Rack Product

Benefit

VR Rack	The Vertiv rack with all the flexibility you need for an easy installation.
Liebert™ GXT5 Lithium Ion	UPS Uninterruptable Power Supply unit with new Lithium-Ion battery technology to maintain power to the rack IT in all circumstances
Liebert™ CRV	Rack cooling solution to keep the rack IT equipment within operational temperatures with minimal footprint and high efficiency
Geist™ rPDU	Provide reliable power distribution to critical rack IT equipment with wide variety of supported receptables and monitoring
Avocent® Ecosystem	Vertiv's powerful solution portfolio to locally or remotely access and manage all your attached IT devices.
Service	Vertiv's service offering ensures that systems remain continuously available and with reduced costs.

Uninterruptible Power Supplies (UPS)

Vertiv delivers a full range of uninterruptible power supplies (UPS) and power distribution units (PDU), from individual data centre solutions to integrated systems that keep network closets, computer rooms and data centre infrastructure up and running.

This wide range of power capacities will bring you not only greater margins but also significant upselling opportunities.

Three-Phase UPS

Liebert® EXS

Liebert® ITA2

Further enterprise UPS solutions from Vertiv

Vertiv also offers a complete range of efficient, reliable Three-phase UPS systems with up to 60 KVA that can be configured to meet the specific needs of your customers critical applications.

For more information on our Three-phase UPS portfolio or your individual project support please contact your Vertiv Channel Account Manager or email us at

UKIE.channel@vertivco.com

You can also find more information on our Website Vertiv.com.

Three-Phase UPS Liebert® EXS

Optimised and Integrated Three-Phase UPS Solution with High Efficiency Power Protection

10000-15000-20000-30000-40000-60000 VA

Key Benefits

- Output power factor up to 1
- Double conversion efficiency up to 96.2%
- ECO mode efficiency up to 99%
- Input current total harmonic distortion correction (THDi) < 3%
- Battery charger up to 13 A
- Integrated manual bypass
- Integrated input and output breakers/switches
- Integrated parallel load bus and synchronisation port (LBS)

Applications

- Banking, Financial and Insurance
- Data Centre/Colocation/Hosting
- Government
- Manufacturing
- Healthcare
- Transportation
- Retail and Wholesale

Technology:	Double-Conversion, VFI-SS-111 according to IEC62040-3
Connections:	Three-phase or Single-phase output connection (single-phase output for 10-20kVA only), Power cables connection from the rear
Communications:	USB port, SNMP/WEB, Modbus and Relay Card optional, Vertiv Life™ Services compatible
Options:	Multiple internal battery configurations, External Battery Cabinets, Battery shelves, Battery temperature compensation kit, Parallel and Dual Bus cables, Communication cards

Three-Phase UPS Liebert® ITA2

Remarkable Efficiency and Flexibility Characterise the Liebert® ITA2 UPS Family

10000-15000-20000 VA

Key Benefits

- Rack-tower design for installation flexibility
- Able to deliver both three-phase and single-phase output
- Ultra-high power density
- 0.99 input power factor for better grid or generator compatibility
- Unity output power factor for additional power availability
- Efficiency in double conversion up to 96.2%
- ECO mode operation with efficiency up to 99% and remarkable energy saving performance
- Powerful charging capability with consequent reduction of the battery recharging time
- Programmable dry contacts
- Programmable output power terminals

Applications

- Small computer rooms
- Branch offices
- Servers
- Network computers and peripherals
- Storage device
- VoIP

Technology:	Double-Conversion, VFI-SS-111 according to IEC62040-3
Connections:	Three -phase or Single-phase output connection, Terminal block on the back of UPS
Communications:	USB port, SNMP/WEB, Modbus and Relay Card optional, Vertiv Llife™ Services compatible
Options:	Battery Module, Power Distribution Module, Parallel and Dual Bus cables, Rack installation kit, Battery temperature compensation kit, Intellislot extender

Integrated Rack Solutions

Optimising technology and performance needs for IT applications. Our integrated platform provides standard and specific, custom solutions.

Our family of racks enables cable management, power distribution, ventilation or sophisticated precision air conditioning solutions. Each of our products meets the strictest standards for durability and safety. Contact the Vertiv team for modular designs for data centres of any type or dimensions.

Single Phase UPS

The critical systems that sustain your business operations can't go down.

Vertiv supports you in improving your uptime with a full range of innovative Liebert® uninterruptible power supplies (UPS) and future-proof, integrated UPS systems, that will cover the backup power needs of your IT infrastructure, from small computer rooms at the network edge to enterprise and hyperscale data centres. Discover the best uninterruptible supplies to protect your application.

Single Phase UPS

Liebert® GXT5

Intelligent and Efficient UPS Protection

750VA - 20kVA

Key Benefits

- High output PF=1.0
- Full color graphic LCD display with gravity sensing
- Controllable output power sockets
- External battery cabinets with auto-detection
- Integrated POD and maintenance bypass (detachable, standard for small line only from 5-10kVA)
- Wide range of power ratings to answer any possible power requirement
- Extreme flexibility with parallel or redundant operation capability
- Battery health status and replacement date prediction

- Remote management, update and configuration
- Optimised thermal management and variable speed fan
- High efficiency up to 95% in on-line mode
- Even higher efficiency up to 98% in Active ECO mode
- Programmable output sockets for optimum battery usage

Applications

- Business and Education Communications & Network systems
- Communications and DAS
- Network/Wiring Closets
- Edge Processing – Retail, Finance, Education

Technology:	Online Double Conversion, VFI according to IEC62040-3
Connections:	Terminal block (input and output) + IEC plugs (output only)
Communications:	SNMP/WEB, Modbus and Relay Card optional, Vertiv Life™ Services compatible Battery Cabinets
Options:	Communication cards, Rack mount kits, Warranty extensions available

Vertiv™ Liebert® GXT5 Lithium-Ion UPS 1000 - 3000 VA, 230V

Lithium-ion technology delivers two to three times the useful life of lead-acid batteries along with a lower total cost of ownership, making the Liebert® GXT5 Lithium-Ion online UPS ideally suited for network and server rooms, and other mission-critical edge applications.

Key Benefits

- Lowest total cost of ownership; lithium-ion batteries last up to 3 times as long as VRLA batteries
- 5-years standard warranty on the UPS and batteries
- High efficiency, up to 95% in double-conversion online mode to deliver energy savings
- Advanced User-Friendly Color Graphic LCD with gravity sensing orientation for simple local UPS configuration and management
- Flexible 2U rack/tower convertible form factor
- Hot-swappable, user-replaceable internal batteries enable battery replacement without disrupting power to connected equipment
- USB communications for local UPS monitoring and management using free Power Assist software
- Optional Liebert® IntelliSlot RDU101 network communications card for remote monitoring, control and management of the UPS
- Environmentally Friendly; RoHS and REACH compliant

Applications

- Education Healthcare
- Retail and Wholesale
- Government
- Banking, Financial and Insurance

Single Phase UPS

Single Phase UPS

Vertiv™ Edge Lithium-Ion UPS, 1500-3000VA

The Vertiv™ Edge Lithium-Ion line interactive UPS provides both power conditioning and battery backup to critical IT equipment such as servers and network gear ensuring your customers' business-critical applications are protected in the event of an unanticipated loss of power or an unprecedented power surge.

Key Benefits

- Lowest total cost of ownership
- Lithium-ion batteries last up to 3 times as long as VRLA batteries, resulting in fewer battery replacements
- 5-years standard warranty on the UPS and batteries
- Longer battery runtime and quicker battery recharge times

Applications

- Education Healthcare Retail and Wholesale Government Banking
- Financial and Insurance

Vertiv Edge Single Phase UPS

Superior Power Protection for Edge Applications

500 - 3000 VA 230 V

Key Benefits

- Line interactive (VI) UPS technology for professional applications
- Complete product family with ratings from 500 VA up to 3 kVA
- High output power factor (0.9)
- Controllable sockets for load management during outages
- Installation Flexibility with 1U, 2U, 3U and tower form factor versions
- Colour LCD display
- Same external battery cabinets compatible with Vertiv™ GXT5
- Railkits included in the UPS
- Up to 30% more runtime like competitive units
- Easy integration in management tools via SNMP, Modbus, BACNET, dry-contacts
- Battery deep discharge protection for extended battery life
- Configurable “Green function” to disable output at small loads

Applications

- Banking, Financial and Insurance
- Broadcast and Entertainment
- Education
- Fire/Alarm/Security
- Government
- Healthcare
- Manufacturing
- Retail and Wholesale
- Telecom
- Transportation

Single Phase UPS

Single Phase UPS

Liebert® APS

Modular Power Protection for Immediate and Future Load Demands

5000-10000-15000-20000 VA

Key Benefits

- 5 kVA / 4.5 kW single phase output power modules (output PF=0.9)
- Site configurable as single phase or three phase input
- Scalable up to 20 kVA + 10 kVA redundancy
- Stand alone or rack mountable
- Hot-wappable power and battery modules
- Intelligent battery modules with automatic disconnection for anomalous events
- Double conversion efficiency: 92%
- Efficiency in ECO mode up to 98%

- Long life batteries (8-10 years design life)
- 1.8 A Charging Current per module
- Optional 10 A charger module
- Input: Terminal blocks
- Output: Terminal blocks, or output sockets with the optional PODs

Applications

- Mission critical workstations
- Small computer rooms
- Network equipment
- Telecommunications
- Finance requiring maximum availability

