

Preconfigured Zoom Rooms™ Solutions

Globally available* through leading resellers

In partnership with Zoom and leading technology providers, Maverick AV Solutions announces the general availability of Zoom Rooms Kits through Maverick's global network of reseller partners.

Designed to reinforce the Zoom frictionless meeting experience, these solutions are simple to procure and intuitive to use.

Easy to Deploy

Each preconfigured solution is orderable as a single SKU, with everything you require to get your Zoom Rooms environment up and running in a matter of minutes. The computer, camera, audio conference and controller devices are all included, along with all of the necessary cabling for typical room configurations. A quick-start guide steps you through the setup process. Zoom Rooms Kits are compatible with most brands of flat panel and interactive displays.

Readily Available

Preconfigured solutions are inventoried locally and readily available* to arrive within 3-7 days.

Optimized Zoom Rooms Experience

Close collaboration with Zoom ensures an optimal experience for your Zoom Rooms users. Proven, reliable and globally available components are validated in the specific kit configurations to provide peace of mind that your Zoom Rooms remain trouble free.

Concierge Support

90 days of phone and email support is included at no additional charge. In the event that you have a question or two during the setup process, a Zoom Rooms support technician is standing by 24x7.

Installation & Training Services

Do you require installation assistance or training? Your reseller offers simple, flat-fee services which may be ordered alongside each Zoom Rooms Kit.

Rapid Pilot™ PoC Program

Are you in the process of evaluating the Zoom solution? Receive a no-charge proof-of-concept Kit to facilitate your assessment of the Zoom Rooms experience for up to 30 days. Complete a simple, online request form with your Zoom sales representative or reseller and your Zoom Rooms PoC will arrive in 3-7 days*.

* Upon general availability in October 2018 in limited regions globally.
