REV A 11082021

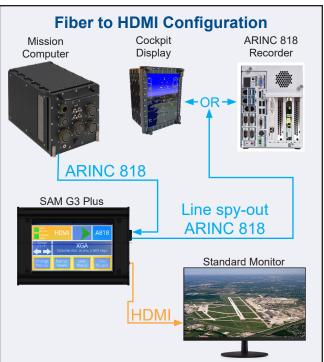

# SAM G3 Plus ARINC 818 Stand Alone Converter Module

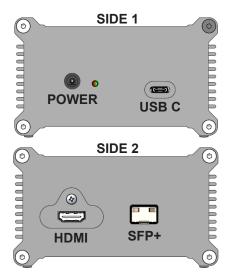

SAM G3 Plus is a portable converter module that converts ARINC 818 to/from HDMI, therefore allowing you to view ARINC 818 video on a standard computer monitor, or transfer live video from a graphics card onto ARINC 818.

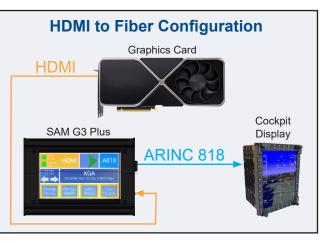

The SAM G3 Plus can support multiple video formats (up to 15, factory configured) that are easily selectable via a touch screen on the unit. Loaded formats can be of different conversion directions (ARINC 818 to/from HDMI) and can be of different ARINC 818 link rates, video resolutions, and pixel types. The SAM G3 Plus supports ARINC 818 link rates up to 10 Gbps.

The intuitive touch screen provides an easy determination of the input video status and allows for basic control of the unit - selecting video formats, turning on an internal test pattern, etc.

# Applications

#### REV A 11082021

## Application Software

The unit is designed to operate stand-alone, with only a power connection; however, it is delivered with Windows application software that can connect to the unit via USB. This application allows for sending and retrieving images to/from the unit, viewing the status of incoming video, and managing video formats stored in the unit.

- · Load test images for transmit on ARINC 818
- Capture, view and save images received on ARINC 818
- · Load and capture ARINC 818 Object 0 data.
- Set default Object 0 Data for stand alone operation

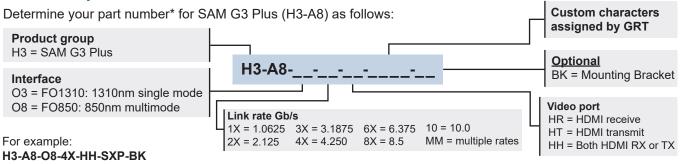

The Application can control multiple SAM G3 Plus units connected via USB

### Specifications

| Power   | Wall adapter (24VDC, 100–250VAC at 50–60Hz) or Compatible with USB Type C 5V/3A (Requires 10 Watts)  |                  |
|---|--|------------------|
| Enclosure                                       | Aluminum housing, (6.3 x 4.5 x 2.5 in.) Brackets (Bracket Optional)  |                  |
| Touch Screen                                    | Color, Capacitive, 2.7x4.2 in. , 480x272 pixels  |                  |
| Operating Temperature                           | 0–50°C (0–131° F)  |                  |
| ARINC 818 Optical                               | Transmit and receive via SFP+ Fiber optic module (LC Type Plug) 850nm MM or 1310nm SM SFP+   |                  |
| ARINC 818 Link Rates (Gbps)                     | 1.0625, 2.125, 3.1875, 4.250, 5.0 , 6.375, 8.5, 10.0   |                  |
| ARINC 818 Pixel types                           | RGB24, RGB565, Monochrome 8 Bit  |                  |