Single Phase UPS Liebert® GXT3

Reliable On-Line UPS Protection In A Compact Package

GXT3-10000T230

Key Benefits

- 0.9 Power Factor
- LCD display in multiple languages
- Automatic frequency detection
- User replaceable hot-swappable internal batteries
- Additional runtime with additional battery cabinets
- Vertiv™ IntelliSlot™ communications port
- Includes Windows-based configuration program
- Built-in USB communications
- Separate bypass input available
- Capable for operation as 3-phase or 1-phase input
- Emergency Power Off (EPO)
- Parallelable up to 2+1 units

- Wider input voltage window minimises battery use
- Internal automatic and manual bypass (integrated)
- Standard two-year replacement warranty
- Compact footprint
- Battery cut-off voltage to prevent from overdischarge of batteries

Applications

- LAN & WAN Servers
- Network Equipment
- IP Telephony Deployments
- Office Telecommunications systems
- SDN & frame relay applications
- Test and Diagnostic Equipment
- Banks
- Micro Processor-controlled Equipment

Technology:	Online Double Conversion, VFI according to IEC62040-3

Single Phase UPS Liebert® GXT RT+ UPS

Essential, Affordable UPS for High Performance Protection GXT RT+ 1000IRT2UXL, 1500IRT2UXL, 2000IRT2UXL, 3000IRT2UXL

Key Benefits

- On-line double conversion UPS for mission-critical applications
- Output power factor of 0.9 is higher than majority of comparable competitor models
- Compact dimensions (2Us height) including batteries
- Flexible rack/tower form factor allows for flexible installation
- Simplified installation with at-a-glance configuration information on a user-friendly liquid crystal display (LCD)
- High efficiency ECO mode and lower TCO
- Smart battery charger design
- Flexible communications through RS232 or USB ports
- Slot available for optional SNMP/web monitoring cards
- Available in 1-1.5-2-3 kVA ratings
- Wide input voltage operation (120-300V AC)
- Rack mounting kit included

Applications

- IT
- Finance
- Telecom
- Industrial
- Education
- Government
- Retail
- Edge

Single Phase UPS Liebert® GXT MT +

Compact Tower UPS for High Performance Power Protection 1000-2000-3000 VA

Key Benefits

- Double conversion on-line technology
- Compact tower design
- 0.8 output power factor
- Ultra wide input voltage range
- Automatic frequency detection
- High input power factor & low THDi
- Emergency power off (EPO)
- Energy saving mode (ECO) for high efficiency
- LCD display for operational convenience and status/fault information
- Multiple AC output interfaces via Schuko and IEC standard sockets
- Multiple communications options available through USB/RS232, and optional via volts-free contacts and SNMP cards

Applications

- VoIP equipment
- Small office networks
- Computer rooms
- Process automation equipment
- Network storage devices

Not suitable for UK Market

Technology:	Online Double Conversion VFI according to IEC62040-3
Connections:	IEC input and IEC+Schuko plugs (output power terminals only for 3kVA)

Single Phase UPS Liebert® GXE 6-10kVA UPS

Essential and Affordable Uninterruptible Power Supply (UPS) for High Performance Power Protection

Key Benefits

- High output power factor (1.0)
- Full-color graphic LCD with gravity sensing orientation
- High efficiency in online mode (up to 94%)
- Even higher efficiency (up to 98%) in ECO mode
- Flexible rack/tower design, with rack mount kit included
- Extended runtime with up to 4 External Battery Cabinets (EBC)
- Hot-swappable user replaceable internal UPS batteries
- Easy to install, configure and operate
- Remote management capability with optional Vertiv™ Liebert® Intellislot™
- IS-UNITY network management cards
- Wide input frequency operation (40-70Hz) without any power derating
- Automatic internal bypass
- Free UPS management software
- Fast recharge time (3 hours @90%)
- Compatible with Vertiv™ LIFE™ Service to maximize UPS availability

Applications

- Banking
- Financial
- Insurance
- Education
- Government
- Healthcare
- Manufacturing
- Retail and Wholesale
- Telecom
- Transportation

Single Phase UPS Liebert® PSA

Performance Power Protection For PC And Office Equipment 500-650-1000-1500 VA

Key Benefits

- Available in four ratings: 500, 650, 1000 and 1500VA
- 3 to 6 battery-backed UPS sockets, depending on model size
- One to two surge-only sockets, differentiated by colour
- USB cable included
- User replaceable batteries
- Up to 4 minutes of battery backup time at full load
- Full sequenced battery testing to ensure batteries are available when needed
- Advance early warning of UPS shutdown
- 3 years standard warranty
- RJ-45 port for data line surge protection

Applications

- Professional Desktop PC
- Professional Workstations
- Small Routers, Bridges & Hubs
- Point-of-Sale Terminals
- Other Sensitive Electronics

Technology: Line Interactive, VI according to IEC62040-3

Connections: IEC plugs (input and output)

Communications: USB port (all units)

Single Phase UPS Liebert® itON

Reliable Power Protection for Desktop Workstations

400-600-800-1000-1500-2000 VA

Key Benefits

- Automatic voltage regulator (AVR)
- Compact size
- Light weight
- Easy operation
- Overload protection and alarm
- Auto re-start with AC recovery
- Fast charging
- Cold start function
- Available in ratings from 400 VA up to 2000 VA
- USB port (for 1000 VA, 1500 VA, 2000 VA)
- Flexible output power sockets combination:
 - Schuko sockets (for 400 VA, 600 VA, 800 VA)
 - Schuko and IEC sockets (for 1000 VA, 1500 VA, 2000 VA)

Applications

- Desktop PCs
- Professional workstations
- Small routers, bridges and hubs
- Point-of-sale terminals
- PBXs
- Other sensitive electronics

Not suitable for UK Market

Single Phase UPS

Liebert® PSP

Best-Value Power Protection for PCs and Peripherals

500-650 VA

Key Benefits

- 3 battery-backed UPS outlets and one surge protection-only outlet differentiated by colour
- USB port and cable
- User replaceable batteries
- Up to 4 minutes of battery backup time at full load
- Protects against lightning, spikes and surges
- Full sequenced battery testing to ensure batteries are available when needed
- Advance early warning of UPS shutdown
- 3 years standard warranty
- RJ-45 port for data line surge protection

Applications

- Professional workstations
- Small routers and bridges
- Point-of-sale terminals
- Other sensitive electronics

Technology: Offline, VFD according to IEC62040-3

Connections: IEC plugs (input and output)

Communications: USB (all units)

Racks and Containment

In the modern data centre landscape, standardisation is becoming the norm. But not everywhere and not done randomly. The first place you'd want to start data centre normalisation is the racking systems and containment solutions.

Starting with flexible, easily installed, adaptable and pre-configured customised server racks and network cabinets saves you costs, footprint and it increases the performance, efficiency, and reliability of your critical infrastructure.

Let's discover the data centre custom containment solutions that will help you reach your objectives.

Vertiv™ VR Rack

Rapid deployments everywhere you operate

Standardise your deployments around the world and bring them online faster with the Vertiv™ VR rack. The Vertiv VR supports a wide variety of equipment, including: servers, storage, switches, routers, PDUs, UPSs, console port servers and KVM switches.

Key Benefits

- Available in 8 standard sizes
- Full depth adjustability of the 19" rails
- Frame design allow for more than 2.5" more usable depth than similar sized racks
- Doors that have 77% perforation and can be hinged on either side
- Tool-less removable top panel has four cable entry holes allowing for up to 2000 Cat6 cables, or 60A PDU plugs
- Two dual purpose full height depth adjustable PDU / cable management brackets mounted in the zero U space with tool-less button mounting of rack PDUs, accessory mounting

holes for tool-less cable management accessories, and integrated cable tie off positions

- 42U frame height that allows for the rack to pass through standard doors on casters
- Simple external baying, allows for metric baying or on 24" centres
- Split side panels with single locking slam latch allows for easy single person removal / installation

Applications

- Data centres
- Server rooms
- Edge applications

- Frame:**
- Frame capable of supporting up to 3000 lbs (1360kg) Static, 2250 lbs (1022kg) Dynamic.
 - Simple external baying, allows for metric or on 24" centres and leveling feet incorporated into the frame for easy adjustment.
 - 42U frame height that will allow access through standard doors on four swivel casters.

Certifications: EIA 310E - UL2416 - RoHS - REACH

Color: Frame, doors, side panels, top panel, rails and PDU brackets are powder coated RAL 7021 (Black)

Warranty: Warranty up to 5 Years – 36 Month standard + 24 After Product registration

High Density Cable Entry Top Panel

Removable openings for cable entry — ready for front / rear cabling. Can accommodate over 2000 Cat 6 cables.

Doors

Single and split 77% perforated doors providing maximum airflow. Lift off hinges for easy removal, and field reversibility.

Frame

More usable depth compared to similar sized rack.

Tool-less Cable Management

Requires just inserting and twisting the tool-less accessories on 19" vertical mounting rail, or the PDU / cable management brackets.

Integrated 19" Rail Alignment

Ensures 19" rails are positioned correctly without measuring.

Split Locking Side Panels

For quick and easy installation and maintenance. Locks provide security.

Leveling Feet

Accessible from the top of the frame for easy adjustment.

VRA6024	Caster Kit (Qty. 4)

Power Switching and Distribution

When we are talking about PDU there are features that play key role such as modularity, scalability and efficiency, etc. Our focus consists to provide solution standard, specific and custom being a referent point for the customers.

Each of our products meets the strictest standards for durability and safety. Contact the Vertiv team for modular designs for data centres of any type or dimensions.

