COVID Update

- **India's Active Caseload declines to 8,26,740; lowest after 71 days**
- **67,208 New Cases reported in the last 24 hours**

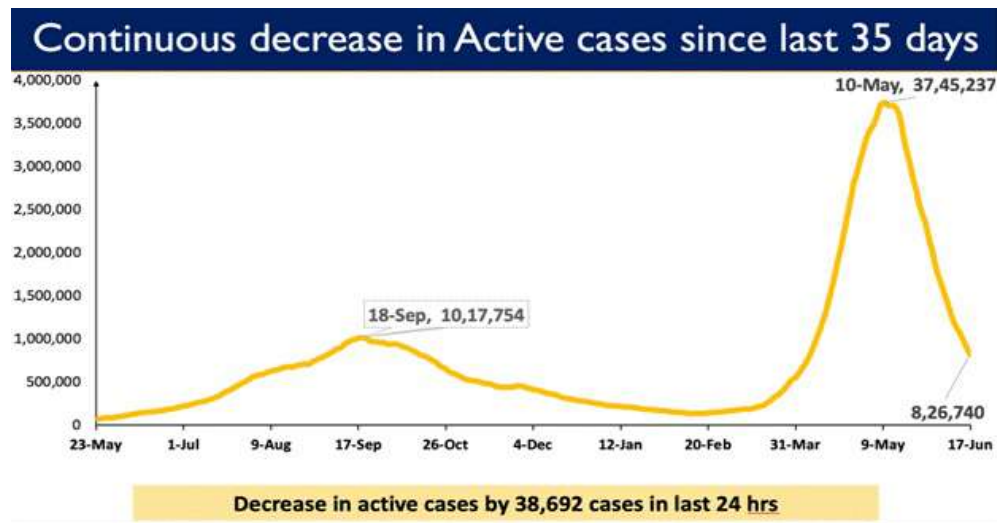

India continues to report a sustained slide in the daily new COVID cases. The country has reported **67,208 Daily New Cases** in the last 24 hours.

Less than 1 lakh Daily New Cases have been reported for **10 continuous days now**. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India has also been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 8,26,740. **This is lowest decline in active cases after 71 days.**

A net decline of **38,692** is witnessed in the last 24 hours and active cases are now only **2.78%** of the country's total Positive Cases.

As more people are getting recovered from COVID-19 infection, India's Daily Recoveries continue to outnumber the Daily New Cases for 35 consecutive days now. **1,03,570** recoveries were registered in the last 24 hours.

Over 36 thousand (**36,362**) more recoveries were reported during the last 24 hours as compared to the daily few cases.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1727799>

COVID-19 Vaccination Update

More than 27.28 crore (27,28,31,900) vaccine doses have been provided to States/UTs so far, through Government of India (free of cost channel) and through direct state procurement category. Of this, the total consumption, including wastages is 25,10,03,417 doses (as per data available at 8 AM today).

More than 2.18 crore (2,18,28,483) COVID Vaccine doses are still available with the States/UTs to be administered. Furthermore, more than 56,70,350 vaccine doses are in the pipeline and will be received by the States/UTs within the next 3 days.

Steps taken by Government to ensure drug availability for treatment of Mucormycosis

- Government continuously engaged with the manufacturers to resolve their issues related to raw materials
- MEA identified new sources of Amphotericin B/ Liposomal Amphotericin B injections and alternative drugs
- Government continues to monitor manufacturing, import, supplies and availability of drugs used for treatment of Mucormycosis.

A sudden increase in the demand has been observed in some States for Amphotericin-B, which is being actively prescribed by the physicians to the patients suffering from Mucormycosis, which has been seen as a post COVID complication. Through active measures to augment production, and import and ensure equitable distribution, Government has been able to mobilise over 6.67 lakh vials of the Amphotericin B for patients in the states and UTs and Central Health Institutes, in addition to other drugs such as Amphotericin Deoxycholate and Posaconazole being used for treatment of this disease.

Pune based start-up all set to bring non-toxic, gentler, long lasting hand sanitiser to the market

An environment friendly hand sanitizer that is gentle on the hands and does not dry them, will soon be available in the market. The alcohol free, aqueous, non-inflammable and non-toxic hand sanitizer has been developed from Silver Nanoparticles by a Pune based start-up.

Recurrent drying up of hands due to repeated application of hand sanitizers is a challenge which people have faced during the COVID 19 pandemic.

Inputs from PIB Field Units

Maharashtra: Brihanmumbai Municipal Corporation has started preparation for a possible third wave of COVID-19. BMC is planning to build 4 more Jumbo COVID centres at Mahalaxmi, Sion, Malad and Bhandup. Maharashtra on Wednesday reported 10,107 fresh coronavirus positive cases and 237 fatalities, taking the count of infections to 59,34,880 and the toll to 1,15,390 while 10,567 patients recovered during the day. With 10,567 people being discharged during the day, the count of recoveries in Maharashtra so far reached 56,79,746, leaving the state with 1,36,661 active cases.

Gujarat: Gujarat's coronavirus tally rose to 8,21,376, after 298 persons tested positive for the infection on Wednesday, while the toll rose to 10,012 with five fatalities. With the addition of 935 patients discharged from hospitals during the day, the count of recoveries reached 8,03,122. The state's recovery rate now stands at 97.78 per cent, leaving the state with 8,242 active cases, of which 209 patients are in a critical condition. Meanwhile, 2,18,062 people were vaccinated against COVID-19 in Gujarat on Wednesday, of which 1,62,941 doses were administered to beneficiaries in the age group of 18-44 years.

Rajasthan: Nine more people died from coronavirus in Rajasthan on Wednesday as 280 fresh cases surfaced, taking the state's infection count to 9,50,413. So far, the infection has claimed 8,865 lives in the state. Of the fresh infections, the maximum 58 were reported from Jaipur while 49 cases surfaced in Alwar. A total of 9,36,586 persons have recovered from the infection and the number of active cases at present is 4,962.

Madhya Pradesh: Madhya Pradesh chief minister Shivraj Singh Chouhan on Wednesday said that he would visit some areas in the state to promote the Covid-19 vaccination campaign on June 21. Chouhan also said that the ministers, MLA, crisis management committees and prominent personalities in the state would also visit different areas for the immunisation campaign.

Madhya Pradesh has been witnessing a continuous fall in Covid 19 caseload. The active cases reduced to 3273. The state reported 160 positive cases and 34 deaths while 463 Covid patients recovered from infection.

Chhattisgarh: Chhattisgarh has started gearing up to handle the possible third wave of Covid-19 and for this, all the government hospitals across the state are being upgraded. The chief minister has directed all

the District Collectors to submit an action plan for upgrading the hospitals and health centres, within 15 days. Chhattisgarh's COVID-19 tally rose to 9,88,745 on Wednesday as 573 more people tested positive for the infection, while 12 fresh fatalities took the toll to 13,354. The number of recoveries reached 9,64,265 after 227 people were discharged from various hospitals, while 925 others completed their home isolation during the day. The number of active cases in the state now stands at 11,126.

Goa: Goa's coronavirus caseload went up by 310 and rose to 1,63,358 on Wednesday, while 428 more patients recovered from the infection, a health department official said. The death toll increased to 2,960 after 13 patients succumbed to the infection in the last 24 hours, he said. The number of recovered cases rose to 1,56,354 as 428 more patients were discharged from hospitals during the day, the official said.

Kerala: More lockdown relaxations have come into effect in Kerala from today, with state opening up partially. A new method for clamping lockdown has come into force depending on TPR under local bodies. Local bodies have been categorised into four - triple lockdown will be enforced if the TPR is above 30 per cent, lockdown if the TPR is between 20 to 30 per cent, partial lockdown if the TPR is between 8 and 20 per cent, and areas can function normally if below 8 per cent. The liquor outlets in the state have started functioning from today. The outlets in the places with low TPR were opened. State Road Transport Corporation resumed its Ordinary services from today. However the weekend total lockdown is to continue. The state confirmed 13,720 Covid-19 cases on Wednesday. As of now, there are 1,09,794 active cases in the state. With 147 more deaths, the toll has risen to 11,655. TPR now stands at 11.79 %. A total of 1,18,33,704 people have so far been vaccinated in the state. Out of this, 94,54,803 took first dose and 23,78,901 took second dose.

Tamil Nadu: TN recorded a further dip in its daily Covid-19 case count, as 10,448 more people tested positive for the infection on Wednesday along with 270 deaths. In a positive development to the measures taken to control Covid cases in the state, the active cases in Chennai have now come down to a mere 1 %. An Asiatic lion died of SARS Cov-2 infection at the Arignar Anna Zoological Park (AAZP), popularly called as Vandalur Zoo. Health Minister M Subramanian has said Tamil Nadu needs more than 10 crore vaccines. In 24 hours, 3.68 lakh people have received Covid vaccine in Tamil Nadu. Till date 1,16,17,077 have been vaccinated across the State, of which 94,19,536 received first dose and 21,97,541 received second dose.

Karnataka: As per the State Government bulletin released for 16-06-2021, New Cases Reported: 7,345; Total Active Cases: 1,51,566; New Covid Deaths: 148; Total Covid Deaths: 33,296. Around 1,58,479 were vaccinated yesterday with a total of 1,76,15,123 have been vaccinated in the state till now. The state's first mobile vaccine vehicle is now ready to accelerate the Covid vaccine campaign, mobile vehicles will provide Vaccination facility at people's doorsteps. Two doses of Corona vaccine will be provided in the state by December for everyone over the age of 18, said DCM and head of the Corona Task Force, Dr CN Ashwattanarayana.

Andhra Pradesh: State reported 6617 new Covid-19 cases after testing 1,01,544 samples with 57 deaths, while 10,228 got discharged during the last 24 hours. Total cases: 18,26,751; Active cases: 71,46, Discharges: 17,43, Deaths: 12,109. A total of 1,24,20,070 doses of Covid vaccines have

been administered in the state as on yesterday, which include 97,76,531 first doses and 26,43,539 second doses. As 3.5 crore people have to be vaccinated in the state, the Chief Minister YS Jagan Mohan Reddy observed that there is a long way to go still. During a review on prevailing Covid situation with the officials on Wednesday, he said the positivity rate has come down from 25.56 per cent as on May 15, to 5.97 per cent at present. Since studies show that children are susceptible to the infection in the possible third wave, officials should be ready with a good action plan, he said, adding that three state-of-the-art hospitals at Visakhapatnam, Krishna-Guntur and Tirupati, will be set up for paediatric treatment.

Telangana:As many as 1,489 new Covid infections and 11 fatalities were reported yesterday taking the cumulative number of cases in the state to 6,07,925 and fatalities to 3,521. The number of Active Cases in the state now stands at 19,975. The case fatality and recovery rates in the state are reported to be at 0.57 percent and 96.13 percent, respectively. As part of its special drive to inoculate the super spreaders/high risk groups, the State Health department started vaccination for members of the Self Help Groups in the state yesterday.

Assam: A total of 36 Covid deaths were reported in Assam on Wednesday, while 3,386 new infections were detected in 1,30,053 tests yesterday. Positivity rate stood at 2.60 percent.

The State Cabinet on Wednesday decided not to allow home isolation to any Covid -19 patient not having separate accommodation, informed Health Minister Keshab Mahanta.

The State Health Department will allow early administration of Covishield second dose for those traveling abroad before 84 days dosage gap. The facility will be available at MMCH.

Manipur:COVID-19 death toll in Manipur crossed the 1000-mark on Wednesday as 10 more persons succumbed to the infection in 24 hours period, while 752 more persons tested positive for the viral infection, as per the latest update by the state health department. A total of 4,77,432 people have been vaccinated so far in Manipur. In Manipur 408 new recoveries pushed the cumulative number of recovered cases to 51,762. The recovery rate is 83.69 per cent.

Meghalaya:Meghalaya recorded 495 fresh COVID-19 cases on Wednesday, showing an upward trajectory in new infections for the past three days. New cases outnumbered recoveries for the first time in six days with 453 recoveries registered in the last 24 hours.

The state also witnessed eight new deaths on the day pushing the death toll to 758.

Sikkim:Sikkim recorded 147 new Covid cases from the 1096 samples tested on Tuesday. The State's positivity rate is 13.4%, said the Health department. The State's active Covid tally is 2965. On a brighter note, 420 persons successfully recovered from coronavirus on Tuesday. At present there are 167 Covid patients admitted in hospitals.

Tripura: 536 more tested positive and 5 died in last 24 hours with 5.62% positivity rate in the state and the positivity rate for areas under Agartala Municipal Corporation stands at 9.55%.

Nagaland: Nagaland govt extends lockdown till June 30. The decision was taken during the meeting of

the High Power Committee on Covid-19 which met yesterday. The committee said District Task Forces can decide on relaxations as per local situations.

Nagaland reports 111 new Covid cases and two deaths on Wednesday. Active cases are 2699 while tally is 23,965.

Punjab: The total number of patients tested Positive is 589828. Number of active cases is 10046. Total Deaths reported is 15698. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1271920. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 318624. Total above 45 Vaccinated with 1st dose is 3134464. Total above 45 Vaccinated with 2nd dose is 512509.

Haryana: Total Number of Samples found positive till date is 766606. Total active COVID-19 patients is 3579. Number of deaths is 9109. Cumulative number of people vaccinated till date is 6744161.

Chandigarh: Total Lab confirmed COVID-19 cases is 61241. Total number of Active Cases is 462. Total number of COVID-19 deaths till date is 799.

Himachal Pradesh: Total number of patients tested Covid positive till date is 199407. Total number of Active Cases is 3733. Total deaths reported till date is 3398.

COVID-19 Update

- **India's Active Caseload declines below 9 Lakh mark after 70 days**
- **Recovery Rate increases to 95.80%**
- **Daily Positivity Rate stands at 3.22%, less than 5% positivity for 9 consecutive days**

India continues to report a sustained slide in the daily new COVID cases. The country has reported 62,224 Daily New Cases in the last 24 hours. Less than 1 lakh Daily New Cases have been reported for 9 continuous days now. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India has also been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 8,65,432. The Caseload has declined below 9 lakh mark after 70 days. A net decline of 47,946 is witnessed in the last 24 hours and active cases are now only 2.92% of the country's total Positive Cases.

COVID19 Vaccination: Myths Vs. Facts

Decision of increasing COVISHIELD dose interval based on the fundamental scientific reason regarding behaviour of adenovector vaccines

Record of Minutes of meetings of COVID-19 Working Group and Standing Technical Sub-Committee (STSC) of NTAGI clearly show that recommended 12-16 weeks dosing interval for COVISHIELD was unanimous with no dissent from any member

There have been some media reports regarding increase in the gap between two doses of COVISHIELD vaccine from 6-8 weeks to 12-16 weeks, suggesting dissent among the technical experts regarding the decision.

It may be noted that the decision of increasing the gap is based on the scientific reason regarding behaviour of adenovector vaccines and has been discussed thoroughly in meetings of COVID-19 Working Group and Standing Technical Sub-Committee (STSC) of NTAGI with no dissent from any member.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1727477>

Myths vs. Facts on COVID Vaccine

There have been some social media posts regarding composition of the COVAXIN vaccine where it has been suggested that COVAXIN vaccine contains the newborn calf serum. Facts have been twisted and misrepresented in these posts.

Newborn Calf Serum is used only for preparation/ growth of vero cells. Different kinds of bovine and other animal serum are standard enrichment ingredient used globally for vero cell growth. Vero cells are used to establish cell lines which help in production of vaccines. This technique has been used for decades in Polio, Rabies, and Influenza vaccines.

Delta Plus Variant is not yet classified as Variant of Concern; Way forward is to constantly watch and detect its potential presence and growth in the country: Member (Health), NITI Aayog

In the context of the public discourse regarding detection of new variants, Member (Health), NITI Aayog, Dr. VK Paul has reminded the public that the newly detected Delta Plus Variant is not yet classified as a Variant of Concern. “The present status is that yes, a new variant has been found. This is as of now a Variant of Interest (VoI), not as yet classified a Variant of Concern (VoC). VoC is one in which we have understood that there are adverse consequences to humanity, which could be due to

increased transmissibility or virulence. We do not know at this moment this about the Delta Plus variant.” Dr. Paul stated this, while addressing the COVID-19 Media Briefing at National Media Centre, PIB Delhi earlier this week.

Decision to increase gap between COVISHIELD doses taken on scientific evidence in a transparent manner- NTAGI Chair Dr N K Arora

- **“No dissent among NTAGI members regarding the decision”**
- **“India has a robust mechanism to look at other ongoing scientific evidence”**
- **Decisions taken scientifically, giving paramount importance to health and protection of the community: Dr N K Arora**

Dr. N K Arora explained that the decision to increase the gap between two COVISHIELD doses from 4-6 weeks to 12 - 16 weeks lay in the fundamental scientific reason regarding behaviour of adenovector vaccines. “In the last week of April, 2021 the data released by Public Health England, United Kingdom’s executive agency of the Department of Health, showed that vaccine efficacy varied between 65% - 88% when interval is 12 weeks. This was the basis on which they overcame their epidemic outbreak due to the Alpha variant. The UK was able to come out of it because the interval they kept was 12 weeks. We also thought that this is a good idea, since there are fundamental scientific reasons to show that when interval is increased, adenovector vaccines give better response. Hence the decision was taken on May 13, to increase the interval to 12 - 16 weeks.” This also gives flexibility to the community, since everyone cannot come at precisely 12 weeks or so, he added.

Inputs from PIB Field Units

Maharashtra: Maharashtra Government will provide all kinds of assistance to the children who have lost their parents during the Corona period and will also provide Rs. 5 lakh to such children. A task force is set up under the chairmanship of District Collector Rajesh Narvekar to rehabilitate every orphan. Maharashtra added 9,350 new COVID-19 cases, 15,176 recoveries and 388 deaths yesterday.

Gujarat: After 112 days in Gujarat, the number of corona patients has come down to less than 400. On February 25, 2021, 424 patients were registered, after which on Tuesday, 352 new patients were recorded. Also, four deaths occurred on the same day. With this, the total cases in the state have gone up to 8,21,078, out of which 1,00,007 have died. On 15th June, 1006 people have been discharged in the state and till now, a total of 8,02,187 people have recovered.

Rajasthan: Rajasthan Government has further increased the relaxation in lockdown with certain conditions. Now, weekend curfew will be applicable from 5 p.m. on Saturday to 5 a.m. on Monday. Markets will be open from 6 a.m. on Monday to 4 p.m. on Saturday. City and mini buses will also be

operated from 5 a.m. to 5 p.m. in cities. Metro Rail will also be operated. Sports related activities are also allowed to be organized. Permission has also been given to open gyms and yoga centres. All tourist places, monuments can also be opened. Cinema halls, theatres and multiplexes have not been allowed to open. The state reported 14 deaths, while 172 others tested positive for Covid-19 bringing its overall tally to 9,50,133. The caseload of active cases in the state has now reduced to 5619, which is 0.6%.

Madhya Pradesh: In Madhya Pradesh, the second wave of Coronavirus infection has come under control. On Tuesday, the positivity rate in the state was recorded at 0.3 per cent. According to the official health bulletin on Tuesday, 224 new cases of COVID-19 were reported in Madhya Pradesh, while 528 people recovered. So far, seven lakh 76 thousand people have recovered in the state, while 3,610 patients are still undergoing treatment.

In all the districts except Indore, Bhopal and Jabalpur, the number of new patients was either zero or below ten. Meanwhile, in the state, attention has now been focused on vaccination. A major vaccination campaign will be run in the state for three days from July 1.

i : Amidst the rapidly improving situation of corona infection in Chhattisgarh, the average positivity rate has come down to about 1.3 percent. 609 new corona-infected patients were found in the state on Tuesday. Out of the 28 districts, in 25 districts reported cases in double digits, while 4 districts had cases in single digit. Meanwhile, 8 people died due to CoVID infection on Tuesday. At present, there are 11,717 active patients in the state. Chhattisgarh occupies the third position among all states in terms of vaccination to citizens aged above 45 years and occupies first position in the country in terms of administering second dose of vaccine to healthcare and frontline workers. More than 72 lakh 94 thousand vaccinations have been done in the state till date. Renganar has set an example for the entire country as every citizen vaccinated for Covid-19 in this remote village of Dantewada district in Chhattisgarh.

Goa: Goa has added 1,314 new COVID-19 cases while 3,793 people got recovered and 43 people died. Tika Utsav 3.0 has been launched (ongoing campaign) to promote COVID19 vaccination in the state.

