FOR USE IN HOMES AND
FOOD PROCESSING PLANTS

DIRECTIONS

For general household use, spray liberally in all areas where insects are likely to be present. For food processing plants, spray all surfaces and equipment thoroughly. For stored food, spray all surfaces and equipment thoroughly. For crawling insects, spray exposed or accessible stages. For roaches, silverfish, spiders, ants, fleas, ticks, and bedbugs, spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames and pipes, toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places. Repeat as needed.

CRAWLING INSECTS

Exposed or accessible stages

ROACHES SILVERFISH SPIDERS: Spray infested areas thoroughly and direct the liquid behind baseboards, moldings, cabinets, shelves, sinks, door and window frames and pipes, toward drains and dark corners, and into cracks, crevices, recesses and similar hiding places. Repeat as needed.

ANTS: Treat shelves, cabinets and storage areas. Spray ant runs, trails, baseboards, thresholds and other places of entry, and treat nests liberally.

FLEAS TICKS: Direct the spray toward lower wall portions, baseboards, rugs, carpets and floors of infested areas. Spray animal quarters, kennels and the bedding of pets and other domestic animals.

REDBUGS: Apply liberally to top, ends, sides, and bottom of mattresses, spraying all tufts, seams and folds. Spray springs and frame, directing the liquid into all cracks, crevices and lock joints. Spray walls, baseboards, moldings, frames, closets, and bed room furniture with special attention to crevices, bedbugs, and breeding places.