Vertiv™ Liebert® RXA

Suitable for any IT space, the Vertiv Liebert RXA remote power distribution system helps meet high density power demands, with an intelligent monitoring system.

To further enhance scalability, pairing the RXA with our MBX Busway is the perfect match. Thanks to this technology, it's possible to have a flexible system that allows you to easily add new modules.

Vertiv Liebert® RXA

Remote Power Panel RXA

For more information on our RPP portfolio or your individual project support please contact your Vertiv Channel Account Manager or email us at UKIE.channel@vertivco.com. You can also find more information on our Website Vertiv.com.

Key Benefits

- Reliable uninterrupted power
- High power density
- Available in two ratings
- Flexible and scalable
- Hot-swappable panel board system
- Intelligent oversight with: Liebert DPM monitoring system

Applications

- Banking, Financial and Insurance
- Data Centre/Colocation/Hosting

High-Availability Configurations

The flexible Vertiv™ Liebert® RXA is easily configured to accommodate current site needs and future growth.

Single: 328 mm x 603 mm
(13" x 24") | 84pole | 250/400 A

- Wall-mounted
- Back supported by column Unistrut or wire cage

Double: 603 mm x 603 mm
(24" x 24") | 168pole | 250/400 A

- Free-standing
- Drop-in replacement for floor tile

Double: 328 mm x 1207 mm
(13" x 48") | 168pole | 250/400 A

- Wall-mounted
- Back supported

Triple: 603 mm x 932 mm
(24" x 37") | 252pole | 250/400 A

- Free-standing
- Panel boards: front rear, one side

Quadruple: 603 mm x 1260 mm
(24" x 50") | 336pole | 250/400 A

- Free-standing
- Panel boards: front, rear, both sides

Technology: Smart Remote Power Panel with hot-swappable and finger-safe panelboard with 84 P. Monitoring system embedded.

Connections: : USB port, HTTP/HTTPS, Vertiv Protocol, SNMP v1/v2c/v3, BACnet IP and Modbus TCP output, BACnet/MSTP and Modbus/RTU

Options: Miniature Circuit Breakers and panelboard accessories, bottom cable Entry Kit, TVSS (Surge Protection Device), Communication Card, Integrated Monitoring System (Liebert DPM)

Power Monitoring System

The Liebert DPM consists of a two-level system monitoring:

Branch Circuit Monitoring Level: shows the data for each outgoing circuit from the unit, either for monophase or triphase loads:

Input Monitoring Level

-Shows the data from the Main Input Circuit Breaker:

- Phase Current
- Neutral Current
- Ground Current
- Current Load Percentage
- Voltage Line-to-Line
- Voltage Line-to-Neutral
- Frequency
- Real Power (kW)
- Apparent Power (kVA)
- Power Factor
- Energy (kW-Hours)
- Peak Current (A)
- Peak Demand (kW)
- Current Crest Factor
- Current Total Harmonic Distortion

(THD) in total THD - includes 3rd, 5th, 7th and 9th Harmonics

- Voltage Total Harmonic Distortion (THD) in total THD - includes 3rd, 5th, 7th and 9th Harmonics
- Circuit identification and status of the MICB
- Current Total Harmonic Distortion

Branch Circuit Monitoring Level

-Shows the data for each outgoing circuit from the unit, either for monophase or triphase loads:

- Phase Current
- Percent Load
- Real Power (kW)
- Power Factor
- Energy (kW-Hours)
- Peak Current (A)
- Peak Demand (kW)
- Circuit identification of each breaker

Front 9" touch screen coloured display with visible and audible alarms to prevent downtime

On left is a "single-line" electrical diagram of the Liebert® RXA unit, displaying the input and output distribution of branch panel boards and sub-feed breakers. On right is the unit's total output load, with individual power levels for each phase in a 3-phase distribution, including voltage and amperage for each phase.

Date/Time	Type	ID	Status	Component	SubComp	Description
9/7/2020 9:31 AM	Fault	335	ON	CB1-16A-3P		Ground Overcurrent: 3A
9/7/2020 9:31 AM	Fault	339	ON	MICB 400A		Breaker Tripped
9/7/2020 9:31 AM	Fault	335	ON	CB2-16A-3P		Ground Overcurrent: 1A
9/7/2020 9:31 AM	Fault	232	ON	CB2-16A-3P		Overcurrent: 17A
9/7/2020 9:31 AM	Fault	235	ON	CB4-16A-2P		Energy Measure Rollover
9/7/2020 9:31 AM	Fault	120	ON	CB14-16A-3P+N		Overcurrent: 34A
9/7/2020 9:31 AM	Fault	123	ON	CB14-16A-3P+N		Neutral Overcurrent
9/7/2020 9:31 AM	Fault	118	ON	CB4-16A-2P		Overcurrent: 34A

Displays the event log with summaries of power events that occurred in the unit, including the location, date, and time of the events. 3-phase distribution, including voltage and amperage for each phase.

MBX Busway

Liebert® MBX gives data centre managers flexibility, control, and peace of mind when changing and adapting to keep pace with hardware requirement demands.

Liebert® MBX Busway

Key Benefits:

- Open channel busway: finger-safe IP2X certified
- Solid Joint Pack construction
- Lightweight Aluminum chassis
- Ground-first, break-last safety

Liebert® MBX gives data centre managers flexibility, control, and peace of mind when changing and adapting to keep pace with hardware requirement demands.

Applications

- Data centres of any size
- Data centres with frequent or planned configuration changes
- Single or dual-bus configurations
- Raised and non-raised floors

Tap-off box receptacles IEC 309 options Tap-off Box Benefits

- Change power requirements easily
- Plug-n-play to rack/rack PDU
- No interruption to existing critical loads
- No electrician required for installation
- Amps and receptacles sized to meet server needs

- Relocate and reuse tap-off box anywhere along the busway to maximise investment

Tap-off Box Features

- Up to 63A per tap off Box
- Up to 600VAC
- 15 to 25 kA short circuit breaking capacity
- Accommodates up to 5 receptacles per box
- Flush-mounted receptacles
- Fits anywhere along the busway
- Tap-off boxes are readily installed on energised busway and are fully interchangeable

Power Distribution

Increasing rack power density both in the data centre and at the network edge means that reliable power distribution is crucial.

Our innovative power distribution units and rack PDUs not only maintain power, but they also enable us to support you in any challenges your IT infrastructure might face.

From basic PDUs, to monitored and switched rack power distribution units, to locking receptacles, Vertiv's solutions will offer the power distribution you need, as well as remote monitoring and management of your assets' power usage, so you can rest assured everything is running at peak performance.

Power Distribution

Enhanced Performance and Management of Dynamic IT Spaces

Enhance Business Agility, Efficiency and Availability with Vertiv™ Geist™ Rack PDUs

Data centre investments are sizable, and each component of the power chain from the facility entrance to the rack power distribution is crucial to enabling equipment availability. Enable your IT investment and your business to stay protected with the Vertiv™ Geist™ family of Rack PDU (rPDU) offerings.

The next generation of rPDUs provides the industry's highest availability and most intelligent power monitoring and distribution — complete with simplified energy management, a future-proof design, and cost savings that ensure your data centre and your business — can operate at peak efficiency.

Our complete portfolio of rPDUs offer value beyond power distribution. They easily integrate with your data centre infrastructure management systems to make your organisation more resilient, enhance your business and provide the technological support you need to grow your company.

Power

Monitor

Integrate

Basic rPDUs

Vertiv™ Geist™ Basic Rack PDUs (rPDUs) offer reliable, space saving, and cost-effective power distribution at the rack. Our Basic rPDUs meet a broad range of power distribution requirements for all IT applications.

Intelligent rPDUs

Vertiv™ Geist™ offers a wide range of monitored and switched rPDUs equipped with a network interface to allow for remote monitoring, management, and automated alerts. Vertiv™ Geist™ rPDUs offer important insights on how to improve data centre energy efficiency while enabling you to prevent downtime, providing notifications when user-specified thresholds for power and environmental conditions are breached.

At a Glance

Colour

Black powder coat finish.

Red, Orange, Yellow, Green, Blue, White available on Built-to-Order units.

Configure-to-Order and Engineer-to-Order Capabilities

Built-to-Order units provide additional features, coloured chassis options, and varying power and receptacle configurations. Contact your Vertiv sales team for more information.

Warranty

5-Year limited warranty if registered within 120 days of purchase, otherwise warranty defaults to 3 years.

Certifications*

- RoHS
- Assessed to EN 60950 for CE
- Assessed to EN 55032 and EN 55024 for CE
- UL & c-UL Listed 60950
- FCC Part 15 Class A Conformance

*Certifications vary by model. Refer to the product data sheet for specific regulatory information.

Combination Outlet C13 / C19

Simplify rPDU specification, purchase, and deployment.

The Combination Outlet C13/C19 provides the highest level of rack power versatility. The 2-in-1 design allows you to connect both IEC C14 and C20 plugs into the same outlet.

- High retention outlets reduce the risk of costly downtime from accidental disconnections of the power cord. The Combination Outlet C13 / C19 is also P-Lock compatible for additional protection
- Easily identify circuits with color-coded P-Lock tabs
- Streamline circuit and phase balancing with alternating outlets

Universal Power Distribution Unit (UPDU)

The Vertiv™ Geist™ UPDU is the most versatile and robust rack power distribution unit on the market with a universal power input and pivoting connector that can mate to any geographically specific Facility Side Cable, simplifying management and enabling rapid IT infrastructure deployments.