Kerala: After imposing a 40-day lockdown to bring down the Covid surge, the state government has decided to ease the restrictions from tomorrow at the local body level, based on the intensity of virus spread. However, the total lockdown across the state on weekends will continue. Public transport will be allowed in a limited manner from Thursday. While gatherings and public functions will not be allowed, a maximum of 20 people can continue to attend weddings and funerals as earlier. The state recorded 12,246 new Covid cases on Tuesday. With 166 new fatalities, the death toll mounted to 11,508. The TPR has come down to 11.76%. A total of 1,17,00,136 people have so far been vaccinated in the state. Out of this, 93,50,666 took first dose and 23,49,470 took second dose.

Tamil Nadu: State Health Minister has said that the government was fully geared up to face the third wave of Covid-19 pandemic. The government has made 70,000 beds ready to face the third wave and special wards for children have also been set up in government hospitals, he said. On a day when fresh

infections dropped to 11,805 in Tamil Nadu, the State's toll due to Covid-19 surpassed 30,000, as another 267 people succumbed to it on Tuesday. TN has received 6.16 lakh doses of Covid vaccines from Mumbai and Pune. This included 4.97 lakh doses of Covisheild vaccine directly procured by the state government. Till date 1,12,64,069 have been vaccinated across the State, of which 90,86,953 received first dose and 21,77,116 received second dose.

Karnataka: As per the State Government bulletin released for 15-06-2021, New Cases Reported: 5,041; Total Active Cases: 1,59,426; New Covid Deaths: 115; Total Covid Deaths: 33,148. Around 1,23,262 were vaccinated yesterday with a total of 1,74,07,993 have been vaccinated in the state till now. Bengaluru Urban, which was ravaged by the second Covid-19 wave, reported less than 1,000 new infections for the first time in three months on Tuesday. According to Health Minister Dr K Sudhakar, the recovery and mortality rates are at 95.50% and 1.33%, respectively. While the positivity rate stood at 3.8% for the day, the Case Fatality Rate (CFR) stood at 2.28%.

Andhra Pradesh: State reported 5741 new Covid-19 cases after testing 96,153 samples with 53 deaths, while 10,567 got discharged during the last 24 hours. A total of 1,23,88,392 doses of Covid vaccines have been administered in the state as on yesterday, which include 97,48,174 first doses and 26,40,218 second doses. Even as the State is grappling with black fungus, at least 15 cases of Multisystem Inflammatory Syndrome in Children (MIS-C) have been reported in Visakhapatnam in the last two weeks. Meanwhile, the State government has chalked out an advance action plan in the wake of the Covid third wave warnings and made special arrangements training medical staff in paediatrics.

Telangana: The State Government has decided to extend summer holidays for schools and colleges till 20th of this month due to the Covid pandemic. A total of 1556 new daily Covid cases and 14 fatalities were reported yesterday taking the total number of cases in the state to 6,06,436 and fatalities to 3510. 1,56,048 people of all sections received first dose and 7121 second dose. The cumulative number of people received first dose in the state stands at 68,04,722 and second dose at 15,24,610. The vaccine wastage in the state is reported to be 0.15 percent, according to the Health Bulletin issued by the Director of State Public Health today.

Assam: Thirty-four people died of the COVID-19 in the State on Tuesday when 3,415 new positive cases were detected. Tests were conducted to as many as 1.32 lakh people in the State on Tuesday. Modifying the standard operation procedure (SOP) for Covid19, the Assam government has relaxed the curfew hours in the capital city of Guwahati for one hour till June 21. From Wednesday, the Covid curfew will be imposed from 2 PM in the city for the next week. Shops, offices and business establishments will have to shut down their operations at 1 PM.

Manipur: State records eight deaths, 785 new cases on Tuesday. The number of persons vaccinated in Manipur reached 4,72,857. Mass testing and vaccination continues in different parts of the state.

Meghalaya: Meghalaya registered 450 fresh COVID-19 cases on Tuesday, while 542 new recoveries brought the active case tally further down to 4,430.

Seven people succumbed to the infection in the past 24 hours pushing the death toll to 750. All seven deaths were reported in East Khasi Hills.

Sikkim: 209 more people were found positive for COVID-19 in the last 24 hours during the testing of 1,643 samples. The state's daily positivity rate stands at 12.7%.

Tripura: On the second day of Mass Vaccination 18,099 people in the 18-44 age group were administered and altogether 22,063 people received vaccine all across the state. Meanwhile in last 24 hours 528 new positive cases detected in the state.

Nagaland: Nagaland reports 101 new cases and nil fatalities on Tuesday. Active cases are 2972 while total is 23,854. State mulls more lockdown relaxations after June 18 as cases begin to drop. Administration begins distribution of food and relief items to daily wage earners & labourers in Dimapur from Tuesday. Around 7000 households targeted to be given relief assistance.

Punjab: The total number of patients tested Positive is 589153. Number of active cases is 10802. Total Deaths reported is 15650. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1267329. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 317597. Total above 45 Vaccinated with 1st dose is 3123969. Total above 45 Vaccinated with 2nd dose is 509511.

Haryana: Total Number of Samples found positive till date is 766357. Total active COVID-19 patients is 3703. Number of deaths is 9070. Cumulative number of people vaccinated till date is 6682197.

Chandigarh: Total Lab confirmed COVID-19 cases is 61200. Total number of Active Cases is 486. Total number of COVID-19 deaths till date is 797.

Himachal Pradesh: Total number of patients tested Covid positive till date is 199197. Total number of Active Cases is 4050. Total deaths reported till date is 3394.

COVID-19 Vaccination Update

More than 26.69 crore (26,69,14,930) vaccine doses have been provided to States/UTs so far, through Government of India (free of cost channel) and through direct state procurement category. Of this, the total consumption, including wastages is 25,67,21,069 doses (as per data available at 8 AM today).

More than 1.05 crore (1,05,61,861) COVID Vaccine doses are still available with the States/UTs to be administered. Furthermore, more than 47,43,580 vaccine doses are in the pipeline and will be received by the States/UTs within the next 3 days.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1727132>

COVID Vaccination in Rural Areas – Myths vs. Facts

Pre-registration for vaccination through online registration and prior booking of appointment is not mandatory to avail of vaccination services. Anyone, aged 18 years or more, can directly go to the nearest vaccination Center where vaccinator performs the on-site registration and provides vaccination in the same visit. This is also popularly known as “walk-ins”.

The facilitated registration through the Common Service Centers (CSCs) on Co-WIN, is just one of the many modes of registration on Co-WIN. The facilitators such as health workers or ASHAs, also mobilize beneficiaries in rural areas and those residing in urban slums, for on-site registration and vaccination directly at the nearest vaccination centers. The facility for assisted registrations through the 1075 Help Line has also been operationalized.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1727193>

COVID-19: Myths vs Facts

Indian SARS-CoV-2 Genetics Consortium (INSACOG) sequencing has helped in detection of Variants of Concerns (VOCs) in real time and data has been shared with relevant States/UTs

There have been some media reports alleging low quantum of sequencing in the country and the significant lags between sample collection and sequence submission into the database for pattern detection and actionable alerts to governments.

It is clarified that a sampling strategy is based on the country's objectives, scientific principles and WHO guidance documents. Accordingly, the strategy has been reviewed and revised as from time to time.

COVID19 Vaccination: Myths Vs. Facts

Any death or hospitalization following vaccination cannot be automatically assumed to be due to vaccination

Causality assessments help to understand whether the “Adverse Event Following Immunization” was caused directly due to vaccine, and are conducted at State and national level for the investigated cases

There have been some media reports suggesting an increase in the cases of severe AEFI which have also resulted in ‘succumbing of patients’ post vaccination. As per the media reports, 488 deaths following vaccination are linked to post-COVID complications during 16th Jan 2021 and 7th June 2021 period where the total vaccination coverage was 23.5 crore.

It is clarified that these reports are based on incomplete and limited understanding of the matter at hand. It may be noted that the term “succumbed” insinuates causality i.e. the deaths were caused due to vaccination.

The number of deaths reported following COVID-19 vaccination in the country is only 0.0002% of 23.5 crore doses administered which is within the expected death rates in a population. In a population, deaths occur at a certain rate. Crude death rate in 2017 as per SRS data is 6.3 per 1000 persons annually (SRS, Registrar General & Census Commissioner, India from <https://main.mohfw.gov.in/sites/default/files/HealthandFamilyWelfarestatisticsinIndia201920.pdf>).

Inputs from PIB Field Units

Kerala: Train services, which were stopped in the state due to the raging Covid infections in the second wave of the pandemic, will resume in phases and as part of that, Intercity and Jan Shatabdi trains will start plying from tomorrow. Meanwhile, the State is to revise its lockdown strategy after the current lockdown ends tomorrow. Chief Minister Pinarayi Vijayan has stated that the state is unlikely to extend the complete lockdown amid the sharp decline in the number of Covid-19 cases. The state has reported a 20 per cent decline in cases and a 10% decrease in TPR during the last week. It is planned to impose different levels of curbs according to the intensity of the spread of the disease. 7,719 new Covid-19 cases were reported in the state yesterday with a TPR of 11.26%. 161 deaths were confirmed taking the toll to 11,342. A total of 1,14,69,060 people have so far been vaccinated in the state. Out of this, 91,87,161 took first dose and 22,81,899 took second dose.

Tamil Nadu: The Madras High court today sought responses from both the Union and State within four weeks on a plea seeking ex-gratia payment to heirs or families of persons who died after contracting Covid-19 as per section 12 of the Disaster Management Act, 2005. Chief Minister M K Stalin has said lockdown relaxations will be withdrawn if people violate rules; he sought complete cooperation of people. TN reported 12,772 new cases including 254 deaths on Monday; with these, the total number of cases recorded has reached 23,66,493 and death toll 29,801 in the State. The Union territory of Puducherry reported less than 400 fresh Covid-19 cases for the first time after two months; the UT reported 309 fresh cases even as 686 patients recovered on Monday, bringing down the active cases to 4,947. Tamilnadu State health department has said that a total of 2,58,701 people were vaccinated on a single day yesterday at 2,327 vaccination centres. Till date 1,11,31,780 have been vaccinated across the State, of which 89,64,448 received first dose and 21,67,332 received second dose.

Karnataka: As per the State Government bulletin released for 14-06-2021, New Cases Reported: 6,835; Total Active Cases: 1,72,141; New Covid Deaths: 120; Total Covid Deaths: 33,033. Around 1,23,262 were vaccinated yesterday with a total of 1,71,14,728 have been vaccinated in the state till now. Chief Minister B S Yediyurappa on Monday announced a compensation of Rs 1 lakh to BPL families who lose breadwinners to Covid-19. Coronavirus cases in the state have dropped to nearly six thousand and the positivity rate has fallen below 5 per cent. The Bruhat Bengaluru MahanagaraPalike (BBMP) on

Monday said that it will deploy teams at entry points, paying guest facilities, migrants' work sites among others to test returnees for Covid-19 infection as the civic body looks to keep the virus spread under control.

Andhra Pradesh: State reported 4549 new Covid-19 cases after testing 87,756 samples with 59 deaths, while 10,114 got discharged during the last 24 hours. A total of 1,23,04,416 doses of Covid vaccines have been administered in the state as on yesterday, which include 96,68,857 first doses and 26,35,559 second doses. The State government has decided to include treatment of post-Covid health problems related to lungs and kidneys among children in the YSR Aarogyasri Scheme. The State has also chalked out a plan to increase ICU beds to 1600 and oxygen beds to 3777 for children. Principal Secretary (Health) Anil Kumar Singhal has said Covid medicines for treating children have been brought under the purview of Arogyasree and have been divided into four therapies. So far, more than 3.16 lakh mothers having children below the age of five years have been vaccinated in the state.

Telangana: A total of 1511 new daily Covid cases and 12 deaths were reported yesterday taking the total number of cases in the state to 6,04,880 and fatalities to 3496. Bed occupancy rate in Covid hospitals in the state has come down from 52 percent in the second week of May to 16 percent now. Now, the positivity rate is reported to be 1.36 percent only. Director of State Public Health Dr.G.Srinivasa Rao said strict action will be taken against those spreading rumours and creating unnecessary panic among the public about the intensity of the likely third wave of Corona.

Maharashtra: Maharashtra on Monday reported 8,129 new COVID-19 cases, the lowest single-day count since March 2, taking the state's tally to 59,17,121, while 200 more deaths pushed the toll to 1,12,696, the health department said. The rise in fresh coronavirus cases was the lowest since March 2, when 7,863 infections were reported in the state. Mumbai reported 529 cases, the lowest since February 16 when the addition to the tally was 461. Maharashtra government has expressed an inclination to begin door-to-door vaccination drives for the disabled, bedridden, and such citizens, and for formulating a separate protocol for the same.

Gujarat: Gujarat on Monday reported 405 COVID-19 cases, taking its tally to 8,20,726, while the day also witnessed six deaths, which took the toll past the 10000 mark.

2,93,131 persons were vaccinated on Monday, including 2,05,130 in the 18-44 age group, taking the overall number of doses administered in the state so far to 2,05,58,024. In an affidavit filed by the Gujarat health department before the High Court, the health department has conveyed that the Gujarat government has notified 33 government hospitals — one in each district — to act as the nodal centre for distribution of Liposomal Amphotericin-B used to treat mucormycosis. In each of these 33 hospitals, a district-level committee is to be constituted for distribution of the drug.

Rajasthan: The number of new active coronavirus cases in Rajasthan continued to nosedive on Monday with zero cases reported in eight out of total 33 districts of the state in the last 24 hours. Following a steady decline over the last few days, the total number of active Covid19 cases in the state has dropped below 6,500. Rajasthan on Monday reported 277 fresh Covid-19 cases and 20 deaths. The state's death toll is at 8,842, with a total load of 9,49,961.

Madhya Pradesh: In Madhya Pradesh, the second wave of Coronavirus infection has come under control. Yesterday, the infection rate in the state was recorded at 0.3 per cent.

According to the official health bulletin yesterday, 242 new cases of COVID-19 were reported in Madhya Pradesh, while 516 people recovered. In all the districts except Indore, Bhopal and Jabalpur, the number of new patients was either zero or below ten. Meanwhile, in the state, attention has now been focused on vaccination. A major vaccination campaign will be run in the state for three days from July 1.

Chhattisgarh: Amidst the rapidly improving situation of corona infection in Chhattisgarh, the average positivity rate has come down to about 1.3 percent. While the recovery rate from COVID infection has increased to more than 97 percent. 600 New corona positives in the state yesterday. Out of the 28 districts, in 25 districts cases were reported in double digits. While in 3 districts, cases were reported in single digit. Meanwhile, 17 people died due to CoVID infection yesterday.

Goa: Goa's coronavirus caseload went up by 253 and reached 1,62,721 on Monday, while 720 patients recovered from the infection. The death toll rose to 2,937 as nine more patients succumbed to the infection. The number of recovered cases in the state rose to 1,55,378 after 720 patients were discharged from hospitals during the day. The number of active cases is now 4,406.

Assam: A total of 43 COVID-19 deaths were reported in Assam in the last 24 hours, while 3,678 new infections were detected in 1,46,046 tests done during the day, the positivity rate being 2.52 percent, Kamrup Metro saw 232 new cases. Challenging the Assam government's move to conduct board examinations, a number of students from the state have moved the Supreme Court seeking its intervention in cancelling the HSLC and HS Final examinations in view of the Covid situation.

Manipur: In Manipur, the death count continues to rise with 16 more falling to COVID-19 while 459 including 7 Central security personnel tested positive during the last 24 hours. In line with the course of action taken up in other districts of the State and in view of the surging COVID-19 cases, Ukhrul District Hospital in tandem with the district administration started a mass testing campaign since yesterday and in the last 48 hours, 39 persons returned positive results.

Meghalaya: Meghalaya registered 403 fresh COVID-19 cases on Monday, an increase from the previous day, while 487 recoveries on the day brought the total active cases down to 4,529.

The state also recorded 10 fatalities in the last 24 hours pushing the death toll to 743. East Khasi Hills Deputy Commissioner, Isawanda Laloo has issued an order directing shops and establishments to get their staff vaccinated on or before June 24 so as to be eligible for reopening. Chief Minister, Conrad K Sangma has urged the MLAs and media personnel to visit a Covid-19 ward wearing PPE kit to be able to understand the difficulties being faced by the healthcare workers.

Nagaland: Nagaland reports 109 new COVID-19 cases and three deaths on Monday. Active cases are 3201 while total is 23,753. State H&FW Dept has directed all healthcare workers to discharge their duties responsibly and not to leave station without permit. It has also asked the healthcare workers to immediately report any harassment or obstruction while on duty.

Tripura: In Tripura, 18,980 people above 18-45 years vaccinated on a single day in whole of the state. 235 fresh cases reported with 4 deaths. Tripura Board of Joint Entrance Examination in a Notification said the examination scheduled on June 23 has been deferred.

Sikkim: There was no death on record from 11th June till today, the total death figure so far remains 281. Only 36 new positive cases have come up. State has 11.5% positivity rate of Corona. The recovery rate is only 79.20%. As per the State Government's directive to cover one and all with regards to COVID-19 Vaccination, the Medical Team from Namchi District Hospital vaccinated a total of 100 inmates, who belonged to 18 to 44 categories at District Prison Namchi.

Punjab: The total number of patients tested Positive is 588525. Number of active cases is 11913. Total Deaths reported is 15602. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1257302. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 316532. Total above 45 Vaccinated with 1st dose is 3110366. Total above 45 Vaccinated with 2nd dose is 506885.

Haryana: Total Number of Samples found positive till date is 766129. Total active COVID-19 patients is 4077. Number of deaths is 9032. Cumulative number of people vaccinated till date is 6608145.

Chandigarh: Total Lab confirmed COVID-19 cases is 61160. Total number of Active Cases is 507. Total number of COVID-19 deaths till date is 794.

Himachal Pradesh: Total number of patients tested Covid positive till date is 198876. Total number of Active Cases is 4432. Total deaths reported till date is 3382.

COVID-19 UPDATE

- **India reports 70,421 Daily New Cases in the last 24 hours; lowest after 74 days**
- **India's Active Caseload declines below 10 Lakh mark after 66 days**

India continues to report a sustained slide in the daily new COVID cases. The country has reported 70,421 Daily New Cases in the last 24 hours. Less than 1 lakh Daily New Cases have been reported for 7 continuous days now. This is a result of sustained and collaborative efforts by the Centre and the States/UTs.

India has also been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 9,73,158. The Caseload has declined below 10 lakh mark after 66 days. A net decline of 53,001 is witnessed in the last 24 hours and active cases are now only 3.30% of the country's total Positive Cases.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1726923>

COVID-19 Vaccination Update

More than 26.68 crore (26,68,36,620) vaccine doses have been provided to States/UTs so far, through Government of India (free of cost channel) and through direct state procurement category. Of this, the total consumption, including wastages is 25,27,66,396 doses (as per data available at 8 AM today).

More than 1.40 crore (1,40,70,224) COVID Vaccine doses are still available with the States/UTs to be administered. Furthermore, more than 96,490 vaccine doses are in the pipeline and will be received by the States/UTs within the next 3 days.

DBT-funded Startup Offers AI-powered Contact-free Health Monitor & Step-Down ICU

Through its Million ICU initiative, Dozee aims to improve public healthcare by utilising transformative technology to provide high-quality care to every individual. The company aims to upgrade 50,000 public hospital beds into Step-Down ICUs by raising CSR funds from several Indian and International organisations. This initiative will enable the hospitals to respond to the COVID-19 crisis and usher in a rapid and long-term transformation in India's public healthcare infrastructure.

IIT Ropar develops nation's first power-free CPAP device 'Jivan Vayu'

Aimed at saving lives in low resource areas and during transit

Indian Institute of Technology, Ropar has developed a device 'Jivan Vayu' which can be used as a substitute of CPAP machine. However, this is Nation's first such device which functions even without electricity and is adapted to both kinds of oxygen generation units like O2 cylinders and oxygen pipelines in hospitals. These provisions are not available in otherwise existing CPAP machines.

Inputs from PIB Field Units

Kerala: A high-level meeting chaired by State Health Minister Veena George today formulated an action plan to be implemented in the event of a third wave of Covid-19. Along with increasing the medical facilities, the goal is to vaccinate two to two and a half lakh people daily. The state government has also decided to re-examine Covid-19 death toll following widespread complaints of authorities hiding the real toll. Meanwhile, the state recorded 11,584 new Covid cases yesterday. With 206 new fatalities, the death toll mounted to 11,181. The TPR stood at 12.24 %. A total of 1,13,25,484 people have so far been vaccinated in the state. Out of this 90,71,276 took first dose and 22,54,208 took second dose.

Tamil Nadu: Extended lockdown with relaxations have come into effect in Tamil Nadu. State Health Minister said that a special Covid-19 task force is being formed in the 11 districts of Tamil Nadu that are still witnessing an increase in the cases of Covid-19. State has so far received over 5,000 MT oxygen through oxygen expresses. TN Health Secretary Dr J Radhakrishnan has said 355 persons who were not affected by Covid have been diagnosed with black fungus. TN reported 14,061 new Covid cases and 267 fatalities yesterday. On vaccination front, 2,08,123 got jobs yesterday. Till date 1,08,42,928 have been vaccinated across the State, of which 86,91,807 received first dose and 21,51,121 received second dose.

