FOREWORD

This is the first edition of the New Broadcast Band Log comprising all the stations in North and South America. The North American portion lists all stations in the countries observing the North American Regional Broadcasting Agreement.

This edition includes many times of stations that were not listed in the previous logs. Also a new network has made its debut, the Liberty Broadcasting System. No complete list has been received, but it is hoped to list these stations in a supplement in order to keep the network portion of the log up to date. All stations having no times listed will be contacted so they may be included as soon as possible.

If any errors are noted, please notify the editor so they may be corrected in a future supplement. Due to the meagre data received on the Cuban and Mexican stations we are not sure of all the listings, but we hope they are correct as far as possible. Sources in these two countries are being contacted for an up to date listing.

All inquiries regarding subscriptions, comments, and corrections are to be addressed to the editor, 2800 Alden Road, Parkville-14, Md. My sincere appreciation to those who have written and expressed their comments on past logs. I hope I may continue to supply the need as long as humanly possible.

EXPLANATION OF LISTINGS

Stations are listed according to frequency and power in use at the time this edition is published. Outstanding Construction Permits are listed in parentheses. Where a frequency change is involved, the station is also listed on the proposed frequency with the symbol 'P' to show that a permit for the new facilities is held. The power listed is that in use for Nighttime transmitting (excepting those stations with permits to broadcast Daytime Only). Where increased power is permitted during daytime hours this is shown in parentheses. All power is listed in Watts, except increased Daytime power which is listed in Kilowatts.

MISCELLANEOUS

The numerals at the extreme right of the station indicates the time on the air in EASTERN STANDARD TIME. Daily sign-on and sign-off times are outside of the parentheses, inside are the Sunday times on the air. For users of this Log in foreign countries add 5 hours to obtain the GREENWICH MEAN TIME and then convert to local time.

Slogans for the South American stations and addresses are given. To conserve space a slogan may be followed by (- - - - -). Where the spaces occur insert the name of the city and it will be complete.

The following additions and changes have been made to the pages of this Log:

These two lists will be a guide for the Mexican stations in the future. The Log will be listed by frequencies taken from the Official Mexican List. Any additions of new stations, calls assigned, or new frequencies advised by the FCC List will be kept on separate pages. Each year it has been our custom to receive an official station list from Mexico and check it with that of the FCC and each time it has been necessary to make numerous changes. So all stations will be listed both ways to avoid future confusion that I know exists. When the Mexican station list notes the station in operation it will be transferred from our listing to that by frequency.

Notes and abbreviations:

- (1) p is pence
 - (2) bo is bolivianos
 - (3) cr is cruzeiros
 - (4) c is Canal Zone cents
 - (5) ce is centimos
 - (6) fr is francs
 - (7) ct is centimes
 - (8) cs is centesimos
 - (9) cn is British West India cents
- c for all other countries is centavos with the Canal Zone exception.

The comparison of the lost from Cuba with that of our listing is with few minor changes, so we will continue the present listing until such time deems it necessary to handle it similarly to that of Mexico.

The above abbreviations do not necessarily represent the official abbreviation, they were used for convenience in typing this list.

The following changes and additions should be made to the Log pages to bring it up to date. This is the first supplement and contains all changes received after the Log proper was mimeographed.

We regret very much being so late with this log, but due to a broken typewriter and the amount of work involved it could not be helped. I wish to thank each and every one for their patience in waiting this out and hope it will more than pay for the probably anxious moments wondering if the work would be completed. Every effort was made to avoid errors but we know they have a way of creeping in even the best efforts. Please advise all such to the editor. Above all if you change your address, please notify me immediately so my records may be changed and corrected. Future supplements will be sent when deemed necessary. You may expect at least two and possibly three before the next edition.

This is the 2nd supplement to the BCB Log (1st was included with the Log when mailed) and lists all changes and additions. Mexico changes are separate as taken from the Official Government List.

In future editions of the Log, stations will be listed according to the Official Mexican List. Any changes or additions reported by the FCC will be kept separately on a special page. When the change occurs it will be transferred to the proper Log Page. We feel this way will eliminate a lot of headaches in trying to keep these stations straight. On the special page attention will be given to date of change and the expected commencement date. This will eliminate every year making the numerous changes as listed above.

This is the fourth and final supplement to the 1951-1952 issue of the BCB Log. This covers all changes through June 30, 1952.

If you have not already done so, may we ask if you would please send in your subscription to the 1952-1953 edition of the Log which will soon be typed. We would like to have all subscriptions in by July 25. There will only be one printing of this log and it will be based on the number of subscriptions received by this date. So if you desire a copy please advise me as soon as possible.