The Vertiv™ Geist™ UPDU features a universal input and a detachable power cable meeting AC power specs that are common worldwide ranging from 16A to 63A, 120V to 415V with single and three phase power configurations.

Models available in 11kW and 22kW max power load capacities in both vertical and horizontal form factors with various receptacle combinations, monitoring and outlet control options.

Benefits

- Supply chain agility
- Global data centre interoperability
- Improve power efficiency with input and outlet level power monitoring
- Lower inventory management costs

WatchDog sensors are also suitable for Geist rPDUs.

Protection for Your Customers' Most Valuable Assets with Residual Current Metering

Select Vertiv™ Geist™ rack PDU models support Residual Current Metering Type B (RCM-B). RCM-B continuously monitors the fault current of the power distribution within the IT rack. Customisable alarms provide immediate notifications of changes in residual current leakage allowing users to respond to a fault condition immediately to avoid potential catastrophic events such as critical equipment shutdown, electric shock, and electrical fires.

RCM-B monitoring provides increased data centre availability and reduces the time required to confirm compliance with local requirements.

- Vertiv™ rack PDU residual current metering is compliant with the EN62020 standard for total residual current metering of both AC and DC current
- RCM-B monitoring at the rPDU level provides permanent continuous residual current metering complying with DGUV regulation 3 and does not require system disconnection for testing
- The rack PDUs monitor per phase on three-phase rPDUs supporting the data centre standard EN50600

rPDU Models

Visit the rPDU Finder on Vertiv.com for a complete list of available models.

Vertiv™ Intelligence Director

PLUG-N-PLAY DATA CENTRE INFRASTRUCTURE ENABLING LIGHTNING FAST DEPLOYMENTS

The next generation of Vertiv™ Geist™ rPDUs offer enhanced monitoring and simplified networking with the introduction of Vertiv™ Intelligence Director.

- On Monitored* and Switched units, users have the ability to daisy chain up to 50 devices with a single IP address.
- Access data from all downstream rPDU and UPS** devices from one rPDU.
- Users are able to aggregate data by grouping devices by rack or row.
- Downstream devices self-configure, significantly reducing deployment time.

- Securely transmit device data to the Vertiv™ Intelligence cloud for anytime access to critical infrastructure information.

How it works

1. Designate a Switched or Monitored unit as the array manager.
2. Connect up to 50 array devices through a network switch or by daisy chaining the rPDUs to the array manager.
3. Securely access array device data via SNMP or the array manager user interface through a single IP address and bring the consolidated data in your private cloud.
4. Bring your infrastructure data together with the option to connect to the Vertiv Intelligence cloud platform.

Outlet Control

Address unresponsive equipment or increase runtime of critical equipment upon power failure with outlet-level control.

Upgradable & Hot-Swappable

Easily update your rPDU's monitoring capabilities to adapt to latest technologies and changing business needs.

Environmental Monitoring

Proactively monitor environmental conditions within the cabinet to ensure optimal operating conditions. A variety of sensors are available to meet your needs including temperature, humidity, airflow, door position, flood detection and more.

Combination C13/C19 Outlet

C13 and C19 in one. Provides the flexibility to connect C14 and C20 plugs in the same outlet. High retention colour coded outlets are P-Lock cable compatible.

U-Lock

Secure power cords and avoid accidental disconnections. Receptacles are colour-coded by circuit for instant identification.

Vertiv™ Intelligence Director

Daisy-chain up to 50 devices on a single IP address. Reduce deployment time with self-configuration of downstream devices.

High Temperature Grade

Up to 60°C working ambient variants for high temperature environments.

Remote Connectivity

Access the rPDU remotely via the network interface or serial connection to monitor power consumption and configure user-defined alert notifications to prevent downtime.

Fault-Tolerant Daisy Chaining

Simplifies intelligent rPDU connectivity and ensures data is reported even when a break in the network chain occurs.

Visible Light Communication (VLC)

Optically transmit data from the rPDU display to your mobile device using VLC for quick and secure access to unit and power consumption data.

Small Footprint and Low Profile Breakers

Compact size to install in tight spaces.

Power Monitoring 1% accuracy

Allows data centre managers to accurately monitor input and outlet level power usage with 1% monitoring accuracy tested to ANSI and IEC standards.

Universal Input

A universal input with a pivoting connector simplifies IT power infrastructure deployments by enabling users to standardise on a single rPDU globally.

Vertiv™ Geist™ Rack Transfer Switch

Maintaining power from different sources to the critical infrastructure to eliminate downtime risk.

Key Benefits

- Automatic Power Switching
- Redundant Switching Topology
- <4-8ms Transfer Speeds
- Upgradeable and hot-swappable
- Fault-tolerant daisy-chaining with Rapid Spanning Tree Protocol (RSTP)
- IP aggregation- up to 50 devices
- With optional sensors, provides environmental monitoring
- Outlet Options:
Combination outlet C13/C19
- Compatible with Vertiv Intelligence Director
- Five-year warranty with registration; three-year

Applications

- Banking
- Financial and Insurance
- Data Center/Colocation/Hosting
- Education
- Government
- Healthcare
- Military, Defense, Aerospace and Missile Telecom Retail and Wholesale

Monitoring

Whether we're talking about battery monitoring, leak detection systems, temperature monitoring, sensor-level monitoring for harsh industrial environments, or complex data centre monitoring systems, we can all agree that this is an essential part of future-proofing and safe-guarding a critical facility from threats that range from faulty equipment and environmental conditions to cyber intrusions.

That is why we are investing heavily in a continuous learning process to not only detect, but also predict causes of downtime keeping your customer's assets safe against threats. Learn more below.

Monitoring

Facilities and Monitoring Solutions SNMP and Web Monitoring

The Vertiv Intellislot Cards provide SNMP and web-based management to your UPS. The cards give you the power to monitor and control your Liebert® UPS from a Network Management System, with Vertiv™ Power Assist or any other Vertiv monitoring software, or from any PC running Microsoft® Internet Explorer™. Connecting to your UPS is as simple as launching a web browser

Vertiv Geist Watchdog-15 and Vertiv Geist Watchdog-100

Vertiv Geist Watchdog Environmental Monitors allow users to securely observe conditions and receive alerts when user defined thresholds are breached.

Key Benefits

- Protect critical IT infrastructure by strategically monitoring data centre, server room and network closet environments.
- Expand monitoring capabilities with the addition of external sensors.
- View real time sensor data from a secure web interface and receive alerts via Email, SNMP, or Email-to-SMS.
- Receive alerts of out-of-range conditions to ensure they are addressed before resulting in downtime.
- Simple to install and configure, requires no special software other than a standard web browser.

Vertiv Shutdown Software

Vertiv™ Power Assist

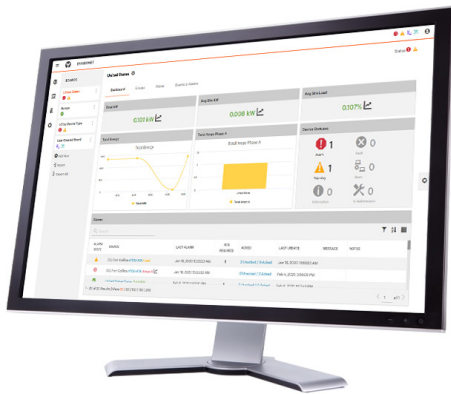

Vertiv™ Power Assist is a free software used to gracefully shutdown an IT device when the UPS battery backup experiences a threatening condition. The software notifies users of an event, displays key metrics and logs historical data. It is easy to install and protects computers from damage and data loss during a power event.

Vertiv Environet Alert

Vertiv™ Environet™ Alert provides an easy-to-use monitoring software solution that helps ensure the continuous power and cooling of your critical infrastructure. Get monitoring, alerting and trending at a price that's right for your business.

Benefits

- Increase your operational awareness and visibility into key assets
- Monitor your devices via streamlined integration with other business systems
- Improve the uptime of servers with proactive threat resolution
- Save time with easier setup, management and monitoring
- Identify trends to plan and optimize operations across all locations
- Ensure consistent processes and systems across data centers and server rooms
- Communicate with critical equipment via SNMP, Modbus TCI/IP and BACnet IP directly to Environet Alert
- Global language support increases the ability to utilize software across regions
- With floorplan navigation, each user can navigate to what is most important to them in each facility
- The Basic IT asset management provides visualization into space capacity at the rack level, along with a library containing IT asset details
- AD/LDAP support for simple user authentication
- Enhanced management features to show power data for multiple tenants

Use Environet Alert to monitor your critical infrastructure. Start today.

Watchdog 15-P

Environmental Monitor, on-board temperature, humidity and dew point sensors, capacity to add 4 additional external sensors, built-in PoE, US power supply included. Environmental factors like heat, humidity and moisture pose a severe threat to mission-critical infrastructure. These dangers can be minimized by incorporating an environmental monitoring solution to collect data and alert users of potential threats. Vertiv™ Geist™ Environmental Monitors allow users to securely observe conditions and receive alerts when user defined thresholds are breached

Part Number: Watchdog 15-P UN

Category: Monitor

Sub-Category: Environmental Monitor

Benefits

- Protect critical IT infrastructure by strategically monitoring data center, server room and network closet environments
- Expand monitoring capabilities with the addition of external sensors.
- View real time sensor data from a secure web interface and receive alerts via Email, SNMP, or Email-to-SMS
- Receive alerts of out-of-range conditions to ensure they are addressed before resulting in downtime

Thermal Management

Get efficient and reliable heat management and humidity control solutions geared to your specific size, location and business goals.