Karnataka: After an eight-week lockdown, lockdown has been relaxed in 19 districts starting today while 11 districts with high positivity rate have to wait longer. The state will witness the trial of drug delivery through drone for the first time in the country; the preliminary trial will be held at Gauribidanur in Chikkaballapur district from June 18 and the official trial from June 21 for 45 days. A total of 38,34,843 had received the first dose in the city (including both Bengaluru Urban and BBMP) as of Sunday night. That translates to roughly about 34% (one-third) of the city's estimated target population of 1.1 cr people aged 18 and above. Till date 1,69,55,711 have been vaccinated across the State, of which 1,39,43,769 received first dose and 30,11,942 received second dose.

Andhra Pradesh: State reported 6770 new Covid-19 cases after testing 1,02,876 samples with 58 deaths, while 12,492 got discharged during the last 24 hours. A total of 1,19,29,606 doses of Covid vaccines have been administered in the state as on yesterday, which include 93,06,916 first doses and 26,22,690 second doses. Economically weak families from the Scheduled Castes who have lost the sole earning member of the family to Covid-19 will now get financial assistance of Rs 5 Lakh from the State government to ensure a sustainable income for the household. The assistance will include a subsidy of up to Rs 1 lakh, and the remaining Rs 4 lakh is to be paid to the beneficiaries in instalments.

Telangana:As many as 1280 new daily Covid cases and 15 deaths were reported yesterday taking the total number of cases in the state to 6,03,369 and fatalities to 3484. 1,52,087 people of all categories received first dose and 3694 people second dose yesterday. The cumulative number of people received first dose in the state stands at 64,69,106 and second dose at 15,10,530. The State Health Department has decided to conduct Special Vaccination Drive for 13 more 'special groups' to inoculate about 3 lakh people from 14th (today) to 17th of this month. These groups include employees of State Excise, Panchayat Raj, Banks, Postal department, Women Self-Help group members, Dialysis and thalassemia patients, Private Medical Practitioners (PMPs) and Registered Medical Practitioners (RMPs).

Assam:A total of 36 Covid deaths were reported in Assam in the last 24 hours, while 2,167 new infections were detected in 1,00,455 tests done during the day, the positivity rate being 2.16 percent. Kamrup Metro saw 226 new cases. The state health department is ready with 2000 teams to intensify the COVID-19 vaccination drive as soon as the centre supplies vaccine doses to it. Health Minister KeshabMahanta said, the target for each of the 2000 teams is the inoculation of 200 vaccine doses per day.

Manipur:15 more deaths reported, 530 out of 5,059 test positive. The number of persons vaccinated in Manipur reached 4,67,076 on Sunday. Mass testing continues in different parts of the state. Over 3,000 people tested during RAT mobile testing drive; 323 test COVID-19 positive. Shopkeepers with Covid free certificates only can open shops in Kangpokpi District.

Meghalaya: The positivity rate in Meghalaya, including COVID-19 hotspot East Khasi Hills district, has continued to decline. The positivity rate has come down from 11.74% to 10.11% over a fortnight. This figure a month ago was 15.46%. Meghalaya on Sunday recorded 305 fresh Covid cases, the lowest in the last one week, while also recording 547 recoveries. Six fatalities in the last 24 hours pushed the death toll to 733.

Sikkim:Out of 1312 tests conducted, Sikkim recorded 157 new Covid positive cases on Sunday. The total active tally now is 3,553, with 387 recoveries. For the past one week the positive cases have come down, resulting in good recovery rate in the State. The tests are being conducted in full swing followed by vaccination drives in the districts.

Tripura: 30,000 vaccine to be administered to people in the age group of 18-44 from today covering whole of the state. Meanwhile in last 24 hours 565 people were tested positive and 7 more succumbed to covid.

Nagaland:Nagaland reports 82 new cases and 5 deaths on Sunday. Active cases are 3502 while total reaches 23,644. Random sampling, vaccination and awareness drives held in different parts of the state.

Maharashtra:In view of IMD's warning of heavy to very heavy rain in coastal Konkan and Mumbai region up to 15th June, the Maharashtra health department has decided to suspend vaccination drive for a while in Mumbai, suburban and some parts of Konkan region.

Maharashtra on Sunday reported 10,442 new COVID cases pushing the total tally to 59,08,992. In the last 24 hours, the state also saw 483 deaths, pushing the toll to 1,11,104. Also 7,504 recoveries were recorded in the same time span taking the total to 56,39,271. Mumbai logged 700 new cases, 704

discharges and 19 deaths in the last 24 hours. Maharashtra's cumulative count of black fungus or mucormycosis cases reached 7,395 on Sunday. Of these, 644 people infected to black fungus have died, while 2,212 have recovered from the disease.

Gujarat: Gujarat has crossed the 2 crore mark in the administration of COVID-19 doses which is a new milestone. 2,34,501 persons have been vaccinated in the state yesterday.

Gujarat has recorded 455 new cases of Covid-19 yesterday. 1063 patients recovered during the last 24 hours and were discharged from the hospitals. 8,75,000 patients have recovered from Covid19 in Gujarat till now. The recovery rate further improved and reached up to 97.53 percent. Gujarat has 10,249 active cases at present, out of which 253 patients are on ventilators.

Rajasthan: Rajasthan recorded seven more coronavirus-related fatalities and 308 fresh cases on Sunday, taking the death toll and the infection tally to 8,822 and 9,49,684. Rajasthan government on Saturday announced to pay a lumpsum of ₹1 lakh and a monthly stipend of ₹2,500 to all children orphaned due to COVID till they are 18 years of age. And once they turn 18, they would be handed a lump sum of ₹5 lakh. The state government announced that the benefit is offered under 'Mukhyamantri Corona BalKalyanYojana'. Out of 111 PSA oxygen plants being set up in the state 20 have started functioning.

Madhya Pradesh: In Madhya Pradesh, 'Yuva Shakti Corona MuktiAbhiyan' will be launched to make people aware about the COVID pandemic. In the Yuva Shakti Corona MuktiAbhiyan, college teachers and around 16 lakh students will be made aware of corona infection by learning Covid appropriate behavior and vaccination. A mobile app has also been developed for effective real time online monitoring of the campaign. Madhya Pradesh is now at number 26 in the country in terms of corona infection. At the same time, on the basis of the suggestions received from the various Crisis Management Committees, a new guide line will be issued. Meanwhile, only 274 cases of corona infection have been reported in the state in the past 24 hours. There is not a single case in 20 districts.

Chhattisgarh: Chhattisgarh's COVID-19 tally mounted to 9,86,963 on Sunday as 459 people tested positive for the infection, while six fresh fatalities took the toll to 13,317. The number of recoveries reached 9,59,969 after a total of 147 people were discharged from various hospitals, while 802 others completed their home isolation during the day. The coronavirus case positivity rate declined to 1.4 per cent, which had reached 30 per cent in April during the peak of the second wave.

Goa: Goa government has extended Corona curfew in the state till 21st of this month. Goa's coronavirus caseload went up by 420 to reach 1,62,468 on Sunday, while the death toll mounted by 14 to 2,928. As 581 patients got discharged from hospitals during the day, the coastal state's recovery count rose to 1,54,658. Currently, there are 4,882 COVID-19 active cases in the state.

Punjab: The total number of patients tested Positive is 587903. Number of active cases is 12981. Total Deaths reported is 15562. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1246849. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 315991. Total above 45 Vaccinated with 1st dose is 3098770. Total above 45 Vaccinated with 2nd dose is 505379.

Haryana: Total Number of Samples found positive till date is 765861. Total active COVID-19 patients is 4661. Number of deaths is 8992. Cumulative number of people vaccinated till date is 6521486.

Chandigarh: Total Lab confirmed COVID-19 cases is 61110. Total number of Active Cases is 520. Total number of COVID-19 deaths till date is 792.

Himachal Pradesh: Total number of patients tested Covid positive till date is 198550. Total number of Active Cases is 4777. Total deaths reported till date is 3375.

COVID-19 UPDATE

- **India reports 80,834 new cases in the last 24 hours; lowest after 71 days**
- **India's Active Caseload further declines to 10,26,159**
- **Daily Recoveries continue to outnumber Daily New Cases for 31 consecutive days**
- **Recovery Rate increases to 95.26%**
- **Daily Positivity Rate stands at 4.25%, less than 10% positivity for 20 continuous days**

India has reported 80,834 Daily New Cases in the last 24 hours. The country has recorded less than 1 lakh Daily New Cases for 6 continuous days now. This is a result of sustained and collaborative efforts by the Centre and the States/UTs. India has been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 10,26,159. The Caseload has been below 20 lakhs for thirteen successive days. A net decline of 54,531 is witnessed in the last 24 hours and active cases are now only 3.49% of the country's total Positive Cases. As more people are getting recovered from COVID-19 infection, India's Daily Recoveries continue to outnumber the Daily New Cases for 31 consecutive days now. 1,32,062 recoveries were registered in the last 24 hours. 51,228 more recoveries were reported during the last 24 hours as compared to the daily new cases.

Prime Minister participates in the first Outreach Session of G7 Summit

Prime Minister Shri Narendra Modi participated in the first Outreach Session of the G7 Summit yesterday. The session, titled 'Building Back Stronger - Health', focused on global recovery from the coronavirus pandemic and on strengthening resilience against future pandemics. During the session, Prime Minister expressed appreciation for the support extended by the G7 and other guest countries during the recent wave of COVID infections in India. He highlighted India's 'whole of society' approach to fight the pandemic, synergising the efforts of all levels of the government, industry and civil society.

Prime Minister Shri Narendra Modi also explained India's successful use of open source digital tools for contact tracing and vaccine management, and conveyed India's willingness to share its experience and expertise with other developing countries. Prime Minister committed India's support for collective endeavours to improve global health governance. He sought the G7's support for the proposal moved at the WTO by India and South Africa, for a TRIPS waiver on COVID related technologies.

COVID-19 Projects Facilitated by Office of Principal Scientific Adviser:

Extension of Hospitals

As COVID-19 cases surged in different parts of the country, infrastructure in hospitals was under immense pressure. Innovative modular hospitals came as a huge relief amidst this. Modular hospitals are an extension of hospital infrastructure and can be built adjacent to an existing hospital building. Office of the Principal Scientific Adviser, Government of India (O/o PSA, GoI) invited private sector companies, donor organizations, and individuals to support various projects of national importance. Project Extension Hospitals is one such initiative. The O/o PSA identified requirements of close to 50 hospitals in states where the highest number of COVID-19 cases were reported.

Total COVID-19 cases in India (June 12th, 2021, 08:00 AM)

[/COVIDNewsByMIB](#) [/MIB_India](#) [/MIB_Hindi](#) [/inbministry](#) [/inbministry](#) [/mib_india](#)

COVID-19 UPDATE

- v. **India reports 84,332 New Cases in the last 24 hours; lowest after 70 days**

- v. **Daily Recoveries continue to outnumber Daily New Cases for 30th consecutive day**

- v. **Recovery Rate increases to 95.07%**

- v. **Daily Positivity Rate stands at 4.39%, less than 10% positivity for 19 continuous days**

India has reported 84,332 Daily New Cases in the last 24 hours. The country has recorded less than 1 lakh Daily New Cases for 5 continuous days now. This is a result of sustained and collaborative efforts by the Centre and the States/UTs. India has been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 10,80,690. The Caseload is maintained below 20 lakhs for twelve successive days. A net decline of 40,981 is witnessed in the last 24 hours and active cases are now only 3.68% of the country's total Positive Cases. As more people are getting recovered from COVID infection, India's Daily Recoveries continue to outnumber the Daily New Cases for the 30th consecutive day. 1,21,311 recoveries were registered in the last 24 hours.

COVID-19 Vaccination UPDATE

More than 25.87 crore (25,87,41,810) vaccine doses have been provided to States/UTs so far, through Government of India (free of cost channel) and through direct state procurement category. Of this, the total consumption, including wastages is 24,76,58,855 doses (as per data available at 8 AM today).

More than 1.12 crore (1,12,41,187) COVID Vaccine doses are still available with the States/UTs to be administered. Furthermore, more than 10 lakh (10,81,300) vaccine doses are in the pipeline and will be received by the States/UTs within the next 3 days.

Myth Vs Facts

Government of India has been working towards effective COVID-19 management in rural India by sustained strengthening of the Rural health Infrastructure, and through focussed Public Health Measures in active collaboration with the States

Government of India has been proactively working towards effective COVID-19 management in rural India by sustained strengthening of the multi-level health infrastructure, and through focussed Public Health Measures in active collaboration with the States. Development of health infrastructure is a continuous activity. Guided by a sharp focus on the underserved geographical regions and through various policies, schemes, public health interventions and active partnership with the States and UTs, Government of India is committed to strengthening the rural health infrastructure.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1726518>

Myths Vs. Facts on COVID19 mortality figures

- States/UTs to record COVID-19 deaths as per ‘Guidance for appropriate recording of COVID-19 related deaths in India’ issued by ICMR
- Union Health Ministry has regularly emphasized the need for a robust reporting mechanism for monitoring district wise cases and deaths on a daily basis

Union Government has been transparent in its approach to COVID data management. As early as May 2020, to avoid inconsistency in number of deaths being reported, Indian Council of Medical Research has issued ‘Guidance for appropriate recording of COVID-19 related deaths in India’ for correct recording of all deaths as per ICD-10 codes recommended by WHO for mortality coding. States and UTs have been urged through formal communications, multiple video conferences and through deployment of Central teams for correct recording of deaths in accordance with laid down guidelines.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1726521>

Busting Myths of COVID-19

- v. Union Health Ministry has regularly emphasized need for a robust reporting mechanism for monitoring district wise cases and deaths on a daily basis
- v. States have been advised to report Covid deaths in accordance with prescribed guidelines

There were some media reports recently alleging misreporting of deaths due to Covid in India, and a sudden hike in the number of daily deaths. It is clarified that the Ministry of Health & Family Welfare reported a total of 6148 deaths on 10th June 2021. This spike in deaths was on account of 3971 deaths reported by Bihar on that date is on account of reconciliation done by the State.

As early as May 2020, to avoid inconsistency or confusion in the number of deaths being reported, Indian Council of Medical Research (ICMR) issued ‘Guidance for appropriate recording of COVID-19 related deaths in India’ for correct recording of all deaths by States/UTs as per ICD-10 codes recommended by WHO for mortality coding.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1726345>

Busting Myths of Vaccination

- v. **No need for immediate change in COVISHIELD dosage interval: Member, NITI Aayog**
- v. **“Let us adopt due scientific process and respect the decision taken by NTAGI”**

v. **“Covishield Vaccine Doses Gap Reduction requires proper scientific study in the context of our country’s scenario”**

There have been some media reports, quoting recent studies, that it would be better to shorten the gap between two doses of COVISHIELD vaccine, in light of the variants in circulation. Dr V K Paul, Member (Health), NITI Aayog has assured that there is no need for panic on the need for an immediate change in the dosage interval. Dr. Paul was addressing the media briefing on COVID-19, at National Media Centre, PIB Delhi yesterday.

He stated that “There is no need for any panic, suggesting need for immediate switchover or change in the gap between the doses. All these decisions must be taken very carefully. We must remember that when we increased the gap, we had to consider the risk posed by the virus to those who have received only one dose. But the counterpoint was that more people will then be able to get the first dose, thereby giving a reasonable degree of immunity to more people.” Dr Paul further added that “We need to balance these concerns. So, please remember, that we need to necessarily have this debate and discourse in the public domain; however, the decision has to be taken by appropriate fora comprising eminent people who are knowledgeable about this.

COVID19: Busting Myths

v. **Government committed to fighting COVID in Rural and far flung areas**

v. **India is the second largest manufacturer of PPE kits in the world; PPE kits were made available to states in excess of their demands**

Some twitter users of late had tweeted about the management of COVID-19 in rural settings. Issues raised in these tweets range from lack of testing, isolation and clinical management facilities at village level, overmedication by healthcare workers, scarcity of PPE etc.

The availability of Rapid Antigen Kit and provision for swabbing for RT-PCR test in a primary health center located in a remote interior village in the hills, as brought out in these tweets, is testimony to the commitment of the Government to manage COVID in rural and far-flung areas. The PHC doctors have been trained in COVID testing protocol as evolved by Indian Council of Medical Research.

Taking note of ingress of COVID-19 cases from peri-urban and rural areas of the country during the resurgence of COVID-19 trajectory in preceding months, the Ministry of Health & Family has issued an SOP on COVID-19 Containment & Management in Peri-urban, Rural & Tribal areas. The Ministry of

Health & Family Welfare also ensured that these guidelines are widely circulated to the remotest health facilities.

After capping of Trade Margin by Government, prices of Oxygen concentrators come down upto 54%

National Pharmaceutical Pricing Authority (NPPA) vide notification dated 3rd June 2021 has capped the Trade Margin for Oxygen Concentrators at 70% on Price to Distributor (PTD) level. Pursuant thereto, a total of 104 manufacturers / importers of Oxygen Concentrators have submitted revised MRP for 252 products/brands.

Downward revision in price up to of 54% has been reported in 70 products/brands, showing reduction in MRP up to Rs. 54,337 per unit. Further, 58 brands have reported price reduction up to 25% and 11 brands between 26-50%. Out of 252 products/brands reported, 18 products/brands reported by the

domestic manufacturers did not show any decline in prices. Thus, Trade Margin Rationalisation (TMR) for Oxygen Concentrators has resulted in ensuring consumer savings by eliminating unreasonable profit margins in imported products.

v. **Union Health Ministry and Chairman, Empowered Group on Vaccine Administration (EGVAC) debunk news of hacking of CoWIN**

v. **CoWIN stores all the vaccination data in a safe and secure digital environment- Dr R S Sharma**

v. **“No Co-WIN data is shared with any entity outside the CoWIN environment”**

There have been some unfounded media reports of the CoWIN platform being hacked. Prima facie, these reports appear to be fake. However, the Union Health Ministry and the Empowered Group on Vaccine Administration (EGVAC) are getting the matter investigated by the Computer Emergency Response Team of Ministry of Electronics and Information Technology (MietY).

Dr R S Sharma, Chairman of the Empowered Group on Vaccine Administration (Co-WIN) has clarified that “Our attention has been drawn towards the news circulating on social media about the alleged hacking of Co-WIN system. In this connection we wish to state that Co-WIN stores all the vaccination data in a safe and secure digital environment. No Co-WIN data is shared with any entity outside the Co-WIN environment. The data being claimed as having been leaked such as geo-location of beneficiaries, is not even collected at Co-WIN.”

Busting Myths of Immunization: ‘COVID-19 Vaccine Communication Strategy’ covering details on Vaccine Hesitancy was shared with all the States/ UTs at the beginning of the COVID-19 Vaccination Drive

There have been certain Media reports alleging ‘Vaccine Hesitancy’ in rural areas by Health workers. It is informed that Vaccine Hesitancy is a globally accepted phenomenon and should be addressed by scientifically studying and addressing the issue at the community level. Keeping this in mind, a ‘COVID-19 Vaccine Communication Strategy’ covering details on Vaccine Hesitancy was shared with all the States/ UTs at the beginning of the COVID-19 Vaccination Drive. This strategy was also shared with the Mission Directors of National Health Missions of all States on 25th January 2021 as a part of the

Orientation of State Immunization and IEC Officers from all States/UTs on COVID-19 Vaccination Communication Strategy. All States/ UTs are following the same and adopting the strategy as per the local requirement. Several IEC materials and prototypes for all media – print, social& electronic media have been prepared and shared with states for suitable adaptation at the state level.

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1726211>

Busting Myths of Immunization: Equitable access to safe and effective vaccines is critical in ending the COVID-19 pandemic

The Government of India has been proactively trying to curb the wastage of COVID-19 vaccines and has been guiding the States and UTs in effectively using the doses in order to fight the pandemic.

There were some media reports stating that the Ministry of Health and Family Welfare's insistence in keeping vaccine wastage below 1% is unrealistic and undesirable.

It is submitted that COVID-19 pandemic has been an unprecedented event in global health in the last century, which has resulted in changing the way the world interacted and behaved. Vaccination against COVID-19 is important in protecting the people from COVID-19 infection and associated mortality and morbidity. Equitable access to safe and effective vaccines is critical in ending the COVID-19 pandemic. Vaccine development takes a lot of time and demand for these vaccines exceeds the supply many times. Thus, it is important to monitor and ensure that this precious tool to address the pandemic should be used optimally and judiciously. COVID-19 vaccine is an essential public health commodity with global scarcity. Therefore, vaccine wastage must be reduced and kept to a minimum level which will further help vaccinate many people. In fact, Hon'ble Prime Minister has also time and again emphasised on ensuring minimum Vaccine Wastage, to ensure that the vaccine reaches the maximum number of people.

