of Aruba Switches.

CUSTOMER OFFER

- End users that purchase any combination of eligible Aruba switches totaling $100,000.00 net US dollars or more, will receive for free:

    o Qty 1 Aruba ClearPass Virtual Appliance

    o 1 year ClearPass Access per switch, rounded up to the nearest access license band (Number of licenses depends on the type and quantity of switch, see pg 2 for list of eligible SKU's)

- Customer must receive final statement of work (SOW) guidance from an Aruba certified system engineer.
- Customer must purchase implementation service per the SOW (can be partner fulfilled or Aruba fulfilled).
- Offer available from April 8, 2019 through July 31, 2019 and is subject to product availability.

CUSTOMER ELIGIBILITY

- Offer is valid for customers in the US only.