Your customers' mission-critical facilities need the very best in precision cooling, and we deliver with the industry's most advanced equipment and controls, low operating costs and unparalleled expertise.

Thermal Management Vertiv™ Liebert® CRV

Row-Based Cooling

Direct Expansion (DX) Cooling Unit up to 22 kW or from 13-22 kW Chilled Water (CW) Cooling Unit up to 33 kW

Key Benefits

The Vertiv™ Liebert® CRV Combines the Best Footprint Cooling Capacity with the Highest Efficiency

- Space-saving, flexible row-based design offers more valuable floorspace for critical IT deployment
- Scalable cooling from 20-100% capacity with load matching controls provides lower energy consumption and operational costs
- Improved cold-air distribution allows users to eliminate hot spots and increase efficiency
- Simultaneous top and bottom connections allow for greater flexibility during installation for various building configurations
- Advanced controls and wellness alerts provide a simplified operation and increased peace of mind

Direct expansion version

- DC Inverter Scroll Compressor
- Electronic Expansion Valve
- Variable Speed EC Fans

Chilled water version

- Field Adjustable 2way / 3way valve
- 0-10V continuously controlled actuators
- Variable Speed EC Fans

Applications

- Banking, Financial and Insurance
- Broadcast and Entertainment
- Data Centre/Colocation/Hosting
- Education
- Government
- Telecom

Vertiv™ VRC IT Rack Cooling Unit

Rack Cooling Unit

Designed to satisfy cooling requirements for small server rooms, network closets, and edge applications up to 3500 watts per cabinet, the Vertiv™ VRC IT rack cooling unit packs powerful, scalable and energy-efficient cooling into a compact unit. It fits into most standard 19-inch network racks, freeing up valuable floor space. It is available in Self-contained or Split version to fit different building architectures.

Key Benefits

- Space saving
- Available in Split or Self-contained version to fit different building architectures
- Easy plug-and-play installation of the Self-contained version
- Lowers energy consumption
- Practical accessories included in the packaging - display, condensate pump, SNMP/Modbus monitoring card and installation accessories
- Peace of mind through easy monitoring and management

Thermal Management

Vertiv™ VRC Self-Contained

- Reliably and efficiently satisfies cooling requirements for small room and edge applications up to 3.5 kW per cabinet
- Fits into standard racks, leaving the valuable floor space free in small IT rooms
- Reduces capital expenses and deployment costs with simple installation and no need to run refrigerant piping between an outdoor and indoor unit
- Improves efficiency and reduces operating costs with real-time cooling and capacity adjustment
- Provides peace of mind and ease of management through remote monitoring capabilities
- 2 years standard warranty

Thermal Management Vertiv™ VRC Split

- Reliably and efficiently satisfies cooling requirements for small room and edge applications up to 3.5 kW per cabinet, regardless of building architecture and independent of a building cooling system
- Requires only 6U due to space-saving form factor that leaves the valuable floor and rack space free in small IT rooms
- Lowers energy consumption and reduces operating costs due to real-time cooling and capacity adjustments
- Offers installation flexibility with options for mounting at the top or bottom of standard racks
- Provides peace of mind and simplified management with unit-level or remote monitoring capabilities
- 2 years standard warranty

Vertiv™ VRC-S

Deploy a Comprehensive Edge Micro Data Centre Solution in Days

Vertiv™ VRC-S is a micro data centre solution fully industry-standard assembled at the factory and designed specifically for IT edge applications. Available in various configurations, the Vertiv VRC-S is delivered in days and installed in hours. Choose from four different cabinet sizes with two different cooling methods (split and self-contained) with back-up, and the option to integrate a UPS. An intelligent switching PDU including monitoring of all components and a comprehensive software package complete the offer.

Vertiv™ VRC-S Key Features and Benefits

Features	Benefits
A completely prefabricated micro data centre with your choice of 24 standard models.	Planning effort is minimised All components are guaranteed to work seamlessly to meet your requirements. The system is ready to ship in days.
Vertiv™ VR rack-based durable IT cabinet available in a range of four sizes with 1000 kg of Dynamic load	Adaptable to IT space requirements Choose the cabinet size you need to optimally support your IT equipment; the enclosed system enhances security and cooling efficiency.
Vertiv adaptive Vertiv™ VRC rack cooling system with 3.5kW cooling capacity and two heat rejections	Low operating costs due to efficient cooling The cooling system adapts its capacity to the IT heat, thus reducing energy costs. The heat remains inside or is removed through the building shell.
Backup fan system controlled by cooling system independent sensors	Increased availability through backup cooling Generate additional protection with emergency airflow provided during cooling outages, extending your time for a controlled shutdown or further ensuring IT equipment availability.
Intelligent Vertiv™ Geist™ Rack PDU with sensors, switched on an outlet level	Higher reliability by monitoring and remote control Monitor and control your IT equipment on power outlet level for improved visibility, serviceability, reliability, and availability.
Vertiv™ Intelligence Director Monitoring software	Reduced labour costs through monitoring optimisation Remote control and monitoring of all installed components, consolidated in one software and one IP address, reduces the workload of IT staff.
Single-phase online double conversion 6 kVA Liebert® GXT5 UPS	Power Continuity - Highest availability for your IT assets Application continuity is maintained during a utility power outage, as the UPS powers the cooling system and the IT assets, without interruption.
3 years warranty for the complete system with product registration	Reduction of maintenance costs Protect your entire system for complete peace of mind.

Select Your Vertiv™ VRC-S

The Vertiv VRC-S includes all the components of a state-of-the-art micro data centre, fully factory assembled to work seamlessly to meet your requirements and simplify IT management for your edge applications. Make your selection to customise your micro data centre.

Cabinet size:

- Height 2000 mm, Width 800 mm, Depth 1200mm, Total Rack Space 42 U
- Height 2000 mm, Width 600 mm, Depth 1200mm, Total Rack Space 42 U
- Height 2265 mm, Width 600 mm, Depth 1200mm, Total Rack Space 48 U
- Height 2265 mm, Width 800 mm, Depth 1200mm, Total Rack Space 48 U

Select Your Vertiv™ VRC-S

3.5kW IT cooling:

- Self-contained: Heat rejection inside the building, e.g. in a large manufacturing or warehouse hall, or in a suspended ceiling.
- Split cooling: Heat rejection through a refrigerant pipe through the building shell to the included pre-filled outdoor condenser.
- Minimum ambient air down to -15 °C (standard)
- Minimum ambient air down to -34 °C (low ambient)

UPS:

- With or without a Single phase online double conversion 6 kVA Liebert® GXT5 UPS

Recommended Vertiv™ VR Rack Accessories:

- Additional batteries to increase UPS backup time
- Additional blanking panels to improve isolation of the cool air in the front of the rack are highly recommended
- Cable management accessories to keep cables organised and prevent cables from restricting airflow or causing safety hazards
- Vertiv™ Geist™ SwitchAir™ airflow management solution for network equipment that is not front-breathing
- Establish a second power path for downtime minimisation with an additional PDU and UPS
- Advanced access control with a card reader lock

Vertiv™ Avocent® ITS Solutions

These solutions enable small to enterprise sized organisations to reduce costs, increase security and optimise availability and productivity.

This portfolio includes hardware and software solutions. The hardware solutions enable secure, auditable remote access, control and management of critical devices through patented, out-of-band technology. This remote access can be to any distance and can scale to high definition audio and video for specialist verticals.

The software solutions deliver efficiencies to the data centre specialist by centralising management of all IT devices. Furthermore, when documenting the data centre, managing and planning capacity, we offer organisations a single source of truth tool where they can manage all aspects of this efficiently.

To make it easier, we have divided our products into two sections, as follows:

- **Section 1** - Focuses on customers who want desktop and server room solutions
- **Section 2** - Focuses on customers who require enterprise level solutions to meet the demanding business challenges which require an agile IT infrastructure

SECTION 1

Desktop and Server Room IT Management Solutions

Our range of products enables the end user to:

- Efficiently access control and manage the server room without the need to physically be there
- Help remove IT assets from unsuitable work areas, like hospitals, factories, warehouses, clean rooms, shops
- De-clutter work places where users require access to multiple PCs, but do not want to use multiple displays, keyboards and mice
- Efficiently access server room assets and maximise server room space

Desktop Solutions

Vertiv™ Avocent® KVM

Having a dedicated display/keyboard/mouse for accessing each PC, can take up a lot of space and also cause unnecessary hardware cost. The whole process can become a costly mess.

This is where the Vertiv Avocent® Keyboard, Video, Mouse (KVM) Appliance comes in: our switch makes access possible to multiple PCs with only one set of peripherals and no software. With the Vertiv Avocent KVM Switch, the end user can immediately shift between multiple devices with high video resolutions and audio and USB sharing, without configuring settings.

Simply plug in our device and benefit from:

- More space
- Less costs (no need to invest in several peripherals)
- Increased efficiency – easier to switch between devices
- A more productive work environment

Before

Monitor, keyboard and mouse for each computer

After

Section 1

Desktop and Server Room IT Management Solutions

Desktop Solutions

Cybox™ SC800 and SC900 Secure Desktop KVM Switches

Vertiv™ Avocent® Cybox™ SC800 / SC900 Secure Desktop KVM switches

are field-proven, secure, KVM switching solutions with special support for government agencies and security conscientious organisations.

- The Cybox SC800/900 DHP, DHPC, and DVI-D series secure desktop KVM switching portfolio, available in single and dual head models, eliminates redundant peripherals and reduces desktop clutter.
- Prevents information leaks, transfer or crosstalk between adjacent ports and filters ultrasonic audio frequencies via unidirectional optical data diodes (UODD).
- Active intrusion detection and tamper-evident holographic labels prevent hardware from being compromised.
- Universal Video Connectors support DP, HDMI, and DVI-D.