Dr. Harsh Vardhan addresses 75th session of UNGA on prevention of HIV/AIDS

India has ably demonstrated that strong political leadership is most critical to address inequalities and gaps in epidemic response. During the COVID-19 pandemic, India took swift and timely action by involving communities, civil society, and development partners to mitigate the impact of COVID on HIV services. In India, the HIV & AIDS Prevention and Control Act, 2017, provides a legal and enabling framework to safeguard the human rights of infected and affected populations.

Union Health Secretary Shri Rajesh Bhushan chaired a high-level meeting yesterday with the States/UTs. The progress of vaccination was reviewed in the light of the revised guidelines for implementation of National COVID Vaccination Program and recent advisories. States were also informed of the modifications of CoWIN platform aimed to make it more effective as a backend management tool for the countrywide vaccination drive. The Union Health Secretary highlighted the low vaccination coverage among Healthcare Workers (HCW) and Frontline Workers (FLW), especially for the second dose for both the priority groups, terming it as a cause of serious concern.

Inputs from PIB Field Units

Kerala: Ahead of total lockdown on Saturday and Sunday, special concessions have been allowed today on the lock down which has been going on for 34 days in the state. This is in addition to the existing exemptions. Necessary journeys can be made with self-prepared affidavit without e-pass. The lockdown in Kerala has been extended till June 16. There has been a decline in test positivity rates and new Covid cases over the past few days. Health experts say the lockdown can be lifted if the test positive rate falls below 10 percent. Meanwhile, the state reported 14,424 new Covid cases yesterday and the TPR slightly dipped to 13.45 %. The state also confirmed 194 more deaths due to Covid-19 taking the toll to 10,631

Tamil Nadu: CM chaired a high-level meeting yesterday to decide on more relaxations to lockdown, which ends on June 14. The administration in TN’s Tiruppur district has ordered an enquiry into allegations that around 800 doses of vaccine meant for PHCs were diverted and sold to private garment factories. Tamil Nadu Thursday registered 16,813 new Covid-19 cases, and the total number of infections has touched 23,08,838. 358 patients died, 32,049 patients were discharged across the State. Greater Chennai Corporation Commissioner has said 21 lakh people have received vaccines in the metropolis so far. Till date 1,02,60,805 have been vaccinated across TN, of which 81,46,496 received first dose and 21,14,309 received second dose.

Karnataka: New Cases Reported: 11,042; Total Active Cases: 2,10,652; New Covid Deaths: 194; Total Covid Deaths: 32,485. Around 1,81,832 were vaccinated yesterday with a total of 1,61,64,515 have been vaccinated in the state till now. 11 districts where the infection is more severe, lockdown is continued

with some tightened restrictions, while the remaining 20 have been little relaxed towards semi lockdown. The state government launched the 'Queue System' of Covid hospital bed management in the city on Thursday, promising a hassle-free, automated alternative to the previous controversial mechanism.

Andhra Pradesh: State reported 8110 new Covid-19 cases after testing 97,863 samples with 67 deaths, while 12,981 got discharged during the last 24 hours. A total of 1,14,80,538 doses of Covid vaccines have been administered in the state as on yesterday, which include 88,75,588 first doses and 26,04,950 second doses. There have been 1975 black fungus cases in the state so far, of which 110 patients have died and others recovered while there are 1350 active cases. The State is preparing a list of all eligible mothers with kids below five years for vaccination. Meanwhile, the Andhra Pradesh High Court has directed the state government to administer Covid-19 jab to people staying in old age homes and prisons and to migrant labourers without insisting on identity cards like Aadhaar. The court further directed the government to complete giving jab to the people in old age homes all over the state in two days.

Telangana: 1798 new Covid cases and 14 fatalities were reported in the state yesterday taking the total number of positive cases in the state to 5,98,611 and fatalities to 3,440. With recovery of 2,524 patients yesterday, the total number of positive cases in the state now stands at 23,561. A consortium of four city clusters – Hyderabad, Bangalore, New Delhi and Pune – has been established with eight national labs to upscale SARS-COV-2 corona virus genomic surveillance and to complement the national efforts by Indian SARS-COV-2 Genomics Consortium (INSACOG). The Hyderabad-based CSIR-Centre for Cellular and Molecular Biology (CCMB) will lead the new efforts which will track the emergence of viral variants correlated to epidemiological dynamics and clinical outcomes.

Maharashtra: Maharashtra has reached the milestone of 25 million vaccinations. 20 million in the state have got at least one dose and 5 million are fully vaccinated. Maharashtra on Thursday reported 12,207 coronavirus positive cases and 393 fatalities, which took the state's infection count to 58,76,087 and death toll to 1,03,748. Thursday's case count is slightly higher than what the state had been reporting over the last three days. The state's recovery rate is 95.45 per cent and the fatality rate is 1.77 per cent. Mumbai reported 660 new coronavirus cases on Thursday, the lowest since February 23 this year.

Gujarat: In Gujarat, major unlocking process begins from today following sharp fall in Covid19 cases. According to the new unlock guidelines, all religious places along with the markets have opened from this morning with certain restrictions. Hotels and restaurants can operate between 9 AM to 7 PM with 50 per cent sitting capacity. The state government has also allowed the opening of parks, gardens and libraries between 6 AM to 7 PM.

State government is likely to announce more unlock measures from 26th June after reviewing the Covid19 situation. Gujarat added 544 new coronavirus cases and 11 more casualties on Thursday. The recovery rate in the state now stands at 97.23 per cent.

Rajasthan: In Rajasthan, special arrangements have been made for such groups of people for Covid vaccination, who do not have any photo ID card or are not able to register themselves on Covin software. Following the guidelines of the Central Government, special vaccination sessions are being organized by the Medical Department for Divyang, nomadic, Saint-Mahatma, helpless people, prisoners in various jails and patients admitted in psychiatric hospitals. Rajasthan's COVID-19 caseload rose to 9,48,562 on Thursday with 538 fresh infections while the death toll mounted to 8,772 as 23 more people succumbed to the viral disease.

Madhya Pradesh: Madhya Pradesh on Thursday reported 420 new covid 19 cases and 34 deaths while 1,132 patients recovered from infection. 49 out of 52 districts reported below 10 Covid-19 cases. Eight districts including Shahdol, Damoh, Panna, Mandala, Harda, Alirajpur, Agar-Malwa and Bhind recorded no positive case. Meanwhile, offices of Ministry of Information and Broadcasting are also conducting awareness drive for vaccination. UNICEF and the Press Information Bureau, in partnership with the state health department organised an interactive session on vaccination for farmers. The need for vaccination and the myths and rumours related to it were discussed at the session.

Chhattisgarh*- As the COVID positivity rate is falling in the state, the Chhattisgarh government has decided to commence non-Covid emergency and general health services in all government and private hospitals. From the earlier 70 percent, now only 20 percent beds are to be reserved for Covid patients. The state has covered 20 percent of the population through one dose. Chhattisgarh stands 13th at the national level in vaccination.

Chhattisgarh on Thursday reported 1,034 new COVID-19 cases and 14 deaths, taking the infection count to 9,84,950 and the death toll to 13,285. The number of recoveries rose to 9,54,390 after 292 people were discharged from various hospitals while 1,566 others completed their home isolation during the day. The number of active cases in the state stands at 17,275.

Goa: Goa's coronavirus caseload went up by 413 and reached 1,61,153 on Thursday, while nearly 600 patients recovered from the infection. The death toll rose to 2,891 as 13 more patients succumbed to the infection, he said. The number of recovered cases in the state rose to 1,52,657 after 585 patients were discharged from hospitals during the day.

Assam: 51 more COVID-19 deaths were reported in Assam in the last 24 hours, while 3,756 new infections were detected in 1,22,313 tests during the day. Kamrup Metro saw 323 new cases. On the day of completion of one month in office, CM Himanta Sarma on Thursday handed over the document of Rs 7.81 lakh fixed deposit, a cheque of Rs 3,500 and a laptop each to 11 children orphaned in Assam due to Covid pandemic. CM Himanta Biswa Sarma said that the High School Leaving Certificate and Higher Secondary final examinations in the state would be held between July 15 and July 20 provided the positivity rate of COVID-19 cases drops below 2 percent by July 1. He also inaugurated the first ever DRDO supported 300 bed COVID hospital in Northeast in Guwahati on Thursday.

Manipur: The Union Health and Family Welfare Ministry on Thursday stated that the Central government has allocated two oxygen plants of 1,000 LPM each to RIMS, Imphal and the plants are proposed to be commissioned by 30th June. COVID-19 positive cases continue to climb with 730 new daily cases and 10 more deaths due to the infection in Manipur on Thursday, the state health department stated. 4,52,635 people in the State have been administered the COVID Vaccine as of Thursday, while a total of 1345 D-type Oxygen cylinders and 521 B-type Oxygen Cylinders have been made available to various health facilities in the state. Govt issues guidelines for COVID-19 management in kids in the State.

Meghalaya: After 13 days of respite, new cases of COVID-19 surpassed the number of recoveries in Meghalaya on Thursday. 603 fresh cases were reported in the state against 427 recoveries. Given the perceived third wave, the State Government has constituted a committee of pediatricians and gynecologists to formulate plans and policies for effective management of pediatric Covid-19. The committee will be headed by Dr. Hunsigiri, Retd. Addl. DHS(MCH). Meghalaya will intensify the COVID-19 vaccination drive following the Centre's decision to give free vaccines to the states for the 18-44 years category from June 21. "The strategy of the state government is going to change as Government of India has agreed to supply the vaccines for the 18 plus category. We will combine the two categories of 18 plus and 45 plus," Chief Minister, Conrad K Sangma told reporters on Thursday.

Nagaland: Nagaland registered 113 new COVID-19 cases and 6 deaths on Thursday. 3,26,191 persons have been administered COVID vaccine in Nagaland so far, according to an update from the State Immunisation Officer Dr Ritu Thurr. State Health Department informed that CoWIN portal would open from 9 am onward on June 13 and June 20 for booking of slots for 18-44 yrs age group in the state.

Tripura: From today till 18th of this month, in six urban areas including Agartala Municipal Corporation Covid curfew will continue as the rate of COVID-19 cases is more than 5 percent. Since morning 6 to 2 PM essential shops will remain open in these areas. 658 samples tested positive with positivity rate of 4.42% while 5 died in last 24 hours.

Sikkim: Three more people lost their battle against Novel Coronavirus in the last 24 hours in Sikkim, taking the State's COVID-death toll to 279 today. Sikkim recorded 287 fresh cases of novel Coronavirus in the past 24 hours taking the state's tally of confirmed cases of COVID-19 to 17,943. The number of active Covid cases currently stands at 4040 in Sikkim.

Punjab: The total number of patients tested Positive is 584785. Number of active cases is 16244. Total Deaths reported is 15367. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1180420. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 313141. Total above 45 Vaccinated with 1st dose is 3038175. Total above 45 Vaccinated with 2nd dose is 499024.

Haryana: Total Number of Samples found positive till date is 764633. Total active COVID-19 patients is 6365. Number of deaths is 8861. Cumulative number of people vaccinated till date is 6315736.

Chandigarh: Total Lab confirmed COVID-19 cases is 60928. Total number of Active Cases is 581. Total number of COVID-19 deaths till date is 783.

Himachal Pradesh: Total number of patients tested Covid positive till date is 197438. Total number of Active Cases is 6338. Total deaths reported till date is 3342.

COVID-19 UPDATE

- v. India reports less than 1 lakh Daily New Cases for the 3rd successive day
- v. India's Active Caseload further declines to less than 12 lakh after 60 days
- v. Daily Recoveries continue to outnumber the Daily New Cases for 28th consecutive day
- v. Recovery Rate increases to 94.77%
- v. Daily Positivity Rate stands at 4.69%, less than 10% positivity for 17 continuous days

India has reported 94,052 Daily New Cases in the last 24 hours. The country has recorded less than 1 lakh Daily New Cases for 3 continuous days now. This is a result of sustained and collaborative efforts by the Centre and the States/UTs. India has been witnessing a continuous fall in the active caseload. The country's Active Caseload today stands at 11,67,952. A net decline of 63,463 is witnessed in the last 24 hours and active cases are now 4.00% of the country's total Positive Cases. As more people are getting recovered from COVID infection, India's Daily Recoveries continue to outnumber the Daily New Cases for the 28th consecutive day. 1,51,367 recoveries were registered in the last 24 hours. 57,315 more recoveries were reported during the last 24 hours as compared to the daily new cases.

COVID-19 Vaccination UPDATE

- eVIN used by Health Ministry for inventory management of Vaccines under UIP and tracking storage temperature data of UIP Vaccines
- Union Govt committed to preventing any misuse of this sensitive eVIN data for unauthorised commercial purposes
- Union Govt also committed to transparency in COVID-19 vaccination programme including data associated with it as reflected on Co-WIN

Some media reports have highlighted the letter of the Union health Ministry to States/UTs regarding the eVIN inventory and temperature data. The Government's advice to States/UTs to obtain permission of the Union Ministry of Health before sharing the E-VIN data & analytics related to vaccines stocks and the temperature at which they are stored, is solely to prevent any misuse of this data by various agencies for commercial purpose.

Hybrid Multiply Face Masks: An Alternative to N95 Respirator

Parisodhana Technologies Pvt. Ltd. was supported partly by BIRAC and IKP Knowledge Park, under the Fast-Track COVID-19 fund to develop hybrid multiply face masks, SHG-95® (Billion Social Masks). These 'Made in India' face masks provide high particulate (>90%) and bacterial filtration efficiency (>99%). The face masks so developed ensure high breathability, have comfortable ear loops, and are convenient to be used even in tropical conditions since they are prepared from purely hand weaved cotton contact materials. A special filtration layer is an added advantage. The cost of these hand washable and reusable face masks has been estimated as INR 50-75 per piece by the company, making it affordable for general public as well.

Shri Dharmendra Pradhan dedicates to the nation Jumbo COVID-care facility in Bhilai, Chhattisgarh

Union Minister of Petroleum and Natural Gas & Steel Shri Dharmendra Pradhan today dedicated to the nation, a 114 bedded COVID Care Facility in Bhilai Steel Plant (BSP) of SAIL in Chhattisgarh. This hospital is equipped with gaseous oxygen and has been set up after laying a pipeline of 1.5 Km for supply of gaseous oxygen from the plant. This is the first phase of this project which aims to scale up to reach a total of 500 oxygenated beds in the subsequent two more phases. The centre has a facility of double oxygen backup supply. Apart from gaseous oxygen as the main source, there is also provision of back-up of stored Liquid Medical Oxygen. The facility is also equipped with necessary internet & telecom services to facilitate IT requirements and remote consultancy.

Inputs from PIB Field Offices

Kerala: All popular holiday destinations in Kerala may soon be declared as complete "vaccinated zones" as the state government is mulling to provide Covid-19 jab to everyone in the tourism sector, which had suffered massive losses due to the pandemic. State Tourism Minister P A Mohammed Riyas told the state Assembly today that the government has already started providing vaccines to those working in the industry after including them in the prioritised list considering them as front line Covid fighters. The State government has also decided to initiate steps to set up a vaccine manufacturing unit at the Life Science Park in the state capital. A working group will be formed which will take up the discussions with major vaccine manufacturers and initiate the steps for production. Meanwhile, the state reported 16,204 new Covid cases yesterday and the TPR stood at 14.09 %. With 156 new fatalities, the death toll mounted to 10,437. So far a total of 1,09,20,453 people have been vaccinated in the state. Out of this, 87,15,715 received first dose and 22,04,738, second dose.

Tamil Nadu: TN assembly session will begin at KalaivanarArangam from June 21 following Covid19 protocols; MLAs and all Assembly staff to have a Covid negative to be allowed inside. Overturning its earlier decision, Tamil Nadu government has decided not to hold entrance exams for admission to Class 11 and instead increase the number of seats by 10-15 per cent in government and government-aided schools. Tamil Nadu Health Secretary has sent an urgent message to the Centre, stating that the state has run out of vaccine stocks. Over 3,800 metric tonnes of liquid medical oxygen (LMO) has been

delivered to Tamil Nadu through 56 oxygen express trains till date. State Health Minister Ma. Subramanian said as many as 1,052 cases of Mucormycosis were reported in the state so far. TN reported 17,321 fresh cases of Covid-19 and 405 deaths on Wednesday, taking the State's tally to 22,92,025 and toll to 28,170. Till date 1,02,18,925 have been vaccinated across the State, of which 81,07,953 received first dose and 21,10,972 received second dose.

Karnataka:As per the State Government bulletin released for 09-06-2021, New Cases Reported: 10,959; New Covid Deaths: 192. Around 1,75,966 were vaccinated yesterday with a total of 1,59,33,071 have been vaccinated in the state till now. Doctors are being trained to treat children as a precautionary measure in the wake of the experts' view that children are likely to be infected by the third wave of the corona. Union Minister for Chemicals and Fertilizer DV SadanandaGowda said on Wednesday that the Centre had provided 15,520 Vials of Amphotericin-B injection to the state for the treatment of black fungus.The state government will launch a free vaccination drive from Thursday that will cover 10,000 sports persons in Karnataka. The Department of Railways has so far delivered 3,340 tonnes of oxygen to Karnataka. The government released Rs 2,000 subsidy to registered street vendors under the DeendayalAntyodaya Scheme of Skill Development, Entrepreneurship and Livelihood Department

Andhra Pradesh: State reported 8766 new Covid-19 cases after testing 93,511 samples with 67 deaths, while 12,292 got discharged during the last 24 hours. A total of 1,12,24,580 doses of Covid vaccines have been administered in the state as on yesterday, which include 86,27,811 first doses and 25,96,769 second doses. Principal Secretary (Health) Anil Kumar Singhal said that AP has purchased yet another 16,54,000 doses of vaccines from various companies which are yet to come, while under the Central government quota, 51,40,000 doses are expected by June. He announced that the first dose of corona vaccine will be administered by July 10 to mothers having children below the age of five. The government has decided to vaccinate the elderly without any Aadhaar card. Meanwhile, junior resident doctors have called off their strike and are resuming duties from today.

Telangana:The State Government has decided to cancel the Intermediate Second Year (12th Class) examinations due to the prevailing pandemic situation. As many as 1813 new Covid cases and 17 fatalities were reported yesterday taking the total number of cases in the state to 5,96,813 and deaths to 3426. State Finance Minister Shri Harish Rao and the Chief Secretary Shri Somesh Kumar yesterday reviewed the progress of Covid vaccination drive in the state with concerned officials and decided to inoculate 10 lakh people in the next four days covering super spreaders/high risk groups in major urban local bodies. It has also been decided to include dialysis and thalassaemia patients, employees of banks, postal, revenue and electricity departments and Self-Help Group women in the priority list. A total of 1,63,578 people of all categories received first dose of Covid vaccine and 10,724 received second dose yesterday taking the cumulative number of people who received first dose in the state to 57,48,744 and second dose to 14,69,555.

Maharashtra: The second wave of corona is continuously receding in the state. The number of new cases has remained low since last Monday after the districts were divided into different levels and the restrictions were relaxed accordingly. In the state, 16,379 patients were cured from corona on Wednesday. As a result, the total number of cured patients has reached 55,97,304. As a result, the recovery rate of patients in the state has also improved to 95.45 percent. The number of daily cases in Pune is still higher than other cities, followed by Mumbai and Kolhapur.

Gujarat: Amidst the decreasing cases of corona, the Gujarat government has decided to relax the restrictions from June 11 to 26. During this period, hotels and restaurants, gyms can operate with 50 per cent capacity from 9 am to 7 pm. However, night curfew will continue between 9 pm and 6 am in 36 cities, officials said. On June 9 (Wednesday), 644 cases of corona infection were registered, while 10 people died. The number of active cases of corona in the state is 13683, while so far 794703 people have reached home after recovering. The small village of Dugdol in Banaskantha district with a population of about 3000 remained free from corona due to self-discipline. 2,66,223 people were vaccinated on Wednesday and it includes 1,87,269 people in the age group of 18-44 years. In all, a total of 1.91 crore people have been vaccinated so far.

Rajasthan: In the last seven days, at least 50 persons succumbed to mucormycosis or black fungus in the state, which takes the total number of deaths due to black fungus to 128. Active cases are now only 1.2% of the state's overall positive cases. In the last 24 hours, the state reported 30 Covid deaths while 520 tested positive taking the casualty count to 8,749 and overall tally to 9,48,024. In collaboration with the local-self government (LSG) department, the health department is planning to organise special vaccination camps for people living in shelters (homeless people) in the state.

