# DIRECTORY INFORMATION

## DIRECTORY INFORMATION

The Tinker Air Force Base Telephone Directory is printed by Public Affairs with information obtained from your organization's Telephone Control Officer.

The directory is now also available on the TAFB Web site. Please feel free to send comments or suggestions for improving our service to Public Affairs.

## SERVICES

### Establishing or Relocating Phone Service:

Organizational Telephone Control Officers (TCOs) can assist you in your efforts to install, relocate, alter or terminate service. To obtain the identity of your organization's TCO, call 734-5582.

### Repair Service:

Contact 72 ABW/SC at 734-4357.

Please have the following information available:

Type of trouble (broken receiver, no dial tone, etc)

Building number, post, room, location and phone number

Name and extension number of initiator

### Enhanced Services:

Some enhanced services such as direct long distance dialing and call pick up groups are not authorized or available on all phones. Your TCO and instrument user guide can instruct you on individual access capabilities.

# PHONE SECURITY

## **Classified**

Classified information should not be discussed or revealed over the administrative telephone system. Personnel who make disclosures of classified information during a conversation on a telephone are subject to disciplinary action.

## **Nuisance Calls and Bomb Threats**

Malicious, threatening or abusive calls, including those where obscene or profane language is used, are prohibited. Calls of this nature should be reported immediately to Security Forces by calling 911. Correct procedures for handling a bomb threat (AF Form 440, Bomb Threat) should be posted near each telephone.

## **MINIMIZE Procedures**

MINIMIZE is a condition imposed by a commander to reduce and control electrical and telephone traffic within the commander's area of authority during an emergency or exercise. MINIMIZE may be imposed DOD-wide, Air Force wide, Command-wide or on given countries, states, or areas as conditions warrant. All systems or any portion of the systems may be placed under MINIMIZE by the imposing authority.

## **Proper Phone Use**

The entire Tinker AFB phone system is provided for official use only. Many new features and capabilities have been added and more will be added in the future. This will provide the user with a system which is easier to use and to increase the efficiency of conducting official business. All users should be aware that the type of calls, origination, and destination are monitored on a continuing basis, and some calls are recorded. If this monitoring shows misuse of the system, the information is provided to the abusers management for appropriate action.

## **Moving Telephones and associated equipment**

Please do not move telephones or associated equipment. Telephone equipment is frequently damaged when moved by unauthorized and unqualified personnel. Analog systems should be moved by the Base Telephone Systems O&M contractor who is authorized and qualified to perform this service. Please contact your Unit Telephone Control Officer for guidance if you need to move a Voice over Internet Protocol (VoIP) phone.

## **Hearts Apart Morale Calls**

Is a program that allows deployed member and family to communicate by allowing two 15 minute phone calls per week.

## DSN FREQUENTLY CALLED NUMBERS

The following listing includes most Air Force activities and frequently called installations of the Army, Navy, Marine Corps, and other Department of Defense activities which may be reached via DSN. A master directory for other installations not listed is maintained in a current status by the base directory operator. Certain installations have direct-in-dialing. This means, if the desired extension number at the called destination is known, it may be dialed by preceding the extension number with the prefix given in the listing below. Prefixes for in-dialing are given followed by a letter for each digit required for the extension number. For example, the in-dial prefix for Langley AFB is 574 for DSN. It is shown below as 574-XXXX, indicating that a 4-digit extension is required. If the desired extension is not known, the calling party must obtain the number from operator at the called destination before placing the call.