Certifications:

TAA compliant, BAA, Designed for NIAP / Common Criteria Protection Profile for Peripheral Sharing Device (PSD) v4.0.

Vertiv™ Avocent® Cybex™ SCM 100 Series Secure Desktop Matrix

Avocent® Cybex™ SCM Secure Desktop Matrix KVM Switch

offers a proven solution for guarding against cyber intrusion at the desktop.

- Allows users to securely interact with multiple computers and observe two active computers simultaneously thus improving situational awareness. Through cursor navigation switching (CNS), users have the flexibility to manage and monitor their data by simply pressing the left CTRL key and moving their mouse across window borders.
- Dedicated peripheral port permits a secure connection to external USB devices, including CAC smart card readers, fingerprint readers, and face recognition devices.
- Universal data connectors support DP, HDMI, and DVI-D.
- Protected video display emulators eliminate potential data leakage from display to computer.
- Unidirectional Optic Data Diodes (UODD) allow data to only flow in one direction.

Certifications:

TAA compliant, BAA, Designed for NIAP / Common Criteria Protection Profile for Peripheral Sharing Device (PSD) v4.0.

Part Number	Description
SCM145DPH-400	CYBEX™ SC Universal DP/H Secure Desktop Matrix 2x4 KVM with CAC, PP4.0
SCM185DPH-400	CYBEX™ SC Universal DP/H Secure Desktop Matrix 2x8 KVM with CAC, PP4.0

Vertiv™ Avocent® Cybex™ Secure MultiViewer KVM Switch

Avocent® Cybex™ SCM Secure MultiViewer KVM Switch

continues to provide the KVM solution required in accessing both classified and non-classified data.

Simultaneously view multiple computers on a single display.

- Ability to interact with various security classifications on a single screen.
- With CNS, keyboard and mouse transitions seamlessly when moving the cursor across window borders while holding the left CTRL key.
- Universal video connectors support DP, HDMI or DVI-D.
- Smart-card (CAC) or biometric readers for authentication across multiple secure computers.
- Multi-colored button LEDs for enhanced channel identification.

Certifications:

Designed for Common Criteria Protection Profile for Peripheral Sharing Device (PSD) v4.0.

Part Number	Description

Desktop and Server Room IT Management Solutions

Vertiv™ Avocent® Cybex™ SCKM 100 Secure Desktop KM Switches

The Avocent® Cybex™ SCKM 100 Switch provides real-time access to up to 4 systems at a time from a single keyboard and mouse.

- Cursor navigation switching lets users switch control between systems by simply moving the mouse cursor from one display monitor to another while pressing the left CTRL key.
- Unidirectional Optical Data Diodes (UODD) assure YSB peripheral isolation enabling data flow from devices to host only.

Certifications:

TAA / BAA compliant, CE, RCM, FCC class B, VCCI, TUV US, TUV Canada, Designed for NIAP / Common Criteria Protection Profile for Peripheral Sharing Device (PSD) v4.0.

Part Number	Description
SCKM140PP4-400	CYBEX™ SC Universal DP/H Secure Desktop KM , PP4.0

Vertiv™ Cybex™ AFP

Vertiv™ Avocent Cybex™ Accessories

Part Number	Description
AFP0004	4-port Active Front Panel (AFP) remote KVM switch
AFP0008	8-port Active Front Panel (AFP) remote KVM switch
AFPSPLITTER	Avocent® SwitchView AFP Splitter cable for SV Matrix KVM
SCMDR0001-400	SC MDR Smart-Card Reader, 4 Ports
SCUSBHIDFILTER	SC USB HID Filter with eLock
USBCUSBCNP	3M (10FT) USB-C/USB-C +ETH +PWR Adapter Cable

Vertiv™ Avocent® SV200 and SV300 Desktop KVM Switches

Avocent® Desktop KVM Switches simplify access to essential business systems.

- Universal video connectors support DVI-D, HDMI, DisplayPort, and support for resolutions up to UHD 4K assures images quality is highly accurate and video plays at the highest definition possible.
- Managed copy and paste allows content to be copied from one system to another.
- Independent audio and USB switching lets users freeze audio and USB 3.0 peripherals while simultaneously working on a different system.
- Multiple USB ports provide easy connectivity to external USB devices, quick data transfer and high-speed charging of mobile devices.

Part Number	Description
SV240DPH-400	Avocent® SV Universal DP/H KVM Switch 4-Port Single Display
SV2160DPH-400	Avocent® SV Universal DP/H KVM Switch 16-Port Single Display
SV340DPH-400	Avocent® SV Universal DP/H KVM Switch 4-Port Dual Display

Vertiv™ Avocent® SV KVM Matrix

Allows for monitoring and managing of two active computers through a single KVM.

- Universal video connections support HDMI, DisplayPort and DVI-D to support for resolutions up to UHD 4K assures image quality is highly accurate and video plays at the highest definition possible.
- Allows users to interact with multiple computers and enhances situational awareness to multi-task by keeping two critical systems in the user's field of vision.

Through Cursor Navigation Switching (CNS), users have increased productivity through the ease of moving the cursor across screen borders.

Part Number	Description
SVM140DPH-400	Avocent® SV Universal DP/H Desktop Matrix 2x4 KVM
SVM180DPH-400	Avocent® SV Universal DP/H Desktop Matrix 2x8 KVM

Vertiv™ Avocent SV MultiViewer KVM

Allows for monitoring and seamless interaction with up to 16 computers up to two displays while using a single KVM.

- Universal video connections support HDMI, DisplayPort, and DVI-D to support for resolutions up to UHD 4K assures image quality is highly accurate and video plays at the highest definition possible.
- Allows users to interact with up to 16 computers enhancing the ability to multi-task by viewing multiple computers on up to two displays.

Provides users with flexible display layout view options across multiple screens.

Part Number	Description
SVMV240DPH-400	Avocent® SV Universal DP/H 4-Port MultiViewer KVM
SVMV280DPH-400	Avocent® SV Universal DP/H 8-Port MultiViewer KVM

Desktop and Server Room IT Management Solutions

Vertiv™ Avocent® LongView™ 5500 and 5520

LongView™ 5500:

- Provides 'at the PC' real-time access with UHD clarity and immediate USB responsiveness from a remote location
- DisplayPort 1.2 connectivity, Single head 4K 60 extension assures image quality is highly accurate and video plays at the highest definition possible
- Local console output duplicates incoming video and audio

LongView™ 5520:

- Provides 'at the PC' real-time dual-head access with UHD clarity and immediate USB responsiveness
- DisplayPort 1.2 connectivity, Dual head 4K 60 extension assures image quality is highly accurate and video plays at the highest definition possible
- Hi-speed USB for isochronous devices

Part Number	Description
LV5500R-400	LongView Single-head DP Extender, 4K60 video, Local Pass Through, USB2.0, audio, CATx or fiber (Transmitter)
LV5500T-400	LongView Single-head DP Extender, 4K60 video, Local Pass Through, USB2.0, audio, CATx or fiber (Receiver)
LV5520R-400	LongView Dual-head DP Extender, 4K60 video, USB2.0, audio, CATx or fiber (Transmitter)
LV5520T-400	LongView Dual-head DP Extender, 4K60 video, USB2.0, audio, CATx or fiber (Receiver)

Vertiv™ Avocent® LongView™ 5000 Series Extenders

The Avocent® LongView™ 5000 Series Extenders of high performance extender solutions provide an at the desktop experience in environments where conditions make it is advantageous to operate and manage critical business systems from a secure, monitored location.

- Users can access systems and applications remotely without sacrificing video quality, audio quality or device capability.
- High-definition Display Port Video Supports DisplayPort Dual Mode (DP++) and can transmit maximum resolution of up to 3840x2160 (UHD 4K) with a single monitor, or two 1920 x 1200 (WUXGA) video streams in a dual monitor configuration.
- USB 2.0 enables connection of up to six USB human interface devices including mice, keyboards, graphics tablets, touchscreens, jog shuttles, joysticks, 3D explorers, mass storage devices and isochronous devices like webcams and headsets.
- HD-quality high definition analog stereo audio input and output. S/PDIF input also supported.
- Plug and play the LV5000 Series extenders are delivered in a zero config state so you can plug them in and start working right away. There's no need for drivers or software to be installed.

Part Number	Description
LV5020P-201	LongView dual DP,USB,audio,CATx 150M
LV5020P-202	LongView dual DP,USB,audio,CATx 150M

When ordering products please replace the suffix "-xxx" with the suffix for your region, as follows:

- 201 UK and Ireland
- 202 European region

Vertiv™ Avocent® LongView™ 4000 KVM Extenders

The Avocent® LongView™ 4000 KVM extenders enable you to locate your critical computing hardware in a secure and temperature controlled environment, while maintaining the same user experience.

- Video, USB 2.0 (Low and Full speed) and audio all pass along a single cable, providing up to 50m (150ft) of extension.
- The transmitter is powered via its USB port to reduce the need for external power supplies
- Supports DVI-D (HDMI with adapter) video on single or dual screens, with resolutions up to 1920 x 1200 @ 60Hz.
- The LongView 4000 series extenders are delivered in a zero config state so you can plug them in and start working with them straight away. There's no need for drivers or software.
- USB 2.0 support of any USB human interface device from mice and keyboards through to graphics tablets, touchscreens, jog shuttles, joysticks, 3D explorers and mass storage devices. Full speed (12Mbps) isochronous devices such as headsets are supported.