Madhya Pradesh: Markets opened today in Bhopal after a two month break. Vaccination of 15,000 shopkeepers was done in the 39 special camps arranged for them. Private offices started functioning with 50% attendance. Hotels, resorts are also allowed to open. Restaurants can provide take home and home delivery. There were 537 new infection cases in Madhya Pradesh on Wednesday. More than 10 cases have been reported in 7 districts of the state. 179 new cases were found in Indore and 124 in Bhopal. 46 in Jabalpur. The number of cases of Black Fungus are reducing and number stands at 1056 now.

Chhattisgarh: 72 lakh 1,826 vaccines have been administered in Chhattisgarh so far, to prevent corona infection. The state ranks among the first two states in immunization of health workers and figures among the first ten states to vaccinate citizens above 45 years of age. More than 9 lakh in the age group of 18 years and above have received the first dose of vaccine so far. 90 percent health workers, 100 percent frontline workers and 77 percent citizens of the state above 45 years of age have also been given the first dose to prevent corona infection. In urban areas of Chhattisgarh, people living in slums are getting the benefit of regular check-up-treatment-medicine from Mobile Medical Units (MMUs), which has proved to be very useful in controlling the infection and till date, ten thousand camps have been organized under this scheme.

Goa: Stating that the TikaUtsav has enabled the government to reach out to people, Chief Minister Pramod Sawant said the State government was contemplating on launching TikaUtsav 3.0 to vaccinate maximum people in the age group of 18-44. The State government has dropped the proposal of purchasing Ivermectin after the central government recently dropped the anti-parasitic drug from its

Covid management protocol. 456 new COVID-19 cases were identified on Wednesday, which takes the number of active cases to 5790. Also, 16 deaths were reported on Wednesday. The state's recovery rate stands at 94.61%

Assam:The positivity rate of the Covid-19 went up slightly to 3.24 percent on Wednesday when 3,751 new cases were detected in the State. Fifty-five people died of the virus on Wednesday. Assam Health Minister KeshavMahanta on Wednesday stated that the vaccination process will be completed by August 15 in the state. Mahanta informed that the Covid vaccines will be available in the state from June 21.

Manipur:Seven fatalities, 775 new positive cases reported in the state.State records another post-vaccination fatality.Negative Covid certificate now needed to open pharmacies/oil pumps. Drive conducted to check certificates in the state.The number of persons vaccinated in Manipur reached 4,41,745.

Meghalaya:Recoveries continue to overshadow fresh cases in the state. 507 people recuperated from the virus as against 448 fresh cases.The genome sequencing report received by state government on Wednesday has revealed the presence of the highly infectious Delta variant of SARS-CoV-2 in Meghalaya resulting in a higher rate of hospitalisation in the state.The Meghalaya government has revised the entry-exit protocol making RT-PCR testing mandatory for all entrants to the state regardless of whether they have a COVID-negative certificate in their possession..

Sikkim:Out of 2135 Covid tests conducted on Wednesday, Sikkim recorded 231 new positive cases and one Covid-related death. The total active tally now is 3869, with 371 recoveries.

Tripura: 625 people tested positive while 16,804 samples were tested and positivity rate of 3.72% recorded in last 24 hours. State also registered 14 deaths which is the highest ever single day figure. While Health Secretary and NHM MD visited GBP hospital as being directed by the CM of Tripura.

Nagaland: Lockdown extended in Nagaland by one week till June 18 with more relaxations. Shops allowed to open from 6 am till 2 pm. Light motor passenger vehicles allowed to ply on odd-even basis. No mask - no movement to be strictly enforced by District Task Forces. CM Neiphiu Rio to launch Nagaland Covid Info App . The app will provide easy to access Covid info and also status of hospital beds.

Indigenously designed & manufactured high purity oxygen concentrator being supplied to Indian hospitals

An indigenously designed oxygen concentrator, which ensures high-purity oxygen supply, is now out in the market. An Indian startup has designed developed this affordable portable oxygen concentrator and is now manufacturing it for supply to various hospitals in the country. Oxygen saturation levels of patients have been a major challenge in the treatment of COVID 19, especially in the second wave. Indian medical devices manufacturers and indigenous automation companies took this challenge up and came up with innovative designs of ventilators, portable respiratory aids, and related devices.

Inputs from PIB Field Units

Kerala: According to the health department, 1,50,66,820 people belonging to the 18-45 age group are to be vaccinated in the state. So far, a total of 1,07,76,871 vaccination doses have been given in the state for 45 plus age group. Out of this, 85,82,771 were first dose and 21,94,100 second dose. Meanwhile, the government has decided to vaccinate the bedridden patients and senior citizens who cannot move out, at their residences. The state confirmed 15,567 Covid-19 cases on Tuesday. As of now, there are 1,43,254 active cases in the state. 124 deaths due to the virus on Tuesday with the toll rising to 10,281. The test positivity rate stands at 14.15 %.

Tamil Nadu: The State government has declared 15 medical items, including mask and hand sanitisers, as essential articles and fixed maximum retail prices (MRP) for them under Tamil Nadu Essential Articles Control and Requisitioning Act. Tamil Nadu CM M.K. Stalin wrote to the CMs of 12 other States on Tuesday, urging them to come together to press the Centre for a moratorium on loan repayment for MSMEs. Number of mucormycosis patients crossed 1,000 in TN; the State requires 35,000 vials of Amphotericin B for the treatment of mucormycosis. The daily tally of Covid-19 cases dipped to 18,023 in Tamil Nadu on Tuesday, however, the number of deaths crossed 400 as the State recorded 409 fatalities. Till date 1,01,67,260 have been vaccinated across TN, of which 80,60,098 received first dose and 21,07,162 received second dose.

Karnataka:As per the State Government bulletin released for 08-06-2021, New Cases Reported: 9,808; Total Active Cases: 2,25,004; New Covid Deaths: 179; Total Covid Deaths: 32,099. Around 1,94,246 were vaccinated yesterday with a total of 1,56,76,863 have been vaccinated in the state till now. There has been a drastic reduction in Corona infection and deaths in the state. After 56 days, the number of daily cases falls within the 10 thousand limits, and after 42 days the number of deaths is within 200. Positivity rate of tests has dropped below 3% after 50 days in Bangalore. Athletes representing State and nation will be given free vaccines on Thursday and Friday.

Andhra Pradesh:State reported 7796 new Covid-19 cases after testing 89,732 samples with 77 deaths, while 14,641 got discharged during the last 24 hours. Total cases: 17,71,007; Active cases: 1,07,588; Discharges: 16,51,790; Deaths: 11,629. A total of 1,10,37,411 doses of Covid vaccines have been administered in the state as on yesterday, which include 84,49,909 first doses and 25,87,502 second doses. Monoclonal antibodies cocktail therapy for Covid has started in Nellore district and the authorities provided these injections to more than 10 people so far. The health and family welfare department has directed its medical officers to prepare the list of mothers having children below five years of age so as to vaccinate all the mothers as per vaccine availability. Meanwhile, the health department invited junior doctors to hold discussions as they have proceeded on strike since this morning. Junior resident doctors are demanding for health insurance and ex-gratia facilities to be provided, besides incentives and increased security arrangements in hospitals and to stopping TDS deduction.

Telangana:The State Cabinet has decided to extend lockdown in the state by 10 days from 9th of this month with relaxation from 6.00 AM to 6.00 PM. A total of 1,897 news daily cases and 15 deaths were reported yesterday taking the total number of cases in the state to 5,95,000 and fatalities to 3409. The number of Active Cases in the state now stands at 24,306. The recovery rate is reported to be at 95.34 percent against the national average of 94.24 percent. The special vaccination drive to inoculate the students going abroad for higher studies is on in the state. All-out efforts are on to complete the special drive by Friday next because the students need to wait for a month to get their second Covid dose.

Maharashtra: Maharashtra on Tuesday reported 10,891 new cases of Coronavirus infection, taking the state's tally of total cases to 58,52,891. 16,577 patients were discharged from various hospitals post recovery on Tuesday, taking the total number of recoveries to 55,80,925. Whereas the death toll increased by 295 to 1,01,172. The number of active cases stands at 1,67,927. Maharashtra's recovery rate stands at 95.35 per cent while the case fatality rate stands at 1.73 per cent. Mumbai on Tuesday reported seven deaths due to Covid-19, the lowest in the last two-and-a-half months since the city recorded seven deaths on March 20 at the onset of the second wave of the pandemic. On Tuesday, 682 fresh Covid-19 cases were recorded in Mumbai. Positivity rate has remained steady below 3 per cent since the last few days. In order to protect the elderly and sick people who are unable to walk and are bedridden, the Navi Mumbai Municipal Corporation (NMMC) carried out a special vaccination session at Narmada Niketan, Vishramdham and Parijat Ashram in Belapur. The beneficiaries were re-registered on the Government Cowin Portal.

Gujarat: The Gujarat government has exempted the cinema halls, multiplexes and gyms from paying property tax during the last financial year due to Covid-19 pandemic. Meanwhile, Gujarat has recorded 695 new cases of Covid-19 infections on Tuesday. 2122 patients recovered during the last 24 hours and were discharged from the hospitals. Total 7,93,028 patients have recovered from Covid-19 in Gujarat till now. The recovery rate further improved and reached up to 96.98 percent. 11 patients lost their lives on Tuesday. Gujarat has now 14,724 active cases at present, out of which 351 patients are on ventilator. Meanwhile, 2,58,797 persons have been vaccinated in the state on Tuesday.

Rajasthan: The Rajasthan government has announced certain relaxations to the COVID-19 lockdown imposed in the state following a dip in the number of infections and the positivity rate. Under the modified guidelines issued by the Home department to come into effect from June 8, government and private offices in the state can stay open till 4 pm with 50 percent of staff presence. The Rajasthan government has issued an order for forming committees at the state, district and block levels to ensure proper utilisation of coronavirus vaccines. These teams will also conduct a detailed audit of disposal of vaccine doses that have been wasted.

Madhya Pradesh: Chief Minister Shivraj Singh Chouhan while reviewing Covid control efforts in the state, directed officials to generate awareness among the people regarding Covid vaccination. Shivraj Singh Chouhan has also directed his officials to ensure that all citizens above the 18 years of age are vaccinated and vaccines are not wasted. The state's average positivity rate for 7 days is 0.9 percent. Out of the total active patients of the state, 4,521 are in home isolation and 3,462 in hospitals. No cases of Corona have been reported in 6 districts of the state including Alirajpur, Bhind, Chhatarpur, Katni, Singrauli and Tikamgarh.

Chhattisgarh: Chhattisgarh on Tuesday reported 1,102 COVID-19 cases and 14 deaths, taking the infection count to 9,82,962 and the toll to 13,257. The number of recoveries reached 9,50,234 after 509 people were discharged from hospitals and 1,798 completed their home isolation during the day. The number of active cases in the state stands at 19,471.

Chhattisgarh has so far administered 71.51 lakh anti-Covid doses to people. All frontline workers and 90 percent of the health staff have been vaccinated with the first dose. In the 18-44 years age group, 8,85,736 people have been vaccinated.

Goa: Goa on Tuesday saw 473 new COVID-19 cases and 14 casualties that raised the tally of infections to 1,60,284 and toll to 2,859. The count of recoveries rose to 1,51,526 in the state, after 957 persons were discharged from hospitals during the day. The coastal state is now left with 5,899 active cases.

Assam: 43 people died of the COVID-19 in Assam on Tuesday when 3,948 new COVID-19 cases were detected. The positivity rate in the State is 2.96 percent. The State Health Department has instructed the districts to constitute task force to ensure that the private hospitals do not overcharge COVID patients. The Guwahati High Court has directed the Assam Government to file its response on setting up of post-COVID clinics in the State since patients require constant monitoring even after testing negative.

Manipur: The second wave of the global Coronavirus pandemic continues to exact a heavy toll with Manipur reporting 12 more deaths and recording 748 new positive cases in the last 24 hours. In a tragic incident a young woman and mother of a 7 month old child from Khangabok Part -1 KhullakpamLeikai, Thoubal died shortly after taking Covishield (COVID-19 vaccine) on Monday.

Nagaland: Nagaland registers 133 new COVID-19 cases and 3 deaths on Thursday. Active cases are 4676 while total is 23,051. Lockdown may continue in Nagaland with some relaxations. Sources say state govt likely to go for lockdown extension in view of fresh spike of COVID-19 cases in rural areas. Random COVID-19 testing conducted at Kiphere Town. Intensified vaccination drive to be held on June 9 from 10 am at GovtHr Sec School.

Tripura: 700 people tested positive of COVID-19 while 5 died in last 24 hours, total tests done is 15,873. Agartala Municipality Area still has 11.99% of positivity rate while overall positivity rate in the state is 4.41%.

Sikkim: Sikkim reported 255 new cases of Novel Coronavirus from the testing of 3,026 samples. 12,894 of the 17,425 cases of COVID-19 detected in the State thus far have already made full recoveries. There are currently 4,018 active Covid cases in the State, of whom 188 have symptoms severe enough to require hospitalisation and 22 of them are admitted in Intensive Care Units for Covid patients at CRH-Tadong and STNM Hospital, Gangtok. Covid's death toll in Sikkim now stands at 275, of which 139 deaths occurred in the past month and half that the second wave has been here.

Meghalaya: The COVID-19 cases in Meghalaya continued its downward slide with the daily caseload coming down below the 400-mark after 31 days. The active tally has also come down below the 5,000-mark after 22 days. The state recorded 379 fresh cases while 773 recoveries on the day brought the active tally down to 4,924. With the second wave of COVID-19 showing a declining trend, the North Eastern Indira Gandhi Institute of Regional Health and Medical Sciences (NEIGRIHMS) is preparing for a perceived third wave of the pandemic.

Punjab: The total number of patients tested Positive is 582081. Number of active cases is 18546. Total Deaths reported is 15219. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1157194. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 311812. Total above 45 Vaccinated with 1st dose is 3019909. Total above 45 Vaccinated with 2nd dose is 495043.

Haryana: Total Number of Samples found positive till date is 763566. Total active COVID-19 patients is 7531. Number of deaths is 8789. Cumulative number of people vaccinated till date is 6107857.

Chandigarh: Total Lab confirmed COVID-19 cases is 60778. Total number of Active Cases is 685. Total number of COVID-19 deaths till date is 779.

Himachal Pradesh: Total number of patients tested Covid positive till date is 196351. Total number of Active Cases is 6983. Total deaths reported till date is 3312.

Frequently Asked Questions on COVID-19 Vaccination

Dr. V K Paul, Member (Health), NITI Aayog and Dr. Randeep Guleria, Director, All India Institute of Medical Sciences have addressed various doubts people have regarding COVID-19 vaccines in a special programme on DD News on Sunday the 6th June. To see the detailed FAQs Click Here: <https://pib.gov.in/PressReleasePage.aspx?PRID=1725244>

Prime Minister Shri Narendra Modi's address to the Nation on COVID-19 (7th June, 2021)

The Prime Minister expressed condolences for the people who lost their lives in the pandemic. Terming the pandemic the biggest calamity of last hundred years, a pandemic not seen nor experienced in the modern world, the Prime Minister said that the country fought the pandemic at many fronts. Shri Modi made many important announcements.

Key Points:

- **Government of India to provide free vaccine to all Indian citizens above 18 years of age**
- **25 per cent vaccination that was with states will now be undertaken by Government of India: PM**
- **Government of India will buy 75 per cent of the total production of the vaccine producers and provide to the states free of cost: PM**
- **Pradhan Mantri Garib Kalyan Anna Yojna extended till Deepawali: PM**
- **Till November, 80 crore people will continue to get free food grain every month**
- **Supply of vaccine to increase in coming days: PM**
- **PM informs about development progress of new vaccines**
- **Vaccines for children and Nasal Vaccine under trial: PM**

- **Those creating apprehensions about vaccination are playing with the lives of people: PM**

Fresh Order for Vaccines placed to achieve Universalization of Vaccination

In immediate follow-up of the Hon. Prime Minister's announcement of these changes in the Guidelines of National COVID Vaccination program yesterday, the Union Health Ministry has placed an order with Serum Institute of India for 25 crore doses of Covishield and with Bharat Biotech for 19 crore doses of Covaxin. These 44 crore (25+19 cr) doses of COVID-19 vaccines will be available till December 2021, starting now. Additionally, 30% of the advance for procurement of both the Covid Vaccines has been released to Serum Institute of India and Bharat Biotech.

“No data to show children will be seriously infected in subsequent COVID-19 waves”

“It is a piece of misinformation that subsequent waves of the COVID-19 pandemic are going to cause severe illness in children. There is no data - either from India or globally - to show that children will be seriously infected in subsequent waves.” This was informed by Director, All India Institute of Medical Sciences (AIIMS) Delhi, Dr. RandeepGuleria, during a media briefing on COVID-19, held at National Media Centre, PIB Delhi today.

Dr. Guleria cited that 60% to 70% of the children who got infected and got admitted in hospitals during the second wave in India, had either comorbidities or low immunity; healthy children recovered with mild illness without need for hospitalization.

Centre issues SOPs for vaccination of persons undertaking international travel for educational purposes, or employment opportunities, or as part of India's contingent for Tokyo Olympic games

It has been a constant endeavour of the Union Government to streamline the vaccination process to increase coverage of all segments of the population. In this regard, taking note of the several representations received by Union Ministry of Health & Family Welfare for allowing administration of second dose of Covishield for such persons who have only taken first dose of Covishield and are seeking to undertake international travel for educational purposes or employment opportunities or as part of India's contingent for Tokyo Olympic games, but whose planned travel dates fall prior to completion of the currently mandated minimum interval of 84 days from the date of first dose, Union Health Ministry has written to States/UTs to facilitate vaccination of such persons.

The Ministry had issued SOPs yesterday in this regard which have been conveyed to States/UTs. States/UTs have been advised to widely publicize and take all necessary measures to immediately implement these SOPs.

Details: <https://pib.gov.in/PressReleasePage.aspx?PRID=1725119>

Inputs from PIB Field Units

Maharashtra: Maharashtra has reported the maximum number of mucormycosis cases (6,339) in India. India has so far reported 28,252 cases of mucormycosis.

Maharashtra on Monday recorded as many as 10,219 new coronavirus cases, the lowest since March 10, taking the tally of infections in the state to 58,42,000, the death toll increased to 1,00,470 with 154 new fatalities. Maharashtra's recovery rate of COVID-19 cases is 95.25 per cent, while the fatality rate is 1.72 per cent.

Gujarat: Gujarat on Monday reported 778 fresh coronavirus positive cases and 11 fatalities, taking the tally to 8,17,012 and the toll to 9,944. With 2,613 patients being discharged during the day, Gujarat's cumulative count of recoveries rose to 7,90,906, leaving the state with 16,162 active cases. Gujarat's case recovery rate improved further to 96.80 per cent on Monday. Gujarat government has exempted the hotels, resorts, restaurants and water parks in the state from paying property tax and fixed electricity charges for one year. This relief has been granted from 1st April 2020 to 31st March 2021 due to Covid19 pandemic.

A total of 2,59,192 people received COVID-19 vaccine jabs in Gujarat during the day, taking the count of doses administered so far to 1,86,55,846. A total of 1,86,825 doses were administered to people in the age group of 18 to 44 years in the day, raising the number of the beneficiaries in this group in Gujarat to 26,62,353.

Rajasthan: In Rajasthan, the State Government has announced some more relaxations under Unlock 2.0. The new guidelines issued by the Home Department yesterday night have come into effect from 5 a.m. today. Persons coming to Rajasthan and have taken both doses of COVID vaccine 28 days ago now need not to bring an RT-PCR negative report. However, it will be mandatory for other passengers to bring the RT-PCR test report done 72 hours before starting the journey. Now most of the business establishments are allowed to operate from morning to five in the evening. But weekend curfew will be continued. All government and private offices can now be opened till 4 p.m. with the presence of 50 per cent attendance.

All government and private educational institutions have also been allowed to open, but students will not be called for academic activities. Roadways and private buses will start operating in the state from June 10. But, the city bus service running in the cities will be restricted. Public parks will also open from 5 A. M. to 8 A.M. Meanwhile, the positivity rate in the state has come down below two per cent.

Madhya Pradesh: Markets in Bhopal will reopen from 10 June. The district administration had allowed only shops selling essential items till now. In order to encourage vaccination among the shopkeepers 'TikaLagvaao, BazarKhulwao' abhiyan was launched by Medical Education Minister Vishwas Sarang in Bhopal. 101 oxygen plants will start production in the state by 30th August. Chief Minister Shivraj Singh Chauhan yesterday has also directed for creating 800 MT storage capacity in all Divisional headquarters so that any emergency could be dealt with.

Madhya Pradesh on Monday reported 571 covid positive cases and 32 deaths while 1,782 patients recovered from infection. The active cases reduced to 8,860. Not a single district of the state is now in the Red Zone.