Part Number	Description
LV4010P-201	LongView single DVI,USB,audio,CATx 50M
LV4010P-202	LongView single DVI,USB,audio,CATx 50M
LV4020P-201	LongView dual DVI,USB,audio,CATx 50M
LV4020P-202	LongView dual DVI,USB,audio,CATx 50M

When ordering products please replace the suffix "-xxx" with the suffix for your region, as follows:

 -202 European region

Vertiv™ Avocent® LongView™ 3000 KVM Extenders

The Avocent® LongView™ 3000 KVM extenders let you place a keyboard, monitor, mouse, speakers and microphone up to 1,000 feet away from a computer or Vertiv™ Avocent® KVM switch.

- VGA resolutions of 1920 x 1200 are achievable at up to 300 meters (1000ft).
- The LongView 3000 series extenders are delivered in a zero configuration state so you can plug them in and start working immediately. There's no need for additional drivers or software.
- USB 2.0 (Low and Full speed) support allows all USB compatible accessories (including isochronous devices) to be extended connected to its 4 port hub.

Part Number	Description
LV3010P-201	LongView single VGA,USB,audio,CATx 300M
LV3010P-202	LongView single VGA,USB,audio,CATx 300M
LV3020P-201	LongView dual VGA,USB,audio,CATx 300M
LV3020P-202	LongView dual VGA,USB,audio,CATx 300M

Desktop and Server Room IT Management Solutions

Server Room IT Management Solutions

Vertiv™ Avocent® "at-the-rack" access Solutions

When managing a server room, individually accessing each rack and device can waste a lot of time.

Vertiv offers you the solution which allows you to manage these devices from one central point. With the Vertiv™ Avocent® Rack Solutions you can access and control the server room without the need to physically be there. Not only do the rack solutions allow you to be in another room as the servers, but they also allow you to manage the servers from another building, country or continent as long as you have an Internet connection, through our digital IP range.

To sum up, by investing in the Vertiv™ Avocent® Rack Solutions, you benefit from:

- More TIME – connect to any device in the server room, wherever you are, and stop wasting the time that takes for you to actually be there
- Proximity – an Internet connection can bring you closer to your server room, anywhere you are on the globe
- Less Costs – by accessing the servers faster, you can decrease the down time, thus allowing your business to save more money
- Simplify work with ability to copy and paste data

Part Number	Description
AV3108-xxx	8 port AutoView KVM with 1 local and 1 remote users, VM and CAC
AV3216-xxx	16 port AutoView KVM with 2 local and 1 remote users, VM and CAC
DSAVIQ-PS2M	Virtual Media server interface module for VGA video, PS/2 keyboard and mouse, and USB 2.0 virtual media w/ 14 in
USBIAC2-7	7 ft USB Integrated Access cable 2nd Gen.
USBIAC2-10	10 ft USB Integrated Access cable 2nd Gen.
MPUIQ-VMCHD	Server Interface Module for HDMI video, USB keyboard/mouse supporting virtual media, CAC and USB2.0.
MPUIQ-VMCHS	HIGH-RES/VM/CAC/USB2HS IQ MODULE
MPUIQ-VMCDV	Server Interface Module for DVI video, USB keyboard/mouse supporting virtual media, CAC and USB2.0
MPUIQ-VMCDP	Server Interface Module for DisplayPort video, USB keyboard/mouse supporting virtual media, CAC and USB2.0.
SFIQ-VGA	Small Form Factor, Server Interface Module for VGA, USB keyboard, mouse. Supports virtual media, CAC and USB 2.0. Used with all MPU, AV3108 and AV3216 appliances.
SFIQ-VGA08	Small Form Factor, Server Interface Module for VGA, USB keyboard, mouse. Supports virtual media, CAC and USB 2.0. Used with all MPU, AV3108 and AV3216 appliances. (8 pack)

Server Room IT Management Solutions LCD Trays

Even though managing your infrastructure remotely gives you many benefits, there will be times when you will need to physically be there to add more hardware, memory, etc.

In order to do that, you need local access devices that get the job done efficiently. So, forget the crash carts, the long cable wires and wasting time by connecting/disconnecting the peripherals! Vertiv introduces you the built-in Vertiv™ Avocent® LCD tray, which allows you to save space and give you efficient access to the rack.

Our products are developed smart, therefore offering you a better solution to managing your IT infrastructure.

The Vertiv™ Avocent® LCD Trays are no different, hence offering you the following benefits:

- More Space – being compact, our LCD trays consume a minimal amount of rack space
- Simplicity – the product is easy to mount and connect
- Efficiency – a better working environment equals more productivity
- Durability – our LCD trays are made to last!

The compact design is well-suited for the small to midsize business environment, data centre and server rooms. Vertiv Avocent LCD consoles are available as a standalone or with an 8- or 16-port KVM switch in the same 1U space.

Part Number	Description
LRA185KMM-xxx	1U 19" LCD console w/ USB touchpad and keyboard
LRA185KMM8-xxx	1U 19" LCD console w/ USB touchpad, keyboard and pre-mounted 8-ports AutoView 3108 switch
LRA185KMM16-xxx	1U 19" LCD console w/ USB touchpad, keyboard and pre-mounted 16-ports AutoView 3216 switch

When ordering products please replace the suffix "-xxx" with the suffix country Keyboard

SECTION 2

Enterprise IT Infrastructure Solutions for Data Centre

If you want to increase your profit, reduce your IT costs and streamline your data centre management, you are certainly looking for:

1. Remote Management

Remotely and securely access and manage data centre IT assets.

2. Centralisation

Centralise and standardise IT remote management.

3. Capacity Management and Planning

Get visibility into current data centre capacity and the ability to accurately forecast needs.

4. Power Management

Optimise your customers' data centre power requirements and ensure maximum availability of their infrastructure.

Enterprise IT Infrastructure Solutions for Data Centre

Remote Management

With our technology, you can remotely manage any device, any location, any vendor, any time, securely.

This applies to servers and other IT and network devices (routers, switches, firewalls, etc). Administrators can control every connected device from anywhere they like, as if they were actually on site – even when the device itself can no longer communicate over the network. As a result, the response time and outage duration are shortened, thereby improving IT management efficiency and IT availability.

Serial Consoles

The Avocent® ACS serial consoles, part of Avocent's renowned enterprise class data centre products, offer in-band and out-of-band serial access to remotely manage IT devices anywhere in the world. With the new cellular feature, providing additional connectivity capabilities, the ACS8000 cellular builds on its robust feature set to address emergency situations such as accessing locked-up devices and loss of IP band connectivity.

Vertiv™ Avocent® ACS 8000

Deliver secure in-band and out-of-band visibility and control to downstream equipment in enterprise data centres, as well as cloud and colocation facilities. Now with cellular capabilities, the Vertiv™ Avocent® ACS8000 Cellular provides flexibility to access devices when wired networks are down (failover) or not available at the device location.

Vertiv™ Avocent® ACS 800

The Avocent® ACS 800 serial console provides serial access, environmental monitoring, IoT integration and remote networking capability to the Edge oriented market sectors of financial institutions, retail chains, education and others.

Part Number	Description
ACS804MEAC-404	4-Port ACS800 Serial Console with analog modem, external AC/DC Power Brick - Jumper cord: Plug C14 to connector C13
ACS8008SAC-404	8-Port ACS8000 Console System with single AC Power Supply
ACS8008SDC-400	8-Port ACS8000 Console System with single DC Power Supply
ACS8008MDAC-404	8-Port ACS8000 Console System with dual AC Power Supply and Analog Modem
ACS8008-EU-DAC-400	8 Port ACS8000 cellular with 4G/LTE dual AC Power Supply
ACS8016SAC-404	16-Port ACS8000 Console System with single AC Power Supply
ACS8016DAC-404	16-Port ACS8000 Console System with dual AC Power Supply
ACS8016MDAC-404	16-Port ACS8000 Console System with dual AC Power Supply and Analog Modem
ACS8016-EU-DAC-400	16 Port ACS8000 cellular with 4G/LTE dual AC AC Power Supply
ACS8032SAC-404	32-Port ACS8000 Console System with single AC Power Supply
ACS8032MDAC-404	32-Port ACS8000 Console System with dual AC Power Supply
ACS8032MDDC-400	32-Port ACS8000 Console System with dual AC Power Supply and Analog Modem
ACS8032-EU-DAC-400	32 Port ACS8000 cellular with 4G/LTE dual AC AC Power Supply
ACS8048SAC-404	48-Port ACS8000 Console System with single AC Power Supply
ACS8048DAC-404	48-Port ACS8000 Console System with dual AC Power Supply
ACS8048MDAC-404	48-Port ACS8000 Console System with dual AC Power Supply and Analog Modem
ACS8048MDDC-404	48-Port ACS8000 Console System with dual DC Power Supply and Analog Modem
ACS8048-EU-DAC-400	48-Port ACS8000 cellular with 4G/LTE dual AC AC Power Supply

Enterprise IT Infrastructure Solutions for Data Centre

Vertiv™ Avocent® ADX Ecosystem

The Vertiv™ Avocent® ADX Ecosystem is built upon a secure common architecture which seamlessly integrate and scale to create an open yet resilient IT management platform – from Enterprise to Edge configurations. Avocent ADX Ecosystem provides the highest performance and agility, security, and enables automation, management, monitoring and control of all your devices like no other solution in the market.

Key Benefits

- Fastest and most feature rich KVM experience on a single device
- All digital architecture for flexible and scalable deployments
- Most expansive management of IT devices
- Resilient and secure technology supporting 100+ simultaneous users
- Common architecture with open standards, platforms and APIs

Part Number

Description

Part Number	Description
ADX-MP1000DAC-400	Vertiv ADX Management Platform.
ADX-MP1000VA	Vertiv ADX Management Platform - MP1000 Virtual Appliance
ADX-RM1048PDAC-400	Vertiv ADX Rack Manager, 48 PoE Ports.
ADX-IPUHD-400	Vertiv ADX IPUHD 4K IP KVM device.
ADX-IPIQ-400	Vertiv ADX IPIQ IP KVM device, 1920x1080, VGA native adapter.

Enterprise IT Infrastructure Solutions for Data Centre

Vertiv™ Avocent® MergePoint Unity™

The Vertiv™ Avocent® MergePoint Unity™ switch is the next generation KVM over IP switch.

This industry-leading switch provides IT administrators a complete and secure remote management solution to access and control servers, networking equipment and other devices found in data centres and branch offices.

Key Benefits

- Advanced Remote Management - Provides secure and remote, out-of-band connections directly to the physical KVM, USB and serial ports to complement existing in-band software management tools
- Meet Service Level Agreements and Minimise Downtime - Unified approach enables IT administrators a faster method to diagnose, reconfigure or restore equipment
- Virtual Media - Enables USB media such as CD-ROMs, flash memory and external drives to be virtually attached to a remote server's USB port
- CAC/Smart Card Support - Utilizing the virtual media capabilities remote or local users can map a USB-based smart card reader to the attached servers and authenticate using their smart cards
- Enhanced Serial Adapters - Supports standard, remote SSH connections to the attached serial devices and includes electronic pin-out options for quick and easy connections to the console ports on Cisco network equipment
- Power Device Port - Connect supported rack PDUs for integrated power control, measurement and reporting
- FIPS 140-2 Compliant Cryptography - The FIPS mode of operation uses an embedded FIPS 140-2 certified OpenSSL cryptographic module (Certificate #1051)
- Includes HTML5 viewer support, no longer the need to exclusively rely on Java or ActiveX for KVM sessions

Part Number	Description
MPUI08EDAC-001	8 port, 1 digital KVM path, dual AC Power Supply
MPUI2016DAC-001	16 port, 2 digital KVM paths, dual AC Power Supply
MPUI2032DAC-001	32 port, 2 digital KVM paths, Dual AC Power Supply
MPUI4032DAC-001	32 port, 4 digital KVM paths, dual AC Power Supply
MPUI8032DAC-001	32 port, 8 digital KVM paths, dual AC Power Supply
MPUIQ-VMCHD	Server Interface Module for HDMI video, USB keyboard/mouse supporting virtual media, CAC and USB2.0.
MPUIQ-VMCHS	HIGH-RES/VM/CAC/USB2HS IQ MODULE
MPUIQ-VMCDV	Server Interface Module for DVI video, USB keyboard/mouse supporting virtual media, CAC and USB2.0
MPUIQ-VMCDP	Server Interface Module for DisplayPort video, USB keyboard/mouse supporting virtual media, CAC and USB2.0.
MPUIQ-SRL	MergePoint Unity switch serial IQ module
SFIQ-VGA	Small Form Factor, Server Interface Module for VGA, USB keyboard, mouse. Supports virtual media, CAC and USB 2.0. Used with all MPU, AV3108 and AV3216 appliances.
SFIQ-VGA08	Small Form Factor, Server Interface Module for VGA, USB keyboard, mouse. Supports virtual media, CAC and USB 2.0. Used with all MPU, AV3108 and AV3216 appliances. (8 pack)
CBL0181	12" USB A to Micro USB B cable
CBL0182	8" USB A to Micro USB B cable
CBL0183	30" USB A to Micro USB B cable
UPD-IEC	Power Supply, Power Cord and 4 output cable to support up to 4 AVRIQ-SRL modules

Section 2

Enterprise IT Infrastructure Solutions for Data Centre

Vertiv™ Avocent® HMX 5000/6000/8000 High Performance KVM System

The Vertiv™ Avocent® HMX High Performance KVM System is a digital, IP-based solution that provides a highly flexible way to connect hundreds of users to thousands of servers and workstation equipment in a secure, real-time manner.

- Ideal for control rooms with real-time control with pixel perfect digital video supporting resolutions up to 2560 x 1600at 60Hz.
- Supports redundant network operation through units that automatically detect whether the network is in operation and automatically change to a second port when a failure is detected.
- Enables connection of USB devices from mice and keyboards through to graphics tablets and joysticks alongside mass storage devices.
- Remote maintenance and out-of-hand BIOS level access with high video performance through Real VNC viewer.
- Easy centralized management with user rights and audit trails through the Avocent® HMX Advanced Manager.
- Small form factor transmitter available that takes up zero-U of rack space.

Certifications:

TAA, CE, FCC approvals.

Vertiv™ Avocent® HMX 6500R High Performance KVM Receiver

The Vertiv™ Avocent® HMX 6500R High Performance KVM System receiver delivers KVM and VM access without requiring additional hardware or compromise on KVM functionality.

- Crisp and clear picture quality, audio, and USB 2.0 to single/dual screens over a single 1GbE link.
- Real-time access to unlimited physical and virtual machines for a single human-machine interface.
- Dual-head displays for physical machines or Single-head display for virtual machines (not both).
- Virtual Machines count towards endpoint license.
- Accessible anywhere on any device with ease and security.

Part Number	Description
HMXAMGR24G2-400	HMX Advanced Manager Hardware 24 node Gen 2
HMX5160T-DVID	HMXTX SINGL DVID,USB,Audio, Zero U

Enterprise IT Infrastructure Solutions for Data Centre Vertiv™ Avocent® DSView™ Management software

Centralisation

IT administrators need to access IT devices from anywhere, carry out diagnoses and implement changes regularly. Regardless of the condition or status of the operating system or network, we offer a software solution which provides a secure, centralised management solution for all connected IT assets – the Vertiv™ Avocent® DSView management software.

When used in conjunction with serial console appliances, rack PDUs, service processor gateways and KVM appliances, the hardware and software combine to allow IT administrators to remotely access, monitor and control target devices on multiple platforms at numerous locations—anywhere, anytime.

When using Vertiv™ Avocent® DSView software you benefit from:

- Easier Administration
- A secure, browser-based user interface for central administration of the entire integrated IT
- Reliable Access
- Hub-and-spoke architecture allows for high availability and decentralised, consolidated and location-independent access
- Easy Expansion
- Easy to incorporate new technologies and provides an integration option for VMware, Citrix and Hyper-V – in addition to an API for own developments and third party tools and systems
- Higher Security
- Supports seamless integration with existing security policies, offers various authentication mechanisms and encrypts the entire data traffic

Service Offering for Channel

The Importance of Service Coverage

Vertiv offers a complete range of Service Programs specifically designed for products addressing EDGE applications.

The portfolio includes various options guaranteeing up to 10-year coverage to meet any possible customer need. Vertiv supports any application with an extensive service offering including installation, start-up, commissioning, maintenance, replacements, 24/7 remote monitoring and diagnostics and much more.

Highlights

Services for Single-Phase UPS Up To 20 kVA

Power Emergency (0-3 kVA UPS)

Five-year protection program to be purchased only at the point of sale, including:

- Advance replacement of faulty unit within eight working hours from incident ticket acknowledgement
- 100% coverage of electronic parts and failed batteries excluding battery misuse and/or reduced autonomy
- FREE shipping from a selection of European countries*
- 24x7 access to professional helpline

Power Assurance (3 kVA > UPS ≥ 20 kVA)

Five-year protection program to be purchased only at the point of sale, including:

- Advance replacement of faulty unit or on-site repair intervention** (at Vertiv discretion) within eight working hours from incident ticket acknowledgement
- 100% coverage of electronic parts and failed batteries excluding battery misuse and/or reduced autonomy
- FREE shipping from a selection of European countries*
- 24x7 access to professional helpline
- One Preventive Maintenance after the 3rd year performed by a Vertiv technician**
- Vertiv™ Life™ Services (Premier version)

Benefits:

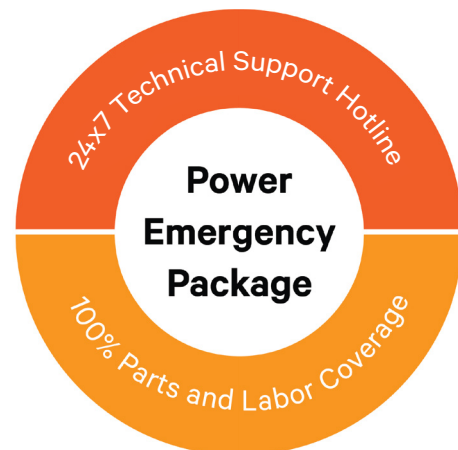

- Assured critical power delivery
- Optimised use of your IT staff
- Simplified small site UPS deployment and maintenance
- Instant access to power protection information
- Improved protection for your IT investment

Services For Three-Phase UPS and Thermal Management Equipment

Integrated Warranty Extension

One-year contract valid after the warranty period, including:

- Parts Included*
- Labour and travel included
- On-site repair intervention within eight working hours from incident ticket acknowledgement
- One annual preventive maintenance visit
- 24x7 access to Tech. Support hotline

OUR PURPOSE

We believe there is a better way to meet the world's accelerating demand for data - one driven by passion and innovation.