Chhattisgarh: In Chhattisgarh, the situation of COVID infection is improving steadily. Besides, the COVID vaccination campaign is also going on in full swing. More than 8,30,000 in the age group of 18 to 44 years have been vaccinated against COVID-19 in Chhattisgarh. Besides, 77 per cent of the people above the age of 45 years have also been vaccinated. The first dose of COVID vaccine has been given to 100 per cent frontline workers in the state. As far as health workers are concerned, 90 per cent of them have been vaccinated. So far, more than 71 lakh vaccines have been administered to persons of all age groups and categories in the state, including first and second doses. Chhattisgarh's COVID-19 case count rose to 9,79,576 on Saturday with addition of 1,356 cases, while the death toll rose by 30 to reach 13,192. The number of recoveries rose to 9,41,489 after 512 people were discharged from various hospitals while 2,396 others completed home isolation during the day.

Goa: Chief minister Pramod Sawant said that the state government would start the process of unlock in Goa after June 15 and not before that, and added that the state can only think of restarting tourism after vaccinating the (eligible) population of the state. Goa on Monday reported 418 fresh coronavirus positive cases and 13 fatalities, taking the tally to 1,59,811 and the toll to 2,840. With 1,162 patients being discharged during the day, the overall count of recoveries in Goa rose to 1,50,574, leaving the state with 6,397 active cases. With 2,745 new tests, the total number of samples tested so far in Goa has gone up to 8,48,687.

Kerala: State Kerala Finance Minister K N Balagopal has said that the new vaccine policy of the central government is a good decision which should have been taken earlier. He added that time bound completion of vaccination also is important. Meanwhile, the State Road Transport Corporation's long distance bus services that was stopped due to the second wave of Covid pandemic will resume from tomorrow. Services will be operated on busy routes where more people travel. There will no service on Saturday and Sunday. The State government has extended the lockdown, which was scheduled to end on June 9, till June 16, as the state reported 9,313 new Covid-19 cases and 221 more deaths yesterday. TPR stands at 13.2 %. So far a total of 1,05,30,981 vaccination doses have been given in the state. Out of this, 83,54,536 were first dose and 21,76,445 second dose.

Tamil Nadu: TN CM M K Stalin has thanked PM Modi for announcing free vaccines for all and urged for more freedom to states. Taking note of the spread of black fungus aka mucormycosis infection in TN, Chief Minister Stalin Monday allocated Rs 25 crore to combat it. State Health Minister Ma Subramanian has said one crore vaccines can be produced in Coonoor in a month if Centre permits; he said that the bottling facility at the Pasteur Institute of India in Coonoor has capacity to bottle one crore vaccines. Three more oxygen express trains, carrying 204.14 MT of oxygen reached Tamil Nadu yesterday. With lockdown relaxations coming into effect, normalcy is returning slowly in Tamil Nadu. TN on Monday registered 19,448 new cases, and the total number of infections has touched 22,56,681. After many days, cases came below 20,000. Till date 1,01,19,582 have been vaccinated across TN, of which 80,16,934 received first dose and 21,02,648 received second dose.

Karnataka: As per the State Government bulletin released for 07-06-2021, New Cases Reported: 11,958; Total Active Cases: 2,38,824; New Covid Deaths: 340; Total Covid Deaths: 31,920. Around 1,48,800 were vaccinated yesterday with a total of 1,53,34,586 have been vaccinated in the state till now. Health Minister Sudhakar said that, the State has taken steps to reduce the vaccine shortage in the state,

every eligible person will be given a two-dose coronavirus vaccine by the end of the year. The Mysore University has attracted the attention of the country by developing a unique Corona test kit that can provide result in 5 to 10 minutes. In the wake of Corona 3rd wave anxiety, the government has prepared an action plan for upgrading the district and taluk hospitals at a cost of Rs 1,500 crore. The Bruhat Bengaluru MahanagaraPalike (BBMP) has vaccinated close to 60% of population in the 45+ age group, after it stepped up inoculation drive across Bengaluru in the past few weeks. The civic body has set a target of 75% and embarked on door-to-door assessment of beneficiaries at booth levels using voters' list.

Andhra Pradesh: State reported 4872 new Covid-19 cases after testing 64,800 samples with 86 deaths, while 13,702 got discharged during the last 24 hours. A total of 1,09,92,317 doses of Covid vaccines have been administered in the state as on yesterday, which include 84,08,633 first doses and 25,83,684 second doses. Chief Minister YS Jagan Mohan Reddy thanked PM Modi for deciding to provide Covid Vaccines free to people above 18 years of age. In view of the threat of third wave striking the country which according to experts may affect children more, the State Government has decided to set up paediatric care centres at Visakhapatnam, Tirupati and Krishna-Guntur regions. The Chief Minister also directed the officials to prepare an action plan for the construction of each hospital at a cost of Rs 180 crore. Meanwhile, PG doctors and house surgeons under the AP Junior Doctors' Association served strike notice for boycotting duties from June 9, if their demands of ex-gratia/health insurance for all frontline workers, Covid incentives for all the junior doctors including postgraduates and interns, increased security measures in hospitals to prevent untoward incidents and resolve TDS issue in stipend pay.

Telangana: The State Cabinet is meeting today to take stock of the Covid situation and lockdown in the state. As many as 1933 new daily cases and 16 fatalities were reported yesterday taking the total number of cases in the state to 5,93,103 and deaths to 3,394. Total number of Active cases in the state now stands at 25,406. The vaccination drive in the state to inoculate high risk groups/super spreaders is going on. Coming to cumulative numbers of vaccine beneficiaries in the state, a total of 52,59,171 people of all categories received first dose and 14,36,126 received the second dose. The State Health Department is gearing up to face the likely third wave of Corona pandemic and decided to increase number of beds in Govt hospitals by 6,000 and procure medical equipment and medicines to treat the children affected by Covid.

Assam: 37 more COVID-19 deaths were reported in Assam in the last 24 hours, taking the pandemic toll to 3,695. During the day, 3,804 new infections were detected in 1,24,316 tests at the positivity rate of 3.06 percent. Kamrup Metro saw 318 new cases. Amidst apprehensions that many senior citizens and individuals with special needs may not be able to receive the doses of COVID-19 vaccine due to inability to travel to a COVID vaccination center, the Health department has issued a new SOP for creation of Near to Home COVID Vaccination Centres.

Manipur: After experiencing single digit daily fatality count and daily positivity rate for two days, the state on Monday reported two-digit fatalities and positivity rate as the government bulletins reported 15 death cases and 598 new positive cases out of 4987 samples tested in the last 24 hours. CM leads interfaith prayer to curb virus. The number of people who have been administered COVID-19 vaccine in Manipur reached 4,23,072, as per the latest updates from the state health department. Mass Vaccination and mass testing conducted at different parts of the state.

Meghalaya: Meghalaya, for the third consecutive day, reported COVID-19 cases below 500-mark with the daily virus-related fatalities seeing a significant drop on Monday. With 438 fresh COVID-19 cases and five fatalities, the state's total confirmed cases have gone up to 39,156.

Sikkim: After many weeks, Sikkim has recorded zero Covid death, as per the Health department report of Monday. Meanwhile, 59 Covid cases were detected from the 706 samples tested on Sunday. The positivity rate is 8.3%. The State's active Covid tally is 4051 cases.

Tripura: 235 people infected in last 24 hours and 8 died while 595 people recovered in the same time. Meanwhile state government has asked opinion of the parents with regard to the conduct of secondary and higher secondary examination for which a dedicated website has been launched. The feedback in the form of Yes or No can be given by 6 PM on June 15.

Nagaland: Nagaland reports 145 new Covid cases and three fatalities on Monday. Active cases are 4703 while tally reaches 22,918. A total of 2,88,674 beneficiaries have been inoculated in Nagaland so far. 62% of healthcare workers vaccinated, 38% yet to avail vaccine. Nagaland to intensify Covid vaccination for 18-44 yrs age group from June 8 till June 18. Vaccination to be carried out in all health facilities during Monday to Friday.

Punjab: The total number of patients tested Positive is 580829. Number of active cases is 19995. Total Deaths reported is 15160. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1139243. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 310796. Total above 45 Vaccinated with 1st dose is 3003115. Total above 45 Vaccinated with 2nd dose is 492815.

Haryana: Total Number of Samples found positive till date is 762931. Total active COVID-19 patients is 8024. Number of deaths is 8751. Cumulative coverage of vaccination is 6060728.

Chandigarh: Total Lab confirmed COVID-19 cases is 60707. Total number of Active Cases is 740. Total number of COVID-19 deaths till date is 774.

Himachal Pradesh: Total number of patients tested Covid positive till date is 195755. Total number of Active Cases is 7555. Total deaths reported till date is 3299.

My address to the nation. Watch. <https://t.co/f9X2aeMiBH>

— Narendra Modi (@narendramodi) June 7, 2021

21 जून, सोमवार से देश के हर राज्य में, 18 वर्ष से ऊपर की उम्र के सभी नागरिकों के लिए, भारत सरकार राज्यों को मुफ्त वैक्सीन मुहैया कराएगी।

वैक्सीन निर्माताओं से कुल वैक्सीन उत्पादन का 75 प्रतिशत हिस्सा भारत सरकार खुद ही खरीदकर राज्य सरकारों को मुफ्त देगी: PM @narendramodi

— PMO India (@PMOIndia) June 7, 2021

देश की किसी भी राज्य सरकार को वैक्सीन पर कुछ भी खर्च नहीं करना होगा।

अब तक देश के करोड़ों लोगों को मुफ्त वैक्सीन मिली है। अब 18 वर्ष की आयु के लोग भी इसमें जुड़ जाएंगे।

सभी देशवासियों के लिए भारत सरकार ही मुफ्त वैक्सीन उपलब्ध करवाएगी: PM @narendramodi

— PMO India (@PMOIndia) June 7, 2021

प्रधानमंत्री गरीब कल्याण अन्न योजना को अब दीपावली तक आगे बढ़ाया जाएगा। महामारी के इस समय में सरकार गरीब की हर जरूरत के साथ उसका साथी बनकर खड़ी है।

यानि नवंबर तक 80 करोड़ से अधिक देशवासियों को हर महीने तय मात्रा में मुफ्त अनाज उपलब्ध होगा। pic.twitter.com/Ospx5R80FT

— Narendra Modi (@narendramodi) June 7, 2021

Some people thrive on creating panic and furthering vaccine hesitancy.

Such elements are doing a great disservice to the efforts to make our planet COVID-free. pic.twitter.com/uUYKy2lpj6

— Narendra Modi (@narendramodi) June 7, 2021

Vaccines are central to the fight against COVID-19.

Remember the times India had wait for years to get vaccines for various diseases.

Here is what changed after 2014. pic.twitter.com/nStfbv9sXw

COVID-19 UPDATE

India has reported **1,00,636** New Cases in the last 24 hours. This is the lowest in the last two months. The country has recorded **less than 2 lakh Daily New Cases for 11 continuous days now**. This is a result of collaborative and sustained efforts by the Centre and States/UTs following the “whole of Government” approach.

- India reports 1 Lakh Daily New Cases, lowest in 61 days
- Less than 2 lakh Daily New Cases for 11 consecutive days
- India's Active Caseload drops to 14,01,609 today
- Daily Recoveries continue to outnumber Daily New Cases for 25th consecutive day
- Steady incline in National Recovery Rate maintained; Recovery Rate increases to 93.94%
- Daily Positivity Rate at 6.34% continues trend of less than 10% positivity rate for 14 consecutive days
- 23.27 Cr. Vaccine Doses administered so far under Nationwide Vaccination Drive

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1725008>

COVID-19 Vaccination UPDATE

More than 24 crore (24,60,80,900) vaccine doses have been provided to States/UTs so far, through Government of India (free of cost channel) and through direct state procurement category.

Of this, the total consumption, including wastages is 23,11,69,251 doses (as per data available at 8 AM today).

More than 1.49 crore (1,49,11,649) COVID Vaccine doses are still available with the States/UTs to be administered.

Details:<https://pib.gov.in/PressReleaseDetail.aspx?PRID=1725005>

Dr Harsh Vardhan chairs 28th meeting of Group of Ministers (GOM) on COVID-19

Dr. Harsh Vardhan, Union Minister of Health & Family Welfare chaired the 28th meeting of the high-level Group of Ministers (GoM) on COVID-19 by a video-conference, here today. He was joined by Dr. S. Jaishankar, Ministry of External Affairs, Shri Hardeep S. Puri, Union Minister for Housing & Urban Affairs (I/C); Civil Aviation (I/C); & MoS Commerce & Industry, Shri Nityanand Rai, Minister of State, Ministry of Home Affairs and Shri Ashwini Kumar Choubey, Minister of State, Health & Family Welfare. Dr. Harsh Vardhan gave a snapshot of India's efforts to contain COVID-19 at the outset: "The recovery rate has been climbing up and stands at 93.94% today. In the last 24 hours we have had the least number of Daily New cases in the last 61 days with just over 1 Lakh cases (1,00,636). 1,74,399 recoveries were registered in the last 24 hours and our case fatality rate has been 1.20%. Today is the 25th day in succession where our daily recoveries outnumbered new cases."

Centre to States: Unique Disability Identification Card (UDID) now acceptable as a Photo ID for registration on Co-WIN 2.0

It has been the constant endeavour of the Union Government to streamline the vaccination process for its universalization. In this backdrop, the Union Ministry of Health has written to the States/UTs today to include the Unique Disability Identification (UDID) Card as a Photo ID while registering on Co-WIN 2.0. As per the Guidance note for Co-WIN 2.0 issued on 2nd March 2021, seven prescribed Photo IDs were specified and prescribed for verification of beneficiary prior to their vaccination.

In the letter written to the States and UTs, the Union Health Ministry has stated that the UDID card, issued to persons with disability by Department of Empowerment of Persons with Disabilities, Ministry of Social Justice and Empowerment, has all the necessary features such as the name, year of birth, gender and photograph of the person, and meets the criteria for use of identification in COVID-19 vaccination.

Inputs from PIB Field units

Kerala: The review meeting to be chaired by Chief Minister Pinarayi Vijayan later today is likely to take a call on extending the lockdown in the state. The TPR has been below 15% for the last three consecutive days. It was 28.25 on May 8 when the lockdown started. On May 12, it rose again to 29.72. Yesterday it stood at 14.27 % with 14,672 new positive cases. However, the death toll is nearing 10,000. State Health Minister Veena George today informed the assembly that the vaccination drive in the state will be intensified in a targeted manner. So far a total of 1,03,82,765 people have been vaccinated in the state. Out of this, 82,16,201 took first dose and 21,66,564 second dose.

Tamil Nadu: TN Chief Minister M.K. Stalin visited the Arignar Anna Zoological Park in Vandalur on Sunday to take stock of the incidence of Covid-19 infection among Asiatic lions at the zoo. Black fungus has affected 921 persons in Tamil Nadu, officials said; State has so far received 2470 vials of Black Fungus drug Amphotericin-B from Centre. Three Oxygen express trains, carrying 354.92 MT of oxygen from Durgapur, Rourkela and Raipur reached Chennai on Sunday. Oxygen expresses have so far brought 3,315.69 MT of oxygen. The number of Covid-19 cases continued to fall in Tamil Nadu, with 20,421 fresh cases reported on Sunday. The tally of active cases stands at 2,44,289. So far, 22,37,233 people have tested positive.

Karnataka: As per the State Government bulletin released for 06-06-2021, New Cases Reported: 12,209; Total Active Cases: 2, 54,505; New Covid Deaths: 320; Total Covid Deaths: 31,580. Around 57,519 were vaccinated yesterday with a total of 1,51,12,744 having been vaccinated in the state till now. Covid-19 patient discharges are outstripping new cases being found daily, with officials describing the development as a sign of the state's recovery from the second wave. The government is leading the creation of 20 thousand new jobs in the healthcare sector. Areas such as the maintenance of medical equipment that do not require much medical technology have been identified for this.

Andhra Pradesh: State reported 8976 new Covid-19 cases after testing 83,690 samples with 90 deaths, while 13,568 got discharged during the last 24 hours. Total cases: 17,58,339; Active cases: 1,23,426; Discharges: 16,23,447; Deaths: 11,466. A total of 1,08,52,057 doses of Covid vaccines have been administered in the state as on yesterday, which include 82,75,784 first doses and 25,76,273 second doses. State Covid nodal officer Arja Srikanth said the State government is setting up oxygen plants in all districts to meet the requirements of the Covid patients. With a drop in new infections for the past couple of days, the state government has decided to extend the partial curfew relaxation time by two more hours after June 10. Meanwhile, amid projections of a possible third wave of Covid-19 and its greater impact on children, nine kids in the age group of 4-10 were infected with the virus and admitted to Ruia Government General Hospital, Tirupati on Sunday. The State government is likely to come up with a plan of action to face the third wave. Plans are afoot to strengthen paediatric health care facilities in hospitals across the State.

Telangana: State Cabinet is meeting tomorrow to take stock of the Covid situation and lockdown in the state. A total of 1436 new Covid cases and 14 fatalities were reported in the state yesterday taking the total number of cases to 5,91,170 and fatalities to 3378. The number of active cases in the state now stands at 27,016 and recovery rate is reported to be at 94.85 against the national average of 93.62. A Mega Vaccination drive was taken up in Hyderabad yesterday where more than 40,000 individuals above 18 years of age received the vaccine. The vaccination drive was organised by the Medicover Hospitals, Cyberabad Police Commissionerate and Society for Cyberabad Security Council (SCSC). About 3000 people were vaccinated per hour in the drive through 300 counters set up at the venue. Special vaccination drive for high risk groups in the state is going on and out of 10 lakh people identified in this category, about 4 lakh people have been vaccinated so far.

Maharashtra: As Maharashtra gears up for a five-level unlocking under its 'Break the Chain' initiative, the state has issued a fresh notification for Navi Mumbai and Thane's unlocking process that will begin today. A notification issued put Thane and Navi Mumbai civic areas in level 2 of the state government's five-level plan to ease restrictions from today based on the weekly positivity rate and the occupancy of oxygen beds. The Covid-19 vaccine trial among children of 12 to 18 years of age group has been started in Nagpur. The vaccine is being given by intramuscular mode to children. Maharashtra yesterday crossed the grim milestone of one lakh coronavirus deaths after 230 fresh fatalities in the last 24 hours. According to the health bulletin, the state witnessed 12,557 new coronavirus cases, taking the cumulative tally to 5,831,781. This is the lowest daily number of cases recorded in the state in nearly three months. Mumbai reported 794 fresh cases, 20 deaths and 833 people were discharged following their recovery.

Gujarat: On Sunday, Gujarat recorded the deaths of 12 Covid positive patients, a 65-day low for the state. Gujarat recorded 848 COVID-19 cases on Sunday, taking its tally to 8,16,234, while the recovery count rose by 2,915 during the day to touch 7,88,293, which is over 96 per cent of the caseload. The cases are also down at an 84-day low at 848.2,26,335 people were vaccinated on Sunday, taking the overall number of doses administered so far in the state to 1,84,04,654.

Rajasthan: In view of the drop in Covid-19 cases, the Ashok Gehlot-led government began the "unlock" process in the state by easing certain restrictions from June 2. Accordingly, government offices are now allowed to function with 25 per cent employees till June 7, and after that with 50 per cent employees. Private offices are allowed to remain open till 2 pm and can operate with 25 per cent employees. As per the new guidelines, organisation of wedding has been banned till June 30, while the number of people allowed to attend funerals has been capped at 20. Active coronavirus cases in Rajasthan dropped below the 20,000-mark. With the state reporting 904 fresh cases of Covid-19 on Sunday, active caseload in Rajasthan now stands at 18,575. Of the 904 new cases, Rajasthan's capital Jaipur account for 169 cases.

Madhya Pradesh: Madhya Pradesh reported 735 new positive cases yesterday and 42 deaths while 1,934 patients recovered from infection. 44 districts of the state reported below 10 corona cases. The number of active cases in the state declined to 10,103. The state reported 0.9 per cent corona-positive rate. Chief Minister of Madhya Pradesh Shivraj Singh Chouhan while reviewing corona control arrangements has said that state should be made self-reliant in oxygen production before the possible third wave.

Chhattisgarh: Chhattisgarh has reported 999 fresh cases of the Covid-19 yesterday. This is the lowest number of cases reported in the last about 80 days. Chhattisgarh has been witnessing a steady decline in cases of CoVID infection. The test positivity rate in the state has come down to less than 3 percent. The number of people recovering from the disease also outnumbered the number of people testing positive as 1909 patients discharged after recovery on Sunday. The number of COVID-19 cases continued to fall in various districts. Out of the 28 districts, in three districts cases were reported in single digit. While in remaining districts, cases were reported in double digits.

Goa: Goa's coronavirus caseload went up by 403 and reached 1,59,393 on Sunday, while the day also saw 16 deaths and 1,449 recoveries. The state's toll stands at 2,760 and the recovery count is 1,49,479, leaving it with an active caseload of 7,154. With 3,022 samples being examined in the last 24 hours, the number of tests in Goa went up to 8,45,942.

Assam: 37 people succumbed to COVID-19 in the last 24 hours in Assam, while 2,228 new infections were detected from 73,648 tests done during the day. The positivity rate was 3.03 percent. Kamrup Metro saw 309 new cases.

Manipur: Manipur on Sunday reported 9 fatalities and 823 new positive cases of COVID-19 out of 8773 samples tested in the last 24 hours. The number of people who have been administered COVID-19 vaccine in Manipur reached 4,22,872, as per the latest updates.

Nagaland: Nagaland's COVID positivity declined a bit with 77 new cases detected on Sunday along with 4 deaths. Active cases are 4732 while tally is 22,77,3.

Tripura: In Tripura, 654 tested positive of COVID-19 with 6 deaths in last 24 hours. Positivity stands at 4.06% with total 16105 total samples tested.

Sikkim: Sikkim registered 340 new COVID-19 cases from the 2548 samples tested on Saturday. The positivity rate, as per Health department, is 13.34%. The State's active COVID tally is 4306.

Meghalaya: In Meghalaya, 12 more persons have succumbed to COVID-19 on Sunday taking the death toll in the state to 664. The Meghalaya Government will now allow citizens in the age group of 18-44 years to book vaccine slots on the spot. An official from the Health department informed that on the spot vaccination for the 18-44 group will begin tentatively from June 11 in selected centres.

Punjab: The total number of patients tested Positive is 579560. Number of active cases is 22160. Total Deaths reported is 15076. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 1120741. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 309955. Total above 45 Vaccinated with 1st dose is 2982118. Total above 45 Vaccinated with 2nd dose is 490177.

Haryana: Total Number of Samples found positive till date is 762291. Total active COVID-19 patients is 9097. Number of deaths is 8712. Cumulative coverage of vaccination is 6018309.

Chandigarh: Total Lab confirmed COVID-19 cases is 60659. Total number of Active Cases is 833. Total number of COVID-19 deaths till date is 772.

Himachal Pradesh: Total number of patients tested Covid positive till date is 194742. Total number of Active Cases is 9484. Total deaths reported till date is 3263.

COVID-19 UPDATE

India has reported 1,14,460 New Cases in the last 24 hours. This is the lowest in the last two months. The country has recorded less than 2 lakh Daily New Cases for 10 continuous days now. This is a result of collaborative and sustained efforts by the Centre and States/UTs following the “whole of Government” approach. India has been witnessing a continuous fall in the active cases. The country’s Active Caseload has dipped below 15 lakh mark; stands at 14,77,799 today. The Caseload is below 20 lakhs for six successive days. A net decline of 77,449 is witnessed in the last 24 hours and active cases are now only 5.13% of the country’s total Positive Cases.

- India reports 1.14 Lakh Daily New Cases, lowest in two months
- Less than 2 lakh Daily New Cases for 10 continuous days
- India's Active Caseload drops below 15 Lakh; at 14,77,799 today
- Daily Recoveries continue to outnumber Daily New Cases for 24th consecutive day
- Steady rise in national Recovery Rate maintained; Recovery Rate increases to 93.67%
- Decline of Daily Positivity Rate to 5.62% continues trend of less than 10% positivity rate for 13 continuous days

- India crosses landmark of 23 cr vaccination coverage

Details: <https://pib.gov.in/PressReleaseDetail.aspx?PRID=1724874>

COVID-19 Vaccination UPDATE

Government of India has so far provided, both through the free of cost category and through direct state procurement category, more than 24 crore vaccine doses (24,60,80,900) to States/UTs. Of this, the total consumption, including wastages is 22,96,95,199 doses (as per data available at 8 AM today).

More than 1.63 crore COVID Vaccine doses (1,63,85,701) are still available with the States/UTs to be administered.

CSIR initiates clinical trials of drug Niclosamide for treatment of Covid-19

CSIR in collaboration with Laxai Life Sciences Pvt. Ltd., has initiated Phase-II clinical trial with anti-helminthic drug Niclosamide for treatment of Covid-19. The trial is a multi-centric, phase-II, randomized, open label clinical study to evaluate efficacy, safety and tolerability of Niclosamide for the treatment of hospitalized Covid-19 patients. Niclosamide has been extensively used in past for treatment of tapeworm's infection in adults as well as children. The safety profile of this drug has been tested over time and has been found safe for human consumption at different dose levels.

Busting Myths of Vaccination

- Liberalised Pricing and Accelerated National COVID-19 Vaccination Strategy ensures Vaccine Equity.
- Private hospitals have received over 1.20 crore Doses of COVID vaccines in the month of May 2021

Government of India in close partnership with all the States/ UTs is running one of the largest COVID-19 Vaccination drives in the world since 16th January 2021. There have been some media reports alleging vaccine inequity in India's Vaccination Drive. These reports are inaccurate and speculative in nature. A 'Liberalised Pricing and Accelerated National COVID-19 Vaccination Strategy' was adopted on 1st May 2021, which is guiding the ongoing Phase-III of COVID-19 vaccination Drive. It is reiterated that the

Liberalised Vaccine policy, which envisages a larger role for the private sector and the Centre is setting aside 25% of vaccines for the private sector. This mechanism facilitates better access and reduces the operational stress on Government Vaccination facilities in terms of those who could afford to pay and would prefer to go to a private hospital.

Dr Jitendra Singh contributes Rs. 10 Lakh for COVID affected children of his Lok Sabha constituency

Dr Jitendra Singh yesterday contributed Rs. 10 Lakh, raised from voluntary/personal sources, for the COVID affected children of his Lok Sabha constituency of Udhampur-Kathua-Doda. Deputy Commissioner Kathua, Rahul Yadav received the cheque for the amount, in his capacity as the Nodal Authority for all the six districts of the constituency. During his visit to Kathua, Dr Jitendra Singh also met a group of children who had lost their bread-earner during the current pandemic. He said, it is not in any way possible to compensate for the loss of the near and dear ones, but to live up to the call of our conscience, we have sought to make a very small and a humble effort to stand by these children.

PM Modi reviews progress of India's vaccination drive

PM Narendra Modi chaired a high level meeting, yesterday, to review the progress of India's vaccination drive. Officials gave a detailed presentation on various aspects of the vaccination drive. PM was briefed about the current availability of vaccines and the roadmap for ramping it up. He was also apprised about the efforts undertaken to help various vaccine manufacturers ramp up production of vaccines. Government of India is actively working with vaccine manufacturers & helping them in terms of facilitating more production units, financing and supply of raw materials.

PM reviewed the status of vaccination coverage in health-care workers as well as front-line workers. He also took stock the vaccination coverage in the above 45 as well as 18-44 age group. PM also reviewed the status of vaccine wastage in various states. PM instructed that vaccine wastage numbers are still on the higher side and steps need to be taken to bring them down.

109th Session of ILC: Gangwar reiterates India's commitment towards countering impact of Covid-19 pandemic

Union Minister of State (i/c) for Labour and Employment Shri Santosh Gangwar has reiterated India's commitment towards making all possible efforts to counter the impact of the pandemic, and emerge stronger. Addressing the virtual Non-Aligned Movement Labour Ministers Meeting under 109th Session of the ILC last evening, Shri Gangwar said, the world has witnessed loss of lives and livelihood, slowdown of economies, adverse impact on the entire sections of the society and especially, the weaker ones more unsafe. He said, there is need to ensure better support to the health-care systems, social protection and employment generation. Governments are required to deal with the pandemic and provide an effective response at policy levels, to balance business continuity, income security and above everything, well-being of all, he added.

- Daily positivity rate at 6.38%, less than 10% for 11 consecutive days
- COVID Testing capacity substantially ramped up—35.7cr tests total conducted
- 22.41 crore Vaccine Doses administered so far under Nationwide Vaccination Drive

PM chairs meeting of CSIR Society.

We have to prepare for the needs of this decade as well as the needs of the coming decades: PM

Prime Minister Shri Narendra Modi chaired a meeting of the Council of Scientific and Industrial Research (CSIR) Society today through video conference.

Speaking on the occasion, the Prime Minister remarked that the Corona pandemic has emerged as the biggest challenge of this century. But whenever there was a big humanitarian crisis in the past, science has prepared the way for a better future. He added that the basic nature of science is to create new strength by finding solutions and possibilities during crises.

The Prime Minister lauded the scientists for the scale and speed at which the vaccines were made within a year, to save humanity from the pandemic. He said this is the first time such a big thing has happened in history. He added that in the previous century, inventions were made in other countries and India had to wait for many years. But today the scientists in our country are working at the same speed and at par with other countries. He appreciated the scientists for making India self-reliant on COVID-19 vaccines, testing kits, necessary equipment and new effective medicines in the fight against Corona. He said that bringing science and technology at par with developed countries is better for the industry and the market.

Government caps Trade Margin on Oxygen Concentrators

In view of the extraordinary circumstances arising due to the COVID pandemic that has resulted in recent volatility in Maximum Retail Prices (MRP) of Oxygen Concentrators, the Government has decided to step-in to regulate the price of Oxygen Concentrators. As per information collected by the government, margin at the level of distributor currently ranges up to 198%.

By invoking extraordinary powers under Para 19 of the DPCO, 2013 in larger public interest NPPA has capped the Trade Margin up to 70% on Price to Distributor (PTD) level on Oxygen Concentrators. Earlier, in February 2019 NPPA had successfully capped the Trade Margin on Anti-cancer Drugs. Based on the notified Trade Margin, NPPA has instructed the manufacturers / importers to report revised MRP within three days. Revised MRP will be informed in public domain within a week by NPPA.

Indian visa or stay stipulation period of foreign nationals stranded in India due to COVID-19 pandemic to be considered as deemed to be valid till 31.08.2021

Due to non-availability of normal commercial flight operations on account of the COVID-19 pandemic since March 2020, a number of foreign nationals who came to India prior to March 2020 on valid Indian visas had got stranded in India. Keeping in view the difficulties being faced by such foreign nationals in getting their visas extended in India due to the lockdown, the Union Ministry of Home Affairs (MHA) had issued an order on 29.06.2020 conveying that the Indian Visa or stay stipulation period of such foreign nationals expiring post 30.06.2020 shall be deemed to be valid until 30 more days from the date of resumption of normal international flight operations, on gratis basis. The matter has now been reconsidered by the MHA in the light of non- resumption of normal commercial flight operations, and it has accordingly been decided that the Indian visa or stay stipulation period of such foreign nationals stranded in India will be considered as deemed to be valid till 31.08.2021 on gratis basis without levy of any overstay penalty.

INPUTS FROM PIB FIELD OFFICES

Kerala: Announcing a Rs 20,000 crore package to tide over the crisis induced by the second wave of the Covid-19 pandemic, State Finance Minister K N Balagopal today presented the maiden budget of the second LDF government. He also set aside Rs 1,000 crore for free vaccination for everyone aged above 18 years. An additional 500 crores would be spent to ensure related equipment and facilities for free vaccination. A new oxygen plant with a capacity of 150 metric tons will be set up and a special block to deal with communicable diseases will be formed in Medical colleges. All hospitals will also be equipped with isolation wards. Meantime, the Kerala High Court has directed the state government to vaccinate at home, bedridden patients and senior citizens who are unable to travel outside. A division bench of the Court also asked the government to take a decision on the matter within 10 days. Meanwhile, Kerala recorded 18,853 new Covid cases on Thursday. With 153 new fatalities, the death toll mounted to 9375. The test positivity rate was 15.22 %. A total of 99,53,059 people has so far been vaccinated in the state. Out of this, 78,21,551 had first dose and 21,31,508 second dose.

Tamil Nadu: Chief Minister M.K. Stalin chaired a meeting with representatives of Bharat Biotech International Limited at the Secretariat on Thursday to discuss the establishment of the company's vaccine manufacturing units in Tamil Nadu. CM Stalin wrote to Union Health Minister Harsh Vardhan seeking immediate allocation of at least 30,000 vials of liposomal Amphotericin B to Tamil Nadu to treat mucormycosis patients. He said 673 cases had been detected in the State. Hosur co. gets nod to make Amphotericin B: Hosur-based MylanPharma has been granted permission to produce Amphotericin B. The Greater Chennai Corporation is planning to conduct a serosurvey in the city in a fortnight. The serosurvey will be the first to be done in the second wave of the COVID19 pandemic. The daily count of Covid-19 infections dropped below the 25,000 mark in TN on Thursday. A total of 24,405 people tested positive and 460 died of the infection, taking the tally of cases to 21,72,751 and toll to 25,665. Till date 96,19,198 have been vaccinated across TN, of which 75,44,779 received first dose and 20,74,419 received second dose.

Karnataka: As per the State Government bulletin released for 03-06-2021, New Cases Reported: 18,324; Total Active Cases: 2,86,798; New Covid Deaths: 514; Total Covid Deaths: 30,531. Around 1,82,306 were vaccinated yesterday with a total of 1,43,27,273 have been vaccinated in the state till now. Chief Minister BS Yeddyurappa on Friday announced the second package of Rs 500 crore for various classes who have been hit by the corona lockdown. Karnataka has the third highest number of tests in the country, with the total number exceeding 3.01 crore. Express train carrying 110.84 tonnes of liquid medical oxygen from Gujarat arrived at the city's Whitefield ICD depot on Wednesday night. A total of 2,78,417 tonnes of Oxygen has been shipped to the state, Southwest Railways said.

Andhra Pradesh:State reported 11,421 new Covid-19 cases after testing 86,223 samples with 81 deaths, while 16,223 got discharged during the last 24 hours. A total of 1,03,37,846 doses of Covid vaccines have been administered in the state as on yesterday, which include 77,83,529 first doses and 25,54,317 second doses. Chief Minister YS Jagan Mohan Reddy sought the support of Kerala CM Pinarayi Vijayan and Chief Ministers of other States for a collaborative effort to speak in one voice and urge the Centre to take the responsibility of Covid-19 vaccination drive across the country. Meanwhile, as part of Operation SamudraSetu II, INS Airavat of the Eastern Naval Command arrived at Visakhapatnam yesterday with Covid relief stores which includes 158 MT of Liquid Medical Oxygen in seven Cryogenic Oxygen Tanks, 2722 Oxygen Cylinders and 10 ventilators from Vietnam and Singapore which were facilitated by the Indian Missions. The consignment is being handed over to various government agencies and NGOs after disembarkation.

Telangana:As directed by the State High Court, the Health Department is taking steps to ensure that the private hospitals return the excess amount collected for treatment from Covid patients and committees are being formed to pursue the matter with the concerned private hospitals. Till now a total of 62.23 Lakh doses of Covid vaccines have been administered to various sections of the society and still 9 lakh doses of vaccine stock is available with the health department as on yesterday. Meanwhile, as many as 2,261 new Covid cases and 18 deaths were reported yesterday taking the cumulative number of Covid cases in the state to 5,85,489 and fatalities to 3,331. Number of Active cases in the state now stands at 32,579.

Assam:46 more Covid patients died in Assam on Thursday even as 4,309 new infections were detected during the day from 1,07,075 tests. The positivity rate was 4.02 percent. Assam Health Minister Keshab Mahanta said that an additional 200 ICU beds are under construction at the parking area of the Guwahati Medical College and Hospital would be ready by mid June. Assam CM Himanta Biswa Sarma said that by December this year all people in the state will be vaccinated against COVID-19.

Manipur:The number of daily COVID-19 positive cases in the state dipped from 729 on Wednesday to 621 on Thursday with death of 10 persons in last 24 hrs.

The State Government approved the Catholic Church's proposal of setting up a dedicated COVID-19 ward at the Catholic Medical Center (CMC) Hospital at Koirengai in Imphal .

A total of 4,01,133 have been administered COVID-19 vaccine in Manipur.

Meghalaya:Meghalaya witnessed a dip in COVID-19 casualties on Thursday with nine deaths reported on the day, taking the death toll to 625. Recoveries continued to outnumber fresh infections bringing the total active caseload down to 6,352. As many as 552 new cases were recorded on Thursday whereas 594 patients recuperated from the disease.

Chief Minister Conrad K. Sangma said the state government will take a call on the lockdown after weighing the rates of positivity and hospitalisation as well as the recovery trend.

Sikkim: 289 new Covid cases in Sikkim, four deaths : Out of 1717 tests done on Thursday, Sikkim recorded 289 new Covid positive cases. There were four new Covid-related deaths. The total active tally now is 4,184 and total death tally so far stand at 263 in the State.

Union Ministry of Health finalises advance arrangement with M/s Biological-E Ltd., Hyderabad for 30 cr COVID19 Vaccine doses

Union Ministry of Health has finalised arrangements with Hyderabad based vaccine manufacturer Biological-E to reserve 30 crore of COVID-19 vaccine doses. These vaccine doses will be manufactured and stockpiled by M/s Biological-E from August-December 2021. For this purpose, the Union Ministry of Health would be making an advance payment of Rs. 1500 crore to M/s Biological-E.

The COVID-19 vaccine of Biological-E is currently undergoing Phase-3 clinical trial after showing promising results in Phase 1 and 2 clinical trials. The vaccine being developed by Biological-E is a RBD protein sub-unit vaccine and is likely to be available in the next few months.

The proposal of M/s Biological-E was examined and recommended for approval after due diligence by National Expert Group on Vaccine Administration for COVID-19 (NEGVAC).

Busting Myths of Vaccination

Government of India has been supporting the efforts of States and UTs for an effective Vaccination drive under the 'Whole of Government' approach since 16th January, this year. In order to streamline availability of the vaccine doses, the Central Government has been constantly in touch with the vaccine manufacturers and has opened up different procurement options for states/UTs since 1st May 2021.

There have been several unfounded media reports that have peddled misinformation among the masses regarding this exercise of national importance. There have been media reports alleging the Union Government promising 120 million doses of vaccines during June 2021 while administering only around 58 million doses from the total of 79 million doses available in the month of May. This report is factually incorrect and without any basis.

As per the data at 7:00 am, on 1st June 2021, between 1st-31st May 2021, a total of 61.06 million doses of vaccines have been administered by States/ UTs. A total of 16.22 million balance and unutilized doses were available with States/ UTs. The total vaccines shots available from 1st May – 31st May 2021 were 79.45 million.

More than 23 crore vaccine doses provided to States/UTs

Government of India has so far provided, both through the free of cost category and through direct state procurement category, **more than 23 crore vaccine doses** (23,35,86,960) to States/UTs.

Of this, the total consumption, including wastages is 21,71,44,022 doses (as per data available at 8 AM today).

More than 1.64 crore COVID Vaccine doses (1,64,42,938) are still available with the States/UTs to be administered.

Shri Dharmendra Pradhan dedicates 100-bedded COVID care facility in Rourkela Steel Plant, Odisha

Union Minister of Petroleum and Natural Gas & Steel Shri Dharmendra Pradhan today dedicated to the nation, IspatNidaanKendra,a 100-bedded COVID care facility in SAIL's Rourkela Steel Plant, Odisha. The facility will be later scaled up to 500 beds. All the beds in this Jumbo COVID-care facility have the provision of gaseous oxygen directly through dedicated line drawn directly from the oxygen unit of the steel plant. The provision of gaseous oxygen will help in getting rid of the need to replenish cylinders and the logistic issues, besides ensuring uninterrupted availability of the life saving gas. This jumbo facility, which has been set up within a record time, is in addition to the beds and ICU beds already made available earlier for fight against COVID.

INPUTS FROM PIB FIELD OFFICES

Maharashtra: The Health Department has said that no significant change was seen in Covid19 infection in children after reviewing the data of Covid-19 patients of past six months in the state. This was informed by the additional chief secretary of the state's Health Department Dr. Pradeep Vyas. It was found that the infection has occurred to 1.3 percent in the age group of 0 to 5 years, 2.4 percent in 6 to 11 years, 4.1 percent in the 12 to 17 years during November 2020 to April 2021. The percentage of the whole age group between zero to 17 years was 7.8 percent. There are about 4,000 cases of mucormycosis in the state at present, informed State Health Minister Rajesh Tope on Tuesday. The State Government has made arrangements to treat all patients with mucormycosis free of cost, he further informed. Treatment rates of COVID-19 in private hospitals at the tehsil and district levels have been reduced by the State Government to give relief to patients outside big cities.

Gujarat: Gujarat Secondary and Higher Secondary Education Board has cancelled the Class XII Board Examination, informed State Education Minister BhupendrasinhChudasama. 1561 new COVID-19 cases have been reported on Tuesday. There are 29,015 active patients in the state where recovery rate is 95.21%. On Tuesday, 1.96 lakh people have been vaccinated. Till date, 1,10,205 people in the 18-44

years age group have been given COVID-19 vaccine in the state.

Rajasthan: Rajasthan reported 1002 new COVID-19 cases, 65 deaths, and 6114 recoveries on Tuesday. There are 37,477 active cases at present. Maximum new cases were reported from Jaipur (233), followed by Alwar (111) and Udaipur (107).

Madhya Pradesh: Madhya Pradesh reported 987 active cases of mucormycosis. Chief Minister Shivraj Singh Chouhan has said that special attention is being paid to the treatment of mucormycosis in the state and to ensure timely delivery of Amphotericin-B and other medicines to every hospital that is treating it. Out of 20 thousand 303 active patients of Corona in the state, 12 thousand 906 patients are in home isolation. 'Kill Corona' Campaign is being run in rural and urban areas in the state. So far 11,341 Covid patients have been treated free of cost under the CovidUpcharYojana in the state. The state cabinet approved the implementation of MukhyaMantri Covid-19 YoddhaKalyan Scheme for the period of two months for personnel serving like warriors in prevention of Covid-19 epidemic. The state cabinet also gave approval to various points of the Covid-19 BalKalyanScheme and MukhyaMantri Covid-19 VisheshAnugrahYojana. Madhya Pradesh Board Class 12 Examination has been cancelled in view of the pandemic. The state has reported 1078 new COVID-19 cases, 45 deaths, and 4120 recoveries on Tuesday.

Chhattisgarh: Chhattisgarh reported 1886 new COVID-19 cases along with 4471 recoveries on Tuesday. The positivity rate is continuously decreasing in the state and was at 3.1% as on Tuesday. In the state, 20.20% citizens, that is 59.20 lakh people have received atleast one dose of the vaccine. In the age group of 18-44 years, 7.89 lakh people have received the first dose.

Goa: Goa reported 903 new COVID-19 cases along with 22 fatalities and 1777 recoveries on Monday. The state has witnessed a downward trend in deaths on Tuesday There are 11,867 active cases in the state at present. With the vaccination of 4009 people on Tuesday, the total number of vaccines administered in Goa has reached 5,21,940.

Kerala: The Kerala Assembly today unanimously passed a resolution urging the Centre to provide free universal vaccination. The resolution also wants the Centre to float global tenders to procure vaccines for the entire country rather than asking states to purchase separately. Meanwhile, the state reported 19,760 new Covid cases on Tuesday. The TPR stands at 15.13%. The death toll has crossed 9,000. A total of 96,42,277 people has so far been vaccinated in the state. Out of this, 75,44,092 had first dose and 20,98,185 second dose.

Tamil Nadu: Chief Minister M.K. Stalin on Tuesday said the lockdown to contain the spread of Covid-19 could not be extended endlessly and people's cooperation was needed to put a full stop to it soon. As many as 518 people have been affected by mucormycosis in Tamil Nadu so far, and of these, 17 have died, Minister for Medical and Family Welfare Ma. Subramanian said on Tuesday. The State's daily Covid-19 case count dipped to 26,513 on Tuesday, bringing its active caseload below the 3 lakh-mark. However, the toll due to the infection remained high, as 490 more people, including a 105-year-old woman, succumbed to it. Tamil Nadu, which had announced the suspension of vaccination drive from Wednesday, is to continue inoculating people after it received 4.95 lakh vaccines from the central

government on Tuesday night. The Tamil Nadu Department of Prisons and Correctional Services has vaccinated 30% of the 4,297 convicts lodged in prisons across the State. Till date 92,35,652 have been vaccinated across TN, of which 71,85,963 received first dose and 20,49,689 received second dose.

Karnataka:As per the State Government bulletin released for 01-06-2021, New Cases Reported: 14,304; Total Active Cases: 2,98,299; New Covid Deaths: 464; Total Covid Deaths: 29,554. Around 1,62,227 were vaccinated yesterday with a total of 1,38,46,247 having been vaccinated in the state till now. The government has received 5.76 lakh doses of Covishield vaccine on Tuesday in the Central government quota. The total quantity of Covishield obtained from the Center is 1.14 crore doses. On Tuesday, 352 tonnes of oxygen were delivered by 3 trains in a single day. The state has so far received 2561.24 tons of oxygen. The number of new cases of coronavirus in Bangalore is declining, with less than 4,000 cases registered for the second consecutive day. 7 genomic labs to be set up in Karnataka to study mutated strains found in 2nd Covid wave, Health Minister Dr K Sudhakar said.

Andhra Pradesh:State reported 11,303 new Covid-19 cases after testing 93,704 samples with 104 deaths, while 18,257 got discharged during the last 24 hours. Total cases: 17,04,388; Active cases: 1,46,737; Discharges: 15,46,617; Deaths: 11,034. A total of 1,00,73,383 doses of Covid vaccines have been administered in the state as on yesterday, which include 75,43,454 first doses and 25,29,929 second doses. The State crossed a milestone on Tuesday as over one crore people took Covid jabs, first and second doses combined together. In the first fortnight of June, the state is expected to get another 8,76,870 doses from the Centre. The state government is purchasing another 20,74,730 on its own but the stocks are expected only in the second half of the month, according to the health officials. The state received 3 cryogenic oxygen tanks from Singapore handed over by Megha Engineering & Infrastructures Limited (MEIL). Meanwhile, due to the prevailing Coronavirus situation in the state, summer vacation for students in grades 1 through 10 has been extended until June 30th in all the schools across Andhra Pradesh.

Telangana:The State Health Department has revoked the Covid treatment permission for six more private hospitals in the state. Till now, 22 hospitals have been barred from treating Covid patients as they were collecting exorbitant charges from patients and not following Covid treatment protocol. The largest Sputnik-V consignment of 27.90 Lakh more doses arrived in Hyderabad from Russia yesterday. With this, a total of 30 Lakh doses of Sputnik-V arrived in India. Telangana High Court directed the State Health Department to initiate steps to make private hospitals that overcharged Covid patients to return the excess amount. It also asked the health department to issue a fresh GO fixing the maximum prices to all the medical services and tests related to Covid. Meanwhile, as many as 2,493 new cases and 15 fatalities were reported in the state yesterday taking the total number of cases to 5,80,844 and fatalities to 3,296. The number of Active Cases in the state now stands at 33,254.

Assam:Defence Minister Rajnath Singh on Tuesday complimented Assam Chief Minister HimantaBiswaSarma for his government's tireless fight against the COVID-19 pandemic in the state and also assured to provide all possible support in the coming days.

51 COVID patients died in the state on Tuesday, with 4,682 new infections detected during the day out of 1,18,513 tests conducted. The positivity rate was 4.05 percent. With people from outside returning to

the State due to the COVID-19 pandemic and recent trends showing a surge in Covid-19 cases in rural areas, the state government has notified fresh SOP for managing the virus in rural areas even as it launched the third phase of the community surveillance programme from Tuesday.

Manipur: Covid claimed 18 more lives with 798 more infections in the state. With the aim of early detection and early medication to flatten the COVID-19 curve, Chief Minister N Biren Singh flagged off “Aggressive Mass COVID-19 Testing drive in Imphal West” .So far, 3,88,761 individuals have been administered Covid vaccine including 80,335, who have received the second dose.

Sikkim: Sikkim recorded 309 new Covid positive cases and four new Covid-related deaths on Tuesday. With 334 recoveries, the total active tally now is 3,992.

A review meeting of State Executive Committee held on 30th May has decided that henceforth, Rapid Antigen Testing (RAT) will be conducted in Government’s facilities only.

Tripura: Highest single day tests -16,918 of which 841 tested positive and 6 died in last 24 hours While 864 people recovered in the same time. Meanwhile state government has fixed Covid rate for ILS and TMC hospitals in Agartala. The decision was taken by council of ministers so as to put a cap on the charges of Non Government hospitals.

Nagaland: Nagaland registered 176 new Covid cases and 9 deaths on Tuesday. Active cases are 4725 while tally reached 21,854.

Punjab: The total number of patients tested Positive is 569756. Number of active cases is 33444. Total Deaths reported is 14649. Total COVID-19 Vaccinated with 1st dose (Healthcare + Frontline Workers) is 920914. Total COVID-19 Vaccinated with 2nd dose (Healthcare + Frontline Workers) is 253715. Total above 45 Vaccinated with 1st dose is 2846545. Total above 45 Vaccinated with 2nd dose is 486154. Total 18-44 years age group Vaccinated with 1st dose is 466597.

Haryana: Total Number of Samples found positive till date is 757868. Total active COVID-19 patients is 16280. Number of deaths is 8383. Cumulative number of people vaccinated till date is 5770019.

Chandigarh: Total Lab confirmed COVID-19 cases is 60154. Total number of Active Cases is 1481. Total number of COVID-19 deaths till date is 758.

Himachal Pradesh: Total number of patients tested Covid positive till date is 191251. Total number of Active Cases is 12407. Total deaths reported till date is 3165.

Under 'Pradhan Mantri Garib Kalyan Package (PMGKP): Insurance Scheme for Health Workers Fighting COVID-19', a New system of processing of the Insurance claims introduced to streamline the Process

'Pradhan Mantri Garib Kalyan Package (PMGKP) Insurance Scheme for Health Workers Fighting COVID-19' was launched w.e.f. 30.03.2020 initially for a period of 90 days to provide comprehensive personal accident cover of Rs. 50 lakh to all healthcare providers, including community health workers and private health workers drafted by the government for the care of Covid-19 patients and for those who may have come in direct contact of COVID-19 patients and were at risk of being impacted by it. The scheme is being implemented through an Insurance policy from New India Assurance Company (NIACL). The insurance policy has been extended twice so far.

States and other stakeholders had been raising the matter that the processing of the insurance claims was getting delayed. In order to cut down on these delays and to further streamline and simplify the processing of the insurance claims, it has been decided to start a new system for approval of claims as per which the due diligence will be done by State Governments at the level of District Collector.

f Government's effort to augment domestic production ensured supply-demand balance of COVID 19 treatment drugs

Union Minister Shri D.V Sadananda Gowda today said that consistent efforts of Government to augment domestic production resulted in a stabilised supply-demand balance of COVID treatment drugs across the country.

 The Minister informed that total 98.87 lakh vials of Remdesivir were allocated to States, UTs & Central Institutions from 21st April to 30th May 2021. Production of Remdesivir has been ramped up ten times leading to enough supply than the demand. With the accelerated production, we are planning to supply up to 91 lakh vials up to the end of June, he added. He further informed that Cipla has imported 11,000 vials of 400 mg and 50,000 vials of 80 mg of Tocilizumab from April 25-May 30, 2021. In addition, MoHFW received 1002 vials of 400 mg & 50,024 vials of 80 mg via donation in May. Further, 20,000 vials of 80 mg and 1000 vials of 200 mg are likely to arrive in June, he added.

Shri Gowda informed that about 2,70,060 vials of Amphotericin B have been allocated to States/UTs & Central Institutions from 11th May to 30th May 2021. This is in addition to the supplies of 81651 vials that had been made by manufacturers to States in the first week of May. For details: <https://www.pib.gov.in/PressReleasePage.aspx?PRID=1723419>

Southern States of Andhra Pradesh, Tamil Nadu, Karnataka and Telangana receive more than 2000 MT of LMO each from Oxygen Expresses; Assam receives its fourth Oxygen Express with 80 MT of LMO

Indian Railways is continuing its journey of bringing relief by delivering Liquid Medical Oxygen(LMO) to various states across the country. So far, Indian Railways has delivered more than 22916 MT of LMO in more than 1357 tankers to various states across the country.

It may be noted that 334 Oxygen Expresses have completed their journey so far and brought relief to various States.

Southern States of Andhra Pradesh, Tamil Nadu, Karnataka and Telangana received more than 2000 MT of Liquid Medical Oxygen(LMO) each from Oxygen Expresses.

Assam received its fourth Oxygen Express with 80 MT of Liquid Medical Oxygen(LMO) in 4 tankers.

It is worth mentioning that Oxygen Expresses started their deliveries 38 days back on 24th April in Maharashtra with a load of 126 MT.

INPUTS FROM  **FIELD UNITS**

f Kerala: State Chief Minister Pinarayi Vijayan has said that one crore people will be vaccinated in the state by next month. Vaccination of people above 45 years of age is nearing completion in many districts. For those under 45, jabs for priority sections are also nearing completion. This will be completed once the vaccine is obtained. The state has asked Centre for more vaccines. Meanwhile, the TPR in the state dropped below 15% after 45 days on Monday as it recorded 12,300 new Covid-19 cases from 89,345 samples tested. The death toll due to the disease rose to 8,815 after confirming 174 more deaths. A total of 95,09,831 people has so far been vaccinated in the state. Out of this, 74,29,230 had first dose and 20,80,601 second dose.

in Tamil Nadu: TN promoted students studying in classes I to VIII. Tamil Nadu is expecting vaccine supply from the Union government as its current stock of around five lakh doses will get exhausted by Tuesday, Minister for Medical and Family Welfare Ma. Subramanian said on Monday. Five patients including three from Tamil Nadu succumbed to black fungus infection in hospitals in the Union territory of Puducherry so far. The Centre has allocated 600 doses of Amphotericin B to Tamil Nadu. The State on Monday registered 27,936 new cases, and the total number of infections has touched 20,96,516. A total of 478 more deaths were reported on Monday in the State. There are a total of 3,01,781 active cases of Covid-19 in the State. The TN health department has said that a total of 1,62,375 people were vaccinated yesterday in the state. Till date 90,94,255 have been vaccinated across TN, of which 70,61,570 received first dose and 20,32,685 received second dose.

Karnataka: New Cases Reported: 16,604; Total Active Cases: 3,13,730; New Covid Deaths: 411; Total Covid Deaths: 29,090. Around 1,77,637 were vaccinated yesterday with a total of 1,36,17,575 have been vaccinated in the state till now. Gaurav Gupta, Chief Commissioner of BBMP, said that the Covid vaccine will be administered by the mobile unit at the workplace for frontline workers aged between 18 and 44 in various categories in the city. Less than four thousand cases of Covid infection were reported in the Bangalore city after 55 days on Monday, with 3992 people infected. Expanding the list of preferential groups for Covid-19 vaccination, the Karnataka government on Monday declared that students and working professionals travelling overseas for employment will be provided with vaccine from June 1.

Andhra Pradesh: State reported 7943 new Covid-19 cases after testing 83,461 samples with 98 deaths, while 19,845 got discharged during the last 24 hours. Total cases: 16,93,085; Active cases: 1,53,795; Discharges: 15,28,360; Deaths: 10,930. A total of 98,63,347 doses of Covid vaccine have been administered in the state as on yesterday, which include 73,50,968 first doses and 25,12,379 second doses. The positivity rate has now come down to 9.5 per cent. Chief Minister YS Jagan Mohan Reddy directed the officials to vaccinate students going abroad for studies and also to those who are going abroad on work visa providing them a certificate from the government that they were vaccinated. Meanwhile, 14 out of 1179 people infected with black fungus have died and 97 recovered in the state while, 1068 patients are undergoing treatment in various hospitals for black fungus.

Telangana: Health Department has revoked Covid treatment permission for six more hospitals in the state for collecting exorbitant charges for treatment and violating Covid treatment protocol. As part of its special vaccination drive to inoculate high risk groups first, the State Health Department decided to vaccinate Auto and Cab drivers from 3rd of this month. Due to the Covid pandemic, the State Government has extended summer holidays for schools till June 15. As many as 2,524 new daily cases and 18 fatalities were reported in the state yesterday taking the total number of cases to 5,78,351 and fatalities to 3281. The number of Active Cases in the state now stands at 34,083. The recovery rate in the state is reported to be at 93.53 percent against the national average of 91.6 percent.

Maharashtra: With Covid-19 cases on a steady decline, the Brihanmumbai Municipal Corporation on Monday allowed non-essential shops to function between 7 am to 2 pm on alternate days from Monday to Friday for the next 15 days. Maharashtra on Monday reported 15,077 new COVID-19 cases, the lowest since March 15, taking the caseload to 57,46,892, while 184 more deaths pushed the toll to 95,344. As many as 33,000 patients were discharged from hospitals during the day, pushing the number of recovered cases to 53,95,370. The state now has 2,53,367 active cases. Meanwhile, Mumbai city reported 666 new cases and 29 deaths, taking its tally to 7,05,288 and the toll to 14,826.

Gujarat: Gujarat on Monday reported 1,681 new Covid cases and 18 deaths. This tally was the lowest in 71 days, whereas the mortality rate was the lowest for 55 days. For cities, the Covid tally reduced further with at least one and a half times more discharges than the number of new cases.

Gujarat on Monday administered 2 lakh shots of Covid vaccines, of which 1.66 lakh were first shots. The state government has decided to give vaccination on priority to students who are going abroad for higher education.

Rajasthan: Rajasthan chief minister Ashok Gehlot has issued guidelines to start the "unlock" process and eased certain restrictions from Wednesday as cases of the coronavirus disease (Covid-19) have come down in the state. However, exemption for various activities will be given only in areas where the positivity rate is less than 10 per cent or the use of oxygen, intensive care unit (ICU) and ventilator beds is less than 60 per cent, Ashok Gehlot has said.

Rajasthan recorded 68 Covid-19 deaths and 1,498 new cases on Monday, taking the total number of fatalities and case tally to 8,385 and 9,39,958 respectively.

Madhya Pradesh: Madhya Pradesh chief minister Shivraj Singh Chouhan said on Monday that the ongoing 'corona curfew' in the state has been extended till June 15 but certain relaxations will be given in order to revive the economy. The COVID-19 tally in Madhya Pradesh rose to 7,80,030 on Monday with the addition of 1,205 new cases, while 48 more deaths pushed the fatality count to 8,067. It is after a gap of over two months that less than 1,300 coronavirus cases have been reported in a day in Madhya Pradesh, indicating that the second COVID-19 wave is on the wane. The number of active cases in the state stands at 23,390.

Chhattisgarh: The Chhattisgarh Government on Monday extended the lockdown, which was scheduled to end on May 31, and said that it will continue with some relaxation in restrictions in those districts where the COVID-19 case positivity rate is less than five per cent.

Chhattisgarh's COVID-19 count rose to 9,71,463 on Monday with the addition of 2,163 fresh cases, while the death toll increased to 13,048 after 32 more patients succumbed to the infection. The number of recoveries reached 9,22,674. The number of active cases in the state now stands at 35,741.

Goa: The Covid-19 positivity rate in Goa has now come down to 19 per cent as against 51 per cent a month back. Dr Shivanand Bandekar, head of the state's expert committee on COVID-19 has said that till last week, the coastal state reported a total of 12 cases of mucormycosis, and since then there has been no fresh case of the black fungus infection.

The Goa government has decided to expand the definition of frontline workers to make taxi drivers, motorcycle pilots as well as seafarers eligible for the Covid-19 vaccine.

Assam: In Assam, COVID-19 positivity rate dropped below 4 in the State even as 4,348 new infections were detected from 1,11,586 tests. The positivity rate was 3.90. Kamrup Metro saw 384 new cases. Casualties in the state in the last 24 hours were 65.

From June 1, 2021, medical teams will start visiting every household in the 28,149 villages across the state to track and break the COVID-19 chain.

As many as 304 gaon panchayat, village council development committees and village development councils of Assam remain COVID free and no infections have been reported from those places so far.

Manipur: Manipur crosses 50 thousand mark with 869 more cases. 14 more succumb to take death tally to 807 in the State. Manipur Chief Minister said that will not allow detractors to sabotage the collective fight against the pandemic. DCs, CMOs advised to intensify vaccination.

Meghalaya: Meghalaya is now witnessing a decline in the number of fresh cases daily while the recovery rate has been climbing steadily since last week. For the fourth straight day, the number of recoveries overshadowed the new cases. 408 new cases were detected in the state on Monday as against 977 recoveries, a new record.

Gujarat: State registered 117 new COVID-19 cases and 12 deaths during the last 24 hours. Active cases are 4934 while tally reaches 21,680. Mokokchung oxygen plant installed under PM Cares Fund cleared for use but not yet operational. Connection of oxygen pipelines to 50 Covid beds completed on May 30.

Tripura: The State tops in the country with highest number of vaccination for the population above 45 informed education minister of Tripura in a press meet in Agartala. Further the infection rate is also declining in the state. Positivity rate has come down to 2.51%. While West Tripura district which was having highest positivity rate in the state has also shown declining trend with positivity rate of 3.12.

Sikkim: 146 new cases detected in the past 24 hours to take the State's tally of confirmed cases to 15,317 on Monday. This is a substantial lowering given that earlier this week Sikkim broke the 400-mark and had many days of 300-plus daily cases. While the drop in daily cases is reassuring, fatalities continue to remain a worry and Sikkim's COVID death toll reached 253 with three more COVID patients succumbing to the virus in the last 24 hours.
